tention to the insufficiency of pure and by the magician's wand. simple trade unionism to emancipate the working class, but no socialist will to the poor about some empty reforms, take a job under the cover of "gatling guns on paper." Those who do that are DeLeonites and we ask trade unionists trusts, telling them that if they only to understand it.

The trust is the union of capital; the trades union is the trust of labor. Both are the nasural outcome of our present system of competition and wage slavery; so next fall when you hear the poitical fakir and the labor fakir howlng to smash the trust pay no attention to him, he is only a servant of the small middle class labor skinners, the rotten fringe of capitalism who are shaking in fear of their coming doom. On the other hand, if it were possible to smash the trust, which it is not, the very first trust to be smashed would be the trust of labor, namely, the union. That would be the revenge of the trust of capitalism, and then the capitalist would not be smashed, as its owns, you might say, body and soul, every judge in the land. So, you see, Machinist's Monthly Journal.

THE MAGICIAN'S WAND.

An Allegorical Story of Conditions as They Exist at Present.

A stranger stood upon the shores of a great and beautiful country. As he was contemplating the beautiful scenes before him he heard ominous murmurs of discontent throughout the length and breath of the land that at times rose to such volume that many of the people near him turned pale with fear; and the stranger wondered much why there should be so much discontent in such a beautiful and fruitful land.

An old man, seeing he was a stranger. engaged him in conversation. The stranger expressed his wonder at the nurmurs of discontent where everything seemed so beautiful and prosper-The old man said to him:

"I am a magician, and if you so will, will draw aside the veil that obscures our vision and show you this beautiful land as it really is."

"But," says the stranger, "there is o veil before me. I can see everything there is to be seen, and I see no cause for the murmurs I hear."

The old man smiled and touched the stranger with his magic wand, and lo! the veil was reat and, while yet seeing the same scene he saw before, he saw so much more that it made him sick with horror.

He saw grand churches costing thousands filled with fine indies and gentlemen whose raiment cost untold wealth, pretending to be following the teaching of our meek and lowly Savior, while within ear-shot he could hear starving babes wailing their lives away in the arms of parents from whose hearts all

He saw men spending thousands upon supper, while on the curbstone outside a mother stood with her little babe in her arms starving and freezing to

He saw a woman at a public gatherng whose costume and ornaments cost \$250,000, and within a stone's throw another woman starving and freezing, whom \$5 would have made comfortable, He saw rich girls sell themselves to

foreign roues for a title, and the people all shouted their approval. He saw poor girls sell themselves for the means to keep life in their bodies and the peo-ple shouted "For shame!" He saw rich girls guilty of an indis-

cretion spirited away until their "trou-ble" was over and then received by sogirls guilty of the same offense ground into the dust by public opinion. He saw innocent childhood and de-

crepit age compelled to compete with rong and unscrupulous manhood for the means of existence.

He saw honest girls compete with girls with "friends," and homeless girls ompete with girls who had homes and just wanted pin money.

He saw men competing with their own children, and the children competing with the machine.

He saw, honest men trying to compete with thieves; honest dealers with dishonest ones; the man with small means trying to compete with gigantic combinations of capital

He saw throughout this beautiful and fruitful land a terrible struggle between nine-tenths of the inhabitants struggling for the means of existence, while the other tenth, which had all the means of existence, sat just above them and idly watched their struggle.

He saw the lower class, when they and ask for some of their plenty. This he saw was refused, but the idlers made a proposition to them to let them use the idler's means of production, prowas produced except enough for a bare existence for the worker.

revolt and ask for more of what the produced than just enough for existnally, simply sat and waited for then to starve into submission. Sometime oldiers were hired to murder a par of them so the rest should have du respect for the rights of the idlers. .

All of these things, and many more did the stranger see, and he again ex

"as you have been touched with the wand you will see the cause.

He therefore looked again. He saw what was supposed to be a free government, where the common people were supposed to elect men to make laws for their eyes that he had formerly had, Socialists will never cease to call at- while the rich people had been touched

The rich people hired tools to spout such as free silver, single tax, tariff, gold standard and down with the got these reforms they would cure all their troubles.

The name given these tools was "politicians." They would spout about another country oppressing its while their own army was in a foreign country with a sword in one hand and a chain in the other, offering the na-They would spout about the starving people of a neighboring country, while their own country was filled with tramps and their cities with starving women and children. They would spout about imperialism and the indignities offered this country by another nation to detract the common people's attention from a law that places the bankers hand upon the throat of every man, woman and child in the nation.

They would spout about the oppression of militarism abroad, while forcing citizens of their own country to sign a petition for a continuance of it at home or leave their homes.

They would spout about protection and allow one corporation to rob the people of hundreds of millions. And the stranger wondered much at all these contradictions and subterfuges, and looked for the cause, and he saw that the whole rotten construction of intrigues, thievery, lying, starvation, murder, oppression, long hours of labor, lives of idleness, ignorance and suffering was built upon one small point: The private ownership of the means of production.

The magician then saids "We have seen what is, let us see what will be, and he touched all of the people with the magic wand. The change was wonderful. They rose up as one man and did away with one thing, private ownership of the means of production. And the whole rotten structure fell of its

own weight.

The law books were thrown away: the lawyers, judges, politicians and plutocrats went to work; jails and court houses were turned into schools; everyone had plenty; children had play time and schooling; old age had rest and care; fathers had employment and assurance of their children's welfare and of their own maintenance in old age; mother's hearts were satisfied-all done by the magician's wand.

The veil is ignorance. The wand is Knowledge. The magician must be Yourself.-R. R. Tripp, in Electrical Worker.

As Others See Us.

A cold-blooded truth crops to the top once in a while, and though it may not be pleasing to contemplate, it may b fraught with more than common i est owing to the source from which emanates. The story is going the rounds that a banker, taking slarm at the rapid spread of trade-unionism and the awakening of the working people to their class interest, wrote to a friend, who was an extensive employer of labor, and asked him whether nothing could be done to check the spread of the new gospel. What could be done to avert the danger to their class interests which would come when the workers were thoroughly awake, was the point emphasized in the banker's communication. The answer he got is well worthy of perusal and study. Read it and see if there isn't just a trace of the living truth to be found in it. Read it with care and ask yourself whether you haven't thought the same as this employer of labor does in his brutally blunt epistle. Here it is:

blunt epistle. Here it is:

A slave is no more willing to have the shackles struck from his limbs than the working people are to lift a hand in behalf of their rights. Some of their leaders howl and try to arouse them, but it's all wind. Nothing will come of it. One-half derides the rest, and hence will remain helpless. Their votes tell the tale. They want masters, and don't desire to be free. All we have to do is to smile on one and kick the other. The fact of the matter is that they think they are helpless. It's our duty to make them believe it. An empty stemach and a naked back is our argument. That is all we need to remain masters. With all their growlings during their secret meetings, next day they are first fo discredit their leaders, who work for principle and without remuneration. The whole thing in a nutshell is that they are to cowardly; they are unwilling even to vote for themselves. eration. The whole thing in a nutshell is that they are too cowardiy; they are unwilling even to vote for themselves. They realize they are our slaves. Let them believe it—it pays us. We would be fools not to use them in every way to coin money out of them. Have no fear of the workingmen, as. they'll never disturb our mastery, for where cowardice is added to ignorance, re sistance to power is impossible.

If it was a labor agitator who had penned the above, or even one of those nuch-maligned disturbers. ing delegate," who had deen guilty of such an expression of opinion, it would ing as it does from one as directly interested, it is worth more than passing onsideration. Read it over again, and think. Then do a little more thinking. Then vote.-Machinist's Monthly Jour-

"My country 'tis of thee, Still land of slavery. To thee I sing; Land where the rich and high. Thy sacred laws defyere thousands starve and die, Where Gold is King."

g the foot that kicks him.

. THREE GREAT IDEAS.

Liberty, Equality, Fraternity, the Hope of the Human Raca

The hope of the human race has em bodied itself in the three great words, liberty, equality, fraternity. Words are things; things are the historic manifestation of the degree of consciousness attained by man in the conquest over and in the analysis of what he deals with; words name the forms of material substance; words name the forces to which substance conforms; words express the design which is impressed in substance by force. The ideal state which liberty, equality and fraternity connote is still a vague dream, while the real state slowly shapes itself according as the ideal design reveals itself and as the necessity of economic development thrusts it upon the actors

Liberty! That ever progressive condition which gives us freedom from restraint! The extent of our freedom depends upon our confine of liberty In the world of emotion liberty may mount high and yet higher to the top rung of human aspiration. If emotion fall below the normal poise, liberty turned to license may descend down to the bottom of the bottomless pit. Only man himself puts bolts, bars and chains on the activity of the mind. The greater the capacity to feel and think, the larger the range of liberty, of reason. The environment which sustains and stimulates capacity gives the possibility for larger liberty.

Let us hall liberty as the first pre requisite to the establishment of a state in which vastly improved environment will again react, by increased capacity, in the elevation of that ideal state to whichtwe all look for the pattern by which to work.

Equality! To accept the anarchistic philosophy of independent individual nction is to cut off reciprocity, therefore to break down physical structure—to annihilate mankind. To accept the fundamental principles of socialist science, the organic unity of the race; (which is demonstrable whether one believe it or not), admits of the manifestation of equality in opportunity, up to the point of capacity, on the basis of citizenship.

A democratic state is reasonable and calls. obtainable! Fraternity is a social quality! Only

great men who are conscious of their own inherent right to life, in interdependent relationship with mankind are able adequately to respect the rights of other men. Only lofty souls who will not rule and who cannot be ruled attain the commanding virtue of fraternity. To be a dominant leader amongst men is to be great in contrast with the mpany of the servile. . To speak the SOCIAL VOICE of executive power and to perform the social act of authority according to the command of a fraternal body of men of various stations and attainments is proof that liberty, equality and fraternity are living factors that are playing great parts with great men.

combined qualities of these three words have been and still are forcing recognition, first in emotion; second, in thought, then in action which registers its pathway throughout all the ages.

The sharp analysis of the great re publican, Victor Hugo, brought the motive power of the three words, as applied directly to citizenship, to this statement: "The rights of one citizen end where the rights of other citizens ' So powerful is the combina tion that kings tremble before it even when men cherish it in secret. It sees the light in the stowny days of revolu when personal consideration is flung to the winged winds. It is pas sion; it is power. It is the fine mantle of democratic courtesy; it is grace.

The love of citizenship, it is, that is gradually embedding itself in the institutions of men-in governments. Upon the proclamation of our republic of equal rights to life, to liberty and to the persuit of happiness for all, we still formed a part. Believing on election build. Its flame burns brighter and ascends higher as the years go by. The love of liberty, the justice of equality, the dignity of fraternity in action, hastens a higher civilization, made possible, nay, necessary by the evolution in industry. The individualistic methods of producing wealth with its hand tools and its puny power is a thing of the past and along with it has gone the isolation of men. Today wealth production is social in its char-Chains of activity are set up that link men of different crafts and minute subdivisions of different crafts throughout the country and throughout the world to the performance of a single task. Each person who performs useful labor aids in sustaining each and every other worker in the civilized world-while it is equally true that those who are able but do no work are paupers living by the sufference of the workers.

Says the artist, La Farge, "Art is the love of certain balanced proportions which the mind likes to discover and to bring out in what it deals with, be it thought, orathe actions of men, or the influences of nature, or the material things in which necessity makes it

Socialists have discovered that th qualities of liberty, equality and fraternity in balanced proportions may be maintained in the relations of mer ascending up through the commercial political, social artistic, moral and spiritual life of man.

resolved upon. Wage workers, because their necessity is greatest, first speak the fraternal voice at the polls, that wage slavery and economic mastery shall be abolished, and that social liberty and economic equality be insti-

CAPITALIST "PEACE."

A Military Display Intended to Impre the Striking Workmen

"Respiendent in naity uniforms with buttons glittering in the mounday sun, two thousand stalwart warriors marched in grand review. The chief, with his hair whitened by years or service, appeared the typical soldier, as he rode a handsome grey horse, leading the procession. All the men moved along like a cavalende of veterans long used to the intricacles of army life.
"Trailing along in the rear came a

used to the intricacies of army life.

"Trailing along in the rear came a battery of artillery, consisting of four guns and a gatling mounted on calsons and drawn by four fine horses. Capt. Adam Barber, the old artillery man was in command of the battery. Then followed the ambulances and patrol wagons."—Chicago Record.

Lest the above might possibly be mis taken for some of the scenes that are now taking place in South Africa we hasten to assure our readers that such s not the case. The spectacle in question appeared on the streets of this city on the 25th inst., and although peace apparently reigns in the United States curiously enough it evoked very differ ent manifestations of feeling amongs the spectators. The ranks of the marchers were composed of men who are generally dubbed "guardians of the peace." and this demonstration of the instruments of war, was intended to give evidence of the ability of the aforesaid "guardians" in preserving the "peace" which is entrusted to their care.

One portion of the spectators along the line of march expressed their approval by cheering and handclapping, while another portion welcomed marchers with groans, hisses, and cat-

This warlike display was given to emphasize the fact so well known and so often repeated amongst those who are known as "labor leaders," that the interests of the employer and employe are identical.

Sometimes the latter show a tendency to disbelieve this fundamental proposition, and at such times these demonstrations become necessary. They can be reasonably expected to be effective so long as the belief in these identical interests, upon the part of the workers, asserts itself on election day, by a ma fority of ballots cast for either the Republican or Democratic parties.

It is interesting to consider the so licitude with which the ruling classes upon all occasions persist in instilling nto the minds of the workers this theory of identical interests. Over in Europe when the faith of the laborers in this dogma shows signs of weakening, it generally becomes expedient to hold a grand military review which is often effective in restoring to some extent this portion of the old economic faith.

That part of the spectators who ex pressed their disapproval of the demonstration, were well aware that its purpose directly concerned them. They knew well that the force here displayed was intended for use against them, the the cannons, gatling guns, and trained artillerymen, were trailed in the pro cession as a distinct warning that they should behave themselves; and know ing this they resented it accordingly. But they were not aware that this erce which was used as a threat of coercion against them, could only be so used as a direct consequence of the political action of the class of which they day, that their interests as workingmen were identical with those of their economic masters, they, by their votes placed the public powers in the hands of the latter only to find it used against themselves when they attempted further their interests which they oolishly believed were also the interests of the bosses. And until these men recognize the

fact that these interests are not only not identical but absolutely opposed and give expression to such recognition at the ballot box, by voting for socialsm, which will secure to them their highest interests, the full product of heir labor, so long will they greet these demonstrations with impotent curse and futile demonstrations of anger.

And just so long also will these spe tacles of the power of the capitalist class appear in the streets when neces-

The parade of the police force with its artillery detachment, is in itself a esson on the necessity of socialism, which workingmen will pltimately have to learn in any case. Once learnt, such spectacles will disappear forever, along with the class in whose interest they are now being employed. . .

QUITE SIMPLE.

Mr. O'Hoolihan Gets a Pointer on How to Avoid Poverty.

North Side women became in from the world of bread and butter, ascending up through the commercial, political, social artistic, moral and spiritual life of man.

The Co-operative, Commonwealth is resolved upon. Wage-workers, because their necessity is greatest, first speak their necessity is greatest, first speak the fraternal voice at the polis, that wage slavery and economic mastery shall be abolished, and that social liferry and economic equality be instituted.

The flaming light of liberty rests on

PLATFORM.

The Socialist Labor party of the United States, in Convention assembled reaffirms its allegiance to the revolutionary principles of international socialism and declares the supreme political issue in America today to be the contest between the working class and the capitalist class for the possession of the power of government. We affirm our steadfast purpose trues those powers, once achieved, to destroy wage slavery, abolish the institution of private property in the means of production and distribution, and to establish the Co-operative Commonwealth.

In the United States, as in all other civilized countries, the natural order of economic development has separated society into two antagonistic classes—the capitalists, a comparatively small class, the possessors of all the modern, means of production and distribution, Cand, mines, machinery and means of the capitalist class of the working class and the capitalists, a comparatively small class, the possessors of all the modern, means of production and distribution, Cand, mines, machinery and means of the capitalist class of wage earners, possessing no means of production.

This economic supremacy has secured to the dominant class the full control of the government.

increasing class of wage earners, possessing no means of production.

This economic supremacy has secured to the dominant class the full control of the government, the pulpit, the schools, and the public press, thereby making them the arbiters of the fate of the working class, while it is reducing it to a condition of dependence, economically exploited and oppressed, intellectually and physically crippied and degraded, and its political equality rendered a bitter mockery; and the collect between these two classes are foundation of color, race or sex, and upon all citizens in sympathy with the middle class depending upon them. Ever larger grows the multitude of destitute wage workers.

The evil effects of capitalistic production are intensified by the recurring industrial crises, continually rendering the existence of the greater pair of the population more precarbous and uncertain, which amply proves that the modern means of production have outselved and the existence of the greater pair of the population more precarbous and uncertain, which amply proves that the modern means of production have outselved and the conduction are intensified by the recurring industrial crises, continually rendering the existence of the greater pair of the population more precarbous and uncertain, which amply proves that the modern means of production have outselved and the conduction are intensified by the recurring industrial crises, continually rendering the existence of the greater pair of the population more precarbous and outselved and the co-operative Common-wealth of the population more precarbous and of the capitalist intensified by the recurring the intensified by the recurring industrial crises, continually rendered and the co-operative Common-wealth which are purposed to the capitalist system of the capitalist class.

The working class can not however, the weak as calss in its struggle against the cellective power of the capitalist class.

The working class can not however, the case of as case in the calls in the collec

childrens' clothes were ragged and We are always anxious to obtain there was scant covering at night, not-makes to which to send sample copies, withstanding the constant tolling of the Do not be afraid of sending too large a father. The interested women appealed to the charitable organization to try to the charitable organization to try to secure inside work for the worthy man that would pay enough to give adequate food and shelter to his family. An agent was dispatched to look up the case. His report was turned in and was sent last week to the charitable North Side women. It contained this comment and this recipe for the removal of the poverty lils of the peddler: "I have seen Mr. O'Hoollhan. He is honest, hard-working and worthy. As a way out of his troubles I would suggest that he save enough in summer/to gest that he save enough in summer/to carry his family though the winter/*— Chicago Tribune.

The following remedy for the starva tion and suffering of the working classes has just been suggested by a party whose estensible business it is to make a specialty of the subject. It is to be hoped that its effectiveness and simplicity will prove so convincing to Mr. O'Hoolihan that he will at once proceed along the lines indicated, and thereby not only rid himself of his troubles but help ease the enormous mental strain which the sociologist had ecessarily to undergo before evolving this ingenious remedy.

It is to be hoped that when Mr. O'Hoolihan hears this verdict that he will not forget his reputation as "honest, hardworking and worthy" and indulge in disparaging remarks concernng the advice so generously given. He should remember the superior and speial qualifications of the gentleman who as so kindly shown him the way out of his troubles, and accept the suggestion in that becoming spirit of meekess which is so characteristic of the 'deserving poor." Mr. O'Hoolihan is cknowledged to be in himself a re ository of all the virtues-that is, all save one. The one thing lacking is the 'virtue of thrift" which if he will only add to his other good qualities the O'Hoolihan fortunes will at once take an upward turn, and enable him to take his place amongst those shining lights of capitalist society who now count wealth by millions, and who at the same time have In their early days struggled with adversity and poverty of a depth and bitterness of which Mr. Hoolihan can harly conceive. He will remember that many of these gentlemen during the period in which they were, laying the foundations of their future prosperity, were often in the habit of supporting a willowed mother and a dozen or so younger brothers and sisters on somewhere about seventyfive cents per week, and even from this imited sum managed to save a considerable portion which served as a pasis upon which was built the plenty which they now enjoy. It is only necessary to accept these accounts with that beautiful childlike unquestioning faith which the workers have always shown, and upon which the security of present society is still founded. There are of course some incredulous and inquisitive persons known as socialists who hold that the advice given to Mr. O'Hoolihan is absurd and impossible but if their ridiculous ideas could be carried out, charity organizations would disappear and the worthy peddler be left without a guide to direct him on the road that leads to wealth and abundance. With such undeptable proofs of the results of thrift constantly before him Mr. O'Hoolihan should discard all ideas of the impossibility of 'saving" and endeavor to emulate the example of the familiar character de-

scribed by the poet as "The soldier who lives on his pay, And saves half a crown out of sixpence a day."

The man who is not willing to investigate the principles of any party but his own, is like unto a juryman who is not willing to hear the evidence on but one side of the case he is sworn to try.

That offer of ten three months subs The for a dollar is still

abroad and enhance its supremacy at home.

The introduction of a new and higher order of society is the historic mission of the working class. All other classes despite their apparent or actual conflicts are interested in the upholding of the system of private ownership of the means of production. We therefore charge that in this country the Democratic, Republican and all other parties which do not stand for the complete overthrow of the capitalist system of production, are alike the tools of the capitalist class.

The working class can not however, act as a class in its struggle against the collective power of the capitalist class except by constituting itself into a political party, distinct and opposed to all parties formed by the properied classes.

We therefore call upon the wage

Strike at Quincy Stove Foundries - Just Suits Them.

MEN PRODUCED TOO MUCH. to centrol the political power?

Masters Will Go to the Paris Exposition While Workers Starve Until Stock Is Reduced.

stove founders of Quincy have been ex- simply one more proof of the fact that isting for some time on from a \$1 to decided that they wished to come a lit- analysis the capitalist politician belongs tic nearer living and struck for a 20 per cent increase. The bosses at once welcomed the strike declaring that there to bear upon the trade unionists of was an overproduction in those lines and that the proposed strike gave them opportune as it came just at the time hen all the stove manufacturers were have a meeting of their association New York. All the employers acrdingly started for New York leavtheir employes to meekly wait or rve while they had a vacation. One

attitude toward the men in that they refuse to treat with the union but express their willingness to meet individuals, well understanding that in treating with the men one by one the laborer nearest starvation sets the standard time you stopped fooling with labor for all the others and that once the union is destroyed all hope of resistance on the part of the workers is gone. Hence whatever else happens the men must maintain their union organization if they ever hope to gain anything.

bing to the Paris exposition while the

But does it not strike the laborers as a rather strange situation in which their local unions. they find themselves? The foundries, the tools and the buildings are still in Quincy. They were made by the laborers of Quincy and can only be used by them. The employers could never produce a stoye and will never attempt it. Why then must the workers of Quincy starve while those who never built a foundry or cast a stove are on a pleasure trip to New York or Paris? Is it not simply because the employers have the laborers into helping make laws which declare that the fools, machinery, foundries, etc., shall be the property of the capitalist class and that the laborers can only live by selling themselves piece-meal to those owners? Why should not the stove workers of Quincy imitate their employers and world declare that what the laboring class creates it shall own and that the mines, factories, including the Quincy stove works shall be the property of those who work in them? When this is vacation indefinitely, save that their source of supply will be cut off. The laborers will retain all their product and produce until their wants are satisfied and then stop and take-a vacation of their own while they consume what they have produced.

PROOFS OF "PROSPERITY. Laborers Kick, and Their Masters Shield selves Behind the Powers of

LAYING ON THE LASH.

Capitalism Brings Up Its Reserves to Force the Unions Into Line.

It is now announced that the Chicago banks refused to further honor municipal warrants unless the labor men were The cleaners and grinders of the discharged from the city hall. This is relying on capitalist politics always a day. During the past week they fails when most needed, as in the last bag and baggage to the capitalist class

Still another whip has been brought

Chicago by the employers. Having brought the executive, Carter Harrison ust the opportunity of closing the mills and the police into line, they swing the hey needed and that it was particular-judicial club. The present grand jury. chosen from the boulevards and the "respectable" classes and including a few-contractors, is busy indicting the more active union men for various of fences against capitalist law. Still another capitalist battery was trained on the trade union position from behind aployer announced his intention of the judicial bulwarks this week. Judge Tuthill has just declared the provision in the contracts for Cook county work Meanwhile they have taken the old that none but union labor be employed, to be unconstitutional.

The whole Chicago strike situation may be summed up by saying that the employers have said to Carter Harrison and the democratic politicians, "It is and tended to the business for which we keep you." Meantime the laborers are making a magnificent fight, and are worthy of all support and we hope that the comrades of other cities who are members of unions will respond liberal ly when the call for assistance comes to

THE ST. LOUIS STRIKE,

How the Capitalists Expect to Use the Street Car Mail Service.

The employes of the St. Louis Transit company have all left work in order to secure their right to organize. It appears that some time ago the general manager set out to "bust the union." He organized a "scab union" to break united with the other employers to fool the regular organization, discharged these who are striving to build up their union and gave special privileges to those who were trying to wreck it.

At last when it became evident that in a short time their only weapon of united defense would be taken from them the men struck. Although no disorder was attempted by the men or uniting with the laboring class of the even alleged to exist by the employers, 500 "private watchmen" with full police powers were sworn in.

The union men propose to run various lines of vehicles to accommodate all passengers who are in sympathy with done- the capitalists can extend their them. The men are standing solidly together and are making preparations for a hard struggle.

One remark by Edward Wittaker, president of the Transit company, is significant in view of the fact that the situation to which he refers exists on nearly every great street railway system in the United States. He said:

"The power houses will hardly be bothered in case of a strike, for, in case that should be done, the United States government would immediately step in. Shutting off the power would obstruct the United States mail. We have contracts on every line of the road."

This is what the socialists have often pointed out-that the carrying of the mails by the street car lines was simply in order to make the calling in of the United States troops easier in case the workers were not sufficiently submissive.

This Means You. Have you filled up the blank for cam-

aign subscriptions that was in your paper last week? If not, why not? There is not a single one of the subcribers of the Call that cannot either afford the time to fill that blank by collecting the fifteen cents of each subcriber or afford the money to fill it in with prospective converts tribute the dollar and a half. If not working he can do the first-if employed, the second. In either case there s nothing he can do that will bring him in equally good returns.

"MEN WHO COUNT" A "FAIR DAY'S WORK" that of the capitalist and that of the

Our Boasted Democracy.

RECOGNITION OF CLASS RULE. AGREEMENT IS IMPOSSIBLE.

The ."Chronicle" Points Out Who the The Opposing Interests of Both Class Boer Envoys to the U. S. Will Have to Do "Business" With.

The press dispatches from Europe last week contained an item which should make the "reformer who believes in all the people," do some hard his own nigger," so the capitalist class thinking, that is, of course assuming of the present day proclaim their right that the individual in question is com- to extort the greatest possible amount petent to do so. Here is a slap in the of labor power out of the white slaves face for that very indefinite abstraction which, frothy and empty-headed word jugglers deify under the name of "the and it is only necessary to The press dispatch in question says as

What is the meaning of this? Isn't this a "government of, for and by the And yet here is a matter which the bearers intend to lay before the whole people of the United States, and long before it arrives, a foreign capitalist organ prophesies its fate, not at the hands of the whole people, but at those of the "men who count."

Surely the intelligent gentlemen who run the London "Chronicle" must have eard many times that in this land of the free, where pure democracy reigns triumphant, all men count equally? How comes it then that they con clude that this matter will be settled by a fraction of the population, and that the views of the rest are of no nsequence?

There is one answer and one only who own and control the means of production and distribution, are the masters of the rest, and can enforce heir opinions through the medium of their political tools. Being economically supreme, they are the "men who count" and they will settle this question as they think best, and the enormous mass of those that "don't" count will have to grin and bear it.

The "Chronicle" has in all probability correctly forecasted their action. This organ of British capitalism assumes that the material interests of the "men who count" in the United States, will not be furthered by entertaining and acting upon the views which will be presented to them by the Boer delegates, and from this assumption draws the logical conclusion that the latter will fail in their mission.

The "Chronicle" lays no stress upon the supposed predilection for republican forms of government which is said to influence the action of the United States, shows no alarm about the desire which the average American is popularly supposed to possess in helping a "struggling sister republic" to the "rights of free peoples" is going to cut any figure in this question. While it does not altogether leave them out of account, the "Chronicle" understands perfectly what it is that always determines the actions of the "men who count," and it deliberately places this raging full of sentimental trash in one ESTS of the "men who count," in th other, and sees that the latter kicks the beam while the former springs into the

The "Chronicle" knows well that if men who count" in the United States, that the interests of American capitaltheir cause than by leaving it alone, their mission will be a failure

Incidentally the "Chronicle" puts a acuse what they were pleased to call "public sentiment" on behalf of the oers, those statesmen who attempted to pass "resolutions of sympathy" with our "sister republic" the Transvaal, ose cheats and dupes who congregated in mass meetings and filled th air with impotent denunciations, windy esolutions, useless cratery, and frothy sentiment. They are ciphers. don't count."

All the declarations of independence all the most eloquent and beautiful apostrophes to "liberty" ever written. tagonism with the interests of the rulinig class. They can only become real Socialists call it the cialism, the economic and political supremacy of the vast masses of producrs, who at present "don't count

If you can't attend the Pauls Expe ition of socialism in the colans of this paper?

London Press Accurately Sizes Up As Capitalists and Workingmen Define It.

Destroy Its Reality and Render It a Myth.

As the southern planter of pro-slavery days proclaimed the God-given right of every white man to "wallor who sell themselves in the modern la bor market. Although this declaration is disguised under the indefinite phrase, ha fair day's work for a fair day's walt and see what they will do about it. | wages," there is no mistake as to its meaning, as anyone who knows anything whatever of the intensity of speed at which the modern wage slave is The departure of the Boer delegates from Holland to the United States and what they have said of their purposes and hopes draw British attention to American views of the war.

Today's Chronicle says: "The men to the United States are not likely to accept the views which Messrs. Fischer and Wessels intend to place because and Wessels intend to place because when the solution of the purchasing the same ways to the purchasing factor than a see that possible profits driven can testify. Whenever, favored death. As it was two workingmen capitalist who sees his possible profits curtailed by the fact that he canno compel the human commodity which he has purchased with his good money on the open market, to cram thredays' work into the space of one.

And conversely, when the opposition of the workers in this respect is broken down, and an almost unlimited vista of exploitation dawns upon the purchase of labor, a mingled chorus of triumph and satisfaction goes up, which shows how keenly the capitalist appreciate the restoration of his "rights" in this

A capitalist paper of this city, who attitude towards rebellious workmen is much the same as that with which the devil is said to regard hely water, omes forward with the following exultant screed concerning the fact that the Plumbers' union has been com peried to relinquish its rule limiting the amount of a day's labor in that trade:

The Plumbers' union has left out of its

The Plumbers' union has left out of its new form of agreement the clause regulating the maximum amount of work to be done in a day, thus leaving the members of the union free to do a fair day's work for a fair day's wages. The employer will be tortured no longer by the sight of men who are doing only one-half as much work as they ought to. It is in order now for other unions which have rules limiting unreasonably the amount of work a man shall do in a day to rescined them. The men who are responsible for the adoption of such rules, which have had so much to do with bringing about the present deadlock in building operations, ought to be convinced by this time that there is a point where the patience of contractors and of explicates will not stand the strain of the demands of "organized labor." If these limitations on work were oult of the way, and there were any guarantee against "gympatheic strikes," doubtless building operations would be resumed speedily and the workingmen have an opportunity to earn some money.

"For this relief, much thanks," The "tortured" employer will now have an opportunity of turning the tables on the wicked and unscrupulous workman plant that their labors have created who refused to allow his life force to be and which today they can alone opertorn away from him by the intensity of the labor process. The victorious capi- proval of these conditions. But aleady talist will resume his natural and rightful position as "torturer." and get every ounce of energy possible out of his purchase. Harmony will be once more restored and-"profits will ac-Did the journeymen plumbers con

sider that the maximum which they placed on their labor constituted a "fair day's work." It may be safely said that they did, every mother's son of them. Did the employers consider it so? Not a single one of them. Will the Boer delegates cannot show the the plumbers consider the increased day's labor which they will now have to perform, a "fair day's work?" No. ism will be better served by taking up every one of them will consider it too Will the employers agree with this view? No. on the contrary they will still think they are not getting

This idea of a "fair day's work" is absolute bosh. And the "fair day's wage" is ditto. There isn't now, there was, and there never will be "a fair day's work" so long as the wage system exists. And the idea of "fair wages" is in itself a contradiction.

There is no workman but wants to get more wages, and no employer but wants to give less

There is no employer but wants to out wants to give less. There is an irreconcilable antagonism between the wo which can never end until the bresent relationship between them is ended. The capitalist paper in question need not fool itself over this matter. There athetic strike or the limitation of a lay's work. Any victory which either

while the capitalist system exists. The "fair day's work" is judged from two tetally different standpoints, viz.,

sequently different-every time. The same observation holds good regarding the "fair day's wage."

Any apparent agreement is but the result of compulsion on one side or the

This condition will cease only with the abolition of the capitalist system of production. When that occurs there will be no wage, but the "fair day's work" will become a reality.

It will be judged from one standpoint aly-that of the man who performs it. Big or little, great or small, fair or unfair, the social value of that day's labor shall be his. No less and no

A MODERN DEATH TRAP.

How the Slaughter of Laborers in the Illinois Steel Mills Is Carefully . Suppressed.

The Illinois Steel company added anther to the host or industrial murders for which it is responsible last week. A car containing twelve tons of molten metal was capsized over a pit full of workingmen. Fortunately there was time for a moment's warning that saved most of them from a horrible were fatally burned and a number more received injuries that will make them valueless to their owners, the Illinois Steel company, and hence leave them that most pitiful sight of our modern wage system-slaves without nasters and hence with no right to live It is not generally known how great a laughter house of workers this imnense industrial concern really is. It will be remembered that it is one of hose benevolent institutions in which ur friend Rockefeller collects the contributions of the workers for the support of foreign missions and theological Under the laws of the state of Illinois, framed in the interest of the owning class, there is nothing to ompel the employers to in any way eguard their machinery. The result is that at the present time this enornous industrial plant is simply one tremendous death trap. Unguarded and dangerous machinery of all kinds

abound and there is scarcely a day when the life of some poor wage slave s not offered up on the alter of this nodern Moloch, while accident ing the loss of an eye, a hand or a limb are so frequent as to scarcely attract attention and are carefully kept from the public press. The corporation maintains a "Com pany Hospital" within the walls of the plant, to which all who are injured cies of a "Company surgeon", whose first business it is to protect the firm

within the works MUST be taken and where they are subjected to the meragainst damage sults and after that to incidentally practice his knowledge of surgery upon the helpless victim. It is no uncommon thing for the relatives of those injured to be denied access to produced the Wealth it represents are their husbands, fathers or brothers who are incarcerated in this combination of the inquisition and a butcher shop, lest they affect the decision of the victim before the corporation attorney has had time to "adjust" the claim.

Every year a majority of these em ployes go to the polls and cast their vote for the democratic or the republican candidates and hence for the system of private property in this great there are signs that they are beginning to realize their mistake and two strong S. L. P. branches, one among the Polish and the other composed of the English speaking comrades is a promise of the day that is near at hand when these conditions will be no more.

The Carter who was defeated by Hanecy, must not be confounded with the gentleman of the same name who was lately whipped by the "business men" and Contractors' Council of Chicago.

Bishop Hartzell declared that there ras "as much independence" under the British flag as under the American, a statement which doesn't throw much light on the amount and quality of the said "independence." eyer, as a rule don't inquire too closely into such matters. If they did, they would get themselves disliked, and they

John W. Gates is to be "examined' in the courts. John has warned his "examiners" that he wants to go to Europe at once, and that they would do well to rush their "examination" through as speedily as possible, a warning which they were quick to comply with recognizing at once that John wasn't

Comrades of the Fourteenth ward will please take notice that a meeting of the branch will be held Sunday, May 13th. 2 p. m. sharp, at Schoenhofen' hall, corner of Milwaukee and Ashland portance are to be discussed and the attendance of all comrades of the branch is earnestly requested.

The judiciary is entirely nonpartisan in the matter of injunctions.

Even with a union of forces socialism will not come if we all sit down and fold our hands.

John W. Gates is not afraid the courts will do anything to him; he has too much money.

The lawyers will not have all of the snaps just as soon as the workingmen get "onto" the cobination.

Socialism means that the negro's vote should be in the majority. The socialist state will have no need

for the fellow who can bring in a solid delegation from his ward.

Possibly Mr. Bryan has never heard of the bull pen. Mr. McKinley has and he is thoroughly tired of it.

Nowhere is there the suspicion of a hint that Bryan does not believe in the doctrine of private property.

Carnegie has given away several million dollars in the past year and he did not earn a dollar of it either.

"A vote for McKinley sanctions the policy of shooting down Filipinos who have never done us any wrong.

We are not exclusive enough to want an American movement. International socialism is good enough for us.

Alleged socialists who are afraid Debs will beat Bryan should vote for him that he may beat McKinley also. It is getting so that it is considered a

great victory in Europe if all other parties combined can beat the socialists. Mark Hanna does not mind kicking on 364 days in the year just so the peo-

election day. Modalism in our day may be accom-plished if we can just get the good word to all the people. Help circulate the party papers.

ple wake up and take his medicine on

One step at a time we will take is to capture a city here and there and to elect a few members of the different state legislatures.

The workingman's family is entitled to as many good things as the family of the banker and they can have them, too, if he only votes right.

Great quantities of gold are being shipped to Paris but the people who not going along to spend it.

Laboring men have the numbers. Have they the intelligence? Does the number of lawyers and bankers in one national body answer the question?

Lack of time we are told is the only thing that prevented the grand jury from indicting material men, but the same body found ample time to indict

ing the products of other mens' labor are very anxious to know if socialists intend to confiscate all of the property in the world.

does not expound the gospel in a way that pleases Rockefeller. Still they wonder why the church is losing hold

The brunt of the Chicago strike is being borne by the middle men, the fellows with little groceries and butcher shops. They are good people to reach at present with socialistic literature.

The same generous mother, nature, which furnishes the air, also put the coal into the ground and corporations or individuals have no more right to claim ownership of one than the other.

To Chicago Comrades.

How many out-door meetings have you arranged for as yet? branch in the city that cannot have at least one a week. They are the most fruitful form of agitation that is carried on and should be pushed as hard

Send in an order for a bundle of The. Workers' Call and some copies of the Pocket Library and manage for at least one meeting during the coming reck. See to it that all the comrades are present at the beginning of the meting-have someone appointed to sell papers and literature and keep everything agoing. There never was setter time to talk to the laborers of Chicago than now when they are learning the terrible lesson of the po apitalism at the stern school of ex-

Contributions and items of news concerning the labor movement are requested from our readers. Svery contribution must be accompanied by the Dame of the writer, not necessarily for publication, but as an evidence of good faith.

STILL IN THE FIELD.

The response to the request for help in our last issue was prompt and gen erous. From every quarter of the counwords of encouragement and promis of future effort. The campaign offer was taken hold of in a way that showed that it had struck the right ides. Th result is that the continuance of the Cal is positively assured. Now we shall bend every effort to make the paper the very best vote getter in existence. Its union news will make every labore want to read it and its theoretical articles will make a good percentage o those who read it become socialists It now depends upon its present subscribers to decide how wide its influence shall be. Everyone can get at least one club of ten. Every member of a unior should write for our special terms to union members when an entire union subscribes. Then do not forget that with the out-door meetings comes the time to sell bundles.

Incidentally our appeal for help had a most interesting effect. It galvanized into life some long dead DeLeon letter writers who came from the tomb lone enough to send in some specimens o their master's choicest English, informing us that they giorted in the facof the death of The Workers' Call. To these we would simply say that we are not conducting a wake over the decay ing corpses of bossism but celebrating a wedding of the disunited forces of socialism and so will have to omit the requested publication of their epistles

THE GENERAL STRIKE.

One of the tendencies towards the ultimate union of the whole-working the persistence of such labor trouble as those now rampant in this city. No dispute of any considerable extent has yet taken place in which the feasibility of a general strike was not taken into consideration, and the present situation in Chicago is no exception to the rule The question was discussed by the rep resentatives of the workmen involved and it is reported, was only decided against by a small majority. Just what considerations produced this decision we are not prepared to say, but viewed from the standpoint of a socialist the action must be approved, although the reasons which induced the members of the Building Trades Council to forego the idea are very possibly not those which socialists would consider. While the general strike is in most cases a weapon of doubtful utility, one thing remains certain: that it is almost impossible to use it successfully unless se engaging in it are largely imbued with a consciousness of common interests as workingmen, a consciousness of the ultimate object for which the class struggle exists, and the sense of soilnition. It is needless to say that the great body of workingmen in this city as well as throughout the United State in general are not yet possessed of this that cohesiveness necessary to permit them to act effectively as a united body Organized on the basis of single trades separated from the far greater mass of unorganized labor outside their unions, and frequently brought into fierce competition with it through ever-re curring local strikes, it is easy to se that the idea of a general strike of organized labor under such conditions gives but small promise of success. The history of the great A. R. U. strike and Its failure, has opened the eyes of thousands of workingmen to these facts and exposed the elements of weakness which limits its sphere of action to the economic field alone. About a year be-

fore this event, the idea of a general strike was realized by the workingmen of Belgium, who to the number of over the right of franchise which was the object of their strike. But this element which used the general strike so sucmental composition from the working modes of thought-are still confined within the limits of the existing capi a distinct conception of the nature of the struggle which incessantly rages between the classes, and a knowledge of the part which their own class musfulfil in the formation of future society. The socialist relies upon the logic of vents when he declares that this stage will be reached, and even now he can point to the increase of socialist thought in the United States at present as an undeniable proof that this leavening operation is now going on Whether, when this point is reached, general strike will be considered as a valuable weapon in the hands of the class-conscious workers. is a enatter which cannot now be precisely answered either affirmatively or negatively, but at present it is plainly apparent that ft cannot be wielded effecively by organized labor as it exists today, and whatever reasons induced the Building Trades Council to forego its use in the present juncture, we are strongly inclined to think that the decision was wise.

FORESTALLING A STRIKE.

A Pointer for Railroad Laborers in the Northwest

The following clipped from the columns of the Chicago Chronicle would eem to indicate that preparations are being made in advance for any attempt on the part of the laborers on the railroads of the northwest to ol lect to the conditions under which they may at present be employed:

The Wyoming hotel, 266 Clark street, resembled an employment agency yesterday. Men are being hired by the score to take the places of conductors and brakemen on freight trains running north from St. Paul. Great secrecy is observed as to the road, but it is probably either the Great Northern or the Northern Pacfic. There is a rumor that these roads anticipate a strike of their freight men and have planned to outwit them by employing new hands.

Persons who answer the advention The Wyoming hotel, 266 Clark street

Persons who answer the advertise ment which has appeared in several newspapers have to run a gauntiet of questions before they reach Henry M. Westcott, the agent. Outside the doors of the main dining room a clerk stands. He merely looks the applicant over and asks, if he has worked on freight trains before. If he has he is sent into the dining room. Inside he is asked whether he is a conductor or a brakeman. If a conductor he is offered Jocents an hour to work on a road from St. Paul up north, and if a brakeman 20 cents. Then a medical examiner looks him over. No further explanation is made. The successful applicants are lodged and fed at the hotel till enough are engaged to form a goodtill enough are engaged to form a good-sized squad. Already more than 500 men have been shipped to St. Paul. This week section hands and foremen will be hired.

Workingmen! strike at the polls with socialist ballots, so that the police an't strike at your pells with hickory

SNAP SHOTS BY THE WAYSIDE,

evelt, it is said, will accept a 'hurrah" nomination for the viceresidency on the ground that "no man can withstand such a call to duty." Teddy had better hurry up as "heroes" are rapidly becoming stale, and the supply of "hurrah" idiots is getting smaller, now that socialism is in the

The Carnegie Co. claim that the proess of making Krupp steel is a secret, and therefore they want \$545 per ton for armor plate of that make supplied to the government. The state depart. ment, however, in discovering that there is no secret about the Krupp steel have also discovered the secret of the attempted Carnegie steal in connection therewith.

Ladysmith and Mafeking are not going to get ahead of Milwaukee, even though the latter has never stood a has been discovered in full blast by health officers of the Cream City. When relief column arrives the socialist there, this "business" will have quit, even at the risk of driving this sort of "capital" out of the country.

The London Chronicle says that "the nen who count in the United States" will not pay much attention to the Boer peace envoys who are coming to this country. This probably means the men that count stocks, bonds shares and coupons, the men who own the means of production, the capitalist class. The Chronicle is about right. People who have nothing to count, of course don't count.

All the book paper mills in the West ere to close down on the 7th inst. and all those in the East one month later, so runneth the flat of the captains of industry, the owners of the means of production. The wage slaves who produced the paper, produced too much more, in fact, than the owners of their product could sell-at a "reasonable profit. The price of book paper how ever will be advanced during the time that the producers of book paper are resting from their labor, for such is the 'agreement between gentlemen." This advance will come in handy for the stockholders who intend going to the Paris exposition to spend their leisure. The book paper producers /will also Why, to have feisure to go-where. and labor are indeed twin brothers.

By the derailing of a car in the Illiols Steel works, two workmen were instantly killed, and six others severely injured, but this accident will not in terfere with the preparations which the stockholders are making to spend the summer anonths at the seaside and nountain resorts and on the customary European pleasure trips. As to those who depended upon the slaughfered -well-brother capital will attend to their case-in the law courts which he has instituted for that purpose.

The first preliminary in the coming political campaign in the state of Illinois has just closed. The struggle amongst the republicans for the nomination for governor so far shows that no candidate had a majority. The uninstructed delegates hold the balance of power, which is a good commercial asset in a political convention of any of the old parties.

An enormous amount of money was spent in these preliminaries. The bills for printing, hall rent, postage, newspapers of, payments to ward heelers and political fine workers, etc., etc. would foot up an aggregate which would astonish the uninitiated. Where did they get it, and how do they expect to reimburse themselves? The wealth expended in this preliminary. comes from the labor of the paign working classes, who are also expected to recoup from the same source thos who have used that wealth to rivet the chains still tighter on the workers.

In the discussion between the contractors and the locked out building trades workers some light is shed upor what the capitalist idea of "prosperity stands for. On May 2nd the contract ors confess that the destruction of th labor organizations, and the deprivation of means to defend the union scale of wages, would mean prosperity to Chicago. The Building Trades Counell in its answer to this statement shows signs of astonishment, not being to comprehend that "prosperity" for the contractors means low wages for the workers. They cannot grass the palpable truth that, all that the capitalists possess, has been got at the expense of the working class, and the ss that labor receives, the greater their prosperity.

The unions may make a defensive fight against this condition, but while they fail to understand that the citadel of power always lies with those who control the means of production, the character of the struggle canno change. Organized labor will remain constantly on the defensive, against ever-increasing odds. But when the necessity of changing scene of struggle from the econ he political field is clearly seen, the relative positions of the antagonists are at once reversed, and the hopeless struggle of the workers in the economic ald, is supplanted by the helplessness of the capitalist class in the political one

It is said that both capitalist partie are eagerly searching for candidates for the vice-presidency, no available

"timber" as the political phrase goes, being in sight. To help them out of and John W. Gates together as running Mr. W. J. Bryan might b coupled with Perry Belmont, the agent

of the Rothschilds in the United States. This would go far towards proving that the Democratic party is.

money power."

"Pitchfork" Tillman of South Care lina recently addressed a body of students at Ann Arbor university, on th race problem. This notorious demagogue whose vocabulary is more liberal than his ideas, declared that the North must not force negro equality upon the South, an action which the North, or rather the capitalist class of the North have not the slightest intention of doing, in view of the fact that the economic rulers in the South have already largely disfranchised the negroes with. out one word of protest from Washington. The senator also answered an ob siege. A sausage factory using old jector in the audience with the not very and decrepit horses for raw material original remark, "Would you let your own daughter marry a nigger?" concluded by saying the southern people have no hatred towards the negro. to in fact they rather liked him, as they amply proved by "giving him work. The senator has evidently been so far 'reconstructed" that he looks upon the robbery of the working class as the highest proof of capitalist vistue.

They rather like the "nigger." They give him work. Of course. And (the senator forgot to add), they take pos session of the product of his labor, and stand ready to shoot or hang any "agitator" who might urge the negroes to organize in unions for the purpose of securing a larger share of that product for their own maintenance. And yet there are workingmen who look upor this "reconstructed" slave driver as a "friend of labor," not understanding that the working class whether black or white are looked upon by both northern and southern capitalists merely as a commodity whose labor power they are equally ready to exploit. And they find it easier and safer to do so by inciting race hatred between their victims, knowing well that so long as they can foster this hatred, their supremacy as exploiters is secure.

"Prosperity" is signally illustrated by the fact that while in 1896, diamonds of the value of \$2,000,000 were imported into the United States, in 1899 the value of imported diamonds increased to over ook for other jobs of course. Capital \$12,000,000. Workingmen who yet swalow the political and economic rot dealt out to them by their capitalist masters, should find no difficulty in accepting the above figures as an indication of general "prosperity." that the children of the locked-out workmen in this city are using diamonds to play marbles with, is not one whit less worthy of belief than most of the other "proofs of prosperity" which the capitalist press. The "prosperity" of the working class might just as well be measured by the importation of diamonds as by any other capitalist standard.

Two Capitalist "Sensations."

A daily paper states that Senator Pettigrew "created a sensation" in the enate by declaring that the volunteers brought back to the United States from the Philippines were "packed like swine in dark, dirty, flifhy, rotten and antiquated vessels." There really doesn't seem to be anything very sensational about this, after all. The embalmed beef went out to the war in much the same condition that the volunteers came back from it: and why should one commodity have preference over another? Besides, the returning commodity had been already used and was therefore of no particular value to the ruling class. Capitalism is impartial in its treatment of its materials, whether these be human or otherwise.

"Skin for skin, yea all that he hath, man will give for his life." Edward Bryant, who had lost his position as a onductor in the employ of the Brooklyn Rapid Transit Co., jumped from the Brooklyn Bridge for a money consideration from a newspaper which wished to publish a sensational story of the "feat." Bryant used a parachute, but the thing didn't work properly, and the unfortunate jumper now lies at the point of death from injuries received in consequence. The necessity of preserving his existence impelled Bryant to the performance of a task which it was barely posible he could survive. And even this task was to become a source of profit to a capitalist concern who hoped to thrive by retailing the story of the jump to some thousands of other wage slaves, who live under conditions that might at any time impel them to the same course as Bryant. The ancient gladiator was "butchered to make a Roman holiday," but modern capitalism goes one better by compelling some of its victims to butcher themselves for the satisfaction of the others,

Attention!

Members are requested to attend their respective branches and vote on the unity question.

Secretaries will please fill out the return blanks and mail same to Jac. mith, 245 W. Monroe street, not later than May 26th, as the vote MUST reach the national secretary by May 30th.

A socialist ballot, though not heavy, is infinitely more effective than

Republican and democratic clubs as at present very much in evidence

LETTER BOX.

Stands for Union

Resolution adopted by the socialist f Fresno, County, California: To the Socialists of the United States:

Whereas. The executive board of the S. D. P. has submitted a proposition to the members of that party, for or against union with the S. L. P.; be it Resolved, By the socialists of Freano county, Cal., in mass-meeting assembled:

That we declare ourselves un

ist. That we declare ourselves unqualifiedly in favor of union.
2nd. That we condemn the disposition of certain party leaders to selfishly
hold their personal views of such importance, that the welfare of the great
cause of humanity is endangered, and
that such men should be disbarred
from party management.
3rd. That we prefer the plain name
of Socialist party, laying aside all qualifications, but shall support the union
ticket regardless of party name.

ticket regardless of party name.
4th. If union be not accomplished we shall support that party which has shown itself the most liberal and fav-

Official Organs.

Editor Workers' Call:—
Pending the result of vote on "Manifesto" forced by our S. D. P. National Executive board. I want to say something in relation to article VIII—Party Press, of constitution submitted by the loint conference committee in the results. oint conference committee in their re port. I believe this article to be wholly wrong, and sure to cause much controversy. If put into operation it would entail an enormous amount of work on the national secretary; and worse, endless confusion. I am against an "official organ" in the hands of executive officers, for if there is an anarchist contention that is true, it is that "officialism tends to perpetunte itself." I have seen the evil effects in the K. of L., the S. L. P., and now in the S. D. P. In substitution for article VIII. I would suggest that the adoption of this idea: As it is proposed to have a stamp system of dues—a thing I have contended for in the S. D. P., let us make the cards or books of such size and shape as to give space for one or port. I believe this article to be wholly and shape as to give space for one o and shape as to give space for one or more oblong "newspaper stamps"— something after the shape of the Co-lumbian stamps. These stamps to be furnished free; or at cost, to such pa-pers as support the party and its prin-ciples. The stamps to be issued under such regulations as will prevent abuse. Publishers to furnish these stamps to members as receipts for subscription; each paper to cancel with name of paach paper to cancel with name of pa-per, date, and period of subscription per, date, and period of subscription, which can be done with rubber stamp, No member to be considered in good standing whose book or card does not show him to be receiving at least one paper granted stamps by the N. E. B. Most socialists would have a collection. Such a plan would place every publication strictly on its merits. If it "went astray" stamps could be witheid, subject to appeal. The work of the na-"went astray" stamps could be witheld, subject to appeal. The work of the national secretary would be reduced to the minimum, and, more than all, prevent officials from having an "organ" to use against the field. For the transmission of official information and reports. I would have the N. E. B. issue a monthly bulletin and send same in bundles to secretary of each local, he to distribute to members. The size and shape to be suitable for filing and preserving. If socialists will carefully and shape to be suitable for filing and preserving. If socialists will carefully canvass this idea I believe they will see its strong points. Every member to retain voting standing must subscribe to at least one approved paper—his own selection. English or German. Every paper given an equal show for subscriptions on its merits, and every paper held to account for its action as closely as it is safe in a democratic organization. But best of all, the obliteration of the fort of bossism—the "official organ."

official organ. Fraternally Chas. R. Martin.

The Name Question.

Dear Comrades and Brothers:— In discussing a suitable and proper name for the socialist movement in America or anywhere else in this wide America or anywhere else in this wide world there is no name so applicable expressive and unobjectionable as Soexpressive and unobjectionable as So-cialist Party, without any qualifying terms attached whatever. A socialist who objects to the pure socialist name must do so from sinister motives and is not a true socialist to my way of thinking. Democracy as understood in politics in this country is bad and can never be crammed down the throats of many good and excellent people who thinking. Democracy as understood in politics in this country is bad and can never be grammed down the throats of many good and excellent people who absolutely despise the name as vile and abominable. Socialism means more than democracy politically speaking, and cannot be objected to, unless he or has thinks more of a pet name or inand cannot be objected to, unless he or she thinks more of a pet name or in-herited teachings than of socialism. This disgraceful fight is sickening and disgusting in the extreme and can only result in strengthening the enemy's lines. Are a few leaders going to dic-tate as they do in the old parties, or are we going to use the referendum? If we lean towards democratic social-ism. republican socialism, Christian so-cialism or even non-political action so-cialism, and non-colonization socialism, or anti-anarchistic socialism, or any or anti-anarchistic socialism, or any other pet idea of socialism let us not drag it into the main issue and insist to have the mosement adopt our spe-cial fancy name or idea and have things run to suit us whether anybody else is suited or not. Such is pure boss-ism which we are endeavoring to get away from and have denounced for years.

P. S. The simple name Socialist Party is already world-wide-why bedraggle or embellish it with a qualifying term that will hinder its growth and drive people away from its ranks and perpetuate strife and enmity?

-Brodhead, Wis., April 30, 1960.

Now that the capitalist grand jury s sending out true bills against the strikers, the latter will have an excellent chance to return the complimen next November by sending in true bills against capitalism in the form of socialist ballots.

The capitalist politician may send a carriage to drive you to the yoting building. place on election day, but he gets even by riding on your backs the rest of

When the "little peesness man" gets through damning the strikers he, will be at liberty to return to his old pas--the abolition of the BIG DE-PARTMENT STORE.

If you want to touch Carnegie's pocket, take your Krag-Jorgensen and go out gunning for strikers. Andrew still cherishes fond memories of Homestead, and will put up the stuff promptly.

SHIFTING THE BURDEN.

Capitalism After Robbing Its Vict. Charges Them with Murder

It is by no means a new device capitalist society to charge the fortunate victims of the wage sywith crimes which in th mselves the easily be traced to the profit-making, as the fellowing extra from a New York paper will illustration

Of the children who passed through the Gerry society's hands last wind 1,708 were insured," said Superintendent Jenkins today. "Many of these children, I am confident, were insured to be killed by neglect or otherwise so that those who insured them might packet the money."

to be killed by neglect or otherwise so that those who insured them might pocket the money."

In child life insurance," continued Mr. Jenkins, "a parent or guardian or other person—for it does not matter to the insurance company who takes the policy—bets the insurance company that certain child will die within a certain time, for all of these policies are made for a certain time, at the end of which they may be renewed. The company bets that the child will not die within the specified time."

"The insured puts up a stated sum when he registers his bet. If the child fails to die the money is lost to the payer and retained by the company. If the child dies the company loses the bet and pays the money."

What sort of people are they whe hold stock in such companies? They are the same crowd who support Gerry societies, the same hypocritical gang who constantly inveigh against gambling, the same type of people who get up "crusades" against pool rooms, and form themselves into societies for the suppression of crap shooting. Thsame canting, Pharasaical community that Jesus denounced as "straining at gnat and swallowing a camel.'

These wolves in sheeps' clothing whom the sight of a stack of poky chips fills with holy horror, have scruples whatever in taking a hand iragame where the stakes are laid again the lives of the unfortunate offsprit. of the plundered victims of capital robbery

Agents, the most plausible and per suasive that can be secured are con stantly sent round to urge upon the parents the necessity of making provision for fatalities to which their children are exposed. The more successful these agents are, the more profit for the stockholders. When fatalities occur it is found convenient to charge the working class with deliberate infanticide for the sake of gain.

This talk of insuring the lives of children for the sole purpose of obtaining the premium has been rife for many years, and it most frequently crops out when the dividends due the stockholders show signs of diminution. If it could be substantiated, there would be no trouble in revoking the charters of such insurance companies.

The great mortality amongst the children of the working class, whether insured or not, is one of the most striking evidences of the murderous character of the capitalist system. If an analysis were made it would most probably be found that where the mortality is excessive the workers are too poor to make even an attempt to in-

The truth is that capitalism murders the children of the workers and its upholders then charge the luckless parents with the crime. The "company" is a convenient scape-goat upon which the sanctimonious capitalist stockholder can lay his portion of the guilt involved in the charges.

The company bets-the godly stockholder doesn't approve of betting-but the taste of profits is too sweet for him to forego-therefore all will be well if only the cloak of "legality" can be thrown over the whole proceeding, and a more-suitable name found for this commercial gamble in which the lives of children are used as counters in the game. The ingenuity with which capitalism covers up the traces of its crim!nality has also created a wide selection of "respectable" names under which this particular form of profit making still retain the odor of sanctity. And when the competition amongst the rival dens consequently decrease it is found quite easy to accuse the working class dren and the "legitimate" profit of the 'company" at the same time, and it is not unlikely that the latter is in the eyes of their accusers, the greater crime of the two.

It has been noticed that when Standard Oil raises the standard of education in Chicago, it invariably raises its own price at the same time. That's how the "law of compensation" gets" its work in.

The numerous evictions for non-payment of rent which are occurring amongst the striking union men is only the capitalist method of illustrating the truth that "the streets belong to the people.

The busted middle class can hardly be trusted to bust the trusts.

Brother McKinley of the Bricklayers' Union evidently has a keen sense of the appropriate, in delaying the construction of the post office until the physical appearance of the bricklayers matches the skeleton frame of the

What will the trusts do when they go up against those batteries of "pop guns planted in the middle of the road?

Profit sharing is a good thing. It has prevailed for many years in the Chicago Stock Yards, on the principle that the owners get the dollars and the employes get the scents.

The annual congress of he German Socialist party will be held in September at Mayence, in Rhenish Prussia In Easter week there have been several local congresses of socialists, as, for xample, the Wurtemberg congress at Stuttgart, the Saxon at Dresden, and the German Poles at Berlin.

It is said that Dr. Arons, the lecturer who was dismissed by the Prussian government for being a socialist, will e the candidate of the party at Magde burg for the seat which is vacant through Oertel's death. The choice, nowever, has not been finally made.

On Sunday, May 13th at 4 p. m., at 1966 N. Hermitage avenue, the net Twenty-sixth Ward branch, S. L. P. will hold a meeting at which Comrade Aug. Klenke will speak. All readers of The Workers' Call and their friends ar sked to attend; especially those who ive in the Twenty-fifth and Twenty. exth wards. After the speaking n nembers will be enrolled.

"SOMETHING NOW."

How Class-conscious French Socialist Workingmen Enforce Their "Im-mediate Demands."

There have been a series of articles running through the late numbers of 'Le Mouvement Socialiste" concerning the work done by the socialist municipalities of France. These are interestng as showing that the quickest way to advance even in the "reform, stepat-a-time" way is to elect clear-cut solalists to office.

The following is little more than a ist of the things done but it is suffileff to show that while the socialists do not believe in using these things as "issues" to deceive the workers they ise them for all the practical value they have as soon as opportunity offers.

The municipality of Dijon has established a "Bourse du Travall" or labor office with a great assembly hall for the use of the labor unions with a library and a host of other things of assistance to organized workers. They have created a free employment bureau for both sexes and established free professional and technical schools for the training of workmen.

Perhaps the tenderest spot of capialism is the unemployed whose existmee is absolutely necessary to the continuance of wage slavery. Hence any attempt to relieve them is a direct blow at the system: The socialist administration of Dijon has repeatedly voted them assistance in the form of free bread and a money pension and when this was stopped by the central capitalist government they succeed in evading the law by making the unions a portion of the bureau of public relief nicipality has paid the expenses of the delegates of the union and the cooperatives to their congress, and voted them sums for their libraries and sick funds.

A popular university has been found-ed and assisted by the municipality The socialists of Antwerp have de. where it is safe to say no Standard Oil Laborers organized the general election; they were going to co-operatively perform the public work agree on a joint list with the Liberais, and the price of food has been lowered but have decided to act independently, and the quality bettered through mu-The Maison du Peuple of Brussels nicipal, action. An attempt was made has just published its accounts for the to create municipal kitchens and baklast six months of 1899, the profits come eries, but this was largely thwarted to \$8,600. After allowing for deprecia- by the general government that is ever hospitals, jails, school kitchens, etc. and this was the easier as they already feed all the children who are at school This is of course a long step towards

A municipal laboratory for examination of food and general promotion of waterworks with a public theatre are a matter of course. Taxation has been transformed from the octrol which was almost wholly-an indirect tax upor food to what practically amounts to a graduated income tax. In spite of the prohibition of the general government again, a beginning has been made in the introduction of the referendum. When the ministry forbade the use of the election machinery for such purposes the municipality asked the trades unions to act in taking the vote.

We would again ask our "step-at-atime" friends to study the above list and then if they are still of the opinion that these are of primal importance they will see that the quickest way to get them is to unite with the clear-cut socialist movement and they will attain their end much sooner than by clinging to independent "Issues," while the actual emancipation of labor will not be delayed.

FALLS FLAT.

Co-operation Scheme, Wouldn't Work and Is Abandoned. As we go to press, the information

omes that Slegel Cooper and Company have decided to abandon their co operative plan, the public not having responded for small lots of stock as was anticipated. This is perhaps the clearest proof of the tremendous development of the capitalist system in this country. The small middle class to whom co-operative schemes of this nature appeal most strongly, are evidently pumped dry. The developed capitalism of the United States makes utterly impossible to carry these schemes through, as is done in Great Britain with fair success, where Sir Thomas Lipton's recent co-operative scheme calling for a capitalization of welve and a half million dollars, was subscribed for nearly twenty times over. The middle class element still possess great financial strength in Great Britain, but it may be clearly seen that a stage has been reached in this country where this brand of "cooperation" becomes impossible, fact that this stock was not subscribed for, is only an added proof, if that were needed, of the almost bankrupt condition of the middle class, and to the so ialist is a clear intimation that little trouble may be expected from them in path of socialism. Co-operation in production and distribution can only come successful on the basis of collect ve ownership, which idea ever grown stronger as the weakness and in ciency and impossibility of capitalis operatives schemes are daily being

Socialist comrades! Bring y Socialist comrades! Bring your sisters, your cousins and your aunts to the womens' meeting to be held at 65 N. Clark street on Sunday, May 13th. 3 p. m. Mrs. Corinne Brown and Mrs. Charles Kerr will address the audience on the question "What Position Should Women Take in the Political World?" Everybody invited. Discussion. ditto.

The out-door meetings for this sea-son were opened up at Pulking on Sat-urday, May 5th, where Comrade Simons spoke to a fair-sized audience at the corner of Illth street and Michigan avenue. Now that the out-door season is fairly started all comrades are re-quested to co-operate in their branches so as to make the meetings as large and successful as possible.

A new branch of the S. L. P. was organized in the Twenty-sixth ward in this city on Friday evening. May 4th. The branch started with tweive members. Ehelr second meeting will be held at 1965 N. Hermitage avenue, Sunday, May 13th, at which six new members will be admitted. Comrade Morris addressed the meeting and plans for a strong agitation in this district were adopted.

adopted.

The funeral of our old and respected comrade, Adolph Kundt, took place on Saturday, May 5th, at Graceland cemetery. The funeral cortese, left LaSalle Street Turner hall about 4:30 after several comrades had given short addresses to those assembled there, and arrived at Graceland about 5 p. m. Two speakers. German and English, respectively, made the final addresses over the remains of our late comrade, who had so long and earnestly fought for the cause of socialism.

A sample copy asks for your sub-

"And so, friend John, you see, you

and yours will be able to-"Oh! bosh and nonsense, man! Don' you think I know a good thing when I And I've got it right here. Why should I fool myself with that socialist stuff you propose, when I have only to read and convince yourself. Have you seen that prospectus issued by Mr Wheedle Scooper, or have you not?" "I have. What about it?"

"Oh, you have. Well don't you think its a good thing to become a stockholder, a profit-sharer, an interested worker in such a big concern as that?" "Well, that depends."

"Depends! depends nothing. What! a stockholder, a profit-sharer, a dividend drawer, and, a worker in a business concern with a capital of twenty-five million dollars-think of it-twenty-five millions-Depends! Nonsense! Don't you see what a good thing it is. I can be a partner in this great concern."

"Yes, sir, that is so."
"A'hem."

"Say, look here! You've talked so cialism for years and what has come of Nothing-absolutely nothing. You've talked of the terrible condition of the working class, their poverty, misery, etc. You said they were debarred from opportunity, that their case was hopeless, that the day had passed when the poor boy beginning at the bottom of the ladder could work his way up and become a member of the firm. And now Mr. Wheedle Scooper comes forward and demolishes your whole fabric by showing that there are yet plenty of opportunities, thus giving the lie to your assertions,"

"He does, does he." "Yes, he does,"

"O'ho!" "Look here. Is it true I can become a stockholder in this company, or is it untrue?"

"Is it not true that on this stock, I can draw six per cent interest yearly?"

"That is also true." "And the conditions upon which I can become a stockholder are easy enough. have only to stay three years in Mr Scooper's employ to become eligible, and I think that's a good idea, as it acts as an incentive to employes to become steady men. The people should be taught to be more regular in their habits and give more attention to their employer's business, and this will give them a better chance to work their way up in the firm. I think that m. Mr. Scooper is perfectly correct in making this condition and it can work no hardship to any faithful employe."

"Another thing which you socialists have always insisted on was that as soon as a man gets old, the firm finds that there is no profit in employing him, and a younger man gets his place. Now my socialist friend, in this case your statement is untrue as the firm actually encourage men and women to stay with them as long as possible. Read their circular which says that the annual dividends will be distributed amongst employes who have been with the firm for a period of three years. isn't this encouragement for the old employes?"

Well, is that all?"

"Is that all. No. there's more yet. After ten years, this share which we now receive will continue as a kind of life insurance which will keep the wolf from the door, an annuity so to speak that will provide us with food, clothing and shelter when we become unable to work. You see we need not worry ever the future, and it is the future that generally causes us most anxiety. But now the future is bright, positive and sure, and I bay that this scheme solves problem. Hurrah for co-operation Long life and prosperity to Mr. Wheedle | The "Radicalism" of the Socialist Proves Scooper and may all men imitate his

"Well, all the fools are not dead yet

"What do you mean?"

"Just what I say. All the-", "Sir! I'm no fool."

"Well!" "Well!"

"Say, look here old man; listen to me for a moment, will you?"

"Go ahead, I'm listening."

"Let's get the sense of Mr. Scooper's circular. He recognizes the tendency of the present age in the direction of so-operation of employers with employes. Do you understand that?"

Now let us see. In Mr. Scooper's business house, from basement to garret, workingmen and women, girls and boys are co-operating together in every department, from the janitors and scrubwomen up and up to the buyers and managers of departments. All these, THESE EMPLOYES, carry on the business of Mr. Scooper. This di operation among the employes. But in what way does Mr. Scooper co-

"I'll tell you, my socialist friend. That's easy. Mr. Scooper comes down to the store almost every day, goes through each department and office. the manager of this and that departdo. Isn't he engineering this co-opera-

That is true, friend John. He is But you didn't tell me what department swear by. No doubt the old French he really works in. Does he serub seigneur of revolutionary times whom Does he buy goods? No. Does he manage any department? No. He looks through the store and speaks to the heads of departments. What for? To find if the heads of the departments tained in the expression "the country one address.

are looking after HIS INTERESTS Looks through the store you say. Wh not? He wants to see that the em ployes are attending to HIS INTER ESTS. He engineers this concern dos he? Well, he gets all there's in a doesn't he? Who, according to the cir cular, controls most of the stock? Wh Mr. Scooper of course. He has no de sire to sell out. Certainly not. He on the ground floor and intends to sta there. So you see, John, Mr. Scooper' co-operation consists mainly in draw ing the usual dividends, on the majority of stock that he holds."

"Yes, but isn't he going to give his employes and the public a chance to share the profits."

He is. Now let us see how. Share are to cost \$50 each, and Mr. Scoope states that he will discourage the sell ing of more than one share to each person, because he believes that if : large number of persons each hold on share they will, in order to secure their dividend, use their influence to bring as many purchasers as possible to the store, so that each \$50 stock holder be comes an advertiser for the firm. And in return for this each holder of a \$50 share will enjoy an income of \$3 per year, 25 cents per month, or 5% cent per week, which of course will lift then above all worry for the future and make them practically independent Won't It?"

"Well, if you look at it in that light

"What other light is there in which to look at it? Haven't I stated the in-come correctly? Figure it up yourself and see. You'll be part owner in the business, your share of the profits will be considerably less than one cent per day, and the fact that you are 'shareholder' will be used as an incent. ive to make you work still harder to increase the profits of the company, If the efforts of the \$50 stockholders succeed in doubling the dividend why then you will get two cents per day in stead of one. But how much will Scooper get? Figure it up and see it he has made a good investment in helding out this balt before you. It won't take much figuring to tell your share. Just take notice also that you \$50-profit sharers will have no voice in the management of the business. Mr. Scooper tells you his policy in engineering this new deal; he expects to be rewarded with more faithful service from his employes-not at all that they shall have any say in how the dividends shall be apportioned. And you can stay and enjoy your income of 5 cents per week as long as your conduct is 'satisfactory' to Mr. Scooper. You must admit that the word will bear a broad interpretation and you must never forget that Mr. Scooper is its interpreter. So much for your 'steady' situation. These are a few of the strings which are tied to this munificent offer, and if you look into the matter still more closely you will find that it is only another of Mr. Scooper's 'engineering' feats which are all planned to redound mainly to the disappearance of capitalism naturally benefit of Mr. Scooper. Not that he is at all worse than you, friend John, only society. The individuality which he has can see a trifle further. And you, you the part owner, profit sharer in thinks will vanish with socialism, is that of his class, and in this he is perfectly the society. this twenty-five million dollar concern, you will sooner or later discover that things are not always what they seem, and that this fruit that loks so fair, when closely examined is only a Dead As time goes on, men grow old, and Sea Apple. And as for you, you will remain what you are, a wage stave. You may glory in your annual income of \$3 and imagine that you are on the road to become a millionaire but if you don't toe the mark in a manner satisfactory to Mr. Scooper, out you go, and your \$50 share can't save your job. No.

- R. A. M.

CONTRADICTORY CHARGES.

· His "Individuality."

The oft-repeated charge that socialam *would destroy individuality, like most other objections, is often contradicted by those who make it, and it is not uncommon to hear a would-be opponent of socialism after making this charge, complain that socialists are "too radical," never harboring the slightest suspicion that the latter accusation destroys the former. Accord ing to capitalist ethics, "individuality can only be preserved by acquiescent in the present form of society, in shor by conforming to the ideas of the rul ing class. This, to the socialist means nothing short of the destruction of in dividuality for the immense majority of the human race, and here again we can perceive the absolute contradition between the fundamental ideas of the growing and decaying forms of so ciety. The very fact that the socialist stands for ideas utterly outside the range of existing society, is the very best proof that he possesses a distinct ive individuality which clearly separates him from the unthinking masses who complacently accept things as they are at present.

Such objectors neven consider that throughout all history the conservative elements of society continually persisted in bringing the charge of exceslooking here and there, and speaking to sive "radicalism" against those whom they instinctively felt were displacing What more do you want him to them as dominant elements in society, and that the "radicalism" of fifty or hundred years ago has become the commonplace of today which they still No. Does he sell goods? No. Cartyle, speaks of as making foolish

Socialist Labor Party of the United States. SOCIALIST BOOKS Directory of Section

The Socialist Labor party of the United States in Convention assembled, reaffirms its allegance to the revolutionary principles of international socialism and declares the sup men point. Call issue in America today to be the contest between the working class and the capitalist class for the possession of the power of government. We affirm our steadfast purposes to use those powers, once achieved, to destroy wage slavery, abolish the institution of privals property in the means of production and distribution, and to establish the Co-operative Commonwealth.

In the United States, as in all other civilized countries, the natural order of economic development has separated acciety into two antagonistic classes—the capitalists, a comparatively small class, the possessors of all the modern means of production and distribution, (land, mines, machinery and means of transportation) and the large and everuncessing diase of wage carnera, possessing homeans of production.

This economic supremacy has secured to the doublant class, the full control of the government, the pupil, the schools, and the public press, thereby making them the arbiters of the fate of the working class, while it is the contest of the government, the pupil, the schools, and the public press, thereby making them the arbiters of the fate of the working class, while it is the tool of the government, the pupil, the schools, and the public press, thereby making them the arbiters of the trace of the working class can not however, act as a class in the structure of the server of the capitalist class except by constituting itself into the amount of the government than pupil, the schools, and the public press, thereby making them the arbiters of the server of the capitalist class except by constituting itself into the amount of the working class, which do not stand for the complete overthrow of the capitalist class except by constituting itself into a condition of egone of the capitalist and the wage workers, .

The vell effects of capitalistic production are

The evil effects of capitalistic production are intensified by the recurring industrial crises, continually reneditor to the Socialist Labor party for dering the existence of the greater part of the population more precarious and direction of labor, and also for the securing uncertain, which amply proves that the modern means of production have outs grown the existing social order based on production for profit.

Pending the accombishment of this our quitinate purpose, we pledge every the immediate improvement of the sour quitinate purpose, we pledge every the immediate improvement of the sour quitinate purpose, we pledge every the immediate improvement of the sour quitinate purpose, we pledge every the immediate improvement of the sour quitinate purpose, we pledge every the immediate improvement of the sour quitinate purpose, we pledge every the immediate improvement of the sour quitinate purpose, we pledge every the immediate improvement of the sour quitinate purpose, we pledge every the immediate improvement of the control of the socialist Labor party for the immediate improvement of the control of the socialist Labor party for the immediate improvement of the control of the socialist Labor party for the immediate improvement of the control of the socialist labor party for the immediate improvement of the control of the socialist labor party for the immediate improvement of the socialist labor party for the immediate improvement of the socialist labor party for the immediate improvement of the socialist labor party for the immediate improvement of the control of the socialist labor party for the immediate improvement of the control of the socialist labor party for the immediate improvement of the socialist labor party for the immediate improvement of the socialist labor party for the immediate improvement of the immediate improvement of

is going to the dogs, sir!" were as sineere in their comdemnation of the 'radical' changes which the growth of capitalism was making necessary, as any adherent of present economic conditions could possibly be; yet the evolution which carries with it the change of social forms was not hindered or deterred in its course by their feeble and foolish complaints.

Seen from the capitalist standpoin "individuality" can only be maintained by the continued domination of the capitalist class, which means in other vords the destruction of all individuallty amongst those who do not be long to that class, those, who not in possession of the means of production, are forced into a position of sub mission and dependence upon the possessors of the tools and material upon which labor power must be exerted, I the life of the laborer is to be pre served. Like every ruling class that has preceded him the capitalist regards his class as the social whole, and in the enough sees the disappearance of all

feetly correct. It is only one of the many congradic tions of our present economic society that capitalism, in the process of destroying individuality amongst those who suffer from, but acquiesce in its duration, also generates the individuality which will ultimately destroy the conditions which gave it birth.

The most significant product of capitalist society today is not the multimillionaire, the trust, or the gigantic machinery of production, but the revo-John, there is nothing left for you and lutionary working class, the men whose the class to which you belong, but soindividuality passes the limits of capicialism alone-and you'll see it bye and talist society, the socialists who are encunced by reactionaries and blockheads, with being "too radical,"

If it be radical to insist that the full product of labor shall go to the protuces, and that the accomplishment of TEL WEST 601 ---- CHICAGO this involves the overthrow of the cantalist system of production, then the scialist may plead guilty, while hold ing the charge as a matter of little moment. He has only to work steadily and persistently in harmony economic tendencies of the present and watch the increasing numbers of the socialist army, recruited mainly from those who were shocked by the extreme radicatism, and pronounced individuality, which fermerly they were unable to comprehend.

John D. and Frank Rockefeller had a row over the possession of a "paster" mpleyed in one of the Standard Oil churches. Providence was on the side of the heaviest battalions and victory mained with John D. Render unto 25 cents for six months; 50 cents a year.

When the union and non-union men et through carving each other, the espitalist press is always on hand to ay grace after meat.

Women, Attention!

The women readers of The Workers' Call are invited to attend a meeting at 50 N. Clark St. Sunday, May 13th at 3 p. m.

A MODERN PARABLE THE GREAT LOCKOUT

In Which Is Set Forth the Tale of Evidence of the Class Struggle a "Friend of Union Labor."

HIS ACTIONS, RISE AND FALL. THE SITUATION IN CHICAGO.

And Detailing the Manner in which He Capitalists Bring Up Their Reserves for Dealt with the Laborers, and They · in Turn with Him.

of Capitalism ruled in the land of the at the present moment. Never during Trust and the home of the Slave, that all the ctormy days of '86 or '94 were the in one of the Cities of his Dominion forces of capital and labor marshalled there was a Mayor who was a great into as compact a line as now. Begin-Friend of Labor, and who from the ning with a dispute between the building coming up until the going down of the trades and their employers over detail Sun tarried not in his task of "helping of work and organization this great the Laborers." He sought out their sirke has gone on until measured in chief Men and gave them places of high days lost, men idle, amount of busines Honor in his Court, and he always had involved and interests at stake; it a Glad Hand out for such as had found ranks among the greatest of the favor among the Working Classes. He struggles ever engaged in by capital gave orders to his Blue Knights of the and labor upon the economic field. Club that they should turn their blind Early in the contest the original Eye toward any Union Men who might grounds of conflict were sunk in the atbe engaged in persuading Scabs that it tempt by the bosses to force the dissowas wicked to take another man's Job jutton of the Building Trades Council away. He prided himself much because and thus abolish the system of feder he had a Union Labor Clause in all the ated unions, knowing full well that with Contracts for public Works, albeit that the perfectly consolidated form of capi-he knew that the judges would let the tal at the present time it would be an Hot air out of all such clauses with an easy task to crush the unions one by Unconstitutional Punch. But the par-ticular Long Suit of this Friend of the It has been pointed out in previous inpoor Laborers' Street Car Franchises Harrison and the Democratic party from being stolen by wicked Capitalists were whipped into line to aid the emfrom Philadelphia. favor of great benefit to the Tolling ways posed as the great friends of un-Masses all were agreed save some evil- ion labor. Steadily one reserve force disposed Descendants of a Wicked and after another was brought to bear by who laughed scornfully and denied that the grand jury, the press, all the time the laborers ever owned any Franchises tried instruments for ruling rebellious east iron Pull with the Unions.

and so it happened that there came to disorder. Even the sensational press sit in the Mayoralty Chair, a Ruler who have magnified every individual who knew not the Laborers and laid dispute into a riot have had hard work grievous Burdens upon them. Share of the Wealth they were creating condemned them.

Furthermore he issued orders unto press as a "sympathizer of union la-his Justices that when any Laborer was bor." The report goes on to say that tion Sixty Days in the Bridewell. And that all might come to know the fate in store for those who rebelled against -he gathered a Procession of Gatling Guns and armed Troops and marched them past the House where the Labor-

And even this is not the End of the unto his Grand Jury that they should indict such of the rebellious Workers as the Justices had not yet caught and cast them into Prison from which they could in no wise come forth except under heavy Bonds and threats of yet greater Punishment. And such of the Workers as might be found within his Court were given the Marble Heart and sent forth into the Cold, Cold World.

And it came to pass at last that when all these things were accomplished that on the Face of this Enemy of Labor and Crusher of Unions and Lo Behold his former Friend of the Workers and Choice of the Union, and when they face they saw that it was the same Person who had done all these thingsand that Person was Carter II., Rujer of Chicago.

And when these things were accom plished and the Workingmen perceived how they had been betrayed and had sold their Birthright for a Mess of Politics, they gathered in a great Party of their Class around the Red Banner of Universal Brotherhood and went forth as a Mighty Host to the Ballot Box and smote Carter the Second and their Masters the Capitalist Class, Hip and with - Socialist Ballots, when the Tickets were counted this Mayor with all of his Class were cast into the outer Darkness of Political Oblivion, and there was Walling and

Then the Laborers having selected Men of their own Class to rule over them, organized Society in their own interest and the Result was wonderful to see, for each Man received what the Labor of his Hands created and there were no more Capitalists or Wage Slaves, or Strikes or Lockouts or Con-Game Politicians, and all was Peace and Pienty. And the name of that So-ciety was SOCIALISM.

Grows Clearer.

Only during the present week the cororected by a Ruling Capitalist Class had Co., who shot and killed Peter Miller, who is only described in the capitalist

"The testimony of the detectives and policemen was all against Miller. Little effort, seems to have been made to obtain any evidence from the men who were with him when the shooting occurred."

ee the shooting was that the murdered man was pursued into a butcher shop and there shot to death, the bullet entering the back of his head.

SOLIDARITY OF CAPITAL.

class have continued to close up their ranks and strengthen their forces. The banks refused to cash city warrants until the police began a persecution of union pickets. This last week has given several new testimonials of this solidarity on their part. The contractors sent around to the "business men" for an "endorsement" of their position and twenty-eight of them promptly responded with the following

To the Building Contractors' Council: To the Building Contractors' Council: Referring to the present labor situation in this city, we have carefully looked over your circular of April 24, as modi-fied by your circular of April 29, and is seems to us that your position as there-in defined is an entirely fair one for both sides of the unfortunate controboth sides of the unfortunate controversy; one which must meet the approval of all fair-minded men; one which secures to the labor unions all their demands, which will be approved by an intelligent public tentiment, and at the same time enables the contractors to go forward with their operations with the ability to execute their agreements.

that he thought the interests of his class were being cared for all right by the contractors and responded with the following gem:

LABORERS CLOSE UP RANKS.

This was the situation up to last Sun-day. The building trades had been practically alone in this fight against

the combined capitalist forces of Chicago. But this joint attack by the united employers had the inevitable effect of bringing the class struggle to view and closing up the ranks of the workers, ' The Allied Printing Trades decided to call a delegate meeting of the united laborers of Chicago. At this present from 146 organizations, From beginning to end of the meeting there was but one sentiment and that was that the present strike must go on and that it must receive the support of every union worker in Chicago. It was recommended that each union assess its | war of his own volition. members fifty cents a week for the support of the strikers, this assistance to continue as long as necessary. It is estimated that this will give the relief tional funds and will enable them to hold out for a practically indefinite time

SPEECH BY PROF. GRAHAM TAY-LOR.

But perhaps the most significant featares of the meeting was the address of Prof. Graham Taylor, from which we take the following extracts;

"Public opinion on the one hand holds the Contractors Association responsible for its part in the critical situation. It is, however, widely conceded to have just cause of complaint and even exas-peration, which mitigates the criticism of its inconsistencies. A fair-minded man cannot see its consistency in insist-ing them dishardless the cannot while of its inconsistencies. A fair-minded man cannot see its consistency in insisting upon disbanding the council while resolutely maintaining its own association; in demanding the cessation of the sympathetic strike while busily organizing a sympathetic lockout; in protesting with not a little justice against the interference of organized labor with the liberty of contractors to purchase union-made material from whom they pleased while aiding and abetting. It not compelling, a boycott by building material producers against the employers of union labor allied with the Building Trades Council; in charging the unions with refusing to keep their agreement while in some instances at least locking the men out for taking the Saturday half-holiday granied in the agreement between them; in complaining against what may have been too great a limitation of the amount of a day's work while falling to recognize the complaint of the men against the rusher being allowed to set the nace

ing against what may have been too kreat a limitation of the amount of a day's work while failing to recognize the complaint of the men against the rusher being allowed to set the pace for a fair day's wage; in avowedly waging their warfare for industrial liberty and free labor while curtailing the small contractors' freedom to compete, if they refused to join the association by cutting off their supply of material and labor.

"Public opinion on the other hand claims the right to criticise frankly and fearlessly the policy of the Building Trades Council. It criticises the policy that tolerates the acceptance of appointive political offices as the most disastrous policy that has ever paralyzed the power or menaced the future of organized labor in Chicago. These offices are offered as subsidies. Their incumbents are really held as hostages for the delivery of the labor vote. This policy keeps even the best and most incorraptible union officers under a cloud of suspicion:tempts the worse and weaker leaders to pervert both their labor leadership and their political office from the public service to their personal advantage; destroys the confidence not only of the public but of the rank and file of the unions in the integrity of the movement and breeds the foul fear that mercenary motives and even blackmailing methods characterize the fairest and most sacrificial struggles for economic Justice and Industrial rights. If organized labor would really have and exercise political power, why foes it not come out into the open to rominate and elect its own representatives to elective offices, through which its principles can be carried into public policy by the enactment and administration of legislation in the interests of the whele people?

During the delivery of this speech, which was punctuated with frequent

During the delivery of this speech, which was punctuated with frequent of the unions who had held office under the Harrison administration sat with burning cheeks. There were many points in Professor Taylor's speech with agreeing. We consider the attempt which he makes in another part of the same speech to consider the "public" as in some way an impartial third party to labor disputes as most pernicious and ridiculous.

In present society all are either capitalists or laborers, exploiters or ex-ploited, and as such their interests in the present struggle are with the parties of their respective class.

to discuss our divergence of opinion or minor points with Prefessor Taylor, any more than our similar disagreement with the trade union officials. present is a fight for life for the unions. a fight for existence by the workers and as such the only thing to do is to join with them in this fight and give them all the aid possible.

COMMITTEE OF INVESTIGATION. Acting on Professor Taylor's sugges-

tion an endeavor is being made to se cure a committee of investigation and "I do not see how any thoughtful citizen can refuse to indorse these principles. They are so wholly fundamental to the business and social well-being of any community, where rights of persons and rights of property are highly regarded, that public sentiment mast slways be found supporting them and insisting upon their enforcement. No one of them contravenes anything which tends for the public good or the individual's interest. All, it seems to me, combine to make for that independence of right of action which is as necessary for the workman as the employer."

The Socialist Vote. UNITED STATES.

ENERGY AND APATHY.

It is often pleaded for some one that he has made great sacrifices for socialism. Let it rather be said of others common task. It will generally be cialism depends upon the degree of understanding. Let a man once enter into a full comprehension of all its meanings and, as has been the case with thousands in its history, life itself will seem slight in comparison. It has been this fuller comprehension joined with physical and mental courage that has clogged the prisons of Europe and worn out the energies of capitalist oppression

The American socialist has yet to arrive at that degree of comprehension of the philosophy that he claims to follow and its significance to him and his class to be able to make the effort it demands. So far from being willing to endure imprisonment or persecution slight comforts that he may ald the and Italy are still giving their liberties and their lives. Under these conditions one sometimes wonders if a homeopathic dose of suppression and oppression might not be a good thing. If the circulation of the gospel of human free dom meant the imprisonment of those concerned it is not likely that socialist papers would be allowed to languish for the lack of a few cents or a few hours' work a week from each comrade. If speaking for socialism was a felony the opening of the opportunity to talk would be halled with rejoicings. But the opportunity is here and we are too lazy and indifferent to bestir ourselves and take advantage of it.

Let us rouse from this lethargy. Our activity and our efforts should be in proportion to our knowledge. Before we scoff at the laborer who refuses to vote let us make sure that we are not much knowledge of the consequences, in refusing or neglecting to do our share in the spreading of the knowledge of socialism. Be sure that you have given and serves, and that'to the last full measure of your power, before you criticise the Inactivity which springs from greater ignorance than yours.

CATTALISM AND WAR

That the ruling classes of the great capitalist nations of the world earnestly strive to stave off the menace of universal war which constantly hovers around the development of capitalism, is a fact which cannot be denied by those who have watched their efforts in this direction. That as the years go by, this menace draws ever nearer in spite of these efforts, is equally true and the latest acknowledgement of this fact by Lord Salisbury the Premier of England, before the Primrose Leagu club, may be taken as a public avowa that the ruling classes of Great Britain at least are convinced that the approaching terror cannot for much longer be postponed. There is very little trace of what is known as "diplomacy in the Premier's speech, none of the smooth and ambiguous phrases which are looked upon as the correct language of statecraft, when there is something to conceal, and some possible advantage to be gained by conceal ing ft. This mouthpiece of British cap-

the course which the ruling classes of which heretofore has been disguised under such phrases as 'carrying the light of civilization to foreign lands." "bearing the torch of progress," spreading the gospel," etc., etc., has now drawn upon them the hatred and enmity of other nations, a hatred which may not unlikely soon transform itself into an armed coalition against the British empire. The Premier wastes no time in denunciation of the probable adversaries of Britain, he sees that it is, to use a well-known phrase, a condition, not a theory which confronts the British ruling classes at present. Czech). But the capitalists UNITE. and he bluntly tells them that it is necessary to prepare adequate means of resistance at once. He does not consider or entertain any idea that the feeling of European enmity can be allayed by the usual pretexts of friendly relations, he makes no attempt to placate those who stand in a position of hostility towards British interests, more, they receive less. whether these be within the bounds of the empire or outside them. The unusual tone of the whole speech show that Salisbury considers that the wisest course of action is to prepare for the inevitable: while his assertion that he apprehends no present danger can not very well be harmonized with the decided note of warning which runs through the address as a whole. Taken in its entirety it is a striking con firmation of the correct diagnosis of the socialists, who have never failed to that they are shirking their part in the point out that the present economic system of society, in which the materfound that the degree of effort for so- ial interests of the ruling classes, though conditioned upon universal peace, nevertheless cannot avoid for menting war and destruction, and when the representative of what is perhaps the leading capitalist nation in the world bears out this statement in a public address, in words which cannot be misunderstood even by those most willing to be deceived, the belief is fairly warranted, that capitalist civilizain a vain effort to crush out the spirit tion has almost run its course. This threat of universal war which the shrewdest of the ruling classes now appear to regard as a not very distant reality, when viewed in conjunction with the internal revolt against economic conditions in all lands, known as the socialist movement, leaves no doubt whatever as to the form which society must assume its next stage. Capitalism means war, and its continuation cause for which his comrades of Russia, is impossible while socialism under which alone universal peace can be se oured, is inevitable.

italism tells his hearers plainly that

For Teachers and Pupils.

The Issue of The Workers' Call for the 9th of June will be a special number for use among teachers and pupils in the schools and colleges. For this purpose an extra supplement of four pages will be insefted containing amon other things Kropotkin's "Appeal to the Young," omitting those few sentences inciting to violence or attacking re ligion. In addition to this there will be special articles by various comrades on the connection between modern pedagogic philosophy and socialism, on the overcrowding in our present public schools, the closing of opportunities to the young under capitalism, the economic position of the teacher, the atticude of capitalism toward popular edu-

It will be a number that will reach a among which little propaganda has been made. It will come just at the more foolish because of our greater time when graduating exercises are going on in all the schools and when its great deal of attention wherever it is distributed. There is not a town in the country where there is not some sort of done as much for socialism as it de- exercises at this time and if the occasion is taken advantage of it-can be made an opportunity for first class propaganda.

Owing to the fact that a comrade has made a donation for this purpose large enough to pay for the extra expense in curred in sending this double number to the regular subscribers we are able to make the following very low rates on bundle orders to single addresses. One hundred to five hundred, 70 cents per hundred; five hundred to one thousand or more, 50 cents.

Arrangements having already been made to send all the sample copies of this issue the postal authorities allow, no single numbers can be mailed to separate addresses.

Attention!

Members are requested to attend their respective branches and vote on the unity question. Secretaries will please fill out the return blanks and mall same to Jas. S. Smith, 245 W. Monroe street, not later than May 26th, as the vote MUST reach the national secretary by May 30th.

As the question of when the twentieth century begins seems not quite settied yet, what's the matter with Bryan using it as an issue in the coming cam paign?

Send for a bundle of the extra eightage number to give to teachers and schol children.

SNAP SHOTS BY THE WAYSIDE.

According to the cable dispatches, th glass manufacturers of Austria, Belgium, England, France and Germany, have, united their interests and formed a European Glass trust.

Now please note this, fellow workingmen: The manufacturers, that is to say, the capitalists who own and control the means of production in the glass ndustry of those countries have Do you understand it? United-combined their interests.

.... You have no doubt also read in the daily papers the accounts of fierce quarrels in the Austrian Reichsrath (the bitter struggle between German and

That is, they join together for the purpose of chespening the production least will have ample opportunity durof glass, so that more profit may be made. To do this they must cheapen everything which goes into the production of glass; which means that the glass workers, wage earners, are also to be cheapened, their hours of labor lengthened, and while they produce

So the capitalists UNITE. Not in on ountry alone, but in five. They KNOW that UNITY IS STRENGTH in this case, strength to coerce the workers into submission when the latter become dissatisfied with their conditions.

New, turn to the front page of this paper, and read the motio which runs along the top under the name. It says: Workingmen of all countries, UNITES You have nothing to lose but your chains; you have a world to gain." Do you comprehend it?

Siberla as a place of exile is to be bolished; acording to the newspapers. Thus does modern capitalism in its development sweep away the old estab. shed forms of feudal dominion. The rising capitalism of Russia cannot afford to waste its property, the proletar. lat in such antiquated fashion Whether the report at this juncture be true or not, there is no doubt that the knout and the horrors of exile will ultimately be supplanted by the more "hu mane" method of cpaitalism, which substitutes the lash of hunger for the crude penal methods of a past age.

In the building trades lock-outs and the developments arising therefrom many interesting exposures have been made. The claim of the building material men that they sell material on the open market to anyone who will buy, is a huge joke. Let anyone go to any material man and he can buy at list prices, but the discounts go only to the contractors who are in the combine It is this fact that compels most of the small contractors to remain in the organization, many of them against their will. They are between the devil and the deep sea. If the Contractors' Council win, they cannot compete with their "brethren" the large contractors, they get out of the combine they can not get material with which to work. This state of affairs is what is called 'free competition" and those who uphold it are generally the most bitter in their denunciation of the "tyranny of the labor unions."

The "prosecution" of Gates the manipulator of the Steel and Wire deal severely nipped some of the saintly Wall Street gang, is to be renewed with greater vigor than before This is probably due to the fact that Gates is by this time over in Europe, and the small fry speculators have plucked up courage in his absence to rehearse the farce once more.

"Public ownership" has received another set-back. The United States senwould permit the government to build class that is ready for socialism and and operate an armor plate manufac tory. Public ownership of the means of destruction doesn't concern the socialist particularly. What he wants is the collective ownership of the means of procirculation will be sure to attract a duction, and when this is accomplished. armor plate will most probably be obso ete. It may however be found in the museums of the future as an evidence of the barbarity and folly prevailing at the close of the nineteenth century.

> The stereotypers in Chicago struck wo years ago for increased pay on account of the onerous character of the work. The great capitalist press of this city suspended publication for four days, and by so doing whipped the union into submission. But the capitalist class do not rest on their oars after victory. The stereotypers will have a still harder battle to fight and the tacties they employ will be considerably less effective than those of two years ago, if the following news item can be

After six years Henry A. Wisewood of New York has devised a machine which does away with the old and slow method of making stereotype plates used in printing a dally newspaper from a perfecting press. The new machine takes a matrix in at one end and passes out metal plates at the other at the rate of four a minute. The plates are as perfect as those made in the old way. One of the machines has been in use for a week and it has given complete satisfaction.

The Stereotypers union did not contain any socialists, but judging from the significance of the above item, many recruits may be expected from their ranks. They will be given leisure to think.

Their work being thus lightened, what ement? All they will get out of it

employment, and second, lower wage those lucky enough to be employed On the other hand there will be greater profits for the capitalists who own the ly begin to think that socialism is not only not unreasonable, but that it is the only remedy that fits their case, as it

does with that of all other members of

the working class.

And it would be well for the stereotypers to pattern their activity more after that of their musters, who are not content to stop after one triumph in the economic field. When the workmen make a gain in that field they should follow it up by carrying the struggle into the political arena under the banner of international socialism. for the complete overthrow of capitalism. It worse than folly to wait until driven to the inevitable. However the stereotypers or the majority of them at

ing their enforced leisure to study the

question. No socialist has any doubts

as to the ultimate conclusion they will

reach. Teddy Roosevelt is ambitious. He does not desire to vice-president, but is reported as saying that he would like to be the first civil governor in the Philippines. Being a republican he of course will "strenuously" endeavor to secure the "consent of the governed" before accepting the office. This should not be a difficult matter if we can judge by the reports of slaughter in the islands which have been almost daily published in the press. The Filipino natives are fast being convinced by the unanswerable and irrefutable logic of American capitalism-the Krag-Jorgensen. If the campaign is conducted a few months longer with such signal success, the consent which Roosevelt as a republican must secure, will be

CHEAP LABOR.

forthcoming. It will be given by si-

lence, and Krag-Jorgensen will make it

unanimous if possible.

Clear-sighted Capitalism Discerns the Real Question Underlying the So called "Bace Problem."

The Chicago Tribune is one of those clear-cut capitalist papers that occassionally hit the nail on the head in a beautifully naive way. An instance of this is the following extract from a recent editorial opinion on the "negro problem:"

Laying aside sentimentalities, it ap Laying aside sentimentalities, it appears that the negro problem is largely a labor problem. There are now some indications of a movement to organize the blacks into labor unions, and if this should ever take place the South would be face to face with a genuine "problem." Up to the present the negroes have remained outside of all labor unions and have accordingly conber unions and have accordingly con-tinued to work cheaply. If they now should be induced to organize unions on an extensive scale and imitate the white unions in their wage demands. white unions in their wage demands, there would be a state of affairs con-siderably more serious than any attending the purely imaginary "rever sion to savagery."

There is much more truth than poetry in that observation and we commend its study to those interested in the "ne-gro problem." Like all other such "problems" involving human servitude it only becomes serious to the masters when the slaves themselves begin to act.

The responses to the call for a special effort to help this paper are extremely encouraging and the campaign offer is taking in good shape. With just a trifle harder lift we would be placed on solid ground and could put all our time on the paper. There is not a single subscriber that cannot secure at least one club of ten for \$1.50. Remember that you get the Call for twenty numbers during the campaign for fifteen cents and the person sending in the club gets ate has defeated a proposition which a cloth-bound copy of Engel's "Socialm. Utopian and S

> It is not strange to hear the man who has been vainly hunting for a job, sympathize with the Boers who are to be deprived of their "independence," fellow feeling makes us wondrous kind

The capitalist may insist that socialism is a "dream," but he doesn't want to see it brought to the attention of the working class, just the same. When that happens it becomes a nightmare for him.

The populist convention was held in a circus tent, which proves that even the populist has some conception of the eternal fitness of things.

Socialism does not depend for its ultimate success upon the lives or actions of any particular individuals or parties It is a class movement not a party organization, a social revolt not an individual crusade.

With one-third the sacrifice and effort that is, now being made to gain slight concessions through strikes the workers of America could elect Debs and Harriman and abolish the whole wage system.

To the Reader.

.Did you order and pay for the paper you hold before you? No! Then it was paid for by some friend, who seeing the light, desires you also to see it. If are convinced of the justness of the doctrine, that the toller, under a rational system is entitled to the full produc of his toil, and that this he can never secure, while another owns the tools with which he toils, then seek out a few of your friends who are still in that deep sleep from which you may have is going to be their share in this im- recently awakened, and grouse them by sending each one a three-month's sub will be, first, a greater uncertainty of scription to The Workers' Call.

CORRESPONDENCE.

In New York.

The United Socialist parties in New ork State have forwarded the follow-The United Socialist parties in New York State have forwarded the following report to this office for publication: Comrades:—Unity between the Socialist Laber party and the Social Democratic party in this state is now an assured fact, and a united front will be shown to capitalism at the polis next November. Much work for socialist organization and agitation remains to be done before that date, and it is of importance that the comrades throughout the state take socialists. of importance that the comrades throughout the state take action at

The state committee of the S. L. P. and S. D. P., which are now meeting in joint session, recommend that a state convention be held in the third week in June. We also recommend that convention be held in the third week in June. We also recommend that the convention be held in New York City, and hope that the out-of-town branches and sections will be well represented. Every branch of either party is entitled to one delegate.

We should like to have the views of the branches throughout the state on these various points as scon as mossible.

these various points as soon as mossible. We urge upon you the necessity of starting the socialist campaign immedistarting the socialist campaign immediately, and are confident that our ticket will poll in November a vote that shaft be worthy of the party and of socialism.

Yours traternally,

Joint State Committee,

For Joint Action.

Joint meeting of the members of the S. L. P. and S. D. P. branches of Bronx Borough, New York:

S. L. P. and S. D. P. branches of Bronx Borough, New York:

The joint meeting of the members of the S. L. P. and S. D. P. branches of Bronx Borough was held at the Bronx Casino, on Friday evening, May 4th.

Comrade Finger of the S. D. P. was elected chairman, and Comrade Fower of the S. L. P., vice-hairman. The minutes of the Joint Unity Committee were read and adopted.

Comrade Wm, Butscher of the S. D. P. spoke on the necessity of union. Comrade N. I. Stone of the S. L. P. had also been invited to speak, but was not present. A discussion followed the address, after which it was decided to yote on the question Shall we take united action? The question was decided affirmatively by a unanimous rising vote. A committee of five was elected to arrange for a mass meeting to be held in about three weeks in Branx Borough.

A motion was made and carried to notify the various party organs that

Bronx Horough.

A motion was made and carried to notify the various party organs that we are very much displeased that so much valuable space is taken up with matter abusing comrades, and other harsh language, instead of matter which would make them useful for propaganda purposes, and so that it would not be necessary to hide them for fear that they may do more harm than good far the cause of socialism. The Joint Unity Committee was discharged with thanks.

The next meeting of the joint body will be held at the club house, at 547

will be held at the club house, at 547 E. 157th street, on Friday evening, May lith.

Sec. Joint Meeting, S. L. P. and S. D. P.

Notice to Massachusetts Socialists.

All persons who are in favor of call-ing a conference meeting of all social-ists in the state of Massachusetts re-gardless of present party affiliations, are requested to at once communicate with

M. Kaplan,
164 North St., Boston, Mass.
P. S. The main object is to devise
ways and means of uniting the socialists (organized and unorganized) of this state.

For Union of Forces.

To the members of the Social Demo-cratic party and the Socialist Labor party of America:

Comrades: We are confrorted by a crisis in the socialist movement of America. The vote on the manifesto of the National Executive Board of the S. D. P. stands 1,213 against union to 339 for union. Out of a membership of 5,500

D. P. stands 1,213 against union to 939 for union. Out of a membership of 5,500 it appears that only 2,152 members or less than a majority have voted. The members who voted for union are as strongly in favor of it as before and news has reached us that a reaction has already set in among those who voted against union, which may reverse the above decizion later on, when the vote is taken on the report of the Joint Conference Committee. We have not taken a single step nor said a word in favor of union that we would retract and we shall continue to demand and work for union until it is completely effected. Union has been accomplished on the presidential ticket in the nomination of Debs and Harriman. The combined efforts of the members of both parties along local and state lines will bring about union in spite of maniferted. both parties along local and state lines will bring about union in spite of manifestoes. The matter of union issa question of tactics. The success of socialism, the main result desired, should predominate on account of the presidential election. The nomination of Debs and Harriman has Joined the two parties on the question of results. This nomination must and shall stand for the sake of socialism. Comrades of both parties, work shoulder to shoulder for success of the joint ticket at the polls in Navember. One million votes for Debs and Harriman will obliterate party lines, submerge tactics, and reparty lines, submerge tactics, and reparty lines, submerge tactics, and re-suit in a union of both parties that will no longer be a matter of question, but an accomplished fact.

G. A. Hoehn, --St. Louis, May 12th, 1900.

The capitalist press says that the French socialists have just discovered Looking Backward," and are delighted. If our capitalists could only persuade themselves that the French socialists were "going backward" they would be considerably more than de lighted.

When you see the republicans and emocrats, pulling tögether in some paricular locality, you may be reasonably ertain that such action is caused by one of two things-socialism or strikes

THE "FREEHOLDER."

The Hope of the Populist and His Wan ing Power in Society,

C. J. Arntzen, one of the leading populists of Minnesota has the following say concerning socialism in a recei number of The Representative, edite by Ignatius Donnelly and E.

There is too much difference betwee socialism and populism to harmoniz them together off-hand. Socialism embraces all the people as a unit—a delty-society everything, individuality nothing. Socialism destroys energy, enisprise and development. It has no instigation to exertion and invention. It is social slavery. It allows no personal freedom. It is all society. Social slaves and bonded slaves have about equal chances in life. Patriotism finds a very poor soil in a tenament row. Lord society is just as much a tyrant as a feudal ford. Socialism makes man give up to society all that is dear to him, his homestead with all improvements and orchards that he all improvements and orchards that he intended for his children, his own body and that of wife and children, to society home and common homes. It is too ethereal. If we were all angels it would be proper; but incompatible with imperfect mankind.

Of course anyone who is familiar with the doctrines of socialism knows that this is absolutely nonsense culled from capitalist lies about socialism that have been exposed thousands of times in the last half century. Socialism proposes to restore the individuality that the modern machine and wage slavery has crushed out of 90 per cent of the population. It proposes to free the individual from the present slavery of class rule and open up to him the opportunity to develope his individuality by taking him out of the "tenement row" and the mortgaged-cursed and corporation-ridden farm and giving him a chance to produce what he has need of and to keep what he produces It proposes to abolish capitalism which at present is forcing the farmer to give "all that is dear to him, his homestead, . his own body and that of his wife and children" and points out that the only thing that is not "ethereal" is the absolute certainty that collective ownership of the means of production and distribution (not of bodies of men, women and children). will supplant the present class ownership of those things including the bodies.

But Mr. Arntzen's communication evidently made a strong impression on the editorial staff for Mr. Twitchel makes the following comments upon it: Socialism as represented and taught

by Social Democrats, and all other socialists, makes too much of the colscistists, makes too much of the colscistists, makes too much of the colscistist, makes too much of the collectivity or the commune, and too little of the individual. The danger to any country lies in wiping out the freeholders. When the freeholders are wiped out, the backbone of the nation is broken, and universal paralysis sets in. Freeholders cannot be herded at the polls; they are the reliable voters of the country. They constitute the only hope of pure democracy and a free republic. The tabor vote of the nation is fickle and unreliable, Today it may be in Massachusetts, tomorrow in the mining regions of the West, and the next day it may be on the turnpike. When election day comes labor will vote-for a Job, and the day following will strike or be locked out, and hurrah for Debs. Half of labor that has employment will fight the other half, the unemployed.

The American freeholder is king of this country, uncrowned. It is the mission of populism to show him his power. The labor vote is the shuttle-cock of politics, to be counted out or counted in at the leisure of old party bosses. Let Debs have the labor vote, and when the last freeholder strikes the turnpike and embraces socialism, American liberty has had its day.

We admit that there is altogether too by Social Democrats, and all other so-cialists, makes too much of the col-

We admit that there is altogether too much truth in what he says about laborers fighting each other at present, but the history of other countries shows that when the pressure gets hard enough they will forget their little differences and unite against the common enemy. But his talk about "freeholders" and the attempt to include the farmers in that class and then set them against the laborers would be comic

The answer to this position is best given in the concluding sentences of Mr. Arntzen's letter which read as follows:

Twelve to twenty years ago farmers could run in and out of debt. Now farmers must stay out of debt to be independent. The person who starts in farming on borrowed capital is sure to

In other words the farmer at present eceives no income from his nominal "freeholding", (as if he did he could pay interest on that capital), and really owns nothing but a CHANCE TO BE A LABORER, AND RECEIVE WAGES. Under these conditions the boasted ownership is a snare and a delusion and the farmer and the wage laborer stand on the same footing and have the same problem to meet and must unite to meet it.

And the only way in which that union can be accomplished is to bring the farmers to a realization of these facts and to impress upon them the fact that in socialism lies their only hope of freedom, or individuality. When this is done they will unite at the polls under the banner of socialism and American liberty will for the first time have its day of victory.

Taking His Measure.

When a socialist begins to talk about 'saving the party" it shows that he either has a most contemptible idea of the party or a most exaggerated idea of his own importance, or most probable of all he has absolutely no comprehension of the socialist philosophy or move ment. In any case he is a poor man to be concerned with the management of socialist organizations.

Confinement in a capitalist "bull pen" has a tendency to decrease the number of voting cattle.

USELESS APPEALS.

king Class Must Bely Upon Its Own Efforts as a Class for Batter Ma-terial Conditions.

quently receive an appeal from organizations calling attention to splorable condition of the work ople and stating 'that 'many ands of capable, energetic and g workers can find no employ-Such appeals usually conclude an entreaty to aid in creating a thy public opinion in favor of seng to workingmen the right to la-But such appeals do not intimate what way they expect, this end to be

he subject of labor, and, perhaps, present deplorable condition of workinvoluntarily idle. Why is it that men willing to work

the socialist this condition is no enig-The cause is not other than the private or corporate ownership of the means of production and distribution. Enforced idleness is a permanent feature of the capitalist system. To be sure, in so-called times of prosperity a wage slave can more easily find a master. But it will be impossible for all to find employment for any length of time, for the reason that if the means f production were fully utilized the upply of products would exceed the nmercials, demand, and production, ing carried on for private, profits, es as soon as profits are threaten-

Machinery is constantly displaclabor and rendering it superfluous. le machinery takes the place of the rer in production, it cannot take dace in consumption, consequently tets are glutted and business stagon ensues. Under the wage systhe laborer gets but one-fifth of wealth he produces and so is unao buy the entire product of his toil. ods cannot be sold they cannot be duced, for production can only be stained by consumption. Of course, goods cannot be produced because lack of commercial demand, men annot be employed. The very fact hat men are unable to employ selves, compels them to submit to this exploitation. The only remedy for this condition is the abolition of wage slav-

Why should not the laborers own collectively the instruments of production and carry on production for themselves and have all they produce? What is are possessed of any political observaborers do this, and compete with each other for the privilege of doing it, they chinery for the production of private that capitalist politicians calculate beprofits and will be used only when profits are in sight. What laborers need to see is that these social groups should produce wares for their own use. If they want the desirable things of life they must transform this competitive system into a co-operative system, and produce goods for the satisfaction of their own needs. If they are not logical enough to accept this remedy but prefer working for others, then They should not complain at the result.

Under the present system if a man ments of production he need not labor -their ownership confers upon him the privilege of appropriating the results of other's labors. Under chattel slav-ery it was necessary, if men were to in idleness, to own the laborers as chattels. But under capitalism it is only necessary to own the tools which are necessary to their labor, and economic serfs are at your disposal. Men being unable to employ themselves about the "right to life" and the "right to labor" unless one points out the way by which this can be realized. The so-cialist points out the fact that this right can only be realized when so ciety owns the means of production. So long as there is private ownership of the sources of life, men will be ex cluded from their birthright.

What is more absurd than for men to leave their economic interests in the hands of irresponsible persons? If the laborers create all the values in the world, why not keep them, instead of keeping BY them, a set of parasites to prey upon their existence?

I have but little sympathy with those

who grumble at present conditions and then go the polls and vote for their continuance. If the laborers do not enjoy the condition of which they complain they have no one but themselves to blame. They have been marching, shouting, throwing up their hats and voting for just such condition. If they wish an improvement let them investigate the cause of their servitude, but if they prefer to remain mere voting cattle they ought to take their medicine without complaint. As the labor: ers constitute four-fifths of the voting strength of the nation, they have only to upite to secure their demands. But as long as they remain in ignorance of the cause of their servitude they will duped and fleeced, and lest they find out the real cause they are kept busy by their masters fighting over the tariff, the monetary question, imperialism, etc., anything and everything to divert their attention so they will not discover the method by which they are

It is the mission of the socialist to in the laborers from this lethargy and organize them into class-con scious bodies, not soliciting but DE-MANUANG their rights and enforcing that demand by the socialist ballot. sciouspess of the fact that if they would be free they themselves must strike the blow. They must be made

Rev. Charles H. Vail.

EASILY EXPLAINED,

Why the Disenfranchisement of the Negro Tends to Unite the Capitalist Political Parties.

Writing upon the distranchisement of Wm. E. Curtis, makes some interesting the manner in which the capitalist many times before. classes regard the colored workers, and

ard, expansion and other republican principles WILL JOIN THE REPUB-LICAN PARTY, and many democratic newspapers and orators are pointing out that danger of a change in the suffrage laws. suffrage laws.

Appeals to race prejudice need not be commented upon here. Those who the sense of giving to idlers the lion's tion whatever, are perfectly familiar share of the product? As long as la- with the part which they play in the game of capitalist politics. Besides it is an admitted fact which may be seen will remain simply a part of the ma- at almost any time in our daily press, forehand upon the amount of such prejudice and are careful to use it upon all possible occasions and this is so common, so customary, that it passes unnoticed.

But the Record's correspondent make a very significant admission in the next sentence. He says that as a result of the disfranchisement of the negro the DEMOCRATS WHO BELIEVE IN REPUBLICAN PRINCIPLES WIII join the Republican party. The latter have heretofore claimed that it was can secure possession of the instru- through their agency the emancipation and political enfranchisement of the negro was carried out, and they have ever since allowed no opportunity to scape whereby this fact could be proclaimed. For over thirty years the assumed credit for this action has been instrumental in procuring millions of votes for that party and has been perhaps the most potent factor in its political success since the war. And now must submit to the terms imposed upon ing of all that the Republican party we are told that the negation and undo-

This is by no means an original view. More than twenty years ago when George W. Curtis was editor of Harn. er's Weekly, an editorial appeared in the columns of that journal pointing out the fact that a natural affinity existed between the representative southern democrats and the northern republicans, which was only kept from expressing its reality by the intrusion of the negro vote.

All this may seem very puzzling to pretexts over which the republicans and democrats have struggled in the past, and there are in reality but two they remain at home and get rich at its every phase, that is the great capi-

elist class, and the socialists. What are the republican priciple. which these democrats believe in and which the disfranchisement of the negro will permit them to advocate in the ranks of their alleged political antag-

The answer to this can be found only in the recognition of the common interests of the capitalist class, and the "republican principles" aforesaid are merely the clearest expression of those interests. The expected absorption of the representative southern democrats into the ranks of the Republican party s but a proof that those who make the prediction are well aware of the ommon tie which binds together the capitalist class, and which always aserts itself, when the necessity of classifying under different political names

to longer exists. Why is it then that the disappearance of the negro as a political factor should cause this bond to appear so distinctly o the professional politicians of both North and South today? For this reason-only: An enfranchised working class is looked upon by the rulers of present society merely as a means by "republican" for some time, and the the ballot hex.

public powers and through this the re- by indulging the laborers in the belief organization of society. The working that they are doing the ruling, and at clas is ready for action, it only need the same time using this deception as to be shown the way. Those who are a means for perpetuating their condiertheless, good material for socialism, wherever the laborers are no longer a political factor, the ruling class are not under the necessity of loudly proclaim settle amongst themselves.

A disfranchised, or politically rebelcapitalist class, in the first insvance because, the function of the working class from a capitalist point of view is suspended, and in the other, because the necessity of unity to oppose the common enemy becomes clearly appar

A meeting will be held on Tuesday, niftcanee for them. Any attempt to champion the political freedom of the sten, 147 Roscoe street, to organize a new branch of the S. L. P. in the colored man, if important would quickly be met with the ever ready "appeal to race prejudice," and the "inferiority" to attend and bring their friends. the negroes in the South, the Chicago of the negro would be brought out prom-Record's Washington correspondent, lineally. This would serve its purpose by flattering the alleged intelligence of remarks which throw much light upon the class-unconscious worker, as it has

their political tools in securing the public powers to their masters from the unthinking dupes whose votes are necessary to this object. He says:

Furthermore, the long-headed democratic leaders are of the opinion that the removal of the negro from politics by depriving him of his bailot will be followed by a split in the democratic party. The only way in which they have been able to hold a large part of the younger generation to the pointical faith of their fathers has been by AP. PEALS TO RACE PREJUDICE. If the voting power of the negro is curtailed and he is no longer a factor in politics, it is believed that the DEMOCRATS who believe in protection, a gold standard, expansion and other republican principles WILL JON THE REPORT.

FOR THE NEW ORDER.

Graduates of Parisian Universities Call Upon All Students to Unite for

The attention of American college students and alumni is called to the following call for a meeting of socialsts, students and graduates at Paris this fall. It is hoped that it will be as widely circulated as possible: Comrades:

In 1891 at Brussels was held the first international congress of socialist students and graduates; in September, 1893, a second congress was held at Geneva. Since then socialism, which has not ceased to increase its strength the world over, has made a considerable growth within the universities; indeed today in Europe and America there are scarcely any universities without a certain number of students united in the great movement of emancipation of the working class, adhering to the essential conceptions of medern socialism.

The present crisis everywhere confronting liberalism—the doctrine to which most of the intellectuals, the university men, were so deeply attached, the development of a barbarous "nationalism" in France, the growth made by "imperialism" in England and this "American master-lece was quite the United States, the dangers with which militarism everywhere threatens the essential libertles of the modern world-these have done more than all our efforts to bring close to us the most cultivated minds of the bourgeoisie. While the intellectual and moral disarray of the ruling class are thus grow ing more and more evident (a symptom foretelling its economic downfall), the socialist theory, born of the ceaseless struggle of the proletariat for its emancipation, result of the labors of our great theorists and of the daily activity of the organized working class, this alone offers the new generation a scientific basis and plan of life.

In many universities, of Europe and America bodies of socialist students more or less numerous have already organized.

The group of Collectivist students of Paris believes that these bodies have a well-defined part to play in the struggle" of the workers, and that it might be profitable for them to combine their an organization committee has been of Paris.

As socialist students merging our as pirations with those of the international proletariat, we appeal to all those who accept the general principles of dec-trine and the practical resolutions voted in the International Labor Congress, namely, on the base of the in-ternational action of the laborers, the organization of the proletariat into an economic and political party of their class, the socialization of the means of production and of exchange.

Next September occurs the great In-A national organization of glass work, ers is about to be formed. Its object is to include in one organization all those occupied in making and handling of plate and colored glass, glass cutters, lead glazers, putty glazers, designers. At countries, allowers and packers. At countries, and where no groups have countries, and where no groups have been formed we invite the isolated stu-

Send in a club of ten this week

"Peace and Order."

Andrew Carnegie, who refused to contribute to the Dewey arch fund, has given \$1.00 to the fund for the widow of Sergt. Douglas, who was killed at Croton dam during the present strike. In sending the check, Mr. Carnegie wrote: "Sergt. Douglas fought not for foreign conquest, but for peace and order at home."—Daily Press.

Andrew never makes a mistake in putting his case and that of his class before the reading public. "Peace and order at home" sounds well, but if translated into the language of working class interests, it would read "but for the conquest of labor at home," or perhaps, "for the peace and order of the capitalist class." Capitalist "peace and order" in reality means the subjection of revolting workers by the physical force which the latter through ignorance of their true interests have placed in the hands of the class that Carnegie is identified with.

Eureka! They Have Found It.

The capitalist press of last Sunday, in circulating a dispatch from Paris declaring that the French socialists have just discovered Bellamy's "Looking Backward," have themselves discovered a veritable mare's nest. Jean Jaures is represented as saying that unknown to us until now." This is all the more ludicrous in face of the wellknown fact that more than two years ago "Looking Backward" appeared in serial form in the columns of "Petite Republique" which has been under the direction of Jaures himself since its foundation. Capitalist news of socialism, however, is generally of the above stripe as regards the truth

"Men in Buckram."

The seer of Beekman street has again demonstrated his undoubted right to the title of "the Jack Falstaff of Socialism," and yet Shakespeare's creation was a comparatively unimaginative individual when contrasted with Uncle Dan, whose capacity for "seein" things" utterly outclasses that of any character in history or fiction. feat of making "eleven buckran men grow out of two" fades into insignificance when placed in comparison with the inventive genius which transformed a procession of a few hundred men and efforts and become acquainted with boys on the street, into a "mammoth each other's ideas. At its suggestion mass meeting of 3,500 veterans"-on paper. But the Professor's capacity in formed, including representatives of all this respect is fully equalled by the cathe socialist students of the University pacity for swallowing this marvellous of Paris.

One cannot but be amazed at the cheapness with which DeLeon holds the intellectual ability of his dupes. He is now actually telling them that the striking cigarmakers of New York enjoined themselves from helping their out-of-work brethren. Of course it is necessary for him to in some way explain how it is that the union he declared bankrupt and on the eve of dissolution is rallying in a magnificent exhibition of trade solidarity (even though it be on the inefficient "pure and simple" side), while his "progressive" S. T. and L. A. is furnishing scabs to take those strikers' places, but really he must have lost his cunning in falsification not to have told a more plausible lie than that.

Might Get Burnt.

You have noticed that the capitalist press criticizes every part of Professor Graham Taylor's speech before the Building Trades' Council except that part where he speaks upon the necessity of workingmen electing their own representatives into political office so that their class interests can be enforced. The capitalist class will readily forgive the Professor for every utterance except this one. He who advises the workers to take independent political action on their own behalf will always be considered a "dangerous" man. But they don't exploit that subject in the columns of their press. It is too much II. Role of Socialist Students in the like playing with fire and they know it.

Labor Movement.

The trusts are to be brought "before propaganda; pamphiets, period. the bar of public opinion" by the pollticians. What's going to happen then? Why, the trusts will pay for the drinks, and carry on business at the old stand, as usual.

> There is some reason for believing that the great output of "anti-trust planks" may create overproduction in the political lumber market this season

> To suspend sabring and shooting, St. Louis street car strikers should study socialism.

The most successful striker up to date s undoubtedly boi'ermaker Jeffries, but it may be observed that he doesn't select capitalism as an opponent.

A tip for workingmen: Don't growl when the capitalist says that clubs are trumps. You should remember, that if he holds a good hand, it was you t dealt it to him-at the ballot box.

I want to be represented, not led, is the motto of the socialist.

Socialism will grow in spite of fools, freaks and fighters within socialist orcanizations, but that is no supposing that it would not grow much faster and healthler if such people ceased their present tactics.

No bill will ever be sent to any subscriber of this paper. If you did not pay for it some one else did. The numwhen your time is out, if you like the your renewal.

The problem of labor is corld-wide and can be solved only by an international party.

JULES GUESDE. (Continued from page 1.)

conduct toward the vanquished of the

Commune had excited the disgust of the civilized world.

An inflammation of the lungs obliges him to pass over into Italy. He is unanimously chosen professor of literature in the college of Maglie at Otranteo, but in him the need of propaganda was more urgent than the necessities of life, so he founds a section of the International, assists on the advanced pa- Telephone Main 3701. pers of the peninsula, notably the 'Italia Nuora," writes his "Attempt at a Socialist Catechism" which does not appear till 1876; publishes a "Letter on Property," is banished, and returns to Switzerland. Amnesty being granted him, he returns to France in 1876, helps edit the "Rights of Man" and the "Radical," founds the weekly "Equality," slowly organizes an active party, is arrested at the International Congress of 1978, is condemned to six months, part of which he passes in the hospital, finishes, in prison, the revision of his "Manifesto to the Laborers and Peasants of France," which appeared signed by groups belonging to more than twenty communes. It was the basis of the constitution of the Parti Ouvrier.

In 1879 was at the Congress of Marseilles, at which the Parti Ouvrier was officially founded, born in full armor, ready for battle, with its organization, its groups, its program, this last fully explained by Guesde and Lafargue, entitled "The Programme of the Parti Ouvrier, Its Preambles and Articles." Schisms were not slew in appearing, one at the Congress of Havre, another at the Congress of Saint Etlennes, upon which the original party went to hold its sessions at Roanne. With the same calm exterior and the same feverish spirit which characterize him, Guesde next undertakes a vigorous campaign of meetings in the provinces, is condemned at Allfer to six months in prison, on his release founds "The Citizen," which lasted two years, then the daily "Equality" (1882), joins the "Cry of the People" at Valles, pronounces at Chateau d'Eau a formidable indictment which nearly sent him to prison for two years, fights at once "Boulangism" and 'cadettism," is defeated in the legislative election at Marseilles (1889), on account of making no concession to secure Nationalist votes; takes a leading part, the same year, in the first great International Congress at which the manifestations of the first of many were decided on, and after the massacre at Fourmies, undertakes in the north a red-hot campaign which after seventy-eight sneetings ended in the election of Lafargue. Guesde himself was elected deputy from Roubaix, and he took pride in winning with the same appeal he had addressed in 1882 to the voters of Belleville-an appeal containing this defiance: "Let no capitalist, no bourgeois, no employer vote for me!" All of Guesde is in that sentence. Defeated at the last elections, he has devoted himself to the "Socialiste," which has been published for ten years, and continues its propaganda, feverish yet thoughtful, rigidly conceived and based altogether and entirely on the class

He is a force. Whatever may be history's final judgment of him, it will count him among the obstinate ones who have most powerfully desired, prepared, combined the future of social-

THE GREAT LOCKOUT

(Continued from page 1.)

talist' politicians seem to be equally afraid of investigation and publicity and have joined with employers in an effort to throw discredit on the scheme and spread false statements about it.

The capitalist press of Chicago at once opened its batteries of falsehood and abuse and declared that Professor Taylor had proposed a committee to arbitrate the strike, whereas it was speofficially stated that its only function was investigation. He was alleged to have advised the resignation of the unton leaders that they might be replaced by others in the midst of the struggle, whereas he has not only suggested nothing of the kind but is distinctly opposed to any such plan.

So the story goes on with a new lie in every issue. But there is every reason to believe that the unions are sufficiently aroused to insist on the appointment of the committee and the continuation of the investigation and publication of the facts. Labor can have nothing to lose by the spread of truth. Its cause rests on the spread of intelligence and the growing solidarity of labor. The union workers of Chicago have just given a strong example of their soli-darity. Will they give as strong a one of their intelligence by insisting on the position laid down by Professor Taylor and then carrying it out to its logical conclusion by voting the ticket of their class next election?

We are slways anxious to obtain names to which to send sample copies. Do not be afraid of sending too large a list if they are persons whom you have reason to think would be interested. A good way to do this is to sand us a large list and then a week or so afterward see the people whose names are sent and ask them to subscribe, Ai- italist politicians, ways remember that in adding to the subscription list of party papers you are doing as good propaganda work not read a socialist paper? whole country as can be done.

"Workingmen of all countries unite! You have nothing to lose but your chains; you have a world to gain."

COND YEAR .- WHOLE NO. 64.

CHICAGO, ILL., MAY 26, 1900.

PRICE TWO CENTS

A Sermon Extracted From a Text by a Wall Street Evangelist.

TRIPLE TRUTHS EXPOUNDED.

How the Great God "Money" Graciously - Condescends to Represent the "Efforts of Men."

You will fird our text in the Gospel, according to Henry Clews, the first chapter and the twenty-third verse:

"Money represents the efforts of men.
If one has a smillion dollars, he can for
day control a force equal to a million
tien. Every dollar one saves gives
im practical control of the services of
the man for one day."

Collowing the example of eminent getical expounders, let us say, first till, that while the authorship of some for he other gospels, notably those of oothew, Mark, Luke and John, are in acte question, the authenticity of this iel is undoubted and the authority pe writer vouched for by all the tugs of Wall street and the stock excovige. There was a time several genthrons ago, when to doubt, for inrace, the gospel of Matthew, was a whe punishable by death. This has

ie their fellowmen have yielded. It s no longer incumbent upon the "ruled" to how the knee in blind reverence to earlier saints, a little "higher criticism" even is tolerated. But the later authorities, speaking by more direct inspiration, as it were, and more to the point, must still be worshipped, and woe be to the man who questions them. He is a "socialist and an anarchist," a disturber of the peace, and he will go to fail, especially if he speaks his convictions upon the street corners.

We will now pass to our second head and take up the consideration of the text itself.

It is one of the most beautiful pas sages in this marvelous chapter. It is also penetrating. It abounds in high ethical and moral truths.

The text naturally falls into three divisions, as follows:

(a) A great truth.

(b) A great example.

(c) A great counsel. Let us take them up in their order.

Firstly, A great truth. "Money represents the efforts of men." This is one of the most sublime truths ever uttered. It is so recognized by all the saints we reverence. Think of it-Money! Money!! Money!!! the God of our lives, condescending to represent the "efforts of men."

Ah! but do not hastly judge this a blasphemy. Nay! nay! quire, "What men?" and then the mystery is laid bare, and the beauty and simplicity of the divine plan, made God is a gracious God, and He will known. Turn to the account of the creation contained in the second chapter of the Sidereal Steal Co.'s charter, the second verse, "And on the sixth day created He man-capitalist and workingman created He them. And the capitalist set He over all the other snakes and creeping things and the fishes in the fowls, yea over all the beasts of not so I would have told you."

Ah! now the glorious light begins to is beginning to be made plain, "Money" -our God, our merciful God-could not bring his august majesty down so low as to represent the "efforts" of that inferior race of men whom in His sacred word, He has classed with machines, the workingmen. Far from it, away with the blasphemous thought! It is only through the intercession of the capitalist that "Money" stays with us and condescends to be our God. And thus is the scripture fulfilled which "Lo I will not leave you desolate. I will send an intermediary unto

And this is the hope of the world. This is the truth to which men cling. The poor workingman, sodden and de spairing, awakes to the light of life in this hope, is spurred on to ever increasthrough the mediation of the capitalist his toll will be turned into "money." Without this hope his toll would cease would become a clod once more Without the patient-and oh, how paitalists, who make the crude "efforts" of these workingmen acceptable in the sight of "Money," the world would be bandoned by this great God and be

come a howling wilderness. Secondly. A great example, "If on has a million dollars, he can for a day control a force equal to a million men. Thanks be to God who giveth us the

scarcely to need elucidation. So benf-ficently has "money" ruled the world that for one of these dollar pieces rep that is workingmen, will toil through one long day, and ah, here is a glori-ses cruth, here is the truth upon which

all our religious system is based, for HE MODERN DEITY all our religious system is based, for put forth so much "effort" "Money" will condescend to grant to the capitalist TWO of the tokens in the place of the one, "and thereby we know that we are the sons of God."
-The capitalist does not work,

ourse. He is a transmuter. He takes the raw labor of the workingman and transmutes it into "money." Transmuting occupies all his time. True, there are some of this beloved class, of recent years, who have even presumed to hire others to fill their places in this arduous work, while they devote all their time to devout and single-hearted worship of their God. Some have presumed to criticize them for neglect of duty. Shame upon such critics. The job is at best a thankless one The poor benighted workingman, although fully as devout as the capitalist, yet sometimes, in his ignorance, forgets the self-sacrifice of the latter in his great religious role, and presumes to demand a greater share of the religious tokens, and some even go so far as to say they should have them all. And with what noble repression do the capitalists then sorrowfully say: "Have I been so long time with you and thou hast not known me?" But, as befits his august majesty, our God. "Money," has not been so patient, and often when the rebellious murmurs of the inferior class have arisen to his ears. He has taken private counsel with the capitalists, saying that He will take them away to a pleasant land where there will be no workingman and no strife and leave anged. Inch by inch the men that the poor laborers here desolate.

And thirdly, and lastly, A great counsel. "Every dollar one saves gives him practical control of one man for one day." Oh, brethren, this is the gate into eternal life. Do you want your name etched upon the golden walls of the high temple of our God? Do you want the memory of your illustrious career embalmed in the hearts of the worshippers at His shrine. Save the "dollars," "For in them ye have eternal life." Save the "dollars" that you may take part in the glorious work of bringing downtrodden humanity-the work. ingmen-to the only true worship. And for every dollar you save, you have the blessed promise that you can take the toil of one poor man for one long day and lay it at the feet of our God and hear the gracious words-"Well done, good and faithful servant, thou hast made two dollars grow where ye planted one, enter into the joy of thy reward. And lo, thou shalt have not only the two dollars thou hast gained but the dollar which this unfaithful servant has returned without increase And let the unfaithful servant be cast into the outer darkness, and there shall

be weeping and gnashing of teeth." And finally, brethren, let us be dillgent in well doing, the sick are not worthy of being did. Let us show our zeal for our great Master by spreading the glad tidings to the brethren in far-Rather in- off lands; let us pour out of our treasure a great store, that we may reap a more exceeding rich reward, for our abundantly bless us-capitalists. The rest don't count. Amen.

"SOCIALISM AND FARMERS."

field, and the workingman AND a copy of "Socialism and Farmers," by ALL OTHER MACHINES. If it were A. M. Simons. It is the last number of not so I would have told you."

The Pocket Library of Socialism, and is intended to secure the co-operation of the great body of farmers in the struggle of labor for freedom. The laborer must have their co-operation. He has not the numbers to free himself without. The interests of both lie in the success of socialism. This little work demonstrates that fact from th point of view of one who has been both farm and city laborer as well as a soparty ought to mail a bunch of these to his friends in the country. Send a few to the "old folks at home" to let them know that socialism is coming their way. Five cents each or ten for a quarter, and we will mail them to separate addresses if you wish.

> The "ten, twent', thirt'," vaudeville shows complain that the strike is destroying their business. "Bread and the circus" are evidently inseparable. the disappearance of both.

The union is an economic institution and should be conducted as such; but the workingmen should make themselves an united political body whose mission is to wipe out the injustice of capitalism.--Common Sense.

Among the leading socialist agitators and hard workers for socialism in Chicago, whose work during the last few weeks deserves special mention, are the grand jury, the police, "starve 'em out Cratty," the police justices, and last but not least, his Honor Mayor Harrison. Some of the members of the S. L. P. are also doing pretty fair work, out they are not in a position to hit as hard blows as the first mentioned gen-

There are none so poor they can-not send in one club of ten.

PHANTOM JUDGE THINGS AS THEY ARE the socialist speakers. Everywhere they say that the workers are more

as Arbitrator in Labor Wars.

This Bogey, as It Already Has in Some European Lands.

One of the most effective methods by which the ruling classes seek to prevent the same old headlines. "Strike Situaan understanding upon the part of the tion Unchanged!" But those who know majority of the nature and structure of that nothing remains unchanged, and present society, is the continued asser- least of all a struggle, realize that as a tion of unity of the interests of all, an matter of fact there is constant change. assertion, which in spite of the fact A few of these changes to be sure are that it is absolutely contradicted by in the nature of continuous progress almost every action on the part of along certain lines rather than a groups and individuals in our economic life, still serves to a large extent to blind and confuse the majority of the drawn clearer. That mythical indepopulation, who hearing this falsehood repeated continuously through press, pulpit and public platform, have accepted it, partially because of its persistence, and in part no doubt because it saves the trouble of original think-

Take, up any newspaper, listen to the utterances of any prominent political speaker, and note the number of such references as the following: "The welfare of the community demands, etc.," "the great public has the right to de cide between these conflicting elements," "the American people will never give up," "will insist upon"-"will repudiate"—"denounce"—"demand a reckoning," etc., etc., ad infinitum. In order to conceal the fact that our present society is in reality a conflicting mass of discordant elements composed of class, groups and individuals, each continuously fighting in their own maner for the furtherance of the interests of such class, group, or individual, an unreal abstraction generally labeled the 'people," the "public," or the "community," is pressed into service and made to appear as the deciding factor in determining disputes of considerable size, (such for instance as the p strike), which otherwise might in their progress uncover and expose the very thing which the capitalist class most wish to conceal-the fact of the exist

nce of a CLASS STRUGGLE. More especially in periods marked by great conflicts between the working and capitalist classes, is this bogey called upon to adjudicate the differences between the combatants. The "public" is represented as a mighty power standing altogether outside the conflict, and therefore particularly qualified to judge impartfally between the combatants. The "public" again is represented as being annoyed or inconvenienced by the struggle in question and therefore bound to investigate and discover upon which side lies the responsibility of having provoked hostilities, and by its verdict condemn the guilty, make the necessary adjustments and see to it that harmony is once more restored.

Every material interest of class, group, or individual, that is conditioned It's a Good Thing Comrades, Therefore upon the continued existence of capi-talist society, steps into the field with talist society, steps into the field with the sea and the birds of the air; and shave you any friends who are farm- the assertion that its maintenance or ers? If you have you should send them adoption is irrevocably bound up with capitalist side. So this portion of the "nublic." the "people," etc.

> 'business interests' are the paramount interests of the "public," Carnegie and Rockefeller or their hired spokesmen, assert that the trust exists principally for the "welfare of the community," the proprietors of department stores lay great stress upon the fact that their machines of distribution are far superor to the more antiquated ones and that the "public" reap by far the most benefit from them, and in labor troubles of considerable magnitude, both disputants invariably insist that the "oublic" is deeply concerned in seeing that All of which illustrations prove only that the "public" represents in the

> minds of those who make their appeals to it, merely the desire to persuade others that the interests of the individual or group making the plea, are or This is so palpably untrue under the present capitalist system, that it, must of necessity depend for its persistence upon ever repeated assertions alone, as the slightest examination is sufficient to prove its complete falsity.

In one or two European countries where the revolting working class has attained a position where it must be recognized as a distinct political factor, this farce of appealing to a hypothetical strike shall continue. "public" is almost given up, because of the fact that it deceives nobody. When the workers understand and proclaim capitalist classes find that there is no object in keeping up the deception, and ciding tribunal between worker and employer, disappears. Both understand that the situation is a phase of a great lass' struggle, a fact whose concealment serves no purpose. If asked, for

Why the "Public" Is put Forward The Present Status of the Labor Struggle in Chicago.

TO HIDE THE CLASS STRUGGLE GOOD SOCIALIST AGITATION.

The Spread of Socialism Will Abolish The New Grand Jury and Its Composition-Solidarity of Labor Increases Despite Capitalist Lies.

> Still the Chicago newspapers send out change of direction. So it is that every day that passes sees the class lines pendent third party, "the public," is steadily being resolved into its component elements, the capitalists and the laborers. This week the little property owners have been writing letters to the press complaining of the "tyranny of unions." J. V. Farwell the main founder of the Y. M. C. A. and a notorious clothing sweater, contributed his mite to the controversy by taking a few flings at the bogie man of the capital ist, the "walking delegate." In addition to this the real estate men held a dinner to discuss the situation and on Thos. Cratty showed which side of the 'public" he was on by saying:

The labor unions today are the worst tyrants in the city of Chicago. The only way to settle the trouble is to starve the union men out. The situation is a critical one, and is resolving itself into a fight for bread and butter."

This statement was generally felt by the capitalists as a case of "giving things away" and hence all the capitalist press immediately declared that I was "too brutal." As if all strikes were not fought out exactly upon that prin-

On the 21st inst, the grand jury me and the laborers were prepared to pre-sent their grievances, foolishly thinking that because the previous grand jury had indicted some laborers, the preser one would show its impartiality by doing the same to a few contractors who were guilty of much greater infractions of law. But they were destined to have one more proof of the fact that they are living under a class govern ment. The grand jury was composed of three manufacturers, seven small business men, two clerks, two book keepers, one banker, one insurance agent, one "professor," one "manager," one jeweler, one "credit man," "manufacturer's agent" and ONE LA-BORER, or at least there was one whose occupation was given as an 'em ploye," and so perhaps may belong in the wage earning class. To be sure the cierks, bookkeepers, etc., also belonge in that class if they had brains enough to know it, but the most of them are particularly proud of the fact that their masters allow them to "thank God that they are not as those other laborers," while they are being exploited and so always can be counted on the longed, and up to the present writing have carefully shelved all inquiries that might tend to throw discredit on the contractors.

Meantime the press has been very ac tive in spreading lies to the effect that the unions were on the point of breaking their mutual agreements and settling with the contractors separately Both the capitalists and the political members of the unions are still engaged in trying to block the efforts at an impartial inquiry along the lines laid down in these columns last week However there is still a good prospect that it will be brought to a conclusion and something of the truth brought to

light. As was the case during the previous week the same process that is obliterating all times of distinction within the capitalist ranks is also increasing the solidarity of labor. There are no signs ought to be the interests of everybody. of any disaffection at any point, the system of strike benefits being continued on a scale sufficient to meet all denands and the unions of the country are continually coming to the assistance of the strikers. Perhaps the most ignificant movement of the past week was the decision of the United Mine Workers of America to lend their astistance: This will mean a continual and substantial aid as long as the

> A large number of the strikers have left the city for other places where they can find work and the "leetle beesness men" are howling because their profits are falling off. When the whole thing is over it will be found that eaten up by the department stores be ause the latter were the better stayers So that the process of concentration is ed tust the same in stormy

Another result of the present trouble is shown by the reports brought in by

willing to listen to the truths of soialism than ever before. Indeed every day that passes brings the socialist position more and more into view. It is pretty hard to deny the fact of the class struggle when the boss, the grand jury, the press and the police are all thumping it into you every day, and thousands of the Chicago workers are waking up to the fact that their only sope lies with the socialists.

NOT JUST YET, MR. CRATTY.

The "Starve'em Out" Proposition Brings Into Evidence the Solidarity of the Workers.

The answer to Cratty's "starve 'en out" scheme has at once resulted in a response which is a satisfactory proof of the feeling of solidarity which exists amongst workmen in the economic field and which has only to be transferred to the political, in order to mancipate their class from the dread of the lash of hunger with which the capitalist is able to menace them. The cigarmakers stepped into the breach to stave off the threatened want so far as \$1,000 could go, with the promise of idlers, more in the future; the tailors, engravers, machinists, in fact the works ers in most organized crafts have shown the spirit of solidarity so intensely in coming to the relief of the building trades workers, that the contractors are now declaring that the ockout will be over in a few days. The same spirit expressed at the ballot box would show those of the Cratty laboring man. type, that the power of starvation with which they at present coerce the workers could no longer be relied upon as a permanent weapon. It is not wonderful that the capitalist press have generally "denounced" Mr. Cratty's proposition. It certainly was "injudicious" from their point of view. But nevertheless, the submission of the workmen through starvation, they well know, is the only method by which their class can securvictory under the present circumstances, and they would have no obection to see the process in action, if only the mischlevous public utterances of the less prudent members of their class could be suppressed,

A SHOTGUN REGIME

Same Old Story Repeated in St. Louis-Capitalists Use Public Power in Their Own Interests.

The striking street car workers of St Louis have issued a statement appeal ng for aid to the union men of the ountry, in which they point how the ntract which they had with the employers was repeatedly broken by the atter until they were forced to strike self defence.

Here too there has been the same old tory of the employing class calling their government to enforce their temands. The injunction has been rought into action and the interferace of the federal government invoked o "protect the United States mails." The police have been armed with shot runs and ordered to use them. night be expected several persons have een shot.

It would seem as if the street ear vorkers of St. Louis might also be rought soon to see who constitutes the overnment under which they are livng, and be able to re alize that so long as the other fellow determines the conditions of the fight he is sure to win. Is it not time that they united with the socialists into a party of their own lass and elected judges who would mjoin, and police who would club the cilow who exploits, instead of the one who is exploited?

Stripping Off the Mask.

Still the process of whipping Carter Harrison into line goes on. The last restiges of his friendship for labor are eing wiped out. This week there was e sure that no favors are shown to the union men. Then it was announced that no distinction would be made as to union or non-union in the appointment of building inspectors. That is, the men who have fought to maintain a high standard of living in their trade and have supported their union faithfully to secure that standard, will be compelled to practically work under the supervision of a man whose every effort has been to destroy that union and lower that wage.

If the events of the last few weeks have convinced you that the press of Chicago is against the workers, don't you think it would be good policy to support those papers which stand for -papers like the one you are now reading, for example?

That "real estate" philanthropist who proposed that the strikers should be "starved out" had no intention of applying to the courts for an injunction against enting. His class have but to boid on, and the desired result is at-

Hundreds of workingmen have been bliged to leave their homes and fami-

Too often the friend of labor is a friend for what there is in it.

Oom Paul will be forgiven for killing British soldiers, but for blowing up the gold mines, never.

People who intend to vote for Bryan as a step towards socialism evidently want to get there under false pretenses,

The present trouble in the party is hardly a ripple on the ocean of international socialism. Don't worry about it.

The increase of pawnbroking establishments in Chicago is another evidence of prosperity of Mark Hanna's

Under a system based on equity and justice the producers would certainly get as many of the good things as the

People who do not work at all are beginning to get very much excited because the laboring men have been idle

The way to bring about a peaceful revolution in Chicago is to place The Workers' Call in the hands of every

Of course someone must do the most objectionable grades of work but how would it do to let the other fellows do it for a while?

.This has been so prosperous a year or trusts that they will probably coniribute to the campaign funds of both he old parties.

Do the Boers think it would be right or, us to interfere when we are doing he same thing to a defenseless people in the Philippines?

In their endeavor to starve the laboring men into submission the c tractors may only starve them into voting for their own interests.

Of course the Chicago labor troubles will soon be settled. It is drawing so close to election time that Mark Hanna will be obliged to call them off

The politicians of the Populist party have nominated two tickets. The rank and file will vote for Debs and Harriman-that is most of them will. Chicago contractors are now fighting

the workingmen with the surplus product of the latter which the contractors have appropriated in the past years. It is a nice thing to have friends who

are willing to sacrifice for you and who are liberal with advice, but after all the werking class must work out its own Although they have been looking up

and down the land for an available candidate not a single republican has suggested a laboring man as a running mate for McKinley. Berlin street car employes won most

of their demands in the recent strike. The fact that the socialists control the city government of Berlin may have helped them to win. Socialism received what appears to be slight setback at the elections in

Paris but the country districts sponded in a way which shows that France is terribly in earnest. With the number of men in the ranks of union labor there is no reason why it should not elect a few members to the legislature this year and not be

obliged to depend wholly on "friends." People who speak of the good conditions as to hours and wages offered by the Chicago contractors forget that these same conditions were wrung from

the bosses by strikes and bloodshed.

Instead of punishing the thieves who ooted the postal service in Cuba they will probably be sent to the United States senate after the affair blows over. That is what happened to the men who were deep in the star route

The correspondent who asks on the daily papers if it is possible to live on \$100 a month has a fine sense of discrimination between living and existing. It has been demonstrated that the latter can be accomplished on a dollar a day or less.

When you read in the Chicago capitalist press that the Building Trades Council is about to dissolve, that the marons have decided to make independent agreements, that the deliberations of the laborers have broken up in rows, etc., just remember that it is simply the employers who are speaking through their mouthpieces, and that they are simply expressing their de-sires, not relating facts.

EXPERIENCE TEACHES. The lessons which the workers in many cities of the United States are now receiving during the present epidemic of strikes and lockouts, is an the lines of least resistance, it follows educational force whose future value for the guidance of those concerned, cannot be underestimated. That the dominating factor in present society is the material interests of the capitalist class, is receiving distinct corrobo ration every day, in the sweeping court injunctions against the rebellious work- tion as an independent exploiter beingmen, the shot guns in the hands of the police force, the unmasking of the with gigantic concentrations of capialleged "friends of labor." by the imperious necessity of maintaining the Interests of capitalism at all hazards by the injudicious declarations of members of the ruling class who proclaim their intentions to "starve the work- forthcoming except in cases where men out," to smash their organizations and deprive them of the possibility of return for their action. The Boer uniting their strength by insisting upon cause stands in exactly the same posidealing with them as individuals or unconnected trade groups. All-this will oring home to many of the workers. the irresistible logic of the socialist and prove its truth to the hilt. The actions and declarations of the capitalist class at present, are the material proofs of the correctness of the socialist position and these proofs cannot fail to a powerful aid in helping the working class to grope their way out of the political darkness in which their masters seek to keep them, into the due to the fact that the said ruling full light of socialism. Every act of the ruling class to preserve their supremacy brings into light the power implied in the possession of the machinery of government, and helps the wields that power, the victory of that class in the economic field is absolutely terial interests, the interests of their assured. And further, the present existing troubles cannot fail to impress that guides and determines their acupon them the truth that whether the political complexion of the ruling class in any locality where the labor struggle ocratic or Populist, the powers of state class, is also the sole guiding principle are invariably used in the interests of that dictates his course. the propertied classes, and against the worker's. This truth they will learn. not by theoretical demonstration, but fortunes of isolated groups of workers here and there, but in the universal and loudly proclaimed intention of their exploiters to use at all times and in all places the power which the posses sion of government gives them, to resist the demands for better living conditions on the part of the producers The fact of the class struggle which is at present showing its reality with increasing distinctness in numerous cities throughout the country, and which the ruling classes try to conceal by an nouncing that their side of the conflict stands for the preservation of "law and order," cannot fail of recognition by a large number of workingmen who taught by bitter experience the folly of arming the enemy with the weapons which make his victory secure and their own defeat certain, will inevitably be drawn into the socialist movement, which alone stands for the political and economic supremacy of the working class. The privations and miscries which have been the lot of many thou sands of the workers in the conflicts at present raging, will not have been suffered in vain, if from them there results a class-consciousness which will express itself next November in a clalist vote so large, that in it the up holders of the present system of capt talist robbery may see the handwriting on the wall, which indicates the end of their class supremacy, and the cominof an economic era in which the secur ing of the full product to the produce will put an end forever to economic

from them. And that this forecast will most probably be realized, we see little reason to doubt.

STRUCK THE WRONG CROWD

The reception accorded to Messrs Fischer, Wessels and Wolmarans, the Boer peace envoys, by the Senate at Washington, demonstrates the accuracy of the position which the socialist press of this country during the last few weeks have published regarding their object. Ofice more has it been shown in the action of the ruling classes that material interests are always the determining element in any proposition brought under their consideration, proving the truth enunciated by Marx and Engels that "the execu tive of the modern state is but a committee for managing the common affairs of the capitalist class."

The great capitalist interests in the United States are engaged in a work similar to that of the British in South Africa. The necessity of procuring markets for the ever-growing capacity of production upon the part of the great capitalist nations forces them outside their national boundaries and inevitably brings about armed collisions with foreign communities. As individuals as well as groups invariably fight along logically that the smaller and weaker communities first fall victims to the desire for expansion on the part of their more powerful neighbors. The position of the small independent nations of today is exactly analagous to that of the small capitalist who finds his posicome impossible in the competition tal. Of course he meets with plenty of "sympathy" and "moral support" in his misfortune, but material support, the only means which would enable him to continue the struggle are never those who give it see some material tion towards the supreme authority at Washington as the small capitalists afore mentioned. It is disregarded because those to whom the appeal is brought have calculated that there is "nothing in it for them." Were it otherwise, the envoys might reasonably entertain some hopes of the success of their mission. The failure of the envoys to interest the present ruling classes in the perpetuation of the national life of the two republics is not classes are now engaged in an enterprise of the same sort as that which they are asked to prevent on the part of the British. The capitalist worldrulers care nothing for consistency for to see that whatever class the very good reason that they are not under the necessity of so doing. Maown class, is the only consideration tions, and the socialist accepts the fact, without seeking to disparage them upon this account, for the reason that es intense, be Republican, Dem- the interests of his class, the working

FIGHTING FOR LIBERTY.

Fighting for liberty. Firmly we stand.
Tyrants vainglorious,
Masters usurious,
No more shall triumph o'er us
To blast our land.

Workers! in strength arise, Scatter your enemies
And make them fail,
Confound their politics,
Frustrate their knavish tricks;
On truth and Right our hope w
Welfare for all.

Forward lies bliss through pain, Backward the slavish chain: We would be free, Take we the nobler choice, And may we soon rejoice To sing with heart and voice Hall, Liberty!

verybody" is going to the seashore or Paris. At which place do you intend o spend your vacation Mr. Laborer? Or have you concluded to do the same as you did last year-stay at home and take care of things while the boss goes?

"He that will not work (for the capiatist class) neither shall he eat." classes and the struggles which spring New Version.

SNAP SHOTS BY THE WAYSIDE.

The future antiquarian who may ge hold of a file of the newspapers of the present day, and read the headlines vithout consulting the matter underneath them, would not unnaturally wonder what the workers of the nine eenth century had to kick about. For instance a perusal of the headlines in the local press this week would show him that the "planomakers" had resolved to take a pleasure trip on the drainage canal, and that their junket was prevented by a strike of the firemen en the good ship "Juliet."

He would also see at the top of an other column, that the "coal miners" had made preparations for an extended pleasure tour around the lakes, that the "meat packers" were spending their vacation in European resorts and at the Paris Exposition.

He would naturally wonder what sort of workingmen these were who had so much leisure to devote to enjoyment. And a light would only begin to dawn upon him when he read the other headlines in the same papers describing the proceedings in the courts against the piano makers, the injunctions issued by the same courts to tie the hands of the struggling miners, etc. He would then-begin to understand the deception practiced upon him by the misleading headlines.

He would see that the "piano makers" spoken of in the first place were not plano makers at all, but were those who appropriated the labor product of the men who really make the planor that they were the "owners" of the plane factories. And the alleged "coal miners" were likewise-merely the 'owners' of the mines from whence other people dug coal, and who most probably had never entered the pit in their lives, except perhaps to satisfy their curiosity.

Some of the news which reaches us regarding the famine in India makes interesting reading. In examining the reports from the famine stricken districts we find that people are perishing from starvation not because food does not exist but because they have nothing wherewith to procure it. The reports state that where the government gives employment to the starving natives a daily wage of 3 to 5 cents can procure sufficient food to continue a miserable existence.

The truth is, and it is one long rec ognized by socialists, that in the true sense of the word, "famine" does not exist in India. That is, there is no scarcity of food itself, and the famine, if the word can be used in connection with the present state of affairs in Init another way, a capitalist famine.

This is proved by the facts we have related, that food can be procured sufdelent to sustain a man in working condition for 3 cents per day. It is further proved by the fact that corn has been sent from this country to has been sent back, that not food, but money to buy food, was needed;

What exists in India exists in every civilized country in the world today es, even in this city of Chicago, where thronic starvation is by no means unommon. The labor product of the na. tive of India is appropriated by the British capitalists who, so to speak rica.

inherent in modern capitalism. The more the workers produce the less they duced. India has been an inexhaustie of plunder for British canital sm: Wealth untold has been extracted from it, with the usual result-starvation for the producers-luxurious idleness for the plunderers.

The Boer peace envoys are to make tour through the country. The Mo-Kinleyites will probably not take much stock in them, but the Bryanites being the "outs" at present, will no doubt try to get some political capital for future use out of the event. There will be fervent speech-making, sympathetic resolutions, and denunciations of esolutions, and denunciations of hood extant, and denunciations of hood extant.

Anglo-Saxon alliances, etc., by the falsehoods is by no means scanty. ton, but it is not very probable that these things will have any effect in stopping the progress of Roberts' army. But with those who know, their rea value consists in the fact that they may in some degree help to oust Reof campaign subscribers and are asking skinners in office, and if this end is obfollowing additional offers: To sea for all the victorious office holders

According to the press dispatches, the Western Federation of Miners have cloth bound copies on first class book passed a resolution in their assembly, and \$1.25 respectively. It is perfectly pulsory upon its members, and the easy for any comrade to get either'one study of political economy a feature organizations. and at the same time help the Call to side of the latter, so far as it concerns them, can be practically illustrated by the study of such subjects as the "b This is the time of the year when pep," Coeur d'Alene, Hazelton, and the recent Utah mine horror.

> The Tribune of the 20th inst. calls attention to the immense number of workers belonging to the building trades who have left their homes and families in this city, and gone elsewhere to look for employment, on ac count of the lockout. And yet the Tri bune could no doubt get out a very

plausible article tending to show how cialism would break up the home and destroy all family relations.

At present there is a street car strike proceeding in Berlin. It would be well for American workmen to watch this strike closely and observe the different methods of procedure. In the German Parliament the strikers will have fiftyseven representatives (socialists) to voice their grievances, further their interests, and do all in their power to make the capitalists accede to the demands of the strikers.

Contrast this method with that pursued here, where there are several large street car strikes under way. Have the workmen in the street transportation industries any man to take their side of the dispute in the House of Congress? Not a single solitary one. On the contrary, Republicans and Dem ocrats of all shades of opinion vie with one another in devising means whereby the aspirations of the street car men can be defeated.

Compare this with the "buckshot" remedy lately adopted in St. Louis, and try to discover the reason for the difference.-(ED.)

A strike upon the part of street car employes at Carlsruhe, in the same country, has also just ended with victory for the men.-(ED.)

It is well for the capitalists, British or otherwise, who "own" the Johannesberg mines, that Oom Paul is not a socialist. If that were so, the consider ation of destroying as far as possible the value of the expected booty, would not occupy much time. The Boer pres dia, is an artificial famine, or to put ident, however, doesn't wish to lose the 'moral support" of the civilized world by laying profane hands upon that sacred fetish, capitalist property. He will continue to get it only so long as he reverences this idol. "Moral sup-port" and resolutions of "sympathy" are cheap and meaningless, but Kruger by his hesitation on this matter India to relieve the starving, and word evidently shows that he hasn't yet_recognized their real worthlessness. old man may yet determine upon the destruction of the prize, when he sees that, come what may his control over them is doomed to disappear, and realizes that "moral support" cannot help him to hold on to them.

Commissioner Peck of the Paris Exposition has just sent in an itemized statement of the expenditure of nearly burning some of it now-in South At- \$400,000 of public money in connection with exposition. In the list of names of those receiving compensation, salaries. The robbery and ruin of the toller is traveling expenses, etc., may be noted a remarkable number of those of the millionaire class. The plundering of have, relatively to the amount pro- the producers is carried on in many ways.

It may perhaps be cited as an evidence of "prosperity" that over 25,000 applicants for positions as enumerators in Cook county, responded to the demand of the federal census bureau. which required the services of but 1,200. When it is also considered that the job in question lasts only a month and is poorly paid besides, the colossal nerve of the capitalist prosperity howlers who declare that the "job seeks the man" stands out as about the most impudent exhibition of capitalist falsehood extant; and the supply of such

It is quite possible that Neely, the Havana post office thief was after all only actuated by the best intentions. He might reasonably plead that he was merely-trying to give the benighted Cubans, a practical illustration of the virtue of "self-help."

Many reformers are engaged in the profitable task of elevating the working class by persuading them of the superiority of paying interest on a mortgage to paying rent to a landlord.

ecure intervention at Washington, but if they can be used to secure votes for the Democratic party, the politicians of that brand will not consider their mission a failure.

Those twenty-five thousand would-be census takers who applied for twelve hundred possible jobs, must not be mistaken for the "men that count" in this country.

The capitalist class will stand for "law and order" just so long as the "law" is made to their "order."

Governments just derive their powers from the consent of the capitalist class.

The Vote on Union.

The tabulated vote on question sub-mitted in the "manifesto" of our S. D. P. National Executive Board shows a total of 1.152 votes counted, with a ma-jority of 274 votes against union. Ad-The men who have been placed in power by the votes of these street car employes, are true to the interests of their own class. Although elected by the workers they do not consider that there is any obligation upon their part to stand up for the interests of those whose votes elected them. And they are right. They realize that the workers have no power to compel them to such action, and that their real mashali be towards the strikers. What that attitude is, the clubs and shotguns of the police, and the injunctions of the fourth attitude is, the clubs and shotguns as fully as their fellow workmen in Berlin, the prospects of victory in a strike will be considerably increased. ding the other votes tabulated and no Berlin, the prospects of victory in a strike will be considerably increased.

Just before going to press, we learn that the Berlin street car employes above mentioned have secured their demands. During the progress of the strike the ruling classes of Berlin did not dare to go farther than to order the polics to fire BLANK CHARGES at the strikers and their sympathizers.

Just before going to press, we learn that the Berlin street car employes above mentioned have secured their demands. During the progress of the will want good proof that their intent could not be determined. Our action must be as good as are the capital street can be able to fire BLANK CHARGES at the strikers and their sympathizers.

Accomplish Socialist Union All the Same. Do It!

Editor of The Workers' Call:-Editor of The Workers' Call:— Cincinnati Branch 8, of Ohio, unani-mously adopted the following resolu-tions in its regular meeting of May 12, and acrording to instructions given the undersigned at the same meeting, they hereby solicit the favor of having this communication published in your valu-able journal.

The resolutions referred to are as follows:

Whereas, According to official notice Whereas, According to official notice published in the Social Democratic Heraid of May 12, the separate referendum regarding the desirability of union of the S. D. P. with the Socialist Labor party, as called for by the National Executive Board of the S. D. P., in an arbitrary and over-hasty manner, has resulted in a majority vote cast against union, and Whereas, The official journal of the S. D. P., the Social Democratic Heraid has, by way of truly DeLeonitic methods, sought to draw the shroud of si-

ds, sought to draw the shroud of s lence ever arguments on the part of the advocates of union; whereas, comrades at different places, for instance, the state of Missouri, complain that their declarations in favor of union have not been published, although they were sent in on time to the S. D. Herald: and whereas also a member of this branch, Comrade J. L. Franz, has made complaint before us, that argument in favor of union, written by him and sent as early as the 14th of April to the editor of the S. D. Herald, with a rece over arguments on the part of th sent as early as the 14th of April to the editor of the S. D. Herald, with a request for publishing same, has not been mentioned to the extent of a few lines by this editor, nor published in part or in Iuli; while, on the other hand, the columns of the S. D. Herald were replete with articles from the opposition to union, among such articles being one occupying fully two columns written in the venomous ink of Comrade Victor Berger of Milwaukee, who saw fit to heap indecent stories against comrades of his and our own party, insulting them in an invidious manner in his own local paper the "Wahrheit" (Truth. local paper the "Wahrheit" (Truth so-called) published in Milwaukee which paper has succeeded in surpass. graceful and abusive language, at-tempting to represent as being ridicu-lous or contemptible such comrades and members of the S. D. P. as are in favor of union, and finally. ing even the DeLeon dictionary of dis-

and members of the S. D. P. as are in favor of union, and finally, whereas, This branch of the Social Mafeking. Ar Democratic party did, in a meeting held April 14, unanimously declare itself in favor of union on the basis of the majority report of the committee on union of our own party, and in stating that we see no reason for departing from our standpoint taken on this question; therefore be it Resolved. That we are not at pressum an, "don't or the stating that we have not at pressum an, "don't or the stating that we are not at pressum an, "don't or the stating that we are not at pressum an, "don't or the stating that we are not at pressum an, "don't or the stating that we are not at pressum an, "don't or the stating that we are not at pressum an, "don't or the stating that we are not at pressum an, "don't or the stating that we are not at pressum an, "don't or the stating that we are not at pressum an, "don't or the stating that we are not at pressum an, "don't or the stating that we are not at pressum an, "don't or the stating that we are not at pressum an, "don't or the stating that we are not at pressum an, "don't or the stating that we are not at pressum an, "don't or the stating that we are not at pressum an are the stating that we are not at pressum and the stating that we are not at pressum and the stating that we are not at pressum and the stating that we are not at pressum and the stating that we are not at pressum and the stating that we are not at pressum and the stating that we are not at pressum and the stating that we are not at pressum and the stating that we are not at pressum and the stating that we are not at pressum and the stating that we are not at pressum and the stating that we are not at pressum and the stating that we are not at pressum and the stating that we are not at pressum and the stating that we are not at pressum and the stating that we are not at pressum and the stating that we are not at pressum and the stating that we are not at pressum and the stating that we are not at

has ting from our standpoint taken on this question; therefore be it

Resolved. That we are not at present inclined to regard as the bona fide established expression of the will of the S. D. P., or a majority thereof, such a result of a referendum as has arisen under such conditions, and,

Resolved. That we, for reasons indicated in part, do tender a vote of no confidence in the editor of the S. D. Herald. A. B. Edwards, for misuse of power in disposing of the space of our party's official journal, as well as to those members of the Executive Board. S. D. P., who were present in Chicago during the whole or greater part of the time for the last four weeks.

II. Whereas, It is a duty of every member of the one as well as the other socialist party to co-operate and do everything fessible to the end that errors committed and blunders made by the officials or journals of our parties may not be permitted to jeopardize the grand and holy cause of the socialist movement of this country, and especially, to see to it that the Debs-Harriman presidential theet remains in the field for the coming election; therefore, be it

Resolved. We extend our hands with fraternal greetings to the comrades of the Socialist Labor Party, who join us the Socialist Labor Party, who join us in realizing it as an urgent necessity to have the political labor movement of this country embodied in one militant party organisation, and we, on our side, are ready to join them for this purpose; and.

Resolved. We sincerely hope that the same spirit of union will very soon grow and prevail in the Social Democratic Party, and

Resolved. That a committee elected who shall communicate with provisional state committee of the D. P. of Ohlo, in order to affect the sembling of a John State convention the socialists of this state. To WH ALSO THE S. L. P. SECTION: THIS STATE SHALL BE INVI for the following purposes, viz.: endorse the Debs-Harriman tick. To nominate electors at large for state. 3. To make preparations for agitation work to be done jext fall especially to give out directions for ganizing. Joint Local committee carry on such agitation in their spective localities.

To serve on this committee the foling have been elected: Julius Zowho is one of the national secretary of the National Brewery Workher union; Fred. Hammel, the secretary this branch of the S. D. P. and J. D. Franz, the moves of the styre read. Franz, the mover of the al

With fraternal greetings.

"LAW AND ORDER."

Not Remarkable that Capitalists Should Clamor for What Has Been Made in Their Own Interests.

In these days of strikes, boycotts and abor troubles, there is one phrase that is used over and over again by the press and apologists for capitalism. It said that "whichever side is right, the law must be enforced," or that "order must be preserved at any cost. How about this? Who made these laws? Who determined the condition of "order?" When the employing clashave the law siready made in their in terest what more could they ask the the enforcement of those laws? If conditions of "order" is economic slavement, why should not the si owner how! for its preservation? Let the laborers-first put their class in power by voting the soc ticket and then make laws in their interest before they talk about en

A Question for Socialist

ing laws and preserving order.

We reproduce from the May Day ion of London "Justice" the follow extract from the article written by M. Hyndman which appears in that sue, as a matter to which the attent! of socialists must be directed in the near future:

Unfortunately, however, although international socialism and the consciousless of the need for the working class solidarity in all countries, in order to make ready for the final class war against the capitalists, is rapidly gaining ground in the minds of the people. international organization by no means keeps pace with this growth of opinion. We can see this clearly with regard to the arrangements made for the approaching International Socialist Congress in Paris; in the lack of any method for exchanging speakers between the different nationalities; by the absense of of a recognized centre from which manifestoes can be issued and suggestions sent out. Talking with Eleanor Marx not long before her deeply-lamented death, she spoke strongly to me as to the effectiveness of our general machinery for influencing the public mind of Europe, as compared with that which existed from 1864 to 1871, and even later. Then there was an international socialist carcely party at all, but there was organization with a vigorous initiative. Now there is a really powerful international socialist party, growing in strength every day, but there is little international organization, and practically no international initiative. This ought certain-ly to be remedled in some way. We are approaching a period when almost any day may witness the outbreak of serious national antagonism and even war in Western Europe. Can it be said that the Social-Democratic party is ready to take immediate advantage of any crisis that may occur? I think not. Yet we are convinced revolutionists who, knowing that the time is ripe for a complete transformation of our dustrial system, ought to sprepare in in one direction, and in thorough accard the moment the opportunity arises. Let us hope that the Congress in Paris will, at any rate, discuss and attempt to solve this great problem.

London went wild over the relief of Mafeking. And yet there was infinitemeeting ly more hunger and misery in London even on the day of rejoicing, than in Mafeking during the seven months'

> If you want to vote for the "best man," don't overlook yourself and your interests. A vote for socialism will answer the purpose.

> Independent thinking is of the utnost value. A few thousand men who think, own and control this country in consequence.

> Capitalist political economy is the art of extracting the honey from the hive without alarming the bees.

> No capitalist injunction has yet been invented that can restrain strikersat the ballot box.

The capitalist idea of an unsanitary dwelling is one from which no rent can be obtained.

"Freedom of contract" is the condition of wage slavery.

Attention! Women!

The use of the hall at 65 N. Clark street is offered for the use of women's meetings. All women interested in socialism, and all whose husbands, fathers and brothers are interested, are urged to attend the meeting on June at 3 o'clock p. m. Laura Willard Taff will be the speaker.

What Workingmen Can Do

instance, why 75,000 soldiers are kept in garrison at Paris, the bourgeois of that city will reply without hesitation, that it is to keep down the working class. If asked why these soldiers are drawn from the rural districts he as readily reply that it is because they are not so likely to make common cause with the workingmen of the city in case of revolt, as conscripts who are born and raised as city dwellers. Inquire why the streets of Paris have been straightened and the old landmarks of the city obliterated, and your informant will reply that this has been done to prevent a repetition of the Commune; he will observe that artillery can operate for miles along the length of a straight street, rendering barricades difficult to construct, and untenable when constructed: And this he will say because it is generally rec ognized that deception in such matters serve no purpose, or in short that there is no "public"-but there is a CLASS STRUGGLE, in which the combatants must stand on one side or the other.

On the other hand, ask the average "business" men of this country, the reason for the increase of the army and militia, the reason why the permanent military camps of the regular army are always placed in close proximity to the large centres of manufacturing industry, why the militia regiments in the cities are composed mainly of the sons of the trading and commercial classes and their hangers-on, ask any of the many questions of similar nature that may occur to you and it is thousand to one that you will hear that these things are done for the best "interests of the community," for the "welfare of the general public," or the benefit of the "people." The necessity of pretending that the interests of all are alike, consciously or unconsciously dictates this

But the socialist alone is under no such compulsion. And the spread of his propaganda will release the capitalist from the necessity of building up a "public" which is only the reflex of his material interests, and which serves as a cover to cloak their naked expression Socialism will make the capitalist class destroy the false gods which they have created, and acknowledge the fact which they are still largely able to conceal, that the "public" doesn't exist, but that the great CLASS STRUGGLE

The socialist at present postulates no "public," as an all-powerful factor to decide upon the merits of his philosophy. He knows well that this alleged arbiter is an invention of the roling class for their own purposes. He knows that the interests of all members, or even the majority of society, as at present constituted, are not and canfrankly recognizes the struggle between the classes, and calls upon the working material interests.

equality of opportunity has abolished the economic base upon which classes existed, then and then only the phrases "welfare of the community," "good of of a sham as at present.

Socialist Labor Party of the United States. The International

PLATFORM.

The Socialist Labor party of the United States, in Convention assembled, readiling its allegiance to the revolutionary principles of international socialism and declares the supreme politi-cal issue in America today to be the con-

cialism and declares the supreme political issue in America today to be the contest between the working class and the toapitalist class for the possession of the power of government. We affirm our steadfast purpose to use those power of the power of government. We affirm our steadfast purpose to use those power our steadfast purpose to use those power of the power of government. We affirm our steadfast purpose to use those power of the power of government. We affirm our steadfast purpose to use those power to the property in the means of production and to establish the Co-operative Commonwealth.

In the United States, as in all other civilized countries the natural order of economic development has separated society into two antagonistic classes—the capitalists, a comparatively small ficlass, the possessors of all the modern means of production and distribution, reland, mines, machinery and means of transportation) and the large and everminerasing class of wage earners, possessing no means of production.

This economic supremacy has secured to the dominant class the full control of the government, the pulpit the schools, and the public press, thereby making them the arbiters of the fate of the working class, while it is reducing it to a condition of dependence, accommically exploited and oppressed intellectually and physically crippied and degraded, and its political equality rendered a bitter mockery; and the wontest between these two classes grows ever sharper. Hand in hand with the growth of monopoles, goes the annihilation of small industries and the middle class depending upon them. Ever larger growther multitude of destitute wage workers and of the unemployed, and ever fiercer the struggle between the class of the exploiter and the wage workers are definitely rendered as intensified by the recurreduction are intensified by the recurreduction are intensified by the recurreduction are i intellectually and physically crippied and degraded, and its political equality rendered a bitter mockery; and the contest between these two classes srows ever sharper. Hand in hand with the growth of monopolies, goes the annihilation of small industries and the middle class depending upon them. Ever larger grows the multitude of destitutes wage workers and of the unemployed, and ever flercer the struggle between the class of the exploiter and the exploited, the capitalists and the wage workers.

The evil effects of capitalistic production are intensified by the recurrence of the greater part of the population more precarious and uncertain, which amply proves that the modern means of production have outgrown the existing social order based on production for profit.

Socialist Review

Human energy and natural resources are wasted for individual gain.

Ignorance is fostered, that wage slavier, any be perpetuated. Science and invention are perverted to the exploitation of men, women, and children.

The lives and liberties of the work-the ling class are recklessly sacrificed for profit.

Wars are fomented between nations: indiscriminate slaughter is encouraged; indiscriminate slaughter is encouraged; it indiscriminate slaughter is encouraged; in indiscriminate slaughter is encouraged; it is the destruction of whole races is sanctioned, in order that the capitalist class may extend its commercial dominon abroad and enhance its supremacy at home.

The introduction of a new and higher of order of society is the historic mission of the working class. All other classes despite their apparent or actual conflicts are interested in the upholding of the means of production. We therefore charge that in this country the Diemocratic, Republican and all other parties which do not stand for the complete overthrow of the capitalist system of production are alike the tools of the capitalist class.

The working class can not however, act as a class in its struggle against the collective power of the capitalist system of a production are alike the tools of the capitalist system of a production are alike the tools of the capitalist system of a production are alike the tools of the capitalist class.

The working class can not however, act as a class in its struggle against the collective power of the capitalist system of a production are alike the collective power of the capitalist class.

The working class can not however, act as a class in its struggle against the collective power of the capitalist system of a production are alike the tools of the working class.

The working class can not however, and the colleges and universities are devoted to expounding its fine special continuation

ognized principles of international socialism. Signed articles will, however,
be welcomed from writers of all schools
and parties who accept the socialist
ideal, however they may differ as to
methods and tactics. We are conwrited that a free and full discussion
is the shortest and best rosed to the
general acceptance of the methods and
tactics of international socialism by all
who aim at the establishment of the
co-operative commonwealth.

The International Socialist Review
will be the first periodical in the English language to bring together to any
extent the original contributions of the
great socialist thinkers of the different
countries of Europe. It will also publish each month letters from foreign
correspondents giving the latest news
and a review of the situation in each
country. Here is a partial list of those
who have already promised to write:

France—Faul Lafargue, Jean Jaures,
Jean Longuet.

France-Pau Jean Longuet. Beigium-Emile Vandervelde, Henri Lafontaine, Emile Vinck, Mme. Lalla Knfferath.

Kufferath.
England-H. M. Hyndman, Walter Crane, Samuel Hobson, H. Quelch, Keir Hardle, J. R. McDonald.
Italy-Dr. Alessandro Schivi.
Denmark-Dr. Gustav Bang.
Arrangements are now being completed for correspondents and contributors from Germany and Holland, and we hope to announce their names before the first issue.

we hope to announce their names be-fore the first issue.

It will be seen at once that this list of contributors places the International Socialist Review in a class by itself so far as periodicals in English are con-cerned.

But it must not be supposed that the But it must not be supposed that the American situation has been neglected. Already articles have been promised by Job Harriman, Rev. Charles H. Vail, N. I. Stone, Leonard D. Abbett, Rev. Wm. T. Brown, William Mailly, Gov. Andrew E. Lee, Ben Hanford, Marcus Hitch, Jos. Wanhope, W. H. Noyes and others, and no effort will be spared to secure the best work of the best thinkers upon the problems of socialism in America.

America.

The plan of the magazine will be approximately as follows: About forty-eight pages will be given to contributed articles, and the remaining sixteen pages will be divided as nearly equally as possible among the following departments:

ments:
First. Review of the events of the
month from the socialist point of view.
Second. News of the socialist movement in America during the month just

passed.
Third, Items concerning the struggle in the economic field, including trade union news and labor troubles.
Fourth, Foreign correspondence giving news of the socialist movement the world over.

The need of such a periodical as this is apparent to every socialist. We believe that once it is brought to their notice every comrade will be willing to take hold and help. There are two ways in which such help is wanted at once. In the first place further capital is needed for its establishment. A comrade has agreed to give \$250 for this purpose as soon as an equal sum is raised elsewhere. Of this sum \$150 has already been raised leaving one hundred more to get if this offer is not to be allowed to lapse. To raise this one hundred dollars it is proposed to sell ten shares of our capital stock at ten dollars each-their par value. That the money thus invested offers immediate and desirable returns aside from being an aid in the establishment of the magazine is shown by the following special prices on books published by us which are made to stockholders only:

Are made to stockholders only:

Five cant books in small lots, 2½ cents; 100 assorted copies, \$1.75; 500 assorted copies, \$1.75; 500 assorted copies, \$5.00; post free in the United States outside Chicago.

Ten cent books in small lots, 5 cents; 100 assorted, \$5.50; post free in the United States outside Chicago.

Twenty-five cent books in small lots, 11½ cents; 50 assorted, \$5.00; post free in the United States outside Chicago.

Other books at haif list prices; post free on paper books; on cloth books if sent by mall postage will average-about 16 per cent of the retail prices.

Once the magazine is established it will be run without further expense to the party, and will be distributed, not only through the ordinary socialist channels, but also through regular trade channels to thousands of people entirely inaccessible to the ordinary socialist propaganda. It will be a means of capturing and holding the intellectual proletariat for socialism as well as an organ for the education and training of socialist speakers and writers.

Every section that intends to do any distribution of literature will find the ownership of such a share of stock a good investment, while individuals who wish to assist the socialist propaganda will scarcely find a better oppograndy or greater need than this present one.

COND YEAR.-WHOLE NO. 65.

CHICAGO, ILL., JUNE 2, 1900.

PRICE TWO CENTS

IN BRYAN ANSWER?

ugene V. Brewster Asks Several Awkward Questions.

A LIST OF ECONOMIC POSERS.

The Apostle of Free Silver, Anti-Trust, Anti-Imperialism, Etc., Asked to Give Reasons for His Faith.

Here are a few questions for my old nd esteemed friend, Mr. W. J. Bryan: . Some of your followers claim that ir doctrines are a step toward sollam. Is this true or untrue? When

dly doing all this? If not, why i't you propose to destroy all imwed machinery also?

Do you know that competition leans enormous waste, means paralthers, wasteful advertising innumera-ble small and needless plants, etc.? If (1:1): "He that hatch his brother is you are a friend of labor why put it to in darkness and walketh in darkness all this useless work? If you simply want to give employment (regardless of its usefulness) why not hire men to dig holes and then hire them to fill them up again?

5. Do you believe in land monopoly? If not, why not say so?

6. Do you believe that the tools of production should be owned by a class who do not use them or did not make them? And do you not see that the menopoly of these tools has made labor dependent upon this class for work and therefore existence?

7. Do you really want to destroy the money lender? If so, must you not destroy interest? And if you would destroy interest, why don't you favor letting the government issue and all money direct to the people without

S. Are you really opposed to wars' If so, why did you enlist? If not, why

9. You are opposed to imperialism Do you believe in capitalism? If so you must know that wars and imperialism are necessary to capitalism. not, why do you not say so, and show how you would remove the capitalist system and what you would substi-

10. Are you satisfied with the present wage system which is turning out such as the man with the hoe? If you are, how are you going to make the slave owners give to their slaves anything are not, what other system than universal co-operation do you propese?

11. You speak of workingmen as producers. Is the producer entitled to his product or not? If he is, how do you propose to get it for him? If he is not, how are you going to prevent an idle rich class that you so much condemn

permits a large class to consume without producing? If not, what other system do you favor? Or, how do you propose to make them produce?

13. In '96 you said you wanted free silver because it meant rising prices. You say you still want free silver. Do you want any higher prices than we

14. You say the trusts have arbitrar fly raised prices to the consumer, and you would therefore destroy the trust. Do you want higher prices, or lower

15. You say free silver is a blow at the money lender and a favor to the money borrower. In which, if either, of these classes does the wage earne and if to neither, how will it benefit bim?

16. If free silver means double the volume of money, and this means doubled prices (according to your quantitative theory), and if the holdings of the monopolistic capitalists are and commodities, and if these are all to be doubled in price, how would free allver be a blow at monopoly?

17. Granting that free silver means rising prices, and admitting that wages are always last to rise, which you, of course, admit when will labor benefit by free silver and how much more will increased wage buy the higher

18. Offinting that the theory of bi-metalism is sound, granting that 16 to I is the proper ratio, granting that we need more money and that bimetalism will place rising prices and that rising prices means butter times and better

(money) wages; granting that the bullion price of silver would soon rise to the mint price, making a 100 cent dollar, while we now have less than a 50 ent dollar-granting all this, and I believe it to be true, show me, if you can, how there can possibly be any more prosperity under bimetalism than there is today. We now have about all the prosperity we can possibly have under the present wage system. Can there be my other than a class prosperity unde this system?

19. You say you believe in equality, but you say it means only equality before the law, Don't you believe also in equality of opportunity? If so, how can this be when, nearly all of the means of production are owned and controlled by the capitalist class? To have equal opportunity should not these social instruments be owned by the collectivity-by all?

natural and final place is beside the first and greatest trust of all, the post tim, with the exception of our corre-

Curse not then the trust makers, because they are unconsciously, perhaps, do not feel at liberty to publish: doing the world a great benefaction. and knoweth not whither he goeth, be cause that darkness bath blindeth his eyes."

Eugene V. Brewster, -Brooklyn, May 5, 1900.

The above article has been reprinted as a a neat leaflet and is for sale at the office of The Workers' Call for fifteen cents a hundred or one dollar a thousand postpaid. Big dis-count on large orders. A blank space is left on which to stamp place and data of meetings. Every Democratic neighborhood should be sown with them.

SIZING IT UP.

The Present "Prosperity" Dissected for the Inspection of the Workthe Inspection of the

Just now we hear a great deal of prosperity. "The mills are running full time, the merchants are doing a good business and the people are happy and contented." These are about the words used to express the conditions of certain localities, by one of the 'men of affairs" in the locality that happens to be under discussion. 'According to this definition prosperity means to a given locality or trade, that condition of affairs in exchange which stimulate production so that the factories or mills in that locality or trade are enabled to be operated to their fullest capacity and give employment to the workers for full time or over, during its force. more than a mere living wage? If you This condition enables the werkers to at least live up to their wages (promerchants in the locality. The worker least full time (which means giving his abor power over to his employer for the limit of time conserving his physi-12. Do you believe in a system that cai power), and with his wages is enabled to get enough to eat and wear for the time being, and therefore the merchants from whom he buys his ne essities do a good business. Conditions are such that he is enabled to use his labor power daily; first for th benefit of his employer, that he may reap profit from his toll, and secondly for the wages which he receives, that se may feed and clothe himself and family. In order to be able to work there must be a chance of profit for his employer, and in order to eat' there must be a profit extracted from his wages by the merchant. This is the condition of prosperity: profits for the employer extracted from the labor of the worker; profits for the merchant extracted from the wages of the worker; plenty of work for the worker, and mough food and clothing to keep him

"The people are happy and contentod." Workingmen this is your share of prosperity. Are you so easily made sappy and contented?

While throwing bricks at the man who takes away your job don't forget he scoundrel that is taking away your

Capitalism will fail because it atempts the impossible task of producing entented slaves.

It is a curious paradox that the labor s is always most sueseful in a hide bound community.

The pirate craft of capitalism is in a danger of being swamped by "waves t reform."

It is post of the laborer has a determined socialism. It is printed here apparently unfavorable for the

Comrades:

I received your letter with the applications (blank subscription forms), enclosed, at 10 of clock today, and after dinner I went out seliciting, the results are 15 subs, for which you will find enclosed postal order. Four years ago when I commenced to talk socialism here. I was quickly told that I would have to keep my mouth shut, or leave the county to make a living. I plainty told them to go to hell, that secialism was my principles, that it was just and right, and that I sroposed to stay here, and if the people would not gly me work as I was ready and willing to make an honese fiving said to be going into. Here is the way the opening paragraphs of the stay here, and if the people would not the recommendation of a state of the county fall. Four years ago we polled four socialist votes in this place, two years ago eight votes, and I reality think, it is going to be over thirty this year, and I can be found any Sunday and every Sunday on the streets of the build dog-grift will do in a hidehound community of 168 voters. I find no one man, not even a preacher, that will face me in an argument. It is coming our way, and it is coming fast.

Yours fraternally, -, May 20th, 1900.

We don't wonder in the least that even the preacher hesitates to tackle this kind of a socialist, or that the vote in the community where our comrade has pitched his tent, doubled in the last two years, and promises to quadruple this year. It may be admitted that the foregoing letter is more forcible than polite, and that it doesn't quite represent the highest effort of literary skill. but it is not hard to see that the writer understands the subject that brings him on the street "any and every Sunviding they have no past debts to pay day." He knows what is good for him, for labor's rights and free workmen off), which makes business good for the he knows that he wants it badly. knows also that the way to get it is to has enough work to keep him going at | go after it and spread the ideas amongst those of his fellow workmen who don't yet know what socialism is state of ignorance if he can help it; and better than all, he doesn't make any apology for the course which he pursues. Our correspondent is just about as "scientific" a socialist as we vant to know, and our only regret is that his field of usefulness is circumscribed to 168 voters. But judging from rather certain that when the communty spoken of, emerge from the "hide ound" state through the persistent effort of our comrade, he will strive in ome manner to enlarge his radius o We would in conclusion call the attention of our other comrades to the fact that most of them have an nfinitely larger opportunity for socialist egitation than this Californian workingman, and that the expenditure in their part of a modicum of the enersy which he displays would show narked results for socialism in a very short time. For instance there are practically two millions in this city of hide-bound" state as those referred to by our correspondent. As he has found The Workers' Call an efficient instru nent in loosening up the cuticle of the night suggest that the same instru ent might be made as efficient here f given wider scope. A word to the wise is sufficient.

> Thieves are never so sure of suc ttention are turned away from their wn pockets. It is a good idea for the abovers of America not to get so busy sith the troubles of the Fillipines and the Boers to lose sight of their own

the Coming Election.

Means Continued Slavery-Freedom Lies in Socialism Alone.

We take the liberty of reproducing in ""Labor dips into politics" is the flarour columns a letter received at this ing headline that appears in a late inoffice last week from California, for the size of the Chicago Daily News. At good and sufficient reason that it is first signt, the socialist might be discharacteristic in the highest possible posed to throw up his has and rejoice

in a socialist vote running into the mil-linos. We reproduce the letter verba-tim, with the exception of our corre-been riveted tighter has been by de-spondent's name and address, which as we have no direct permission, therefore strength in the presence of the enemy While the tabor question is one of slavery or liberty the slave owners

the democratic county convention June 22.

A prominent labor leader said today: "We have allowed the bosses to nominate and elect candidates friendly to themselves long enough and now propose to do something for ourselves along that line. We have already started an agitation to secure nominations for men friendly to organized labor' and we have every reason to believe we will not only succeed in nominating but in electing them. A letter embodying this movement has been sent out by one of the strongest labor organizations in the city. Owing to the report that many members of trades unions have been unjustly punished for petty misdemeaners, and some of them instead of being tried before a police justice have been, sent to the grand jury by having the charges against them exaggerated, we suggest the advisability of demanding that the next democratic convention, which meets June 22, nominate for state's attorney a man friendly to organized labor."

Then it is only the same old story after all. It is not to be a valiant battle waged beneath the banner of labor but simply the old story of the enlistnent of another battalion of laborer in the ranks of a division of the capi talist army; it is the labor lamb going over to lie down beside the capitalist lion and be benevolently assimilatedand digested.

One would think from the blare of trompets with which this action is an nounced that it marked a revolution in the tactics of laborers of this city The writer of that article must have thought that the workers of Chicago had never heard of electing friendly to organized labor" before Has the memory of the campaign which elected Carter Harrison s quickly passed away? Have the labor ers all forgotten how he posed as the one great and only "Friend of Labor? Do they not remember how this sam torney was elected was endorsed by these same "prominent labor leaders political jobs after the election was over? Is there any laborer who has the last ten years who has so short a memory that he cannot recall at least into politics" in this same way?"

And many a "famous victory" ha FOR WHOM? Ticket after ticket has rode into power upon the shoulders of ement of "union labor," bu what has union labor received for its endorsement? To paraphrase Southey's familiar words it might all be summe up by saying:

"And everybody praised the laborer Who this great fight did win. 'And what good came of it at last' Quosh little Peterkin. 'Why that I cannot tell,' said be; 'But' twas a famous victory.'"

time has come when the laborer should lo something more than merely into politics." He should plunge into it to his full depth. He should make it great business of his life. He should begin to realize that unless he does so, and that quickly, the last vestige of his freedom will be swep away and he will find that he has him-self forged the fetters that bind him. But the politics into which he should ow his life and his strength are not CAPITALIST politics. He should not waste his strength in fighting the batties of his masters. His energy is for precious to be exhausted in a contest wield the whip that flays his back when the same amount of energy would abolish all overseers. The political question in which labor is interested is not of good or bad masters, but of the abelition of all masters. The political problem before the worker of today is not as to whether he shall be held by democratic or republican shavedrivers while he is being robbed, but it is the problem of how to abolish all robbery and secure for himself the products of

Union men of Chicago-have you not ried the plan of "dipping into the politics's of capitalism long enough? Have you not seen a Carter Harrison, elected y your votes, resting on the atrength of your support and bound to you by a host of pledges, forced by his masters to break those pledges and become the instrument that is at present bending every endeavor to destroy your unlans out your organizations and reduse you to a servile engayement to your employers? Think you that any nan elected in the same way and belunging to the same party dominated by the same class—the class of your man ers-would or could do any better! Will you allow yourselves to be for the hundredth time led like lambs to the slaughter within the Democratic or Republicati shambles? Can you not see that the man who

fares to come into a union or to go among union men and advise them to work for either of the great capitalist parties is a traiter to his union and ar nemy of his class, beside of which the poor devil who steals your job while you are out on strike is a comparative ly harmless individual? The "labor leader" who dares to suggest that the uplen workers of Chicago should go into either the Republican or Democratic nominating conventions and work there to secure the success of either organization is a "scab" ontemptibleness and villany is as much worse than that of the man who betrays his čiass by selling himself to the employers during a strike, as the political field is wider and more effectual than the economic in its results. The economic "scab" only makes the conditions of an existing slavery a trifle worse; the political "scab" trays the whole class of slaves and stands between them and freedom, The laboring class of today is bending beneath a mighty burden that it is struggling to throw aside. The eco nomic "scab" stands idly by and now and then casts a few ounces additional weight upon the burden, while the bolitical "scab" leaps upon the shoulders of his class along with the capitalist master and assists the latter in binding the burden still tighter with bonds of perpetual slavery.

Which of these two then is entitled to the worst treatment? Will you give In case of a strike a democratic or them what they deserve? When at the republican official is allowed to "play approach of the coming convention politics" just so far: then his masters ne member of your union asks your force him to call out the troops. aid in selecting stool-pigeons of your class to run upon the Democratic and Republican tickets will you treat him as you would treat the man who helps the boss to beat your wages down by be traying you during a strike? If you to we shall soon have an end of laborers dipping into capitalist politics.

"Sympathy" for a "Sister Republic."

Captain Streeter has been deprived of nis "independence." He had set up a republican form of government on a strip of land on the shores of Lake Michigan, and like Oom Paul, taid in a stock of war material wherewith to de fend his "property." This aroused the ire of two millionaires, owners of soap factories and sweat shops respectively sho declared their suzerainty over the gallant captain's possessions and inoked the public powers to aid in exelling the backward community who had encamped on the strip. The pubto the class represented by these two local Cecil Rhodes', promptly respondwere carried by storm, at the point of the bayonet, by four hundred nen, after a most heroic resistance upon the part of the patriotic defenders. ver their ill-gotten conquest, but the sympathy" and "moral support" of the 'public" will be unanimously tendered o the gallant Streeter, not only as a cell-merited rebuke to the "imperialisic" and "expansionist" principles exhibited by his greedy conquerors

The surest way to keep capitalist poltics out of the union is to fill it chuck full o' laborers' politics.

Is it change of masters you want, or

e no need to prove it.

Under socialism we could all play golf a part of the day if we wanted to.

The Methodists were so busy deuncing the army canteen that they forgot to denounce war.

LESSONS OF THE LOCKOUT.

Day by day the lines are drawn tighter in the lockout in the building trades of Chicago. The contractors have announced their intention to fight the matter to the bitter end. The Building Trades Council is now en deavoring with good prospect of success to secure the suport of the national organization.

The laborers have been trying in vain to get the grand jury to act regarding the illegal acts of the contractors. As was predicted by the Call last week this is hopeless and so far the unions have simply been shoved one side. Just how long it will take them to learn that grand juries are not established in the interest of their class it is hard to tell. but the contractors are deing their best to teach them the lesson.

Many of the locked out laborers are still going to other cities to obtain work. Forty of the plasterers union have already found work in Buffalo.

With the coming of convention time and the opening of the campaign there are continuous efforts to drag the unions into capitalist politics. One instance of this in relation to the state's attorney is noticed in another column. It is reported that Chicago Typographical Union No. 16 endorsed a capitalist candidate for circuit judge. If this is true it is hoped that the rank and file will have sense and energy enough to make it hot for those who are once more seeking to rivet the shackles to

One thing which continues to attract notice on every hand is the rapid spread of socialism among the locked out workers. In every union there is now to be found at least a few members who have been able to see far enough to recognize that so long as the boss is supreme in the political field he determine the conditions of the fighting in his favor and that consequently whenever there is a real strugthe laborer gets the worst of the hargain. These members are demanding that their fellow workers also wake up and assist in carrying the principle of unionism and class organization into the political field. A result of this is ism come into the unions this year and try to once more lead the rank and file into the capitalist political parties for their annual bondage they will meet with a warmer reception than they have ever received before.

NOW IS THE ACCEPTED TIME.

The Joint Committee in New York elected for that purpose, have decided upon a plan for union. They have submitted this plan to a referendum. There is but one thing for those to do who believe that the forces of the socialist workers of America should present a solid front to the united enemy. That is, to get into line regardless of previous party affiliations and assist in the organization of the united party. Were the period in which we now are a less critical one it might be advisable to spend time and energy in further parleying with those who are seeking to disrupt and confuse. But while the motives of these individuals may or may not be the best in the world; while they may even imagine that they are engaged in furthering the interest of socialism, the present is no time in which to fool with those who are standing between the ranks of the divided workers and preventing a union of forces. No matter what may have been our previous personal or party affiliations the time has come when we must take a firm and decided stand against all disintegrating movements.

The fact that three members of the S. D. P. committee saw fit to bolt from the body on which they had been

elected to serve or that they have been able to get an apparent vote of confi dence on an abstract proposition should not be allowed to act as a factor of any significance in this matter. Neither is this the time to quibble any particular plan of union. The thing to do first and before all else is to UNITE. Having once united and arranged a means of common action it will be easy to change details of the organization. Let our watchword for the next few weeks at least be UNITE. UNITE, UNITE!

IMPOSSIBLE TERMS. The failure to understand the real

nature of the struggle between capitalist and working class gives rise frequently to strange offers of compro mise between the spokesmen of both present is proceeding in this city. Both disputants appear certain that the trouble could be settled permanently if only particular weapon which they have found effective in the struggle. For instance the contractors of Chicago insist that the workmen must abandon the use of the sympathetic strike; and tort that sympathetic strikes would be found unnecessary if the contractors only "lived up to their agreements." Neither party seem to comprehend that their respective demands are tantamount to requiring the performance of the impossible. If the sympathetic defenceless, and consent upon their part to this demand would practically mean a complete surrender of their only real element of strength. On the other hand the simplicity exhibited by the representatives of the unions in supposing that the contractors could "live up to their agreements" while the profit system remains in vogue is a most interesting exhibition of innocence. No workman in the building trades, unless wilfully blind or abnormally stupid, can have failed to observe in the different ployed, persistent attempts to avoid "living up to the agreement" on work done by contract. The tricks by which substituted for the superior grade called for in specifications, and the almost universal practice of this form of "bushave even the slightest power of observation, and is accepted as customary and usual. And yet the workman supposes that the employer should and could "live up to his agreement" regarding wages while at the same time he admits that the contractor is forced by competition to fall below the specified agreement just as much as car be safely done without discovery. The labor power which the contractor purchases he looks upon as material and the cheapest material that he can use naturally nets him the greatest profit which is the end and object of his "business." The temptation to lower the wage springs from the same source -the desire to use cheap material There is nothing peculiarly wrong about this, it being merely the result of the capitalist system, and it will disappear until it is removed the capitalist and laborer will continue to offer each other impossible terms of settlement, and such struggles will generally end with the exhaustion of one or the other of the disputants-usually the workers.

They Won't Strike.

A whole column in the capitalist pres is devoted to a report of the hard, Wales, the Duke and Duches of York and several other parasites of While we sympathize muchly with the woes of these unfortunate ones who have never known the exhibarating sense of freedom which accompanies the cheery and independent workingman who goes out chasing for a joi we often wonder why these oppressed royalties never think of indulging in the pleasing recreation of a sympathetic strike for better conditions. It may be though, that they have calculated that in such case society might determine to worry along somehow without requiring their valuable services, and the strike on their part might not unlikely develope into a lockout on the side of the others. However, socialism will certainly relieve them of the grievous burdens of which they now complain.

mayoral chair in Berlin, may perhaps explain the reason why the police fired only blank cartridges at the strikers during the recent street car troubles in that city. St. Louis workers, please take notice.

The trust inaugurates a permanent ockout against the small capitalist.

"Charity" is the safety valve of modern capitalist seciety.

SNAP SHOTS BY THE WAYSIDE.

frauds, and other scandals now being mearthed in Cuba are good evidence of the sincerity of the capitalist administration in their self-imposed task of about the details or minor defects in helping that unfortunate island to a "stable" government. All capitalist governments are stables which must ultimately be cleaned by the socialist

> The officials of the Tammany Ice trust are now held under bonds of \$2,000 by the grand jury. They will get back at the people of New York by holding them up for a hundred times \$2,000.

> The spirit of the age is getting in its work in the churches. Consolidation is the order of the day. We may expect to see a "salvation" trust incorporated in the near future.

Strikes among miners in Bohemia and Moravia have left an opening for the profitable exportation of American coal into these countries which can be sent there at prices which defy all foreign ompetition. This talk about the "pauper labor of Europe" is beginning to get ridiculous in face of the fact that the pauper labor of America is enabling the American mine owners to actually undersell the very countries from which a few years ago the pauper labor was imported, that displaced the then highpriced American collier.

It is not strange that the sympathetic strike should be obnoxious to the capitalist class, for it contains all the elements which will eventually bring the workers to a correct understanding of their economic interests against the

The lockout is never sympathetic. It is simply the naked application of the right of private property by the men who own the factories, mills, mines and other means of production. They lock them up. It is their property And the men who must have access to the means of production, in order to convert their labor power into means of subsistence, will come to a full realization of what the institution of private property implies for their class. Cratty didn't need to say Ystarve 'em out. In this particular the lockout speaks for itself.

The capitalist press is trying to make the public believe that the Building Trades Council is about to dicker with the Democrats regarding the office of It is given out that state attorney. they will demand the nomination of a "friend of labor" for that office. After the experience that the Building Trade Council has had with "friends of labor who are office holders, during the pres ent leckout, it seems hardly probable that the labor men will commit the idiocy which the capitalist papers cred them with.

Workingmen should understand that he alleged, "friends of labor" in eithe Republican or Democratic parties are in reality their deadliest enemies To command respect labor must dis eard such "friends" and become selfreliant. That is the true class-consciousness.

Let us suppose one of those "friend of labor" is nominated. What would be the result? If the capitalists could rely on him, he would receive the party votand his success would hinge on the facrepresented by his party is successfu or not. On the other hand, should the capitafists look upon him as one wh might be suspected of carrying his demagoguery" too far, he would simply run behind his ticket just as far as Judge Gary will run ahead of his. The capitalists are class-conscious.

The fact that the great mass of the workers is still, unfortunately for themselves, divided between the Republicar and Democratic parties, makes such action upon their part absurd and ridiculous. It does not affect one hundred votes in Cook county, and the old-party politicians thoroughly realize this.

The cable dispatches say that many of the prominent Boers, Kruger included, have interests in the Rand mines. If this is true it will go far to explain why the mines in question were not destroyed long ago. The "promient" Boers know well enough that whatever political changes British conquest may bring to the Transvaal, the nstitution of capitalist private property will be maintained intact. If th mines are blown up, it will the work of those who own no part in them.

The press informs us that "everyody" is leaving town for the season but this doesn't include the thousands of nobodies who have had to leave town on account of the lockout. The word "everybody" means only those who live on the robbery of the workers. They leave town for pleasure. The others their victims, only do so when some of "everybodies" lock them out. And yet the class which is dubbed "everytells the others, the nobodies, to avoid socialism lest their "individuality" be destroyed!

Our Chicago capitalists from time to time, commiserate the condition of the working class, who they claim, are being preyed upon by the "walking dele-They evidently consider that is a distinct prerogative of their own class, and cannot be expected to look this sort. And yet the "walking delecate" whom they detest so heartily, is loing them a good service.

gradually preparing them for the shoc they will experience when the working CL38 return socialist representatives to congress to voice their interests at Washington. No doubt the labor skinners will profess to see in this action a fresh misfortune for the workers, and their "sympathy" will not unlikely take stranger forms than at present. It may even lead them to attempt the dis franchisement of the latter-that is if they consider it safe to make such attempt.

THE SHADOW OF PROPERTY How the Interests of Capitalism Skulk Behind the "Poor Man's House and Lot."

The Chicago Tribune which is per haps the ablest and most unscrupulou enemy of organized labor in this city and which never fails to champion the interests of capitalism against the workers in every possible manner, now comes out with a plea for the settlement of the labor troubles by a declaration whose falsity can be easily proven, viz : that a great number of workmen own their own homes wholly or in part, and are therefore liable to lose them if the present situation continues much longer.

If there are ten per cent of the working class who come under this category it is certainly the outside figure, and those who know what is meant by part" as regarding the ownership of the little frame hovel called by courtesy "a house," the possession of which th workingman is taught to consider as the one object of his life, know well that it is the mere caricature of 'property." and that the chances that th workman can ever become sole owner of even this miserable share of th wealth which his labor has created, be comes constantly more uncertain. At stated periods every year the Inter

Ocean comes out with from 12 to 16 closely printed pages enumerating the number and location of lots and resi dendes against which tax titles are re corded or which are to be sold for taxes and these are almost entirely the prop erty "wholly or in part" of the small middle and working classes. Practically the working classes of this and every other large city are totally stripped of all property, and the very little that is left is rapidly going out of their possession at present. It is an old trick of the ruling classes

to shelter themselves behind the "poor man's house and lot." but the development of the system of legalized rob bery known as capitalism, has itself converted this bulwark into a mere fiction, the remembrance of what at one

time had some reality. The capitalists of France for a long time used the 'peasant proprietorship" as an outwork of their own defenses ,and the "rurals of that country in the past, served as a strong shield for the exploiting classes, and are still useful for the same pur-pose to a somewhat lesser extent today. But the capitalism of the United States in its meteor-like course, has not only outstripped that of all other nations. but has at the same time broken down its own defenses by tearing from the workers whose labor power it exploited. the last remnants of any form of property whatever, . The wage laborer of the cities has now practically nothing to lose but his chains, the agricultura! "free holder" is fast being converted into a tenant farmer, a sweated laborer whose product is appropriated by the owners of the means of transport and communication, the superior instruments of production which are under the control of the capitalist class. Private property in the means of production in this country. has reached the

all private property for nine-tenths of the inhabitants It is true that many workingmen yet pretend to see a distinction between selves with the pleasing illusion that they are "property owners," and have a 'stake in the country," but every week that passes sees some part of this illusion crumble away, and the deluded property is not a result of wage earning, but of the robbery and expropriation of the wage earning class. Every such occurrence makes a possible recruit for socialism, and the Tribune or as powerless to prevent this process as the unfortunate "property owner" him-

It is too late for the champions of don't exist, and for whose destruction the system, which they advocate is wholly responsible. yet sufficient to be considered as a factor in inducing surrender in case of strikes or lockouts, grows smaller every year. These struggles are even now seing fought out by men who as a class have nothing to lose, and the end of every battle sees an increasing number of laborers take up the political weapon of emancipation, and fight the ommon enemy of their class with socialist ballots.

The Tribune is too late. The workng classes are beginning to distinguish between the shadow and the substance of property, and the old falsehoods are fast losing their effect. Even now the "knell of capitalist private property is sounding," and a very short period of time will see the Tribune and other or gans of the same cause, frankly take the old spells are being disregarded and the world's producers begin to turn their faces to the light of the nev economic era, in which private property in the means of production is non

ONWARD CHRISTIAN SOLDIER!

e AngloSaxon Christians, with Gat-

ing gun and sword,
In serried ranks are pushing on the
gospel of the Lord;
On Afric's soil they press the foe in
war's terrific scenes,
And merrily the hunt goes on throughout the Philippines.

What the the Boers are Christians!

The Filipines too! It is a Christian act to shoot a fellow-The bombs with dynamite surcharged, their deadly missles fling, And gaily on their fatal work the dumdum bullets sing.

The dead and mangled bodies, the wounded and the sick,
Are multiplied on every hand, on every field are thick;
"O gracious Lord," the prayer goes up,
"O give us victory swift!"
The chaplains on opposite chaplains on opposing sides the same petitions lift.

The mahdis and the sirdars along the

great Soudan
Are learning at the cannon's mouth the brotherhood of man;
The Holy Spirit guides aloft the shrieking shot and shell.
And Christian peoples shout with joy at thousands blown to hell.

The pulpits bless the victor arms and praise the bloody work, As, after an Armenian raid, rejoiced the plous Turk; The Christian applauds the use of bayo

For how can social order last without the "strenuous life?"

The outworn threadbare precept to lift the poor and weak.

The fallacy that this great earth is for the saintly meek.

Have both gone out of fashion; the world is for the strong; That might shall be the lord of right is now the Christian song.

The Jesus that we reverence is not the lowly man

Who trod in poverty and rags where
Jordan's water run;
Our Saviour is an Admiral, upon the
quarter-deck;

at his beck. How natural that a change should

come in 1900 years.
And bibles take a place behind the bullets and the beers.
We need a new Messiah to lead the

latest way, gospel version well revised to show us how to prey.

BOOK REVIEWS.

THE ATTITUDE OF THE SOCIAL ISTS TOWARDS THE TRADE UNIONS. By N. I. Stone. Published by the New York "Volkzeitung. 184 William St., N. Y. Price, 5 cents. This excellent pamphlet should be

know the history of the relations be tween socialism and the trade union movement in the United States during the last ten years. It is a concise and yet an exhaustive account of the various attitudes assumed, and the mistakes made by socialists during this period in dealing with this tactica question. Under different captions is explains with wonderful where these errors originated and their consequences to the movement, the at tempts made by alleged Marxists smash the unions, and their utter lack of comprehension of the functions and nature of the object of their attack is well and clearly stated. The position taken by socialists at present who have repudiated the fraudulent S. T. and I A., is also distinctly defined. On the stage where it means the abolition of whole the pamphlet in question contains much excellent information or this vexed question, and the candor and good sense of the author in avowing the mistakes, which perhaps could not be paying interest on a mortgage and pay- avoided, of the past few years, will deing rent to a landlord, and flatter them. | much to recommend the work to al socialist readers who wish for an impartial statement of the advatages claimed for each position and the arguments advanced for and against them individual who held it, become gradual- ince of a review to dwell upon omisly aware that the accumulation of sions which the reviewer may think important, and perhaps do not exactly come within the scope of this little work, but we cannot help suggesting ening the material development of capthe whole force of capitalism, are just italism might have profitably been given a few paragraphs, and above all the fact that the organized socialist political movement will exercise a dominating influence on the economic capitalism to postulate defences which movement expressed in trade unionism only when it has demonstrated its buperior numerical strength at the polls. The number of and not before. But as the pamphlet in workingmen who own property which is question is rather historical than suggestive and deals with the different positions assumed at present, it is perhaps too much to expect that every possible phase of the subject could be discussed within the compass of a twenty-five page pamphlet. As it is, Comrade Stone has made a distinct contribution to the literature on this question and his book, we repeat, should be read by every socialist. When organized labor engages in a

strike, and "drives capital away from the city" that's an unpardonable crime, but when organized capital engages in a lockout and drives the laborers away from the city, that's-well that's "for the best interests of the community."

The boa constrictor also finds it neces sary to "pacify" his victim before "be nevelent assimilation" can proceed.

Nours for socialism in our time. Chas. R. Martin.

SOCIAL DEMOCRATS, ATTENTION! All members and branches of the Social Democratic party that are in favor of a union of socialist forces are requested to send names and addresses to the secretary of the Ohio State Union S. D. P., Chas. R. Martin, P. obox 389, Tiffin, Ohio.

—Tiffin, O., May 28th, 1900.

Illinois State Committee S. L P. To the Officers of the S. D. P. of

To the Officers of the S. D. P. of nois, Greeting:

We have received and considered report of the action of your recent vention, and the resolutions it ado and ordered sent to this comm. The substance of your conventions required in the substance of your conventions required in this city, county and state to assume an attitude of political tagonism as an opposition party consideration you offer for the polefacement of the S. L. P. is the stitution of a few names of S. members for S. D. P. members of state ticket. While such considerate are good in capitalist politics, they not as yet been adopted in the soci movement. As to the alternative nominating an S. L. P. ticket as he tofore, we had hoped that the action the Rochester and Indianapolis convetions providing for the union of the D. P. and S. L. P. had made our separate conventions unnecessary and a union conventions unnecessary ate conventions unnecessary and a ution convention a happy sequence of the favorable action of our national conventions. Prompted by the same spirit of unity which inspired our national conventions, and surprised by your unexpected call for a state convention of the S. D. P., we sent you a fraternal request for a conference (not a postponement) to provide for a united state convention of the socialist parties. Your official refusal of this request, we received with respet, and we are unable to see a sufficient reason in your excuse, that the 'publication of your call, and election of some delegates' made compliance with our request 'impossible.' Notwithstanding your very unfavorable attitude and action towards the union of socialist forces in this state we still express the hope therefor, and shall strive for its accomplishment. And though your proceedings may force us to nominate full state and county tickets, we believe our conventions will provide for the prompt withdrawal of all nominations as soon as a united convention and ticket is made possible by the fraternal action of the ate conventions unnecessary and a ion convention a happy seque ead by every socialist who desires to

drawal of all nominations as soon as a united convention and ticket is made possible by the fraternal action of the possible by the fraternal action of the MEMBERSHIP OF BOTH PARTIES. The favorable action of the members of the S. L. P. is already assured for the union of socialist forces under the name of the Social Democratic party, and ratification of Debs and Harriman as presidential candidates. In view of this, and the probable concurrence of the members of the S. D. P., we fraternally suggest that a conference be held at the earliest possible moment for a union state and county convention and the nomination of a united ticket, and in this way encourage and re-enforce the 5,000 citizens who in this city last April voted the Socialist Labor party ticket. Otherwise we shall be reluctantly compelled to maintain our separate existence and actiation, and nominate, in our usual way, and contend with all the forces which are arrayed against us.

Yours for socialist unity,
The liniois State Committee, S. L. P.,
R. A. Morris, Rec. Sec. possible by the fraternal action of the MEMBERSHIP OF BOTH PARTIES

The Unity Conferen The Unity Conference reassembled in

New York on Sunday, May 20th, with eight members present from each party. Heath and Benham of the S. D. P. and S. L. P. respectively were the only members absent. This meeting was made necessary by the action of the National Executive Board of the Social Democratic party, who falled to submit the treaty of union to a general vote of its members, substituting in its stead a special referendum "Is Unity Desirable?" in accord with the views put forward in the "manifesto" appeared in the columns of the Social Democratic Herald.

It was decided to send the treaty of union to a general vote, the voting time to be extended to June 26th, the issue being clearly defined "Union or The majority of the S. D. P. delegates voted in favor of this action. but three, Stedman, Haile and Berger, bolted.

comrades of both parties pointing out that the treaty of union, in accordance with instructions from the national conventions, is now before the parties for a general vote. That in quence of the action of the N. E. B. of the S. D. P. it becomes necessary for the conference to take such action, and that the the vote be returned to comrades Butscher and Stone, secretaries to the conference for the S. D. P. and the S. L. P. respectively. Comrades Butscher and Stone were also instructed to draw up a statement of the situation, and to send out voting blanks to the branches. The meeting then adjourned with cheers for socialism and socialist unity.

SCIENTIFIC SOCIALISM.

se Who Scoff at the Word "Sci life" Are Those Whose Imporance " Are Those Whose Ignorance Makes Its Use Necessary.

About every so often it becomes quite smart thing for some "socialists" in this country to get off amart signing remarks on "scientific socialism." point of the joke is supposed to be that there is no such thing and that those who use the term are guilty of a sort of pedantry that should be laughed down. As a matter of fact the words "scientific socialism" have a perfectly clear and definite meaning and it is the work of these same smart scoffers that has made the adjective necessary. From time immemorial human be ings have yearned after a better society., and it has been characteristic of yearnings that whenever" they head their accounts of the conflagrahave taken definite form as to the ob- tion ject desired, the society pictured has Ject desired, the society pictured has been of a more or less communistic native freeze the society picture. This has been true from the time "How shocking!" "How did it hapture. This has been true from the time of Plato to that of the latest palater "duodecimo editions of the New Jerusalem," and sneerer at "scientific "duodecimo editions of the New socialism" of the present time. none of these have been or are now able eat. to give a consistent reason for the faith that is in them. They know what they want in an indefinite sort of a way and of late years there has been such a great diffusion of the principles of this despised "scientific socialism", throughout all sociological literature that they have generally come in contact with more or less of it and are time when such "socialists" were in some degree justified in their position. The material out of which to construct a science of society founded on common to lessen both the demand for labor ownership was not in existence and and the price of it, what in your judgthey could not be blamed for not constructing such a science. But with the development of capitalism and co-op- classe erative production with individual dis-few?" tribution, the world-market and concentration of industry it was possible selves? to postulate the principles of a co-operative society with scientific accuracy for a mess of pottage, for bread and from the conditions existent in our present society. This was done by many," because they produce every-Mark in "Capital" and to still greater thing? degree by Engels in his "Socialism, Utopian and Scientific" and their work has been carried on, modified, strength, and then accept (as wages) a small ened and developed by a whole host of part of their own product? thinkers and workers since their time. The result of all this has been that

there is today a body of principles and many" and "the few" call business? demonstrated facts, embodied in a literature of millions of volumes, printed in every language into which capitalism has found an entrance, developing and discussing this truly scientific socialism. It has been a peculiarity of the English language that it has not held its own, so to speak, in this development, While it has its literature of scientific socialism (even though it be a small one in comparison with the wealth of works in other languages), alongside of this solid and substantial contribution to the study of the subject there has grown up a mass of fantastic vagaries utterly unknown elsewhere. This literature partakes of the nature of the old Utopian save that, as was said above, the writers have in spite of themselves learned more or less of the principles of scientific socialism. The result is that their productions are a strange mixture of science and Utopia, a sort of hybrid that is neither "fish, fiesh, fowl, or good red herring." Far be it from us to say that such writings have played no part in the preparation for the social revolution. There is no doubt that Kingsley's "Water Babies" has helped many a child to a better understanding of biology, but lest the writers of "unscientific socialism" take too much credit by the comparison we would point out that before writing Bables" the author at least knew what science had to say on the subjects he proposed to treat and if he least kept himself as free from positive error as the state of knowledge at the time he wrote would allow. But too many of those who claim to be teaching in the "Kindergarten" of socialism are so ignorant of their subject as to teach much that must be unlearned in the higher courses.

of mind of those who cast slurs at the "scientific socialists" that the very issues of two periodicals which have re cently contained such smart remarks also contained laughable biunders arising from the ignorance of their edfors of this very much despised "scien-The originator of th tific socialism. "roast" in question had in the same is sue an item hailing as a great victory for socialism the triumph of the French Nationalists and berating the capitalist press for trying to disguise the fact by a change of names, when had he spen little more time in study of 'science" at which he slurred and its international development, he would have known that the Nationalists of France are the "lingo" party, the "patand are about as far removed from socialism as it is possible to be One of the papers which copied his "scientific socialism" fling was taken in in another column of the same issu with the item which was sent in by the Associated Press and has been going the rounds of the capitalist press to the effect that the French socialists have just discovered "Looking Back ward. This last is an especially goo joke as "Looking Backward" is it a representative, although o the very best class, of this anti scientific literature and it would seem as if its followers would have known that it was translated int French many years ago, ran as a seria through the "Petite Republique," whose editor, Jean Jaures, is reported in the Associated Press dispatch referred to

It is at least suggestive of the state

as being transported with surprise and admiration at its recent discovery, and is at present for sale in a three cent edition at every news stand in France or Belgium. In view of these facts would it not be well for these scorners of "scientific socialism" to take another look before they leap into their "funny column" with further bright remarks on this subject. It seems to us that up to date the "scientific socialist" the best right to laugh.

"THE MANY ... THE FEW."

Written by One Who Wished Not to Advertise Himself.

A great fire occurs. Blocks of build-

ings are destroyed. "Property worth millions gone up in live, and the causes therefor. smoke," is the way the morning papers

"Several persons are dead, others are pen?" say those who think only along conventional lines, also those who think they think?

those who know-what do they say?

Will not that fire rejoice those engaged in the building trades? Will it essential and important part of soci plumbers and painters?

able at times to repeat its phrases in waste, burn and destroy property that a semi-parrot manner. There was a capitalists have for combining to pre-

classes, into "the many" and "the

Why must "the many" sell them-

Why may "the few" buy them, and cheese, which already belongs to "the

Why should "the many" produce everything, hand it all over to "the few."

Who invented this Do your neighbor -he'll do you, game, which both "the How long will it be before "the many see that "the few" have changed the venerable, time-honored, every fellow

for "the many" to infringe upon the patented (vested) rights of these holy men?

As an emergency measure and in cas "the many" should actually and unlawfully attempt to-co-operate, the cooperative organizations of "the few" (the trusts) might be declared unconstitutional.

The spread of sickness and the prev alence of ill health under the present social system, does it not mean more business, hence good fortune for druggists and doctors?

Must not the undertakers and the grave-diggers secretly rejoice because of the opportunities which the deaths of your loved ones afford them?

A ROYAL "DEMOCRAT."

Monstrous Tale of a Country Where There Is Said to be "No Room for Class Distinctions.

When the capitalist journals of the in Denmark. 'yellow" stripe get tired of regaling heir readers with silly stories of the "democratic" millionaire and labor- ist decoy ducks who serve up this flapskinner, when they conclude that the doodle about "democratic" kings in the recital of the yarn that Russell Sage wears a \$5.98 suit, and the number of to fall back on that good old standby years that he wore it, becomes a trifle the Jay Gould-Russell Sage type of stale, they go over to Europe for examples of "democratic" kings, where, swung a pick or saved up a dolfar with to pull the wool over the eyes of the working classes of this country, who are rapidly waking up to a sense of time the workmen of this country may the real conditions under which they

Up till the present the working class have been persuaded that a monarchialwhen compared with a republican forh of government showed a decided inferiority, and the average American workingman for a long time considered homself fortunate in being a "citizen" instead of a "subject." But seeing that 'kings' in an economic sense are nov But the unemployed and the poor and to be reckoned amongst our institutions, and that they exercise a power "Little waste, little work, little to far greater than that of their European namesakes, the workingmen must be taught that kings after all are a very not make work for brick and stone ma-sons, hod carriers, structural iron "democrat" who is at the same time workers, carpenters, roofers, plasterers, King of Denmark appears in the daily press:

Have not these mechanics and laborers the same reasons for combining to waste, burn and destroy property that capitalists have for combining to prevent waste, and restrict production?

If "the many" have nothing to sell but their labor; if "the few" combine to lessen both the demand for labor and the price of it, what in your judgment ought "the many" to do?

What is it that divides society into classes that the source of the many" and the price of it, what in your judgment ought "the many" to do?

What is it that divides society into classes that the source laborers are the first production. The property of the many to do?

than as a ruler, a man to whom they can turn for wise counsel whenever difficulties arise.

They don't always act on his advice, it is true, but they know that the chances are, when their opinions differ, the king is in the right, and he is happy in the knowledge that sconer or later they will come round to his way of thinking. The want of ceremony with which the king goes about among his people is remarkable. One morning, to give an instance, his majesty was taking a walk in Copenhagen, as usual without a single guard, when he came upon a number of workers discussing their grievances. It was during a strike, and the men were much excited. Suddenly one of them cried. "There's the king! Let us ask him what he thinks."

In a moment the king was surrounded

in a moment the king was surrounded by an eager throng, who explained to him that they were being almost starved, while their employers were simply rolling in riches. When the rewenerable, time-honored, every fellow for himself rule, the particular feature of the game (the law of competition) which it has always been claimed was God ordained, therefore sacrilegious to question or think of changing?

Now that these vicegerents of God, "the few," have begun to co-operate with each other (combining against "the many", will it not be in order for the various "divinely ordained" earthly potentates to grant letters patent on the whole process, making it a crime against both God and the government for "the many" to infringe upon the

We are first informed that there are no class distinctions in Denmark, that the country is to small for them, and yet the writer tells us there is a king there. There is also a court and a nobility in that country which is said to be "too small for class distinctions," and there are also workers who "discuss their grievances" and employers who "grant" wages. But there are no class distinctions there, oh, no!

Only very recently there was a strike fought out to the bitter end by the majority of the working class in Denmark, and they won out, too, but we never heard that their victory was secured by taking the advice of this royal "democrat." We never even was, we can assure our readers that probably without thanks.

The thousands and thousands of Danish workingmen engaged in this strike proved up to the hilt that class distinctions can find lots of room in Denmark, even though the country be small in extent. More than that, these striking workmen also proved that the picnic, which will be held at Kuhn's class distinctions in Denmark were park on Sunday, June 3rd, should not precisely of the same nature as those elsewhere, and that they brought out the same result as elsewhere-a class struggle. Yes, there are capitalists and laborers in Denmark, and they engage the propagation of the principles of so in the same sort of conflict as capitalists and laborers in other lands, and the "democratic" monarch of Denmark class. Those who have the manage stands where most of the "democrats" of his type stand-that is to say, on have left nothing undone to secure an the side of the capitalists and against enjoyable outing for those who will be the workmen.

fairy story goes, saw the "democratic" king, they determined to lay their case before him-their father-their councillor-their best of men. And he. of course, was perfectly up in the whole thing, and showed them clearly that have always had as their central object the robbery of their labor product by the endeavor to attain better and ever the capitalist couldn't be stopped, except at the risk of ruining the trade of which they (or the vast majority of the "country"-which means as it does their membership belong), they lose no ere, the capitalist class. Therefore the kindly democratic old gentleman concluded that the robbery must go on, just as many benevolent labor skinners tell the workmen of this land. He was patient about it, too, though unfortunately he wasn't able to convince them of the righteousness of legal robery, but he did convince them that he was a "father" and sponsor of capital-

Just so. And now it remains for the orkmen of Denmark to convince him that he doesn't quite come up to 'their idea of what a "democrat" should be. re are a very great number of them the are preparing to get rid of de

crats of that type, and they call them selves socialists. And incidentally they are also trying to make a fact out, of what is at present a lie, namely, that there is no room for class distinctions

When they succeed in this, and it ma not take very long, either, the capitalcolumns of the daily press, may have millionaire, who swept his own store, week till he had twenty millions or s to his credit in the bank. But by that

"democracy" under capitalism, and

Attempts to Divert the Attention of the Workers From Their Real Interests.

Capitalism rests upon the continued deception of the workers. Once the question of the continuance of wage slayery is brought before the laborers of the world and they are enabled to inelligently voice their opinion upon that subject, the victory for freedom is gained. Hence every effort is being made to divert their attention from this question. They are fold that there are other problems that must be first settled, that there are other "issues" of more importance, etc. So long as the worker can be kept busy thinking of other things, his masters are sure of their position. The following quotation from the last number of the Arena is a good illustration of this "side-tracking" process:

"The problem of the trust and the problem of private monopoly in finance are questions of vital moment; but the giant issue now is whether our flag shall stand for freedom or oppression. It is vastly important to know whether It is vastly important to know whether our governments and industries are to be managed in the interests of a few or the interests of all; but it is still more important to know whether the people approve this policy of abandoing the Declaration of Independence, turn-ing the republic into an empire, and transforming a peaceful democracy into an imperial conqueror."

In other words, the laborers of Amerca are asked to keep their eyes on the Philippines and leave their pockets unguarded for the capitalist pickpocket. According to this writer, it is of vastly more importance to the laborers that the abstract principle of the Declaration of Independence be left in good condition for Fourth of July orators. than that their stomachs be filled and their, backs covered from the heat and cold. He believes that the workers of the United States should be patient in slavery until the big and little masters have decided whether it is better to sell the products they have taken from these workers, in Manilla under a process of "expansion," or in China, under the policy of the "open door." Will the laborers bite at such poor bait?

Don't Want a Tutor.

It is curious how reformers try to ersuade themselves that the capitalist class don't know how to perform their special function, the extraction of surplus value. The late Presbyterian conference in St. Louis in one phase brought out this point admirably. The conference in deploring the "desecration of the Sabbath" requested capitalist owners of railroads to discontinue running passenger trains and other rolling stock on that day, on "economic as well as moral grounds." The idea that these "reformers" entertain of their ability to give pointers to the capitalist class on the art of extracting profit is not a whit more ludicrous than the action of the little boy who set out to teach his grandmother how to suck eggs. The fact that Sunday traffic exists is all the proof that is needed to show that it nothing to learn from the "reformer" regarding it.

A Good Place to Go.

All comrades who can conveniently attend the Tanners and Curriers' Union miss the opportunity of being present The membership of this union has long been noted for its progressive tendencles and furnishes a favorable field for cialism, which form the high watermark of progress amongst the working ment of this entertainment in hand, present, and there is every reason to be. When the striking workmen, as this lieve that it will be the most success ful which the union has ever held These social meetings of workingmen. their wives, and families, are one of th most important means in solidifying the ranks of labor, and as the socialists better conditions of life for the class to opportunity of promoting so far as they ire able the enjoyments and pleasure which the world's workers are yet able to attain, never losing sight of the ob ject of accialism, to show that these pleasures can be almost infinitely multiplied under the just and rational sys tem of distribution of things produced which socialism advocates. The adverement of this picnic can be found in another part of our columns, and we hope that it will as successful as it deerves to be, and that our comrades so far as lies in their power, will aid in making that success attainable.

FOREIGN NEWS.

Glimpses of the World-wide Struggle of the Proletarian Army for Its Liberty.

BELGIUM.

"Vooruit," the socialist paper of Ghent, calls attention to the small wages paid to women workers in the Ghent cotton factories. Children get from four to eight francs a week, young women from eight to ten francs and comen from ten to 12 francs! Yet these factories pay very large dividends. Unfortunately the workers are not at all organized and the masters can do just as they like.

ENGLAND.

It is said that Mr. Cecll Rhodes, during his recent visit to this country. nade very close inquiries regarding the Angora weaving industry, with a view to establishing a factory in the neighorhood of Kimberley. It is understood that, before leaving for the Cape, Mr Rhedés ordered a full installation of weaving machinery and left instructions that it should be sent out as soon as the war was over. It looks as if Rhodes was going to run this factory at Kimberly with black labor and enter into competiton with the weaving industry of this country.-London 'Jus-

FRANCE.

Some time ago the church at Aubevvilliers, near Paris, was injured by fire and the religious papers stated that the crime had been committed by the archists. It appears, however, that the deed was done by the sacristan, an official of the church, who has been arrested.

GERMANY

Great efforts are now being made in Berlin to organize the women workers. many of the conditions of their labor are very unsatisfactory, but it does no appear that any good is likely to be effected until the women have good unons. Fighting without organization, is quite useless.

ITALY.

The social state of Italy is deplorable; the other day in the village of Velletris the goods of over 50 peasants were seized and sold by auction though each debtor only owed 4 francs (about 3s.) to the government. The misery is very great all over the country. Italy is a poor country and cannot keep up its ruinfously large army and navy. Liberty is at the mercy of the government, opposition papers are regularly seized for spreading disaffection (a very clastic word), and private citizens can b and are forcibly removed to other towns. It was not for this that Garibaldi fought and Mazzini suffered. Th true remedy is a free but a federated Italy,-London "Justice."

LABOR ITEMS.

Notes From Trades Union Journals and Exchanges, Throughout the United States

Toronto unionists have declared for

independent political action. Seven hundred and eleven strikes curred in Great Britain during the last

year. In the mines around Nevada, City, Cal., Japanese are being introduced, who are paid \$1 a day, boarding themselves.

Prof. Murai, of Tokio, is, doing the United States. The gentleman is quite a student, and has written a book on socialism, which proved to be a good contribution for the cause in Japan.

There are said to be 6,000,000 working people in the German empire, \$90,000 of whom are connected with trades un-Socialists have 57 representatives in the Reichstag, agitating labor

Funds for the support of the striking cigarmakers in New York are continuing to flow in, and while the workers becoming more hopeful at this manifestation of solidarity, the bosses are beginning to weaken.

Harberger, Homan & Co.'s Philadelphia cigarmakers, 400 strong, went out on strike in sympathy with the firm's New York employes. The employers who have pooled their interests to sup port Kerbs, Wertheim & Schiffer are orely disappointed over the solidarity displayed in behalf of the locked-ou digarmakers in New York.

The capitalist press have been telling us that the French socialists lost in the recent municipal elections. Now "Le ocialiste" comes to hand with reports from 153 cities and in by far the great majority the entire socialist ticket was fected, while with the exception of barely a dozen cities great gains were made. This was on the first ballot only. What the result was on the second ballot we will not know until another is-

The French chamber of deputies has secreed the enforcement of the tentour law of 1892 by a vote of 468 to 50 About 1,112,325 men, 633,185 Women and 433,637 children, employed in 158,000 establishments, will be affected. had socialists in the French legislative body are constantly harrassing the cap italist class by clamoring for enforce ment of labor laws, and if they per sist in their pernicious effort they will ventually drive capital out of France -Cleveland Citizen. .

Would you rather be kicked by the Democratic mule, or crushed by Republican elephant? If you really know enough to desire neither, you will join the socialists and chase both aninals out of your neighborhood.

LOCAL NEWS AND NOTES.

The 24th ward tranch holds outdoor meetings at N. Clark and Walton place every Thursday evening at 8 p. m.

That offer of Comrade Ballard, in regard to the construction of platforn for outdoor speaking, still holds good.

Meetings are held at the corner of Peorla and Madison streets every Sun-day evening at 8 p. m. Good speakers at every meeting,

Thomas J. Morgan will address the "Federation for Social Justice" at Hull House, Halsted and Polk streets, Tuesday, June 5, at 8 p. m.

The North Side branches of the S. L. P. wil hold a picnic for the benefit of the propaganda fund, at Simon's Grove. Lawrence avenue and N. Clark street, Sunday, July 15, 1900.

Meetings at the corner of State and Quincy Saturday nights are doing good work for the cause of socialism. They will be continued on the same ground every Saturday evening during the campaign. The Polish branch of the Socialist

Labor party will hold a picnie on Sunday. June 10th at Laznowski's Grove, Irving Park, for the benefit of the Workingmens' Reading Room and Library, as advertised elsewhere in these columns.

You should secure the latest edition of the Pocket Library, "Socialism and Farmers," by A. M. Simons. It pre-sents the causes of poverty amongst the agricultural community in a clear and startling manner. Copies can be obtained at this office. Single numbers 5 cents. A large discount given on quantities.

The books in the hands of the Committee will be given to the holder of No. 185, on presentation of same. This was decided on Sunday, 27th of May, at 65 N. Clark street, according to the notice formerly given in these columns. Those present when the decision was made, were Commades Thornberg, Ballard, Dunkelberg, Veght, Waren and Kenny.

Order of Committee.

Order of Committee

The next issue of this paper will appear as a special educational number, and will contain eight pages of reading matter. The whole issue will in the main be devoted to the task of bringing socialism to the notice of school teachers and those engaged in public educational work. Orders from branches and only iduals requires contains of the second individuals requiring copies of this spe-cial number should be sent in immedi-ately to this office, 36 N. Clark street.

The 26th and 25th wards have decided to co-operate in holding joint open air meetings. The initial meeting was held at Southport avenue and Roscoe streets. Comrade Knox spoke to a large and attentive audience. Much discussion took place after the speaker concluded. Over 70 copies of the Call discussion took place after the speaker concluded. Over 70 copies of the Call were sold at this the first meeting, and more could have been sold. The branches will continue holding their meetings at the above place every Sunday afternoon at 3:30 p.m. All readers of The Workers Call living in the 25th, 26th and 27th wards are cordially invited to attend these meetings.

To Branches and Sections. We have adopted a plan to assist the

comrades in soliciting for subscribers that we believe will be a great convenience. Postal cards have been prepared which when sent to this office will be received in payment for subscriptions. These cards are made good for either six months or one year, and are sold at the rate of twenty cents for the fermer and forty for the fatter period. All you have to do is to sell these cards to the subscriber and he can write his own name in and drop it in the nearest mail box. No receipt is necessary, no trouble required, or payment of postage needed. If you live in Chicago you do not need to come to the office with every sub or spend time and money in writing letters. Just the thing for use on the streets. They can simply be sold by the speaker to anyone in the crowd and we do the rest.

They will be sent on credit to branch secretaries or regularly appointed agents of branches or sections when so sent the full subscription price will be charged and no commission allowed. The best way to do is to send the cash in advance at the rate of twenty cents for each six months card and forty cents for each yearly and then sell them at the regular subscription rate and retain the commission. time will be sold in this way when the cards have to be mailed.

Every section should at once order a few dollars worth of such cards and sell them at their meetings. There is not a subscriber to the Call that could not get rid of five dollars worth of them in the next few weeks. The labor of soliciting and forwarding subscriptions is reduced to a minimum and if the plan is not taken advantage of by any co rade it simply shows that he does not care to do anything for socialism.

Life and Liberty.

What is life without its material basis? And what is an equal right to life but a right to an equal material hasis for it? What is liberty? How can men be free who must ask from their fellow-men the right to labor and to live? How else can ANY GOVERN-MENT GUARANTEE liberty to men, save by providing them a means of labor and of life, COUPLED WITH INDEPENDENCE ? And how could that be done unless the govern conducted the ECONOMIC SYSTEM. UPON WHICH EMPLOYMENT AND MAINTENANCE DEPEND ? Finally: what is implied in the equal right of all form of happiness? What form of happiness, so far as happiness depends on material facts, IS NOT BOUND UP WITH ECONOMIC CONDITIONS ? And how shall an equal opportunity for the pursuit of happiness be GUARAN-TEED to all, save by a GUARANTEE of ECONOMIC EQUALITY ?-(Bellany's "Equality." pp. 17.)

The "favorable balance of trade" is to be further augmented by the exp of domestic servants from New York to London.

Send in a club of ten this week

WHY THEY DON'T GO.

A Few Suggestions Which May Help Solve a Question Much Debated in Clerical Circles.

In the roports of sermons preached on Sunday which appear in the press on Monday morning, there is one topic which the man of God frequently handies in his pulpit talk, and which is usually propounded in the torm of the question, "Why don't workingmen go to church?" or "How can the church be made more attractive to the working All sorts of solutions are offered and many schemes have been put fondly hoped would have the effect of settling this problem, yet all have failed miserably, and still the "workingman den't go to church" as is acknowledged by those who have tried every possible scheme to induce him to The reason for this is quite apparent to the average workingman, who if questioned as to his non-attendance, would generally reply that if he did, candor compels us to say "there's nothing in it for him." or that the conclusion reached would words to that effect, but with few exceptions the absolute truth of this answer never seems to strike the clerical mind. It is of course most probable that the workingman who gives such answer, has never made any regplar analysis of the reason which he puts forward, but one thing is certain, that the arguments advanced to show him that there is "something in it for him" have had no effect whatever in convincing him of the error of his rea-We have seen honest and sincers'men

in the ministry attempt to found "Labor Churches," "Peoples' Churches," etc. and go out like the disciples of old into the highways and byways and compel or persuade the laborers to come in. We have seen a few weeks' persistent effort on the part of these fishers of men." rewarded with a very seanty catch, which, scanty as it was, could even then by no means be permanently secured. At some of these meetings in which the question of catching the workers was discussed at length, we can distinctly recall the vigorous enslaught of the "radical" workman who positively insisted that the church was a "rich man's club," and that it had "no use for the poor." And all the elequence of his educated day, the modern prototype of the Jewantagonist failed to shake his convic-

There is a reason for this feeling whether it is expressed as indifference or hostility, and this reason lies in a fact, which, so far as the working class are concerned, the clergy have always ignored, though they are as a body completely dominated by it as regards mselves, the fact that mankind as a whole, follow their material interests and that whatever thwarts, opposes or will seek to avoid.

This fact, it seems to us, is fully cient to answer this problem in its every aspect. It explains why the churches have to depend for support the connection between modern peda upon the propertied classes, why the consciously or unconsciously range themselves upon the side of the identified with their own.

As an illustration of this, one phase of the proceedings at the Presbyterian class that is ready for socialism and Assembly held in St. Louis, may be quoted which bears directly upon the foregoing remarks:

The report of the Special Committee Sabbath Observance, presented by The report of the Special Committee on Sabbath Observance, presented by Rev. Dr. I. W. Hathaway, secretary of the American Sabbath union, as usual condemned "seven-day journalism." Sunday excursions, and the appropriation of money for expositions which remain open on Sunday. Resolutions nine and ten, as presented, read:

"Resolved, That we deprecate the rapidly increasing Sabbath slavery of corporate employes in this country; so that today by careful estimate no less than 4,000,000 men are thus enslaved

than 4,000,000 men are thus enslaved and robbed of their inalienable rights

than 4,000,000 men are thus enslaved and robbed of their inalienable rights to this day of rest."

"Resolved. That we call upon the railroad companies of this land that are engaged in running Sunday excursions, or allowing their road and rolling steek to be used for such purpose, to reconsider their action in this regard, so as to secure the minimum of transportation and service of their employes on this day, both on economic and moral grounds."

"Slavery" was softened to "employment" and "forcibly deprived" was substituted for "enslaved and robled" in the first resolution, and tearnestly request" for "call upon" in the second But these changes were not made until Dr. Hathaway and Dr. McKibbon had expressed their opinion of the terms employed by the committee. These ministers thought they should stand, but others wished to modify them for fear the St. Louis strikers should receive unintended encouragement.

When the average workingman reads

When the average workingman reads this account, and more particularly the sing paragraph, is he not fully justifled in the position of indifference or enmity which he assumes towards

It is probable that the workman in a lengthy examination of the causes which impelled the reverend gentle men to "modify," "substitute" "soften down" those phrases with which they in the first place expressed their righteous indignation at the destination of the Sabbath. He will not clalism, and all whose husbands, faintheir righteous indignation at the des-ecration of the Sabbath. He will not transforming this fercible charge into urged to attend the meeting on June 10, a mild request, was the dread of in- at 3 o'clock p. curring the displeasure of the owners of the means of production and distribution, whose economic supremacy places them in the position of dictators as to the utterances of the theologians, who by this retractation recognized the fact of their own dependence upon this class, and the danger to their material the path?

interests which might ensue from th

But the refuctance to give, any "en couragement to the St. Louis strikers will at once appeal to the Workman as a confirmation of the ideas regard ing the church which he had formerly held, and he will not inquire farther strengthen and intensify his first opinion, which though apparently superficial is none the less correct.

The church cannot stand neutral in this conflict, this class struggle, which the progress of "civilization" out ever more distinctly. While cap! talism continues to exist, the modern church which depends upon the up holders of that system for its support cannot, in spite of its professions, in spite of the fact that its ranks contain meands of honest, sincere, devoted and self-sacrificing men, stand towards the interests of the working class in any attitude but one of antagonism.

And furthermore, while this state of sconemic dependence continues, the most perfect example of life and con duct upon the part of the individual laborer in the Lord's vineyard, will afford no shield against the taunt of the "radical" workman whose confused conception of class antagonisms enables him to partially see the dominating influence of material interests even b those who profess to expound the prin ciples and imitate the example of One who said that his "kingdom was not of this world." While capitalism exists the workman in question will merely see in the clergyman of the present ish adventurer, who for the satisfation of his physical necessities, implored his friend, "Put me, I pray thee, upon the part of the working class, in the priest's house that I may eat

For Teachers and Pupils.

The Issue of The Workers' Call for the 9th of June will be a special number for use among teachers and pupils in the schools and colleges. For this purpose an extra supplement of four pages will be inserted containing among neglects those material interests, they other things Kropotkin's "Appeal to the Young," omitting those few sentences inciting to violence or attacking religion. In addition to this there will be special articles by various comrades or gogie philosophy and socialism, on the whingmen are estranged from it, and overcrowding in our present public why the preachers of the gospel as a schools the closing of opportunities to the young under capitalism, the eco nomic position of the teacher, the atticlass whose material interests are tude of capitalism toward popular edu

cation, etc. . It will be a number that will reach a pmong which little propaganda has been made. It will come just at the time when graduating exercises are going on in all the schools and when its circulation will be sure to attract a great deal of attention wherever it is distributed. There is not a town in the country where there is not some sort of exercises at this time and if the occa sion is taken advantage of it can be made an opportunity for first class

propaganda. Owing to the fact that a comrade has made a donation for this purpose large enough to pay for the extra expense in-

the following additional offers: ,To anyone sending in two clubs of ten on the campaign offer, we will send a copy of Lissagaray's "Commune," or Som bart's "Socialism." These books are cloth bound copies on first class book modern Christianity and its recognized paper and their regular price is \$1.60 and \$1.25 respectively. It is perfectly easy for any comrade to get either one question will, not care to exercise his or both of these books for his library mental faculties sufficiently to go into and at the same time help the Call to reach many prospective converts.

Rurope has many ably edited reviews expounding the principles of Socialism, and enabling students of social problems to exchange their ideas. America needs such a review, and to this end A. M. Stwons, lately editor of the Workers Call, and now vice-president of the Chicago publishing house of. Censulas H. Kerr & Corners, has in a recent journey arranged with the leading European socialists to assist in establishing The international Socialist Review, the first number of which appears July 1, 1900. Every civilized country will be represented by its ablest socialist writers, and some forty-eight of the airty-four pages of the Review will be given to the interchange of opinion. The following departments will be regular features:

1. Review of the events of the month from the socialist point of view.

2. News of the socialist movement in America.

d. News at the socialist movement in America.

3. Review of economic devalopments and labor troubles, with special reference to the trade union movement. 4. Foreign correspondence: News of the socialist movement the world over.

Every student of socialism, and also every opponent of socialism, will find that he needs to read THE INTERNATIONAL

PRIDE to CENTS A COPY. \$6.00 A YEAR.

By special arrangement with Charles H. Kerr & Company
we offer The International Socialist Review and this paper one year for only \$1.00. ADDRESS THIS OFFICE.

The International Socialist Review

On the first of July we shall issue the last number of the monthly review under the 'differship of A. M. Simons, unit lately editor of The Workers Call, the bas recently returned from studying recial conditions in Europe. The octalist movement has now reached ing recial conditions in Europe. The socialist inevenent has now reached the point where it can claim to offer the only philosophy pointing the way to a lookitive salution of present-day problems. Its constantly increasing strength at home and abroad makes it a force with which all must reckon. In Europe with which all must reckon. In Europe the best minds of the colleges and universities are devoted to expounding its dectrines and a majority of the leading economic reviews are under the direc-

dectrices and a majority of the leading communic reviews are under the direction of socialist writers and thinkers. Under these conditions it is feit that there is great need for a publication in America that will bring the works of the best foreign minds in touch with those who are here attacking the same problems and place the results of such discussions before the great body of people who are interested in social questions.

Here is the field of the International Socialist Review. It competes with no existing publication. It will, we trust, prove itself indispensable to every hon-est student of social problems, whether his sympathies be for socialism or

against it.

Editorially the attitude of the Review will be strictly in accord with the recognized principles of international so-cialism. Signed articles will, however, be welcomed from writers of all schools and parties who accept the socialist ideal, however they may differ as to methods and tactics. We are convinced that a free and full discussion is the shortest and best road to the general acceptance of the methods and tactics of international socialism by all who aim at the establishment of the co-operative commonwealth.

The International Socialist Review will be the first periodical in the English language to bring together to any extent the original contributions of the

extent the original contributions of the great socialist thinkers of the differen great socialist thinkers of the different countries of Europe. It will also publish each month letters from foreign correspondents giving the latest news and a review of the situation in each country. Here is a partial list of those who have aiready promised to wrize:

France—Paul Lafargue, Jean Jaures, Jean Longuet.

Belgium—Emile Vandervelde, Henri Lafontaine, Emile Vinck, Mme. Lalla Kufferath.

Kufferath.
England.—H. M. Hyndman, Walter Crane, Samuel Hobson, H. Quelch, Keir Hardfe, J. R. McDonald.
Italy.—Dr. Alessandra Schiri.
Denmark.—Dr. Gustav Bang.
Arrangements are now being completed for correspondents and contributors from Germany and Holland, and we hope to announce their names before the first issue.

It will be seen at once that this list of contributors places the International

of contributors places the International Socialist Review in a class by itself so far as periodicals in English are con-

cerned.

But it must not be supposed that the American situation has been neglected. Already articles have been promised by Job Harriman, Rev. Charles H. Vail, N. I. Stone, Leenard D. Abbox, Rev. Wm. T. Brown, William Mally, Gov. Andrew E. Lee, Ben Hanford, Marcus Hitch, Jos. Washepe, W. H. Noyes and others, and no effort will be spared to secure the best work of the best thinkers upon the problems of socialism in America.

The alen of the marcaine will be any

America.

The plan of the magazine will be approximately as follows: About forty-eight pages will be given to contributed articles and the remaining sixteen pages will be divided as nearly equally as possible among the following depart-

First. Review of the events of the ofith from the socialist point of view second. News of the socialist move ment in America during the month-just

passed.
Third, Items concerning the struggle in the economic field, including trade union news and labor troubles.
Fourth, Foreign correspondence giving news of the socialist movement the world over

The need of such a periodical as this is apparent to every socialist. We believe that once it is brought to their notice every comrade will be willing to take hold and help. There are two, ways in which such help is wanted at once. In the first place further capital is needed for its establishment. comrade has agreed to give \$250 for this purpose as soon as an equal sum is raised elsewhere. Of this sum \$150 has already been raised leaving one hundred more to get if this offer is not to be allowed to lapse. To raise this one hundred dollars it is proposed to sell ten shares of our capital stock at ten SPRINGFIELD; Aug. Von Behrens, Sec., 11th and Madison Sta dollars each-their par value. That the money thus invested offers immediate and desirable returns aside from being an aid in the establishment of the magazine is shown by the following special prices on books published by us which

are made to stockholders only:

are made to stockholders only:

Five cent books in small lots, 2½ cents; 100 assorted copies, \$1.75; 500 assorted copies, \$1.75; 500 assorted copies, \$1.75; 500 assorted copies, \$1.75; 500 assorted copies, \$1.60; post free in the United States outside Chicago.

Ten cent books in small lots, 5 cents; 100 assorted, \$2.50; post free in the United States outside Chicago.

Twenty-five cent books in small lots, 11½ cents; 50 assorted, \$3.00; post free in the United States outside Chicago.

Other books at half list prices, post free on paper books; on cloth books if sent by mail postage will average about 10 per cent of the retail prices.

Once the magazine is established it will be run without further expense to the party and will be distributed, not only through the ordinary socialist propaganda. It will be a means of capturing and holding the intellectual propaganda. It will be a means of capturing and holding the intellectual propaganda. It will be a means of capturing and holding the intellectual propaganda.

Every section that intends to de any distribution of literature will find the ownership of such a share of stock a good investment; while individuals who wish to assist the socialist propagand will searcely find a better oppprtunity or greater need than this present one.

SECOND YEAR .- WHOLE NO. 66.

CHICAGO, ILL., JUNE 9, 1900.

PRICE TWO CENTS

"GOOD INTENTIONS"

The Employer "Means Well" but Is Bound by the System.

THE FOLLY OF DENUNCIATION.

Sentimentalists Attack the Individual and Ignore the Economic Causes Which Dictate His Action.

Many sentimental socialists and others of similar temperament labor under the impression, that people who de things that seem wrong in their eyes, can be weaned from their evil practices by denunciation of the actions in question, actions which in reality often are but the expression of "good intentions" upon the part of those who perform them. Base and vile motives are often declared to be the basis of such actions by this type of reformer, who is seemingly unable to comprehend that like most other acts of a similar nathey are but reflexes of material conditions by which those performing them are governed.

In connection with the labor question and the antagonistic interests which it expresses, we are often compelled to listen to sensèless denunciations of individual actions, which, when explained from the standpoint of the denounced one, are found to have a different aspect altogether.

To cite some examples: A capitalist. say, is charged with wilfully and maliciously oppressing his employes by closing up his factory, thereby entailing much want and misery upon hundreds or thousands of working people. To the latter this is an operation which will eventually force them to recognize where the power lies which enables their master to subject them to this treatment, and to take measures to secure this power to themselves, or rather their class. In other words this action is a lesson in socialism for them which sooner or lafer they must learn. But the sentimentalist simply de-

nounces the individual capitalist involved, and pours out the vials of his wrath upon, say a Pullman, a Gould or a Carnegle, as the case may be.

But let these people speak for themselves, and the condemnation of the denouncer falls flat. A large manufacturer reduces wages. Does he do this merely to oppress his workmen? Does he take pleasure in the fact that reduction may mean hunger and nakedness to them? By no means. Let him give his reasons; hear him speak

He will say, and with truth in most cases, that he can find no market at current prices for the commodities produced in his plant; he has the most kindly feelings for his employes, does not want to discharge them, so he thinks it over, and comes to the conclusion that if he could sell cheaper. that is, could place his commodities upon the market at a lower price than his competitors, he would then be able to continue "giving work" to "his" employes. But this would cut into his phrases about the "horny handed son vest capital without profit, therefore if he gives notice of a reduction of wages. accept the inevitable (as he sees it). he will be able to keep them employed and incidentally have still some profit

Then in the "kindness of his heart." he makes this reduction in wages, and the employes are not a bit appreciative What honestly seems to their employer standpoint appears as the work of a

reedy "oppressor of the poor."

They go heme sullenly, they worl doggedly, their wives find fault with the small wages, making them still more sullen, resentful and dissatisfied.

To follow this somewhat farther The reduction of wages, the underselling of competitors has succeeded. It has the effect of closing up factories in those workers content. The smoulder. ing fires burst into a blaze, a strike appears on the scene, and in righteous indignation (as it appears to him), de-

ests, feels a much-abused man, and protests vigorously and rightly against

the accusations leveled at him.

The sentimentalist is long on feelings and short on judgment. A little re-flection would show him that the root of the matter, and all the miseries individual capitalist, but in the system of capitalist production which makes

ten held responsible for the fact that large numbers of pen are unemployed. This is in itself-exactly as foolish as the

this he is as a rule perfectly sincere, for does not every man that works for him yield a profit, and what does a capitalist live for, or on, if not profit, the surplus value which his ownership of the means of production en ables him to extract from the worker?

But the condition of capitalist class supremacy demands an ever increasing number of unemployed. The desire of the individual capitalist is to extract profit from them all if possible, that is "give them work," so that he can get more surplus value for himself. He cannot do it, but "he means well."

"Two souls; alas, do dwell within his breast; ...
The one is ever parting from the other."

The worker must not be misled either by the "good intentions" of the individual capitilist, or the silly denunciation of that personage by the emotional sentimentalist. He must understand that the inherent antagonism between the material interests of the capitalist class and the class to which he belongs is the determining factor in the evolution of society, and that in this conflict "sentiment," "good intentions" and "kind feelings" are of no effect whatvidual capitalist, or the silly denuncia-controls the public powers is the only class which can and will protect its own interests, he must unite with his fellow workers to gain control of these powers producing class' alone, or in other words, strive for the establishment of

A DAMNING COMPARISON.

Effect of the Class Struggle Upon the Physical Structure of Public School Children.

The Chicago Record of May 30 contains an interview with Dr. Macdonald of Washington, on the subject of Child Study. It seems that Dr. Macdonald has examined 20,000 public school children in the city of Washington, in order to discover their sensitiveness to pain and heat, and color and light, and sound their guickness of hearing, their accuracy of touch and understandingtheir strength of body and mind gen-erally. Some of the results of this inquiry are uncertain, but others are clearly determined.

"For example," Dr. Macdonald says "It has been clearly demonstrated that the children of the laboring classesthat is, of parents who are engaged in manual labor-are not so strong, either mentally or physically, as the children of the professional, mercantile and clerical classes which are not engaged in manual labor. This may be due in a measure to their food, their habits and their manner of living."

You know that we are fond of talking of our "democratic public school," but it seems that even here the children of the working classes are marked off from the children of the "privileged" classes, not merely in the quality of their clothing and the manner of their speech, but in the very height and strength of their bodies, and the clearness of their mental powers. This is a part of the punishment dealt out to their fathers and mothers for doing the manual work of the world.

One used to hear some pleasant of toil." This was in the days Fourth of July orators talked of the "dignity of labor." And the aforesaid "sons of toll" were went to console themselves with the idea that if they had less time for study and for fun than the sons of other occupations they at least were stronger physically ly and live more years than the rest. But now it appears that these same sturdy tollers are weak-backed and hollow-chested and shorter of body and of life than even those very people of be its own sufficient punishment. And their little sons and daughters enter the when five or six years old.

A few years ago a board school in one of the East End London districts became somewhat distinguished for the stupidity of its children and the difficulty they found in passing the tests Finally comeone suggested that a sin gle meal of soup and bread be furnished the childre, each day at the public expense. After much and serious discus-sion, the consent of the authorities was obtained. Within a few days, the inby magic. The school was no longer noted for its duliness.

When a similar remedy is suggested in America one is met by the horrified exciamation that that would be cialistic." But a much more sweepin and girls in American schools and with consequences more far reaching. May some of them shall be quite consumed by the bad air of their father's homes ns put upon them out of school, er air brains wholly stunted by the lack of sufficient food furnished to their father's households by capitalist max-

Opportune Arrival of the Famous Starving Laborer Seeks to Make a Chinese "Boxers."

Some Marvellous "Coincidences" Which Supply Excuses for Further Capitalist Exploitation.

The press has recently been filled with accounts of the atrocities being committed by a certain Chinese secret society known to English readers as the "Boxers." It is claimed that they are engaging in the persecution and murder of American and European residents in China, and there has been much talk of the necessity of sending a military force to China to right these alleged abuses.

Now it might not occur to the casual reader that the happening of these "outrages" is one of these fortunate a great number in international poli-tics within the last few years. To begin with, just at the time when the American frontier was gone and there were more "home markets" for capthat public attention was called to the sufferings of Cuba. To be sure Cuba had been enduring equal suffering for years but no one ever thought of them before. Then how lucky it was that Dewey with his fleet just "happened" to be stationed at the only port in the whole world when the Maine "happened" to be blown up, from which he could not escape without taking Man-

Then how lucky it was that someo "happened" to think of those Turkish claims just at the time when it was very necessary for someone to divert Russia's attention from India until England was free from her little trouble

Now what a streak of luck it is that just as soon as England is relieved from her anxiety about her plundering exhibition in the Transvaal and America has about finished "pacifying" the Filipinos, so that both are in need of more worlds to conquer, that these Boxers should "happen" to give an excuse for going after China.

Is there anyone so blind as not to begin to see what the socialists pointed out over three years ago-that the struggle for markets has now entered the international field, with the governments of capitalist nations as the instruments of battle? At the time of the Maine explosion the great German socialist, Liebknecht, wrote an editorial for the Berlin "Vorwaerts" showing how the struggle for markets between nations, like the similar struggle between firms had narrowed down to a few glants who were now engaged in the final cannibalistic contest. He even went further and showed that the march of capitalism had placed Amer-

ica. England, and Japan in a class by themselves where they must combine into a sort of international trust that

climax. The workers with the wonder. ful reproductive powers of the present for beyond what their meager wages enable them to buy back. Their masters, surfeited with their plunder ransacked the world for purchasers of their stolen goods. They have overrun Africa, exhausted Australia, and the islands of the sea, and now like vultures hover above the already decaying corpse of China. Capitalism must grow or die. It cannot stand still. So it armies and navies and sends them forth to find markets for the goods taken from the toiling workers at

Had the Boxers not furnished the excuse for entering China something else would have done so. China is in the way of capitalism and must be world decide to keep their own products, this war of conquest. like the tions, must go on until concentration supplants it or until the workers re-

participate in the sport of shooting strikers. That part of the equipment

Rockefeller says that all he has is imply "held in trust," but still the litle business man is not satisfied.

The "dangerous classes" are out giving a just equivalent in return.

The hold up man is merely an ur

"Voluntary Contract."

APPEAR JUST WHEN NEEDED. CAPITALISM AS A VAMPIRE.

"Free Man" Tries to Sell His "Commodity" on the Market to Procure the "Necessaries of Life."

"The vampire will not less its hold on him 'so long as there is a muscle, a nerve, a drop of blood to be exploited. For 'protection' against the 'serpent of their agonies' the laborers must put their heads together, and, as a class, compel the passing of a law, an allpowerful social barrier that shall prevent the very workers from selling, by voluntary contract with capital, themselves and their families into slavery and death."-Karl Marx.

The above ghastly word-picture must not be mistaken for a description of the practices of that ancient society in which men literally consumed the flesh of their fellow creatures as a staple article of diet. On the contrary it refers to the conditions of the British proletariat in the manufacturing districts of that country, little more than fifty years ago, before the well-known "Factory Acts" were passed, and the language that Marx-uses is figuratively descriptive of the modern-cannibalism then prevalent, which consisted in tearing away the life-force of the victim in extracting from his physical frame all the vitality, the labor-power contained therein, in the shortest possible time, and at the highest possible rate of speed, and leaving the wornout carss to drag out a few miserable years in that refuge provided by law for industrial wrecks, known as the work-

Since that period laws enough have een passed, but none could be truthfully described as an "sil-powerful terrier" to prevent the repetition of these hideous scenes, although it may be admitted that some progress been made in that direction. And it must be added that the passing of such laws was "perhaps not so much the resuit of the laborers" putting their heads together," as it was that of the action of their masters, who recognized that the human raw material that they used up in profit-making, could not be produced at the same ratio with which it was being consumed, and that a very positive danger existed that threatened to cut off the supply.

But the vampire has not lost its hold. Even at the end of the nineteenth century it is yet possible to find men driven desperate by the same fiendish conditions, who stand ready to make a literal truth what Marx used as a figure of speech. Men who have still a "drop of blood to be exploited" and who offer the same by "voluntary contract" in order to provide the "necessaries of

The following item from New York, which appeared in the Chicago Inter Ocean of June 3rd, will illustrate:

New York, June 2.—Superintendent W. B. O'Rourke of Bellevue hospital received a letter yesterday which he voted the queerest of many queer communications he had received. It was from a young married man in need of money with which to provide some of the necessaries of life, who wanted "to ascertain whether gou have in your paying wards some anaemic, aged, or feeble person in condition that he or she would pay from \$15 to \$20 for a suitable amount of fresh blood by

she would pay from \$15 to \$29 for a suitable amount of fresh blood by which they could be invigorated.

He was sure his blood was in good condition. Superintendent O'Rourke-told the applicant that he did not deal in blood, as they generally had a sufficient supply on hand at Bellevue.

The man was named Reynolds, and to a reporter who saw the man tonight it did not seem that he had exaggerated his financial condition. He had pawned nearly everything. Reynolds. it did not seem that he had exaggerated his financial condition. He had pawned nearly everything. Reynolds said that he was 23 years old and had been dwer half the world. He served for two years in the British army, and later enlisted in the Seventh United States cavalry. He was highred in the service and retired a a pension. When the war with Spain broke out he enlisted in the Third United States cavalry and served in Cuba, where he was an orderly on General Shafter's staff. He was wounded at Santiago and was honorably discharged. Since then he has had a hard time to make a living, but expects to go to work en the rapid transit tunnel next Tuesday.

The owner of the commodity seeks a purchaser—and fails. Like all would-be sellers he is careful to advertise the good qualities of his commedity in the exchange value, and he therefore as-aures those whom he thinks most likely to purchase, that what he has for sale is in "good condition." He wishes to form in order to secure other commodi-ties—the necessaries of life. He wishes Mark might put it. But the process can not be completed for lack of a pur-

He is told that an overproduction of

cannot make a salt-and therefore the "necessaries of life," which he desires, canho be purchased. But one glorious privilege is still left him, the inestimable, inalienable right of "freedom of contract," Therefore all that is necessary is that he find a purchaser. He can stand face to face as a free man in the open market, over against the owner of money, and our glorious civdization doesn't restrict him in putting his own price on the commodity he holds for sale. When the sale is completed he can go his way rejoicing that is provided he has enough

strength left to do so. It seems though, that previously he had sold his strength, his body, his lood, for a term of years to the capitalist communities that use such as he for the further extension of their system, for the opening of new markets. His commodity, that is, himself, was scriously damaged during the process of this transaction and he now finds that what is left is unsalable.

Wherein does this man's case differ from that of millions of others who have only one commodity to sell? In no particular essential. The sellers of labor power, in reality sell themselves their bodies, their blood, their vital energy, to the owners of money-of the means of production. And like him they do so in order to procure the necessaries of life, and like him again they often fall to find a purchaser, be cause of "over-production," because the market is glutted with, human commodities of the same type, all ready to sell themselves by "voluntary contract," in order to procure the "necessaries of life."

All of which considerations go to show that the vampire hasn't yet lost its hold to any great extent; that there are yet millions who by "voluntary contract" sell themselves into slayery and death, and consider themselves fortunate that they can find a purchaser; that cannibalism yet exists, also "freedom of contract." and above all that it seems highly necessary that gether" unless these conditions are to exist permanently.

WANTED TO SELL---BRAINS.

Institutions of Learning to Turn Out an Army of Educated Laborers on the Market.

Within the next few weeks there will go out from the schools and colleges of this country a great army of intelligent young men and women. willing and anxious to do their share of the world's work. They stand ready to apply the powers of brain and hand that they possess to the creation of wealth. But unless they are so fortunate as to be in some way connected with a portion of the capitalistic class they can find no opportunity to exercise their powers. They will find that all the things which they need in order to produce wealth or to make themselves useful to society or to even se cure an existence, are the property of a class to whom they must sell themselves if they would live. More than that, they will find that the opportunities for such self-enslavement are year. ly growing fewer and the conditions of slavery more onerous. There was a time when the possession of a college position, but every year the number of those possessing such an eduction grows greater while the number of places to be filled grows smaller. With the contraction of industry but few ucated workers are needed. Then the tion and the reward for skilled labor to reduced. In Germany this has gone on ical labratories of the world are willin to work in the great factories for \$1.25 same point. What do you propose to do about it?

Down in the Dirt.

Again the Chicago Federation of La for prostituted itself by indorsing the candidate of the very party that today is pounding them back into renewed slavery. Crawling in the slimof capitalist politics and licking the hand that strikes them they indorsed a candidate in the Eleventh assembly district for the legislature. The mer who voted to do this are as much be low the level of the ordinary scab would betray his union in time of strike as the whole working class is of more mportance than a single trade. there is any trace of manhood left in Chicago they will drive every man who dared to vote for such an indorsement

There are a billion and a half of peo ple in this world that must be fed, clad, housed, entertained and adnesses in some way, and why got do these things in as good a way as can be thought of? That is what socialism

THAT BRITISH ALLIANCE.

For some time past, controversies re garding an alleged British alliance have raged in political circles throughout this country, from the houses of senate and congress down to the political ward clubs of the large cities. In the press reports of these discussions, especially se which take place in the great legislative bodies, it is interesting to observe w'th what care the disputants on both sides avoid any mention of the real basis upon which this allegation rests, viz., the fact that the interests of the ruling classes of both countries seem to coincide at present in relation to the foreign policy pursued by both. Capitalist production in this country having now reached the point at which Great Britain has stood for many years. a similar expansionist and imperialistic policy becomes necessary in order to find markets for the ever increasing amount of commodities which that system generates. Although the question of the "alliance" has been brought forward in the senate and debated apparently with great vigor on both sides. one party alleging its existence while the other denied it, this phase of the subject has been studiously concealed, although it is almost impossible to believe that those who spoke on both sides were not thoroughly acquainted with it. The debates generally resolved themselves upon one side into a charge, that were the secret archives of the government inspected, an official document, perfectly legal and regular, embodying the terms of the alleged alliance would be discovered. The other side have contented themselves with a denial of this charge, and so the matter rests. No better proof could be required of the fact that such discussions are in reality nothing more than sham battles conducted with an eve to vote getting upon the part of those who make the charge. The idea that concerted action cannot be taken by both governments upon questions of foreign policy, unless its terms appear on an official document signed and sealed by the contracting parties is a conception which politicians on both sides are equally desirous of preserving, underis advanced or denied would uncover the fact which it is to the interest of capitalism to hide as much as possible, the fact that classes exist, and that the interests of the ruling class are allpowerful in shaping and determining all matters of national import, whether foreign or domestic. It is a striking tes onial to the shrewdness of our economic rulers, the confidence with which they make an "isrue" of this matter and the contempt in which they evidently hold the political insight of the vast majority of the population in bringing to their notice a question which so plainly exhibits the fact of class rule. But they well know that their safety depends upon the lack of intelligence upon the part of those whose votes are necessary to their continued power, and upon this stupidity the capitalist class rest their case.

A "MORAL" DIVISION.

The harmony which the robber class insist should exist between "labor and capital" has been rudely shattered in St. Louis by the existing street car strike. Day after day, reports of the willing and wounding of human beings with destruction of property, appear in the columns of the daily press, In no part of the United States today does the expression of the class struckie stand out more distinctly than in St. Louis, and our truthful capitalist organs, recognizing this fact, are bending every resource of literary ambiguity and equivocation which a long preference.

training in necessary falsehood and hypocrisy has placed at their diarosal, to create a contrary impression in the minds of their feaders. Nevertheless it is impossible to conceal the truth and even in the columns of the same paper statements regarding the strike give the He to each other.

The most ingenious attempt to cover up the fact that a partially physical struggle between the classes is now raging in the Missouri city may be found in an editorial of the Chicago Tribuse of June 1st, in which after a copious discharge of crocodile fears "deploring" the situation, we are told that "the worst feature of it all is the division of the town, morally, into two hostile camps."

"Morally" is a good word. It sugests to the reader, upon one-hand, the capitalists as standing up for "law and order," which of course includes all the current "morality" of the age. On the other hand, the disturbers of this sanctified "law and order," in themselves the expression of all that is immoral and victous,

No other construction can be placed upon this. If the troubles in St.Louis are at bottom a question of 'morality' there is not a shadow of a doubt as to which side the Tribune throws its weight. The "morality" of the present, which is shaped and formed to facilitate the robbery of the workers by the capitalist class, has no more outspoken champion than the Tribune. If further proof were wanted, the news columns of the same paper contain the information that "the best element" in the city is being armed with shotguns for the suppression of the strikers, and that many of the most "prominent citizens" have already been enrolled for that purpose-the preservation of capitalist "morality."

It is not difficult to see the reason why this position is taken. It is in the highest degree necessary that the capitalist press conceal the fact that the hostile camps are divided upon an conomic instead of a moral basis that this is a struggle between the haves and the have nots, between the robber and his victim, between the possessors of the means of production and their exploited wage slaves. Just so long as the ruling classes are able to disguise the class struggle under a cloak of "morality," so long will they feel their position secure. Yet in the end this deception will become exhausted, and as the conflict progresses the working classes will see in ever increasing numbers that the true causes of the division of society into two hostile camps, is an economic one, and that the "morality" involved is merely a fiction pressed into the service of those who uphold the institution of private property in the means of production. When this stage of intelligence has been reached by a majority of th producing class, our "moral" rulers will be speedily relieved from the necessity of making falsehood and hypocrisy the basis of the profession of present-day journalism.

Remember that you get The Workers Call and the International Socialist Review, both one year, for one dollar.

Special Notice.

It is safe to say that an equal-amount of good propaganda material for work among the offered for the same money. They will be sent for one cent each for any number less than 25, for 100 to 500 at 70 cents a hundred, and in lots of over 500 60 probably resolve itself into the incents a hundred.

> The operation of taking the census cromises to set the "reformer" in moon again. Already the enumerators imployed in the business are reporting the discovery of appalling misery and horrible conditions of life in many of the districts where their occupation leads them. All these things will be printed and published as something hitherto unknown, and as such will serve the double burpose of furnishing the capitalist press with "news" and supply an incentive to the everlasting bourgeois reformer to search for to a close, patches and plasters to cover up the sore spots.

Our comrades in Belgium have again proved that the majority of the population of that country are in the ranks of the socialists. Nofhing now stands etween them and the public powers. except the plural system of voting, and look for a vigorous attack on that infamy in the near future.

Perhaps the Boer envoys are new able to understand why Chicago is called the "windy" city.

The social "New Jerusalem" cannot e reached by means of a "moral cru-

If those Chinese "Boxers" insist on having a contest with the scrappers of capitalism, they will most likely lose the decision on points-bayonet points by

SNAP SHOTS BY THE WAYSIDE.

National Tube company has losed all its agencies except four thereby discharging 800 employes and effecting a saving of over \$1,000,000 annally. This saving will be reflected in larger divisions to the stockholders. which in due time will be quoted by the capitalist press as a further evidence of prosperity. When the 800 discharged employes read this they may get on to the fact that their loss of employment helps make "prosperity" and it may be that they will begin to doubt that oft repeated tale that the interests of capitalist and laborer are identical.

Loss of employment is in general i stimulant of thought and as those discharged by the Tube company mostly office help, a class of workers who usually do not accept the fact that all wage earners have a common interest as against capitalism, they possibly may aquire this knowledge through the medium of an empty stomach and a ragged back. The National Tube company has in reality placed 800 recruits in training for the ranks of the socialist army.

The building trades' lockout is the subject of much deliberate falsification in the columns of the capitalist press. and it is necessary to counteract these mischievous lies by putting the situation concisely before those workers who yet largely draw their information from the organs of the enemies of their class. The Building Trades council has nevel made contracts, in spite of the implications brought against it in the daily papers: its purpose being simply to en-force the contracts made by the contractors with each separate craft affiliated with the Building Trades coun cīl.

While it is not claimed that all the ections of the Building Trades council have been absolutely faultless, it is certain that every strike ordered by that body was caused by the fact that the contractors in some crafts have persistently tried to violate the agreements made by them, and where in exceptional cases the Building Trades council have ordered strikes for other reasons, it will be found that such actions were suggested by some contracing interests in conflict with others.

At present the contractors demand that their contracts be made, with the unions themselves. On the face of this it seems reasonable enough, and the truth is that it has never been otherwise, in spite of the fact that the contractors wish to create the impression by implication that such is not the What they really want is to avoid the sympathetic strike, that is, the right of the workers to mutually protect each other. How long could any union maintain its wage scale if the power implied in the sympathetic strike vere wanting? One job for instance with union bricklayers and scab paint ers employed or vice versa. The Building Trades council is an absolute necessity for the workers in those trades. If it is given up, they have no resource but to accept whatever wages the contractors may see fit to offer.

Union men, stand firm! The contractors have already pledged themselves that they will give scabs the preference when the lockout is over. Stand together and make it impossible for them to carry out this threat Stand ogether at the ballot box and get rid of scabs, contractors, and the whole infamous system that makes them pos-

The closing of the steel mills in South Chicago and other places, throwing thousands of workmen out of employment, will be made the most of by the Bryanite crowd of small labor skinners and politicians, who are up against it.

The owners of the combined iron and teel industries have been boasting that they have immense orders on hand. the officials of the companies state that the present shut down is merely in order to make "repairs," which will most stallation of new and improved machinery, judging from the commercia reports which state that the metal in dustries must meet a declining market in the future.

Besides this the political exigencies of the situation demand that ther shall be work for the workers at the latter end of the campaign, so that the latter may be relied upon to support the interests of great capitalism. It is evidently safer to close down in June and July than in September or October. with the presidential campaign drawing

The starving people of India who are being done to death in hundreds of thousands by a so-called "famine, which is an artificial creation of capitalism, will be overjoyed to hear that here is at last an abundance of food in Mafeking, that the enemies of their masters in South Africa are on the verge of collapse, and that the treasof the Rand are now accessible to the capitalist vultures, whose hung, ry eyes have been fastened upon then for years. Such glorious news as this should awaken an outburst of "loyalty" mong them, more than sufficient to allay the pangs of hunger, pestiler and other trifles of like nature by which they are temporarily inconvenienced at present.

That notorious scoundrel. Gallifet, "the murderer of May" is out of the French cabinet at last. Judging from

capitalist journals, since he recently ame into prominence as minister of war, it would seem that he fills the role of professional butcher to a nicety. Like his infamous prototype of the last century, Barrere, he seems to be on of those miserable crectures ever ready to exerc'se his particular specialty, th art of murder, for whatsoever party might be temporarily in power. It is a good thing that he is out, if only that it clears some who call themselves so cialists, of the reproach of having apparently worked in harmony with an infamous scoundrel. Socialism has no use for the professional murderer of which Gallifet was a most promi nent type.

Johannesburg is taken and the miner are intact. Capitalism breathes more freely and the 'civilized spared the "thrill of horror" which was being prepared for launching from the offices of the capitalist journals upon silly world, who stood ready to "thrill' when so ordered. Kruger hasn't "staggered humanity" by touching the pock ets of the capitalists, where that com modity, along with "patriotism" and several other virtues are stored. The latter understand well enough that the Boers in failing to carry out this threat acted the part of first-class idiots, but they are too shrewd to express that opinion. A man like Rhodes, in similar circumstances would not have hes! tated one moment, but then Rhodes knows the exact value of the "thrill o horror," the worthlessness of "sympathy" and the neveral other fetishes under which capitalism sways "public opinion. The Boers have certainly ot to learn yet, but they will be taught in the future by fully qualified teach

In connection with the above it i interesting to observe the action of the capitalist press of Germany in urging Kruger to stay his hand on the plea that there were many "small investors" interested in the Rand mines. Well, now that they are safe, Rhodes, Wern her, Beit, and the big sharks, may be safely relied upon to attend to the case of the aforesaid "small investors." They always do.

"THRIFT" AS AN IDEAL.

A "Virtue" Cultivated for the Purp of Still Further Exploiting Those Who Accept It.

America has ever been held up a the land of opportunity. "Every man has a chance to be president," was almost the national watchword. "Th land of the poor man," "the place to rise," these were a few of the terms used to describe this country. The self-made man." worshipping maker and proud of his own handiwork was the one peculiar American product. Where other peoples had a folk lore made up of the doings of marvelous herces, gods, fairies and demons of an earlier age, American parents told their children tales of this or that soap or porcine king of finance wh had "made his own way" through great difficulties up to the present exalted station. All this was done, this miracle accomplished, this giddy height at tained, this semi-divine position secured through the practice of industry,

frugality and self-dental. So Poor Richard became the inspired apostle of this new religion and Rockefeller the "one altogether lovely" and greatly to be imitated. Whenever were such ideals sought by such methods: When before did a nation seek to become hogs by following the philosophy of asses? In a nation filled with a natural wealth such as no other coun try had ever known, with almost exhaustless forests and boundless fertile fields, with untold mineral wealth be neath the ground and a bounteons sky over all, with the skill of centuries of inventive hands and brains ready to ealth into forms useful to man, why should economy and toll become the national gospel?

Were the forests of Maine, the mines of California, the prairies of Illinois, or the factories of Connecticut so niggard in their returns that the worker could not create enough to feed, and clothe and house himself without misery economy? A moment's reflection will convince anyone that so far from this being true, each worker created much nore wealth than he would need to consume even to live in comparative Why then are millions comuxury. pelled to live a life alternating between neagre comforts with closest economy and abject poverty? That is a conundrum worth solving. So much for the diocy of the means by which we intelligent Americans sought to achieve our swinish paradise.

How about the few that did attain the promised reward? Were they the brightest minds, the keenest intellects the greatest thinkers? To ask the ques tion is to answer it. The pork, soap and oil aristocracy of America are ad mittedly the most contemptible mas ters that ever ruled above a race of servile mammon-worshipping idiots The ruling clauses of other lands and s; at least were able to counterfeit the forms of intelligence, and to understand literature and appreciate beauty. But it remained for the people of America to bow their heads beneath th yoke of a ruling class whose only claim to supremacy was that they were more nearly like swine in their capacity to truggle at the common trough than the remainder of the population

So much for the usclessness of the hilosophy and the lowness of the ideal. But if the end was despicable and the neans vile, what shall we say of the intelligence of those who accepted those means, if it can be shown that they were not even adapted to the end

tight? What would be thought of our ntellectual capacity if it could be shown that we who preached the gospel of my were the most wasteful people n the world, that while we preached conemy to one class where it was vorthless to help either individual or ociety, we praised produgality in anher class where its results were soially and individually a curse?

The laborers are told to practice conomy that they may "rise above" the class of laborers and become a capitalist. But a capitalist is one who has he power to make others work for him and manifestly if all became capitalists be compelled to work and the capitalist must then face the awful alternative of eating up his own capital and compelled to do some useful work while ecome a slave-driver, it is manifest that ALL could not rise by such means. Since the object of saving was to rise to the master class one would think that the rulers would discourage such gaged in useful productions saving lest they might be themselves displaced.

eturn of the slave is measured by the saving would be a social curse, and standard of life," which his class finds holding out as a reward for such savnecessary to maintain in order to exist and keep up their numbers. If some means could be found by which he would be encouraged to constantly endeavor to lower that standard, to learn to live on less and less, it will be possible for the capitalist to prodigality and wastefulness in our take a continually larger share of his fundamental social arrangements product away from him without endangering the continuance of the race enjoyment of the social whole curof slaves. But what of the effect of tailed. this economy on the producer? Let the Indian ryot, the Japanese peasant, the day living under a class governed so-Russian sweater, the Irish renter or the Chinese coolie answer. These have had centuries of training in industry frugality, self-denial, and economy, and as the best results of the practice of these virtues they should be able to stricted by the competitive process to give some interesting answers out of the wealth of their experience

come capitalists," cries some devotee at the shrine of commercialism. Certainly, and some negro chattel slaves few. This condition they naturally derose to be overseers (and generally were most brutal of all slave drivers), but how does that interest the infinitely larger number who are doomed to eternal slavery? Moreover every year that passes sees the number of opportunities for such "rising" reduced. More and more as the unit of industry grows larger and natural opportunities are monopolized, the class of laborers and the class of capitalists tend to become fixed castes with unchanging member ship save through hereditary descent or cannibalistic consumption of the weaker by the stronger capitalists, "reducing" the former to the ranks of the ealth-producers.

So then this much-vaunted saving and thrift among the laborers can have as its only certain effect the gradual reduction of the whole class to the evel of those famous savers enumer ated above. The only one who profits by stamp saving systems in our public schools are the employers of labor who will in time be thus enabled to get a larger share of what their laborers produce. Is it any wonder that this is a favorite "philanthrophy" with our capitalist class? Indeed thrift and econo my viewed from the point of view of the laboring class as a whole are posttively pernicious, and on the other hand are only possible for the few because the many refuse to practice them. If a large number of the laborers did not insist upon their daily pint of beer and refuse to work unless their wages were high enough to provide it, the wages of all would be reduced to the point where the few would have nothing with which to buy "stamps" in the savings bank.

But if we have been so anxious to instil thrift among the laborers, where it is individually useless and socially injurious surely we have insisted upon these "virtues" among the ruling capitalist class whose duty and task it is to spend the wealth the workers have created. Reference is not made here to Bradley-Martin balls, Seeley dinners or such like barbarous displays of wealth, which simply go to show the near kinship of our present ruling class to the Fiji Islander with brass candle sticks fastened to his ears and pieces of proken glass around his neck. The laborers of America, if they chose to b so foolish, are easily able, with the improved machines with which they now work, to produce enough wealth to en able their masters to riot in more than barbaric extravagance.

But there are places in our social organization where economy might be well practiced. There are certain lines of reckless waste which might well be stopped. We have squandered with riminal lavishness the wealth of the orests to the curse of future generations. We have turned our coal mine over to a mad contest of destruction our children. The marvelous treasure of fuel gas and illuminating oils have een exploited for private greed re gardless of their destruction and the needs of those who must come after us Even these wastes are trifling b

of others that we daily practice in this nd where we preach economy. it is necessary to transport goods from one point of the country to another w oulid three railroads where one to the work, and then establish a hundred stores in each town to distribute hese goods where one would do the task better. We force countless thouunder conditions where a multitude of lives with all their possibilities are

create sanitary conditions around the homes of the workers tout "wastes" the lives of one-half the children in a terrible slaughter of the innocentssweeping one-half of these proletarian infants from the earth before they have reached four years of age.

While we ask these poor starving wretches to save a trifle more from their pittance, in order that the employer may ascertain whether another wage reduction is possible without avolishing the class of wage slaves, we send a hundred thousand drummers out to waste their energies in trying to deceive prospective buyers. While we there would be no one left who could are terribly frightened lest some poor laborer may spend a few cents in per-sonal enjoyment instead of saving it for his old age and thus relieving the thus becoming again "degraded" to the tax paying class of the burden of old position of a laborer, or worse still, be age pensions, we never lose any sleep over the fact that we as a nation are yet a capitalist. The only object of wasting the energy of thousands, of economy being to enable the slave to workers in maintaining an army of several hundred thousand lawyers, policemen, soldlers, and other parasites (not to mention the whole capitalist class), who might far better be en-

Let us sum the whole matter up. We are urging economy on those who have But hold on, under wage slavery the nothing to save and in whom further ing that they may leave the class of producers and join that of parasitic spenders, a prospect as undesirable an it is impossible. But while we are urging thrift and economy have where it would be a curse, we are encouraging whereby posterity is robbed and the

All this is done because we are tociety, in a social organization whose whole end and alm is the preservation of private property in the opportunitics of life. This private property in the things whereby men live is rea constantly diminishing few, who standing thus between the great body "But some laborers have really be of people and the means of creating wealth are able to force the unporsess. ing masses to toll for these owning sire to perpetuate. Hence they teach to the laborers the sacredness of the right of private property at the same time that they are robbing those same laborers daily of the only legitimate private property, the property in the creation of one's hands and brain. In the same way they teach the beauties of thrift to their slaves while they waste with lavish hand whatsoever comes within their control.

CORRESPONDENCE.

Call for State Convention.

To the Sections and Branches of the Socialist Labor Party and the Social Democratic Party in New York State:—

Comrades:—The outlook for socialism was never so bright as today. The spirit of revolt is permeating the working class, and thoughout the country the workers are rising in protest against the infamies of capitalism. The recent brutal and high-handed injunctions of plutocratic judges have drawn the lines closely in the class struggle that is being waged in America. Republicans and Democrats have alike shown themselves to be the foes of the workingmen. Our only hope for free-Comrades:-The outlook for socialism

shown themselves to be the foes of the workingmen. Our only hope for freedom and justice lies in independent political action on the basis of uncompromising Socialism.

The State Convention of the Socialist Labor party and Social Democratic party will be held in New York City for the purpose of uniting the two parties and of nominating presidential electors and a full state ticket. It will open its sessions at 10 o'clock, Saturday, June 18th, 1990, at the Labor Lyceum, 64 E. 4th street.

th street.

Every branch of the Socialist Labor party or Social Democratic party is entitled to one delegate. We urge upon you the necessity of at once electing delegates to the Convention. All branches, districts and sections should immediately notify the secretary of immediately notify the secretary of their intention to send delegates.

Delegates must be provided with the proper credentials from each branch.

Hurrah for International Socialism: Yours fraternally.

JOINT STATE COMMITTEE.

S. L. P. and S. D. P.

P. Committee: Louis Rath. F. Schlueter, Schlueter, Jablinowsky, E. Neppel, M. Feldberg.

P: Committee: Phillips, Wm. Butscher, M. V. Wien, Egerton,

G. Finger, T. F. Meade, J. Panken Wm. Sanger, L. D. Abbott,

Leonard D. Abbott, ec. Joint Committee, 336 W. 71st St., N. Y.

.The Vote On Unity.

In accordance with the action of the Joint Committee on Union, Secretary Butscher of the S. D. P. committee has sent out a call and voting blanks to the secretaries of the S. D. P. branches throughout the country to vote upon the eighteen propositions to unite the parties. If any S. D. P. secretary has not received this call and blanks he should send at once to Wm. Butscher. 251 Rutledge street, Brooklyn, for them All votes must be in by June 28th.

To the Comrades of the S. D. P .:-Voting blanks or unity propositions have been sent out by me to all secretaries and branches I could reach.

Not having a complete list of secretaries and addresses (as the same was refused me by Theo. Debs., national secretary). I take this means of reaching as many of the comrades as possible.

All branches not having received a

quota will please notify me at once when I shall forward a supply by re-

turn mail. Yours for socialist unity. Wm. Butscher Sec'y. S. D. P. Unity Comm 251 Rutledge St., Brooklys, N. Y

....AN APPEAL TO THE YOUNG..

BY PETER KROPOTKIN.

dress myself today. Let the old-I mean, of course, the old in heart and mind-lay the pamphlet down therefore, without tiring their eyes in reading what will tell them nothing.

I assume that you are about eightee or twenty years of age; that you have finished your apprenticeship or your studies; that you are just entering or Mfc. I take it for granted that you are not one of the tops, sad products of a it is unjust; this must not go on so any society in decay, who display their well-longer. It is not enough to cure dissociety in decay, who display their wellcut trousers and their monkey faces in age have only an insatiable longing for pleasure at any price. . . I assume,

when a man is young he understands of society, mark-he has not done this for his own gain, and he must be de- natural philosopher, you will end by day he would apply his intelligence, his abilities, his knowledge, to help on the enfranchisement of those who today grovel in misery and in ignorance.

You are one of those who have had such a vision, are you not? Very well, let us see what you must do to make your dream a reality.

I do not know in what rank you were born. Perhaps, favored by fortune, you have turned your attention to the study of science you are to be a doctor, lawyer, a man of letters, or a scientific man; a wide field opens before you; you enter upon life with extensive knowledge, a trained intelligence. Or, on the other hand, you are, perhaps, only an honest artisan, whose knowledge of science is limited by the little you have learned at school; but you have had the advantage of learning first hand what a life of exhausting toil is the lot of the worker of our time.

I stop at the first supposition, to return afterward to the second; I assume, then, that you have received a scientific education. Let us suppose you intend to be a doctor.

Tomorrow, a man in corduroys will come to take you to see a sick woman. He will lead you into one of those al- investigations. leys where the opposite neighbors can almost shake hands over the heads of has not hugged it for a moment when know what altruism means. Perhaps atmosphere by the flickering light of a science? little ill-trimmed lamp; you climb two; and in a dark, cold room you find the of mankind in your studies, a formidasick woman, lying on a pallet covered shivering under their scanty garments, gaze at you with their big eyes wide life twelve or thirteen hours a day at no matter what; now he has been out of work for three months. To be out of to the bulk of mankind. employ is not rare in his trade; it happens every year, periodically. formerly, when he was out of work his wife went out as a charwoman-perhaps to wash your shirts-at the rate of fifteen pence a day; now she has been hedridden for two months, and misery giares upon the family in all its squalid

What will you prescribe for the sick woman, doctor? you have seen at a puppets for religious impostors. glance that the cause of her illness is without waiting for your advid.

tell you many things. They will tell ter in our books? which tears your heart, is a poor ironer; persons; that a flight of stairs lower down, all the children have the fever; that the washerwoman who occupies the ground floor will not live to see the spring; and that in the house next door things

What, will you say to these sick peo ple? Recommend them generous diet. change of air, less exhausting toll? You only wish you could, but you dare not, and you go out heartbroken with a curse on your lips.

The next day, as you still brood over the fate of the dwellers in this doghutch, your partner tells you that yesferday a footman came to take him, this time in a carriage. It was for the out with sleepless nights, who devotes all her life to dressing, visits, balls and es with a stupid husband. Your friend has prescribed for a less prepos-terous habit of fife, a less heating diet, perament, and in order to make up in

never had enough food nor rest in her as never known what work is since

What work?-I will now tell you: It rests with you either to palier coninually with your conscience, and in the end to say one fine day, "Perish humanity, provided I can have of pleasures and enjoy them to the full, so long as the people are foolish enough man's estate without having heard one to stab all tyrants there and then; he to lep me." Or, once more the inevitahie alternative, to take part with the socialists and work with them for the der to rob him of twenty-five cents? Before the slave when he breaks his complete transformation of society. Such is the trrefragable consequence of the analysis we have gone through That is the logical conclusion, which every intelligent man must perforce arrive at, provided that he reasons honand discards the sophisms which his bourgeois education and the interested views of those about him whisper in his

This conclusion once arrived at, the question, "What is to done?" is natural-

The answer is easy.

Leave this environment in which you re placed and where it is the fashion to say that the people are fothing but a lot of brutes, come among these people -and the answer will come of itself.

You will see that everywhere, in Exgland as well as in France, in Germany as well as in Italy, in Russia as well as in the United States, everywhere there is a privileged and oppressed class, there is a tremendous work going on in the midst of the working class, whose object is to break down forever the slavery enforced by the capitalist feudality and to lay the foundation of a society established on the basis of justice and equality. It is no longer enough for the man of the people today to pour forth his complaints in one of those songs whose melody breaks your heart, such as were sung by the seris of the eleventh century, and are still sung by the Slav peasant; he labors with his fellow tollers for his enfranchisement, with the knowledge of what he is doing and against every obstacle put in his way.

His thoughts are constantly exercised in considering what should be done in order that life, instead of being a curse for three-fourths of mankind, may be a real enjoyment for all. He takes up the hardest problems of sociology and tries to solve them by his good sense, his spirit of observation, his hard experience. In order to come to an understanding with others as miserable as himself, he seeks to form groups, to organize. He forms societies, maintained with difficulty by small contributions; he tries to make terms with is fellows beyond the frontier; and he prepares far better the days when wars between peoples shall be impossible than do the frothy philanthropists who now polter with the fad of universal peace. In order to know what his brothers are doing, to have a closer onnection with them, to elaborate his deas and pass them around, he maintains-but at the price of what privations, what ceaseless efforts!-his work-

What an unending series of efforts! perpetually begun afresh; sometimes to fill up the gaps occasioned by desertion the result of weariness, corruption, prosecutions; sometimes to rally the broken forces decimated by furilades and cold-blooded butcherys at another, broken off by wholesale slaughter.

The newspapers are set on foot by from society scraps of knowledge by depriving themselves of sleep and food; deducted from the amount needed to get the barest necessaries of life; and ceing his family reduced to the most fearful misery, as soon as the master earns that "his workman, his slave, is minted with socialism."

This is what you will see if you go

And in this endless struggle how often has not the toller valuly asked as he stumbled under the weight of his bur-

"Where, then, are these young people who have been taught at our expense? these youths whom we fed and lothed while they studied? Where are those for whom, our backs bent double eneath our burdens and our belifes imply, we have built these here museums? Where are the men or whose benefit we, with our pale worn faces, have printed these fine books, most of which we cannot ever who claim to possess the science manity itself is not worth a rare catver think to champion our fre trampled as it is each day beneath th et? Where are they these writer

Where are they, indeed? Why, som are taking their ease with the most cowardly indifference; others, the majority, despise the "dirty mob," and are ready to pounce upon them if they dare touch one of THEIR privileges.

Now and then, it is true, a young man mong us who dreams of drums and barricades, and seeks sensational scenes; but he deserts the cause of the ple as soon as he perceives that the road to the barricade is long, that the work is heavy, and that the crowns of taurel to be won in this campaign are intermingled with thorns. Generally these are ambitious schemers out of work, who, having failed in their first efforts try in this way to cajole people out of their votes, but who a little later will be the first to denounce them when the people wish to apply the principles which they themselves have professed; erhaps will even be ready to turn artillery and gatling guns upon them if they dare to move before THEY, the heads of the movement, give the signal.

Add mean insult, haughty contempt, cowardly calumny from the great mafority, and you know what the people may expect now-a-days from most of the youth of the upper and middle classes in the way of help toward the social evolution.

But then you ask, "What shall we When there is everything to be When a whole army of young people would find plently to employ the entire vigor of their youthful energy. the full force of their intelligence and their talents, to help people in the vast enterprise they have undertaken!

What shall we do? Listen: You lovers of pure science, if you are imbued with the principles of socialism, if you have understood the real meaning of the revolution which is even now knocking at the door, do you not see that all science has to be recast in order to place it in harmony with the new principles; that it is your business to accomplish in this field a revolution far greater than that which was accom plished in every branch of science during the eighteenth century? Do you not understand that history-which today is an old wife's tale about great kings, great statesmen and great parliaments—that history itself has to be written from the point of view of the people, from the point of view of work done by the masses in the long evolu-tion of mankind? That social economy which today is merely the sanctification of capitalist robbery-has to be worked out afresh in its fundamental principles as well as in its innumerable applications? That anthropology, so ciology, ethics, must be completely recast, and that the very natural sciences themselves, regarded from another point of view, must undergo a profound modification, alike in regard to the conception of natural phenomena and with respect to the method of exposition?

Very well, then. Set to work! Place your abilities at the command of the good cause. Especially help us with your clear logic to combat prejudice and to lay by your synthesis the foun-dations of a better organization; yet more, teach us to apply in our daily arguments the fearlessness of true scientific investigation, and show us as your predecessors did, how men dare sacrifice even life itself for the triumph of the truth.

You, dectors, who have learned so cialism by a bitter experience, never weary of telling us today, tomorrow, in season and out of season, that humanity itself hurries onward to decay if remain in the present conditions of existence and work; that all your medicaments must be powerless against trary to those which science tells us are healthful; convince the people that it is the causes of disease which must be ooted, and show us all what is necessary to remove them.

Come with your scalpel and dissect for us with an unerring hand this so ciety of ours hastening to putrefaction. Tell us what a rational existence should and might be: Insist, as true surgeons, that a gangrenous limb must be amputated when it will poison the whole nody.

You, who have worked at the application of science to industry, come and tell us frankly what has been the outwho dare not march boldly to ward the future what new inventions the knowledge we have already acautred carries in its womb, what indus try could do under better conditions at man might easily produce if he produced always with a view to enance his own production.

You poets, painters, sculpters, musi-cians, if you understand your true mission and the very interests of art itself. one with us. Place your pen, your pencil, your chisel, your ideas, at the ervice of the revolution. Figure forth to us, in your eloquent style, or your sive pictures, the heroic struggies of the people agaist their oppres fire the hearts of our youth with that glorious revolutionary enthusiasm inflamed the souls of our ances tors; tell women what a noble career is that of a husband who devotes his life people how hideous is their actual life, and place your hand on the causes and your examination will go to the of its ugliness; tell us what a rational very depths of this abomination which life would be if it did not encounter at puts millions of human beings at the every step the follies and the ignominies mercy of the brutal greed of a handful

soge, talent, capacity, industry, if you they say our present society can be.

have a spark of sympathy in your na ture, come, you and your companions come and place your services at the disposal of those who most need them. And remember, if you do come, that you come not as masters, but as com not to govern but to gain strength for yourselves in a new life which sweeps upward to the conquest of the future; that you come less to teach than to Then you will understand that your grasp the aspirations of the many: to divine them, to give them shape, and then to work, without rest and without an inferior kind of animal altogether; haste, with all the fire of youth and all that not content with holding you in the judgment of age, to realize them in actual life. Then and then only will wage system, he is further anxious to you lead a complete, a noble, a rational existence. Then you will see that your every effort on this path bears with it fruit in abundance, and this sublim harmony once established between your actions and the dictates of your conscience will give you powers you neve dreamed lay dormant in yourselves. The never-ceasing struggle for truth

justice and equality among the people whose gratitude you will earn-what nobler career can the youth of all nations desire than this?

It has taken me long to show you of the well-to-do classes that, in view of work with them for the complete dethe dilemma which life presents to you you will be forced, if courageous and cial and political. sincere, to come and work side by side with the socialists, and champion in their ranks the cause of the social revois, after all! But when one is speaking to those who have suffered from the effects of bourgeois surroundings, how many sophisms must be combated, how many prejudices overcome, how many interested objections put aside!

It is easy to be brief today in addressing you, the youth of the people. The very pressure of events impels you to become socialists, however little you may have the courage to reason and to fine words, she gave herself up to him

To rise from the ranks of the work ing people, and not devote one's self her arms. Ever courageous, she never to bringing about the triumph of socialism, is to misconceive the real interests at stake, to give up the cause and the true historic mission.

Do you remember the time, when still a mere lad, you went down one winter's day to play in your dark court? The cold nipped your shoulders through your thin clothes, and the mud worked into your wornout shoes. Even then, when you saw chubby children richly clad pass in the distance, looking at you with an air of contempt, you knew right well that these extravagantly dressed imps were not the equals of But, later, when you were forced to shut yourself up in a filthy factory from five to six o'clock in the morning to remain twelve hours standing close to a whirling machine, and, a machine yourself, were forced to follow, day after day for whole years in succession its relentless, throbbing movementsduring all this time the others were go ing quietly to be taught at fine schools at academies, at the universities. And now these same children, less intelligent, but better taught than you, have become your masters, are enjoying al the pleasures of life and all the advantages of civilization. And you's
Nhat sort of lot awalts you?

You return to a little dark, damp lodgings, where five or six human be nigs herd together within a few square feet; where your mother, sick of life aged by care rather than years, offers you dry bread and potatoes as your only food, washed down by blackish fluid called, in frony, teat and to distract your thoughts you have ever the same never-ending question, shall I be able to pay the baker tomor row, and the landlord the day after?

What! must you drag on the same weary existence that your father and mother did for thirty and forty years? Must you toll your life long to procure for others all the pleasures of well-bedisease while the majority of mankind sing, of knowledge, of art, and keep for expropriator? regetate in conditions absolutely con- yourself only the eternal anxiety as to whether you can get a bit of bread? I know right well that your blood has Will you forever give up all that makes boiled when you have heard that your life so beautiful to devote yourself to providing every luxury for a handful of with toll and have in return only trou ble, if not misery, when hard timesthe fearful hard times-come upon you Is this what you long for in life?

> Perhaps you will give up. Seeing no way out of your condition whatever, maybe you say to yourself, "Whole generations have undergone the same lot, and I, who can alter nothing in the work on, then, and endeavor to live as well as we can!

take pains to enighten you.

One day a crisis comes, one of those crises which are no longer mere passing phenomena, as they were a while ago. but a crisis which destroys a whole industry, which plunges thousands of workers into misery, which crushes | derstand what are your rights and you whole families. You struggle like the rest against the calamity. But you will soon see how your wife, you child your friend, little by little, succumb to privations, fade away under your very eyes. For sheer want of food, for lack of care and of medical assistance, they nd their days on the pauper's stretcher, while the life of the rich sweeps by in joyous crowds through the streets of the great city gleaming in the sunlight throughout human society; work with utterly careless and indifferent to the dying cries of those who perish.

THEN you will understand how utterly revolting this society is; you will reflect upon the causes of this crisis, f our present social order.

Lastly, all of you, who possess knowled stand that applaining are right when

that it must be, reorganized from top

To pass from general crizes to your haughtily answer, "Go and eat grass, if you will not work at the price I offer." master not only tries to shear you like a sheep, but that he looks upon you as

story of that charming young girl whose brisk gait, frank manners, and lution. And yet how simple this truth cheerful conversation you so lovingly admired. After having struggled for years and years against misery, she lis. There she knew right well that the struggle for existence must be hard. but she hoped at least to be able to gain her living honestly. Well, now you know what has been her, Courted by the son of some capitalist. she allowed herself to be enticed by his with all the passion of youth, only to see herself abandoned with a baby in ceased to struggle on; but she broke down in this unequal strife against cold and hunger, and she ended her days in one of the hospitals, no one knows

which. . . What will you do? Once more there are two courses open to you. Either you will push aside the whole unpleasant reminisence with some stupid phrase: "She was not the first and will not be the last," you will say: perhaps, me evening, you will be heard in a public room, in company with other beasts like yourself, outraging the young girl's memory by some dirty yourself and your comrades, either in stories: or, on the other hand, your remembrance of the past will touch your heart: you will try to meet the seducer to denounce him to his face: you will reflect upon the causes of these events that recur every day, and you will comprehend that they will never cease so ong as society is divided into two camps; on the one side the wretched and on the other the lazy-the jugglers with fine phrases and bestial lusts. You will understand that it is high time to bridge over this gulf of separation, and you will rush to place yourself among the socialists.

And you, woman of the people, has this left you cold and unmoved? While caressing the pretty head of that child who nestles close to you, do you never think about the lot that awaits him, if the present social conditions are not changed? Do you never reflect on the future awaiting your young sister, and all your own children? Do you wish that your sons should vegetate as your father vegetated, with no care other than how to get his daily bread, with no other pleasure than that of the ginpalace? Do you want your husband, your boys, to be ever at the mercy of the first comer who has inherited from his father a capital to exploit them with? Are you anxious that they should remain slaves for a master, food

Nay, never; a thousand times no! husbands, after they entered on a strike you wear yourself out ended by accepting, cap in hand, the conditions dictated by the bloated bourgeois in a tone of haughty contempt I know that you have admired those Spanish women who in a popular rising presented their breasts to the bayonet of the soldiery in the front ranks of the insurrectionists. . I am certain that you mention with reverence the name of the woman who lodged a bullet in the chest matter, I must submit also. Let us of that ruffianly official who dared to outrage a socialist prisoner in her cell And I am confident that your heart Very well. In that case life itself will beats faster when you read how the women of the people in Paris gathered under a rain of shells to encourage 'their men" to herole action.

Every one of you, then, honest young olks, men and women, peasants, laborers, artisans and soldiers, you will unwill come along with us; you will come in order to work with your brethren in the preparation of that revolution slavery, tearing the fetters asunder. breaking with the old worn-out traditions and opening to all mankind a new and wider scope of joyous existence shall at length establish true liberty. real equality, ungrudging fraternity all, work for all-the full enjoyments of the fruits of their labor, the complete development of all their faculties; a rational, human and happy life.

Don't let anyone tell us that we a small band-are too weak to attain unto the magnificent end at which we

Count and see how many of us there are who suffer this injustice. We peasants who work for others and who mumble the straw while our master eats the wheat, we by ourselves are nillions of men.

We workers who weave silks and velvets in order that we may be clothed in master tries by a new reduction of rags, we, too, are a great multitude: did not dare to go before the workers wages to squeeze out of you a few more and when the clang of the factories per- and tell them that their interests were mits us a moment's repose, we overflow still further you will protest; but he will the streets and squares like the sea in a spring tide.

We soldiers who are driven along to the word of command, or by blows: we the most far-reaching of their actions who receive the bullets for which our is the feeding and clothing of the pubofficers get crosses and pensions: too, poor fools who have hitherto known no better than to shoot our brothers-

"Socialism will destroy the family," shricks the defender of capitalism and a lot of fool laborers and otherwise intelligent people are frightened from a further examination of the socialis left her native village for the metropo- position. It is needless to say that no socialist ever proposed or dreamed of any such thing and one might be at a loss to know how the idea originated if it were not for the fact which has long been recognized that capitalism always imputes its own sins to its opponents. For it is capitalism, not sosialism, that is destroying all family life. It sends the wife and mother into the

New England factories while the father either cares for the children at home or is driven to the "stag tewns" of the West, leaving the women to make up the "she villages" of the East. Even where they are still allowed to nominally make up a single "home," the father is not permitted to get acquainted with his family until his children scarcely know him. Worse yet, the factory invades the "home," and makes it that hell of feverish toil called a sweat-shop. At every point capitalism pours its destructive venom out upon this supposedly cherished institution. It reduces the incomes of thousands to the point where marriage is an impossibility on the part of men and prostitution a necessity for the woman. It yearly drives thousands of men to desert their families, upon which, through lack of employment they have become a burden, not a source of maintenance. It compels a arge per cent of the population to live under conditions where children are born only to be killed by their surroundings, and sets a premium on in fanticide through child insurance.

Nor is this state of affairs confined to the manual laborers. The clerk in the department store may have the amuse ment of flattering himself that socially he belongs to the capitalist class, but he is plainly told that he must no act upon that supposition to the extent of marrying and making to himself a home. In all professional lines the same tendency is seen. Wages are calculated upon the basis of what it takes to support a single individual at the standard which the employer thinks is necessary to be profitable to his business, and no arrangements are made for the "home."

With the school teacher this fact is even more brutally stated. The woman eacher is frankly told that while she may have a husband she must not enjoy the luxury of children. Further, the "home" is again attacked. few months ago one teacher was forced to make the awful choice between her child and her means of living and caring for that child. In the end, she was not even allowed the choice, and when she had, as-it were sacrificed the society and care of her child for the power to feed it, the powers that be decided that she might still have some feelings of motherly interest in it and so discharged her that both might suffer together

CARE FOR MIND AND BODY.

The Feeding of Public School Children in g French City. Reprinted from The Workers' Call of

March 24th, 1900. Brussels, Feb 25th 1900 In our last letter we promised something more concerning the work of the socialists in the municipality of Rouoalx. . Here is a phase of the subject that will especially interest those who are looking for "something right off" and from the time we had left America we had looked forward with more or less interest to the time when we could know exactly in what way this municipal work was regarded. 'We found that it was being done by perhaps the most distinctly revolutionary party in Europe, and it is at least suggestive that while the "reform" socialists have been railing at the "narrow" Marxists because they would not take up every reform that came along, those sam narrow" fellows have gone ahead and done more than all the reformers pu together. But when we came to talk with them and asked about the different forms of work that they were car rying on,they were extremely diffident, nd declared that these things had no

particular relation to socialism.

But there was one peculiarity that

1

differentiated their actions from the or-They did not ask to begin by 'socialing" the "natural monopolies." They bound up in municipal railways, telephones and electric lights. What they did do was directed exclusively to the amelloration of the workers. Perhaps the most far-reaching of their actions,

lic school children.

In the city of Lille there are 6,000 I that not content with holding you in his relentless grip by means of the wage system, he is further anxious to make a plumed and imake you a slave in every respect. Then you will either bow down before him, you will give up the feeling of human dignity, and you will end by suffering every possible humiliation; or the blood will rush to your head, you shudder at the hideous slope on which you are slipping down, you will retort, and, turned out workless on the street, you will understand how right socialists are when they say "Revofit rise against this economic slavery." Then you will come and take your place in the ranks of the socialists, and you will work with them for the complete destruction of all slavery—economic, social and political.

Some day again you will learn the stores of the socialism will destroy the family," Tilat None of The CHILDREN with which all must reckon. In the city of Lille there are 4000 the every due very due very due very due very due very due very due void the sold to such disconsions to be forgotten. Each child was the hidden in the room, all eating and children in the room, all eating are under the direct. Under the works of the best minds of the colleges and universities are devoted to sponding its ling one of the "Cantines," as the dining decorated personages who are so good in the collidren in the room, all eating and children in the room, all eating and children in the room, all eating and children in the room and taken sept the works of the best minds of the cell of an endiring are under the with which all must chom in the nour of the satting one of the "Cantines," as the dining decorated the subdires. The form of the leading decorated the with wh children so fed every day of the school ARRANGED FOR IN SUCH A WAY THAT NONE OF THE CHILDREN KNOW WHO ARE PAID FOR, AND ideal, WHO ARE FREE.

> This system has been in operation in ome places for from six to eight years, and it is said that there is an easily perceptible difference in the size and appearance of those who have been thus fed and the children of other cities of France, or in the same cities before he system was put into effect. THE SOCIALISTS EMPHASIZE IT, MAIN-LY BECAUSE THEY SAY THAT AN ILL FED AND PHYSICALLY WEAK PROLETARIAN IS NEVER A REVO-LUTIONIST, and that by this system they are enabled to rid themselves of the dead weight of the reactionary "slum projetariat." Besides there is no doubt but that there is here an actual gain to a large portion of the working class, in that they are better fed and educated.

> Indeed as the French socialists have frequently pointed out, free education without free meals is a farce, asstarving child cannot learn, and the mental development must rest upon the physical. To force a weakened, sickly, nervous, rickety child to stay all day within the close walls of a schoolroom. and try to cram learning into him according to rule, as is done every day in the schools of our American cities, is a parody on free education and an insult to common humanity.

But the socialist cities of France do ot stop with providing a good meal. They recognize that to stop there would be to perpetuate the anomaly and injustice of which they complain. Each child receives, when needed, sufficient clothing to ensure warmth. THE THING WHICH STRUCK US ABOUT THE CLOTHING, WAS THAT IT HAD NONE OF THE "INSTITU-TION" LOOK THAT MARKS WORK OF AMERICAN "CHARITY" (?). Indeed, it was so much like that rdinarily worn by the children our guide, who was one of the teachers had hard work to determine for us which was furnished by the city and which by the parents of the children. The only thing left to private charity to provide was the shoes, and lest some of our American friends might think that this was worse than all the rest, we hasten to say that a pair of woo shoes, such as are almost universally worn by the children, vary in cost from four to fifty cents, and are only worn during a small portion of the year.

Nor is this the end. Through the ombined action of, private associations and municipal assistance, there amusements. These latter are in dif ferent rooms, arranged according to age, those for the oldest being furnished with billiard tables and other games of a similar grade. Fraternally.

A. M. Simons, May Wood Simons.

To the Reader.

This issue is sent to a great many eachers and students who are not regular subscribers. Of such we would ask that they give it a careful examination. Read it thoroughly and we believe that whether you aftree with us er not you will be glad to know the matter that the paper contains. Then we would call your attention to the fact that the cause of socialism is one that is today represented by an army of earnest intelligent men and women in every land where capitalism has made its entry. It is a force that is today overturning governments, deposing ministries, controlling thousands of cities, and growing at a rate unequaled by any other movement known

o modern society. Do you not think that it is worth your while to know more of such a movement? If so, you cannot do better than to have this paper sent to your address every week. It has ordinarily four pages the same size as the pres ent one, and contains news of the so cialist movement of the entire world and of the trades-union movement at home and abroad, discussions of the events of the day from the socialist point of view, and expositions of the socialist philosophy. The subscription price is fifty cents a year or twentyfive cents for six months. Do not de lay a moment after reading this, but dress 36 N. Clark St., Chicago, Ill.

Send in a club of ten this week.

Socialist Review

On the first of July we shall issue the first number of the monthly review under the editorship of A. M. Simons, until lately editor of The Workers' Call, who has recently returned from studying social conditions in Europe. The socialist movement has now reached the point where it can claim to offer the only antiosophy pointing the way to a positive solution of present-day problems. Its constantly increasing strength at home and abroad makes it a force with which all must reckon. In Europe the best minds of the colleges and uni-

cialism. Signed articles will, however, be welcomed from writers of all schools and parties who accept the socialist ideal, however they may differ as to methods and tactics. We are convinced that a free and full discussion is the shortest and best road to the general acceptance of the methods and tactics of international socialism by all who aim at the establishment of the co-operative commonwealth.

The International Socialist Review will be the first periodical in the English language to bring together to any extent the original contributions of the great socialist thinkers of the different.

extent the original contributions of the great socialist thinkers of the different countries of Europe. It will also publish each month letters from foreign correspondents giving the latest news and a review of the situation in each country. Here is a partial list of those who have already promised to write:

France—Paul Lafargue, Jean Jaures, Jean Longuet.

Belgium—Emile Vandervelde, Henri

Belgium-Emile Vandervelde, Henri Lafontaine, Emile Vinck, Mme. Lalla Kufferath. England-H. M. Hyndman, Walter

England—H. M. Hyndman, Walter Crane, Samuel Hobson, H. Queich, Keir Hardie, J. R. McDonald. Italy—Dr. Alessandro Schivi. Denmark—Dr. Gustav Bang. Arrangements are now being com-pleted for correspondents and contribu-tors from Germany and Holland, and we hope to announce their names be-fore the first issue.

we hope to announce their names be-fore the first issue.

It will be seen at once that this list of contributors places the International Socialist Review in a class by itself so far as periodicals in English are con-cerned.

cerned.

But it must not be supposed that the American situation has been neglected. Already articles have been promised by Job Harriman. Rev. Charles H. Vali. N. I. Stone, Leonard D. Abbott, Rev. Wm. T. Brown. William Mailly, Gov. Andrew E. Lee. Ben Hanford, Marcus Hitch, Jos. Wanhope, W. H. Noyes and others, and no effort will be spared to secure the best work of the best thinkers upon the problems of socialism in

secure the best work of the best think-ers upon the problems of socialism in America. The plan of the magazine will be ap-proximately as follows: About forty-eight pages will be given to contributed articles and the remaining sixteen pages will be divided as nearly equally as possible among the following depart-ments:

First. Review of the events of the month from the socialist point of view. Second News of the socialist move-ment in America during the month just

passed.

Third. Items concerning the struggle in the ecohomic field, including trade union news and labor troubles.

Fourth Foreign correspondence giving news of the socialist movement the

The need of such a periodical as this is apparent to every socialist. We believe that once it is brought to their notice every comrade will be willing to take hold and help. There are two ways in which such help is wanted at once. In the first place further capital is needed for its establishment. A for powder, mere dung wherewith to more, the salaries of the male teachers is a covered playground provided in manure the pasture lands of the rich are kept at a point where marriage is connection with each school, furnished expropriator?

Nay pages a thousand there are the pasture of games and purpose as soon as an equal sum is raised elsewhere. Of this sum \$150 has already been raised leaving one hundred more to get if this offer is not to be allowed to lapse. To raise this one hundred dollars it is proposed to sell ten shares of our capital stock at ten dollars each-their par value. That the money thus invested offers immediate and desirable returns aside from being an aid in the establishment of the magazine is shown by the following special prices on books published by us which

> are made to stockholders only: Five cent books in small lots, 2% cents; 200 assorted copies, \$1.75; 500 assorted copies, \$1.75; 500 assorted copies, \$5.60; post free in the United States outside Chicago.
>
> Ten cent books in small lots, 5 cents; 100 assorted, \$3.50; post free in the United States outside Chicago.
>
> Twenty-five cent books in small lots, 12% cents; 50 assorted, \$5.00; post free in the United States outside Chicago.
>
> Other books at half list prices; post free on paper books; on cloth books if sent by mall postage will average about 10 per cent of the retail prices.
>
> Once the magazine is established it

Once the magazine is established it will be run without further expense to the party, and will be distributed, not only through the ordinary socialist channels, but also through regular trade channels to thousands of people entirely inaccessible to the ordinary so cialist propaganda. It will be a mean of capturing and holding the intellect ual proletariat for socialism as well as an organ for the education and train ing of socialist speakers and writers.

Every section that intends to do any distribution of literature will find the ownership of such a share of stock a good investment, while individuals who wish to assist the socialist propaganda will scarcely find a better opportunity or greater need than this present one.

CHARLES H. KERR & COMPANY, 56 FIFTH AVE., CHICAGO.

THE NEW EDUCATION

How It Coincides With the Economic Movement of the Present.

THE EVOLUTION OF PEDAGOGY

The Ideals of the New Education Can Only be Realized Under the Sc cialist System.

Teachers today have much to say of "new education." No matter how much nonsense and cant may be talked about this it is still undeniable that there is a new spirit abroad in the educational world. From the kindergarten to the university the change is making itself felt. Some few pedagogical students have gone far enough to synthesize all these movements and to realize that they are but parts of a common whole and to recognize that the revolt from the fixed classical course at the universities toward the the socialist, while the Mediaeval workelective studies in the sciences is a part of the same movement that is substituting the kindergarten for the "Dames' school" of a generation ago. But so far as I have noticed there has been but one of these who have seen that this whole educational movement was but a very narrow portion of the great Zeitgeist that has arisen from the conomic transformation of the last century, and is today revolutionizing every phase of human thought and life.

I refer to Prof. Dewey of the University of Chicago, who in his book The School and Society," shows this connection clearly and brings many previously unseen relations into prom-But even he has been too closely shut in within the walls of his study to see the relation which exists between the educational and social movement which he is tracing, and the great worldwide movement of the workers toward freedom, to which the name socialism has been given. Some of my readers may be inclined at this point to throw this paper aside and declare that the proposition that postulates a connection between the New Education and socialism is too farfetched to be worthy of further consideration.

But philosophically and historically they spring from the same root and the teacher can only apply his philosophy practically after he has united with the socialist politically to secure the success of the socialist program, Philosophically both spring from a common Hegelian root. Both reached their present development through the relinquishment of the ideological element of Hegelianism while the dialectic was retained. Both arise from the application of that philosophy to the omic conditions of today. The errors in each have arisen from attempts at a separation of the philosophy from those conditions.

Let us look a little closer into this position. The watchword of the new education is freedom - freedom of thought, of development, of growth, of individual initiative. The basis of the the beginnings of social forms. It goes Froebelian philosophy is found in the idea of the free "expression of the inner in the outer" or in other words individual. The modern teacher stuin the expression in material form of the images of the mind. The child is led to create with the hands in material form the ideas that exist in his own consciousness. Then in the primary of the best modern educators are seeking to introduce the same idea.

Domestic science, sloyd, wood-carv ing, all have this same end. Nature lessons, and excursions to the country and to museums seek simply to add new material to the mental images, that the outward expression may be more free because embracing a wider range. intermediate schools; and laboratory methods, with the seminar and experimental science, develop it still further in the university world.

Then when the student is graduated. eccording to the principles of the "new education," has had his individuality developed, his own peculiar capabilitie cultivated, and has been wholly trained with the idea that it is the right and duty of every man to develop his own personality and to the best of his ability mould the material universe according to his own mental conceptions, when he feels justly that he has within himself the capability of stamping his individuality upon his surroundings and contributing his own peculiar gift to the social well-being, he suddenly discovers that he is in the midst of a in which individuality is a independence an impossibility and liberty an incedescent dream. If he enters a profession or seeks to follow a trade he finds that he must, so far from working out his own ideas, sink all signs of his individuality, stifle all thought of mental originality, and bend his intellect, until it accords with the material interests of the class to of the only means of producing the whom he must sell himself and his abillive he must be able, not to use his comfort of mankind, or for the impres- of thousands to operate them and give sion of his own inner thoughts on the fid, but to SELL himself and are producing the same thing. He soon of the social structure as the ancient finds that he can do this heat by be- artizan moulded the wood and stone coming a mental or physical machine capable of turning out a certain amount duct. In other words the new edu-N while what our pre-mands is MACHINES.

teaches the freedom of the individual and insists upon the right and necessity of every person being able to impress their mental concepts upon the external world. It demands that this shall be made possible for every individual. It insists that there can be no true workmanship until the laborer is master of his own product and of the means with which to work. It would have men produce to use and not to It would make the artisan and sell. the artist identical because both would be creators and originators and not mechanical contrivances for supplying a market. It sees that this was more nearly possible at the time of the Guilds than ever since and points to the fact that this was the time when the handicraftsman wove his own mental images into the material with which he worked, and wrought because what he was making was to contribute to the happiness and comfort of some person or persons and was not designed to be simply sold more cheaply than any other similar article with the sam external appearance. This was the message that William Morris sung in verse, told in romance and lived in the workshop for many years. For, says man could not realize the ideal of the New Education because of the limited power of production in his time, with the wealth of productive power that modern machinery and the factory sys-tem supplies it is possible, if all were producers and none-were idlers, or wasting their energies in useless toil, for all to make of their tasks the enjoyable play of creative work, the foilowing of which has ever been man'

The philosophy of socialism also

greatest source of happiness. Can you who believe in the Ne Education realize what this means? Can you conceive what the world would be like if the theories you s glibly repeat in scholastic seclusion were to burst through the pedagogical bonds that confine them and actualiz themselves in the home, the workshop, the field, the factory, the social life If you can you will have a better idea of the socialist state than you will ever get by reading all the Utopias that were ever written from Plato to Bellamy.

I could go still further did time and your patience permit and show you how the new education was a sister science with socialism in that they were both children of the same economic condiions, fathered by the same ideological origin. Pedagogy has not been going through an isolated development. It has been transforming as a part of that greater economic and social transformation, of which the Industrial Revolution in the early years of this century was the beginning, our present capitalism the terrible confusion of the transition stage, and socialism the beautiful climax of the completed evo lutionary cycle.

But while the new education is to the majority of teachers but a theory of pedagogics, to be applied in their proession of teaching, socialism is the only hope of a human existence for the great laboring class. To understand this let us again translate it into the terms of the pedagogical world. The New Education makes much of the theory of evolution. It sees in the child producers, not the idlers, will rule, back to the childhood of the race to the better understand the childhood of the dies anthropology and archaeology that he may better know the nature of the child in the modern kindergarten. The socialist likewise goes back to the origins of society that he may the better secure his own freedom He traces the course of industrial evolution that he may work in accord with it toward better things to come. Let me read you a few lessons from that evolution that bear upon our present problems. .

Looking at the history of social de-Manual training and always been governed and directed by which he worked belonged to him drawing carry the same idea into the a ruling class and that this class alone were able to stamp their individuality upon social institutions and relations. by each worker individually. Hence All others were to this class simply a the capitalist class arose as a purely portion of the external world to be these rulers. In the middle ages this dominant class was the feudal landowners who built a society based upon the ownership of land. They made the remainder of society but appendages to all social and governmental forms to suit this fundamental condition of demination by the land lords.

When tools were transformed into machines, and workshops into gigantic factories these means of production be came of much more importance than The result was that the capitalist became the only free man. He and his class were able to express their interests and ideas in the social forms and forces. All other member of society became again but parts of an external material universe to be molded according to the ideas of this ruling capitalist class.

This ruling class are able to enforce He quickly finds that if he would the mines, the machines, the factories being made the private property of a few while they require the co-operation to the few the power of life and death over the many, and enables those few ducts for less than others who to stamp their desires upon all phases according to the images within his

> They transform the government, the machinery into an instrument for the ance of the privileges of their They mould public opinion

through their control of the press, pulpit and lecture platform, until it justides and supports the interests of the possessing few against the disinherited many. Finally, they lay their hands upon the system of education and in the name of commercialism demand that education shall be "practical"that is, shall be of a nature to furnish efficient, obedient, servile slaves for office and factory.

They oppose the apostle of the New Education and thwart him at every turn. Engressed in the accumulation of money they have neither time nor ability to understand what it is that the progressive teacher would accomplish, but they instinctively feel that their interests are in some way being ouched, and they intuitively seek to rush the new movement. Their press lerides all innovations as "fads," warns the "tax pavers" against them "extravagances," exercises political influence to prevent the rise of their epresentatives and in general seeks to naintain things as they are. this plan of action begins to prove a failure, they adopt a more subtle and nore dangerous course. They hall the proposed innovations with joy and seek to mould them as they have all other ocial institutions; in the interest of their class. 'They would transform the lasses in Domestic Science, into trainng schools for servants; they see in the sloyd and wood-working departnents the possibility of cheap carpeners for the future. Everywhere they would thwart the entire purpose of the New Education by substituting drill for development, discipline for growth, slavery for freedom The socialist has already seen, and

the progressive teacher must soon recognize the fact that freedom of any kind, of life, of industry, of hand, of orain, of workshop or school, must be ecured by the action of the present enslaved who see the need of that free-They who would be free, themselves must strike the blow." The socialist points to the fact that the modern system of production has reached the point where it must soon break down of its own weight. With its everreturning crises, strikes, lockouts and financial panics, it is tottering to its fall. But in this apparent chaos the ocialist sees the outlines of a new and better society. In the wondrously intricate forced co-operation of thousands of laborers in present production he sees the plan of the future voluntary production for co-operative distribution. When the capitalist abdicated his position as manager of industry and became a mere stockholder in a corporation or an owner of trust cer tificates, he destroyed his own social function. When he chose from among the laborers their brightest and ablest members and made them foremen overseers and superintendents over their fellow workers while he became but'a parasite on industry that is organized, directed, operated and trolled from cellar to garret by laborers, he abolished himself from all useful social function. No student of biology need be told what the result must be when an organ is no longer needed. And in this organization of the labor ers we see the form of the coming so ciety. It will be a society in which the where all will be creators, and masters of their own destiny, and none will be parasites or rulers over helpless slaves Here for the first time the ideals of Education will be possible Here for the first time all will be ena bled to work out their full individuality and to mould their surroundings, in co-operation instead of competition with their fellow men, in accord with the images existent in their own brain. To do this it is necessary that ownership of the tools be once more joined to their operation. The reason that the artizan of the middle ages was able to crystalize his own ideas in the material with which he worked was that velopment it is seen that society has the material as well as the tools with When the machine displaced the tool it was impossible for it to be owned owning class. For some time they were ashioned into such forms as best suited able to justify their existence because they combined with ownership the function of management and organization, but now that they have abrogated that function to the workers there is no reason why these latter should not the landed possessions, and arranged also assume the function of ownership and then retain the entire product of their labor. This would be SOCIAL-ISM. Since the only transformation necessary is the legal one of a change of ownership it can only be brought about through the law-making power Hence the socialists are uniting at the polls to secure that power that they

> may make this legal change A. M. Simons

A socialist club has been organized in Harvard college and it has been decided to send two delegates to the inents in Paris this year. The club, is the outcome of a lecture delivered by James F. Carey recently. The latter was prohibited from speaking in staid old Marvard, but the students smuggled him into a private room despite

THE REASONS GIVEN

Why Teachers Should Work for - the Triumph of Socialism,

CANNOT TEACH AS THEY WISH

Capitalism Debases Education to the Exigencies and Demands of Profit-Making.

Why Should Teachers care about soalism?

This is a query that often arises poken or unspoken, and it is not without some reason.

Secialism is an economic and political question; says the teacher; but I am engaged in a far deeper reform. In the last-analysis all our social troubles are due to ignorance. Let me alone to go on with my good work and when the people are educated enough to understand their wrongs they will correct them fast enough. It may, it will take years, but let me but educate the children aright and the next generation will establish its right to a living, and . good living. Miracles do not happen the only way to bring about a change is to educate, educate, educate, and the most hopeful candidates for education are children. Therefore let us educate the children in the hope that the greater wisdom of the coming generation will deliver them from the ills which w now suffer.

So speaks the teacher, engrossed in his work, and full of enthusiasm over each advance in his science. He believes that "education is the develop ment of the highest social efficiency in the individual," and therefore until each individual has education we cannot have social efficiency or well-being

There is no denying that this is a fine ideal and it fathers a noble purpose and endeavor, but let us consider some the obstacles to its realization.

In the first place-to mention a very practical one-the low salaries that are raid to teachers. None know this better than teachers themselves. While a few, after six, ten, twelve years experience may receive as much as two or thre thousand a year, the great mass work and worry away a lifetime on a bare ideals and ambitions lead to the hope of a constantly fuller life, they are al ways compelled to deny themselves the opportunities that open before their es. With constantly new visions of higher culture before them, they must go without music, art, social inter ourse and books for which they long this fact of low salaries the profession is overrun with persons of mediocre ability. On the whole not many large minded, energetic, pushing men becon teachers. Their chances are better in the money-making world. That the profession is largely made up of womer is largely due to the fact that the rewards in it are small. Men with fami lies cannot afford to be teachers. - Bachelor women can, and even for them the

Why is this so? Why are teacher' salaries so low? Push this questiion back to its ultimate and the answer is simply, because all wages are low, except for a few high-salaried officials. The iron law of wages is iron all the way through. It does not become India rubber in the professions. There is not one law for mechanics and another for awvers, one for bricklayers and another for teachers. If the so-called produc tive laborers-I mean materially ductive-received the full reward of their labor, teachers and all other professional laborers could demand could get the full reward of their effort. But the very fact that the laproduces, the balance going to enrich the holders of special privileges, create not only a mass of unemployed and half employed men, but by lowering wager all along the line, divides men into teaching law or medicine who have no business there whatsoever. And soon every profession and every trade is overcrowded, and there is a great hunproletariat in the professions as well as "on the road" getting for wage just what will keep them and their children alive. There are plenty of "Wear," Willies" in professor's chairs as well as on park benches.

This is one of the reasons why the teachers cannot teach as they would like to teach, because they are over worked and under-paid, just like the rest of the proletariat. They are prole tarians, if they only knew it, and theh lot will not improve much except as of this again further on.

Let me suggest another reason wh teachers cannot teach, and that is that ternational conference of socialist stu- the education of the masses is not what capitalism wants. Step by step ou boards of education are coming to the position avowedly taken in Germany EDUCATE THE FEW, DRILL THE MANY," Teacher in a city school, do you want to really educate your pupils How much freedom have you in deing so? Are you not compelled to drill escring to all sorts of devices to dis- year out on subjects utterly foreign to their interests and desires, to put them through just so many lessons, to make them study books not things, with the result that at just the age when they hould be mustering the world best they are only too glad to leave scho arousing curiosity, stimulating desire for knowledge, increasing self-activity, what we succeed in doing is fostering stupid contentment, disgust of learning

and submission to tyranny. Who is to in it is a knowledge of the facts and blame? They, far more than parents, are raistations under which they work. No, the great mass of the people is being the dominant public opinion is not that exploited by a few, and that fact underof teachers nor of patient submissive lies and affects every other relation and parents. Nor is it even of the politicians, badly

as they abuse the school system for the purpose of spoils. Our governments, not thyself?" Whitma city and state, are run for the benefit of fact in these words: the rent, interest and profit reaping classes. The mass of parents are too sodden in the toll and humdrum of daily life to know what is possible in the ducation of their children, and the honorable property owners care far more for rent, interest and profit than for the education of the children of the propertyless. The real rulers of our cities, the economically privileged class, what do they care for the education of the masses? It only makes the masses discontented with their station in life, and since, as Madame Necker said, the object of education is to fit men for their station in life, let us give these hildren, most of whom must be wageworkers, just enough drill to make them numble, useful wageworkers.

If the big corporation men of any of ur cities wanted the people's children to franchises and special privileges, would the boards of education be so cumbersome? boards of education. They are simply lass, the owners of the means of producing wealth.

Shall we look then to these owners of of education? They simply do not want the people educated; they only want them drilled enough to be submissive and produce further profits,

In Germany, the capitalist class is so us of its own interests, that it has taken a large part of the education out of the hands of the minister of education and lodged it in the hands of the minister of finance, the whole magnifi-cent system of trade and technical chools, by means of which Germany has pushed into the front rank of manufacturing nations, so that "made in Germany" is a term of terror to other capitalists the world over.

The plain object of the whole scheme s to increase the profits of German manufacturers. Just as the common chools have drilled German lads so that the French, victorious under Napoleon were whipped under Von Moltke, who living wage. While all their desires and in truth exclaimed, "The school master has done it," so these trade and technical schools are drilling German workmen to whip all Europe in the industrial and commercial field.

And for what purpose? In order that German workingmen may have more wealth and leisure and culture and hap-Partly as a cause, partly as an effect of may entreuch themselves more firmly than ever in power and privilege. And what capitalism has done in Germany. capitalism is beginning to do in Amercai Our public schools arose at a time wealth was more evenly distributed. They were established on the theory to the children of the rich and poor. This tradition has kept the schools up every side, the rich have special schools high schools are favored at the expense of the grammar schools, for they are above the fifth grade. "EDUCATE THE FEW, DRILL THE MANY," is fast becoming our practice if not our motto

not teach as you would.

And here is another like unto it: The chool systems of America are practically dominated by the book trust, national socialism. Whether it be true or not, as is stated on good authority, that every member of the school board in one of est cities is in the employ of a book oncern, it is unquestionably true that the book trust not only foists its book upon whole communities by bribery and intimidation, that it controls appointments and limits them to those favoring its books, and that it puts upon the rack, and gags teachers and superintendents. and school committee through the length and breadth of this ountry. Antiquated and valueless books are kept in use, new methods are suppressed, truth is obscured, especialhistoric and economic truth-all in "the last stronghold of democracy" the common school, for the sake of the profits of this glant trust, and when the facts are exposed, it appeals to a subservient court and gets damages for

And when the book trust is amalgamated in the trust of trusts that is to be, is it likely that you will be better off, brother teacher? Will you have more freedom then than you have now These are a few of the reasons why teachers cannot teach. Hungry and half-clad children, children who are barren of rich experience, sad-eved playless children, children having parents but knowing them not, h shelter but not homes, without birds or rees or flowers, living in gangs not in families, suggest other reasons why teachers cannot teach. Teachers are verywhere talking about apperception as the basis of learning. We learn the new by means of the old. What sort of apperceiving ideas does the child in the iums have with which he may grasp put before him? Are you quite sur that you can educate him until you feet and clothe and house him properly After all what is education? With out attempting a definition, one factor

Certainly not the teachers relations that enter into the life of society. Now the great stupendous fact ing a constant protest against the limi- that stares us in the face today is that function.

Are you aware of this fact? "Thou that teachest another teachest thou not thyself?" Whitman has put this

"Many sweating, plewing, thresh and then the chaff for payment threshing ceiving, A few idly owning, and they the wheat continually claiming."

It is this fact, daily becoming plainer, that baffles the teacher so that he cannot teach, just as on account of it doctor cannot heal, the preacher cannot preach, the judge cannot judge, the painter cannot paint, the writer cannot write. The joy of work is turned intothe gall of toil.

What then can we teachers do? There are just two ways in which teachers can improve their condition. One is at the expense of the people, the other is by espousing the cause of the people.

The first way is get up some sort of a monopoly in the business. By introducing costly instruments, expensive se educated as much as they want apparatus, and somehow- holding, exclusive possession of it, or by drawing a ring about an exclusive set in the it is of no use to blame the profession and outlawing the "scaba," or by some sort of legislative hook or agents in the hands of the dominant crook getting a special privilege, teachers could become great men. The church once had just such a monopoly of learning, and we think we've got rid and and capital to reform our system of such tyranny, but the spirit of doing everybody else or they'll do you, is not dead yet, even in educational circles.

Only please notice that in case teach. ers do this they will be no longer proletarians. They will have become exploiters, and reverted from the socially useful industrial class to the predacious class

But beside this there is another way for teachers to benefit themselves, and that is by recognizing the fact that they belong to the proletariat, and espousing its cause.

Teachers usually think of themselves as belonging to the middle class, and disdain to be called projetarians. This is partly due to pride of intellectual equipment, but more largely to a confusion in the use of the term "middle class." As commonly used it includes those of moderate incomes, whether they be storekeepers, skilled mechanics, farmers or professional men. This use of the term, though handy enough, has no value in economic discussion. Properly speaking the middle class is com posed of the small capitalists, as contrasted with the great capitalists on the one hand and with the wage workers on the other hand who have no capital. piness? No! Rather that the Junkers The confusion is increased by the fact that this middle class of small capitalists, are not pure capitalists. They do a great deal of useful work besides. But that is another story. Teachers are not in this class at all. They are salarwhen there were no very rich, when led people; they sell their labor for so much per time unit. This is just what wage workers do, and it is of no consethat ignorance of the masses was a quence whether one works by the hour, menace to the community, and with by the day, by the month or by the the purpose of giving equal advantages year, in determining his economic class, Nor is it a question of brains and muscle. No one works exclusively with his to their present standard, but now on brains or entirely with his muscle. Its only a difference of degree, and properfor their own children Colleges and ly speaking all who sell their labor for wages or salaries belong to one class, the proletarian class. To be a proletarecoming class schools, and 60 per cent | ian is really the highest of honors. It is of the children of Chicago do not go PAR EXCELLENCE, the useful class. From time immemorial it has been winning its rights from one and another exploiting class, the priests the governors, the soldiers, the landlords, This then is another obstacle in your the gamblers, and the idle owners, unway, my dear teacher, so that you contil today it stands on the threshold of enjoying what it produces. Its cause is the cause of all useful men and women, and is the same the world over, inter-

Economics in Japan.

The following is a description of a capitalist paper in that country. It s interesting to observe how the possessing classes of all lands use same identical arguments against any possible increase in the share of his product which the wage slave may

The standard of living has risen without a compensating advance in wages.
The workingmen therefore demand
higher wages than the increases they
already have received. They are not
worth what they want to be paid, and
if their demands are conceded Japan
will not be able to compete in foreign
markets by reason of the cheapness
with which she can produce goods.

They are not "worth any more," and o accede to their demands would render it impossible for "Japan" to comnete. By "Japan" is meant the capitalist class of that country, and they can only compete while their supply of cheap labor remains cheaper than that of other countries. But the workers of Japan don't want to "compete" particularly. They want to secure the product of their labor, and for that purpose they will discover, as the laborers of other lands have discovered. that through socialism alone can their object be effected. Take the wings of the morning and fly to the uttermost gle cannot be avoided or mistaken. Capitalism in Japan as elsewhere, is productive of the same conditions and the same struggle for their abolition.

Teachers will find the International Socialist Review an absolutely necessary assistant if they are to discuss in-telligently the problems that are vex-ing modern society.

CLASS ECONOMICS

Socialism as Taught in the Chicago High Schools.

FROM CAPITALIST TEXT BOOKS

Sociology Distorted and Falsified to Suit the Material Interests of the Ruling Class.

The text book on political economy which is used in the Chleago high schools is a work entitled "Elements of Political Economy," by J. Lawrence Laughlin, head professor of political economy in the University of Chicago and is published by the American Book company. Almost every page of it is a striking illustration of what is said in the Communist Manifesto, to-wit: The BOURGEOIS is a BOURGEOIS solely for the benefit of the working Lassaile expresses the same idea more at length in his "Workingmens' Programme," where he says it is necessary for the ruling class to pretend that they have at heart the good of all and to live a life of constant hypoerisy, in order to maintain existing conditions of class exploitation.

The first page of the book is an illus tration of this idea. Professor Laugh-lin says (Section 1): "Let us take by way of illustration, a man in the bum ble walks of life, a village cabinetmaker, for instance, and observe the various services he renders to society, and receives from it; we shall not fail to be struck with the enormous disproportion between them. This man em ploys his day's labor in planing boards and making tables and chests of drawers. What does he receive from society in exchange for his work? First of all on getting up in the morning he dresses himself; but he has himself made none of the clothing. In order to put at his disposal this clothing, simple as It is, an enormous amount of labor and many ingenious inventions must have been He

employed. He sends his son to school, and the simple teaching which is given there is itself due to the work of many, thousand minds. If he undertakes a journey he finds that in order to save him time and exertion, other men have removed and leveled up the soil, filled up the valleys, hewn down mountains, united the banks of rivers and brought the power of steam into subjection to human wants. It is impossible not to be struck with the measureless disproportion which exists between the enjoyments this man derives from society and what he could obtain by his own unassisted exertions."

The professor is right, but he selected a very poor example to illustrate his idea. In order to show the measureless disproportion which exists between the various services the individual renders to society and those he receives from it, why did he select the humble fa borer? Why did he not rather take the proud capitalist, who does not even even plane boards, who does absolutely no service whatever to society; and yet, when he gets up in the morning he does not put on SIMPLE clothing, as the professor has it; he does not send his son to school where SIMPLE teaching is given. He has the best of everything, clothing, food, schools and every thing else. With him the services he renders and those he receives from society, do not stand in a mere disproportion to each other, as in the case of the humble laborer; there is absolutely no proportion or comparison whatever between them. They are incommensurable quantities, and would have formed a far more striking illustration of the professor's idea.

It is impossible in our limited space to and the laborer. go through the book, chapter by chapreaders, both to those who are socialists, and to those who are not. It will and it will sicken those who are not so cialists, by holding up to them a mir ror reflecting so clearly the class rule and class tyranny, which exists in our social system today.

We quote from section 42: "Som people, however, especially the wretchedly poor, find it very hard to save, and all that is not necessary to live upon. . . A little capital is the means condition, and the more capital h-

saves, the longer the lever he can use

unseen above the seen."

is now going on in the United States at a rate which far outstrips the not the inevitable product of the growth terest or the sum which any employer need pay for the use of capital in his rate of money wages, on the other conflict between the laborer and the sons who would be forced into the capitalist is going against the laborer. periment against their will."

wages in any permanent or lasting way, the laborer must enter into a contest of capacity; if he moves up the scale, his wages will increase: if he is care-lass, lasy, unthrifty, dishonest, and under the scale of the scale of capitalism against their will, and they endeavor to do what they can to induce capitalism to dispense with state

intelligent, without ambition, he will remain where he is, in the lowest and largest class, who receive the least and most precarlous wages.

or, if not simply a restriction of numbers relatively to the demand, is a per- acter and self-control, and trained to do sistent and intelligent effort to raise their condition by means of Christian teaching, which gives the true value of self-sacrifice, and the proper estimate of the future over the present, (which affects the accumulation of capital and the size of families); the better training of those classes by industrial schools, and in fact by everything which lity, if this were done, who then would makes for character and greater productive capacity."

In other words, the professor says that the first thing for laborers to do is to improve their character, and then after that improve their financial condition and material surroundings; whereconditions and material surroundings which is impossible under present conditions

As to increasing their productive cafact as the product increases the laborbecomes proportionately smaller and his social condition is worse than before.

Instead of dividing people into capitalists and laborers, as the socialists do, and showing that their interests are directly antagonistic, the professor divides the people into skilled laborers and unskilled laborers, disregarding the capitalists as a separate class, because he says that the conflict between capitalists on one hand and laborers on the other does not amount to much. The real contest is between skilled labor and unskilled labor; that is, if the skilled laborer gets 50 per cent of what he earns, and the unskilled laborer, say 20 per cent, then these two have no particular interest in getting from the capitalist their entire product of 200 per cent, but are chisfly concerned in fighting each other over the division of the 70 per cent which is the sum of their wages, and if it were divided equally between them, giving 35 per cent to each, it would leave 180 per cent for the capitalist. We do not understand the professor's system of mathematics. It appears to us that 100 per cent of his product for the skilled and 100 per cent for the unskilled laborer would be better for both than 35 per cent or even 50

Chapter 23 is devoted to socialism We are here informed (Sec. 249), that "the system of appealing to the state rather than to individual action, is so-The essence of socialism is

state help, as opposed to self-help." It appears to us as if the essence of capitalism is state help. It depends entirely upon state help, and can only be maintained by a vigorous use of state help, and in the absence of this state help would quickly collapse.

Sec. 241: "Every one wishes, of course, to see an advance in the comfort and well being of the poor, but we are also obliged to consider whether moral justice is satisfied when A, who is a meager producer, claims a right to a part of what is produced by B, who is is intended to secure the co-operation stroke all that had been gained and a capable producer." The professor uses a very poor illustration, just as he did in section 1 of his book. He should have said that, "We are also obliged to He has not the numbers to free himself consider whether moral justice is satisfied, when A, who produces nothing, claims a right to four-fifths of what is produced by R. who is a producer." This puts the matter in the right light farm and city laborer as well as a soand is a correct illustration of condi- cialist writer. Every member of the tions today as between the capitalist party ought to mail a hunch of these

Sec. 241: "Still, while acknowledging ter, but we recommend the book to all industrial inequality, those who are capable are not free from a responsibility to freat their poorer fellows rightly. but each man ought to be protected by the state in the enjoyment of the result of his own exertion." This is good socialist doctrine. If each man had the result of his own exertions, how much would the man have who produced nothing, as the capitalist class does to-

Section 245: "The socialisms of th they too can save if they set aside United States are mostly foreigners and have divers beliefs, and these are commonly derived from the teachings of of lifting a laborer out of a wretched Carl Marx, Lassalle or Proudhon, the originators of French and German socialism." How is that for a statement to raise his position in life, and the to be taught in the public high schools greater progress he can make. To him of a great city—that the socialists of who hath, more shall be given. This is the United States are mostly foreigners the thing to teach everyone, to set the and putting in one list. Marx and Section 190: "The growth of capital That socialism is a "belief" and was "originated" by some individual, and is growth of numbers, and the rate of in- of capitalism in all countries independently of any brilliant individual.

The professor ends his chapter on Sc business is steadily diminishing. The classm by-graciously conceding that "There can be no objection whatever to hand, is rising, and also many articles permitting the trial of this experiment of common consumption have been low- (colenies) because people go into them ered in price, so that real wages have of their own free will. Socialists have no objection to question is not at this point. In re- permit capitalists to try their system airty it is a contest between different in small colonies, for people who are willing to go into them of their own Section 211: "In order to raise their free will, but when it is applied to a

Section 335: "The real labor problem s to be found in the apportionment of shares to the different classes of labo Section 197: "The only true remedy, and in the discovery of the means by therefore, for low wages of iraskilled la-which the lowest clauses can be restrained in numbers, elevated in chara higher order of work for the com-

munity." Why should it be the lowest class that ought to be restrained in numbers! Why not restrain the capitalist class in numbers until it is reduced to zero? As to training the lowest class to do a higher order of work for the commun do the lower order of work, and how would we then be able to improve the condition of those who do the lower or.

Section 336: "In order to apply right principles to the improvement of our fellow men, we must ultimately go back as the socialist suggests that the first to Christian teaching; the teaching of thing to do is to improve the financial the value of the unseen and eternal over the seen and present, lies at the founof laborers, and thereby they will be dation of saving, which should be enabled to improve their character, sedulously encouraged. Savings banks. postal savings plans, co-operative banks, building associations should be everywhere understood and established pacity, laborers produce now about five by the workman. Each man should times as much as they are allowed to learn to set the future above the preskeep. What good would it do them to ent, and thereby learn the secret of produce more? Wages are regulated self-control, foresignt, prudence and not by the amount of the product but saving." Why does not the professor by the laborer's standard of living. In suggest a good, stiff increase in the amount of wages, instead of advising workers to save something out of their present pittance? Doubling their wages could enable them to save a great dealfaster than they can now do by curtailng their expenses. If the unseen and sternal is so much more important than the seen and present, why is it that the capitalist class devote all their energies to things seen and the present? Why do they not let go some of this and trust to the future, the unseen and the

eternal for their reward? What kind of Christian morality is hat, which teaches that an individual annot improve his condition except by setting ahead of his fellows and keeping hipself above them, keeping them under him and riding on their backs; that it is the duty of everyone to strive to get other men under him; that there is some mysterious law of nature which forever prevents two men from assist ing each other and improving the con dition of both at the same time; that it is the duty of one to get a lever upon the other and squeeze him to the ground? "The longer the lever the greater progress he can make." (See Sec. 42.)

Space permits no more. If our quotations and comments have excited the curiosity of any of our readers, we again recommend that they read the entire volume, and judge for themselves whether it is not a characteristic ex-pression of a class which depends on state help for its existence, which treats professors, school boards, principals and teachers merely as convenient tools to perpetuate its power, enable it to work with a longer lever and so make greater progress at the expense of those who are under the lever.

Marcus Hitch.

SOCIALISM AND FARMERS.

Have you any friends who are farmers? If you have you should send them a copy of "Socialism and Farmers;" by A. M. Simons. It is the last number of The Pocket Library of Socialism, and of the great body of farmers in the struggle of labor for freedom. The laborer must have their co-operation. the success of socialism. This little work demonstrates that fact from the point of view of one who has been both to his friends in the country. Send a example, the gas trust, had es them know that socialism is coming their way. Five cents each or ten for quarter, and we will mail them to separate addresses if you wish.

More than 75,000 men are said to b today walking the streets of New York seeking employment. Attracted by reports of the work to be done on the rapid transit tunnel, laborers from the four quarters of the globe are hastenby there in shoals. Every ship from Europe, every train from the West, would-be workmen. Men fight each other for jobs, and hundreds live on soup dished out by-charitable organizations and individuals.

In about eleven states there are laws loclaring vaguely that it is unlawful for employers to exact an agreement from employes not to toln a labor orother "labor laws," the statutes bearing on this question are a mockery, as capitalists need not go to the trouble of giving reasons for the discharge of workers. and is brought into court the judge comes to his rescue by declaring the law unconstitutional. The operation of the Ohio law is a case in point:

Laws prohibiting boycotting in speific terms have been enacted in Colorado. Illinois and Wisconsin. In praciically all other states, however, it is not difficult to make beycetting a misdemeanor. All that is required is for an employer to enter the courts and ruin his business, when an injunction is quickly issued outlawing the boyett. Se special laws are hardly needdi-Cleveland Citizen.

School Teachers on the Road to Socialism.

NECESSITY OF ORGANIZATION.

Teachers Must Ultimately Join Hands With the Working Class for Economic Freedom.

The history of teachers' organizations n the city of Chicago during the past three years is full of promise to the student of scientific socialism. fact that all social progress is based apon economic conditions, is remarkably illustrated by the rise and growth of the Chicago Grade Teachers' Federa tion, the largest teacher's organization in America or perhaps in the world.

Heretofore all teacher's organization had been organized upon ethereal Utopian plans. Never, did they include more than a mere fraction of the teaching force of the city. The great mass were some down upon too heavily by the ar duous routine of the schoolroom and the meager salaries to have enough surplus chergy and enthusiasm to devote to any such purpose. With fifty or sixty chill dren testeach in each room, under reg ulations and rules, which in man cases made a mere machine of a teach. er; thwarted, often in carrying out original plans, by an arbitrary high-salaried principal; made to fear the insecurity of tenure by the rumors of incompetence (in many cases an other name for wrong conditions); with the demand that teachers keep up with the times by taking courses of study in a Standard Oil university; is it any wonder that the teaching force seemed an inert mass, incapable of any con-certed action? And is it any wonder that when a small organization. was started for the avowed purpose of agi tating for increase of salaries, that this nert mass joined the movement in a body? It was organized upon essen tially trades union principles—a demand for better conditions for its members

A few attempted to cast odlum upo the organization by holding up thelr hands in holy horror at the spectacle of the teachers asking for money when they should be unselfish enough to be above such reprehensible salary-grab bing considerations. These same holy ones no doubt had been engaged individually in trying to get the better paying positions through favor of prin cipal, superintendent or board member. What was perfectly legitimate to do individually was indecorous when done collectively.

By the aid of the press, the pulpit and the "public" the board of education was induced to grant the increase asked by the teachers. In order to get this small concession, the teachers were obliged to enter politics to the extent of buttonholing politicians, etc. Again the holy hand; of horror were held up, but to no avail. It had been discovered that POLITICS was the only means to success in such matters.

The new schedule of salaries went nto effect January 1, 1898. January 1. 1900. Not only was this schedule sus pended, but also all increases allowed under the old schedule. Thus at one much more, had been lost. The only explanation offered was-not enough money in the treasury. In view of the fact that the SMALL PROPERTY without. The interests of both lie in MOLDERS were paying more taxes than ever before, an investigation was deemed in order. Then a most astound. ing (to many) state of affairs was disclosed. - Hundreds of millions of dollars worth of capital stock of corporations had escaped ALL TAXATION, One few to the "old folks at home" to let taxation on 50 million dollars. Enough had been discovered to pay all demands of the teachers and provide for al needed improvements for the whole city

Miss Margaret Haley and Miss Catharine Goggin were appointed the special representatives of the Teachers' Feder ation, to probe the tax scandals and compel the proper officials to do their duty in the matter of assessments These two teachers have taken a tem perary leave of absence from school and are devoting their whole time to and South brings its freight of this matter. They are strongly backed by the financial and moral support of the 3,000 members of the Federation.

It is a magnificent spectacle-thes 3,000 teachers making a herejo stand against organized plunder and greed of this great metropolis of capitalism. It is too soon to determine the immediate ultimate result no socialist can be in doubt. Already many of the teachers feel that there is no hope from the offi clais of the old capitalistic Republican and Democratic parties, but that an appeal must be made direct to the ducers. The brain workers must realize that they have common cause with the hand workers and that both must unite for common political action. It is tion robbery is but a small part of the robbery DAILY practiced upon the people by capitalism, and that the only solution is the common ownership of all the means of production and distribu-

But few of the holy hands of horro are now held up and some of these are seen to be soiled with the slime of capi talistic politics.

The teachers are almost a unit is carrying on this great battle, one of the best results of which will be to impress the teachers themselves with the fact that they must stand together, and with

the great working class in a warfare against capitalism which will result in

If equality of wages can produce feeling of equality then the teachers and OTHER WORKING PEOPLE ought to be very fraternal, as the average teach- (negle announces his determination to er's salary (considering vacations), is just equal to that of the unskilled laborers, and thus it is not too much to stead mills. In other words, hope that the teachers, the EDUCATED PROLETARIAT, will join hands with their brothers and help to usher in the Co-operative Commonwealth.

Chas. F. Lowrie.

FOR THE NEW ORDER.

Graduates of Parisian Universities Call Upon All Stadents to Unite for Socialism.

The attention of American college students and alturni is called to the allowing call for a meeting of socialists, students and graduates at Paris his fall. It is hoped that it will be as student course from a college.—In 181 at Brissels was asld the first international coursess of called a trident and sea decision.

held the first international courress of scelalst, students and graduates; in September, 1888, a second congress was held at Geneva. Since then, socialism, which has not ceased to increase its strength the world over, has made considerable growth within the universities, indeed today in Europe and America there are scarcely any universities without a certain number of students united in the great movement of emancipation of the working class, adhering to the essential conceptions of modern sacialism.

Socialism.

The present crisis éverywhere confronting liberalism—the doctrine to which mest of the Intellectuals the university men, werp so deeply attached, the development of a barbarous "nationalism" in France, the growth made by "imperialism" in England and the United States, the dangers with which militarism eyerywhere threatens the essential liberiles of the modern world—these have done more than all our efforts to bring close to us the most cultivated minds of the bourgeoisie. While the intellectual and moral disarray of the culing class are thus growing more and more evident to symptom foreteiling its contonic downfall), the socialist theory, born of the ceaseless struggle of the proletanist for its emancipetion, result of the labors of our great theorists and of the daily activity of the organized working class, this alone offers the new generation a scientific bals gnd often of life.

In many universities of Europe and America bodies of socialist students more or less numerous have already organized.

The group of Collectivist students of present crisis éverywhere con-

Mr. Carpegle does not propose to lower his 190 per cent dividends a pen-ny in order to pacify the men with better treatment or higher wages. his standpoint this would be silly. He will fight them with discharge and blacklist, which in some instances are synonymes for manacles and starva-

At the same time good Mr. Carnegie will found libraries by the dozen, as he has a perfect right to do. He will keep his army of red-shirted fire-baked laborers working on Sunday while he goes to church and prays for the salvation of their souls, as he is entitled

He will continue to combine his millions with other men's millions form trusts, but not for a moment must the thousands of men working for him think of combining anything but their muscles.

Yet Mr. Carnegle is fond of saying to the poor man, "Why don't you do as I have done?". With the limited opporfunities offered them this is just what Mr. Carnegie's employes are trying to do.-N. Y. Journal.

Yes, Mr. Carnegie will continue to do all these things as the Journal says, just so long as his workmen try to emulate his example and become capitalists themselves. When they have about given up this hope (and Mr.Carnegie, who doesn't want competitors, will be compelled to oppose them in this matter), they will see that the "limited opportunities" spoken of are only limited because it is to the interest of the class to which Carnegie belongs, that they should be so. They will then combine their brains first. and will see to it that no class shall be permitted to stand between them and the product of their labor as Carnegie and his class are now doing. The fact that they cannot do as he has done, is a proof that socialism is unavoidable,

The capitalist is not troubled about what class the teacher thinks he be longs to just so he gets the proletar-

Additional Book Offer.

Aiready many of the comrades bringing in their second and third list of campaign subscribers and are asking for some other book as a premium. In response to this request we will make the following additional offers: To anyone sending in two clubs of ten on the campaign offer, we will send a copy of Lissagaray's "Commune." or Sombart's "Socialism." These books are cloth bound copies on first class book paper and their regular price is \$1.00 and \$1.25 respectively. It is perfectly easy for any comrade to get either one or both of these books for his library and at the same time help the Call to reach many prospective converts.

Attention! Women!

The use of the hall at 65 N. Clark street is offered for the use of women's meetings. All women interested in socialism, and all whose husbands, fathers and brothers are interested are urged to attend the meeting on June 16.

The Money Question

Rev. Charles Vail Gives a Correspondent of the Haverhill Social Democrat the Socialist Aspect of This Subject.

your invitation to answer the questions otherwise. The use of metals as a asked by your correspondent in the following paragraph:

"Until we can bring around the triumph of the Social Democratic party at the polls, what is its position or attitude to the money question? Supse we should triumph, say next year, the bonds, and the silver question? Of course I know that most of the could get hold of, gold, too, and pay And when the coin was all couldn't complain or accuse us of fraud.

The above statement reveals a mis-

class. The republican party represents cratic party represents the small capfield of money making has been narrowed by the concentration of capital, sorts looking to the government to protect their interests, and save them from the encroaching power of the new capitalism. Realizing that the gold standard serves the interests of plutocracy, they have raised the silver banner, and hope, by depreciating the money standard, to pay off their indebtedness and thus re-establish themselves in the competitive combat.

The cry for a double standard is merely the cry of the perishing middle vested interests in money. The posses-This class is hopelessly doomed to bankruptcy; no change in the mone- pensed in goods, paid in regular annutary standard can preserve its economic existence. The double standard might have delayed its downfall, but bilt one hundred thousand dollars, it things would have soon adjusted themselves to the new conditions and the last state of this class would be worse than the first. The socialist knows that the bankruptcy of the middle class is the necessary outcome of industrial evolution. Those who advocate the free ceinage of silver do so in hopes of preserving the middle class But socialists are not interested in the preservation of this class, with its abominable system of industrial competition. Any measure that tends to rehabilitate this class is decidedly reactionary and anti-socialistic. whole question is merely a capitalistic be but a few generations at the most family quarrel, in which the socialist refuses to take part. Socialism is primarily a proletariat movement, silver barons and small proprietors generally do not interest us. The working class should not allow itself to be used as a tool to fight the battles of its exploit-Whichever wins, the laborers lose. Thus while the money question is of the utmost importance to the two branches of the proprietary class, it is of no interest to the working class as no benefits would accrue to laborers from any alteration in our monetary system so long as the means of production and distribution are privately

Socialists, then, are not interested in preserving or merely altering the form to talk of compensation, for it would of the monetary system-it being part of the machinery of capitalism-but in the door of equal opportunity to all, its abolition. Under socialism moneygold, silver and their representativeswould become superfluous. Socialism would solve the money problem then by simply abolishing it. In the unified socialist economy metallic money would serve no purpose. How, then would exchange be carried on? By labor checks, or certificates of labor note, is not greenbackism. The greenbacker wished to abolish the precious metals as money, but he also wished to keep the present industrial system which rendered his scheme impracticable. His notes would be pure flat, there being nothing behind them but the credit of the nation. It says: Here, take this note and go any where and exchange it for one dollar' worth of goods. This is absurd, since the goods do not belong to the govern ment, but to individuals. But under socialism, when the state of society is sole producer, there would be some thing behind the notes with which to redeem them. The notes would be is sued against the wares produced, and wealth behind it. These notes, checks or certificates of labor would be given formed and would represent the full value of the service rendered. For every day's labor a certificate would be issued against the values created, which would enable the laborer to exthe note for the product or for any other commodity representing a Of course, it will be understood that

under socialism the social-labor day is the measure of value. The socialist ram is thus seen to be strictly

dalism, then, there would be

It gives me great pleasure to accept | no coinage of gold or silver, free or medium of exchange is only a part of the present system of commodity production-it will form no part of the

The next question is: What shall

we do with the debts and the bondsthe national shonded debt, etc.? We what would they do with the debts and come here to the old question of compensation. The method of the inquirer of the in dealing with this problem is surely debts are fraudulent, that they were unique, but I fear it would not meet conceived in fraud and born in ini- with socialist approval. His statement, and that they are intended to however, regarding the nature of the be held by force. To my mind, there- debts to which he refers is right, and fore, the best way out of it, if we had it applies equally well to all capital power, would be to coin up (free All capitalist accumulation rests upon coinage of course) all the sliver we usurpation, spoilation and exploitation. He seems to think that if we take this property-of which the bonded debt is gone, pay the rest in greenbacks or a part-we ought to give in return all wheat, give them all we had, then they we have, lest the holders of this stolen wealth complain. But if capital now in the hands of the capitalist class is stolen property, why pay for its reapprehension of the fundamental printurn? Have not the laborers a right to ciples of socialism, and evidences that their own? Socialism simply proposes the writer has not yet freed himself to return to the laborers that which from bourgeoise economic conceptions, has been fraudulently taken from The Social Democratic party' is silent them. Any fraud or injustice in this? on the money question, for the reason All capital-machinery, factories, bondthat the question is of interest only to ed debts, etc .- represents the fleecing the two parties of the proprietary of labor. Surely no one can hold that capitalists should be compensated on the large capitalists, and, as such, it the ground of equity. The only ground favors the gold standard. The Demo- upon which compensation can be argued is that of expediency. Some think ttalists, or middle class, and so favors that if the plutocrats submit to their free silver. The middle class, whose expropriation in good grace, it might be expedient to compensate them for the actual capital invested. It may be have been devising schemes of all that if the transaction could thus be effected with less friction it might be advisable. When the socialists have triumphed, of course they can afford to be generous. But if the capitalists make the revolution a violent one, they will be dispossessed without compensation, as were the slaveholders of the South.

> But, here, note that those who have thought of a possible compensation have not thought of paying off the sor of this capital would be recomities until the obligations were satisfied. Suppose the state owed a Vanderwould pay him so much a year until the debt was cancelled. He could take his hundred thousand dollars in labor checks or non- interests bearing certificates of indebtedness, and use them as he pleased-only he could not cap! talize his wealth and turn his superfluity into a source of new income. It is readily seen that with this kind of compensation the vast fortunes of today, even if reimbursed to their full value, would only be a superfluity of commodities and would soon be dissi pated. No need then to interfere with bequest or inheritance, for it would before such families, like all others would be thrown on their own labor, and deprived of the privilege of living in idleness off the labors of others.

To compensate the capitalist, then not an ounce of silver or gold need be coined-all that is needed is to issue to those bought out, certificates of indebtedness to be redeemed in annual annuities for a term of years until the obligation is met.

But remember that if compensation is granted, it will be merely a matter of expediency, not of justice. It would eem to me, however, that if capitalists are expropriated simultaneously, and the present system at once rebe unnecessary. Socialism would open and would thus enable all to work and supply their own needs. But for the laborers to take their own without paying for it; does not necessarily mean that no temporary relief would be granted to the expropriated individuals. Socialism is, above all, human, and it would not allow any of these persons to suffer, but, if neces sary, would undoubtedly grant such relief as it deemed expedient until all should be adjusted to the new socia order. No worthy person would suffer

THE LOCAL SITUATION.

The Grand Jury Parce - Formation of "Unions"-Events of the Week in Chicago Labor Affairs.

The strike situation in Chicago has undergone several interesting changes ing some of the workers to shoot the in the past week. To begin with the farce of the grand jury was played to that it will bring out the class struggle a finish. They went through the forms sufficiently plain to make some of the of investigating the alleged conspiracy of the material men, and of course found nothing worthy of consideration. This simply adds one more proof, if shooting. The capitalists are to be such proof were needed for any but the armed with repeating shot-guns carryblind, that the grand jury, like the police, the courts, the army, and the allowed to use paving stones the same other paraphernalia of government, are as they always have. Probably a few but instruments to carry out the will of the owning class.

It was significant that while there was not a single bona fide laborer upon the fury there were two material men. It would seem that anyone not hope blind would see the ridiculousness of claiming that such a result could happen by chance. But there ems to be no limit to the blindness o some of those who are at present engaged in this strike, since they are still engaged in indorsing the master's candidates for office.

The contractors still insist, upon the dissolution of the Building Trades Council as a condition of settlement. This is of course not to be considered. as the principle of federated trades is absolutely essential to any effective resistance to the demands of the employers. It would seem as if this action of the Chicago employers was a part of a concerted scheme throughout the country, as the Kansas City bosses reently made the same demand and were able to force the men to accede. This was owing to the fact that some of the unions refused to stand by their brother workers and made individual bargains with the employers. It is a strange fact that while the union man has ever been fierce against scabbing by individuals he has not yet been able to properly condemn wholesale scabbing. They do not see that for a union to be tray the federated body is much worse than for a single man to sell out his union, while it is infinitely worse still when a federated body scabs on the whole working class by betraying them into the hands of the capitalist politicians as was done by the Chicago Federation of Labor last week when it indorsed a Democratic candidate for the legislature. It is worthy of note that he one man who refused to join in this wholesale scabbing was Comrade Col-lins of the S. L. P., the delegate from

The bosses have added another de mand to their conditions of settlement that renders a compromise still more impossible. About a year ago the osses, in apparent preparation for the present strike took up the old tactics that have so often been used to disrupt union labor. They assisted in the organization of an "independent" or scal union. Not having a DeLeon with an S. T. and L. A. to do the work for them they were not so successful as they might have been had they the valua-ble assistance of the "professor." However they succeeded in getting together quite a number of men who were or ganized into an "Industrial Trades Unon." This body has continuously and consistently betrayed their fellow laorers and done all they could to injure Now the bosses insist as a dition to a settlement that this body of organized traitors be treated as a genuine union and that its members treated in the same way and given the same privileges as the members of those bodies who have been bending all their energies to preserve and build up the standard of their class. It is demanded that the bona fide union men shall agree to accept as companions in their daily life and work, the most contemptible enemies of their class.

Finally the contractors make as one of the conditions to a settlement that no one who was a member of the Build- tend the ing Trades Council should be allowed to serve on the committee of settlement. In other words they from the begin ning bar the only men who are familiar with all phases of the situation and are competent to make a bargain. This of course is not asking for a settlement at all but for a complete surrender and the men are by no means disposed to concede. They are still in good shape to resist and do not propose to meekly surrender. Up to the present time they have given a magnificent example of trade solidarity. If they would only stand together politically as they ar now standing economically their victory would be within reach. But when they allow themselves to be sold out by political stool pigeons working in the interest of the class of bosses they are sowing seeds of weakness within their wn ranks that may easily prove the means of losing their present strike.

THE ST. LOUIS STRIKE.

"Best Element" in That City Mak

The class struggle in St. Louis ha had some rather startling developments turing the last week. As was menloned last week the street ear em ployes there are out on a strike and as sual the owners of government have seen invoked to enforce the "law and which had been established in the interests of the owners. First the police were called in, but not proving effectual in breaking the atrike, the federal injunction to "protect United States mails was used. Still the strikers did not go back to work and people did not patronize the cars. So a new turn was taken. Instead of calling our the militia resource was had to the legal process known as a Posse Comitatus. By this means any citizen may be called in to do the will of the bosses

But it has been significant in the St Louis troubles that only the "best citizens" have been summoned. That is, only those who belong to the exploiting class. In many ways this is a decided improvement over the old plan of hirothers into submission. ,It is possible fellows who are being shot at able to see that their interests are not the same as the fellows who are doing the ing buckshot, while the workers will be f the laborers will be fool enough to accept the challenge and get which will end the strike and send them ack to work with their fetters riveted

firmer than before. Perhaps they will sometime realize that there is one place where they can fight the capitalist class with equal veapons and where they are sure to and that is at the ballet box. Meanwhile about 2,000 men who are known to be "reliable" supporters of apltalism are preparing to fire upon selpless mobs of strikers in St. Louis. It is a horrible way to educate, but we predict that this shot-gun army will make more socialists than an equal number of crators preaching the doctrines of Karl Marx.

SHUT DOWN --- SHUT OUT,

Closing of South Chicago Steel Mills Leaves 3,500 Workmen to Face

Starvation. The big steel mills of the steel trust t South Chicago shut down on last Saturday and 2,500 wage slaves find themselves without a master. Already soon result unless something is done. The mills are still there. The men have ill the skill that they ever had, mines are unexhausted. There are countless places where steel could be sed to contribute to human comfort. But because no further profit can be made upon the labor power of these vorkers they are turned out to starve

A few weeks ago a short description of the conditions under which these laorers work was printed in these columns. It was pointed out how these works were a great slaughter house for the helpless wage slaves who were cre ating wealth within its walls. But if their condition was bad then it is worse now. Then they had at least a chance to dodge the molten metal and danger ous machinery, and if successful reeived enough to keep them alive. Now there is nothing before them but star-

vation or charity. Yet as we said before all the instru ments of production are still there with hands willing and able to operate them and produce wealth. But the LEGAL OWNERSHIP of the things which were necessary for production was in the hands of a class who could not themselves use them and would not allow others to use them unless a profit could be made from their toil. Sometime those laborers will awake to the fact that it is to their interest to own the tools with which they work co operatively and then they can use them as long as there are people needing the goods produced and themselves receive all that is produced.

LOCAL NEWS AND NOTES.

Cambridge, Mass., Mar. 26.-Harvard will send two representatives to Paris

Prof. Thos. E. Will will address the "Federation for Social Justice" at Hull House, Haisted and Polk streets, Tuesday, June 12th, at 8 p. m.

The Twenty-fifth and Twenty-sixth Ward branches hold open air meetings every Sunday at the corner of South-port avenue and Roscoe street, at 3:30 p. m. All comrades are invited to attend these meetings.

Members of the Fourteenth War-ranch are requested to attend the usiness meeting of the branch to eld at Shoenhofen's hall, Milwauke and Ashland avenues, at 10 a. m., o Sunday, June 10th. Business of im portance is to be transacted and all comrades are earnestly requested to at-tend this meeting without fall.

A vaudeville trust has been formed and the performers who have heretofore been earning good salaries, are apprehensive, (and good reason they have to be), that this move desn't exactly mean prosperity for them. "All the world's a stage," and as the trust owners only want the world, the trustification of the stage follows as a matter of course.

It seems that the usual form of invitation to a socialist meeting is altered for the eneeting tomorrow afternoon at 55 N. Clark street. In place of the husbands being invited to "bring their wives." the wives are graciously permitted to "bring their husbands." in case the latter are not needed at home to take care of the baby lin its mother's absence! Well, it is time that some changes began for women in this world, as well as for men.

world, as well as for men.

The National Tube company have closed down all their branch houses, with the exception of those in New York, Chicago, Pittsburg and San Francisco. This will result in the displacement of more than 800 employes, and the combine will effect a saving of not less than \$1,000,000 per year. This is an example of thrift upon the part of the ruling classes which will necessitate a similar line of conduct upon the part of the displaced workmen—al least until they strike another job.

The DeLeon socialist section in Fort Wayne, Ind., has left the New York oss and joined the "Kangaroos." day the boss holds an alleged nationa convention in New York. It is ru mored that Hickey and Keer will be the presidential ticket.-Cleveland Cit-

A daily socialist paper called "Lucta' (the Light), edited by Jose de Macedo, is now published at Lisbon

AUSTRIA.

The government has introduced a bill for limiting the working day in mines to nine hours a day, i. e., 54 hours a week. If the masters wish at any time to work more, this will have to be assented to by a joint committee of mas-

GERMANY.

A committee of the Landtag—the lo-cal parliament—of Bavaria has agreed to the socialist proposition that delegates of the miners be allowed to assis in inspection of the mines.

The worst clauses of the Heinze law ave been rejected by the Reichstag This absurd bill was strongly sup-ported by the Centre (the Catholic party), who urged the government to carry it at any cost as a set-off to the Conservative support for an increase of the fleet. The son of the German chan cellor warned the government som time ago that they were doing a very foolish thing, especially in allowing th socialists to have the credit of opposing t, and this will certainly increase their influence.

There is a strike of men employed by the Berlin transways, and the police have shown great brutality in putting down a manifestation of the strikers

HOLLAND.

At Haarlem, at a recent election for he States-General the socialist candl date, though unsuccessful, obtained 33 votes. This is a distinct advance ecause in 1897 he only succeeded in getting 156 votes.

ITALY.

The Italian government has been una le to carry on the government with the chamber, though they have nominally a majority and though they have just adopted very stringent rules for closing the debates. The chamber has been dissolved and a new election is to oe held on June 3 (all elections are held on one day, a very good thing), and the second ballots on June 10. The cham er is to meet on July 6. There are now fifteen socialst deputies, but they hopto be 30 in the new chamber. But the government will exercise much pressure by suppressing meetings, compell inig newspapers to leave out certain articles, etc. It was not for this that men died under Garibaldi and Mazzini

RUSSIA.

Kieff, an important town in Russia is now the scene of a great bakers strike. About 1,000 men are involved including foremen, journeymen and apprentices. The demands are a twelv ours' day, with half an hour for break fast and one-and-a-half hours for din ner; an increase of wages-£7 a month for foremen and £2 10s. a month for journeymen-and a corresponding in crease for apprentices; Sunday rest better sanitary conditions and better food; and courteous freatment. Th police are doing all they can to suppress the strike by means of arrrests and forcible "dragooning;" 57 men have already been thrown into prison. But the workers are gallantly holding out Who is to relieve them?

The first of May in St. Petersburg, as in other large industrial centres, has been signalized by an immense amoun of proclamations and various other publications, as well as by arrests. The police arrive at a place about ten in the evening and wait till somebody comes Then they arrest him, and wait further In the House of Preliminary Detention there is no room to live. Many have been transferred to the fortress, and the new arrivals are placed in the socalled "Cross." However, it is all an every-day occurrence. There was nothing regards arrests to distinguish the 1st of May from other days.

ONE SOCIALIST VOICE.

d Against the Entrance of Scat Polities in the Chicago Federa-tion of Labor.

The following clipping from the Inter-Ocean is self-explanatory, and show what one S. L. P. man is doing in the labor union world. Even if Gomrade Collins was not successful at this time it is something gained that such work cannot be done without a protest.

Politics again entered largely into the pusiness of the Chicago Federation of Labor yesterday, and occupied a con-siderable part of the afternoon's ses-

TEACHING AS A BUSINESS.

Reasons Why the School Teachers Should Make Common Cause with the Working Class.

In his memorable speech before the Bryan undertook to define the words "business man," and mentioned several examples, such as farmer, laborer, etc., claiming that these were business men The fact that he discussed those words at all is a striking admirsion of a truth that we all recognize, viz., that we live in an age of business; business elects our presidents; business makes our laws: business declares war and concludes peace. The only constitution and bill of rights that is now recognized, is business interests. If a man is not a business nfan he is simply not in it. Is the teacher a business man? As we are not running for president we can afford to tell the truth, and we must frankly say that the teacher is not a business man and is therefore not "in

In The Workers' Call of December 30, 1899, we made some remarks on teachers' salaries. As many of the readers of this issue may not have seen that article we make no apology for reproducing part of it here:

There are two kinds of work, viz. There are two kinds of work, viz., productive work and acquisitive work. Productive work is that which increases the total product of society; acquisitive work is that which merely transfers from one member of society to another without compensation what is already produced or the opportunity to produce. Those engaged in productive another without compensation what is already produced or the opportunity to produce. Those engaged in productive work are called the proletariat; this class includes school principals as well as the teachers under them. The wages of this class are just enough to live on, no more. Those engaged in acquisitive work form a subclass wholly under the influence of the ruling capitalist class and intimately connected with it. Their business is not to produce anything nor to superintend production, but merely to get business, get trade, get custom away from other persons without compensation and draw it to the concern they are working for. They are working to get work for ther employes to do and so increase the number of their employes. These acquisitive workers are the men who become part owners of the concern, or else set up in business for themselves. There is, strange to say, no natural law limiting their wages, as there is the wages of productive laborers.

The Chicago Tribune of December 23, 1898, gives some instructive interviews with acquisitive laborers on this sub-

their wages, as there is the wages of productive laborers.

The Chicago Tribune of December 23, 1899, gives some instructive interviews with acquisitive laborers on this subject. The vice president of the First National bank says: "The bookkeepers and tellers in the banks do not consider their opportunities for advancement better than those offered in teaching. We have old men among our clerks, men almost ready to go on the superannuated list. They have been clerks for years. We have 250 men in the bank with about six official positions to be attitained. The bookkeepers' salaries range from \$1,200 to \$1,600."

The president of the Illinois Steel company said: "There is no safe comparison to be made between the salaries offered in a manufacturing industry and those in teaching or any other profession. The opportunities in manufacturing are unlimited and the salary depends largely on the man. The rank and file of clerkships in the industry will pay from \$1,200 to \$1,800."

An attorney said: "There will be some enormous salaries in a manufacturing industry, but directly under the posessors of these positions there will be a drop."

A member of the firm of Marshall Field & Co., said: "There is no limit to the salary which a house will pay to a man it needs. A good commercial man can make more money than a man in the professions."

All of these interviews go to show that the wages of productive laborers are fixed by natural law and never rise above a decent living; but do nothing else, are practically unlimited or are limited only by the amount of business which they can take away from others and thereby reduce all others to the condition of productive laborers, pure

limited only by the amount of business which they can take away from others and thereby reduce all others to the condition of productive laborers, pure and simple. Between the wages of the acquisitive laborers and those of the productive laborers there is a "drop," as the attorney said in the above interview.

Business has now come to mean acquisitive work, such as gambling in real estate, grain, stocks, bribing public bodies and getting franchises, in short away a part of the product which others have produced. Teachers cannot engage in this kind of business; they have neither the time nor the capital, nor the peculiar character and stomach required for it. They are confined to common productive work and receive standard producers' wages, that is, just enough to live on and no more. wages will never be raised so that they can save anything as a class. If they are taken care of in old age it will be by their relations and friends. The canitalist state will throw them on the

scrap heap,

business of the Chicago Federation of Labor yesterday, and occupied a considerable part of the afternoon's session. Objection was made to the endorsement of A. H. Drew as a candidate for the Democratic nomination of the legislature in the Eleventh districts. The committee on resolutions reported favorably upon the endorsement of M. Drew. He was a delegate to the Federation some time ago and filled the position of chairman of the grievance to committee, besides being a member of Typographical Union No. 16.

A motion for the adoption of the report brought Iselegate John Collins.

Well, anyway, said Delegate Collins, 'I don't think this federation ought to indorse him, as he is running as a candidate for the party which is well-known to be owned and controlled by the capitalist classes, the same as the Bepublican party is 1 don't think it is the business of this federation to indorse any candidate for office, and I am opposed to it on principle."

The question was discussed for nearly an hour, and it finally ended by a vote to indorse Drew. tested against the endorsement of Drew because the federation did not know what ticket he was running on.

I' would like to ask the chairman of the committee on resolutions what Mr. Tollins. 'I never asked him his politics," s.fa Chairman E. A. Davis, in a non-parity as a place for the "investment of chairman E. A. Davis, in a non-parity and party as a place for the "investment of chairman E. A. Davis, in a non-parity and party as a place for the "investment of capital," will see that theory knocked endways when socialism arrives.

Send in a club of ten this week.

Socialist Labor Party of the United States.

PLATFORM.

The Socialist Labor party of the United States, in Convention assembled reaffirms its allegiance to the revolutionary principles of international socialism and declares the supreme political issue in America today to be the contest between the working class and the capitalist class for the possession of the power of government. We affirm our steadfast purpose to use those powers, once achieved, to destroy wage slavery, abolish the institution of private property in the means of production and distribution, and to establish the Co-operative Commonwealth.

In the United States, as in all other civilized countries, the natural order of contonic development has separated society into two antagonistic classes—the capitalists, a comphratively small class, the possessors of all the modern means of production and distribution, (and, mines, machinery and means of transportation) and the large and everincerasing class of wage earners, possessing no means of production.

This economic supremacy has secured to the dominant class the full control of the government, the pulpit, the schools, and the public press, thereby making them the arbiters of the fate of the working class, while it is reducing it to a condition of dependence,

making them the arbiters of the fate of the working class, while it is reducing it to a condition of dependence, economically exploited and oppressed, intellectually and physically crippied and degraded, and its political equality rendered a bitter mockery; and the contest between these two classes grows ever sharper. Hand in hand with the growth of monopolies, goes the ambiliation of small industries and the middle class depending upon them. Ever larger grows the multitude of destitute wage workers and of the struggle between the class of the exploiter and the exploited, the capitalists and the wage workers.

the exploited, the capitalists and the wage workers.

The evil effects of capitalistic sproduction are intensified by the recurring industrial crises, continually rendering the existence of the greater part of the population more precarious and uncertain, which amply proves that the modern means of production have outgrown the existing social order based on production for profit.

A MATTER OF CHEAP LABOR.

How Californian Capitalism Consumes the Censumptives.

The beauties of the competitive system are well illustrated by the following description of one phase of the economic conditions that appear in California at present. It has often been said that capitalism, in its frantic desire for ever cheaper labor, presses into Its service those who are but just beginning the journey of life, the infant children of the working class. This robbery of the cradle finds its complement in the new method of extracting surplus value from the unfortunates whose time upon this earth is practically measured with certainty by the ravages of consumption. The fact that these doomed individuals have sought out a locality which promises a few months of existence than they could expect in their native states, has not been allowed to pass unnoticed by the capitalists of the "golden west," who were quick to appreciate the fact that here was a supply of cheap labor which could be profitably exploited, and that the supply might be reckoned upon with certainty. It would be contrary to sound "business" methods to allow any possible labor power from which profit might be extracted, to through the grist mill of capitalism, also, and now the political wiseacreand for this reason the consumptives are consumed as follows:

are consumed as lollows:

"What they call 'consumplive competition' out on the Pacific coast has certainly become a grave problem," said a visitor from California at one of the hotels. "From San Francisco to Los Angeles the country is simply overrun with one-lunged individuals who have emigrated from the east to save funeral expenses and are willing to work for anything that will keep them alive. The trouble is that most of them are so distressingly competent. I know men who held positions at their old homes that paid them \$5,090 a year who are willing and anxious to go to work for \$5 a week. Of course, the services of such chaps are in demand, and they are rapidly filling all the good jobs to the explosion of healthy retives. of such chaps are in demand, and they are rapidly filling all the good jobs to the exclusion of healthy natives. I was talking to the proprietor of one of the larrest hotels in Frisco the other day and he was boasting about his crack office force. There's my head bookkeeper,' he said, 'he used to be general secretary of the 'Steenth Avenue Street railway in New York and is one of the finest actuaries in the United States. My chief clerk was formerly manager of the Victoria in London. He speaks four languages.

"You must have to pay them fancy salaries,' I remarked. "Oh! I don't know,' he teplied, the bookkeeper gets \$15 a month and the clerk 120. Of course,' he added, that includes board,' Without exaggeration that's a fair samtion at once.

sis a month and the clerk 120. Of course, he added, that includes board. Without exaggeration that's a fair sample. To be sure, the average consumptive doesn't last very long, but another is always ready to take his place, and the way those who are employed size up the incumbents of good positions and calculate their chances of holding on is somewhat horrifying to an outsider. They will chaff one another about it too. I was in a big dry good store recently when a hollow-cheeked gentleman sauntered up to one of the department managers and asked him how he was feeling. Having high sweats, eh? he said; then I suppose I can take hold here about October. But don't hurry on my account. Take your time, old man, take your own time. Consumptive competition was was really behind the late effort to have a bill passed restricting cases of tuberculosis from entering the state. The talk about infection was all a bistf. It was a MATTER OF CHEAP LABOR—same as the Chinese."—New Orleans Times. Democrat.

The visitor from California who gave the foregoing details, very appropriate ly remarked in the beginning that the subject constituted a "grave" problen which it certainly does in every sense of the word, both for the "distressingly competent" ones and the "healthy nastory shows in a vivid light the vampire nature of the capitalist system of duction, the shastly and sevoiting numerical cannibalism perpetrated in the dring, in whose "distressing princey" and cheap labor, the po-

Human energy and natural resources are wasted for individual gain.

Ignorance is fostered, that wage slavers was be perpetuated. Science and invention are perverted to the exploitation of men, wemen, and children.

The lives and liberties of the working class are recklessly sacrificed for profit.

Wars are fomented between nations, indiscriminate slaughter is encouraged the destruction of whole races is sanctioned, in order that the capitalist class may extend its commercial dominion abroad and enhance its supremacy at home.

home.
The introduction of a new and higher order of society is the historic n of the working class. All other of despite their apparent or actua flicts are interested in the upholo filets are interested in the uphoiding of the system of privage ownership of the means of, production. We therefore sharge that in this country the Demo-cratic, Republican and all other parties which do not stand for the complete overthrow of the capitalist system of production are alike the tools of the capitalist class.

The working class can not however, act as a class in its struggle against the collective power of the capitalist class except by constituting itself into a political party, distinct and opposed to all parties formed by the propertied classes.

a political party, status, and opported to all parties formed by the propersied classes.

We, therefore, call upon the wage workers of the United States, without distinction of color, race or sex, and upon all citizens in sympathy with the historic mision of the working class, to organize under the banner of the Socialist Labor party, as a party truly representing the interests of the toiling masses and uncompromisingly waging war upon the exploiting class, until the system of wage slavery shall be abolished and the Co-operative Commonwealth shall be established.

Pending the accomplishment of this our ultimate purpose, we pledge every effort of the Socialist Labor party for the immediate improvement of the condition of labor, and also for the securing of its progressive demands.

"Workingmen of all countries, unite! You have nothing to lose but your chains, and have a world to gain!"

bly more than the employment of the healthy native could afford. The incident of the "hollow cheeked" gentleman and his calculation as to the length of time likely to clapse before he could "take hold" of the situation which his dying competitor still occupied, might be fittingly used as a text to illustrate the "brotherhood of man" under the hellish conditions which today are labeled 'modern civilization." To complete the picture, a bill aftempting to restrict the supply of cheap labor of this type from entering the state, is defeated ig nominiously, the classes to whom the consumptives stood as a source of gain, seeing at once that it was "bluff," an effort to deprive them of their "legitimate profit," which could not be tolerated under any circum stances. So "freedom of contract" i thus secured to the "healthy native" and the "distressingly competent" con sumptive, who are yet ignorant that "competition (between them) is the life

The anti-trust amendment to th constitution has been knocked out, by the political past masters in the art of bunkum. It was a most simple oper ation. A sufficient number of Republi cans absented themselves so that the constitutional vote - required for amendment could not be obtained. The leave this world without passing Democrats voted solidly against it declars that the trust question has been killed. The capitalist tools, both Re publican and Democratic, have by this action once more made their sincerity a matter of record. They have decided that the trusts cannot be made an is sue this time, so the fooling of the working class must be continued upor the lines of prosperity, patriotism, 16 to thing will do that fetches the votes

Europe has many ably edited reviews expounding the principles of Socialism, and enabling sundents of social problems to exchange their sidess. America needs such a review, and to this end A. M. Sneows, lately editor of the Workers Call. and now vice-president of the Chicago publishing house of Chicages H. Eran & Contany, has in a recent journey arranged with the leading European socialists to assist in establishing The International Socialist Review, the Erat number of which appears July 1, 1903. Every civilized country will be represented by its ablest socialist writers, and some forty-eight of the aixty-four pages of the REVIEW will be given to the interchange of opinion. The following departments will be regular features.

1. Review of the events of the month from the socialist point of view.

z. News of the socialist movement in America. 3. Review of economic developments and labor troubles, with special reference to the trade union movement.

4. Foreign correspondence: News of the socialist move-neut the world over. Every student of socialism, and also every opponent of will find that he needs to read THE INTERNATIONAL

protest against this infamy. He sees It is significant that while the capi- those states deliberately undoing the jest he is silent, but he prates about "the flag."

Speaking literally, a riag in-itself is an indifferent thing, neither good nor will admit that a flag is emblematic). the ideas that it represents determines the qualities of good or bad that may be ascribed to it, and this in turn de pends upon the ideals (judged by actions) of those who gather round it. As these change, whether for good or evil, so the attributes of the flag also change. Some years before the Civil War, Chas. G. Halpin denounced the stars and stripes in a poem which appeared in the New York Tribune, one line of which read, "Tear down that flaunting lie," because under its folds at that time the fugitive slave was retwned from the North to the tende mercles of his Southern owner, yet this did not deter Halpin from fighting unoottom they are responsible for all they Kinley glorifles that flag, utterly oblivious of the fact that the sacrifices then made are being wasted, and that ar even worse fate than chattel slavers in the South by such champions of the 'common people" as Tillman, Jones such Republicans as McKinley, Depev

There is a reason for the slience of the latter and the class to which they This infamous work in the South is but a prelude to the disfranchisement of the working class in the North. The "patriotic" capitalists above mentioned know this, and knowing that such attempt will become ne ingly dumb upon this question.

OUR SPECIAL NUMBER.

are glad to be able to report to our subscribers that the Special Educational Number of this paper, issued last week was in all respects a distinct success. The orders for copies are still pouring in, and a fresh edition of this issue will be necessary to supply the demand which is being made. It been the object of the management gaged in the education of the young that could possibly be reached, and se been done. The gratifying reports which have already arrived concerning the extra circulation of this issue are a convincing proof that socialism is even more ripe for the harvest than had been previously supposed. A conbeen required to put this number be fore the public and it is satisfactory to know that the effort entailed has not been without results. It is our intention to push this special issue until every demand is supplied, and we ask the co-operation of our comrades, subscribers, and all who are interested in the socialist movement, to help in the work of placing it if possible in the est strongly appeals. We stand ready to supply sections, branches, socialist roups and individuals with whatever copies they may require, and strongly urge upon them the necessity of giving this special issue the widest possible

THE PARTITION OF CHINA.

Last week the attention of the read ers of The Workers' Call was directed rred to as having "just happened." their advent several other thing: "happened" for which they onveniently furnished the pretext Chat the partition of the Chinese em fact which has never been denied. That it has only been kept intact by the which exist between them is equally true. At length, however, to all appearance, the time for the dividing-up cess has arrived. The flects and amies of several of the would-be partitioners are now held in readiness to adjust the distribution of the plunder according to

"The good old rule, the simple plan, That he should take who has the power, And he should keep who can."

A half-mad emperor, a designing dowager empress whose schemes after all will prove of little avail against the wers of hungry capitalism, a "patri otic" populace, whose "patriotism" takes the not uncommon form of hatred of all foreigners, all these considera tions go to show that the propitious movement has at length arrived, and the preparations that are now being made for the general scramble which is expected to mark the disappearance of the Celestial empire, justify the conclusion.

But another self-appointed legate has also appeared on the scene, "jus happened," also as it were. The U. S government, which heretofore gloried in its "splendid isolation" and which imed upon its citizens that the prin ciples upon which it, the freest govern ment in the world" was founded, for bade all interference with the rights of foreign peoples and the governments hich they chose to live, is now found amongst the other vultuse elamoring for a share of the expected rion, and signifying its intention

with battleships and fighting men, at- SNAP SHOTS BY THE WAYSIDE, ter the manner of the effete monarchie of Europe whose actions in this re entrance of this new candidate as a world power" amongst the others has also necessitated a change of attitude on their part, a re-arrangement as it were, to admit the newcomer and still preserve the balance of power intact. That the end of this will see the dis-

olution of the Chinese empire, eithe

by "spheres of influence" or, literal possession, cannot be doubted. As to the part that the United States is taking in the game it will be judged differently from different standpoints. The Republican party representing the interetats of great capitalism will disguise the nature of the action under hose high-sounding phrases of "civili zation, "progress," etc., etc., to which we have been partly accustomed since the war with Spain, and which have been worn threadbare already in Great Britain. The small capitalist and "antiexpansionist," identified largely with the Democratic party, will unavailingly "deplore" the departure from the ment was established," etc., and denounce the "greed" of those whom they conceive to be engaged in "destroying this republic," while the socialist, knowing that the material interest of a ruling class have throughout all history been the determining factors in deciding the movements of nations and communities, will see in the partition of the Chinese empire merely confirmation of the materialistic conception of history, the economic necessity which chases the capitalist class over the whole surface of the earth the need of a constantly expanding market which compels them to "settle everywhere, establish connections everywhere" on pain of economic extinction. This is what is now "happening" and the socialist, though no prophet, has long forseen it.

Circulate These Leaflets.

Those "Questions to Bryan," by E V. Brewster, that were published in the Call two weeks ago and then printed in a leastet form are just the thing that everybody wants to hand out in a street meetings, to pass around when you go to the union, to leave in street cars, to drop in hallways, to scatter around Democratic conventions and other, meetings, etc. It seemed as if everyone who saw the first edition was exhausted by advance orders before it came from the printers, the second is practically gone, and the third will be ready in a day or so. Arrangements are now being made to run them off in hundred thousand lots and to sell them for cost of press work and paper. We will send five thousand by express to one address, receiver to pay express charges, for \$1.75. If a section wants to take fifty or a hundred thousand so they can come by freight they will be made at a still lower rate There is a place on the back to stamp in the place and date of meetings with a rubber stamp if desired. Bundles of one hundred, postage prepaid, fifteen

Book Premiums

The postal card system of securing subscriptions is proving a great suc cess. It is so simple and easy. All you have to do is to take the subscription price and hand over the card. We do the rest. But the special election offer is almost out and so we want to himself to make other socialists. best way to do this is by owning and reading good literature. We propose to make it possible for everyone who wishes to get some of the best socialist works published, and this without any red tape trouble. Look at the fol-lowing offers and decide which of them ou will take advantage of:

Send in one dollar and you will receive cards good for a dollar's worth of ither yearly or six months subscriptions, and a choice of either a copy of the cloth-bound edition of Engel's Socialism, Utopian and Scientific, or fifty cents' worth of the Pocket Library of Socialism.

For two dollars an equal value of cards good for subscriptions will be given and a choice of either Lissararay's History of the Commune, So cialism and the Social Movement of the Nineteenth Century, or any dollar's worth of the Pocket Library that is de-

P., at its last session, a delegated meeting of the section is hereby called for the purpose of discussing matters of importance, and ways and means of holding the various conventions necessary for the pending campaign. The meeting will be held on Saturday, June 16th, 8 p.m., at Wellington Hall, 70 N. Clark street. Branches are hereby requested to elect ive delegates each for this meeting, and furnish them with proper cre-

If necessary, secretaries of branches should call special meetings for the

By order of Central Committee. Jan. S. Smith, Sec'y.

We notice that a large number of the en who have taken the places of the St. Louis street car strikers come from Cleveland and Milwaukee. This, which seems probable enough, is easily acounted for. A large number of men have been blacklisted by their employ ers in those cities, and there is no doubt that many of them, driven by want, have supplanted the striking street car men in St. Louis.

The present capitalistic hell depends largely for its continuance upon the fact that men can be starved into be coming the ready helpers of the class who oppress them. In vocations where special training is not a prerequisite, the ability of the workers to offer re sistance is fast disappearing.

It will not be difficult to perceive that the constant improvement of the factor in destroying the skill of the worker and rendering him less and less apable of defence against exploitation And as all improvement of machiner tends toward the point where the ma ily be deducted that the progress of modern capitalist production ultimate ly means the thorough enslavement o the working class. - But with this process grows the feeling that no redres can be obtained except through united action at the ballot box.

But this united action cannot be a complished by trying to lead the work ing classes in a spirit of revenge against the Republicans in one locality or the Democrats in another. It can only be achieved by uniting every where on the one Issue, the overthrough of the system of private ownership in the means of production, and its sub stitution by collective ownership. Or that question the working class must ultimately unite. Whatever false ideas they may follow in the meantime, the inevitable discovery of their faisity will have the effect of bringing them into the ranks of the socialist army of emancipation, as it even now is doing.

The politicians, who thanks to th stupidity of the workers, guide the destinies of these United States, are loudly proclaiming that Bryan cannot secure the presidential nomination unless he consents to abandon the 16 to 1 fetish. Bryan is first, last, and all the time, a politician. He will drop any thing, everything, to get a chance at the loaves and fishes. And those wh shout for him, and expect a share in the spoils as a reward for their lung exercise, will be found equally compliant. The sacred 16 to 1 will be uncer monlously discarded when an "Issue that promises more success as a getter can be discovered.

But whether McKinley or Bryan b elected, so long as the private property interests stand dominant, no change for the better in the conditions of the working class may be expected. The same platform as regards that ques tion. The merely represent the antagonistic interests of two competitive groups of individuals of the plundering class, a quarrel with which the work ers have not the least concern.

It is possible that Bryan may be elected. Suppose he is. What might be expected to happen then? A glance backward at very recent political events may help us. The only manne in which the future can be judged is by the experience of the past.

Cleveland was elected in 1884. And the excuse put forward by those now pushing Bryan, was that during that term, Grover was unable to "do any thing" for the "masses" because of a hostile Republican majority in the senate. He was elected again in 1892, and with him an immense majority of scheme. Every socialist ought to fit Dempcrats in both houses. The period of complete control which they enjoyed from '93 to '97 will not easily be forgot ten. One of its most glaring produc tions, one that is indelibly impresse upon the minds of hundreds of thou sands of workingmen, was the invason of the state of Illinois by the regu lar troops in 1894 as a result of great A. R. U. strike. Thousands of blacklisted workingmen who have been outcasts ever since, have good reas to remember the great things which Cleveland and his satellites "done for them" in that year.

Then McKinley was elected. And the workmen were fooled again. The re membrance of the dastardly outrage perpetrated upon the workers during the last four years of Mark Hanna's administration is hardly necessary to

And now some papers are already de to fear from the election of Bryan for the reason that an opposition majority in the senate is already assured. Which means that a term similar to that of Cleveland's in 1884 may be expected. It is merely a question of how long the working class can be fooled into march ing into the capitalist shambles.

So far as the socialist movement i oncerned, the political field seems to be rapidly clearing. There will, after all, be only one socialist ticket in the field, no matter what the outcome may be. Those who place the cause of so cialism above all else, are uniting their forces in spite of the feeble efforts of disappointed would-be "leaders." The union-smashers have declared them selves and their intentions in that re-spect being similar to those of the capitalist class, they need 'no longer be reckoned as socialists. The others who still oppose unity may busy themselves excuses to support Bryan, as they did

The situation in the building trades has not altered perceptibly during the last week, in spite of the falsehoods published in the press, and notoriously so in that union-hating sheet the Tribune. This paper, which is a very Mephistopheles regarding union mutters, had the lying effrontery to pub lish an account of the bricklayers withdrawing from the Building Trades Council. The union itself, by'a unnantnous vote to the contrary, demonstratd the lie. Then this same inventive organ asserted that union men and scabs were being generally employed together on the same job, which the next day was proven to be a lie, in its own columns.

All of which proves, amongst other hings, the necessity of a socialist daily paper in this city. Such a want becomes every day more and more evi-The workers must have the ing to the struggles in which they are engaged, from a source whose interests are identical with their own.

In Italy, as in Belgium, the workingnen, unterrified by the powers that be, have again succeeded in immensely increasing their representation in the egislative chambers of that country. They have made good their pledge that Signor Colombo should never preside in the chamber again. Our capitalist press, as may well be imagined, does not care to dwell much upon this, to them disagrecable subject.

But all the same the fact remains and is ever present under any and all circumstances in every capitalist country in the world. Even in England the triumph of Roberts at Pretoria is not nearly so much an object of interest to the workingmen, who are beginning to turn their attention more and more towards the subjects of shorter hours hild labor, old age pensions, etc., subects which lead up to the recognition of the class struggle. This is as it should be, and no attempt to ignore or underrate its significance and prevent its spread. But at present the capitalist policy with regard to the growth of socialism, is one of silence. They say, "Let us not speak of it."

The workmen of Holland are putting all their energy to obtain universal suffrage, and the trades unions are also taking an active part in the agitation. The ruling class of Holland, who well thow to what use the workingmen will put the power they are trying to secure are stubbornly contesting the matter. We in the United States have yet something to learn from our European brethren. The Dutch workmen are fighting hard for this power, which they intend to employ for their own emancipation, while here we stand idly by and see hundreds of thousands of workmen in the South deprived of the franchise, without uttering one word of protest. We may yet suffer for this stupid apathy. When the negro is disfranchised, it may be our turn next. The socialist, at any rate, will not keep silent while this infamy is being perpetrated.

The "Federation of Woman's Clubs" nave met and elected a southern woman as president. She will draw the color line so far as lies in her power, not because she has any 'enmity against the negro. Ch. no! For did not the lady say that she was doing all she could for the negro, and did she not praise the colored race as being the best demestic servants in the world?

But they must learn to "know their Oh, yes! "Their place." And when all the working people "know their place" in present society, when they understand how they have been used and abused by those who pretend solicitude for their welfare, there will be an end of the nauseous hypocrisy and insolent patronage expressed in such gatherings as the "Federation of Women's Clubs."

There is a growing suspicion amongst local "statesmen" that socialism would eriously injure the ward-heeling in-

CORRESPONDENCE.

Ohio State Convention.

Ohio State Convention.

In accordance with action taken by the Ohio State Union of the Social Democratic party, and the State Committee of the Socialist Labor party (anti-DeLeon), a joint convention of the two bodies is hereby called to meet in the city of Columbus, Ohio, Wednesday, July 4th, 1906, at 10 o'clock a. m., for the purpose of nominating candidates for tha state offices to be filled at the coming November election: selection of presidential electors, and the transaction of such other business as may be decided upon.

Each branch or section shall be entitled to as many votes as there are individual members in good standing. Any duly selected delegate shall be entitled to one vote for each member whose name is signed to his or her credentials, no member shall sign his or her name to more than one credential:

Branches or sections not sending

Branches or sections not sending

Branches or sections not sending their own delegates may select those of other branches of this state to represent them; provided that in each case the delegate shall hold the proper credentials with signatures attached.

All signatures of members attached to credentials, as above provided, shall be certified to by the officers of the branch or section to which they belong. The officers of each branch or section shall forward to the secretary of their respective state committee, not later than July 1, 1990, a list of the delegates selected by the branch or section, with the number of credentials held by each, etc. Blanks to be supplied by state committees.

committees.
Chas. R. Martin.
Secretary Ohio, State Union, S. D. P.
M. S. Hayes,
Sec'y Ohio State Committee, S. L. P. Piace of holding session, etc., will be furnished locals later.

Missouri State Convention.

The socialists of Missouri met in state convention in the City of St. Louis, June 2, at David's hall, with 250 dele-gates representing both the S. D. P. and the S. L. P. The convention was harmonious throughout and placed splendid ticket in the field. They it dorsed Debs and Harriman as the pres dential ticket and the following stat-ticket:

Governor-Caleb Lipscomb, Liberal, Lieutenant-Governor-Leon baum, St. Louis.

baum, St. Louis.
Secretary of State—Wm. H. Stripe,
Kansas City.
Treasurer—Wm. H. Brandt, St. Louis.
Auditor—L. M. Richeson, Kansas City.
Attorney General—John F. Delaney,
Kansas City.
Railroad Commissioner—Thomas Hessler, Harviell.

ler, Harviell. Supreme Court Judge-Albert E. San-

Supreme Court Judge—Albert E. Sanderson, St. Louis.
Judge Court of Appeals, Eastern District—M. Ballard Dunn, St. Louis.
Judge Circuit Court, Western District
—N. B. Vaughn, Kansas City.
Presidential Electors—G. N. Kuntz,
Kansas City, and R. D. Morrison,
Milan.

The convention adopted Social Dem-cratic party as the name The follow-

The convention adopted Social Democratic party as the name. The following resolution was adopted:
That this convention congratulates the Amalgamated Association of Street Railway Employes' of St. Louis upon the grand struggle they are making for the rights of free men and we pledge ourselves not to ride on the cars of the St. Louis Transit company during our presence in the city of St. Louis as delegates to the state convention.
That we call upon all labor, organized or unorganized, to raily to our standard and ald us at the ballot box in an endeavor to abolish the evils of the capitalist system (an example of which is furnished by the strike of the St. Louis street railway employes) by the substitution of the public ownership and operation of the machinery of production and distribution in the interest of all the people instead of its private control by a few capitalists in the interests of corporate greed and regardless of the consequent suffering inflicted on the masses of our citizens.

We publish the following correspond ence by request of the undermentioned branch of the S. D. P. in New York.

Washington St., Chicago, Ill.
Dear Comrade:—We are urprised to
see in the Social Democrat: Herald of
June 2nd. a communication signed by
James Allman, (Comrade Allman is not
a member of our branch and never has mess Allman, (Comrade Allman is not member of our branch and never has en), stating that New York Branch 5, 20 had returned to its allegiance to e party; also that communications ould be addressed to J. Hay, (Wm.

Wm. Hayes has never been our secre tary, neither has he ever held a charter of any branch of the S. D. P.; our char-ter is now and has always been in the ossession of Comrade Wm. Sanger. We, Branch No. 20, wish to state that We, Branch No. 20, wish to state that we have never renounced our allegi-ance to the S. D. P.; that Ernest Spran-ger is our recognized secretary, J. H. Rowe, our treasurer, Wm. Sanger, or-ganizer; and that we have done nothing contrary to the constitution of the party. We therefore wish you to cor-rect, this statement in your next issue. Yours fraternally.

Yours fraternally, N. Y. Branch No. 20, S. D. P. Ernest Spranger, Sec'y. -317 East 149th St., New York.

The "color line" was recently drawn n Alabama—over the branch of a tree and with a colored man at the end of it.

Is there no professional "sympathizer" willing to champion the cause of the "Boxers?" Where's Mason and

Capitalism will prove about as im nable as Pretoria was said to be.

LETTER BOX

On the Pacific Slope.

On the Pacific Slope.

Mr. Editor:

On my way northward in search of a job, I stopped over a few hours in this little town; a friend handed me a cory of your excellent paper which I read over carefully; by the way, I had seen several copies; and I was always favorably impressed with its honesty and fearlessness in the wage-workers' cause. You would hardly think fnat there is a strong socialistic sentiment in this neck of the timber; but such I found to be a fact. It is not all confined to the workingmen; but it prevails among the business men, who have suffered from high taxes and the land boom, which swamped so many. I heard that the Social Democauts had a section here presided over by a lady of culture. I didn't learn her name. The advice has been to young men to go West, but many find themselves locked out here, as well as elsewhere on this slope; in fact the country over. The next step they will have to take is into the far north, or into the sea. But what will it matter, the Japs are coming over by the shipload to take the places of the poor and disinherited whites? The mills here claim that they yill have to shut down if the strikes go on in the building trades in your city and elsewhere; then the wage-earners will have the right to get hungry and study politics and shout for a great and good country that denies the means of a livelihood to worthy men and women. The women here being less numerous, have better opportunities than the men; but their sisters will hear about it and will come in and compete with them, if they are not forestalled by the Japs; then they will be no better off than their sex in the East. But enough of this, it is the same old tale of injustice and exploitation. If socialism prevails, things wouldn't be thus. Why can't we present a united front? The robber class like to keep us split up. The field is good here in Washington and you may expect to see her climb right along.

Yours truly.

U. H. Morris.

—Olympia, Wash., June 7th, 1900.

Yours truly. U. H. Morris. Olympia, Wash., June 7th, 1900.

A Denial From Saginaw.

A Denial From Saginaw.

Editor of The Workers' Call:
The article in the Social Democratic Herald saying that the socialists of Saginaw don't want union is a false-hood. We are unanimous for union, and nething else. Only one man in Saginaw, whose name is Jones, opposed it, and its only a personal matter with him, We must have union.

Yours.

John W. Clark.
—Saginaw, Mich., June 6, 1900.

At the last meeting of the Central Committee of Section were five localities in which there were nearly names enough to form new branches. All Chicago readers of the Call who really wish to do some work for socialism should at once send in their names to this office, when they will be turned over to the organizer, and the sender will be notified of the nearest organization if there is one in his immediate neighborhood, and if not he will be notified as soon as sufficient names are received to organize a branch.

Count Tolstoi is engaged in writing book detailing the effects of excessive hours of labor upon the Russian railway employes who often work thirtysix hours at a stretch. It is said to be a terrible picture of the human degradation which always marks the wage system. The growth of capitalism in Russia carries with it the same horrors and infamies which marked its progress in England during the first half of the present century, and which are so vividly described by Marx in his famous chapter on "The Working Day" contained in "Capital."

The report that the union men are about to establish a lyceum, as an educational institution for organized workmen, sends a cold shiver down the spine of that champion of "law and order" the Chicago Tribune. It fears that the workingmen may make dircoveries which it is to the interest of capitalism to conceal, and evidences a lively curiosity as to what form the "education" spoken of will take. Tribune will be able to see the result of such movements as this in an everincreasing socialist vote.

Special Campaign Offer.

All comrades who collected clubs on the Special Campaign Offer are requested to send them in as soon as possible, as the names are already ing set for the mailing list and it will cause less expense if they are sent in in time to be set in the regular course of the work. Not that we want the comrades to stop getting clubs before the first day of July but it would be a great convenience to us if those already gathered wgre sent in.

By the way, there are some of the comrades that have not yet sent in any club at all on this offer. There is plenty of time for all such to get in It is dead easy. Remember we send the Call for the twenty numbers from the first of July until the number after election for fifteen cents, in clubs of ten. That is just the time when socialist votes are made.

All through the week there have been countless rumors of compromises and igreements to end the strike in the Chicago building trades, but as yet nothing definite has resulted. There is a general feeling on the part of the politicians that it must be settled somehow. soon or the laborers will not be willing to fall in line for election. This uneasiness of the politicians is much heightened by the continued interest shown by the strikers in the doctrines of socialism. Almost every union is beginning to discuss in a m regular way the principles of socialism, and it is evident that unless something is done soon thousands of the Chicag workers will have learned to vote as they struck by mext election.

Have you any Call postals in your

Woman and Socialism

Address by Mrs. A. M. Simons Before the Socialist Womens' Meeting 65 North Clark Street on June 10th Inst.

I wish this afternoon to state as proven. briefly as possible the position of Ty do this with any degree of clearor more and begin with woman as she little cottage was a workshop or facor wove or made shoes with his appren-The workman owned his tools the finished article was sold he received resistance. its full price as pay for his labor. To what extent | wage system. To many of you the ideas have women thus entered the labor of socialism are already familiar, to market? In the United States there is others, perhaps, there have been outscarce an industry, from the heavy lined this afternon for the first time form work of the South or the mines of They may be reduced in a word to this: the central states to the factories of The recognition of two economic class-New England, that has not been re-cruited from among women, until to-one a body of producers, the other idcruited from among women, until today near 4,000,000, not counting the lers; that the rapid concentration of thousands of wives and mothers em- capital in the hands of a few points ployed in the home work, are actively engaged in industry

This line of thought you have fre

seemed necessary to dwell on it once more that we might clearly see that them for the good of society, not for the the problem of the workingwoman has profit of a few. Again some one objects grown up with that of the workingman and is inseparable from it. What then power, in politics she has no existence is this problem? Under the old domestic system the workman owning labor the full price of his produce. Today men and women own no share either in the factory in which they work or in the machines or material. They receive for their labor but living wage. We see society sharply been long in this state of stupor. Now divided into classes. In the hands of recognizing the extent to which, be one class lies the ownership of all the tools of society that men and women must use in order to produce. To them goes all the profit of the toil of labor: in their hands as well, lies the ownership of the working class itself, since to them we must sell our labor-power that we may live. This class produc nothing for society in return for wha they receive; like those famous lilles, "they toll not neither do they spin. "Poverty is the share of labor the portion of the idle," says the old German writer. Long ago a part of our laboring men recognized these conditions in industry; they saw their class growing ever greater; the tools of industry passing into the hands of fewer ver, who no longer performed any useful labor, and they set themselves the task of pointing out these conditions to other workingmen, that the laboring class might seize as their own and profit by the change that is destined to come in society. Workingwomen, though making up such a yet either actively engaged in this movement or recognized its vital interest to them as a part of the laboring

Today the time has come when work ingwomen must see where their interest lies, cast in their lot with workingmen and work for the economic freedom of their class. But someone ob- nomic freedom. jects-women are not on the same economic plane with men, they do not rework, have never organized in unions, most? First, we naturally ask, does with men in this movement. If the the things that socialist women seel over 60 cases in 100 men receive duplication of machinery; it is not the Territory, gher wages than woman for the same machinery of organization but the end in the Work. But the final case is not yet it produces that we are fer. Such an negro wh

Wages, whether of man woman, child, negro or foreigner, tend wonen industrially, the problem that always toward the subsistence point, as working comen we are bound to that is, the least on which one can live face, and the one evident solution of it, and perpetuate his kind. Capitalism recognized that this point was lower niss we must go back a hundred years with women than with men form the or more and begin with woman as she first and before ever a trade union in worked in the last century. At that the modern sense was formed women fime we find all industry organized on were receiving lower wages than men a domestic basis, that is to say, each But if this is only a question of sex how shall we meet the fact that women tory where the master workman spun are so frequently underbid in the labor world by workers with a yet lower standard of life than their's, who at and the materials be used, and when the same time show the same lack of

> For instance, the shirtmakers of this enter the trade, He, from certain extremely low standard of life, and has little power of resistance. We find him, therefore, constituting the great majority of the workmen in the "sweated

> Stronger physically than the women shirtmakers they could run the machines longer, and willing to work even cheaper than the women, the latter oon found themselves constantly underbid in the labor world, and eventual-

ly their union was destroyed. Again the Chinaman, living on his few pennies a day, can easily compete Numerous other instances go to prove woman from lack of that in the economic fight it has been The new machines, with their little power of resistance who has been women, since they were cheaper to the piles of steel and iron, hired by thousands of women and children that est, and asks no questions. As to trade work and unguarded machinery. Our unions though continuing to work for wonder. Enough to say that every step pure and simple union has well-nigh advanced to a new point where political action alone counts. If you are in In this way came the great change a trade where a union exists unite with out plainly to the laboring class the way in which to change this order of things, by their political majority they quently heard traced before, but it must gain possession of those things with which men must work and operate

How can she aid in the socialist movement, which is a political movetools and the materials received for his ment to emphasize the fact that the laboring class will gain its freedom through the ballot? Workingmen fought long years for the ballot, but before that was a period in which they cause of this fact, she is bound and her consequent less power to effectually aid the socialist revolution. The socialist woman will use every opporlot, and where better can we work for this political right than within the soialist party, the one political party that stands for equal suffrage for men and women?

but woman has no vote, no political

We may hesitate from going into thi movement from a sense of our own ignorance. The one remedy is, begin to think and read. Education cann be provided by shutting away the source of knowledge. We must enter on our training, and the school in which to learn must be the socialist sections. Take a part in debate and discussion. We have never been trained in this? Neither have many of the working men beside us, but think you they would offer that as an excuse for ne taking a part in a struggle for their own life, that perhaps never knew a childhood, but began work before th great part in the labor world, have not beginning of an education, of the long years of work with only a bare existence to show for it, of the horrors of uncertain employment, the struggles to bring up their children and the future that they must face, and whether wives or mothers or unmarried women as workers and members of an ploited class we unite to gain our eco-

Finally, the question arises in what way can we best undertake this work ceive the same wages for the same and where make our effort count for and cannot therefore, work side by side an organization exist that aims at all olish? If it does and we are ely admitted to it, then we want no

organization does exist in the Socialist Labor party. That touches hands with the laborers all round the world. It is to this organization that the workingcomen of other countries are slowly but surely turning in Belgium and France and Germany, in Austria and England. They are moving from every nationality. Shall-we behind them in this struggle for our freedom? I do not believe the workingwomen are so blind to their own interests. First of all let us rouse ourselves to unite at once with this socialist party, But, objects some girl, I cannot speak in the meetings and I cannot even at tend them often. You can take a party paper, read it, go to meetings when ever you can, talk to the girls beside you at the counter, in the kitchen, or at the same machine, and awake then to their condition. Is not your fre worth at least this small effort? If not we are the most abject of slaves. Some wife says, I can do even les

You will not be able to attend the meetings, perhaps you are tired right, but after all is done, read the socialist papers. Some neighbor come to your house, talk to her of socialism is not your freedom worth this small effort and the freedom of your chil dren?

Aid the party press by getting as many subscribers as possible for its papers; distribute its literature.

Now to make our work effectual it is necessary to carry it on continuously and not in the fitful way it has hereto fore been characterized by. It would seem wise, therefore, for every woman to at once unite wish the branch of the S. L. P. nearest to her; that in addition there be recommended to the Central Committee the name of some woman with the request that she be elected to the organization committee, her work to consist in distributing socialist liter ature among women, informing then of meetings and bringing in new names of women members to the different branches.

At Peorla and Madison streets las Sunday evening a very large audience istened to Comrade Klenke's exposition of socialism. Close attention was paid of socialism. Close attention was paid to the speaker's remarks and much discussion ensued after the conclusion of the address.

On Sunday afternoon a well-attented meeting was held at California and North avenues, where Comrades Collins and Goodspeed addressed the audience. Their remarks were well received, and many subscriptions for The Workers' Call were gathered.

The 7th Ward Branch will mee hereafter in Porges'-Hall, corner of Maxwell and Jefferson streets, on the first and third Monday of each month for the conduct of the business of the branch Members of the branch will please take notice of this change. Next meeting, 18th inst, at 8 p. m.

A most successful meeting was held last Sunday at 65 N. Clark street, by mittee as a member of the organization

Open air meetings were begun by the 3rd Ward branch Saturday evening, at 2nd street and Commercial avenu-5outh Chicago. Chairman Stifhoff 2nd sfreet and Commercial avenue, South Chicago. Chalrman Stilhoff opened the meeting with some pointed remarks, after which Comrade Klenke made the principal speech of the even-ing. A large crowd was present and 50 copies of The Workers' Call were sold. Meetings will be held every Satresent and Call were

It may not be out of place here to ob-serve that the term "a good meeting," so far as our outdoor propaganda is concerned, has changed considerably during the last two years. The phrase now indicates the number of people who can crowd within hearing distance of the speaker, while a year or two ago, an audience numbering one bunder, or the speaker, while a year or two ago, an audience numbering one hundred was considered a very large congregation. In connection with the above we also remark that the "it will never come in your time" objector is not nearly so plentiful this year.

LABOR ITEMS.

In St. Gall two seats were gained. Similar local incidents show a gratifying increase in socialistic sentiment in the little republic.

THE "TYRANNY" OF TRUSTS

An Attempt to Confuse the Laborers by "Roasting" Rockefeller and Havemeyer.

The New York Journal, which fo me time has been posing as a "friend of labor," with an eye to the candidacy of Bryan in the coming political cam caign, is at present rather foud in its "sympathy" vorkingmen whose "oppression," oring to the Journal, is largely due to the "baneful effects of the-trust" which are operated by the Rockefellers, Have nyers and others.

The following "denunciation" of the above named capitalists is a good example of the balt set forth to be nib bled at by the political gudgeons upor whose votes the little capitalists hopo ride into power next November. It is implied without actually saying so that the treatment accorded to workingmen in the employ of the petty producer is infinitely more humane than is to be hoped for at the hands of those who control a trustified industry.

Not that the article in question doe at conthin a certain amount of truth enough to be dubbed "socialistic" by those sentimentalists who suppose that by 'roasting" Rockefeller in the public press something of great moment is ac complished, but the evident Intentior of the article is without doubt, to in duce the workingmen who read it to range themselves politically alongsidthe middle class exploiters, whom the trusts are rapidly driving into bank ruptcy. Here is the batt, and it is in genious one:

W. R. Hearst, Editor the Journal?

"I see a great deal in your paper about the oppression of workmen by Rockefeller, Havemeyer, and other big financiers. How is it that we do not hear anything from the workmen themselves about oppression? Is it not a sign that they are contented? What ills are they called upon to endure?

M. D. O."

We do not remember having said any thing about the oppression of workingmen by Rockefeller or Havemeyer, except through the baneful effect of the trusts which they operate.

However, the subject may not be altosether barren of interest. THE SILENCE OF WORKINGMEN IN GEN.

worst of it. The is not the

Mr. Havemeyer buys the beer at holesale, and sells his workmen

"The silence of workmen is not the silence of contentment, but the silence join with other socialists in a political of wisdom," which is quite true while organization and work in co-operation nothing better than making futfle complaints. But 4s not the power of the small exploiter equally efficient in compelling the same kind of silence upon the worker? Both possess exactive the same power of compelling it.

The treatment accorded to the emparticulars in this issue.

smug tool of capitalism.—Haverhill So- was simultaneous throughout the four ployes of Rockefeller and Havemeyer provinces, shows that an organized is foolishly described as "useless op-Over fifteen hundred workmen in the movement existed. Several thousand pression" and "petty extertion" on the simpley of the McCormick Harvesting peasants from the country around Kieft part of the labor skinners. The writer marched into that town surrounded the of this is not so ignorant as not to relief from their distress. The students that his readers are. Mr. Rockefeller discharged during the next ten days.

Evidences of "prosperity" like the bond of the mob, which stoutly resisted owns the Consolidated Gas company above are of commun occurrence. the attacks of the troops sent to diswhich is operated for profit, not for 'oppression," and above all, not for Professor Sumner, who holds the trian frontier the infuriated peasants "useless oppression." The trust elimi-thair of political and social science in stormed the local magistrate's official nates the "useless," which means everything which does not conduce to the business of profit-making. The attempt to hold an individual responsible for what is inherent in the conditions of capitalist production, is at once ridiculous and contemptible.

Why any sane man should expect Havemeyer to sell beer at cost price passes our understanding. It would be just as sensible to expect him to sell his, sugar upon the same principle, that is, without profit. He shifted the bur-den of the war tax on beer onto the shoulders of his workingmen. why not? What capitalist does, or could do otherwise? We are then have been elected at Chaux de Fonds asked, if this is not "petty extertion and eleven at Locle." what is it?" Well, the writer has answered his own question a few lines beshow first victory for the socialists in fore. He says it is a "very fine profit" Schwyz, where two seats were won; in for Mr. Havemeyer. The two statements don't hitch very well together.

The terrific heat of the gas houses and sugar refineries no doubt makes "physical wrecks" of the workmen engaged in them, but it is not for that purpose that Rockefeller and Havemeyer own and control them. They are held primarily for the purpose of making profit, and even the "terrific heat" which engenders the "terrific thirst" is also turned into a source of profit. There is nothing "useless" around those establishments from the capitalist point of view.

But the Journal is careful not to point out these facts to the dupes whom they expect to whip into line for Hryan and the small exploiter. The system must not be attacked while the latter see a chance of imitating the Rockefellers and Haveneyers in "oppressing" the laborers. When this hope utterly fails the Journal may perhaps point out these things but not before. The workingmen will have to stand the "baneful effect of the trusts" until they gradually get intelligence enough to take them for their wn use, and during this process, the little exploiters will continually drop into their ranks, which will have the effect of changing their views as to the 'mean and sordid oppression" exercised by those whose power of aggregated capital has forced them there

instead of attacking the individual capitalist, they will turn their attention to the system itself. Instead of "sympathizing" with the victims of exploitation they will find it necessary to join with them for its abolition, and from all present signs that day is not

SHIRKING THE BURDEN.

Unattached Socialists" Cannot Advise the Party While Refusing to .
Join with It.

There has been considerable talk during the last few weeks of "unattached socialists," and we are told that they should be consulted in the present party crisis. As a matter of fact the term "unattached socialist" should be one of reproach, and is the surest of all signs that its possessor should NOT be allowed to have any voice in determining organization and policy. It simply means that the person in question, while conscious of the nature and importance of the socialist movement has LENCE OF WORKINGMEN IN GENERAL, IS NOT THE SILENCE OF WISDOM They do not care to be kicked out of positions, however miserable, through indisearest complaints.

Men working in the gas houses of the money kings work for ten and twelve hours a day in a temperature ranging from 140 to 150 degrees Fahrenheit for \$1.75 to \$2.00 a day. Is not this useless oppression? Mr. Rocketeller owns the Consolidated Gas company.

Over in Mr. Havemeyer's sugar refinery, in Williamsburg, big strong men come to work only 10 utility and the strong men of the workers to achieve socialism. If he really is a socialist then he knows that the first step toward socialism. If he really is a socialism is 'the political organization of the workers to achieve socialism. If he really is a socialism is 'the political organization of the workers to achieve socialism. If he really is a socialism is 'the political organization of the workers to achieve socialism. If he really is a socialism is 'the political organization of the workers to achieve socialism. If he really is a socialism is 'the political organization of the workers to achieve socialism. If he really is a socialism is 'the political organization of the workers to achieve socialism. If he really is a socialism is 'the political organization of the workers to achieve socialism. If he really is a socialism is 'the political organization of the workers to achieve socialism. If he really is a socialism is 'the political organization of the workers to achieve socialism. If he really is achieve socialism. If he really is achieve socialism. If he called the first step toward socialism is 'the political organization of the workers to achieve socialism is 'the political organization of the workers to achieve socialism. If he called the he he workers. He knows that nothing can be done until that organization of the workers. Leading the land the moderation of the workers to achieve socialism. If he called the nothing can be done until that organization of the workers. Leading the workers that no avoided all the burdens of carrying on

Over in Mr. Havemeyer's sugar re-inery, in Williamsburg, big strong men some to work only to quit again after a few mouths, when they have become obysical wreeks, and other strong men their small size. It would be impossible for the child-like tactics that have places. en work in a temperature of degrees. Fahrenheif. And marked some features of the "late unabout 150 degrees Fahrenhelf. And what is their pay? Just 14½ cents an hour for ten hours' work. Does this look like anything but mean and sordid oppression? Does it not look like man-killing at \$1.50 per day? of the present organizations. Not that sions. Not at all, it is apt to even interrific heat generates an equally terrific thirst, which Mr. Havemeyer turns
to profit. Magnanimous Mr. Havenever furnishes his men with unlimited quantities of beer. Free? Oh, noAt cost? Not a bit of it.

At cost? Not a bit of it. or permit themselves to be deceived

At cost? Not a bit of it.

Mr. Havemeyer buys the beer at wholesale, and selle his workmen twenty-five tickets for one dollar. Each ticket is good for one glass. The men used to get thirty tickets for one dollar. Each tinto effect Mr. Havemeyer put the burden upon his workinsmen by reducing the number of tickets.

Mr. Havemeyer now receives four cents for every glass of beer sold to the workmen to whom it is a necessity. This gives Mr. Havemeyer a very fine profit. As the men drink at least ten glasses each per day, their wages are brought down to about one dollar a day for ten hours work, in a heat calculated to raise visions of hell.

Does not this look something like petty extortion? If not, what is it?

We are glad you asked us about this matter, as it is one in which we are deeply interested.

"The silence of workmen is not the lieves himself to be a socialist is to lieves himself to be a s Then if things do not go to suit him power of the he will at least have a chance to make efficient in his influence felt at a point where it

> It is easy now for every socialist to have the best books on socialism. See have the best books on so particulars in this issue.

To all members of the S. L. P. and S. D. P. in Illinois, greeting: :-

You are hereby fraternally invited to elect delegates to represent you in a State convention to-be held July 4th, in Chicago at 70 N. Clark street, 10 a. m., for the purpose of nominating a united socialist state ticket, and to take such other action as may be necessarily related thereto. The basis of representa tion is five delegates for each section or branch. Credentials should contain names and address of delegates, name or number of branch and section, and locality and signature of chairman and secretary of the meeting electing delegates and date of such meeting.

In considering and acting on this call we request your careful perusal of the following statement of principles and historic facts which are essential to a correct conception of the importance

Socialist principles are the same the world over, but forms of socialist orcal or national circumstances. Under lying all forms of organization and all methods of action, one universal principle is dominant; this is called selfgovernment, the rule of the membership. The usurpation of this right, the violation of this principle, is in all cases an attack upon the very principle of socialism itself.

Usurpers have appeared and will continue to appear in the socialist move-ment, claiming the right to rule on the ground of exceptional ability,' virtue, sacrifice, etc., Capitalists honor these claims. Socialists deny them.

Socialism and the socialist movement rests solely upon the ability, virple and common MEMBERSHIP.

The socialist movement in the United States has had its share of these usurpers. Some are forgotten, others have marked its history, and still others are now following those who have gone before.

The unseen and the unknown members of socialist organizations make and maintain the stage on which these transients play their comic and tragic parts. These "common" members work as best they can for socialism: in this work they exhibit ability, courage, endurance and sacrifice unsurpassed. Yet usurpers who strut on this stage refer to this work as "a movement which does not move," and to these workers in the shadows and in the silence, as unclean and unfit for their associa-

It is important to note that the founding of the Social Democracy was not a protest against the usurpation of power by the "leaders" of the S. L. P., but was based on a supposed discovery of a short road to socialism, along which economic relief could be had by all socialists who could see the advantage of this short cut eyer the longer route traveled by the S. L. P. and the international socialist move-

This bright filusion faded in on year and the new "leaders" of socialists confessed their mistake and thdorsed the international socialist pro-This exhibit of assumed infailibility and public confession of error proves that these "leaders" are very man, just common clay, pressed into various shapes by the power of cir-

It should not be forgotten that the new shape given to these leaders of the S. D. P. was due to the influence of able socialists who had left the S. L. P.; in fact, the new organization was must be suppressed. And there is a practically made up of these comrades, most peculiar fitness in the United and whole sections of the S. L. P. that repudlated the usurpers in that party.

While this process of elimination from the S. L. P. and assimilation by

between the two organizations and the paper: thought and desire for unity was a natural result. Almost before this desire for unity found expression, how-"leaders" of the S. D. P. manifested a spirit of opposition by sud-denly changing the fire of their literary and oratorical genius from the overthrown usurpers of the S. L. P. to those who had re-established its selfgovernment. These attacks were followed by the formulation of a "diplomatic" message to the Rechester convention of the S. L. P., notifying that body, that the S. D. P. would assimilate the S. L. P., but would not unite with it. The convention read its meaning aright, and with good temper and fraternal good sense voted unanimously for union with the members of the S.

When the S. D. P, convention met, the "leaders" were solid against union, but were not frank and open in their the murderous wretches who torture opposition. They were forced to resort to "diplomacy" again. They made no dence to justify their bellish work. En charge of uncleanliness or lack of honesty, etc., etc., against the S. L. P., and the convention Itself gave the S. L. P. fighting men to prevent occurrences of esentatives a hearty welcome.

It declared for unity, preferably un-der the name of the S. D. P. It de-pertance than workers at home. clared the S. L. P. were good fellows and comrades and that the S. L. P. Chas. F. Burgeman, secretary of the candidate for president would be a Mental Science Association of Sea splendid running mate for Debs. and Breeze. Florida, will deliver a series of that with unity and that ticket, a millectures on "Science and Health" in in November. In this spirit of unity Athenaeum Building. The opening lec

the members of the S. D. P. and S. L. P. waited expectantly for their forma plan of union, these "leaders" prepared the "Manifesto," and in issuing it be was astounded, even the experience of the members of the S. L. P. had not prepared them for such an utter disregard of socialist principle and common sense. With one despotie sweep these usurpers brushed aside the ac tion of two national conventions, reportunity of the membership to exam ination, discussion, adoption or rejection of the committee's report.

There was no emergency to prompt them: to this inexcusable action. The committee's report was not ready for publication when these usurpers raised the cry of treason, and publicly branded comrades as traitors and tricksters whom the convention had selected and frusted. By this "Manifesto" they assumed the power of despotism, they denied the fundamental principle of socialism and socialist or ganization.

They fore to pieces the convention's enthusiastic conception of a united party and a million socialist votes and in its place set up a slanderous picture of treachery, fraud and imbecility in the socialist movement that drew roars of delight from the capitalists

They followed this up by a schemto block union in this state. A state convention was called. The request of the S.L.P. for a united convention was refused. A ticket was nominated and resolutions "diplomatically" drawn to deceive were sent to the S. L. P., demanding the exit of that party from the political field.

The S.L.P. notified these leaders that it would not do that, but desired a united convention and united ticket Our members and organization desire this, and a general mass meeting of the members of the S. D. P. and S. L. P. voted unanimously for such union. This mass meeting adopted resolutions unanimously in support of self-govern ment, in condemnation of all usurpation, in favor of unity and ratifying the nomination of Debs and Harriman

The "leaders" of the S.D.P. have not heeded either our communication or the resolutions of this mass meeting, and still block the way to unity, therefore we address this call for a united convention July 4th next direct to you wh are members of the S. D. P., for these "leaders" and usurpers have placed themselves beyond the further consideration of self-governed socialists, who love the cause of socialism more than they esteem individual "leadership."

We invite all who are free from such "leadership" and who can see the ab surdity of two socialist parties strug gling, not for socialism, but for the political supremacy of a few persons, to send representatives to this conven tion, and unife the socialist foregs of this state.

Fraternally. The Illinois State Committee. , R. A. Morris, Recording Secretary. 65 N. Clark St., room 1. Chicago, June 8, 1960.

Got Them Right Here.

We must protect our missionarie against the "Boxers." We positively cannot allow these brutal villains to slaughter the pioneers of capitalism which we are ever ready to send amongst them. The wretches are actually trying to prevent their race from embracing modern Christianity, or be ing embraced by modern capitalism which amounts to the same thing. They States stepping forward to. barbarism" in China, for within ou own borders, the "Bexer" methods of persuasion are in full blast without at S. D. P. was in progress, the reign tracting undue attention upon the part of the usurpers ceased and self-gov- of those who flare up with indignation ernment was re-established in the S. when something similar appears ten thousand miles away. On the 5th inst This change removed all differences the following appeared in a morning

Mobile, Ala., June 5.—A mob of Hansboro, Miss., took a negro named Askew, accused of murdering a girl named Winterstein, from the Mississippi City jail at 11 o'clock last night and carried him to the home of Winterstein, near Riloxi, where the Winterstein, near Riloxi, where the Winterstein child was murdered Saturday afternoon. Mr. Winterstein, the father, was called out, and all went to the woods, where the crime was committed.

There the hegro was put through an ordeal with the intention of forcing a confession. He was strung up by a rope and later fire seems to have been used, for the report of the Register is that "Askew is hadly burned." The negro continued, however, to protest hishmocence. He was returned to the jail at 5 o'clock this morning. Mayor Nash telegraphed to all points for suspects to he held.

This unfortunate man, a citizen of

This unfortunate man, a citizen of the United States, was thus treated hot because he was proven guilfy, for him could not find the slightest evithey go unpunished, and the United States sends additional warships and the same nature in China. Missionaries

lion socialist votes could be harvested the Athenaeum Hall, 26 Van Buren St. and with this conception of its results, ture of this course will be delivered or the convention developed a state of Friday, June 15th, at 8 p. m., and the the convention developed a state of Friday June 18th at 8 p. m., and the emotional enthusiasm never before succeeding addresses will be given at the same hour on 'the 18th, 17th and The 'leaders' returned from this 18th. THE INTERNATIONAL SOCIALIST REVIEW

On the first of July we shall issue the first number of the monthly review under the editorship of a. M. Simoas, under the editorship of a. M. Simoas, undil lately editor of The Workers' Call, who has recently returned from studying social conditions in Europe. The socialist movement has now reached the point where it can claim to offer the only philosophy pointing the way to a positive solution of present-day problems. Its constantly increasing strength at home and abroad makes it a force with which all must reckon. In Europe the best minds of the colleges and universities are dayoused to expounding its doctrines and a majority of the leading economic reviews are under the direction of socialist writters and tionsers. Editorially the attitude of the Review will be strictly in accord with the recognization.

Con or scenalist writors and tomicers. Editorially the attitude of the Review will be strictly in accord with the recognized principles of international socialism. Signed articles will, however, be welcomed from writers of all schools and parties who accept the socialist ideal, however they may differ as to methods and tactics. We are convinced that a free and full discussion is the shortest and best road to the general acceptance of the methods and tactics of international socialism by all who aim at the establishment of the co-operative commonwealth.

The International Socialist Review will be the first periodical in the English language to bring together to any extent the original contributions of the great socialist thinkers of the different countries of Europe. It will also publish each month letters from foreign correspondents giving the latest news and a review of the situation in each country. Here is a partial list of those who have already promised to write: France—Paul Lafargue, Jean Jaures Jean Longuet.

Belgium—Emile Vandervelde, Henri Lafontainey Emile Vinck, Mine, Lalla

Belgium-Emile Vandervelde, Henri Lafontaine/ Emile Vinck, Mme. Lalla

Kufferath. England-H. M. Hyndman, Walter

England—H. M. Hyndman, Walter Crane, Samuel Hosson, H. Quefeh, Keir Hardie, J. R. McDonaid.

Italy—Dr. Alessandro Schivi.
Denmark—Dr. Gustav Bang.,
Arrangisments are now being completed for carrespondents and contributors from Germany and Holland. and we hope to announce their names before the first issue.

It will be seen at once that this list of contributors places the international Socialist Review in a class by itself so far as periodicals in English are soncerned.*

But it must, at he supposed that the

cerned. *
But it must at be supposed that the American situation has been mer ected. Already articles have been promised by Job Harriman, flev. Charles H. Vail, N. I. Stone, Leonard D. Abbeit, Rev. Wm. T. Brown, William Mathy, Gov. Andrew E. Les. Ben Hanford, Marcus Hitch, Jos. Wanhope, W. H. Noves and others, and no effort will be spared to secure the best work of the best thinkers upon the problems of societies in upon the problems of socialism in

ers upon the promems of socialism in America.

The plan of the magazine will be ap-proximately as follows: About forty-eight pages will be given to contributed articles and the remaining sixteen pages will be divided as nearly equally as possible among the following depart-

ents: Review of the events of the outh from the socialist point of view, Second: News of the socialist move-ent in America during the month fust

ment in America diving the month just passed.

Third. Items concerning the struggle in the economic field, including trade union news and labor troubles.

Fourth. Foreign correspondence, giving news of the socialist movement the world over world over.

The need of such a periodical as this is apparent to every socialist. We believe that once it is brought to their notice every comrade will be willing to take hold and help. There are two ways in which such help is wanted at once. In the first place further capital is needed for its establishment. comrade has agreed to give \$250 for this purpose as soon as an equal sum is raised elsewhere. Of this sum \$210.00 has already been raised leaving only \$30.00 more to get if this offer is not to be allowed to lapse. To raise this one hundred dollars it is proposed to sell shares of our capital stock at ten dollars each—their par value. That the money thus invested offers immediate and desirable returns aside from being an aid in the establishment of the mag-

are made to stockholders only:

Five cent books in small lots, 215
cents; 149 assorted copies, 21.5; 500 assorted copies, 35.0; post free in the United States outside Chicago.

Ten cent books in small lots, 5 cents; 100 assorted, \$2.50; post free in the United States outside Chicago.

Twenty-five cent books in small lots, 1215 cents; 50 assorted, \$2.50; post free in the United States outside Chicago.

Twenty-five cent books in small lots, 1215 cents; 50 assorted, \$5.00; post free in the United States outside Chicago.

Other books at half list prices; post free on paper books; on cloth books it sent by mall postage will average about 10 per cent of the retail prices.

Once the magazine is established it will be run without furres.

sent by mail postage will average about 10 per cent of the retail prices.

Once the magazine is established it will be run without further expense to the party, and will be distributed, not only through the ordinary socialist channels, but also through regular trade channels to thousands of people entirely inaccessible to the ordinary socialist propagands. It will be a means of capturing and holding the intellectual proletarist for socialist may seel as an organ for the education and training of socialist apeakers and writers.

Every section that intends to do any distribution of literature will find the ownership of such a share of stock a good investment, while individuals who wish to assist the socialist propaganda will scarcely find a better opportunity or greater need than this present one.

We would call special attention to the very small sum that is to be raised between now and July 1st on the capital stock. All has now been secured but THIRTY DOLLARS, and if but three comrades more will each take a share, the promised \$250.00 can be secured at once. More than this is needed to carry out the full plans we have in view, but the above amount will serve for the present emergency.

SECOND YEAR .- WHOLE NO. 68.

CHICAGO, ILL., JUNE 23, 1900.

PRICE TWO CENTS

DEMAND SURRENDER

Contractors Insist on Dissolution of Building Trades Council.

TO CRUSH THE UNIONS SINGLY

Workmen Cannot Permanently Comply, but Must Ever Renew the Struggle.

One point is becoming more and more evident with every day that passes retrades of Chicago, and that is, what was pointed out by The Workers' Call almost at the beginning, that it is a m vement to destroy the principle of united action on the part of the labor-Conference after conference has been held, but under one disguise or another the contractors have insisted that the unions should give up the right to stand together. In the first place this demand took the form of accusations of criminality and general abuses on the part of the Bullding Trades Council. But when it was suggested that this body might be reorganized and different individuals substituted for those at present holding the offices, the contractors made the demand that the organization as such should disband. Hight here it might be well to remark that while we are in no way willing to enderse the personal character of the men who at present make up the Building Trades Council of Chicago, the fact is that only men interested in having rascals and fakirs on that body are the employers. The laborers have every reason to desire that the men who represent them shall be men who can be depended upon. If they can be corrupted to betray the interests of the workers then they are just the men that suit the contractors.

But the fact of the thing is that the contractors realize full well that if they can force the unions to surrender principle of federated action and deal with their employers as individual unions, while they retain their Central Contractors' Council they will be able to crush the unions one by one. For this reason there can be no common ground in this discussion. It must be a fight to the finish. Any consideration of the demand to give up the Building Trades' Council is not a compromis but a complete surrender and must not be considered. Just so with the demand that the sympathetic strike be abandoned, which is the form that the contractors' demand took at one time during the past week. The laborers cannot make any such agreement. No matter if they did foolishly agree to do any-thing of the kind they could not keep their agreement. They cannot bind the laborers of the future not to struggle for freedom in the very best manner possible. If the contractors should succeed at this time in starving the men into agreeing to go back to work under any such conditions, it would only last until the men should again gain sufficient strength to once more open the fight.

Does anyone dream that if at some future day one of the building trades of Chicago, should be engaged in a desperate struggle for freedom from some particularly bad form of industrial slavery and should call upon their fellow wage slaves in other trades for assistance, that the fact that the officers of these trades had at some previous time agreed to abolish the sympathetic strike or the right of federated action would for one moment hinder them in coming to the rescue of their suffering brothers. Not if they had not wholly lost the instincts that make The ties that unite the workers of the world in their struggle against capital is of a far deeper nature and more binding character than any document that may be drawn up across those lines. At the best the latter is but a truce in the midst of a life and death struggle for mastery, that must tion of the worker and the disappearance of the capitalist, or else in the complete enslavement of the laborer.

The movement of the laborer toward freedom has ever been in the direction of increasing solidarity. At first they glé shops against individual employers. As this mode grew hopeless the orsolidation of capital soon made it necessary that the union should cross trade lines and form federated bodies if it would make any effective struggle. Now a few of the workers are beginning to see what the socialists told them at the beginning, that all these great change in the condition of the worker and that it requires united action of ALL workers upon the broad ground of independent political action. the chains of labor lighter, but of striking them off altogether.

The trust and the combine is opp-

attainable, and for that reason there can be no discussion of the giving up

of federated action by the unions.

But if those federated bodies do in the future, what they have so often done in the past, help to win battles in the workshop, only to give them away at the ballot box, they will in themselves be more dangerous to the workers than any contractors' council that s ever formed. If they allow themselves to become the tools of capitalist parties and endorse the candidates who stand upon the platform of wage slavery, then they are selling out those whom they claim to represent.

In this connection we are glad to note that the Chicago Federation of Labor woke to a sense of its past treachery in this regard and refused last Sunday to endorse any more candidates for political office. This has been in no small degree owing to the efforts of Comrade Collins of the Machinists, who has continuously fought of the narrow vision of those who con- over to the more skilled and able among every movement of this kind from the time that he has been a member of the Federation. The daily Inter Ocean heads its account of this action as a victory for the "pure and simple" position in the unions. But the way this is directed, not only occur millions of prices for themselves. But it is the same Republican paper sneers at Comrade Collins in its account of the proceedings shows that they fully realize that the action really means the abolition of capitalist politics from the union to clear the way for workingmen's politics. For this reason the Inter Ocean would have much preferred that the Federation of Labor should endorse the Democratic office-seeker.

A "Prosperity" Item.

The false assertion that periodically appears in the columns of the capitalist press, to the effect that there is alwaysplenty of work some distance away om where the assertion is made, curiously enough often finds its own contradiction in another part of the paper in which it is made. An example of this has lately been afforded by the "Kansas City Star," which in its news columns loudly proclaims that twenty thousand extra laborers are required at once to harvest the Kansas wheat crop. In an obscure corner of the same issue may be found the following: .

The above is merely part and parcel of the old capitalist trick of hanging the wisp in front of the donkey's nose Prosperity, if not exactly here, is just eyond at any rate. These deliberate falsehoods are concocted by those who understand the old saw "Man never is, but always to be blessed." They will probably do good service for capitalism until displaced by a powerful and widely circulated socialist press, of the urgent need of which, they are themselves

A Capitalist Warning.

That the socialist movement, is fast oming to be recognized as the only esquiree of the working class who desire to improve their conditions of life is amply evidenced by the following press dispatch from Germany:

Berlin, June 16.—Recently the lower employes of the Prussian railroads, though state officials have shown an inclination to affiliate with the socialists' party and have evinced in every way dissatisfaction with their present salaries and conditions. The official

This is about the only answer that the exploiting classes can give to the dissatisfied workers. But even such answer merely brings out the reality of the class struggle. If the economic dissatisfaction of the world's workers always expresses itself in socialism, it is good proof that the latter is the only solution of the labor problem.

"Lese Majeste."

can party. One Waldo, a backer of be recognized. Last week the award Timothy Woodruff, has declared that was made. Now it is proposed to adopt the same tactics with the labor of au-

These remarks were suggested by the the columns of the press. Thousands announcement just issued of the "School consin. This announcement is such a thoroughly class-conscious capitalist the greatest earnestness, subjects with document that it is well worth the eading of every socialist. Indeed it contains by implication and direct statement, nearly the whole socialist position from the capitalist point of view. The announcement starts off as

The purpose of this school is to supply facilities for the training of young men-who desire to enter business careers, especially in such fields as domastic and foreign commerce and banking, or branches of the public service, like the consular, in which a knowledge of business is essential. The need for such a school has long been recognized by our most skilled and far-sighted business men, and it must become apparent to any person who considers the parent to any person who considers the conditions of success in business careers at the present time.

Just note if you please by whom this "long felt need" was "recognized." Not by the laborers who are going to be "trained," but by "our most skilled and far-sighted business men," who saw that this particular brand of "raw material" was needed to be worked up in their factories. This need was not so imperative until the capitalist, having seased to concern himself personally with the supervision of industry, and the extent of the market and the complexity of industry had made it neces sary, if the capitalists of America were to be able to dispose of the goods their. laborers had produced, that they have as ever known. This is most naively but carefully explained in the next few

For more than half a century the markets for the products of the industry of the United States have been rapidly growing in extent, until at the present time many of them, have attained world-wide proportions and a still larger number are limited only by our national boundaries. In this process of extension our markets have become very complex and so sensitive in many coses that they are affected by events in every part of the world, and by influences which in character and appearance seem very remote from matters of business. Under these circumstances the commercial side of every large business. Under these circumstances the commercial side of every large business. Under these circumstances the commercial side of every large business has become very difficult, and mistakes or lack af skill in its prosecution very dangerous. On the other hand great opportunities for success are open to the man of sufficiently wide vision to be able to see and understand the influences at work and to comprehend the complexities of business on a large scale.

That last senience is most akilifully

That sast sentence is most skillfully worded to catch suckers, on the same ciple as the old Sunday school story that every boy had a chance to be president, save that the chance in this case even less. These "great opportunities or success" in the world market of today that has just been described above are by all means NOT open to the man who possesses ONLY the "great skill and wide vision" spoken of, and as will be seen later on, no one knows this any better than the person who penned this "Announcement." They are open only to those who possess immense capital It is the Morgans, the Vanderbilts and the Rockefellers, with their foreign as sociates who alone can profit by these "great opportunities" which will be opened up, operated, directed and controlled by the fellows who have been given this "great skill and wide vision" in this proposed school of commerce to at them for this purpose, while they remain the slaves of the owners. But if this wisp of hay marked "great opportunities" is held at the proper dist ance in front of these educated don-key's noses they will jog contentedly along pulling their master's chariot.

Then there are still other points where the capitalist class needs trained slaves, and this announcement has missed none of them:

The management of a large industrial The management of a large industrial plant also demands special training of a lisch order. Economy of production, which is so vial an element of success now-a-days, involves on the part of the managers of such concerns an accurate knowledge of the multitude of items which constitute aggregate costs, skill in the manapulation of those items, ABILITY TO DEAL SUCCESSFULLY WITH ORGANIZED LABOR, knowledge of systems of taxation, public fiebts, the money market, monetary and banking systems, commercial law, specanking systems, commercial law, spe-ial legislation relating to tariffs, rail-coads, corporations, trusts, etc., etc.

The capitals are ours and the sen timent they express is well worth the attention of every worker. The impliation of course is that this "organized labor" is composed of men in a totally different class from the one who is to deal with them. This educated slave is to be carefully taught that he has no interests in common with the men he is going to organize and direct. If he ever should happen to awake to the fact that he was in exactly the same boat with the warm weather fishing as the guest them, he might have brains enough to of a millionaire. recide to use that same organized power to organize the workers in revolt against the capitalist class. There is a whole funny column of humor in that final clause about requiring accurate knowledge of "special legislation relating to tariffs, railroads, corporations trusts, etc.

"The next "announcement" will proba bly have a list of courses on "fixing legislatures, "seeing" aldermen and writing "anti-trust" laws that will at e and the same time not interfere with business, fool the voters, kill the ittile fellows and answer as bases which to issue injunctions against labor unions.

There then fellows some hoice matter regarding the training of nen to handle the machinery of banking, in which the socialist statement is indorsed that "this business is international," and we are also asked to believe that "its successful managem is a condition of national prosperity, but it does not say who gets the pros erity, but presumably the hanker

Then comes a statement that inci-dentally gives the lie to all that has been said before regarding opportunities, and is such good socialist philoso phy that it is worth preserving:

At the present time the facilities af-forded in this country for the training of men for such jusiness careers as are opened to them by present-day condi-tions are very inadequate. Two after-natives only confront the candidate for such a career. He must either find an opportunity to enter a lusiness house with wide commercial connections immediately after leaving the grammar or the high school, or he must be content with some one of the numerous courses of study offered in our colleges and uniof study offered in our colleges and uni-versities. The first alternative may not be possible for him. Large commercial firms no longer make a business of training apprentices, and the young man who is not born into a family with wide business connections does not know where to look for the opportunity he seeks, and in nine cases out of ten does not find it.

Just read those last two sentences over a couple of times, until you see what they mean. "Large commercial firms no longer make a business of training apprentices" because they can the very best slave-drivers the world get that training done for them at the expense of the future slave himself, in nstitutions which they have established cialism is really our god.

for that purpose. So thoroughly he

Such a museum should contain properly labeled and described samples of the principle raw materials and manus, factured products entering into the commerce of the world and of their various forms of aduleration, and this courses is designed to give each student a knowledge of those materials which enter into the business he expects to follow, and a degree of skill in detecting adulterations and shouldy.

A LESSON FROM THE ST. LOUIS STRIKE

The struggle of the street car men in St. Louis for better living conditions, has ended as the recent similar conflicts in Milwaukee, Cleveland and Brooklyn have ended. The men have been clubbed, shot, and starved into submission, and a large number of them have by the condescension of their victorious masters been again restored to their former slavery. The residue consisting of those who have been most active, aggressive, and seifsacrificing during the progress of the struggle, will be left to find other mas-

The capitalists who manipulate the profits of the various street railway lines have thus established for their future use, another recruiting ground from which they can draw laber power when the conflict Lreaks out in a new place. These very men whose activity in the recent struggle has placed them on the temporary blacklist of employers, will find their devotion rewarded by the contempt and dislike of those who have taken their places, and when opportunity offers, the former in turn will be prepared to displace the next group of workers who in some other city revolt against the conditions of their slavery and rush blindly on the shotguns and clubs which the foresight of their masters has provided against such occasional revolts.

Yet this strike in St. Louis, though ostensibly lost, cannot be considered a permanent victory for the capitalist owners. It contains an educational lesson which some of the vanquished wage slaves will learn in spite of themselves. Some of them will certainly realize that if instead of foolishly dividing their votes between their Republihad used that power in the interests of their own class, by voting the control of the city of St. Louis into their own hands, their chances of winning the strike would have been largely increased, and the shotgun features with which it was marked could have had no place in the struggle.

It is true that even if the workers did get political control of St. Louis, they could not establish the Co-operative Commonwealth, but they could ment the total class just to the extent of the power embodied in the city administration.

Only a year ago the franchises of the St. Louis City Railroad company were renewed. Had the working classes been in control of the municipality that would not have happened. The city would today have been owning and operating the railroads, especially in the interests of the working class. The best wages possible would have been paid, and the living conditions of those employed in city transportation would have been considered a more important question than the piling up of divi-

dends. Here in Chicago; within the next five years the franchises of the principle intra-mural lines will expire. Will the working class, and particularly those employed on these roads, vote for their own interests as regards them? Will they seek to take possession of them, through the conquest of the municipal power by their own class, and establish such conditions of labor as may seem right to themselves? Or will they as usual, divide their power between glike lie in the robbery of the worker by the capitalist? If they do this, they may reasonably expect to see some arrangement made by which the franchises will be extended. . They may expect to hear all sorts of excuses from their capitalist municipal "representatives" as to this action. They

by "prominent" citizens, who hold that the "time is not yet ripe" for public ownership. They will hear a thousand and one excuses made so that the burden may still be kept on their backs. so that the conditions of low wages and long hours may be perpetuated. And believing all this they will acquiese in the renewal of the franchises and will howl when their masters lay on the lash to which they have bared their own backs."

Employers of city street car panies who may happen to read this would do well to cut it out for future reference.

A CASUAL REMINDER.

We have no desire to in any way reply to the recent utterances of the ocial Democratic Herald or the Milvaukee "Wahrheit." So far as the former is concerned we have faith mough in the sense of decency that we know the writers possess, to be sure that within a short time they will be as heartly ashamed and disgusted with their present tactics as their average reader is at the present time.

But we feel that we owe it to the omrades of the state and of the country outside of Chicago to let them know a little of what has been done by those to whom the S. D. P. entrusted the management of its affairs When union was first proposed these officials received all propositions coldunion. As they had practically no party or organization worthy of consideration in Chicago this looked rather one-sided. But the S. L. P. comrades waived the point and united locally. The result was perhaps the most startling socialist gain of the campaign.

The highest previous socialist vote in Chicago was more than doubled. Here was so recognized by every even nominally socialist periodical in the United States save two. Those two were the Social Democratic Herald, which, while located in the very city in which the victory was gained, never in any way referred to it, and DeLeon's People, which was a triffe fairer if more untruthful, in that it referred to it as 'slight increase."

Directly after this successful united made for the fall elections. Let it be distinctly understood that neither by word os deed had there been any suggestion on the part of the S. D. P. that they were not satisfied with the arrangement that had produced such excellent results. Judge of the surprise of the S. L. P. comrades when their arrangement for further common action did not even receive the courtesy of a reply. Finally we were informed that arrangements having been already perfected for a separate convention for the S. D. P. it would be impossible to consider any proposition for a joint convention. Then their convention met and adopted the ridiculous, not to say insulting resolution, inviting the S. L. P, to wipe itself out of existence and work for the S. D. P.

.Under these circumstances there was but to issue a call for a joint conven- ploiting many: tion, and this has been done and we have been assured by many of the S. D. P. membership that they will send call for this convention has already appeared in these columns and nothing further need be added to the statement that then appeared save to urge all those who are really more interested in socialism than in individuals to see to it that their branches are represented at this convention.

Finally it might be well to call th attention of those who are constantly alleging, without a sign of proof, that the S. L. P. is engaged in a conspiracy to "throw Debs overboard" that some of the followers of the N. E. B. in Chicago are circulating petitions with Harriman's name left off. This notwithstanding the fact that the latter was nominated, for vice-president by their national convention, while the former was only accepted by the S. L. P. comrades through the action of a committee. Something might be said in this connection about "broken pledges," but we do not believe that abuse.

No bill will eyer be sent to any subpay for it some one else did. The number with which your subscription exprinciples the paper teaches send in clearer. your renewal.

The Workers' Call through the will hear of the exactions laid on them campaign for fifteen cents.

SNAP SHOTS BY THE WAYSIDE.

Amongst the newspaper reports of the lists of Chicagoans off for Europe we notice the names of several of the McCormicks. A week or two ago 1,500 men who were employed in the agriultural implement factories belonging to these people were also let off. They will also have leisure to go to Europe and take in the sights of the Paris exposition, amongst which can probaoly he seen many of the machines produced by their labor. But will they go? Not hardly. It is more likely that if they travel it will be in the direction of the nearest place where they can again secure a master. The fact that their masters can go to Paris is reason enough to explain why they cannot use their leisure in a similar manner.

seough to explain my they cannot use their leisure in a similar manner.

The workingmen in the building it also have the second to set an all illustration of the sort of prosperty which capitalism keeps in store for the maintaint of the sort of prosperty which capitalism keeps in store for them. The Building Contractor's Club in that city is about to demonstrate that it is indeed a club. It has given in that city is about to demonstrate that it is indeed a club. It has given in notice of a requestion of 19 per cent in warse of all employes in the building trades in New York and the attempt to put this in sfreet will, be resisted by the first thousand organized workingmen of that city. CORRESPONDENCE.

(Circular No. 2) STATE HEADQUARTERS SOCIAL DEMOCRATIC PARTY OF AMERICA.

Seattle, Wash., June 12, 1900. Seattle, Wash., June 12, 1800.
Comrades:—Your Executive Committee met Sunday, June 16, for the purpose of considering the division in the national party. We present to you the following views as the result of our deliberations. We have no wish to dictate to the comrades, but we believe we should be unfaithful to the responsibilities of the office in which you placed us, if we were to maintain a cowardly silence at this crisis.

The situation which confronts us is

First Our party is divided, and the responsibility for this division rests with the National Executive Board. The present conflict is the direct result

vote on the unity referendum or not to vote on it. Whoever votes on it da-cides against the N. E. E. Whoever declines to vote is either dodging or ap-proving the N. E. B.

The discussion inside the union of social, political and economic subjects, is
a totally different thing. They not only
have no connection, but are absolutely
antagonistic.

It is time that the discussion of these
subjects, from the standpoint of the
workers, would not contribute to
strengthening the "pull" of the alleged
labor leader with the outside capitalist
collisions and the stand point of the stand point of the stand point of the same that confronted German sothe same that confronted German socialism 39 years ago, viz. Shall the

the same that confronted German so-cialism 39 years ago, viz. Shall the party be Socialist or Mock Socialist? For us in America today, the question practically amounts to this! Shall we support Socialism or Mid-road Popu-lism? Comrade Debs, in his letter of April 21, objects to the stern, uncom-promising attitude of the S. L. P. be-cause that party must be confined strictly to the working class. Therein appears the real essence of his objec-tion to the so-called "spirit" of the S. L. P. comrades. It is no accident that in the issue of the S. D. Herald work after the announcement of the negative vote on "Is union destrable?" such "pe-formers" as Ricker of Iowa were given Shall the support Socialism or Mid-road Populists. Comrade Debs, in his letter of April 21, objects to the stern, uncompleted promising attitude of the S. L. P. because that party must be confined strictly to the working class. Therein appears the real essence of his objection to the so-called "spirit" of the S. L. P. comrades. It is no accident that in the issue of the S. D. Heraid wat after the announcement of the negative vote on "Is union desirable?" such "reformers" as Ricker of Iowa were given the leading place under the first page headline. "Break in the ranks of the Mid-road Populists." After having detent union with the largest bod. of trained socialists in America our N. E. B. turns with open arms to the Mid-road Populists. In the same issue under the heading, Good One from The Appeal," they also quote a sneering reference of that paper to "Scientific Socialism." The old-time socialists who have fought for years for a wage class struggle, many of whom have islined the S. D. P. are to be dismissed and the "Reform Elements" to be taken in instead. After this exodus is completed, who will remain in the N. E. D. torces stead. After this exodus is completed, who will remain in the N. E. B. forces to advocate the essential program of international socialism. "Wageworkers unite against the capitalist class?" Comrade Debs seems to be yielding to the temptation to secure quick results at the sacrifice of the first principles of modern socialism. No amount of platform declarations, or fine tolk about loyalty to the class struggle can obscire the most conspicuous fact of the present relais namely, the N. E. li has rejected the support of the N. E. it has rejected the support of the N. E. li has rejected the support of the N. E. li has rejected the support of the N. E. li has rejected the support of the N. E. li has rejected the support of the N. E. li has rejected the support of the N. E. li has rejected the support of the N. E. li has rejected the support of the N. E. li has rejected the support of the N. E. li has rejected the support of the N. E. li has rejected the support of the N. E. li has rejected the support of the N. E. li has rejected the support of the N. E. li has rejected the support of the N. E. li has rejected the support of the N. E. li has rejected the support of the N. E. li has rejected the support of the N. E. li has rejected the support of the N. E. li has rejected the support of the N. E. I. has rejected the support of the N. E. li has rejected the organizations in the powers and one from Granite conting with cheers the Socialistic Mid-roaders. After this exodus is com who will remain in the N. E. D. forces to advocate the essential program of international socialism, "Wageworkers unite against the capitalist class"

while in the same instant they are wellcoming with cheers the Socializm Midroaders.

In such a controversy, your board can
not abest ac. We take out stand as a
board and as individuals on the side of
socializm just as Marx and Eogels and
Liebknecht did 25 years ago in Gormany and so insured the congestent development, the millions of votes and
enormous influence of German socialism today.

We take it that this is the true explanation of the N. E. B. suaccountabe actions throughout this movement
for union. They were opposed to linion
before the convention met, and at the
convention too, but were overwhelmed
by the union sentiment of the party at
the convention itself. Then they resorted to the tyrandical tactics which
tave brought us into the present dissensions. The present attitude of the
Herald shows that their policy is to
attract all the "Reformers" who are
disgrunted with the Democracy, but
who may easily drift into Social Democracy. The "Farmere Plank" may
go back into the platform. Fut up a
party to catch all; that are "Socialistickelly inclined" With the magic name
of Dels at the head of the ticket, that
policy may win many votes, but they
will not be socialist votes.

If such a party were to win, its leaders could not introduce legislation more
redical and definite than the membership of the two socialist forces
whereas, True to their mandates
this Unity Conference did meset and
whereas, True to their mandates
the sum of the true was the sum of the two socialist forces

whereas, True to their mandates
the sum of the true was the sum of the common dewhereas, true to their mandates
the mine of socialist votes.

If such a party to care all the sum of the sum of the two socialist forces
whereas true to their mandates
that provides a

We therefore urge all the branches in Washington to stand by the fundamental principles of socialism at this critical juncture in the United States. Do not mistake the issues. It is no question of names or men or places. It is not even the main question whether the N. E. B. is guilty of destroying socialist unity and of defying narry authority. The main issue is above all that. It has become a matter of party existence as a party of socialistic or Small-capitalistic, according as we decide now.

Small-capitalistic, according as we de-cide now.

We therefore make the following rec-ommendation to all branches:

(1.) Vote immediately on the Unity Committee's referendum. Blanks, etc., accompanying this circular. Send the result to Wm. Butscher, Secretary S. D. P. Committee on Unity, 251 Rutledge, St., New York. This vote must be in his hands by June 28 at 6 p. m. Not less than seven days should be allowed less than seven days should be allowed for transmission from this state to New York. That is, every vote should be sent by Tuesday night, the 19th linst. Where branches refuse to vote members may send in their vote as individ-

· CALLED TO TIME.

French Socialities in the Legislature Ro-. sent Outrages Committed on ,the Workers.

Very recently four workingmen were shot dead in St. Louis and a large number seriously wounded in a murderous attack made upon them by armed deputies. The incident taken as a matter of course and is now largely forgotten. That it was ever even mentioned in congress we have yet to hear. In no country in the world can workingmen be murdered with im punity as in the United States. One tenth of the outrages perpetrated upon them in the name of capitalist "law and order" would be sufficient in some European countries to shake the government to its very core. Here is now the French workmen resent a far smaller outrage:

Paris, June 15.- King Oscar of Sy Paris, June 15.—King Oscar of Sweden and Norwa; vas present at the chamber of deputies today and enjoyed one of those exciting detacts which nearly resulted in the downfall of the cabinet. A question of confidence in the ministry arose relative to the labor troubles, in Chalon, where three strikers were killed by the troops. Deputy Julian Simyan, a radical socialist, interpeliated the government in regard to the matter, and in recily the premier. Waldeck-Housseau, declared that the government would always propremier. Waideck-Rousseau, declared premier. Waideck-Rousseau, declared that the government would always pro-tect the right of man to work as well as his right to strike. This reply failed as his right to strike. Alexander tect the right of man to work as well as his right to strike. This reply failed to satisfy the socialists. Alexander Zevaes, the socialist leader, in a fierce speech, declared that the socialists could not support a government responsible for the blood of workmen. He reproached the ministerial socialists with being the bought slaves of those sponsible for the blood of workmen. He reproached the ministerial socialists with being the bought slaves of those in power and wanted as investigating commission named to study the causes of the Chalon troubles. Premier Waldeck-Rousseau, highly excited, fairly bounded into the tribune, and in an angry speech asserted that if such a sagry speech asserted that if such a bounded into the tribune, and in an angry speech asserted that if such a commission was named by the chamber of deputies the ministry would take it as a reproach upon the government itself. A vote was taken in the midst of great excitment and Zevaes' proposition was defeated, the government having a majority of twenty.

Three men were shot, and the French government is almost overthrown in consequence. Who champions the cause of the workers in the French assembly? The socialists alone. They declare that no government that imbrues its hands. in the blood of the workmen shall longer exist. All the enemies of laborers unite against them, and capitalism is saved. by twenty votes. Do you think, fellow workingman, that scenes like this have no deterring effect in restraining the murderous tendencies of our capitalist masters?

Add together the infamous outrages against workingmen perpetrated under the McKinley regime, by Republican and Democratic governors alike. Not three, but perhaps three hundred wasce slaves have been slain during that period. Did you ever hear of any of our patriotic politicians bring up their case in congress as Zevaes has done in France? Did you ever hear that Speaker Reed "fairly bounded" out of his chair, to defend capitalism egainst the champions of the cause of labor? No you didn't, and you won't either unplace their representatives, the socialists, in that assembly of class-conscious exploiters. Then the deputy's shot-gun and the militisman's bayonet will not be used on your class so liberally as heretofore.

had nothing whatever to do with mor- stand. ality as we understand the term. It | So of the outery over trusts. Indigis identified with "universal morality." Indeed, certain sects practically elimnot strange, since morality is a sine qua non of social life. 'To speak more exactly, the kind of morality that religion now defends is the kind with which society is cemented together. The dominant classes could not maintain their dominance without it. Hence religion and morality are both favoredby the dominant classes.

Politics would seem to be passing through the same stages. It is to be remembered, of course, that government, along with war, sports and religion, has been the immemorial occupa-tion of the leisure class, and was early seized by men of prowess as a means of social distinction. Later, and parallel to the development of military morality, statescraft and diplomacy ook precedence over prowess, and later honesty becomes a, desideratum even in politics, corresponding to the development of moral ideas in other forms of social life.

Making due allowance for complications due to the fact that the relus of government change from the hands of one to another class, according as each has economic supremacy, the process on the whole has gone' through the three stages mentioned, those of force, deception and honesty.

Even in a so-called democracy this

is evident. At first mere numbers

In America, where the distribution of was inevitable, and politics was large ly an appeal to numbers. Witness the New England town meeting. Although the form of democracy has been retained, the virtue of deception, by which the force of mere numbers could be celled, has grown apace until now a ring or a corporation can outwit the popular will on whichever side its vote cast. But in politics, too, we have entered upon the third stage. That of partial honesty, the agreement to upright along certain lines. Illustrations of this are the Australian ballot, pub-Heiry of election expenses, and other ejectoral reforms. It is evident that politics are, like war and commerce, stil in the process of ethical evolution

At this stage, then, what shall be the tactics of a small but aspiring political party? Shall it accept the prevailing oral customs of political parties? Shal it rely on shrewdness? Shall it take people as they are?" Shall , it "be careful not to say too much? Shall it "gently lead those that are ng?" Shall it try to win "enough of the people enough of the time" in order to gain its end?

There are many wise and thoughtful socialists who answer "Yes" to all these questions. There are many men and papers who do not even declare them? seives escialists for strategic reasons. They say, we want to make men think not to set them by the cars. There is no hell any more to which we can on those that disagree with us. We ot want to debate; we want to perprevent people from seeing the routh Let us not stand out in the open

There are three stages in the evolu- at a time than for a few to flock away

This is the gist of the difference beparent in other lines of life, military chalists the world over, the revolutionists and the Fabians, and each side has The stage is characterized by its advantages. The difference seems sheer force of numbers or of muscle, to depend upon the points of view as to how far we have progressed in . the ethical evolution of politics. If we are deception, and the last stage by the still in the stage of deception and there still later virtue of honesty, which arose is no hope of success on any other basas a sort of truce, since dishenesty had is, then we must win by deception. We must fool enough of the people enough

timental prejudice in favor of a Munfoe dectrine, and is opposed to "enventions made by the race. It was the tangling alliances." It scents danger first mastery of the intellect over to fundamental democratic principles, "brute force," and at certain stages and sees in imperialism the subversion ranked high as a virtue, as, e.g., among of political liberty for which our forthe Spartans.

The latest stage of honesty has come
the focialist take toward this popular

It is twenty-five years ago (M to take its place simply because hon-esty is the best policy. Common inter-true, but quite superficial and remote ests began to overton individual ones. In addition to this, honesty was agreed to along certain lines because deception in those lines was reciprocally disgraume and hearty support. But he astrous. Honesty is the sign of truce, who attempts to uncover the real This is eminently true among traders, meaning of imperialism, and show that This is eminently true among traders. meaning of imperialism, and show that It is true to a degree in society life, and it is the strenuous endeavor of a small It is coming to be true even in military part of the community to acquire a forlife. So we have, 1st, Force, relentless- eign market for goods simply because ly pitted against force. .2d. Deception, the producers of those goods are so poorly paid that they cannot buy what ess, in certain relations. they themselves produce, the hot fire. The same process may be seen in religions and morality. At first religion crowd melts away. Only a few under-

simply rested on terror and supersti- nation against them is next to univertion. Later these were made use of by sal, hence the politician who denounces a portion of the rising leisure class, the them as criminal and proposes to depriests, and deception played a large stroy them, is halled as a savior. But part in giving prestige to priestly func-tions. Latterly religion has become are the legitimate outcome of modern combination, that trusts are but the latest form of labor-saving devices that have gained several seats. inate the elements of fear and belief the only way to dispose of them is to in super-naturalism, and say plainly absorb them as part of the function of the only religion is morality. This is modern government, he who points out this is likely for a while at least to lose popularity. So of the sliver question, though here it must be admitted, the interests of all parts of the exploited class are not clearly the same.

But it is not particular issues that oncern us now, it is the general attitude to be taken toward all these is

Shall a socialist "go in to win," by falling in with the stream of popular prejudices and sentiments, with the unite. ope, if not expectation, that they will tend "our way?" Or shall he insist first, last and all the time on clear, conous, intelligent thinking? In other words, shall he win by deception, or shall he stand for a higher moral stage. that of honesty, not in unessentials, not as a matter of truce, but in the vital issues themselves?

This is the same ethical problem in have been nominated for parliament in another form which many a clergiman British Columbia, and there is no doubt has struggled with. Shall I be a come-but what some of them will be elected. outer and lose all my influence, and stay in the church and lead my flock along with me? Most ministers stay in, even with qualms of conscience and are popular. A few come out and apparently lose all their influence. But this is only the beginning. The life of such a minister is no longer a lie. His very ecupation before was a proclamation that he believed such and such, doctrines, a proclamation louder than any wealth in early days was not glaringly denials by mouth or by pen. So the early days was not glaringly politicians who cling to the old parties, trade unions to participate in a parade denials by mouth or by pen. the hope of cajoling the people into actions which will be really for the popular good, are not taking the highest athical course. If both the ministers and politicians who "stay in" only new how many others there were lik them and what a host of companions they would find outside, they would after all be gaining in power, and more than that, be true to the best in them Wanted, political heretics. This calling n ancient documents and bowing down o patriotism and cutting one's self with the knives of competition—this is no heresy. It only tickles the big capitalists, for they know they can outis the heresy of honesty, that goes traight to workingmen to find out what they want for themselves, and makes their wants the leading issues This would be in truth honest politics.

To Chicago Comrades.

How many out-door meetings have on arranged for as yet? There is not a branch is the city that cannot have ruitful form of agitation that is corried on and should be pushed as hard

BELGIUM.

The result, of the elections is now known. The clericals were formerly 112 and are now only 85 in number Though some socialists have lost their seats there is a net gain of five. If w turn to the number of votes east we find that no less than 464,813 votes were given for the socialists, an increase of over 140,000 votes since 1894. The system of proportional representation has worked fairly well, for if in some places the socialists have not carried so many candidates as they would have done under the old system as at Brussels, they have in other places, as at Louvain, Namur, Dinant and Autwerp, got seats which they would not have had. I was very glad to see that Colfs, the force counted for everything. Then For example, at the present time Catholic workingman, was returned. as he was the only Clerical who protested recently in the chamber of dep uties against the Congo horrors. The battle has been won by hard work, and now that the workers in industrial pursuits are well organized, propaganda must take place in the rural districts where the power of the priests and of

It is twenty-five years ago (May 26, 1875), that a union was effected at Gotha between the Eisenach and Lassalle parties. The party then took the name of the Socialistic Working Men's party. Since then, in spite of much persecution the socialists have increased in power, and no better testinony to their might could be given than the fact that by their action they have practically defeated the Heinze ын.

Last Sunday no less than 100 000 teaflets explaining socialist principles were distributed in Berlin and its suburbs. This distribution was effected by thousands of voluntary distributors, and it is hoped in that way to bring knowlis hoped in that way to bring knowl. The above resolution passed unanis perfection in every respect is an impos-edge of socialism to many people, and mously by the New York State convensible thing, but let the lectures and to sow the seed for a rich harvest at the next election.

IN NEW YORK STATE. Socialists of Both Parties Make Common

Cause Against the Common Enemy. For Governor-Benjamin Hanford.

Lieutenant Governor-William Butsch er.

scretary of State-Philip Jackson, Rochester. Attorney General-Eugene Brewster!

Controller-Frank Sieverman, Rochesten State Treasurer-Leonard D. Abbott.

State Engineer-Henry Stahl. The Socialist Labor party and the social Democratic party of the State of New York, represented in joint convention, sends fraternal greetings to all socialists in the ranks of both par-

In compliance with the wishes of the members expressed in general vais, we declare the union of both parties in this state definitely accomplished and the said parties merged and consolidated into one under the name Social Demo-

into one under the name Social Demo-cratic party.

The Social Democratic party of the State of New York hereby endorses the actions, and resolutions of the national conventions of both porties bend of Rochester and Indianacolas rejactive by, and those of the John Committee on Unity duly elected by the said con-ventions.

ventions.

We hereby express our unqualified approval of the work of the said Unity Committee and extend to the members of that committee tranks for the energy, devotion and tast displayed in the aplishment of their great and dif-

fleuit task. We pledge our allegiance and sup-

port to the Frevisional Executive Committee now being elected by the members of both, parties and to the candidate on the national ficket recognized by the said conmittee.

We call upon the comrades in the State of New York to discard all disputes and contentions with other socialist organizations or factions, and to devote their undivided efforts to the propaganda of socialism and the organization and strengthening of our party in this state.

We call upon the frue socialists in all other states of the union to adopt a similar course, to the end that we may adequately fight the battle of socialism in this courry during the approaching national compagin and re-

ism in this country during the ap-proaching national campaign and re-main a strong and efficient socialist party ever after this campaign.

16th, is one that augurs well for the he is a trade-unionist of long standing when they are surrounded on and a brillight speaker. Eugene V. hand by false ideas and bad advice-Brewster, the talented Brooklyn lawyer, so recently Bryan's henchman, will add considerable strength to the

The convention was in many ways remarkable one, and the stmost harmony prevailed throughout. There were about sixty delegates, representing a joint organization of some sixty branches. In the S. L. P., Syracuse, Onelda, Johnstown, Troy, Utica, Yonkers, Portchester, Stapleton, Astoria Long Island City, etc., were represented outside of New York. In the S. D. P., New York, Brooklyn, Patchagu and Watertown were represented. Among those who participated in the convention were such well-known fg-ures as Alexander Jonas, E. Slobodin, E. Schluster, C. L. Furman, Joseph Berondess, M. Winchevsky, I. Phillips

William Eutscher, in opening the cor vention, expressed the hope of Social Democrats for a united campaign, and condemned the obstructionist tacties of the National Executive Board of the S. D. P. Morris Hillquit was elected chairman of the convention, and per-formed his duties very efficiently. Leonard D. Abbott was secretary

AWAY WITH SENTIMENT!

The Slavery of the Workers Due to Their Unthinking Acceptance of Their Masters' Ideals.

The greatest feed in the growth of ocialism is the elimination of sentinen't from the minds of the working lass. Through all the ages that have gone the oppressed have been taught by the precepts of the oppressor to sacrifice their own interests for others, that because they were allowed to live they should live for the benefit of the ones whom they foolishly supposed gave them the means of living. This teaching only held its power through. the ignorance of the people. Because very superficial thinking shows how at every step in the progress of the human race the oppressed has made the living for the oppressor, thereby granting the right to life rather than having it granted to him. In the early times when one people were beaten in battle by another they were made slaves, and thereafter they and their children after them did the work and produced the living for the people who had conquered them. And even then they were misled by sentiment. The slaves even felt grateful for their lives and loved their masters because they had allowed them to live, when they should have reasoned and seen that the master, was not impelled by feelings of love and mercy, but only by his own interests in the life of the slave.

The next step of the development under feudalism the workers were not only asked to produce their master's living but to fight his battles and protect his property, even with his life. And the working class has been doing the fighting ever since. All that has been necessary is to appeal to the sentiment of patriotism and love of home.

In slavery and serfdom the working classes were fed and clothed and cared for during sickness and old age. The slave and the serf possessed value. They were never without a master. But under capitalism we find thousands of skilled workmen going about from place to place begging to be given a master. This is done through the influence of sentiment also. We have been taught to believe that all men are "born free and equal," but the freedom of the working class is only the freedom to compete with each other for the privilege of supporting masters with their toll, and they are only equal to the other machines in the shops and factories. We have been taught to be lieve that "men are born with certain inallenable rights, among which are life, liberty and pursuit of happiness." But life to the workers is only possible by long hours of toll and ceaseless worry lest their jobs are lost. Their liberty is simply to obey unjust laws made in the interest of their masters and paid for with their masters' wealth which the workers produced.

And the pursuit of happiness never amounts to anything but pursuit, for

we never get perceptibly nearer to it. Now the capitalists have placed one weapon in the hands of the workers. Not because they loved us, not because they wished to be just, but so that they could make further use of us by controlling our ballots. We can as a class use our votes to free ourselves. Let us throw off the influence of centuries of teaching in the wrong direction. Let us think for ourselves, vote for ourselves and our class. By so doing we can revolutionize the world immediate-

ly. We can cease to be mere drudges and tools for the use of our masters. We can become the masters of our own lives, enjoy the fruits of our own labor. and have leisure for study, fravel and recreation. We can see our children recreation. We can see our develop into perfect men and women and not dwarfed, both physically and mentally, by the poison of ceaseless competition.

Lillie M. Forberg.

Don't Miss This.

The first number of the International Socialist Review, appearing the first of July, will contain a number of interest ing features. There will be an article by Rev. W. T. Brown on "Plutocracy or Democracy" that is one of the best things that this well-known writer has produced. "Socialism in England," as one of the pioneers of international ociety that we must reconstruct. socialism and the author of "Economics Old institutions are crumbling; the of Socialism" and the "Historical Basis of Socialism," both among the classics of the subject. Marcus Hitch, of Chiare bursting asunder, and permitting cago, treats/the subject of "Karl Marx and the Money Question" in a new and original manner that is sure to provoke much thought and Jean Longueta grandson of Karl Marx. and a member of the editorial staff of both "Le Petite Republique" Motivement Socialiste," sends a tribution on 'French Political Farties and the Recent Elections," the childhood of human experience, and only gives some interesting news but also tells just what everyone has been wanting to know about the positions word, there is everywhere manifested and strength of the different French political parties. Elections in Belgium" are discussed by Prof. Emile Vinck, of the Nouvelle University of Brussels, and scretary of the League of Socialist Municipal have been promised but cannot be definitely announced as yet. In addition here will be the editorial review of the month, events of the labor world and general foreign news.

> Don't forget that the Socialist Annual Picnic to be held on the 19th of August at Calumet Grove, is to break the record for all similar gatherings. Help make it a second-breaker by disposing of as many tickets as possible. They of as many tickets as po

me time ago the National Electric Light association met in this city, and in one of the sessions Mr. James B. Cahoon of Syratuse, in his speech made use of the following language: I doubt if there are in this whole association a dozen members who realize fully the gravity of the present situafor the private ownership of public utilities. The question is taking a new form. Heretofore franchises have been granted haphazard, but in the future the demand will be for the regulation of public utilities and compelling of all such corporations to render an accounting at definite intervals. We can not take the stand that it is against zion, tacties, etc., the victory was prin--public policy that this should be done. There lies open before us the two paths-municipal ownership or private and that his position as general over-NICIPAL OWNERSHIP, therefore let be not be indemnified for "risks" taken

The ruling class begins to see the handwriting on the wall, and knowing that they have been weighed and found wanting, they hope to stave of the inevitable day of doors, by gracefully acceding to BRING REGULAT-

Hitherto they have been able by controlling the legal machinery to plunder the people without restrictions, but public opinion is drifting so strongly towards socialism that they are willing to accode to almost anything, short of socialism, if only by so doing they may be able to continue to plunder the people, by retaining ownership of the ams of production and distribution in their hands.

Accordingly we will see both the political parties, in fact, we already see it, demanding "publicity" and "regulation" of trusts, etc.

This on their part is political wisdom by which they will succeed for a time in fooling the unthinking , into voting the Dem.-Rep. tickets, either one will do. During the approaching campaign you will hear political orators expound on the doctrines of "publicity" and "regulation." Yes the very leaders of our capitalistic institutions will come out and openly favor such measures, and the voters will shout themselves hoarse in approval, never dreaming that these same men hold the reins by which they can regulate "regulators" as easily as you can turn the regulation in your watch.

That all such measures are the veriest humbug does not matter; they ANSWER THE PURPOSE by diverting public attention from the REAL issue, and when these are played out something else will be found for other campaigns.

Free silver is dead, tariff is getting a little stale, the "bloody shirt" is burled, imperialism and expansion are too delicate to use exclusively, as .both parties are divided on these subjects on sectional lines according to their material interests, but the trusts, ab, that is the thing. "We will regulate them," shout the Republican. "We will smash them, or license them, or do something else," shouts the Democrat, and the managers of private mo-nopolies shout back: "Yes, please regulate us." meanwhile the Dem.-Rep. voters take up the refrain in the parade, while the trust managers and leaders behind the drawn curtains look on their dupes with contempt and laugh! Suppose for the sake ent that the owners of these public utilities could be "regulated." of what benefit would it be to the dispossessed class? Some one, will say, their profits would not be so large. But would that be of any benefit to the worker; would it not rather have a tendency to make his wages still lower and his chance to sell himself still more uncertain than at present?

The only probable benefit regulation to the already dying middle class busi- money," and who at the same time are ness men, and as such would be a step unable to detect the infinitely greater Certainly, and they will do so anyway, in spits of all your puny regulation

The ONLY WAY to put a slop to it is to adopt the principles of socialism. that is to turn ALL the means of production and distribution into public property and operate them for public use, and not for private profit.

capitalist white retaining the capital; you would do away with class rule by would do away with class struggles as exemplified in Chicago and St. Louis, system which underlies both. by abolishing the be the profit system, and you would abelish yourself as a wage slave, by dievating yourself, and your fellow ers into copartners.

Prize money increases in ratio with the distance of the warrior from the scene

Leaving out of the account, for th moment, the amount received by the many hundreds of men who actually performed the work of destruction un der the direction of Schley, let us see if Sampson cannot be justified by the same logic that applies in the capitalist world today. May he not claim that his actual presence was unnecessary to the victory, and that the fact that it was accomplished by the fleet under his command entitles him to the larges share of the results? May be not claim that through his directions, plan of ac cipally due; that his subordinates were merely carrying out his general orders ownership under state regulation. WE seer carried with it the responsibility CERTAINLY DO NOT WANT MU- for the general results obtained? Must us prepare to accede gracefully to the which if ending in disaster would have to be borne on his shoulders, biasting forever his reputation as a "strategist" and ruining his career? Can be not in short base his claims to the larger share on exactly the same ground that the individual capitalist in the industrial world justifies the robbery of the work ng class?

> Ixes not the latter use the same argument in every respect? Does he not speak of himself as a director, organiser, supervisor, "captain of industry," etc.? Does he not put forward the same plea of responsibility? Does he not talk of in lemnity for business "risks," claim that his employes do not share them to anything like the extent that And does he not also claim that in the event of commercial disas-er his reputation as a "business' strategist is likely to be irretrievably rulned? And finally does he not base his claim to the larger share of the product of labor upon these bleas?

> Why should these considerations be ecepted as sufficient in one case and denied in the other? If Sampson has been allotted more than his due, if as some say, he has no claim whatever, how in the name of common sense is the industrial exploiter, who has even a weaker case, to be justified?

> Two thousand men co-operate in destructive work off the Cuban coast, which they complete with the loss of me of their number slain. Their commander is only twenty miles away. He is certainly in charge of all operations Just how much of what is accomplished is due to his efforts, is a debateable point. But that he has taken some part in it, cannot be denied.

> Millions of men in all parts of the orld co-operate in productive work In thousands of great plants, in factories, mills and mines, on ratiroads and steamships, they engage in producing commodities for the use of the human species. And the process of production entalls upon them a destruction of human life which all the battle fields of the century cannot equal. A small group of other men who may never have been within a thousand miles of the scene of operations, many of them who know absolutely nothing of the process of those operations, are permitted to take the results of the labor of these enormous masses of men with out contributing one iota to the proces of production. They "own the capital invested." Sampson at least was in personal charge of the fleet and superintended its operations as a wi

In the first case men deliberately sink their personality behind a certain amount of "capital," the "ownership of which entities them to appropriate the product of the labor of the others. They may never have seen their subor dirates, their managers, superintendents, etc., who must conduct the business "profitably" at peril of losing their jobs. Sampson at least, was acquainted with Schley.

Those who profess to see "Injustice" Telephone Main 3701. ould have would be to give new life in the distribution of this "prize Backward. But, says another, unless and more distinct robbery inherent in these combinations are checked, they the industrial system of the present are will ultimately, control everything, an excellent illustration of the propen sity to "strain at a gnat and swallow s camel," which distinguishes the uphoidera of capitalism.

Workingmen who know their own interests have no desire to waste time er. If the practice of reaping where thers have sown had no place in our se, and not for private profit. THE PEOPLE

THE WIERNATIONAL SOCIALIST REVIEW

On the first of July, we shall issue the first number of the monthly review under the editorship of A. M. Simons, until lately editor of The Workers Call, who has recently returned from studying social conditions in Europe. The acctalist movement has now reached the point where it can claim to offer the only philosophy pointing the way to a positive solution of present-day problems. Its constantly increasing strength at home and abroad makes it a force with which all must recken. In Europe the best minds of the colleges and universities are devoted to expounding its doctrines and a majority at the leading economic reviews are under the direction of socialist writers and thinkers.

Editorially the attitude of the Review will be strictly in accord with the receguized principles of international socialism. Signed articles will, however, be welcomed from writers of all schools and parties who secept the socialist ideal, however they may differ as to methods and tactics. We are convinced that a free and full discussion is the shortest and best road to the general acceptance of the methods and notice of international socialism hy all who aim at the establishment of the co-operative commonwealth.

The International Socialist Review will be the first periodical in the English language to bring together to any excent the original contributions of the great socialist thinkers of the different countries of Europe. It will also publish each month letters from foreign correspondents giving the latest news and a review of the situation in each country. Here is a partial list of those who have already promised to write:

France—Paul Lafargue, Jean Jaures, Jean Longue.

Belgium—Emile Vandervelde, Henri Lafontique, Emile Vandervelde, Henri Lafontique, Emile Vinck, Mme. Lalla

who have already promised to write:
France—Paul Lafargue, Jean Jaures,
Jean Longuet.
Beigium—Emile Vandervelde, Henri
Lafontaine, Emile Vinck, Mme. Lalla
Kufferath.
England—H. M. Hyndman, Walter
Crane, Sanzuel Hobson, H. Queleh, Keir
Hardie, J. R. McDonaid.
Italy—Dr. Alessandro Schivi,
Denmark—Dr. Gustay Bang.
Arrangements are now being com-

Arrangements are now being com-pleted for correspondents and contribu-tors from Germany and Holland, and we hope to announce their names be-

re nops to announce their names be-fore the first issue.

It will be seen at once that this list of contributors places the International Socialist Review in a class by itself so far as periodicals in English are con-

cerned.

But it must not be supposed that the American situation has been neglected. Already srticles have been promised by Job Harriman, Rev. Charles H. Vall, N. I. Stone, Leonard D. Abbott, Rev. Wm. T. Brown, William Mailly, Gov. Andrew E. Lees Ben Hanford, Marcus Hitch, Jos. Wanhope, W. H. Noyes and others, and no effort will be spared to secure the best work of the best thinkers upon the problems of socialism in America.

America.

The plan of the magazine will be approximately as follows: About forty-eight pages will be given to contributed articles, and the remaining sixteen pages will be divided as nearly equally as possible among the following departments:

First. Review of the events of the month from the socialist point of view. Second. News of the socialist move-ment in America during the month just

passed. Third. Items concerning the strug-gle in the economic field, including trade union news and labor troubles. Fourth. Foreign correspondence giv-ing news of the socialist-movement the world over.

The need of such a periodical as this is apparent to every socialist. We believe that once it is brought to their notice every comrade will be willing to take hold and help. . There are two ways in which such help is wanted at once. In the first place further capital is needed for its establishment. comrade has agreed to-give \$250 for this purpose as soon as an equal sum is raised elsewhere. Of this sum \$216.00 has already been raised leaving only \$20.00 more to get if this offer is not to be allowed to lapse. To raise this one hundred dollars it is proposed to sell. shares of our capital stock at dollars each—their par value. That the money thus invested offers immediate and desirable returns aside from being an aid in the establishment of the magasine is shown by the following special prices on books published by us which

Five cent books in small lots, 256 cents; 100 asserted copies, \$1.75; 500 as-

cents: 100 asserted copies, \$1.75, 500 assorted copies. \$5.00; post free in the United States outside Chicago.

Ten cent books in small lots, 5 cents; 100 assorted, \$5.00; post free in the United States outside Chicago.

Twenty-five cent books in small lots, 125 cents; 50 assorted, \$5.00; post free in the United States outside Chicago.
Other books at haif list prices; post free on paper books; on cloth books if sent by mall postage will average about 10 per cent of the retail prices.
Once the magazine is established it

agent by mail postage will average atout 10 per cent of the retail prices.

Once the magazine is established it will be run without further expense to the party, and will be distributed, not only through the ordinary socialist channels, but also through regular trade channels to thousands of people entirely inaccessible to the ordinary socialist propagands. It will be a means of capturing and holding the intellectual projectariat for socialism as well as an organ for the education and training of socialist speakers and writers.

Every section that intends to do any distribution of literature will find the ownership of such a share of stock a good investment, while individuals who wish to assist the socialist propaganda will scarcely find a better opportunity or greater need than this present one.

We would call special attention to the very small sum that is to be raised between now and July 1st on the capital stock. All has now been secured but TEN DOLLARS, and 30 cents rer year; 25 cents for six months; if but one comrade more will arrange to take a share, the promised \$250.00 can be secured at once. More than this is needed to carry out the full plans we have in view, but the above amount will serve for the present emergency.

"WE, US AND OURS"

The Gospel of Capitalism According to Depew.

ARE YOU IN IT, MR. LABORER?

Mow God, McKinley and Roosevelt, Work Together to Dispose of the Laborers' Product.

"What is the tendency of the future? Why this war in South Africa? Why this hammering at the gates of Pekin? Why this marching of troops from asia to Africa? Why these parades of people from other empires and other lands? It is because the surplus productions of civilized countries of modern times are greater than civilization can consume. It is because the surplus productions of civilized countries of modern times are greater than civilization can consume. It is because this overproduction goes back to sagnation and to poverty.

"The American people produce \$2,000,000,000 worth more than we can consume, and we have met the emergency, and, by the providence of, God, by the statesmanship of William McKinley and by the valor of Roosevelt and his associates (applicate), we have our market in Porto Rico, we have our market in Hawaii, we have our market in the Philippines, and we stand in the prosence of \$80,000,000 of people with the \$2,000 cites as an American lake and the American artisan producing better and cheaper goods than any country in the world, and, my friends, we go to American artisan producing better and cheaper goods than any country in the world, and, my friends, we go to American for years there is no congestion for America. Let invention proceed, let production go on, let the mountains bring forth their treasures, let the factories do their best, let labor be employed at the highest wages, because the world is ours and we have conquered it by Republican principles and by republican persistency in the principles of American industry and of America for Americans." (Applause.)—Chauncey M. Depew at the Republican convention.

This is the gospel of expansion and imperialism, according to McKinley, Roosevelt and Depew. What is the space is left on which to stamp place message that it brings to the workers and date of meetings. Every Republican neighborhood should be sown with "these parades of peoples from other empires and other lands." "It is hecause the surplus productions of the civilized countries of modern times are greater than civilization can con-

Think of that, you toller is the mis of Pennsylvania, as you creep, home from the Company store in debt for the bare pittance that keeps you alive. Feed yourself with the thought that ou produce more coal than "civilization can consume." You slave of the packing, houses of Chicago, warm yourself and shivering, ill-clad children with the reflection that your masters must "hammer at the gates of Pekin" to get rid of the wealth of food you are creating. You sweater in the slums of New York or Chicago, gaunt and emaciated, a half-starved caricature of a formed underfed children folling far into the night that they may maintain able existence, and then thank God, McKinley and Roosevelt that they have wisely provided a market for the surplue goods you produce, and benevolently prevented "this overproduc-tion" of wealth from going "back to the stagnation and poverty" of those who produced it.

Read on. "The American people (that means you, Mr. Laborer) "n produce two thousand millions of dol-Mr.Depew and his class-your masters, Mr. Laborer) can consume." Hurrah for the American laborer. He is the Hurrahfirst among the slaves of history to a burden to his masters. He has load-ed the capitalist class with plunder unburden" they wander ceaselessly up and down the face of the earth seeking for an opportunity to lay it down-at profit. But do not weep, 'God, Mo-Kinley, Rossevett & Co. have provided relief. Owing to their combined exer-tions, says Mr. Depew, and who knows better than he, WE (that means Mr. Depew and his class again) have OUR (you are not in that 'our,' Mr. Laborer) market in Cuba, Porto Rico, Hawaii and the Phillipines."

class are going to take the wealth you created Mr. Laborer, and going before the 800,000,000 Chinese say "You may think that you know how te produce cheap with your wages at that have invented for themselves such excellent tools that they can product any other pation in the world." Do er? It means that you are getting a SMALLER SHARE of what you produce than any slave that history has ever known or present time can produce. It means that while the masters feet one of the character of the Chinese slave is fed, you are expected to create a hundred times as much wealth, and so return for your little better food and clothing are expected to your for McKinley and Boos-

give McKinley another term there will 'no congestion in America." There will be nothing left in the pockets of the producers to do any congesting.
"Let invention proceed, let produc-

tion go on, let the mountains bring forth their treasures, let the factories do their best, because the world is OURS" (it is Mr. Depew who is talkng, and no laborers are included in that "ours"). It is his class that are governing and it is they who will get the benefit, for has he not just told you so? Let the heads and hands of the workers be trained to the height of intelligence and worked to the limit of endurance, let all the skill and knowledge of generations be brought to bear in the creation of wealth and Mr. Depew and his class will reap the benefit, "because the world is theirs, and they have conquered it by republican principles," with republican votes cast by the wage slaves of America.

Your class, Mr. Laborer, gave the which to them. You declared at the ballot box four years ago that they should have it. You voted for the system of private property in the tools promise of greatly reducing the cost of with which you work, the materials with which you work, the materials upon which your labor is expended, the finished product of your skill and intion of the roadbed was trimmed in four days at a cost of \$75 a mile. To dustry. The great trusts and combines have grown too large for you and your class to share in that ownership. So Mr. Depew, McKinley, Roosevelt, and their class, (God is left out this time), do the owning and you do the work. They have the "surplus of production," you have the "stagnation and poverty."

Will you vote for the same system again this year? Or will you unite with the intelligent laborers of the world under the banner of socialism, and keep the "surplus" that you produce and enjoy it yourself at home without the necessity of a "foreign

Union Smashers, Unite!

Here is a note of warning sounded y a class-conscious labor skinner in Washington, which voices the real sentiments of capitalism against the organizations of workingmen known as trades unions. The party in question sees clearly the trend of modern industrial society and frantically calls

mission today.

"Labor organizations are today," said Mr. Thompson, "the greatest menace to this government that exists inside or outside the pale of our national domain. Their influence for disruption and disorganization of society is far more dangerous to the perpetuation of our government in its purity and power than would be the hostile array on our borders of the armies of the entire world combined."

He said a law should be enacted that would make it justifiable homicide for any killing that occurred in defence of any lawful occupation. In view of the close relationship existing among an diasses of citizens, strikes and boycoits, be thought, should be a felony, both by national and state legislation, and he suggested the formation of state and national boards of arbitration, compowered to settle all matters of differences between labor and capital, and whose decrees should be binding on the parties affected.

We don't know whether Mr. Thomp-

son will support the presidential can-didary of Mr. Maloney or not, but he certainly agrees with the "perfesser," (late of Beckman street), who stands has also declared a war of extermination against labor unions. Mr. Thompson also demands the "right to work" untrammeled by the attions of the union, and here the "perfesser" and he also agree, as the latter has recently in his swill barrel organ, loudly clamored for the same "right." The enemies of the working class will no doubt ultimately get together some-

Now is the time of year when the un ions are being asked, to endorse the met who are to rivet your chains during the mext few years. Remember that every bispublican and Democrat office-siesker to first of all piedged to the system of apitalism. His piedges to the union are for business purposes only.

Displaces Pick and Shovel.

DOES MORE THAN 400 MEN. TELLS TALE OF "PROSPERITY"

And Urges the Laborers to Kick at the Ten Thousand Job Seekers in Kansas Ballot Box for Collective Own-

The Boston & Maine Railroad has Last week the columns of this paper cen making a series of experiments with a device known as a trimming car, and which bids fair to largely do away with the class of railroad laborers which uses the pick and shovel. The trimming car has successfully Central Kansas was inundated by done the work of 400 men and done it so neatly and thoroughly as to give ed to have arrived there for the pur-promise of greatly reducing the cost of pose of obtaining work in the harvest reflroad construction. In a recent test fields.

general use on all the roads it will in this paragraph, while the leading throw several thousand railroad hands columns of the same paper were out of employment, and the majority of them will swear at the machine the magnificent wheat crop of Kansas while tramping the streets looking for and the fearful apprehension under ome other job.

Very likely one of their own ranks invented the machine, and he will probably get a job running it for awhile; but of the surplus wealth produced by the saving of expenses he will not receive a cent. That will all go to the OWNERS OF THE MACHINE.

Here is then another flustration of he truth preached by the socialists. ng class depends on the ewnership of ing class depends on the ownership of matter was merely the usual attempt the TOOLS OF PRODUCTION AND on the part of the capitalist press to DISTRIBUTION.

So long as these remain in private hands, they tend simply to throw more laborers out of employment, and produce more wealth for the capitalist class; while if they were OWNED and OPERATED by the laborers as ation came to hand. The first of the common property, they would be the means to lighten their labor and in machiner of the labor and in a crease their comforts. This is such 2 Chicago by the usual box-car route, simple proposition, that it seems even in the second of the labor and in hands, they tend simply to throw more a blind person could see it. But do thus recorded by the Chicago Chron-the average workmen see it? If they icle of June 22d: special ammunition. These shells are loaded each with five large buckshot, and the shortened barrels of the guns are to be used to arm deputy sheriffs engaged in quelling the St. Louis street railway strike and the short roubles.—Ex.

Out of employment and unable to get any, C. F. Holbrook, 5 De Kaib street, read an advertisement and dreamed. He read of the wheat fields of Kansas and their class into cover a large field at short range.

The guns are to be used to arm deputy sheriffs engaged in quelling the strike only to lose it, and then when election comes around vote for to keep similar labor troubles.—Ex.

Out of employment and unable to get any, C. F. Holbrook, 5 De Kaib street, read an advertisement and dreamed. He read of the wheat fields of Kansas and of the radiant opportunities there for the penniless man. Positions worth 30 a week to capable farm hands were pictured as ready for all, no matter how many, who would take the troble to go their masters in power and to keep similar labor troubles.—Ex. teen inches, and a large quantity of did, they would not be such fools as

Got a Full Hand.

ng Roosevelt clubs are "carrying coals That hero invented a seen in the patent office at Washington tained a large number of steel teeth which were so contrived as to remain oncealed in the staff until released by essing a spring in the handle. It was intended for use on the heads of in-subordinate wage slaves who might possibly rebel against the conditions of he "strenuous" life, which the inventor holds as an ideal. When clubs, are trumps Teddy holds a winning hand

The "good union man" idea in poli-tics has helped to keep the workers in slavery for a quarter of a century, and still seems to be good sucker buit. Did it catch your union?

sconomic in Central Kansas, which was l'hunger, uncertainty and despair, and published in an out-of-the-way corner of the Kansas City Star. It stated that crowds of homeless transps who claim-tions which lure thousands and thous-ed to have arrived there for the pur-ands of dreamers along the path which The paragraph said . further have done the work by hand would there would be small demand for out-have required 375 men and an expendi-side help as the farmers were well ture of \$2,025 per day.

Why is I that they merely content themselves with "moaning over their till fortune". like the disappointed job-When this new machine comes into All this, as we have said, was included columns of the same paper were crammed full of glowing descriptions of interests can only be maintained by the which the farmers of that state labored of not being able to secure ashirtance in securing the enormous har-vest with which the prairies of Kansas were laden. Kansas was likely to suffocate under a plethora of wealth if twenty thousand laborers from outside the state were not forthcoming. We pointed out in the Worker's Call that these two statements absolutely connamely, that the welfare of the work- tradicted each other, that the whole persuade the workers into believing that they were simply overwhelmed the oily Depew, the "strennous" Roos-

their masters in power and to keep themselves in slavery!

If the workers of St.Louis knew their interests they would not be engaged in a hopeless strike, but would strike at the ballot box to make the street cars as well as all other means of production and distribution THEIR COM.

MON PROPERTY. They could then be the owners and masters and dictate to the other fellows.

If the members of the unions in our city knew just where the trouble lies, they would not waste their time trying in the correct of them. Then was two weeks ago.

Young Holbrook reached Chicago yesterday in a corner of an empty of ye

THEN MERN WERE: WAITHE THE 50GENT A DAY JOB.

Many of the strangers in distress are from the remote corners of the country, all attracted by representations of supposed comparative iuxury. Penury has attacked the visitors to such an extent that thievery has been resorted to and farmers have sought police protection from the towns that their chicken coops may not be looted and their storehouses raided.

"I dreamed of luxury a week ago," Hoibrook said, "Now I tell of poverty, you see, I was discharged form a bicycle firm here two weeks ago because It was compelled to lay off a large number of employes on account of the bad times. I know a large number of young men like myself that have leet jobs in Chicago that way this year. I made up my mind to take any job that came along. I read of the great number of jobs that were awalting men in the wheat fields of Kansas and decided that very minute to investigate for myself. "Having no money, I was compelled to beat my way to Kansas. I had traveled on railroads a good deal in my life that way before, but I never was treated mearshly by railroad men.

"It was a common thing for a breakman to throw a fellow like me off the train while the car was in pactors." If requently saw as many as 100 men like me on a train at one time. Most of them lost their jobs like myself on account of unfortunate industrial conditions. Some of the men had a little money, which was stolen by the breakmen. Many of us at the point of a revolver were forced to give up everything we had."

Hobbrook beat his way back from Kansas in similar fashion. He was accompanied by BOYS AND MEN WHOSE AGES RANGED FROM 15 TO 39 YEARS. He declared that in many instances railroad employes in charge of the trains he had traveled on had injured persons who tried to ride with every paying fares.

He declared that hundreds of the disappointed job-seckers may be found in the locuntry towns of Kansas siting over their ill fortune. At night foreign years is made raids on the farmers we getables and positive. Boutires may

It is hardly necessary to add any thing to this graphic account. Here was a "dreamer dreaming greatly," who has since learned by bitter experience the "baseless fabric of his visjon." He has gigen in these para-graphs a concise view of the nature of capitalist "prosperity," and has ther cuighly corroborated and confirmed the assertions of the socialists as to the truth of such matters. "Any man who dreams when he is awake is a fool, says Holbrook, but he evidently has nception of the immense number of unfortunates like himself who still live in "dreamland" and follow capitalist will-o'-the-wisps until the closof a miserable existence, dogged all contained a short description of things the way with the ghastly spectres of booyed up only with false hopes that in the enormous majority of cases are utterly blasted.

Who are responsible for these decep leads only to disappointment and de-Why is it that they merely content sekers in the Kansas wheat beit?

Only because of a lack of intellirence, only because they accept with out thinking the ideas of those whos continued deception of those who have not, those who must beg leave to labor from the owners of the land, tools and machinery of production.

While Halbrook was being ejected from box cars, while he was bemoaning his ill fortune and the vanishing prospects of \$30 per week, with which he had been tured into this land of "promise," a notable gathering taking place in Philadelphia, where scores of smooth speaking, prosperous orators and manipulators of opinion" were engaged in rocking the dreamers to sleep with the fullaby of osperity," There might be found evelt, the shrewd Hanna (whom his existence, their speeches dictating the policy of, and giving the cue to the thousands of their understrappers who in the public press hang out the "prosperity" bait, by which millions of wage slaves are deluded into supporting by their votes the very system whose only object is the robbery of the product of their labor.

And in Kansas City, in the state where Holbrook and the other thousand dupes have gone through the disastrous experience above related. another group of less successful labor skinners will assemble on July 4th. They will admit in general terms the illusive and deceptive nature of the "prosperity" which the others sulogize. and will seek to direct the attention of was, at the one in Philadelphia, but oh, their hearers and readers (and the it will be full of their friends. dreamers aforementioned) to the group of individuals in Philadelphia Washington, D. C., June 12—N. unadulterated capitalism which Depew delivered himself at the Repullcan convention recently held at Philadelphia has resulted in bringing to this office comments thereon from many of our contributors who were quick to see the significance of these utterances, divested as they were of the usual cant and hypocrisy with which such orations are generally garnished. We have selected, what in our judgment appeared, to be the best among those sent in by our correspondents, and submit them in this issue for the consideration of our readers.

A NEW POLITICAL TRINITY. That pliable tool of capitalist robbery, Chauncey Depew, who, at the Republican convention, proclaimed the new political trinity as "God, McKinley and Roosevelt," has evidently overlooked the fact that in appropriating the Supreme Being as an auxilary to the Republican party, he has thereby infringed the proprietary rights of no less a person than his Majesty Bill Hohenzollern of Germany, whose partnership with the Deity was announced some years ago under the title of "Me und Gott." Whether the arrogant claim of Depew might render him liable to prosecution for "lese majeste" or no, in the event of his paying a visit to the Kaiser's dominions, may be a matter of speculation, but it is probable that the consensus of opinion which at present prevalls in the capitalist world regarding the nature and attributes of the Ruler of the Universe might to some extent modify the claims of proprietorship vent of the hired mouthpieces of the made by those who insist upon His beexploiting class will swamp the efforts ing a party to their several plundering enterprises. McKinley and Roosevelt! The Idaho 'bull pen," and the patent improved double acting steel toothed club! The fool workers who go around cheering and parading for the oppressors of their class, richly deserve a taste of bothand they'll get it, or "something just as good," as the penalty for their folly.

The Democratic powwow to be held at Kansas City will bring out some matters of much interest to the work ingmen. Those friends of labor in convention assembled will see the Republican labor plank and go it one better. And yet they claim to be the most thorough representatives of the alone" system.

This "let alone" policy has been Thomas Jefferson, by whom it was first formulated. Its true significance was expressed in the war of the slave holders rebellion in the '60's. Democrat Jefferson Davis declared that all the South if the Inter Ocean expects that the adwanted was to be "let alone." After the war when the KuKlux were rampant, the southern Democrats re-echoed the same cry. And at present when they are occupied in disfranchising the colored workman, they cry out once more to be "let alone." And in this last transaction the Republicans seem perto be "let alone." fectly willing to accede to their request.

> And yet millions of fool workingmen fail to see the connection between the Democratic "let alone" and the capitalist "nothing to arbitrate."

Wherever workingmen strike there is the judicial lackey of capitalism to be found ready for work. These judges have come to be known as "injunction judges" and they have produced some remarkable decisions.

The following are a few of the most noted decisions.

Call for Joint Convention

From Branch 10, S. D. P.

Editor Workers' Call:—

Branch 16, Social Democratic party, at a business meeting last Wednesday syening, elected the following five delegates to the Joint State Convention of the S. D. P. and S. L. P., on July 4th, 1960, in Chicago; Chas. Hallbeck, Geo. Arnold, Thos. Tippin, N. Benson, J. S. Pederson.

Fraternally, Chas. Hallbeck, Recording Sec y., Branch 10, S. D. P.

For United Action in Boston.

The Boston city committee voted a its meeting June 19 to call a joint meet ing of the membership of the S. D. P branches and Section Boston, S. L. P. June 26, at 724 Washington street. The June 25, at 724 Washington street. The object of the meeting is to talk over the stituation and prepare for the state convention. This is to be held July 8, and the delegates of the S. L. P. are to be admitted on the same terms as those of the S. D. P., after the latter have organized and selected a state committee. The city committee has vojed to submit to a referendum vote of the membership in Boston a proposition, that there be bereafter a joint meeting of the members of the branches and of the members of Section Boston, S. L. Ponce each month.

Among other matters passed upon by the city committee was the passage of

the city committee was the passage of a resolution urging that the new state committee should be organizer on the representative basis and suggesting the senatorial district as a basis.

John Weaver Sherman, Sec. Boston City Committee.

Work Well Done.

As I was sent on a committee to distribute the special educational number of the Workers' Caft amongst four schools which were assigned to me, your readers may be interested in kn, wing that the results were in every sense successful, as I managed to distribute over 300 copies between the four schools.

Yours for socialism, Mrs. Annie Collins.

-Chicago, June 20th.

Comrade Collins Has the Floor.

Comrade Collins Has the Floer.

Editor Workers' Call:—

I think it would perhaps be interest'ing to the socialist comrades to know something more of the details of what happened on Sunday, June 17th), in the Federation of Labor meeting than what appeared in the daily press of the following day. The part that I took regarding the endorsement of a union man as a candidate on a capitalist licket, was as usual, misrepresented in the press, which informed its readers that I took the stand of "no politics in the union," the theory usually held by union men. I wish, through your columns, to correct this statement which umns, to correct this statement which is thoroughly and deliberately false. I stated plainly that the workingmen should go into politics, and that in politics alone lay the only hope for their class, but I was careful to state as forcibly and deliberately as possible, that the workers should fotally reject capitalist politics and substitute the rolitics which bore directly upon the material interests of their class, workmens' politics as opposed to capitalist politics. This was the identical position that I took two weeks ago in the same body, when I pointed out to them the manner in which the working class are treated by their capitalist masters, instancing St. Louis, Haseton, the Idaho "Bull pen." and other similar outrages, and especially pointing out to them the attitude of the aldermen in the city council of Chicago, when the resolution to take away the police from the buildings now under course of construction was introduced. I showed them the position taken upon this question by the two aldermen of the Thirteenth ward one a Democrat, the other, a Republican both opposed to the passing of the resolution. In my closing remarks I stated that if I was the only man in the threeting holding the views which I expressed I should still continue to protest to the bitter end against the inconceivable folly of placing any union man upon a ticket that stands for the interests of the enemies of organized labor—the capitalist class—and asking endorsement for such action.

John Collins, umns, to correct this statement whi is thoroughly and deliberately false, stated plainly that the workingm

Delegate from the Machinists Union. Chicago, June 20th, 1900,

Speakers of the S. L. P. will take no-tice that according to Chief Kipley's orders meetings held upon Quincy street, near State, must be held upon he north side of the street. Compliance with this order will give complete im-munity from police interference.

THE MODERN CHURCH.

One of the inconsistencies of the hurch and all religious sects, is, that before large numbers of the clergy they antagonize socialism, a movement for the realization of a state of things which would give the principles though misguided, is even now with of Christianity room to expand, while the working class), will be lined up working hand in hand for the continuance of a system under which the principles which they preach are imastble to be carried out.

If it were possible to make an ideal ciety here, under the system of capitalism, by preaching the gospel to men for the benefit of their souls, while countenancing the legal exploitation of their minds and bodies, the religious J. Bryan to speak at their picnic on institutions of this time ought to have Labor Day. Wonder if he will tell them some fruits to show that they are mak-ing a beginning. Pirst of all we would Wardner strike? A little discussion of look for a unity of purpose on the part of religious teachers, but instead each year sees them dividing, as the material interests underlying their peculiar constructions differ, and we realize given is that of the Boer-envoys who at-that they are governed by these ma-tempted to enlist the "sympathies" of terial interests, while strongly de-the administration by declaring that ocialists, who see the inconsistency of capitalist greed. cocialists, who see the incommend of these bodies, and understand the nature of changes going on in them. Turn any man down in your union whereas these teachers are growing in that attempts to bring in capitalist poli-

Bark corners trying to find out what the matter is.

The common people (the workers), tween the sermons preached to them on Sundays and every day life as it To all members of the S. L. P. and S. D. P. in Cook county, Greeting.

You are bereby fraternally invited to elect delegates to represent you in a county convention, to be held July 4th.

at 70 N. Clark street, 8 p. m., for the purpose of nominating a united socialist county ticket, and to take such other action as may be necessarily related thereto. The basis of representation is five delegates for each branch.

By order of Central Committee, S. L. P. Jas. S. Smith, Secretary. from them, to do the work which they are supposed to have been established for. The congregations of the churches for the most part are made up of "respectable" proletarians having capital-

istic instincts.

The Catholic church, however, seems to hold its membership among the working class, and through its head, the Pope, deplores the miseries of the masses, and urges reforms through the channels of capitalism for the amelioration of their condition. Its maintenence, like all religious institutions, is chiefly derived from the capitalist class and therefore its interests preclude a course of action detrimental to the capitalists. The working class in the church being in ignorance as to the underlying reasons of their economic servitude, look upon the church's efforts in their behalf in a favorable light, and thus are held to her by the shadow of a material fie. Could they be shown that these efforts must of necessity be futile, and that only through united class action can their economic freedom be gained, they would no doubt become socialists, and either leave the church or bring it with them. A large body of Catholics in the socialist ranks would arouse the church to officially approve or condemn their course, and while it is not likely that the working class belonging to the church would give up socialism when once they understood it, it is likely that the church would go a long way before losing this large part of her adherents, and so become herself socialistic. She has been deploring the spread of unbelief in America and urges as a check, the education of the children in the parochial schools, where they might be grounded in the fundamentals of religion. But if the working class is told that belief must be coupled with the rejection by it of its weapon of class solidarity, how can said class, understanding the principle of socialism, reject same and antagonize the movement to the extent of sending its children to be taught to forge chains for themselves?

Such action is impossible from men imbued with the spirit for economic freedom, and therefore the church must acknowledge the movement or lose the workers from her membership. The priesthood is made up of recruits from the working class mostly, and if this class should be forced to withdraw, the material for ministers would be unobtainable, as few capitalist members care to take up the rule of

life followed by these men. The clergy even now may or may not be in favor of or cognizant of, the principles of the movement. As for their position in the matter, supposing they have investigated, it would be hard to ascertain, as it would be indiscreet, for them to voice views which might have to be disavowed, and therefore here we have an unknown quantity. As to their knowledge of the principles of the movement it is quite safe to speculate at least of those in America that it is very vague. Candidates for the priesthood are usually selected by the pastors of the churches from among boys giving promise of fitness, according to the standard of the order, and are sent away at an age quite young enough to preclude the probability of their having turned their investigations in the direction of economics, to pursue their studies for the ministry, and it is not likely that they run across any socialism in the text books of political economy in use at their colleges.

Therefore whatever they learn of the subject necessarily is picked up after the college days are over, and between the exacting duties of their office. History proves that the officials of the church have been behindhand in accepting scientific discoveries, and generally were led by the fold. Such would most likely be the case with the. science of socialism. The workingmen who are in the fold of the church are necessary to the success of the movement and to them must the clergy lo before being themselves safely guarded Its Present and Future Relation to the in taking part in the movement. Let workingmen in the church come into the movement and it will not be long (men whose brains would be a gain to the cause, and whose sympathy, the working class), will be lined up with the class to which most of them belong, to put to good use the powers which their training has given them, and which have for so many years been lying dormant in this confusing system of capitalism.

nouncing materialism on the part of the war in South Africa was a result of

Depew on Expansion.

What the Celebrated "After-Dinner Speaker" Sail, and What He Failed to Say.

Chauncey Depew, in his speech at the | work-then we will produce ten billions national Republican convention, said:

"I remember when I used to go abroad—it is a good thing for a Yankee to go abroad—it used to be ashamed because everywhere they would say: "What is the matter with the Declaration of Independence, when you have slavery in your land?"
"Well, we took alavery out, and now no American is ashamed to go abroad. When, I went abroad afterwards the ship was full of merchants buying iron and buying steel and buying wool and buying cotton and all kinds of goods.
"Now, when an American goes around."

buying cotton and all kinds of goods.

Now, when an American goes around the world, what happens to him when he reaches the capital of Japan? He rides on an electric railway made by American mechanics, when he reaches the territory of China he reads under an electric light invented by Mr. Edison and put up by American arilsans.

When he goes over the great railway across Siberla, from China to St. Petersburg, he rides on American rails in cars drawn by American locomotives.

When he goes to Geymany he finds our iron and steel dimbing over a \$2.50 tariff, and thereby scaring the Kaiser almost out of his wits.

When he reaches the great exposition at Paris he finds the French winemaker saying that American wine can-

maker saying that American wine can-not be admitted there for the purpose of

When he goes to old London he gets awhen he goes to old London he gets for breakfast California Fruit, he gets for Junch biscuit and bread made of western flour, and when he gets for din-ner roast beef of old England, takes from the plains of Montana, his fee-rest on a carpet marked "Axminster, made at Yonkers, N. Y."

American capitalism, Chauncey Depew usands of human beings huddled together in tenement houses which are eat, drink, sleep and live together in a down.

He also fatls to mention that when he finds workmen and women, in sweatshops with only 20 to 100 cubic feet of breathing space for each individual, and from which cause the atmosphere becomes vile and overcharged with noxous matter that breeds disease and death to the workers.

Chauncey fails to point that in this so-called "glorious land of freedom," hose manufactured products are sent throughout the world, there are from 55 to 65 millions of people that are absolutely on the very verge of poverty. He falls to call attention to our suicides, our murders, our men driven-inof rent, profit and interest. He fails to point out that the laborers are fleeced out of \$3 per cent of what they pro-duce. He falls to state that the laborer dies at the average age of about 33 from overwork, exposure and insufficient nourishment, clothing and recreation, and that the capitalist, who does little if any useful work and who lives and dines in luxury on the fleecings of the laborer, lives to the average age of facts of the case are that today we have or even worse than the chattel slave, know that they are slaves.

And Depew continues his song of "capitalism" in the following style:

In the above, refrain "capitalism" (L e. shylockism), sounds its keymote. Capitalism has made war in Cuba and is making war in South Africa, China and the Philippines, through the proviace of the devil, Hanna, McKinley, welt. Chamberlain, the czar and the kalser and their supporters, for the ose of having foreign markets in which to dispose of their surplus goods, or, in other words, that capitalists may have a chance to fleece the Chinese, Filipines and Africans of all the wealth sess and bring them to a condiction of storvation as the English capitalists have dore to the starving, de luded wretches in India. Capitalists say, "we want China, the Philippines of the surplus of our wealth. We, in the United States produce two billion dotlars worth more than we can consume.

more than we can consume. Now when we organize the trusts and get their sweatshops into proper running order by which the greater part of waste labor will be eliminated, and when forign labor is imported and the wages of heaper to wear out the laborer than Trades Council. We will sell it to our neighbors and friends in China. South Africa and the could well concede and retain any shad-philippines." Now when capitalism be-ow of the right-of resistance. comes developed to the same degree in a hundred hillion in these countries, been pointed out repeatedly in these col-What are we to do then? There is no more strife; there is no more greed. Justice rules, and social-

ism and right prevails.

THE CHICAGO LOCKOUT.

Contractors Press Their Demands-The Only Manner in Which the Labor Vote Can Show Its Strength.

The situation in the lockout in the Chicago building trades has assumed a most serious phase. Perhaps, not since the very first has settlement seemed further away than today. The contractors have now taken an attitude which can only mean that they are determined to starve the union men into omplete submission. The unions submitted a series of propositions to the contractors last Monday that conceded laborers are cut to a minimum and nearly all the points at issue, save the when wages are so low that it will be one of the dissolution of the Building From any point of to keep him alive with sufficient food view within capitalism their proposiand raiment, and when the latest ia- tions were fair. Of course, to the sobor-saving devices are employed in cialist who sees in all such propositions manufacture we will produce above nothing but proposals for continued forty billion dollars worth annually slavery, they were anything but satismore than we can consume. What are factory. But speaking from the point of view of a continuation of wage slav- the laborees of Belgium, Italy and other

The contractors refused to consider Germany, France, England, Russia and them at all, because those presenting Italy as it is in the United States—and them had not first withdrawn from the it will not take many years for this to Building Trades Countil and agreed to happen-there will be a surplus of over abandon the sympathetic strike. It has of China, Cuba, South America, Africa cut class-consciousness in making this country to a condition where there is resisting capitalism, the easier at is nothing but a hopeless, despairing, pov-crushed. The individual laborer is a erty-stricken mass of hungering, starv-ing wretches. What are we to 46 then? union can accomplish little against When the Chinese, Pilipinos, Africans, concentrated capital, and federated products? Then what will happen? crushed, the union goes next and the With foreign markets destroyed and individual is so easy to crush he is his home in Terre Haute, Ind., suffering

The line of evolution is the other way, The closing of the factories Instead of the laborers giving up any means no work for man, and without of the present extent of organization, work there are no wages, and without they must go on to wider fields and a

has come! Business has stopped. The events of the last few weeks, and they nations of the earth are wrecked in this are all beginning to agree that the un-wild scramble to rob the workingman of ion must go into politics. This is shown the fruits of his toil. On the one side from the following quotation from the

tatters and in a hopeless, starving condition, while on the other, those magnates of the trust that have weathered the storm and deceived the world, may be seen making merry in their palaces with their wives and children and siaves and servile worshippers, arrayed in silks, satins and gorgeous apparel, decked with gold and precious stones, exalting themselves over a fallen and hopeless humanity.

Organized labor is preparing to take an active part in the political campaign the hope of railying the ranks and file of the open of railying the ranks and file of the open of railying the ranks and file of the preparing to take an active part in the political campaign the hope of railying the ranks and file of the open of railying the ranks and file of the open of railying the ranks and file of the open of railying the ranks and file of the open of railying the ranks and file of the open of railying the ranks and file of the open of railying the ranks and file of the open of railying the ranks and file of the open of railying the ranks and file of the open of railying the ranks and file of the open of railying the ranks and file of the open of railying the ranks and file of the open of railying the ranks and file of the open of railying the ranks and file of the open of railying the ranks and file of the part in the political campaign the hope of railying the ranks and file of the present week.

That sounds very good, does it not? Yet consciously or unconsciously the men who are back of that plan are scheming to betray the laborers whom they are supposed to lead, in the most damnable manner. If they were to go directly to the contractors and say to them that for a certain number of dollars they would break up the Building temptible and treasonable an act as the men are doing who conceal their pur-Here is the plan that is proposed:

being able to have a few stool pigeons put within the shambles of capitalism to lure the workers on to slavery. , A

two things will happen. Probably these en will receive a few dollars to forget their union sympathies, and if they're a capitalist ticket they will be the kind of men that will sell out cheap. If as they are elected that they are a part of an organization whose business it is to see that the laborers remain as they are at present and who will admit of no tation from the above article is as fol- in the membership of the C. M. I. U. fo

"There never was a better opportun-ity for union workmen to show their strength than exists at present," said John A. Long, chairman of the board of fusiness accepts. "The July way ess agents. "The only way to enstrate the full strength of the larole is for the unions to unite in a partisan movement and support the idates who are their friends. The

If John A. Long said the words that he is credited with, he is either a fool or a crook. There is no other conclusion. The man, who after the experince of the past twenty-five years America has not seen the idiocy and reiminality of attempting to help the aboring men by electing any kind of nen whatsoever on the old party tick-

tron saint of the laborers could himself be elected to office on either the Republican or Democrátic ticket he would be as helpless to do anything for labor as an unborn child. The "labor vote has always been responsible for all the men that are elected" on any ticket in this country, but has that ever helped labor? The present parties are but divisions of the capitalis, class. They are agreed upon the only question in which labor is interested, and that is the question of the continuance of wage slavery, the wounded. If this had been in America, maintenance of private property in the things with which the laborer works.

The only way in which the "full story, trength," or any strength whatever of gian h "the labor vote" can be "demonstrated," is by uniting upon a platform that is opposed to wage slavery and private property in the tools of production and distribution. This can only be done by uniting with the socialists. This has been the experience of every other pait will be the experience of America. Read in another column how gest working within the old parties.

LABOR ITEMS.

Notes From Trades Union Journals and Exchanges, Throughout the United States.

John Morley, the British statesman, says in an interview, that socialism is spreading rapidly in England.

The Labor Signal is the name of new labor paper started in Oklahoma City, Okla. It supports socialism.

Social Democrats report new branche in Abilene, Kan., Saginaw, Mich., South Milwaukee, Wis., Springfield, Mo., Ft. Lee, N. J., and Quincy, Mass.

Eugene V. Debs has been quite fil at from rheumatism and general over exertion as a result of his lecturing

A strong branch of Social Democrats at Manchester, N. H., withdrew from the party until such time as union is perfected. The vote on union in the two national parties closes on Tuesday

Advices from Lawrence, Mass., state city are becoming panic-stricken at the steady growth of socialist sentiment which is taking hold of the mill workers.-Cleveland Citizen.

Fifty sausagemakers employed by Arour and company quit Saturday be cause the firm cut their wages from 20 to 16 cents per hour for an eight-hour day. The men claim that Armour and company seek to get women and girls into that department at reduced wages

The jerrymandering in Vienna has resulted in the Anti-Semites being victorlous at the communal council election They have 131 seats and the Progres sives have only 21, but in spite of all the opposition two socialists have been elected and these are the first who have ever sat in the municipal council. The socialist vote was heavy, they polled in all districts 56,306 votes, and the Anti-Semites 77,608. These figures show better than any comment of mine the ar tistic way in which the sonstituencies

Figures don't lie, but sometimes they change considerably when material interests are concerned. For instance when the census returns of the popula tion of Chicago threatened to fall under would not have done one-half as con- 1,800,000 the "Two Million" club of real estate jobbers quickly discovered that about 100,000 workingmen had left the pose under these fair-sounding words, city on account of the lockout. Glimpses of the World-wide Struggl of the Proletarian Army for Its Liberty.

BELGIUM.

The dockworkers of Ghent have just been on a strike, during which the postrikers. One person was shot and two say in St. Louis or Chicago for example. this would have been the end of the But it so happens that the Belgian laborers have been fighting the boss at election time as well as during the rest of the year, and so they had in the municipal council of Ghent a number of representatives of their class Among others was Edward Anseele, perhaps one of the abbest socialists that have come direct from the ranks of the

manual laborers. Ansecle brought the matter up, first in the municipal council and later in the Relgian chamber of deputies. "Le Peuple," a socialist daily, says concerning his speech in the immicipal coun-

cit: "Our friend Anseele has pronounced a moving discourse in which he described the rude manner of life of the dockers, their peaceful and calmin struggle to maintain a union, the provocations offered by the employers and finally the frightful scene of the shoot ing. He reproached the mayor in vehement terms for the conduct of the police during the struggle, and the in sulting gathering of the police at the time of the funeral of the striker who was killed.

"The audience repeatedly interrupted him with applause, and at the close shouted to Anseele Good courage! Do not give up! They then went away singing the Marselllaise."

In America the shooting of a single nan-during å strike might receive a few lines in the next morning's paper if not crowded out by the description of a full dress ball.

The municipal elections of the 10th of June have resulted in socialist gains in nearly every city where the farty entered the field. In Brussels an additional seat was gained in the mnnicipal council in Hainaut the socialist repreentation has been increeased from 26 to 30 ,and so the story goes everywhere

Now that the elections are over the Relgian comrades propose to enter upo a vigorous campaign for universal sufas some of the methods decided upon at a recent meeting of the General Council-of the Socialist party;

"The circulation of pamphlets in favor of the universal suffrage and against the system of plural voting.

"On the opening of the chamber of deputies, on July 3rd, a great meeting will be held at which the 32 socialist deputies will be present and take part. "The deputies are instructed to support Vandervelde in making a demonstration in the Chamber for universal suffrage."

suffrage.

"A manifesto, signed by the members of the General Council and the socialist deputies, will be issued and published in the party organs notifying the laborers to prepare themselves for a supreme

ers to prepare themselves for a supreme struggle.

"During next November the Socialist Left in the chamber will propose a law granting universal suffrage in communal and provingial elections.

"The communal and provincial socialist officers are instructed to, as soon as possible, pass votes and resolutions through their respective bodies in favor of universal suffrage.

"An extraordinary congress of the entire socialist party is to be called during the month of October, or sooner if the circumstances demand it.

"The socialist deputies will practice obstruction tactics against all governmental appropriation bills until the government shall itself offer an amendament to the election laws abolishing plural voting and introducing the universal suffrage."

At the present time the Belgian slection law provides that all men above the age of 25 shall have one vote, but all those who are the heads of a family, or have a university degree, or a certain amount of property have addit have three votes to the single vote of he was elected? the unmarried proletarian.

Those who recall the desperate struggle that was made by the Belgian comrades in 1894 to secure this same end. concluding with a universal strike that paralized all industry and held the ountry at a standstill until the present w was enacted and accepted by the laborers as a compromise, will gain some idea of what the present struggle

The program of action laid down gives a little idea also of the forces which the laborers can set in motion when they are thoroughly and intelligently organized.

· .ITALY.

The following summary is taken from an article in the Berlin "Vorwarts," regarding the recent Italian elections:

a confession of helplessness on the part of Pelloux. An overwhelming majority of the chamber was with him, yet he could accomplish nothing. He became panic stricken before the action of the extreme Left and dissolved the cham-

with this particular method of capitalist vote-getting.

His purpose was not so much to strengthen the governmental party-that was already strong enough for any purposes desired—as to completely crack out of existence the extreme Left.—In this effort he falled miserably. The extreme Left—and especially lis heart and strength—the socialists, has gained everywhere, even beyond their wildest expectations. The governing party on the other hand has had to optical itself with the gaining of a New sears at the expense of the Centerwhole at the expense of the government, a strengthened enemy and the ground torn away from their own feet—is the result of the election from the finisterial point of view.

The former chamber was made, up as follows: 135 Ministerials, 12 unat-

tached adherents of the ministry, 104 Constitutional opponents of the minis-try, and 71 of the extreme Left, of whom

try, and 71 of the extreme Left, of whom 16 were socialists.

The Italian law provides for a revision of the list of electors each June. Felloux well understood that the young voters would be against him, and so held the election just before the time for a new registration, thus shitting out all those who had reached the legal age within one year.

When the above was written the full result of the elections was not yet known, but "Le Peuple," of Brussels, gives the following results:

Ministerials, 260: Constitutional Oppo-sition, 120: Radicals, 20: Republicans, Socialists, 30.

A few days later the Italian corre pondent of "Le Peuple" comments as follows on the result;

follows on the result;

"The vote received by the socialist, candidates is so-large that the conservative journals speak of it in terror. There is talk of diminishing the right of suffrage—of limiting it to a small portion of the clizens—of passing laws of exception for the advanced parties. It would appear as if the lessons of history were lost on these men.

"No one knows what the government will do, and least of all those who compose it. The elections have given them a majority, but they can do nothing without they change their policy. They will probably persist in the policy of reaction and violence. The extreme Left—sure of the confidence of the people—will have renewed strength and encouragement to resist this course, and couragement to resist this course, and will use all possible means to that end, knowing that all means are good that aid in the defense of liberty and social

FRANCE.

As a result of the protestations of the ocialists all over France against Minister Millerand and Deputies Viviani and Jaures supporting the government in opposition to the motion to provide an investigation of the cases of the milling labor troubles at Chalon, the General Committee of the Socialist party has met and censured the three ministerial leaders and voting that the blame be laid on them and withdrawing the confidence of the party. The action of this committee is of importance, as the government is absolutely dependent on the socialists' vote. This caves Deputy Guesde, who is a bitter, enemy of the cabinet, master of the

A Modern Good Samaritan.

The following anecdote is an excellent illustration of the relation of the laborer to the old political parties:

It happened in the early days of Aus-tralian history, when bushranging cas-

A gentleman was riding along a lonely track through the brush when he
heard loud cries for help proceeding
from a neighboring grove. He immediately rode to the assistance of the
person who seemed to be in distress.
Arriving at the spot whence proceeded
the cries he was surprised and shocked
to find a man securely tied to a tree.

"What is she matter here?" he asked.
"Oh, sir," replied the poor fellow, "Tin
so glad you have come! A few hours
ago I was stuck up by bushrangers,
who rifed my pockets, and, after stealing everything I had except a bundle of
notes in my inside breast pocket, bound
me to this tree and decamped."

"The scoundreis!" ejaculated the
newcomer; "and so the wretches robbed
you, eh?"
"Yes, sir."

"Took everything you had except a
bundle of notes in your inside pocket,
sh."

"The villains! And then they tied you. A gentleman was riding along a lone-

"Yes, sir."
"The villains! And then they tied you here?"
"Yes, sir."
"And you are still tied tightly—se tightly that you cannot escape?"

"Yes, sir."
"Then I'll take the notes the other fellows left!"
And he did.—London Tit-Bits.

The main difference between the la-

borer of today and the traveler described, is that the laborer does tieing of his own political bonds by voting the ticket of the robbers.

"Friends of Labor."

THE TRIUMPH OF "LAW."

Sentences Passed Upon Children in St. Louis by Capitalist Courts and Judges.

The majesty of the law has been vin dicated! the rights of property have been secured! Civilization has again asserted itself! The respectable, lawabiding citizens of St. Louis may now rest assured that the demens of ignorance, hunger and desperate poverty that were unchained during the recent street-car strike are safely confined where they will do no barm. The ax has been laid at the root of the tree; the fountains of violence have been dried up at their source.

All the bourgeois respectability of America has been covered with "thrills of horror", during the last few weeks concerning the outrages that had been committed upon women by the strike sympathizers of St. Louis, and there was a long cry that those responsible should not be allowed to escape. At last the slow deliberate machinery of the law was set in motion and here is the story of the results it brought forth as told in the daily press.

Three young factory girls, Annie Svee, 14, of 1877 South Twelfth street; Annie Klassk, 14, of 1879 South Tenth street, and Mary Trantina, 16, of 1881 South Twelfth street, were each sentenced to two years in the reform school by Judge Clark Friday on a charge of assaulting and tearing the cothes of Pauline Hesser of 5082 Cabanne avenue.

Three little girls condemned to a life of disgrace and ignomy, thrown into iation with those has already reduced to the level of the cavage and branded forever with what public opinion of capitalism makes a damning disgrace, the name of convict-this is the way in which the class justice of today rights social wrongs But let us see what preparation had been given these, children, to make vicariously responsible for the sc cial injustices of an entire class. Had they been given all the advantages of education, culture, refinement and training that would enable them to they never suffered any injustice from present social organizations which, might render them inclined to bitterness against the surroundings in which

Little Annie Svee is described as mentally and physically weak. Her life history tells us why. Left motherless at two years of age, her futher fought a desperate battle with poverty to keep her in school until when she was eight years of age his name was sadded to that long list of mangled victime of capitalism by being crushed beneath a great iron bumper while at his work. Long weeks in the hospital left him a penniless wreck of humanity with but one leg. Still with a desperate energy that marks him as one of those whom even capitalism cannot whelly crush he endeavored to heat off starvation for himself and helpless children by making and selling paper flowers. Mesowhile Annie alternated between a "House of liefuge" shid a miserable helf-starved existence until at last-she was able to be when she became a tobucce stripper perhaps one of the most disgusting ocwage stave. At this she was working

The story of her companions varies only as to detail. Annie Klasek, the home wrecked by that capitalistic so-cisty which poses as the protector and preserver of the family against the at-Ancks of evil-disposed socialists, she too had worked since eleven years of age in a great tobacco factory. At this dying victims lay underfoot every revolting form of slavery she was where and shocked the eye in every diseasing the princely sum of one dollar rection that it makes the eye in every disease. ner week with which to maintain herself according to bourgeois standards

Mary Trantina had managed to avoid the tobacco stripper until she was twelve, when she too was able to or years and giving way again to peace, add to the profits of the capitalist as did the battles of the soldiers, but of the "aristocracy of labor" as rockoned in the world of tobacco strippers. at the princely salary of three dollars

Laborers of America, it may be your daughters sisters, wives or mothers who will next offend capitalist dignity. Have you enough manhood left within you to strike one blow for your own sdom at a place where it will be effective? It was you and your class that hted, through your ballots, the name to be made and the social organization to be perpetuated that places these girls where they now are. Four votes go at each election to approve of the system of private property that ignorance. Give him a Workers' Call makes these things possible. Their to help break your fettern

Germany — Arrangements for Germany -- Arrangements for German correspondents will shortly be concluded.

Rerope has many ably edited reviews expounding the principles of Socialism, and enabling students of social problems to exchange their ideas. America needs such a review, and to this end A. M. Simons, lately editor of the Workers' Call, and now vice-president of the Chicago publishing house of CRARLEN H. KERR & COMPANY, has in a recent journey arranged with the leading European socialists to assist in establishing The International Socialist Review, the first annuher of which appears July 1, 1900. Every civilized country will be represented by its ablest accialist writers, and some forty-eight of the sixty-four pages 17 the European will be right of the sixty-four pages 17 the European will be regular features:

1. Review of the events of the month from the socialist point of view.

2. News of the events of the month from the socialist point of view.

3. Review of economic developments and labor troubles, with special reference to the trade union movement.

4. Foreign correspondence: News of the socialist movement the world over.

Bevery student of socialism, and also every opponent of

Every student of socialism, and also every opponent of socialism, will find that he needs to read THE INTERNATIONAL SOCIALIST REVIEW.

PRICE 10 CENYS A COPY, \$1.00 A YEAR.
By special arrangement with Charles H. Kerr & Company
we offer The International Socialist Review and this

The Best Socialistic Literature

THE INTERNATIONAL

SOCIALIST REVIEW

On the first of July we shall issue the first number of the monthly review under the editorship of A. M. Simons, until lately editor of The Workers' Call, who has recently returned from studying social conditions in Europe. The socialist movement has now reached the point where it can claim to offer the only philosophy pointing the way to a positive solution of present-day problems. Its constantly increasing strength at home and abroad make: It a force with which all must reckon. In Europe the best minds of the colleges and universities are devoted to expounding its doctrines and a majority of the leading conomic reviews are under the direction of socialist wasters and thinkers. The International Socialist Review will be the first periodical, in the English language to bring together to any extent the original contributions of the Sreat socialist thinkers of the different countries of Europe. It will also publish each month letters from foreign correspondents giving the latest news and a review of the situation in each country. Here is a partial list of those who have already promised to write:

who have already promised to write: France—Paul Lafargue, Jean Jaures

France—Paul Lafargue, Jean Jaures, Jean Longuet. Belgium—Emile Vandervelde, Henri Lafantaine, Emile Vinck, Mme. Lalia

Lafontaine, Emile Vinck, Mme. Lalla Kufferath.
England—H. M. Hyndman, Walter Crane, Samuel Hobson, H. Quelch, Keir Hardie, J. R. McDonald.
Italy—Dr. Alessandro Schivi.
Denmark—Dr. Gustav Bang,
Arrangsments are now being completed for correspondents and contributors from Germany and Holland, and we hope to announce their names before the first issue.

It will be seen at once that this list of contributors places the International Socialist Heview in a class by itself so Socialist Review in a class by itself so far as periodicals in English are con-cerned.

But it must/not be supposed that the But it must/not be supposed that the American situation has been neglected. Aiready articles have been promised by Job Harriman, Rev. Charles H. Vail, N. I. Stone, Leonard D. Abbott, Rev. Wm. T. Brown, William Mailly, Gov. Andrew E. Lee. Ben Hanford, Marcus Hitch, Jos. Wanhope, W. H. Noyrs and others, and no effort will be spared to secure the best work of the best thinkers upon the problems of socialism in America.

America.

The plan of the magazine will be approximately as follows: About forty-eight pages will be given to contributed articles and the remaining sixteen pages will be divided as nearly equally as possible among the following depart-

ments:
First. Review of the events of the month from the socialist point of view.
Second. News of the socialist movement in America during the month just passed.
Third. Items concerning the struggle in the economic field, including trade union news and labor troubles.
Fourth. Foreign correspondence giving news of the socialist movement the world over.

ing news of the socialist movement the world over.

The need of such a periodical as this is apparent to every socialist. We believe that once it is brought to their notice every comrade will be willing to take hold and heip. There are two ways in which such help is wanted at once. In the first place further capital is needed for its establishment. A comrade has agreed to give \$250 for this purpose as soon as an equal sum is comrade has agreed to give \$250 for this purpose as soon as an equal sum is raised elsewhere. Of this sum \$210.05 has already been raised leaving only \$20.00 more to get if this offer is, not to be allowed to lapse. To raise this one hundred dollars it is proposed to sell shares of our capital stock at ten dollars each—their par value. That the money thus invested offers immediate and desirable returns aside from being an aid in the establishment of the magazine is shown by the following special prices on books published by us which are made to stockholders only:

Five cent books in small lots, 2½

are made to stockholders only:

Five cent books in small lots. 2½
cents: 190 assorted copies, \$1.75; 500 assorted copies, \$5.00; post free in the
United States outside Chicago.

Ten cent books in small lots, 5 cents;
190 assorted, \$3.50; post free in the
United States outside Chicago.

Twenty-five cent books in small lots,
12½ cents; 50 assorted, \$5.00; post free
in the United States outside Chicago.

Other books at half list prices; post
free on paper books; on cloth books if
sent by mall postage will avarage about
10 per cent of the retail prices.

Once the magazine is established it

Once the magazine is established it will be run without further expense to the party, and will be distributed, not only through the ordinary socialist channels, but also through regular trade channels to thousands of people entirely inaccessible to the ordinary socialist propagands. It will be a means cialist propaganda. It will be a means of capturing and holding the intellect-ual proletariat for socialism as well as an organ for the education and train-ing of socialist speakers and writers.

The first number of the International ocialist Review, appearing the first of July, will contain a number of interest-ing features. There will be an article by Rev. W. T. Brown on "Plutocracy or Democracy" that is one of the best things that this well-known writer has produced. "Socialism in England," is treated in a most thorough way by H. M. Hyndman, who has been known as one of the pioneers of international socialism and the author of "Economics of Socialism" and the "Historical Basis of Socialism," both among the classics of the subject. Marcus Hitch, of Chi-cago, treats the subject of "Karl Marx and the Money Question" in a new and original manner that is sure to provoke much thought and discussion lean Longuet.a grandson of Karl Marx, and a member of the editorial staff of both "Le Petite Republique" and "Le Mouvement Socialiste," sends a con tribution on "French Political Parties and the Recent Elections," that not only gives some interesting news but also tells just what everyone has been and strength of the different French political parties. "The Legislative Elections in Belgium" are discussed by Prof. Emile Vinck, of the Nouvelle University of Brussels, and seretary of the League of Socialist Municipal Councillers. One or two other articles have been promised but cannot be defi-nitely announced as yet. In addition there will be the editorial review of the month, events of the labor world and general foreign news.

blood, and that of their suffering broth ers and sisters, is upon you and you chass: Will you cleanse yourself of the shame at the next election by uniting with the socialists of the world to lay the ax at the root of the tree that bears

"We" Must Take a Slice.

The mouthpieces of capitalism are favoring their wage slaves with somvery plain statements of facts thes days. The humbug under which that system operates is already wearing so thin as to become transparent to al who are not totally blind. The out pourings of the unctuous Depew in the Republican convention upon the neces sity of expansion, finds a counterpar in the following declaration by a "rep

Representative Bromwell of Ohio is in favor of taking a siles of Chinese territory, and today said:
"If the empire has to be divided, I am most certainly in favor of getting the proportion of territory that be-longs to this country.

"The fact that we have the Philip-nines will but insure as followers.

"The fact that we have the Philippines will not insure us full commercial advantages if China goes into the hands of Europe. You may be sare that those countries are not risking everything to get some Uninese territory for the fun of the Uling.
"It is commerce and trade they are after, and we cannot afford to be a shinute behind in the same course, except that ours can be done under restrictions, and in Keeping with our policy of going alone shill independent of other nations."—Dispatch in Chicago Tribuna.

Wage earners who may read the above may rely upon its truthfulness. The only question for them to determine is as to who are the "we" and the "ours," and how much of the intended "slice" is to become their portion. When they have reached a conclusion upon this matter they will then be able to discern how far Bromwell can be

considered as their "representative."

Compare with warfare of this character, the conditions of the economic struggle for existence. That was a way at in which not merely small selected bodies of combatants took part, but on Yalus to constalled exploitation in which THE ENTIRE POPULATION OF EVERY COUNTRY, excepting the inconsiderable groups of the rich, were forcibly enlisted and compelled to serve Not only did women, children, the aged and crippled have to participate in it but the weaker the combatants, the harder the conditions under which they must contend. It was a war in which there was no help for the wounded, no quarter for the vanquished. It was a war not on the far frontiers, but in every city, every street and every house; and its wounded, broken and rection that it might glazes, with new form of misery. The ear could no escupe the lamentations of the stricker and their vain cries for pity. And this war came not once or twice in a centu was perennial and perpetual, tro lifelong. Finally, it was a war which belther appealed to nor developed any noble, any generous, any honorable setiment; but on the contrary it set a constant premium on the meanest. haman nature,- ("Equality." page 227.

The penalty which the working class pay for allowing the expitalists to do their thinking for them is nine-tenths of the product of their labor. Work-

"Workingmen of all countries unite! You have nothing to lose but your chains: you have a world to gain."

PRICE TWO CENTS

"THEM PRINCIPLES"

The Democratic County Convention and "Self-government."

THE CHAMPIONS OF LIBERTY.

"Sympathy" for Boers, Porto Ricans and Filipinos-Rope and Stake for Colored Americans.

In cheap imitation of the Philadelphia convention, ruled over by the great emperor. Mark Hanna, the Democratic county convention met at the North Side Turner Hall in Chicago; having

Under the rule of Pooh Bah' Burke, assisted by the brilliant statesmanship of the Honorables "Hinky Dink" Ken-na, "Bath House" Coughlin, John Powers, O'Brien, etc., etc., after nomination as follows, was adopted:

as follows, was adopted:

"The Democratic party of Cook county, in convention assembled, declares its unwavering allegiance to the time-honored principles of democracy which have made it the party of the people and of popular self-government."

"We denounce the administration of Wm. McKinley as the weakest in the history of the nation, and especially deplore the cowering attitude of the president and his advisers in refusing consolation and sympathy to the heroid Boers in their struggle for the independence of the Transvaal republic, and we invoke public condemnation of an administrative policy which denies to Cuba, Porto Rico and the Philippine is lands the principle of home raic and self-government and seeks the audyagation of a free and enlightened people for the glory of an imperial policy, revolting to our traditions and a defiance to the principles of our federal constitution."

"The time-honored principles of democracy" is good, very good. The word vote), and ignorance, ta lie which can be proved that today some black men with the addition "which has made it the party of the people." What "people?" Why the class represented by the Democratic party. What class? The little storekeeper to be sure, who

the little property owner is not yet de-prived by the larger capitalist of his or flat, or store, and can find a tenant, it means rent.

So you see 'democracy" in this case stands for rent, interest and profits.

"We denounce," of course. Why not? in the saddle, besides there may still be a few "free" and "intelligent" workers of political jobs and of political spoils can be gulled by this stuff. "Offer "consolation" and "sympathy"

to the "heroic Boers in their struggle

Nonsense, my Democratic friends, We have previously remarked, if "conso-lation and "sympathy" could win hat-tles why the Boers would have licked England to a standstill, but it needs ns, cannons and fighters to win. It's denunciation of imperialism, trusts all well enough to hold "consolation" and "sympathy" meetings 7,000 miles

"Sympathy," "consolation," barrels of it. But take up guns and go on the battlefield and give material ald—well ers in the South. solation" and "sympathy" is

oublic," (the same old bogey), of , policy which denies to Cuba, ciple of SELF-GOVERNMENT." mn" this, do you? Well, dets look into the record of this Democratic party that boasts of Democratic principles (?) and that believes in "self-

Is not Tillman, of South Carolina a ood Democrat of your stamp?

Is it not true that he is father of a

law depriving thousands of colored votof their right to say who shall hold office and govern, of their participation self-government. In Lousiana is not law proposed under Democratic rule of their vote? Is this law not also in eration in the state of Missippi and atic rule? . Is it not true that in these southern states that the colored

people are in the majority:

Tou called upon the "federal constitution." Does not the "federal constitution" and the "principles of Democracy" that you profess to believe in, state

ainly that "majorities must rule?" Then why do you of "Democratic p which was given to them after

you stab the other party to the transac-

tion in the back? You may say the black man is ignor-

ant. True. But whose is the fault? What makes ignorance? Who fosters

this ignorance? The Democratic party. And why?

Because these southern states ruled by Democrats do not have a school system sufficient to educate these negroes whom you have previously kept in bondage and ignorance. Go through the What do you find? Separate schools for blacks and whites. The Hammering at the Gates of Pekia while Under Capitalism the Wageworkers Are schools for whites outnumbering the Women and Children Parish from South. schools for blacks 10 to 1-or nearly so The blacks are the greater portion of the population, in many states outnum bering the whites nearly 2 to 1. Thus while you could-being in possession of the powers of government-make it possible to educate these people, and do not do so, you are plainly guilty of a crime against these people. Knowing fixed up their slate behind closed doors their previous conditions, and yet upon prior to the opening of the convention the slightest pretext your constituents hang, burn, and torture in horrible style, colored men who are ONLY GHARGED, NOT PROVEN TO BE GUILTY of any crime, and the men elected to office on your ticket-have more times aided in this criminal burnof candidates the platform, beginning ing, hanging and torturing of these blacks, than tried to stop the horrible affairs.

Therefore, not having taken in consideration the previous condition of these people; not having, in view of their ignorance, established a proper school system to educate them; despite of the fact that the Republican party and the government of Lincoln gave them political and not INDUSTRIAL freedom, and you of the Democratic party opposed both their POLITICAL and INDUSTRIAL freedom, YOU ARE TWICE GUILTY OF CRIMINAL IN-COMPETENCY, and how little reason have you to call out upon the wrongs of the Cubans, Porto Ricans, Filipines, etc., while you in full official power, are perpetuating ignorance, degrading a people, and depriving them under the flimsy pretext of poverty, (saying that a man, it he has no property he cannot by-word. It means nothing, even have acquired an education when they

who live in glass houses, ets., etc. In this case you see "democracy" First clear your skirts of your party's tands for profits and interest—and if criminal guilt and than you will be in position to say "guilty" to the other fel-

Is it not true that the hatred of ne groes is not a matter of white man versus black, so much as it is the fact that the negro being in the majority by his vote would elect into office representa ere's nothing else to do. You are not tives of his own color and thus deprive This making of the so-called "color line" is an economic proposition; noth

ing more, nothing less. Again the platform. Here the brains of the Democratic party gave out and

etc., etc. To close: The Democratic party that away-but-but-yes-it's a little tick-wants to recognize the independence of lish on the battlefield ain't it? the Cubans, Filipines and Porto Ricans

> Remember, I do not give any hono to the Republicans and Lincoln for freeing these black people. They were only given freedom politically, so that compete with free white labor, proving NOMIC freedom is bosh.

> Socialism alone will give social and regardless of creed, color or sex.

Pray, Don't Mention It.

Senator Fred Dubois of Idaho, silve Republican, is dickering with the Democratic "leaders" in that state for the suppression of all mention in of the local affair and should not be nationald." and the "prominent" leaders om he has consuited say "there is a great deal of force in his arguments. great deal of lores in his arguments.

This means that the plunderers of the
working class are naturally anxious to
cover up their murderous work while
vote-getting is necessary. The socialists, however, may be depended on to
"nationalize" this butchery to the utmost and expose the falsehood of its being "a local affair" only.

The first two editions of "Questions to Bryan" have been exhausted and excess orders for nearly twenty-five thousand have been received. An edion of 100,000 will be run off this week so that all orders can be supplied. If desired the article on the "We, Ue and

Depew the Lie Direct.

Women and Children Perish from Cold and Hunger.

No 1:—
Forced by destitution to the verge of instanty and shivering with cold, Mrs. Emma Muhs of I's North Green street left her seven children, including an infant but a few weeks old, and wandered mutering and moaning through the street until taken in charge by the police of West Chicago Avenue station. The beart some conomically they are nother than hung, uncombed and unfasfened. The officers conveyed her to the detention hospital and an hour later took four of the children to the same institution. The baby, covered with sore sand scarcely alive, was taken to the Foundling's home. Robert and Wille, aged 4, were given homes by relatives at 71 Bissell street.

Herman, is years old, Emil, aged 11 and the two little girls are still at the detention hospital and will be brought hefore Judge - Tuthii in the juvenile court Monday. Mrs. Muhs' husband, who was a teamster, was killed not long ago by falling from his wagon.

No. 2:—

to and starve whether they want to or instinction bosses to their beart's contents, and then vote their beart's contents, and then vote their beart's contents, and then vote her changed by changing the law reset in their beart's contents, and then vote in their beart's contents, and then vote they are nother treatly, but with all that the fact treatly but with all that

In an alley back of Princeton avenue, near 3th street. Mrs. Sarah Elliott, 191 years old, was found by the police after having been exicted from a small room, which she occupied alone in that neighborhood. The woman was croughing in the chadow of a barn, and was shivering with cold under the meagre protection of a ragged blanket.

She had begged the landlord to wait a few days when she believed that money would reach her from grandsong fighting in the Philippines. Her plea was refused.

Mrs. Elliott was born in the north of freiand, and came to this country more than forty years ago. Her daughten who is now an old woman, is sick in the county hospital. In spite of her great age the unfortunate woman is active and has retained all her faculties. She was too proud to beg and had been without food for twenty-four hours. She was taken to the poornouse at Dunning.

Incidents like these, which although ion as to pass almost unnoticed, and which yet might be multiplied indefinitely, give the He direct to the mooth, slimy, lying hypocrite, who at the Republican convention gabbled so loquently of the inability of the American people to consume the surplus cre-ated by the labor of the community. ould the unfortunate women and chiliren above mentioned have consume nything more in the way of clothing, ood and shelter, than fell to their lot? Is the wearing of a "wretched old rapper" an unfailing sign that more clothing has been produced than can possibly be consumed? Can "bare, bleeding feet," be reconciled with the bleeding feet," be reconciled with the oughly posted in capitalistic economics, looks upon these immigrants with shoes can be turned out in a "fraction pleasure. They are VALUABLE IN under fourteen minutes," as was the recent boast of a capitalist shoe for ory owner in this city? Can these two facts be harmonized, unless upon the supposition that capitalist production is insane and irrational system? the thing soak into you. "Forced by destitution to the verge of insanity and shivering with cold," the mother of seven children wanders mouning and aken in charge by the police. Baby a few weeks old, covered with sores and by a fall from a wagon a short time before, rags, hunger and wretchedness a "home" consisting of a small room broken up, (not by socialism either), a voman 101 years old crouched in the hadow of a barn shivering with cold inder a ragged blanket, and the sons of one of the victims fighting on the other side of the world for the pur-pose of forcing \$2,000,000,000 worth of products upon \$86,000,000 Asiatios! Would you not say that an eco system which gives results like the above is in reality a combination of

What Will Socialism Do with the Poor Scavenger!—Here Is what Capi-talism Doos.

out there seems to be some possibility that they may grow hungry, as the wing dispatch from New York would imply:

New York's white wings are doomed. Street sweepers, teamsters, snow-shoveiers—all are to be put out of business by a big machine, and one that can do three times the work of Percy Nagle's whole brigade. This machine sprinkles, sweeps and cleans at the same time. Already it has been placed on trial by Commissioner Nagle. There is no mystery about the invention. It was first tried in Wheeling, W. Va. in which state the company that exploits it was incerporated with a capital stock of \$1.000,000.

Wagons of the company will be operated by compressed air. Electricity also can be used. These wagons are called "parparts." They are so constructed as to be able to sweep the streets under all conditions. Dust, dirt, and slush disappear before their onslaught. In winter an attachment is arranged by which snow-shoveling can be done.

Several machines have been offerred to the city free of charge and Commis-

be done. Several machines have been offered to the city free of charge and Commis-sioner Nagle will put them into com-mission.—Chicago Tribune.

And so passes the last resort of the ger, sends shouls of desperate unemployed perishing human beings to beslege the doors of the county or city relief agencies. The "good" always point to the miles of streets which needed cleaning, or the piles of snow and slush which impeded traffic and "business," and make the brifilant discovery that here the energies of the hungry hordes might be usefully applied in reimbursing the "comfor the pittance of food doled out. But even this last bulwark must give way before the introductioon of the improved machine. For the whole class to which the "white wings" bearrowing down to two alternatives. They can either die of hunger and co upon streets cleansed by the most moden appliances, or make themselves by voting their class into power with socialist ballot. The new machine will do more than clean the dirt of the strets. It will also belp sweep away the cobwebs from the brains of those m it displaces, that is, it will make

New Declaration Wanted.

A Chicago paper last week published upon one of its pages a facsimilie of the Declaration of Independence. On the other side a long account appeared of the closing down of the steel mills and the throwing of more than 100,000 workmen out of employment. It is up to the latter to make a declaration which will be something more than a mock-ery, or re-inforce the old declaration

LIFE VERSUS PROPERTY

The reports of some of the incidents connected with the capitalist holocaust that occurred in Hoboken, N. J., when nearly fifteen million dollars worth of preperty was destroyed, and incldentally a few hundsed lives of mem-Sers of the working class, promise to at the close of the war in the Balkans bring some matters to light which will in 1878 the bones of thousands of Rus give the hired defenders of capitalism. in press and pulpit, an opportunity of explaining the inherent depravity of British scaports to be ground up for "human nature." . Charges are being made against those in command of tug boats and other craft which appeared upon the scene with the ostensible purpose of saving life, that in their enviety to take financial advantage of the situation, they not only neglected to save life but actually refused to asalst the unfortunates who were drown ing alongside their vessels, unless the latter offered a suitable price for rescue. Again it is asserted that many minerable creatures perished because the owners of appliances such as hose, actually takes place. etc., were unwilling to risk the de struction of their 'property by the flames. It is said that in one instance thirty persons perished in the hold of one of the steamships, because the turning of a stream of water upon the victims might endanger a hose worth two dollars. Some of those who had managed to escape the flames by jump ing overboard, and who remained fo hours in the water before being res cued, make such distinct accusation of this nature that an investigation of the conduct of some of those in charge of tugboats is to be made However the mouthpleces of capitalism may declaim against the "inhumanity barbarity," etc., of such actions, the fact remains that in our present so clety the incentive for material gain far outweighs that of the saving of burnan life, and so far the actions of the fugboat captains were quit in accord with the ideals of the capitalist system. The motive that induces socalled civilized nations to slaughter and exterminate weaker and smaller groups for the extension of the profit evetern, finds its exact counterpart in miniture in this case. Property is more valuable than human life, and ings of capitalist apologists, who attempt to make a scape goat of "human nature" in their efforts to uphold the system which pays for their services. Socialism, it may be admitted, will de troy the incentive for acquiring "prop erty" when the acquisition of such property is balanced against the lives of human beings, but under socialism no such catastrophe as that of Hobe ken would be possible, for the good and sufficient reason that the safety of the workers is of the first importance and the methods of production adapted to that end.

THE "RESURRECTION" OF THE DEAD.

The "Boxers," or at least those Chin ese who are hostile to the advances of capitalism which seeks to cover its true character under the phrase "modern civilization," have been recently outttor up such a determined resistance that the "powers" are now beginning to look around for other methods by which the "partition" may be effected with less cost and danger to themselves. The diplomatic mind has been set to work and has evolved a school which is said to have met with the general approval of all the "civilized powers" with one exception. this one particular dissentient refused its co-operation is rather difficult to chend, seeing that a similar plan was operated with great success less than two years ago by the same power. out hyens like nature of modern capi- that day.

Taking advantage of the well-known fact of the worship of ancestors which prevails in China, and the ex traordinary respect paid in consequence to the dead, these exponents of "civil ization" proposed to force the Chinese into submission by threatening to desc crate the graves which the Chines hold in such reverence, by-desinterring the bones of the dead and scattering them over the land. This ghoulish scheme strangely enough was opposed by Great Britain alone, for reasons not given. It may be safely asserted, however, that the government that destroyed the Mahdi's tomb and sent his lead to London as a curiosity, was not deterred by any sentimental reason rom joining with the other "civilizers" in carrying out this plan. It is altogether more likely that the British brough long experience in such matters, have concluded that this method of procedure might not unlikely lash the Chinese into still greater fury against their plunderers and in the end make the "opening up" process still more costly. When this event is consumated and China completely under the domination of modern capitalism. it will not take long to discover that the bones of the dead have a commer cial value in the world's market, and then the Chinese tombs can be excavated with safety and profit just as sian. Turkish and Roumanian soldiers were shipped to Liverpool and other sale as fertilizer. It would be hard to onceive of an obstacle, short of being utterly irremovable, that will be allowed to impede the "march of progress," as capitalist exploitation is generally called. But the cost of removal is also calculated, and if such cost is to swallow a large portion of the expected profits, other methods for "getting there" are substituted. At any rate the present outlook would indicate that the bone market may yet be glutted before the partition of China

talism in a most startling fashion

MORE BAIT FOR SUCKERS.

The New Journalistic Venture Pishes for the Unions but will Uphold Capi-talism Just the Same.

The latest farce in the Chicago labor orld is the new dally that W. H. Heaset is starting. He is working the mions for all it is worth and they are biting like suckers. The Typographical union sent a committee over to pass the compliments of the season and to see about getting jobs. They did their duty well. They got the jobs and the other fellows got the Then they began to feel stilly. Now as they look a little further and see that Hearst is making every endeavor to get men that stand in with the union no matter if in some instances they are inferior workmen, a very few are be ginning to see things. He can easily afford to carry a few dead weights on his pay roll if he can keep solid with the unions, and receive their aid in steering the lambs into the Bryanite fold. Among other things Hearst has been

irculating editorials from the New

York Journal among the union men to w them how good a friend he was of the workingmen. Bue he neglected to tell them that the New York Journal vas principally remarkable for its sin and its ability to be all things to all men, and that these editorials were as often as not centradicted on another page of the same issue. An example of this sort of tactics was seen at the time that the Italian laborers struck on the Croton reservoir. After the trike had been going on for three days with no signs of violence the con ractors began to get desperate. Unless they could find some excuse for calling out the militia there was every ect that the strikers would win This was all the more true as they vere only striking for less than the rate of wages which the law was supposed to guarantee to them. Th strike was to spread the impression hat violence existed. Then it was that the New York Journal came to the res ue. It issued new editions every fifeen minutes, describing the that was supposed to be going on when as a matter of fact the men were sitting around smoking and talking and there was not the slightest exciteient. Finally he capped the climax by ublishing a story of how the desperat Italians were about to blow up the res York's water supply. Notwithstand ing such a thing would be an engineer sibility the story served it purpose and the troops were sent to the men forced back to work at the old wages. Later the reporter who wrote he dynamife story confessed that he dreamt it," This is a sample of talyy it might be mentioned that or to Why date he has said nothing against the actions of Steunenberg at the Idaho bull pen, and with all his enterprise is

SNAP SHOTS BY THE WAYSIDE.

The pure food law in this state went into effect on the 1st of July. The Pure Food Commissioners can, under the aw, compel dealers in adulterations to mark such as "compounds." Acording to the newspapers, many manufacturers of such "compounds" have submitted samples of labels to be placed upon their products, and it is numerous to observe how the "respectcapitalists are trying to comply with the law and at the same time continue to deceive their purchasers

In numerous instances these labels contained the words required by law printed in almost hieroglyphic charac ters, which could only be deciphered with much difficulty. Ornamental artistic lettering which blended with the background so completely as to render it almost indistinguishable were also used to a large extent in the sample labels submitted, while indistinct, and minute characters purporting to fulfil the requirements of the law were most dentiful of all. The " honest business man," even though he knows that adulteration is only one of the forms of ompetition, can hardly full to see the necessary rascality which is inherent in the system.

To adulterate an article, and ther xhaust all means of ingenuity to conceal the fact of the adulteration, mussweep away in the mind of the perpe rator all the sophistical humbug with which "business honesty" is drape sooth the alleged "conscience" of the mmodity owner. Yet the same logic which can invent excuses for adulteration and its concealment, will readily convict a forger as a dangerous ene my to society, without the slightest pang of "conscience." Verily the bourseols "conscience" is fearfully and won derfully made. Blind as to the means employed to further its own interests. keensighted as a hawk when those in terests are threatened ..

The anarchy of capitalism comes to the front in a most impressive manner in the disastrous fire at the Hoboker docks last Saturday. On the vast stretches of wooden docks and piers dried to tinder by the rays of the sun are heaped indiscriminately thousands of bales of cotton and barrels of oil two of the most inflamable materials without the slightest provision made for the possibility of such a calamity as took place. A spark finds lodgment in this most favorable environment and in a few minutes an uncontrollable flame sweeps over the locality. From three to five hundred human beings most of them working people, are roasted to death or drowned in the river, and most calamitous of all, over fifteen million dollars worth of property, sacred property, is destroyed.

The closing down of the steel mills will give the calamity howlers an opportunity which they will doubtless make the most of. The "outs" who want to be the "ins" will now have a chance to air their oratory. It is safe to say, however; that before September and October the mills and factories will hum again, mainly to substantiate the "prosperity" argument of the Republicans, this being their trump card with which to fool the voters. _What will occur after election? Well, that's another matter. The only voters who will not be deceived are those who enough to vote the socialist ticket.

The withdrawal of the Bricklayers Union from the Building Trades Con il, has if nothing else, brought out the onderful talent of the capitalist pres for lying. They stated at once that all the bricklayers were at work be fore the end of the week, with an utter disregard of the fact that bricklayers cannot work without the co-operation of carpenters, ironworkers, laborers, sossibility of bricklayers being ployed. But a trifling matter like this did not deter the press from pouring forth an avalanche of lies on the sub ject, and it is worthy of remark that the papers that pose as particular "friends of labor," lied as hard as the others.

All this shows most glaringly the eed of a workingman's daily paper in this city. Nay, more than that, the need of a socialist daily that stands for the interests of the working class, that is in no way involved in any in erest of capitalist business prosperity. Striking will be easier when the work ers realize this. In fact it will be hardly

The socialist workingmen of Holland ire preparing to settle scores with Dometa Niewenhaus, whose anarchistic tarded the movement in that countr Our Dutch comrades have no doub taken a pointer from the man which the "perfesser" (late of Beekman treet), has been turned down. There is no room for bosses in the socialist movement, even though it be "a Danie ome to judgment."

By the way the joint meeting of th Bearmakers' unions of Chicago have evied upon themselves an assess of 50 cents per week during the con tinuance of the lockout of their fellow reaftsmen in New York. Carry th news to the bosses and their ally the

The usual capitalist 'scandal" is now agitating England. The hospital service in the Transvaal is now under the scruties of the political party in opposi-tion and the public is being regard with tales of horror concerning the

reatment of sick and wounded sold! in South Africa, which are being to turn the present set of rascals out office and supplant them other gang. We had something similar here during the war with Spain, but fortunately the officeholders secure for two years longer, during ancient history and unfit for political use. But the British parliament is on the point of dissolution and the hos-pital "scandais" will be comparatively fresh in the "public mind, sufficiently fresh to be used as an "issue" among others.

The necessity for obstructing or diverting the tendency towards socialism which is rapidly growing in this country, brings to Chicago Mr. Hearst of the New York Journal. We may expect under his direction a paper which will contain many "socialistic" utteranote, and which will also advocate the election of William Jennings Bryan. socialist. For ways that are dark and for tricks that are vain, the modern sapKalistic journalist is certainly pecultur.

Yet in spite of these artifices the growing intelligence of the working lass will make them to discern the difference between socialists who wish to realize socialism and those who merely mouth its commonplace phrases for the purpose of perpetuating capi-talism. The Chicago American, as Hearst's paper is to be named, will make the necessity of a Daily Workers' Call self-evident.

AN ECHO. OF THE STRIKE,

How the Buckshot Method of Propaganda Adopted in St. Louis Makes for Socialism.

The following-letter, published in the Seveland Citizen, is illustrative of one of the many ways in which workingmen are being forced to recognize in the socialist movement the only hope for their class. Harry Bryan, a national organizer of the street railroad men, was summoned to St. Louis during the recent strike and this is the result of his observations; .

"Never in the history of this country has such a brutal outrage been perpetrated on a defenseless and unoffending people," Bryan writes regarding the murderous assault on June 11. "We held a mass meeting in East St. Louis, and about 1,000 of our men in uniform marched over. We returned at 5 o'clock. Every man was in line and no trouble was expected. Suddenly, while passing the harracks where Sheriff Pohlman's bloodthirsty deputies are stationed, a posse sargeant accidentally dropped his gun the says so himself), and it exploded. His men then commenced firing into the crowd. I saw two victims fall. Two deputies, it is said, held one of our men by his arms while a third shot him through the atomach. Four are dead and many wounded teight were killed and '8 wounded before this slaughter).

"The sheriff's posse is composed of so-called business men, their blood-thirsty offspring who went south in the Spanish-American war and saw no service, and all the thugs and criminals they can swear in," Bryan concludes.

panish-American war and saw neervice, and all the thugs and criminal they can swear in." Bryan conclude "I cannot say what the outcome will b When the street car trust, with \$90,000 When the street car trust, with \$90,000,000, mostly water, can control municipal, state and federal authorities is it not time that the people spoke in no uncertain tones? God grant that men will work and vote for men. I have seen the damnable work of both political parties, and one is as dishonorable as the other. I see no hope except through the education of the masses to a proper understanding of the principles of government. I am a socialist from this on, even if I were to be the only one."

LET US REJOICE.

Secretary Gage Brings Proofs of "Pros penity" Which Cannot be Disputed, So Says the Tribune.

Among the many indications of the prosperity of the country is the satisfactory balance sheet which Secretary Gage presents at the close of the fiscal year. It will show a surplus of more than \$80,000,000, which is double the umount estimated by the secretary in its last message to congress.—Chicago Tribune.

Hurrah! Mr. Laborer, prosperity is

So says the Tribune. Think of t, Mr. Laborer, you have cast into Uncle Sam's treasury \$80,000,000 more the past year than he needed, notwithstaanding his lavish expenditures in war-goods and his paying the highest prices, that his capitalist friends might sk, for embalmed beef and other provisions, not fit for a dog to eat. Think of it, Mr. Laborer, financier Gage has and other papers—and, who dares to saved the country \$80,000,000, and put this vest sum into the treasury. Of Yea verily, Mr. Laborer, and if you course, Mr. Laborer, you haven't a kick or make a disturbance because cent in your tressury. Your trouser's pockets are empty, but what do you by long hours and overwork and gradcare as long as Uncle Sam's treasury is full and his men well-fed, well-clothed and well-housed? What do you care as long as the capitalists' pockets bulge out with gold-bearing stocks and bonds, whether your pockets are empty or not? What do you care, as long as the capitalists are rolling in wealth and luxury, that you produced, whether you are, as poor as Job's turkey or not? Perhaps your clothes are ragged. Perhaps you haven't a sufficient supply of them! Perhaps you haven't sufficient food in the house! Perhaps your children are hungry, but why should you complain and ask for higher wages as long as Uncle Sam's and his capitalists' treasuries are full? "Of course," you are a /'silent partner" with Uncle Sam. but, of course, you can't draw out your interest or any part of it, even though you and your children are starving. The best that you can do, is to "draw" your breath in Uncle Sam's domains and be "silent" while the capitalists fleece you of the fruits of your

toil. Yea verily, presperity is in full blast, i. e., the Tribune says so—and who would dispute Cle Tribune? Shout, Mr. Laborer, and hurrah for prosperity! Hurrah for Uncle Sam! Hurrah for McKinley! Hurrah for Mark Hanna! Hurrah for the capitalists who rob you! Hurrah for anybody, but don't hurrah for the socialists or "socialism," for the Tribune says, that socialists and social-Tribune? Hurrah for Roosevelt! Hurrah for patriotism! Cry aloud till your lungs are sore and your voice is hoarse! Hurrah for McKinley prosperity! Hurrah for anything, but be wary of socialism! Of course, Mr. Laborer, you haven't much to hurrah about for yourself, but hurrah anyway hurrah for the fellows that are robbing you and crushing the life out of a sure indication, so the Tribune says, of McKinley prosperity. "Of course," the majority of the tenement houses in New York City have four or five people living in the same room. "Of course," this is not one of the many indications of prosperity, as reported by the "Tribut if the Tribune says there is houses in Chicago and other cities are full of laborers. This also is not one of the many indications of the McKinley prosperity, as reported by the Tribune and most of the other capitalist papers. But why do you complain, Mr. Laborer? Of course, the average wealth of the laboring class, per capita, is only you would divide up equally with one another, each one of you would have about thirty dollars. This means that if you could convert all your house-hold effects, your wearing apparel, of you, would have on an average to buy you a good suit of clothes; and parties. this the extent of your wealth. Of course, some of you may have a little and some of you have a little less than this amount, but the majority of you have nothing that you an call your own. This, "of course does not indicate prosperity, at least for you, but, if the Tribune and other capitalist papers say it is so, who dares to dispute it?

There are 60,000,000 laborers in the United States with an average wealth of about \$30, while the average wealth of about 4,000,000 of the capitalist class is more than \$11,000 per capita. These capitalist figures and the chances are that the disparity in these figures is still more astounding—that the average wealth of the laborer is placed en tirely too high and that of the capialist entirely too low. But, Mr. Lahorer, the worst feature of the case is that about forty millions of you are kopelessly in debt. But, McKinley resperity is raging—as reported by the cloth-bound edition of Engel's. Tribune-and this is the res that some of you are going about in your stomachs half emoty. Prosperity, I. e., McKinley prosperity-is going to that is why four or five millions of you ly looking for a job; that is why there is constantly a Scating surplus of about four or five millions laborers without work. Yea verily, the McKinley proskind of prosperity you are getting and will continue to get as long as you do not vote the socialist ficket and put socialists in power. But socialists are

a bad people-so the capitalist paper say-and who is there that dare dis pute them?

"Of course," Uncle Sam paid out las year nearly two hundred million "of your money," for ships, shot, and shell with which to "civilize and Christfanthe Filipinos and others. But why should you complain as long as pound of lead may be sent into the bowels of a Filipino to "Christianize and civilize" him, if he lives, and immortalize him if he dies, because the lead is sanctified by "modern Christianity and civilization."

The modern way of "Christianizing and civilizing" the Filipinos, with two hundred million for shot and shell and incidentals, is on the balance sheet of the great "financier" Gage, and it is this satisfactory balance sheet that is one of the many indications of prosdispute it?

Yea verily, Mr. Laborer, and if you the capitalist is gradually killing you ually starving you to death by low wages, this "modern" way of "Christianizing and civilizing" you with shot and shell is brought against you quick order.

Yes, the "humane" practice of pouring lead into you in order that you may allow the capitalist to work the last ounce of "live" blood out of you and to rob you of your last farthing, will continue as long as you fail to vote the Socialist ticket ami put Socialists in office and fall to read what socialism is.

You ought to know. Mr. Laborer, that unless you vote with your own class-the Socialist: -and get them into power, that the entire police force, militia and government troops will be brought against you every make an effort or demonstration to get living wages or even a small advance in starvation wages, or a small portion of what you produce.

You ought to know, Mr. Laborer, that the capitalist class is robbing you out of about 83 per cent of what you produce. Now, the socialists want to stop this robbery and help you. They want you to get the full product of your labor. They want to place the ownership of the means of production, distribution and transportation, into your because you produced them with your toil and, therefore, you are entitled to them. They want to place the ownership of the means of production, disism are bad, and, who will dispute the tribution and transportation in your hands, because without this ownership in your hands, you will never get the full product, of your labor, and you will never get control of these means of production and distribution till' vote for the Socialists and put them in power, and until you put them in Are you afraid to trust the Socialista? Are you afraid, to put the power into you, for the treasuries of Uncle Sam their hands? God knows, things can and the capitalists are full, and this is get but little worse for you than they are now. You have put your trust in both old parties. You have elected them into power. They have deceived you every time. This you know. Will you let them deceive you again? Will you arter knowing what you know about them, vote for them again? You ought to know that they represent the caniprosperity, who will dispute it? Who talist classes. You ought to know that dare dispute it? The ten-cent lodging the Republican party represents the talist classes. You ought to know that big "trust" capitalists and the Demothe small capitalists. Neither party represents you, for they cannot serve two masters; so cheh one serves his own class, Now, Mr. borer, you ought to know that the Sorepresent the laboring claus and are the only ones who do represent about thirty dollars, L e., if each one of you and your interests. When you cast your ballot at the next election, will you vote for your enemies the old parties or for your friends the Socialists? Remember the Socialists are the only ones who represent you your jewelry, your supply of food and and your interests. Vote for them if all your other wealth into cash, each you want justice; but, if you want to word are invited to send delegates to from each branch); to take part in this about thirty dollars, which is enough slaved, vote for your enemies—the old convention.

Book Premiums.

The postal card system of securing subscriptions is proving a great success. It is so simple and easy. All you have to do is to take the subscription price and hand over the card. We do the rest. But the special election offer is almost out and so we want to give the comrades a chance at another scheme. Every socialist ough; to fir himself to make other socialists. hest way to do this is by owning and to make it possible for everyone who wishes to get some of the best socialist works published, and this without any red tape trouble. Look at the following offers and decide which of them you will take advantage of:

Send in one dollar and you will receive cards good for a dollar's worth of either yearly or six months subscrip tions, and a choice of either a copy of cialism, Utopian and Scientific, or fifty cents' worth of the Pocket Library of

For two dollars an equal value of eards good for subscriptions will be given and a choice of either Lissagaray's History of the Commune, Socialism and the Social Movement of the enth Century, or any dollar's worth of the Pocket Library that is desired.

LOCAL NEWS AND NOTES.

POLITICAL HYPNOTISTS.

The Trick of Bringing the Veters Into a State of Acquiescence to Their Own Plundering.

Hypnotists tell us that in order to

bring a subject under their influence he must be in a state of acquiescence,

tor's bidding. They tell us again that simple. As a matter of fact nearly all during sleep a patient is easily susceptible to h) pnotic influence and that the all the evidence so far produced goes he operator into may channel which he chooses to turn them. Just now all along the political horizon Republican hypnotists are bobbing up preparing to bring the voters into a state of acquies-cence so that they may be milde to believe that it is to their best interests to vote for McKinley and Rooseveit. They are proceeding on the theory that the workers are asleep to their own interests, and are seeking to direct their minds into channels remote from those mteresta. Strange as it may seem,on close to the laterests of the workers to begin to lead their thoughts away from them. Here again the hypnotist seen to have been consulted. First attrac the patient's attention to something that concerns him and then gently lead him away from it. Speak of he disease and then tell him that he has n disease. Dolliver, one of the aspirant to the nomination for vice-president or the Republican ticket, in a paper or the last campaign, says in effect, "that after all men do vote for their own in crests and that this is as it should be xcept in cases of morbid class ideas. This is the same as saving, "you ough will tell you what your interests are Then he goes on to tell of stanch Amer can manhood, uphoiding the progres of enlightenment which the Republican party is bringing to the peoples whor providence has placed in "our" charge of the principle of the said manhood the dicts of the government; of a unit ed country and devotion to the flag which when planted in any spot shall never be unfuried. He tells the voters popeful for the future of the country and are proud of the record of the Republican party and the growth of ou industries and commerce. His words are spread broadcast by the capitalistic press, and it seems probable that the votes of enough workingmen, which are necessary to the success of the Re publican ticket, will be forthcoming Enough workingmen will be asleep to their own interests and will be, easily susceptible to the hypnotic ower of these capitalistic falsifiers However, it is safe to say that no work ngman who reads the socialist papers will be led into the trap. He has read of the important events occurring around him, dissected for his benefit acording to the material interests of his class, and the hypocrisy of these political hypnotists is detected by him is soon as they open their mouths. So it would no doubt be with workingmen who are going to vote heir enemies into power if soc iterature were placed before them, so that they might be given the benefit of the knowledge which such literature diffuses. The time is ripe for socialism but at least four more years of-class rule looms up before the Workers. But few socialist dailies and four years

o-operative commonwealth.

The Portland Oregonian of June 12th published a lengthy interview with Gov. Steunenberg of bull pen fame of which the following is a specimen ex-tract. Remember that Steunenberg has ever been disavowed by the Bryan attempt to reduce wages. Mypocracy and that he was elected on a fusion Demo.-Pop. ticket:

flypocracy and that he was elected on a fusion Demo. Pop. ticket:

"The section in which the trouble occurred had become absolutely un-American. It was dominated by a foreign lot of anarchists, and the entire community had become subservient to them. They owned the officers and the officers, and dictated to them at will. There were good people in that part of the country who deplored the conditions, but they could do nothing. They knew that it meant a blacklist for them and possibly a stick of dynamite under their houses at night if they offered any interference. These good men advised me not to undertake the fight against the miners. They declared it would do no good, as it could only result in a temporary victory, and might make matters worse in the long, run. To go up against a 'crowd like that was, backed by the sheriff and other strong people of the community, and with the best people, who really opposed the anarchists, afraid to come out and take sides, made it a difficult job to handle. Conditions are rapidly improving there now, but it will take ten years to get the true American spirit back into that locality, as it was before anarchy drove it out. You hear a greaf deal about the state permit system in Idaho. Well, that is doing more to Americanise the troublessome district than any other one thing. It is compelling the anarchists and cut-throats to seek other quarters, no matter what is said about it. The state now has a blacklist, and the miners are compelled to ask the state for a permit before they can othain employment in the mines. The mine owners have no blacklists, and do not want any. In fact, they are going ahead employing the same men who had helped to blow up their neighbor's mines own a short time ago, until the state acopale them from it. We do not propose to have a recurrence of those troubles its Idaho, and the sonty way to avoid it is to ref rid of the ciement that was responsible for it. And they are going them from it. We do not propose to have a recurrence of those troubles its Idah

of getting rid of them, so long as we are unable to starve them out.\ So long as they do not have to ask for a permit to work we must tolerate them, and they are not likely to ask for anything that looks like work."

Those of our readers who have followed the history of the blackest blot or first brought into that state by the capitalism will know that nearly all the alleged statements of fact in the fore he can be made to do the opera-above "interview" are lies, pure and these miners were American citizens; to show that the blowing up of the mine was done at the instigation of was "Americanized"-was by a process of murder, outrage; and torture unknown since the days of the inquisition. Should any of our present readers not at once send five cents to the Socialist Literature Co., 64 E. Fourth street, New York, for the pamphlet written by Com. Job Harriman, the present candidate for vice president, entitled, "The Class War in Idaho." Then when you have finished it be sure to tell the next man that wants you to vote for Bryan as the "Workingman's Friend," why he never dared raise a word of protest against the actions of his fellow Dem.

FIRST TO SURRENDER.

Fight Is Not Yet Lost Though Brick-layers Withdraw from Building Trades Council.

To the union of which President Mo-Kinley was elected an honorary mem only one to betray their fellow workers in the Chicago strike. There may e more than a coincidence in the fact that this union was one of those most willing to be misled by political fakirs. Any union that would permit itself to be connected with any such farce as the election of McKinley to an honorary membership, might be expected to have so low a degree of class-consciousness that it would give way when there came a real hard test. It might be well to say right now that if the laboring men of Chicago want to know where they are the weakest, let them search out the point where they are in losest touch with capitalist politics.

At first this defection of the bricklayers was halled by the capitalist press as the sign of the complete collapse of the laborers. But later developments would seem to show that it by no means created the disorder in the ranks of the workers that their enemies thought that it would bricklayers are already beginning discuss the question as to whether they did not act too hastily, and are considering the advisability of re-en-tering the Building Trades Council. Then they have also discovered that the solidarity of labor means something besides a glittering generality. They found that it was rather difficult for the masons to work unless the hod carriers were also employed, and as the latter refuse to work with scabs there work. The same interdepende working all through the building trades and is enforcing the lesson of interests that the socialist is always

It is significant of the attitude of the ontractors that while they have been loud in their protestations that there was no question of wages, involved and the wages asked, the very first upon which the hod carriers were employed with the bricklayers after the latter had left the Bullding Trades Council, the contractor reduced the wages of the hod carriers. It is a truth which should by this time be beyond dispute that the sole and only object of all struggles between employers and employes is to secure a larger share of the product of the w As soon as the employers thought that the power of the Building Trades Councll was even weakened, they began to

A "DEPLORABLE" FACT.

Homes of the "Well-to-do" Open Only for a Little Time Each Year-Oler-ical Lamentations Thereon.

Here is an extract from a sern preached last Sunday in this city which we submit to our readers as an excellent specimen of the art of saving nothing with pathos and eloque

"Soon our country will pass through the excitement of a presidential election. Whatever we decide, there is one place that will be affected by our action—namely: the American homa. And yet I cannot remember ever to have heard this brought forward—other than incidentally—in any political speech. There may be some foundation for this second place that the American home has in politics. It is a pitlable thing to see the homes of the well-to-do open for a little time each year. The word home is disappearing from our vocabulary, and we hear one's town house' spoken of—a foolish initation of snobbery."

If, as the preacher says, the word "ome" is disappearing from our vo-cabulary, why should we expect to hear any mention of it in political conable to look for the phrase "town house" in those productions, seeing that "home." "It is a pitiable thing to see the homes (he probably means town houses), of the well-to-do open only for a little time each year. difference does this make to the fifty

A PARTIAL ECLIPSE.

Vaudeville Trust Dims the Glory of the "Stars" by Reducing Their Salaries.

"All the world's a stage," said the Bard of Avon, and each one in his time plays many parts-at a reduced salary. then the trust takes the centre of the stage aforesaid. 'This is how it comes

Reports of the first move towards the contemplated reduction in compensation of vaudeville actors have just come to the surface. The eastern board of managers of the recently formed combination of managers are said to have made propositions to several "stars." The offers are very much lower than the rates now asked by the performers and consternation reigns on the rialto.

Thus Henry Lee is said to be offered \$200 a week in place of the \$450 or \$590 which he now receives; Minnie Seligman and her company, \$250 for the sketch which has hitherto commanded \$700; the Hassan Ben All troupe of Arab acrobats, \$225 instead of \$300, which they are now paid.—Daily paper.

And so the trust comes before the public" in the guise of a benefactor, able and willing to supply the best talent at greatly reduced rates. Not exactly that they love the dear "pub-Oh, no! They are not in it solely for their health. There's money in it, money that the persons above named which the trust generously appropriates to itself, for the trouble it has been put to in educating these vandeville "stars" to a comprehension of the fact that they are wage slaves living by permission of the boss just the same as any other cheap old laborer.

These "stars" may refuse to shine at reduced rates, but slas! Stars are plentiful, and the big boss has grabbed every stage in sight.

Perhaps the vaudeville trust may open the eyes of these actors and ac-tresses to the nacessity of socialism.

THE BOOM IN WHEAT.

the Gost of Food, but Add Noth-ing to Its Value.

Good prices mean prosperity, don't they, friend workingman? You were always told so by business men of, irreproachable standing in the commun " and no doubt most of you believe it. In that case here is room for more rejoicing. There has been a "bulge" in wheat, and the "business men," mentioned below, have been instrumental in bringing "prosperity" to your door

James Patten is credited with hav-ng made \$300,000 or corn, provisions,

ing made \$300,000 to and wheat. Members of the firm of Bartlett, Fra-Members of the firm of the wheat

These parties are not engaged in raising wheat, they are engaged in raising the price of wheat, and they some of the "prosperity" which you have been told always accompanies such a transaction. How much of this "prosperity" will fall to your share? They have secured their part. Where do you come in? Where is your rakeoff? How does the "bulge" in wheat ct you? How does it affect the three thousand of your class who wereworks? Or the 100,000 discharged the other day by the closing the steel and plate milts? Or the many thousands of your fellow workin a who have been enduring the right of the "lockout which their masters in this city have enforced against them since February And how about the families of these men? They are all interested in wheat, are they not? They all eat it.

Let us see if your share in this "prosperity' can be figured out. Before the blessed increase took place you were while to purchase a small suck of flour tions of these philanthropic gentlemen secure the mane quantity for 65 are even 70 cents. And they tell you that this is prosperity. Don't you think that you could do with a little less of it? If you had less "prosperity" of this seet, the chances are that you would have more flour.

wheat" and who have "cleared" or "made" so many thousands on . th "deal," as the newspaper puts it, are capitalists. . You on the contrary are working people, producers of "The "prosperity" alluded to ex-

You, if you are very lucky, are work of this country. ing and receiving wages. You get at if the "home" is disappearing, the much per hour, say 20 cents for examfects whose causes they find it to their gentlemen have in this manner in-interests to uphold.

> The unlucky ones of your class who are out of employment by being locked out-well you don't need a detailed ar gument to show that they are still orse off even than you.

Do you see a "class struggle" in this incident? Or are you still idiot enough to believe that the interests of capi talist and wage worker are identical If not, why not study what the so cialists have to may on the subject Recollect you are interested in wheat, you and your family will want it as long as you are alive, and if you neg lect making yourself acquainted with these matters, you may want it sfill more in the future without knowing how to get it.

A DEMONSTRATION.

To you fellow workmen in whom may exist Feelings and passions of a socialist. Or you, who bound in chains of despot-ien.

Unaware that your hopes lie in social-

Fellow workmen pray give your best To the facts which I will attempt now to mention;
And when you have read then pray stop and consider.
And tread in the path which will you

You are told that you possess your that the persons above named liberty—been getting heretofore, and Can you really and truly claim you are

Can you really and truly claim you are free? : While a system exists under which you must give Your life and your freedom for others to live.

Oh workingmen! why will you not un-derstand.
Can you from your masters employ-ment demand?
Are you aware that you only exist
In a society ruled by the capitalist? Oh yes! You may idle or starve if you

abortly be concluded.

Furope has many ably edited reviews expounding the principles of Socialism, and enabling students of social problems to exchange their ideas. America needs such a review, and to this end A. M. Streons, lately editor of the Workers' Call, and now vice-president of the Chicago publishing house of CRARLES H. KERR & COMPARY, has in a recent journey arranged with the leading European escalists to assist in establishing The international Socialist Review, the first number of which appears July 1, 100. Every civilized occurry will be represented by its ableat socialist writers, and some forty-eight of the sixty-four pages of the REVIEW will be given to the interchange of opinion. The following departments will be regular features.

1. Review of the events of the month from the socialist point of view.

2. News of the socialist movement in America.

point of view.

a. News of the socialist movement in America.

5. Review of economic developments and labor troubles, with special reference to the trade union movement.

4. Foreign correspondence: News of the socialist movement the world over.

Every student of socialism, and also every opponent of socialism, will find that he needs to read THE INTERNATIONAL SOCIALIST REVIEW.

PRIOR 10 CENTS A COPY, \$1.00 A YEAR.

By special arrangement with Charles 11. Kerr & Compa
we offer The International Socialist Review and t paper one year for only \$1.00.

Will tell you What Socialism Is; What It is Doing, and How to Bring It About

THE INTERNATIONAL SOCIALIST REVIEW

On the first of July we shall issue the first number of the monthly review under the editorship of A. M. Simons, until lately editor of The Workers' Call, who has recently returned from studying social conditions in Europe. The socialist movement has now reached the point where it can claim to offer the only philosophy pointing the way to a positive solution of present-day problems. Its constantly increasing strength at home and abroad makes it a force with which all must reckon. In Europe the best minds of the colleges and universities are devoted to expounding its doctrines and a majority of the leading economic reviews are under the direction of socialist writers and thinkers. The International Socialist Review will be the first periodical in the English language to bring together to any extent the original contributions of the great socialist thinkers of the different countries of Europe. It will also publish each month letters from foreign correspondents giving the latest news and a review of the situation in each country. Here is a partial list of those who have already promised to write:

France—Paul Lafargue, Jean Jaures, Jean Longuet.

Belgium—Emile Vanderveide, Henri Lafontaine, Emile Vinck, Mme, Lalla Kufferath.

England—H. M. Hyndman, Walter On the first of July we shall issue the

Kufferath.
England—H. M. Hyndman, Walter Crane, Samuel Hobson, H. Quelch, Keir-Hardie, J. R. McDonald.
Italy—Dr. Alessandro Schlvi.
Denmark—Dr. Gustav Bans.
Arrangements are now being completed for correspondents and contributors from Germany and Holland, and we hope to announce their names before the first Issue.

It will be seen at once that this list of contributors places the International Socialist Review in a class by itself so far as periodicals in English are concerned.

erned. ..But it must not be supposed that the American situation has been neglected, Already articles have been promised by Job Harriman, Rev. Charles H. Vall, N. I. Stone, Leonard D. Abbott, Rev. Wm. T. Brown, William Mailly, Gov. Andrew E. Lee, Ben Hanford, Marcus Hitch, Jos. Wanhope, W. H. Noyes and others, and no effort will be spared to secure the best work of the best thinkers upon the problems of socialism in America.

The plan of the magazine will be ap proximately as follows: About fortyeight pages will be given to contributed
articles and the remaining sixteen
pages will be divided as nearly equally
as possible among the following depart-

First. Review of the events of the month from the socialist point of view. Second. News of the socialist move-ment in America during the month just

passed.

Third. Items concerning the struggle in the economic field, including trade union news and labor troubles.

Fourth. Foreign correspondence, giving news of the socialist movement the world over.

The need of such a periodical as this is apparent to every socialist. We believe that suce it is brought to their notice every comrade will be willing to take hold and help. There are two ways in which such help is wanted at once. In the first place further capital is needed for its establishment. A comrade has agreed to give \$259 for this purpose as soon as an equal sum is comrade has agreed to give \$250 for this purpose as soon as an equal sum 1s raised elsewhere. Of this sum \$210.00 has already been raised leaving only 330.00 more to get if this offer is not to be allowed to lapse. To raise this one hundred dollars it is proposed to sell-shares of our capital stock at ten deliars each—their par value. That the money thus invested offers immediate and-desirable returns aside from being an aid in the establishment of the magazine is shown by the following special prices on books published by us which are made to stockholders only:

Five-cent books in small liqts, 2%

are made to stockholders only:

Five cent books in small lots, 2½
cents; 100 assorted copies, \$1.75; 500 assorted copies, \$5.00; post free in the
United States outside Chicago.

Ten cent books in small lots, 5 cents;
100 assorted, \$1.50; post free in the
United States outside Chicago.

Twenty-five cent books in small lots,
12½ cents; 50 assorted, \$5.00; post free
in the United States outside Chicago.

Other books at half list prices; post
free on paper books; on cloth books if
sent by mail postage will average about
10 per cent of the retail prices,
Once the magazine is established it

Once the magazine is established it will be run without further expense to the party, and will be distributed, not only through the ordinary socialist channels, but also through * regular trade channels to thousands of people entirely inaccessible to the ordinary socialist propagands. It will be a means of capturing and holding the intellectual proletarist for socialism as well as ual proletariat for socialism as well as an organ for the education and train-ing of specialist speakers and writers. The first number of the International

July, will contain a number of interest-

ing features. There will be an article by Rev. W. T. Brown on "Plutocracy or Democracy" that is one of the best things that this well-known writer has produced. "Socialism in England," is treated in a most thorough way by H. M. Hyndman, who has been known as one of the ploneers of international socialism and the author of "Economics of Socialism" and the "Historical Basis of Socialism," both among the classic of the subject. Marcus Hitch, of Chicago, treats the subject of "Kari Marx and the Money Question" in a new and original manner that is sure to pro-Jean Longuet, a grandson of Karl Marx, and a member of the editorial staft of th "Le Petite Republique" and "Le Mouvement Socialiste," sends a con tribution on "French Political Parties and the Recent Elections," that not only gives some interesting news but also tells just what everyone has been wanting to know about the positions and strength of the different French political parties. "The Legislative Elections in Belgium" are discussed by Elections in Belgium" are discussed by Prof. Emile Vinck, of the Nouvelle University of Brussels, and seretary of the League of Socialist Municipal Councillers. One or two other articles have been promised but cannot be dennitely announced as yet. In addition there will be the editorial review of themouth, events of the labor world and general foreign news. THE YELLOW TERROR

"Civilization" As Seen from the "Boxers" Standpoint.

A MONSTER TO BE DESTROYED.

Chinese "Atrocities" and "Massacres Insignificant Compared with Those of Capitalism.

Just at present the "Boxer" occupies the centre of the stage, and the accounts of his "atrocities" now serve to impress upon the people of the "civilized world" the necessity under which their rulers labor, of suppressing this "flend in human shape," by taking posession of his country.

While it may be admitted that this

Chinese "patriot" is somewhat addicted to dealing out what he possibly considers "justice under harsh forms, fact should not be lost sight of that the "civilization" represented by those who cry out most loudly against his methods, cannot in the nature of things appear to him to be a very desirable pos sion. An enforced commerce of some hundreds of years has given him considerable knowledge of the ways of those whom he, not without reason dubs barbarians. A long period of history, which is in reality a record of murderous outrages perpetrated upon his countrymen, of broken faith, "treaties" enforced at the cannon's mouth, proselytism as a pretext for "spying out the land," religion insulted, and territory alienated, has really made clyllization appear in his eyes a monster compared with whom the most fantastic and flaring conceptions of those flerce dragons in flaming red, blue, green and yellow, in which he expresses

his idea of the fearful, are tame and No wonder he fights against "civilisation" like this, and if he knew it still better he would fight still harder. That he has butchered men, women and children in thousands is quite true, but unlike those who condemn those actions on his part he never professed to hold religious ideas strongly antagonistic to the taking of human life, and in any case he has never crossed the seas to enforce upon unwilling peoples any peculiar religious theories that he may have been born into or otherwise seen fit to accept. The "Boxer," typical of turbed, but finding that his ideas in that respect are not reciprocated, he proceeds to wipe out the foreigner root and branch as a last resource, just as those who now howl against him would do in like case. The accusation of murderer comes with ill grace from a society whose whole history has been a long record of murder and robbery, com-mitted intermittently upon each other, and continuously upon the defenceles and ignorant within their own boundaries. A capitalist society which points to its own butcheries, such as the Paris nmune, the Milan riots, and numberless Hazeltons and "Peterloo" massa cres, as a triumph of law and order, is yet hypocritical enough to profess horror and aversion at a massacre which is a mere trifle compared with some of its own exploits, and which is still more insignificant when contrasted, even with one day's record of the slaughter of number of lives daily sacrificed to the exigencies of profit-making, through preventable accidents, such as unguardappliances, unsanitary work shops and houses, insufficient food and clothing. terial for a massacre every day for six months. Of all these things the "Boxer" is probably ignorant, but he has seen enough to convince him that the dently intend to force upon him is not a thing to be desired. He has but to short distance over the borders of China to see its effect upon those He may cast his eyes towards the southeast and see the wretched Hindoos famine, their emaciated carcases fur after an experience of more than a century of this "civilization." Looking northward he may see long proces of wretched human beings dragging arily along the snow-covered steppe eria towards the quicksilve mines, in sure and certain hope of a age land where the still more savage inhabitants are trained by a so-called "civilized" government in the science of hunting down their fellow men like wild beasts. A land of nameless hor-rors, where the victim dies in agony

under the knout, the legal instrume of torsure in the hands of the represe

of torsure in the hands of the represen-tatives of "law, order and civilization." Looking, southward he may see the brownskinned inhabitants of the Phil-ippine islands flying in terror before the aword and flame carried by the ad-vancing, expanding "civilization" of the Great Republic. He can see his own country failing piecemeal into the hands of the same greedy hordes who are re-

sponsible for these horrors. It is being forced upon him that his fate shall be as theirs unless he bestirs himself er-it be too late, so he calls upon his fel lows to inaugurate a crusade of ex-termination against the representatives of this hated "civilization," in the name of (Chinese) liberty, law, order, religion and the family.

It is not necessary to palliate the crimes of the "Boxer." He is a product of his surroundings and environ ment exactly as those who condemi him, and if taken to task for his acts, in defence of his apparent material in-terests, he can justly point out that he has sufficient warrant in the example set before him by those who now pre-tend to condemn his conduct. They can not advertise his guilt without at the same time acknowledging their own.

WHY THESE QUESTIONS?

Socialism Expects That Every Socialist Will Do His Duty. Have you received one of those do

nation lists from the Illinois State Committee? How much have you collected on it' Remember every cent collected will be

used to send out a traveling organizer to spread amongst workingmen the prnjciples of socialism; to organize them; to make socialist votes. Do you care to have a large socialist vote?

If so get your list filled. As soon as you send the money in we will send you another list to fill.

Do not forget, comrades and friends, it takes money and speakers to run a campaign.

Speakers we have, but they cannot be sent anywhere without money. Let's lift altogether and see how much money will come in AT ONCE.

Shall Illinois lead or follow in socialist votes this fall? The answer depends upon your exertions.

How is a paper supported? By a onstituency of course.

For instance: How does a capitalis paper get support to pay editors, writers, printers, proof readers, etc., etc., and a profit for the boss? Why from the capitalist class of course.

And why not? Do these papers not stand for the capitalist system, and the rule of the capitalism?

Do they not rater to the wants, de-sires and opinions of that class? And doing this, do they not deserve and get their support?

And the socialist papers. Do they not speak for the working class; show the interests of the working class, and dehis whole race, wants to be left in fend and protect in accordance with peace, is willing to leave others undisclass?

> Then who should subsidize them? Who should support them?

Who should, true to their class inerests, extend their influence?

Why, the working class. Do you? Will you? Now is the time

SOME GOOD PEOPLE A LEGAL PROPHECY

Capitalist Charity.

NOTABLE SUBJECTS CHOSEN, BARRIERS FOR THE REFORMER.

They Are "So Good to the Poor Work- "Undesirable and Dangerous" Changes ers," but They Won't Get Off Their Backs.

Whenever a new labor skinner comes its columns a few cheap high-sounding phrases, and poses as a friend of labor, he, strange to say, is at once seated on the highest pedestal, by the crack-brained laborers, who imagine him a ation of the present economic system, great God, while he chuckles, cats fine dinners, stays on the backs of these laborers, and like Little Jack Horner of nursery tale heroics, after picking the "plums" out from the laborers" pockets, vogue, is eternal and unchangeable by his cheap radical sounding rot, says proceeded upon this assumption to

If they are Democrats, let the skinning go on. The following clipping will

Read this clipping; see this pretender telling what a fine charitable lady Helen Gould is.

Who is Helen Gould? Daughter of Jay Gould. Who is Jay Gould?

Labor skinner, railroad manipulator, fellow that did nothing but draw rent, interest and profits out of the hides Os-bor) of the workers. He died, left the result of his robbery to his daughter Helen Gould, who never did a stroke of the backs of laborers, and on their toll poses as a philanthropist, a charitable lady, which she can well afford to do

"She has been extolled for it by crip-pled children." Imagine it! A woman who never earned a blank penny "extolled" for what?

Does this woman want proper condi-

tions for these "crippled children?"
No! Why not? Because if they did No! Why not? Because if they did his own conclusions—all except one. He not need her charity, she would be at is right about the reformer. The latter work, and she would not be in a position to pose as a giver of charity; giving ble task. Why? Let us see.

things she never earned.

True, she can afford to give charity.

Why not? So long as conditions exist by which she, without working, can push back a inate the "table of luxury" and "want." few crumbs to the "deserving poor," as feeding on the crumbs which fall therethey call those that don't kick against from as factors in society a thousand the present condition. Why should not years in the future, would be according this fine lady pose as a charitable person? This is model No. 1, from the new skinner who has just come to town. See No. 2:

John H. Patterson, the president and largest stockholder of the National Cash Register company of Dayton, Ohio, has done more to uplift the working classes than any one man in the West. He has made his plant the model factory of the world. From it he has accumulated wealth that is rated way up in the millions.

Patterson! Who is Patterson? Pres How did he get his millions? Earn them?

s the fine lady Miss Helen Gould.

Listen, fellow workers! Listen! He has done more to uplift the working class than any other man in the West. got off their backs. Further be has skinned them out of millions, and he is still skinning them

Model factory. Model skinner.

So is Miss Gould a model skinner. Rirds of a feather flock together Good to the poor workers is Patter

Motto: "Be good to those you skin, nd they will love you. Besides you can get more birds with

ugar than you can get with sait. Patterson has a model "profit-shar-

ork. Under the wage system hunger rives them on to work.

town, a few cents more per week urges the laborers to work harder to make more profits for Patterson.

more profits for Patterson.
Great is the humbug of philanthropy handled by Gould and Patterson!
Socialism will wipe out the need of Helen Gould or John Patterson charity, good deeds, and "model factory" methods, and labor "sympathizers" to boot.
Workingmen—Unite!

How the "Friends of Labor" Boom No Change a Thousand Years from Now Unless---

in "Organic Law" Alone Can Alter Present Conditions.

The address given by President Bento town, gets out a new paper, writes in son Hood before the Illinois Bar Associits columns a few cheap high-sounding ation on the 12th inst. contains much

by his cheap radical sounding rot, says proceeded upon this assumption to "what a great boy am I." show that the efforts of the "reformer" First he gives out a lot of cheap lies which he correctly defined as the "limiting of human aspiration" could in no
sense be expected to produce social rehe tells what awful men capitalists are
—if they are Republicans.

"The rich and the poor will be with us in the future as in the past. Want will continue to feed upon the crumbs that fall from the tables of luxury. The rich

the system of private property telling the "reformer" that he attempts an impossible task, that a thousand years from now the same factors in the social. problem will exist as they do today and ear a similar relation to each other. This is absolutely correct if his first assumption is granted, if we admit as an axiom the statement that the present

Curiously enough, the paragraph juoted, itself shatters the assumption to pleces. Everything a thousand years from now, says Lawyer Hood., will remain substantially as it is today-unless-yes, unless-"some very undesirawhen she doesn't have to earn the ble and dangerous changes" are made in 'organic law." Then it seems after all, ORGANIC LAW CAN BE CHANGED, and in case this change did take place, why it would knock the "eternal and unchangeable" economic system of the present to pieces. Hood admits this, and by so doing destroys is as he implies engaged on an impossi-

Note that the changes in "organic law" spoken of which would produce different results from what we se around us at present, which would elimto Hood, "undesirable and dangerous. This effectually bars the reformer. The particular changes which he wishes to see brought about he never considers as harp on so much, is not yours at all, scheme whate er it may be, is always "desirable" if the "people" can only be danger, he is always ready to assure contain a particle of it. How could h e a reformer and advocate "undesiravery idea is preposterous! And every socialist will agree with him in this con-

pleader for capitalist "law" and "prop-erty," lets down the bars by his admission of "unless." The former does not shrink from accepting the onus of adchanges in organic law. He merely asks changes "undesirable and dangerous. It can hardly be those who are figuratively described as "want feeding on the crumbs which fall from the tables of luxury." It is altogether most likely that the possessors of the tables of lux-ury are those who would protest against socialist accepts this view of the mat idea of the socialist movement, THE FACT OF THE EXISTENCE OF A CLASS STRUGGLE, At this point he parts company with the "reformer."

These changes in the "organic law These changes in the "organic law which from the capitalist point of view are certainly "undesirable and dangerous," it is the main purpose of the socialist to bring about. When this change is made, it is possible, even probable, that the view now taken by the capitalist class will also change and the capitalist class will also change and dapt itself to the new conditions. How-ver this may be in the future, the so-lalist recognizes the fact that at pres-nt exists that through the material in-creats of the classes men judge as to thether certain changes are desirable

ist, by the establishment of an eco nomic system in which they have no place, these questions (as class questions) will also disappear. With the concluding sentence in the

extract given above, no socialist will quarrel. The law will not prevent any individual from acquiring riches by the use of "just and honest means," but it will decide what "means" are "just and honest," and it will doubtless consider that the accumulation of riches resulting from unpaid labor do not come un der that head. The law in the future will voice the material interests of those

who enforce it, just as it does now.

Just for the reason that the "organic law" in the development of capitalism renders it more and more impossible for the immense majority of mankind

BE WISE AND CONSIDER.

Questions of Interest to the Producers of All Wealth Which Esquire Consideration. Did you ever consider that your vote

determines your living for the period No one ever doubted that Helen Gould has a heart. She has been extolled for it by crippled children and wounded golders. Because of it she wears badges and medals of gold. So far country cousins, poor relations, ragged boys and friendless girls have scenad to claim it. Anything so selfish as her falling in love was deemed impossible. Her affections and her kindness were, by the disposition and ability will permit by the use of just and honest means."

AN ENCOURAGING SIGN.

reader who glances over the pages of this issue, cannot but recognize the fact that the socialist unity which has been always advocated in these columns may now be said to be practically completed. It is one of the most hopeful signs for the future of the movement that sufficient intelligence has been developed amongst the majority of the members, which from this date makes individual control henceforth impossible in the Socialist party As the entire membership is necessarily drawn from some of the various capitalist parties, it is perhaps not surprising that a considerable amount of caps talist modes of thought should still remin among them. "Rome was not built in a day," the proverb says, and it is equally true that progress in the knowledge of socialist principles is gradual with all who come within the se of the movement. It is not in se a "change of heart," which may be effected instantaneously, as the theologians tell us, rather is it a grad ual attainment of knowledge of class interests and a corresponding discard of ideas consonant with capitalist methods of reasoning. It seems certain tage, where it demands that taction ordance therewith shall be adopt "By their fruits shall ye know " A class-conscious proletaria definite conception of the de object, and with a clear under ofter of the nature of the obstacle bich retard their movement, canno expected to allow individual discords ote and perpetuate disunion o whose combined energy is abs lutely necessary to carry on the strus gle against the common enemy. The which has been completed bears ny to the intelligence of the nd file of the membership, whos ition of its necessity and persist in its completion clearly indicate hat the elements of bourgeois thought hich were perhaps inevitable in the rlier stages of the movement are rap dly becoming less effective in retardin alist progress. With the clear-cut Italiam which exists in this country the movement of the working class should be equally clear and uncomprothe United States will be as remarkable for its clearness of vision as heretofore It has been for confusion and discord And the work that has just been completed gives good warrant for believing that this much to be desired condition

NOT FOR SALE.

will soon become a reality.

A system which depends for its existence upon the ability of those inter boodwink and deceive those whose ig norance of their distinct class interests is the guarantee of its continuation might not unreasonably be expected to put forth its best efforts in this direction on the eve of a general election That the socialist movement which i rapidly forcing recognition as a political entity, should more and more becom the target of these lying fabrications, is also to be expected, and this in itself is sans the best evidence of the need of a powerful party press to counterac their possible effect upon those who have not yet learned to think for themselves. While the circulation of such orts may perhaps to some extent retard the spread of socialist principles, yet in the very nature of our ed system, the ultimate outcome can never be in doubt. The socialist move as is well known to those who have made themselves familiar with the ideas upon which it is based, is differentiated entirely from all other political movements, by the fact that the

have absolutely no effect upon th movement as a whole, while on th contrary, capitalist political parties, as is well known, are dominated almost entirely by small groups and cliques and to a very large extent by individuals. To conceal this fact is incumben upon the organs of capitalism, and to their search for charges under cover of which they attempt to discredit social sm, they must necessarily use those which they have trained their dupes t consider objectionable in the old par ties. So every charge which might possibly carry some weight in capitalist politics is revamped and made to do duty as against socialism. One of the used for all it is worth during the pres int political excitement, is that th nen whom the Socialists have elected to represent their interests are about t sell out." This of course implies (to those who have no knowledge of the fer, or in political parlance "deliver the thing which the crafty enemies of the movement are careful to conceal. The individual who elected to represent the induced to go through such a foolish farce, would speedily discover that all he could possibly deliver would be him self, and even then it could not be con tended that a socialist had seceded to the ranks of the enemy. The reason that the socialists have no fear of this as a possibility, is that the rank and file in the party know what they want masses upon whose votes capitalism re lies for its power. The intelligence of the members of the Socialist party makes selling out in the capitalist sense an impossibility.

actions and ideas of any one individue

The Campaign Fund.

We would speak particularly to all readers of this paper who agree with the principles and objects of the socialmovement, on a matter which is of the utmost importance to the growth and virility of those principles.

The largest and most successful soialist convention ever held in this state as just concluded its work, and it remains for you to do your part in carrying out the program adopted by those elected to represent in that convention, the principles and objects alluded to

The harmony and enthusiasm there displayed make possible a vigorous and active campaign for the propagation of ocialism and a thorough organization

To do this, however, a campaign fund is a vital necessity, if the principles of socialism are to be brought to the atention of those enormous masses of workingmen who are still the dupes of the capitalist politicians of both parties, brough ignorance of their class intersts as workers.

We therefore urge upon you as an mperative duty which you have accepted by an avowal of your accord ith the object and aims of socialism that you perform your part by con-tributing to the best of your ability to he campaign fund inaugurated for the above purpose.

Unity Declared For.

Just as we go to press word come that the vote on union has been received and that the provisional Nation al Executive committee has met and decided to send Comrade Job Harriman on a tour through the central states including Illinois. Arrangements were ade to complete and extend the organization of the party throughout the country. All local organizations and isolated socialists desiring to communi-cate with the central body should ad-Springfield, Mass.

MAP SHOTS BY THE WAYSIDE.

McKinley has been officially notified of his nomination for the presi-lency. He is now slowly recovering unexpected incident involved. It is hoped however, that he will come as safely through the ordeal as his running mate Roosevelt, who was also the victim of a similar political sur orise.

Every cloud has its silver linning Although Willie Waldorf Astor has been snubbed by the British aristocracy, he can find consolation in the fact that thousands of American workingmen will still continue to pay rent to him even if he has ceased to be ar American.

The Chicago American, like every apitalist organ of its stripe, shows its haracter by poking fun at those vicims of the present robber system, the o-called "Weary Willies." On the other hand it is fulsome in its pretended sym-pathy for the locked out workmen of he building trades, but it carefully abstains from calling their attention to the fact that the power to lock them out is inherent in the system of private property in the means of production.

While also condemning the conduct of the contractors, it gives no hint that these gentlemen are Republicans and Democrats to a man, and will support of whom stand for the maintenance of private property in the means of production, which makes the lockout possible. You will find no socialists amongst the contractors, but the workers-well, even yet the majority of them will vote the same ticket as the bosses who lock them out.

From this time forward the chalrman of the Republican and Democratic na-tional committees will begin to publish in their respective organs, that their candidates are quité certain of election just as the modern prize fighter tells the reporter about his splendid physical condition, and what he is going to do to he other fellow when they meet in the ring. All this stuff is deliberately contrived to impress upon the workers the necessity of placing their vote for the winner. The schemers who get out this clap-trap rely upon the superstition prevalent amongst workingmen, that a vote is "thrown away" when given for a candidate who may not be elected.

Until this superstition is removed by to make workingmen see that in voting for the Republican or Democratic parties they are doing even worse than throwing their vote away; that they are merely riveting more firmly the fetters of wage slavery upon themselves and their class.

The Union Traction company in Chicago has announced a raise of wages for its employes, and this in face of the fact that its earnings have for the past two months been reduced by the opening of the elevated roads.

It is just possible that the matter of the expiring franchises may have some thing to do with this unexpected out burst of generosity. It may very well be that the U. T. Co. expect their grateful employes to interest themselves in the matter of obtaining renewals and extensions, as a recompense for in-creased wages. We have heard of such things before now, and the principle of "throwing a sprat to catch a mackerel" is not altogether new to capitalism.

The enormous difference between the Democrats and Republicans is well ex-emplified in the statements recently published, that the late Rear Admira Philips was offered the nomination for vice-president from both of the two old parties. And yet workingmen will fight

A new scheme is to be set on foot by the Salvation Army. The monotony of the slums is to be enlivened by "Alley" conerts given by the Salvation Army in the more densely populated districts of the city. As the appropriation for street cleaning and the removal of garbage has been exhausted for the financial year by the Harrison adminis tration, the "Army" might do some-what to remedy the deficiency by having an appropriate musical repertoir for these "Alley" concerts. How would 'Sweeter Than All the Roses," played possible in "rag time," do for a starter?

John Burns, British "Radical," M. P. as made a wonderful discovery. He has just given it as his opinion that vice and corruption are quite as ram pant in London as in New York or Chi-John evidently has only now cago. realized the significance of the saying "like causes, like effects." Capitalism also is "rampant" in the three cities and how could it be expected to bring different results in each?

When some of our capitalists who opse the establishment of a large standing army, read the news from Europe tions to some extent. In Rotterdam. where Dutch workingmen are striking for Better conditions of life, "business connected with the loading and discharging of ships is at present para lyzed. But the Dutch capitalist govern nent takes a hand at breaking th deadlock by putting soldiers in the place of the strikers and settling eco-to work. If this method of settling eco-Springfield, Mass.

nomic problems could be depended on, no capitalist would object to an increase in the standing army, but perhaps after

all the "army of the unemployed" is east. When there is no work for them they don't have to be clothed, loaged and fed by capitalist governments.

Adlal Stevenson, the fellow who re used to permit his wage slaves in the ngton. Ill., to organize in unions on pain of immediate discharge, will be out forward as a particular organized labor" during this campaign. This is quite in narmony with the ideas held by some people who finsist that he should also be invited to attend the encampment of the G. A. R., although n '62 and '64 his first political speech idvocated "peace at any price" and the election of a congressman who was pledged to vote "not a man or a dollar" or the suppression of slavery. We ar surely a wonderful people, though slightly troubled with short memories.

Jacob Kessner, business manager of he "Fair," one of the great Chicago department stores, has just been ac juitted of attempting to bribe an al ierman with the sum of \$2,000, to vote for the passage of the Ogden Gas ordin

At the time of the exposure, Mayo larrison was extremely indignant, for he had vetoed the ordinance, and was much interested in having the vote stand. Kessner was then tried and the jury disagreed. . . .

At this trial however, Mayor Harri son gave a remarkable piece of eviience He said that Mangler, the al-lerman in question, had told him that e (Mangler) had been offered \$2,000 to vote for the ordinance, and he further stated that he had heard from various ources that aldermen had been offered the same sum for similar services. And that these men had from other sources been offered \$10,000 to vote against it It seems that the veto, like "provience," was on the side of the heaviest battalions, and the business world feels no doubt much relieved now that Kess ner has been acquitted.

The "sympathy" expended upon th Boer cause in this country, material-izes in the sum of eighteen dollars, after all "legitimate" expenses are, paid, at least so says Congressman Sulzer, "managed" this sideshow as an auxiliary to Democratic vote-getting. Eighteen dollars! If this sum is allowed to leave the country i will furnish argument for the Populists that the circulation "per capita" is de-

Eighteen dollars are left for the re itef of the families of the burghers, who South African republics. It is true tha several thousands were collected for this purpose, but then every dollar ex pended in collection expenses is carefully accounted for. Hotel bills, hack hire, railroad expenses, wine, etc., being settled for, the magnificent sum of eighteen dollars remains on hand.

The above is a fairly good illustration of the methods of capitalist charity philanthropy and sympathy. Those who nanage such affairs generally advertis n grandiloquent language what great things they are going to do, and when a sufficient quantity of suckers have emp tied their pockets for the good cause the accounting brings to light the facthat 99 per cent of the contributions have been expended in collecting the remaining one per cent.

This collecting for the Boers brings to mind the story told of a big collection which was being taken up in a dowr ast church, for the conversion of th heathen. A shrewd Yankee, who had listened attentively to the sermon the congregation to part liberally fe each other over the enormous differ-ences supposed to exist between the fore him, placed a cent first, and then an explanation for this rather peculiar action, he replied, that the cent was for the heathen and the dollar to get if to him. The funds collected for the Boers to have been "organized" on sim ilar lines.

The "civilized world" stands petrified with horror at the news from Pekin "horror" expressed doesn' cause the "civilized world" to lose sight of the dilemma in which they fine hemselves of dividing the booty which they hope to secure. Perhaps the safety of the Chinese nation, like the sacrifice of the Europeans in Pekin, hinges of the fact that the would-be plunderer annot agree amongst themselves.

There is only one argument agains ocialism so far as the wage earner is oncerned, and that is, ignorance.

Those who declare that things must lways remain as they are, as an argu ment against socialism, are generally islest in asserting that the salva tion of the country depends on the elec-tion of this or that cheap politician.

ning to live on the Lake Shore drive inder socialism, before accepting its truths, very often lives himself in a tenement or cheap furnished room.

The worker who is afraid that so sm would destroy his individuality, in nost cases has none, for if he had he rould exert it to right his own economic wrongs.

The "patriot" resembles the bull in the bull ring. His attention can be constantly diverted by the political rags flaunted in his face

CORRESPONDENCE.

In the State of Washington.

The Social Democrats spent the Fourth of July at their Union street

The Social Democrats spent the Fourts of July at their Union street headquarters.

Last night the place was thronged like a concert hall. Songs and whist, lunch and political discussion were features of the evening.

The ticket nominated on Tuesday is almost entirely a union labor ticket.

Mr. Randolph, candidate for governor, is secretary of the Carpenters union in Seattle. Mr. Reinert, for lleutenant governor, is a secretary of the Carpenters union in Seattle. Mr. Reinert, for lleutenant governor, is a secretary of state, is a union biacksmith, Fraser, for treasurer, also of Tacoma. is a union machinist, formerly employed in Moran's shop. Austin. of Lynden, Whatcom county, for land commissioner, is another mechanic. Martin, of Olympia, for public printer, is a member of the Typographical union. Of the rest three are listed as "laborers."

William Hogan, on Equality, for consressman; Henry Weick, of Spokane, Lewis Thompson, of Geneva both for presidential electors. A. G. Siebert, another candidate for elector, is one of the most prominent members of the Bricklayers' union of this city.

The only candidates not strictly manual laborers and union men, are John H. Kingsbury, principal of the high school of Prosser, candidate for superintendent of public instruction; Charles S. Wallace of Fairhaven, bookkeeper, for state auditor; Walter Griggs, of Equality, a teacher, and Dr. Titus of this city, candidate for congressman; D. W. Phipps, of Seattle, lawyer, for attorney general.

The Social Democratic party of the

general,
The platform is as follows:
The Social Democratic party of the
State of Washington, in convention,
assembled, lays down the following

assembled, lays down the following platform:
First. We affirm our belief in the principles of international socialism, indorse the nomination of Debs and Harriman and the platform adopted by the unity committee of the S. D. P. and S. L. P.

Second. The principles of internation

Second. The principles of international socialism based upon the frrepressible struggle of wage labor against modern capitalism, are fundamental to our existence as a party.

We straign capitalism as a system incompatible with freedom and justice. We assert that capital and wage slavery are inseparable twins. We demand the abolition of human slavery, the emancipation of the wage working class, the destruction of capitalism.

Third. We affirm this irrepressible class struggle to be a historical fact, a process of social evolution. We are as sure of success as the laws of nature are inevitable.

Private property, based on personal labor is become by a sure that the

sure of success as the laws of nature are inevitable.

Private property, based on personal labor, is honorable and fust. But that has been superseded by private capitalist property based on the exploitation of the labor of others—which is robbery.

The Social Democratic party aims to unite the exploited and robbed laborers into a political unit, fully instructed and conscious of its historic mission and power.

We therefore call for all wage workers to vote for their own class interests, to forsake all parties and all measures which do not recognize and advocate the supreme issue of modern times, namely, wage slavery against capitalist tyrants.

We are contending for no half-way measures. We will not be content till every workingman understands how he is exploited and robbed by the capitalist and understands also that he has an immediate weapon in the ballot whereby to achieve his own emancipation.

We propose to show every worker

their mastery over the worker.

The state executive committee has organized as follows: A. G. Siebert, chairman; Herman Culver, vice-chairman, James D. Curtis, secretary; Mrs. Ida. W. Mudgett. Tacoma, treasurer; H. F. Titus, organizer. They propose to make a campaign throughout the state.

The convention also passed a recolution, 112 to 8, in favor of abiding by the result of the vote now being taken on the unity question.

Ohio Shows How to Do It.

The way to unite is to unite, and that is what the socialists of Ohio did of July 4th. Delegates from the anti-De Leon sections of the State, and all the working branches of the S. D. P. in Ohio were present, also six delegates from the Independent Socialist club of Tole the section of the were present, also six delegates from the Independent Socialist club of Toledo, as well as several unattached socialists from unorganized localities. The sentiment was unanimous for union with the exception of three delegates from branch 4. S. D. P., who were instructed for political union and against organic union, and so voted. Every other vote in the convention was for union, which was ratified with enthusiasm by the adoption of the report of the committee on resolutions.

The platform adopted was the one submitted by the unky conference. The following state ticket was nominated: Secretary of State—Louis F. Hense, (printer), Toledo.

Judge of Supreme Court—Albert Corbin, (spring maker), Cincinnati.

Pattersen, (farmer), Bloomville.

Commissioner of Common Schools—Henry Thomas, (carpenter), Cieveland.

Member Board of Public Works—W. C.

Henry Thomas, (carpenter), Cleveland.

Member Board of Public Works—W. C.
Edwards, (bookkeeper), Portsmouth.
Electors at Large—Robert Bandlow,
(printer), Cleveland; Chas. R. Martin,
(agent), Tiffin. .

Comrade Henrs who heads the ticket,
is secretary of the Toledo Typographical union, and a good-natured, clearheaded energetic worker.

More than half of the delegates present are members of trades unions, and
with the exception of four, all wage
workers. The average age between 3s
and 33 years.

Cleveland was selected as the seat of
the stale committee and the officers of
the S. D. P. and S. L. P. turned over to

the new committee funds in their pos-session, by vote of delegates, and we do

not start empty-handed.

The best of feeling prevailed from start to finish, and we see that the results in November will show the good effect of the work so well done.

The Independent club at Toledo prepared to celebrate unity after the Indianapolis convention. The "manifesto"

pared to celebrate unity after the Indianapolis convention. The "manifesto" hung it up, but the act will now be duly carried out. The Toledo comrades are a fine body of men and not at all tinctured with the idea of "non-partisanism." Keep an eye on Toledo.

On the way to the train in the evening Comrade Lewis of Toledo mounted a box at the corner of Lan and Hish streets, and opened the campaign amidst the racket of crackers. As we left, Max Hayes mounted the box and began to pour it into the crowd who had gathered. The fight will be push a from now on, leaving bosses and their schemes to themselves.

Convencion Call for Iowa.

A convention of the Social Democratic party of Iowa is hereby called to meet at the city of Oskaloosa on Friday, August 10, 1900.

Owing to the fact that there are thousands of unattached socialists in Iowa as yet unaffliated with branches, we have deemed it proper to issue the call so us to admit a reasonable number of socialists from each county in addition to and distinct from the representation of the branches. Therefore socialists throughout the state are invited to attend and participate in the work of the convention.

throughout the state are invited to attend and participate in the work of the convention.

Each county will be permitted to have five votes of this character.

Each branch of the Social Democratic party and each section of the Socialist Labor party will be permitted as many votes as there are members of the branch or section, and the members present from such branch or section will be permitted to cast the full vote of the membership of said organization. The convention will assemble at 10 o'clock a. m., and in addition to such other matters as may properly come before that body will transact the following business:

1. The nomination of a full state and electoral ticket.

2. The nomination in district caucuses, so far as possible, candidates for congress.

3. The formation of a permanent organization of Iowa socialists.

((Signed)

Rochaster Attention!

an immediate weapon in the ballot whereby to achieve his own emancipation.

We propose to show every worker with hand or head that he its being expropriated by his capitalist masters and that the time is now come when the expropriators must be expropriated. Ours is no sentimental fight for human brotherhood, though we believe that also will ensue upon our victory. We demand justice. We fight for justice. We will obtain justice.

Fourth. While aiming at the ultimate collective ownership of all the means of production and distribution, we demand as intermediate steps direct legislation, jublic ownership of public utilities, aboiltion of the contract system in all public improvements, use of the taxing power to establish a system of public improvements, upon which the unemployed shall be employed.

Fifth. While we recognize the labor union movement as a necessity under the capitalist system, we wish to point out the fact that it is impotent to bring any permanent relief to the working class. We feel it our duty to stand by the unions in all their struggles and in time we call upon them to complete their own emancipation by united political action.

Sixth We denounce all wars of aggression and we call upon all workers everywhere to cease to bear arms in the interests of capitalists who seek to make cannon food out of those who create all wealth, in order to perpetuate their mastery over the worker.

The state executive committee has organized as follows: A. W. Ricker, State Organizer.

Sixth Promation of lows socilaties. ((Signed) A. W. Ricker, State Organizer.

Bechester, Attention!

During the months of July and August the meetings of Section Rochester will be held on the first and second Friday, respectively. All the ninety comrades enrolled on our books are requested and expected to be present on Friday, July the 20th. The election of officers will take place and arrangements completed to enter upon a vigorous campaign. This notice is a red letter of the capitalist of the working class. We feel it our duty to s

WHAT TO READ.

Some Hints as to a Course of Reading Required for a Knowledge of Socialism.

Girard, Kan., June 29, 1900.

I have your letter of the 26th inst., cratic parties. I am especially glad if you have the patience, read curiosity is excited and you want to schein, London. You can get me what to read.

This is a question that probably no

be Socialists." This will give you an bourgeoisle. idea of our objects and programme. ature Co., 64 East 4th St., New York.

system and of what we propose to do ist books, for 10 cents.

I think that this book will convince York.

you that things are in a pretty bad way in England, and your own experience will tell you conditions are no of us when we first heard it. You better in America. You will now want think of it as tending to harden, emto know how the present unequal con- bitter and brutalize the workingmen ditions came into being.

You will learn this by reading H. de B. Gibben's "Industrial History of brought to bear upon them. To under-England." This is published by Me-stand this, read Ferdinand Lassalle's thuen, London. Unfortunately it has the never been reprinted in America, but I have no doubt Kerr can get it for you. While Gibbens is tresh in your mem- Co. ory, you should read "A Dream of Artist, Socialist," published by the great reluctance. Humboldt Publishing Co., 64 Fifth Ave., New York

You will by the time you have read all this be convinced that our present troubles are due to the fact that the tools are no longer owned by those who use them, and that the working people can never again be really prosperous until they again own their tools; but your common sense will tell you that the gigantic tools of modern industry are not adapted to private ownership, and you will be ready believe that social ownership is the only remedy. But it is not enough to believe that social ownership is desirable and would remedy our present There are many things that we may believe desirable that we have no reason to believe will ever come to You must now read books that will enable you to analyze our present industrial system, and find beneath the surface those forces that are to create the society of the future, the Co-operative Commonwealth . When you have read and digested these you will be a SOCIALIST, for a socialist is not a man who vaguely sighs for a Utopia, but a man who KNOWS that socialism-is inevitable.

read "The Principles of Scientific Socialism," by Rev. Chas. H. Vail. (This is a published by the Commonwealth Co., 28 Lafayette Place, New York), and (2) Frederick Engel's "Socialism, Utopian and Scientific." (This is a very important book and you should not fail to read it. It is published by Sonnenschein, London, and there is, I believe, a cheap American reprint), and (3) Deville's "The People's Marx." translated by LaMonte. The latter is published by the International Library Publishing Co., 23 Duane St., New York. You will do well to give this last book a second reading, for you cannot be too well grounded in the For this purpose you would best cannot be too well grounded in the economics of Karl Marx. If you care "Equality." but be sure not to read it till after you have read "The People's Marx." Also in this connection read Dr. Vall's "The Mission of the Working Class." This is Library, and you can get it for 5 cents. After you have read all this rather

dry political economy and so you will be entitled to a little relaxation and will enjoy reading some imaginative fictions of the future, but the imagination and not scientific pro-ductions. Under this head, I would nd "News from Nowhere," by William Morris (Humboldt Publishin, Co.), and Bellamy's "Looking Back-ward." Besides these also read Leonard D. Abbott's beautiful little pamph-let, "The Society of the Future," published by The Appeal to Reason Press

After you have read the five works you will be ready to do a little more feal studying. You will have seen that we expect the working class, through a class struggle, to ush er in the co-operative commonwealth.

It will now be well for you to see how
the doctrine of class conflicts explains
the history of the past.

jof modern socialism, the "Communis Manifesto," by Marx and Engels. You can get a cheap edition of this pamph and am glad you are becoming dissat- let from the Socialist Literature Co with the Republican and Demo- 64 East 4th St., New York. After this, that you had the good fortune to hear Economic Foundations of Society." by Harriman speak. You say that your Achille Loria, published by Sonnenknow more about socialism, and ask from Chas. Scribner's Sons, New York. You probably will not understand it all, but you will understand enough to two socialists would answer alike, but, see that the history of the past three since you have asked me, I will do the hundred years has been in the main a best I can to advise you.

I enclose Wilshire's little leaflet, the landed aristocracy and the manuhistory of the class struggle between "Why American Workingmen Should facturing and trading middle class of

It is also important for you to know Should you want more of them to give that the working class is in constant to your friends. CONVENTION NEWS.

Socialists All Over the United State Recognize the Importance of United Action.

In the midst of conflicting reports and the attempts of petty persons to "lead," and to thwart the will of the majorities, the colored reports of candidates will step out and tell their constituents to vote for so-and-so fortunately in a socialist movement this is impossible), out of this chaos of capitalist politics, where the pay roll and the pencil, not the delegates, are the nominating power, comes one clear voices the answer of the proletariat in response to that world-wide call Marx, "Workers of all countries unite!" The reports of the socialist conventions where regardless of the attempts of individuals, the two socialist parties, S. D. P. and S. L. P., are uniting, show clearly that the harvest is almost ripe for the sickle and that from henceforth the power expressed in the organization of workingmen handed together for economic emancipation can no longer be ignored. To give our readers som idea of the manner in which the hosti of labor are gathering for the struggle we present a short resume of the proceedings of the conventions of united socialists which have been held in many states of the union already.

PENNSYLVANIA

The socialist convention in this state was held on July 4th, at the Labor Lyceum, corner of Sixth and Brown streets, in the City of Philadelphia. Over twenty counties were represented by delegates. Before the regular business of the convention was proceeded with, the delegates adopted the report of the committee, the preamble of which we here reprint as significant of the primary importance of unity as regarded by Pennsylvania comrades:

Resolved. That the Socialist Labor party and the Social Democratic party

Resolved. That the Socialist Labor party and the Social Democratic party of the state of Pennsylvania hereby cease their separate and independent existence and unite and amalgamate into one political body under the name of Socialist party.

The convention then proceeded to make preparations for the campaign in regular order, the utmost harmony/pre valling during the whole course of the proceedings.

OHIO.

The report of the convention held in this state appears in another part of this issue, with a complete list of delestate ticket. It will be seen that in Ohio as in Pennsylvania, that the sentiment for unity of all socialist forces in

KENTUCKY.

In Kentucky on the same date the socialists held a convention, nominating Dr. Walter T. Roberts of Lousiville, for governor, and L. Werner and Harry Crandall as electors at large. executive committee was selected, composed of the following comrades:

> Secretary-Harry Crandall. Vice Chairman-F. R. Markert. Treasurer-J. J. Donoghoe. Organizer-T. L. Lavanier of Coving-

VERMONT.

In this state the convention met at Barre, delegates from four local organizations being present. Unity of socialist forces was endorsed, and the fol lowing state ticket nominated: For Governor-J. Pirie.

For Lieutenant-Governor-C. H. Millan. For Congress (first district)-P. V. Danahy.

For Congress (second district)-John For Presidential Electors-Harley Allen, P. E. McCarty, Frank Carpenter,

John Buckley.

The results of Comrade Job Harrinan's agitation tour throughout the New England states can be clearly omination of a socialist state ticket in Vermont.

MASSACHUSETTS.

cialist convention in this state was held in Boston on July 8th, and was probably one of the largest and ost important of the state conventions held this year. The ticket nomnated was as follows:

For Governor-Charles H. Bradley, or Lieutenant-Governor-George H

Wrenn, Springfield. For Secretary of State-Addison W. Barr Worcester For Treasurer-Stephen O'Shaughnes-

r Auditor-Frank Walsh, Brockte neral-Dr. John F. Bilor Attorney Gene lings, Rockland.

tings, Rockland.

The members of the S. D. P. and S. L.

in separate halls decided for union,
ad the decision was ratified with cheers

in the joint convention. The question "Is union desirable." was answered unequivocally in the affirmative, and the name Social Democratic was adopted.

WASHINGTON.

The report of the proceedings of the onvention held in this state, with the ticket nominated, appears in another part of this issue. It will be seen that the socialists of Washington are squarely in line with the rest of the comrades throughout the different states given above.

MARYLAND.

The convention in this state was held on Monday, July 2d, and nominated the following ticket:

For Congressman (3rd district)-Levin T. Jones. For Congressman 4th district)-Chas

B. Beckman. For Liectors-Joseph C. Fowler, Ernest H. Wenzel, D. Paulson, Frank Mar eck, J. W. Schofield, Samuel R. An-Henry Sonnerleiter, Andrew gel, Laughirt.

CONNECTICUT.

The S. L. P. and S. D. P. met in joint onvention at New Haven, on July 4th. in regard to the question of unity may best be judged by the following resolutions adoptedby the joint convention:

Resolved. That the Social Democratic and Socialist Labor parties of Connec-ticut units in the presidential campaign on platform, candidates and state or-ganization.

The following ticket was nominated:

For Governor-Geo. A. Sweetland of Bristol. Lieutenant-Governor-Wm

White of New Haven, For Secretary of State-Irving C. Chat-

field of Waterbury. For Treasurer-William Bartels of Nev Haven.

For Comptroller-William S. Sansoucy of Somersville For Attorney General-Geo, A. Gody of

Bristol.

ILLINOIS.

The report of the convention held on July 4th, at 70 N. Clark street, this city, appeared in the columns of this paper last week, and our readers are now no doubt already familiar with the proceedings of that body and the course The convention of Texas socialists of action determined on, which corre-was held at Dallas, on July 4th, and sponds with that taken by the comrades in other states.

Several other states have also held

socialist conventions within the last few days, but as the reports of their proceedings have not yet reached us we are as yet unable to give details, though there is no reason to believe Controller-W. A. Mitchell, of that the results of their deliberations will conflict with those already reported.

However, enough has been given to show that socialism has passed the stage where individual control is possible, and is more and more taking on all tion-Nomination to be made by the the characteristics of a true working class movement, a movement which ex tions of those whose material interests Electors at Large-Eugene Pilled, of are bound up in the abolition of wage Dallas, and F. The only elective body at Gibraltar is the Chamber of Trade. The "Republica Social" of Vellencia states that four socialist workmen have been elected members.-Jacques Bonhomme, in Lonion "Justice."

LABOR ITEMS.

Notes From Trades Union Journals and Exchanges, Throughout the United States.

M. V. Rork, prominent California Pop, has joined the socialist procession.

The crucible steel trust with \$50,060, 000 capital is the latest. About every-thing in iron and steel is now trustified.

As in this country, the socialists and progressive workingmen of Holland have become disgusted with a self-appointed boss, and he is to be dumped overboard and the forces united.

Such mid-road Populist champions as Pritchett, McMeans, Surber, Eager, Fulcher and the Rhodes brothers, all speakers and organizers, have com over to the Texas Social Democrats.

The professions of the socialist members in the Belgian parliament are as follows: Workingmen, 15; lawyers, 3; professors, 2; storekeepers, 2; co-oper ative store managers, 2; school teachers, 2; manufacturers, 1; foremen, 1.

Yes, gentle reader, the Filipino in surgents are still insurging, the Boxers are still boxing, Lord Bobs is still treking after Kruger, the Ashantis are re belling and the powers are lookin; for trouble on general principles. Let's see didn't we have a peace conference at the Hugue some moons ago?-Artisan.

The official vote of the national election in Italy is announced. Govern-ment parties had 611,425 votes; the opposition, 649,485, thus showing that on copular vote the government suffered defeat. Of the opposition parties, the socialists made the greatest gains and hold the best position. In 1895 they polled 76,359 votes, 134,502 in 1897, and 215.841 this year. Their seats in parliament increased from 17 to 32. Cipriani, one of the socialist leaders, writes to a Paris daily from Rome: "It is the beginning of the end. Italy is moving to wards a new birth, and this is seen by all, even by our opponents."-Cleveland

LOCAL NEWS AND NOTES.

Twenty-sixth Ward branch holds open air meetings on Monday evenings The names of several comrades have lately been added to the list of speak-ers, but many more are needed.

Socialists in the 20th ward are intend-ing to organize a branch; open-air meetings are being arranged for.

Socialists in the newly organized 35th ward (Austin), are housing meetings and will soon organize a branch.

Journeymen bakers in Chicago are making a fight for shorter hours and better sanitary conditions in their workshops. The meetings held at Oak and Sedg-wick streets Wednesday evnings, and Clark street and Walton place Thurs-day evenings, continue to grow in inter-

Unity Lodge No. 134, L. A. of M., will meet Monday, July 237d, at 8 p. m., at 182 Madison street. All members are requested to attend as business of imrtance is to be transacted.

The eight-hour bill introduced in Washington was defeated by the efforts of Senator Hawley. But this will not prevent Hawley from posing as a "friend of labor" when he again wants office.

The speakers at the open-air meetings would do well to mention the SOCIALIST PARTY by name more frequently People want to know what they are being asked to vote for. Let us not be ashamed of our colors.

A new branch was formed in the 27th ward, with 18 members, at the home of Comrade Bartels. All subscribers of the Workers' Call are asked to send their name and address to Organizer Klenke, 295 Emerson avenue, city.

Meetings are held regularly by the 4th ward branch (No. 1), at 111th street and Michigan avenue, on Saturday evenings. Comrade Berlyn addressed a arge crowd at the last meeting. Comade Saunders speaks tonight (21st).

The meetings held by the 25th ward branch at Sheffield and Belmont avenues Sunday afternoons attract large audiences. The branch is intending to hold meetings on Wednesday evenings also. Comrade Morris is the main speaker for next Sunday. A gang of linemen at La Crosse, Wis will pay for their fus in burying Mc Kinley in effigy by the loss of their joh if Mac were buried under a shower of socialist ballots the linemen might be more secure. And if Bryan were also buried in the same manner the result would be still more satisfactory.

The Democrats and Republicans of the Idaho "bull pen" outrage. To octalists, especially those in the traditions, have seen to it that this questle kept prominent. They also an

hawk street. The members, mostly young men, are expected to make things hum in that district for socialism in the near future. The next meeting of the branch will be held at the same place, on Saturday, July 21st at 8 p. m. and all residents in that district are cordially invited to attend.

The Cigarmakers' National union is fust completing a referendum vote levy-ing a special assessment of one dollar upon each member for the benefit of the non-union cigarmaters involved in the great New York lockout. The union members are provided for from the general fund. This is the answer to the article entitled "Financiering Injunctions," which appeared in the alleged professor's alleged socialist organ.

professor's alleged socialist organ.

Comrade J. W. Saunders gave a stirring address last Saturday evening at the corner of Commercial avenne and 32nd street, in South Chicago. In addition to the usual crowd of listeners was a little group of young men who had been roused to opposition the week before and were on hand to dispute the socialist position at every point. This was exactly what Comrade Saunders wanted. Cheerfully, frankly, persistently, and with the utmost good humor, he answered every query and turned every criticism into an argument for socialism and for voting the Socialist party ticket. At the next meeting Comrade A. Klenke, the socialist candidate for governor, will speak.

It is of the utmost importance that

It is of the utmost importance that the local branches give more attention to developing new speakers. The So-cialist party is now holding nincteen open-air meetings in Chicago each week. This puts a great tax upon the strength and time of those who are week. This puts a great tax upon the strength and time of those who are heroic enough to give themselves to this work. A larger number of speakers would divide the burden more equally. The least that any branch can do is to insist that one of its own merabers open the meeting by a five-minute talk hefore introducing the speaker. Public speaking is not an instinctive art. It comes by practice. Anyone can art. It comes by practice. Anyone can learn it who has the courage and pa-tience. But he must get on his feet and begin. If he has nothing to say, then

BOOK REVIEWS.

THE INTERNATIONAL SOCIALIST REVIEW, volume 1, number 1, Chicago, July, 1900. \$1.00 a year; 10 cents a copy.

The first issue of this review, edited by A. M. Simons, marks an epoch in the levelopment of socialism. It is an evidence that the clearest thinkers of Europe and America have forsaken the hopeless task of making capitalism en-durable and have frankly accepted the

socialist philosophy.

The opening article is by William T.
Brown of Rochester, and is entitled, "Plutocracy or Democracy." He shows that a true democracy has never yet existed, but that it is the logical and inevitable form of society that must soon follow the collapse of capitalism. He also shows the weakness of any movement toward the establishment of an individualistic liberty before the people have had the training which de-

mocracy will give. H. M. Hyndman contributes a forcible article, entitled, "England and In-ternational Socialism," in which he warns Americans against accepting the shows that little has really been accomplished in English politics by the working class hitherto; gives twentyone reasons why the English movement

ment for the future Jean Longuet of France and Prof. Emile Vinck of Belgium, tell of the socialist gains at the recent elections in political situation, which both in France and Belgium is decidedly critics

Marcus Hitch writes of "Karl Marx and the Money Question," and argues refusing to recognize the quantity theory of money as a measure of value. M. S. Hayes gives an interesting historical sketch of the progress of social-

Comrade Simons in his editorials traces the development of American ocialism and outlines the policy which the Review will follow. He then takes up the Chinese situation and analyses the economic forces operating in the mighty struggle now beginning around His closing article deals with the lockout of the building trad-Chicago, and the strike of the street car men in St. Louis.

and is handsomely printed. The scription price is one dollar, but by a special arrangement we offer the Workers' Call and the Review, both for one dollar. Send your dollar now and get the Review from the beginning, and we will extend your Call subscription a year from the time it expires.

After all, the fact that McKinley is an honorary member of the Bricklay-ers' union, harmonizes admirably with the subsequent events, which taken place in local labor circles. a man belongs in such a union.

It is a mistake to picture Mark Hans as the clown in the Republican circu when he really holds the position

HALF-TRUTH---WHOLE LIE.

Socialists May Expect From the Capitalist Press Regarding Their Utterances.

It has long been a recognized fact amongst socialists, that those engaged in the advocacy of socialism, have to expend a very considerable portion of their time in refuting false ideas circulated by the enemies of the moveent, and entering denial against statements alleged to have been made by socialists, statements which either through deliberate omission, addition or misrepresentation are twisted to imply something entirely different from what was orignally intended.

Such wilful falsehoods are always made with a distinct purpose in view, and when those who make them, have by capitalist trickery been enabled to some extent to impose themselves upon unthinking workingmen as "friends of labor," the misrepresentations in question become doubly dangerous, and render an imperative denial necessary. We have no desire to "deplore" the

low moral standard or "denounce" the untruthful statements made by our enemies. Recognizing that the Democratic party this year have in some sort a proprietary right in the use of these dulent as their professed disgust with words, and further, that deliberate the "brutality" of prize fighting. falsehood is a necessary adjunct to the preservation of the capitalist system, represent and falsify statements made socialists, as the material interests of their class demand the use of such tactics. But it is none the less incum bent upon us to expose these falsehoods and circulate the exposure to the best of our ability. The Chicago American, of capitalism which relies upon Bryan to save it from the natural effects of the competition of the competition of the system which it upholds, runs a column of alleged "news for workingmen and women," which is admirably cooked and served up to suit the interest of the small labor-skinning class. In reporting the proceedings at the Federation of Labor meeting held in Chicago on Sunday the 15th inst., it starts off as follows:

This is an illustration of a case where a half-truth has all the effects ity" consists in pretending to hate the of a downright lie. It is true that this things they like, and like the things statement was made, but the Chicago they hate. American has wilfully omitted the rest. which it dare not print. Delegate Berlyn stated also that any man who voted for Bryan was a traitor to the cause of That any man who voted for either the Republican or Democratic parties was a traitor to the interests of his class. This, Hearst's paper deliberately suppressed, in order to represent the sentiments of workingmen as being opposed to McKinley, and leaving it to be inferred that therefore they must be

We don't condemn the Chicago Amer-ican in this matter, as we recognize that such tactics are the natural defence of such papers. We do not feel disposed to deny them the "right" to reise their ingenuity after this fashion if it seems to them proper to do so. Even although the falsehood printed in their columns may reach ten times as furnish with the exposure, that fact does not deter us from asserting that as regards the matter aforesaid their "news for workingmen and women" is merely an ordinary everyday capitalist

SELF DENIAL,

An Exhibition Enjoyed by "Society Which They Will Prohibit in the Future.

But don't make any mistake about ent. It is not a meeting of the Chris club or the Society for the Propagation of Christianity amongst the heathen that brought together this assemblage of our "best" and "most respected" citizens, although the functions above ess upon the presence and purses

But "what went they out for to see?" Madison Square Garden in New York is the place of assembly, and within its were gathered the representatives of the "morality" of the present age. And they were on that particular spot to witness the elevating spectacle of portunities for all and special privileges "Terry McGovern," the "Brooklyn Ter." for none. ror" pounding another prizefighter into

Europe has many ably edited reviews expounding the principles of Socialism, and enabling students of social problems to exchange their ideas. America needs such a review, and to this end A. M. Simona, lately editor of the Workers' Call, and now vice-president of the Chicago publishing house of Chiaries. H. Kras & Company, has in a recent journey arranged with the leading European socialists to assist in establishing The International Socialist Review, the first number of which appears July 1, 1900. Every civilized country will be represented by its ablest socialist writers, and some forty-eight of the sixty-four pages of the Review will be given to the interchange of opinion. The following departments will be regular features:

1. Review of the events of the menth from the socialist point of view.

2. News of the socialist movement in America.

point of view.

2. News of the socialist movement in America.

3. Review of economic developments and labor troubles, with special reference to the trade union movement.

4. Foreign correspondence: News of the socialist movement the world over.

Every student of socialism, and also every opponent of socialism, will find that he needs to read THE INTERNATIONAL SOCIALIST REVIEW.

plainly only upon one hypothesis. an absolute and thorough sham. Their pretended solicitude for what are termed "higher things" is just as frau

Most men really like to see trials of strength, skill and endurance between other men, be it boxing, wrestling, row ing, running or any other sport in which trained and skilful athletes are pitted against each other. But what sort of people are those who have not sufficiently manliness, courage or truth to say so openly? Those who denounce as "brutal" the exhibitions which they

The boxer may perhaps be a "brute." but even a brute is a reality of some kind, which is more than can be said of these hypocrites. Prize fighting is "brutal," they pay money to see it, they sit at these "brutal" scenes, but they

For these things have an economic hypocrisy and humbug.

IS THIS THE BEST?

Life Conditions of the Working Class, and the Possibilities of Enjoyment.

Can the modern working class, whether men or women, truly say that they many workingmen, as we are able to are living? Can they claim that they enjoy life to the limit of the possibility of enjoyment? Can they show that they occupy a much higher sphere than most of the members of the animal kingdom. whose lives are mostly made up of hunting for food, eating and sleeping? In what does the life of the average member of the working class differ so greatly from this? If he or she is comparatively lucky a fairly steady "job" may be supposed at which labor is per-Men were there and were unsparing with their enthusiasm who are leaders in Wall street, who are the heads of great wholesale establishments or whose word may control lines of rail-way that stretch from New York to the far west. Sitting in the boxes were men whose names adorn pews in the most fashionable-churches in the city. Reads of the city departments were in the city. Reads of the city departments were it is sometimes called. The character of present, etc., etc.,—Chicago Record. formed from morning till night. After most of this fun, when considered as healthful recreation, is to say the least the nature of the function at which all these "prominent citizens" were presthe lives of the beast of the field and the League that is here described as being a tremendous difference. But if better League that is here described as being a tremendous difference. But if better honored by the attendance of these dis. tinguished personages. Neither was it animal part of life to be minimized, the a meeting of the Union Reform League worker must depend upon his class to worker must depend upon his class to make the change. If they wish life with all the possibilities that the word implies, instead of an almost, animal existence, they themselves must see to it. They, the producers of all wealth. mentioned rely almost entirely for their must struggle for bare necessaries while their plunderers enjoy ease and comfort, and very often a reputation for philanthropy. When they see the folly of this, they will be ready to see the philanthropy. will declare their independence by abolishing the class system, and establishing in its place a system with equal op-

Not Limited to Oklahoma.

The socialists are agitating the question of colonizing in Oklahoma and getting control of the offices so that when the territory is admitted as a state they could make the constitution. Focilish socialists. If the politicians at Washington thought that Oklahoma was to be controlled by the socialists it would never be admitted as a state. The old parties have trouble enough now.—Independent.

cialists are not so foolish as to allow the making of the censtitution of Oklahoma declaim against the "brutality" of prize fighting are to be found in thousands at the ringside when one of the exhibitions takes place.

How is this? What is the meaning of the way either the way either the ringside when one of the exhibitions takes place.

How is this? What is the meaning of the constitution of Oklahoma times?

THE PEOPLE

184 WILLIAM STREET. NEW YORK CITY

As per Usual.

The new journal which was estab are not "brutal." Not at all. Are they petty capitalist through Bryanism, has not going to suppress "brutality" of been advertised so much as a "friend of this sort in the near future? It has rebeen advertised so much as a "friend or "Any man who votes for McKinley is a traitor to labor." declared Barney Berlyn of the Cigarmakers union at the Chicago Federation of Labor meeting sential respects the most thorough and respect to the complete humburs, the world have sential respects the most thorough and respect that some of our socialist commanded for the capitalist system to produce humburs who are in all estable how much truth there was in the report. They learned that members of the Tyomplete humbugs the world has ever pographical union were being paid full seen. "Moral" beings whose "moral- union scale, but that this was offset by ity" consists in pretending to hate the the fact that the drivers get but \$7 pe union scale, but that this was offset by week, folders in the office, less than that paid by any other paper in the city, less even than the despised Daily News, the basis, and are but a reflection of a sys- so-called enemy of labor, and agents \$6 tem founded on traud and falsehood, per week. As the News pays \$7 per and which can only be maintained by week to agents and \$9 to drivers, it will hypocrisy and humbug.

Whether prize fighting will continue the professed friendliness. But Mr. when this capitalist system has been Hearst does not want organized antagsupplanted by socialism, may be a mat- onism when starting, so the poor devils ter for speculation, but one thing is who are unable to organize themselves certain, that if there are men who find into a union are made to bear the expleasure in attending boxing matches, pense of the "friendliness" exhibited to they will at least have enough truth those who can partially voice their and manliness in their mental makeup grievances through an organization. When this professed "friendliness" to examined it always turns out somewhat similar results for inspection

Straws Which Show, Etc.

That the economic pressure exerted upon the workers by the capitalist profit system is driving home with resistless force the idea of the necessity of presenting a united front to the common enemy, may be seen from a perusal of the following items gathered by the Cleveland Citizen:

Up in Vermont the socialists united united under Social Democratic party name and nominated a state ticket. De Leon's man, Hickey, was in the state and organized a section at Barre. Along came Job Harriman, who had organized socialist unions in two or three other towns and captured three-fourths of the

torial convention, put up a ticket and formally declared for union.

cialist Laborites convened in 'Frisco united and put up a ticket. State of Washington socialists of all parties and independents united and

Michigan socialists meet at Saginaw July 24. Will unite and put a ticket. Pennsylvania socialists held their state convention last week, united, nominated a ticket and for legal reasons adopted the name of the Socialist

Down in Texas the socialists united last week under the Social Democratic party name and put up a state ticket. Connecticut S. L. P. and S. D. P. held united state convention, put up a ticket and amalgamated July 4.

Social Democrats of Indiana declared for Debs and Harriman and put up a state ticket on the Fourth.

The growing solidarity of the forces of labor expressed in the above items is about the best warrant for the expectation of "socialism in our time." Ther is no short cut. A struggle at the ballot box is the only method of attaining the desired object. For that struggle, united action is of the first importance and workingmen are seeing it.

The Republicans have no monopoly of rough riders in the selection of Roose velt. Have not the Democrats got Steu nenberg of Idaho and Tillman of South roughly over the working class at

Capitalism Decides the Fate of the Man Over Forty.

UNPROFITABLE AND USELESS.

Will the Latter Submit, or Decide to Stay on the Earth by Working for Socialism?

one that adds anything to the general stock of human knowledge, to ob- of an old age pension-for that leaves serve that there is one thing which the "problem" still there. every individual human being without exception is doing at the same time, tically in considering your fate in the viz. growing old. The only reason future, the "problem" is after all for of self-preservation, that some imports bidding of your masters is not very ant questions respecting both these probable. You wfil have to see as they subjects, and directly connected with do that "business is Business," and that to the working class.

for making profit for the other fellow, nihe, or would you like to stay and eee the Chronicle interrogates its readers the show a little longer? as to what shall be done with the man who has passed two score, and true to its capitalist nature, assuming that the present economic system is permanent, sarcastically inquires whether we shall

fair to conclude that the 'we' in this party and are using it to hide their at-case implies the capitainst the employ-tempts at disrupting the ranks of la-ing class, the same fellows to whom the man past forty vainly applies for work, and who, knowing that his profit-making power is impaired by age, and that if he lives he still must be fed, thus reducing their profits, propose that he

much concession to old and faithful servants.

But other corporations and firms are not so considerate. Instances are numerous and well known of wholesale discharges of old men. The employer is usually frank about it. He declares that he can get more and better work out of young men than from old men. He is in business to make money and not from philanthropic motives. Hence are provided with tickets. Mention it

He is in business to make money and not from philanthropic motives. Rence he purposes to get the most work for the least money whenever he can. That is the business view of it. He does not desire to mix charity with business.

A Chiagap phileappher of some reputation once declared, after profound reflection, that every man who reaches the age of 40 should be taken out and killed, but he kased his conclusion more upon the usclessness of such men. But upon the theory that at the age of two more "men become satisfied with the status quo and are consequently closs upon the chirici wheels of progress."

But whether the philosopher was right or wrong there is some reason to aluticipate that we may eventually have to adopt this programme. It would be crise to allow the veterans of 49 and over to starve to death and it is likely to be a heavy charge to feed them. The obvious expedient is put them out of the way as dogs are dispatched by the pound-keeper.

For business is business. The survival of the fittest means the fiftest up to

This sarcastically proposed remedy is, strange as it may seem to a superficial observer, thoroughly logical from the ount of view of such organs of captsign of the in-vitable bankruptey of that accurred system. dtie desires to maintain capitalism and capitalism robs the workingman of then at forty turns him adrift. The Republican robbers recognize this dif-ficulty, and make a pretended attempt to meet it by some vague talk of an old age pension, but that simply means, (if It has any meaning, taking into account expense of the expitation class, and "hoxiness is business," as the Chronicle remarks. The problem is not solved and the proposition for exphysication

GET OFF THE EARTH the initiative in averting their own destruction by overthrowing the system which presents this puzzle to their mas ers, is never even blated at. But the Socialist will see to it that this "prob-lem" is removed from the consideration of the capitalist by continually urging the removal of the causes which bring it into existence. They will relieve the Republicans and Democrats of trouble of solving it, by asphyxiation

paper is printed we would say: like all other men, grow old. past forty, you will be a "problem" for your masters, a candidate for possible sphyxiation or probable starvation It may not be a very original remark, both of which are perhaps more likely than that you will become the recipient

Although your mosters speak sarcas that this observation finds space in our yourselves to solve. When you undercolumns, is that as all are equally lia-ble to this law of nature, and all equal-means a struggle for existence. That bound by the same inexerable law you will quietly get off the earth at the the, economic system of the present, your particular business is to stay on are now receiving much attention, and the earth as long as you can even if may perhaps be of particular interest you have to kick the self-appointed arbiters of your destiny off it, in order to In the Chicago Chronicle of July 5th, remain on it yourselves. You can editorial entitled, "Shall We Aschyxiate Them?" appears. It deals sideration, only by joining with your physiate Theme" appears. It deals differation, oply by joining with your of forty, and for whom it states that system which throws your worn-out the commercial world has no possible body on the streets to starve, when of that body from July 4th 1899, the form. the commercial world has no possible body on the streets to starve, when use, while younger and more vigorous your masters can no longer extract the date of my election as secretary, up to consisting of the work the work of the world. As the man over thus upon how to dispose of you, they facty has practically the same physical in reality give you your choice between necessities of food, clothing and shelter, asphysiation or starvation on the one as his fellow men who have not yet at- hand and socialism on the other. Which tained that undesirable age, and as his will you have? As your masters say, forty years are coming to be regarded "it is the survival of the fittest." Are as a positive drawback to his capacity you fit? Are you going out at thirty-

We hope that every-reader of this pa per in the city of Chicago will take all possible means to let everyone know that the socialist movement in America has nothing in common with those wor peacefully submit to this process, and shippers of DeLeonism, bossism, disorwho the "we" are that are proposed as ganization, and confusion, who for the his executioners, the Chronicle does not last few days have been attempting to inform us. But as the owner of that talk to the workers of Chicago under paper is a banker (who by the bye en- the name of Socialist Labor party, They dorsed the Building Contractors in their have stolen this name after they had fight against the trades unions), it is been expelled from the ranks of the

Comes High, But We Must Have Him.

Arrangements are being made to a once send an organizer through the shall be deprived of his (to them) use- state of litinois and to keep him at work until after election. Subscription But let the Chronicle speak for itself: lists are being circulated for this pur-"Another great railway corporation has pronounced against old men—not such very old men, either, for the inhibition extends to men over 40. The man who has reached that aga may not be newly smployed in any canacity. The company will not, however, discharise to this effice, and the amount and name company will not, however, discharise him if he is already in its employ. Thus much concession to old and faithful mervants.

many cases to be driven by American college graduates, who applied for the industry. Perhaps the males will learn their drivers the art of kicking, kicking against a system which makes mute driver's tob an enviable object for cated at the expense of society.

party as it is already well-known.
Following this came the usual routine of state committee business, of which the most important part was the horse a news item for the press. tour of our traveling organizer, com-pare a news item for the press.

The convention was declared adrade Klenke, to three or four sections throughout the state. In every place Journet till 2:30 p. m. he was cordially received, and conducted splendid meetings and was 2:45 p. m. asked to make another visit at an early date. As a result of his tour he brought for the Workers' Call.

Following this came the propositions for unity of the two parties. (the S. L. P. and S. D. P.), the discussion of the question of unity, the conventions, the and the results, the vote on the qu tion of unity to be closed on July 10th; 1900), and the call of the Illinois State mittee for a joint convention, which has been heartily responded to.

for the recruiting of the ranks of socialism was never so ripe as at present. The industrial conditions have made ssible a field into which we should be prepared to send an organizer. Funds are needed for this purpose, and our best efforts, financially and otherwise, should be put forth to bring the principles of socialism before the working class of this state.

A party paper is the next and perhaps the most important weapon which we tions on the subject of trades unions, must use, and funds are also needed and pledge our hearty support to all for its support, as it reaches where efforts on the part of organized labor to even the organizer cannot.

These two things then, a traveling organizer and the party press, at present claim our attention most particularly. Let us support them strongly and the harvest of socialism will be great, their undivided efforts to the propa-Fraternally,

The way to hasten the good time that is coming, is to vote for it.

Everyone knows what Roosevelt would do in case of a strike.

It is all right to take a step at a time

if the step is just big enough. The workingman will starve while he

valus for free silver to benefit him.

Rich men who can get no relief from the doctors should try socialism for

Germans of Milwaukee "who amount to anything" favor expansion. Does not beer follow the flag?

John R. McLean gives \$25,090 to the Democratic campaign fund simply benuse he loves the common people

Perhaps capitalists figure that the poorer they can keep the workingmen the easier it is to buy them on election

A million votes for Debs and Harriman will scare the plutocrats a great deal more than the election of Bryan

McKinley claims that he has already ione for the workingman all of the things that Bryan promises to do for

A little hard work by those interested in socialism would put the party papers on a good business basis and boom the cause.

The man in the ditch who can figure

what interest he has in imperialism is so good on figures that he ought not to be in the ditch. 'Mr. Hearst tells you what a good

thing socialism is, but he does not ex-

plain how you are going to get it by voting for Bryan. Political bosses are again preparing taffy for the workingman. Experience teaches them that they cannot feed him

too much of it.

The Demograts were so busy agonising over the wrongs of the Boers and the Filipinos that they forgot to mention the bull pen.

Steel mills have been shut down sothat the workers will have time to con-sider that they should be thankful to work for any kind of wages.

The Democrats accidentally left civil service out of their platform, so there is one thing they will not have to vote for that they do not believe in.

The trusts have cut down the salaries of drummers and managers, on the theory that only those who do not work are entitled to more than a living.

The Kansas farmer would faint if he had to pay 35 a day for harvest help, yet some papers would have you think

Workers in the Chicago building trades have demonstrated that they are ganda of socialism and the organizing from the financial secretary all moneys good material of which to make socialand strengthening of the socialist move-beinging to the state organization and ment in this state.

Tom the financial secretary all moneys

from the financial e help place a socialist paper 'a the hands of each one?

CAPITALIST EDUCATION.

Colleges and Universities Supply the De-mand for Highly Trained Wage Workers.

in these columns to the fact that the University of Wisconsin was puting in a "Commercial Course" to fit aborers to be more effective slaves. We pointed out how this was made nesary by the fact that modern industry demanded a higher grade of skill on the part of its slaves than any provious mode of production and also that this need was growing greater every Now it is announced that the Northwestern University at Evanston and the University of Michigan at Ann Arbor similar courses are under con he Chicago Public Schools, published last week, advocates the establishment of a similar course in the Chicago

he article referred to was published in the Workers' Call. shows the rapidity with which the movement is going on. It is snother syidence of the fact that the whole evidence of the fact that the whole manner of life of the laboring class is determined for them by the railing cap-italist class. Now it is being decided that they shall have that form of edu-cation that will make them the most-valuable slaves, without the sightlest

"MIND" AND "MATTER.

The "followers" of a newly arisen intellectual luminary named Prentice Mulford, who seems to be one of those mystical cranks whose frequent appearance is a sure sign of the decadence of old society, are about to start a socalled "Auto" club in this city. Their leader, whose teachings are said to be a compound of Christian Science, Theosophy. Spiritualism and other erratio bourgeois ideas too numerous to mention, has succeeded in getting around him a neucleus of apparently, dissatisfied individuals whose indefinite longings have led them to accept the mystical teachings of this abstract philosopher, whose central doctrine appears to be the supremacy of mind over matter. This stale philosophy, which has for decades attracted the attention of every metaphysical rainbowchaser who, to use a well-known phrase, delighted in soaring into the indefinite and diving into the unfathomable," carries in this instance its own contradiction. Its disciples are to have a clubhouse The clubhouse which these disciples

headquarters, is not to be a mere "castle in the air." On the contrary, it is to be composed of solid material, hande in appearance, and replete with every material comfort that can be procured; or to quote the newspaper report, "the best and freshest materials that can be found in the market." Ho it ems that these intellectuals to whom mind" is everything, resort to "ma terlals" and the "market" as a basis for their propagation of the doctrine of the Immaterial. Matter, dead matter, meré matter, low, vulgar, brutal matter, always seems to get full recognition from those who employ themselves in belittling its importance. "Twas ever

THEORY AND PRACTICE. "

For consistency the Democratic party will have to be awarded the cake. The Tammany Ice trust and Millionaire Clark of Montana join to fight the trusts and plutocracy. The negroes are disfranchised in the South, that the Fillpino may be given a free government While standing on an anti-injunction platform they support Judge Hook of judge in Augusta declares it to be a of the referendum. The whole platform crime for the union printers of that city to boycott a "rat" sheet. While shedding tears over the woes of the poor blacks in the islands of the seas they endorse the Democracy of Mississippl that sells the unfortunates in its penal institutions to the railroad and mining companies to be owned as slaves. And at the head of their great anti-military movement rides "Col." Bryan, the organizer and leader of a military regiment. But the crown of the whole business is when the party of Gov. Steunenberg and the Idaho bull pen poses as the friend of union labor. Are union men suckers enough to bite at such a political hash that fails to even bide the book benes h tre

CAN MEET ALL QUESTIONS.

The socialist is really the only one today that is able to say a constructive word regarding the so-called "questio of the day." On the trust question, for example, while the Republicans are willing enough to see the trust go on for the present, they shiver when they for the present, they shiver when they against whom the accusation of bribe-think of the dilemma it is going to lead giving brought by his enemies, is dis-them into. The Democrats are thanking their stars that they are outside, where all they have to do is to "depelled to actually 100 anything. The penses of the cratorical fireworks which pies' Mars' are among the classics of will do much better than that. Not five mearest approach they can make to a will be exhibited during the next four socialism, and the Call now places them or six, but whatever number is neces-

muzzle on him, and then build a high fence around each separate state with good Demogratic office-holders at all ago, Ill., as mail the gates to examine all persons atcond class.

Call is published for and under section Chicago of the Socialist f Illinois, a corporation without he whole revenue of which must be seen to be a second or the control of the contro The socialist, on the contrary, sees in the trust the logical result of competition, a tremendous instrument for the creation of human necessities, and he does not wish to muzzle it but simply to harness it and change the direction of its benefits, by increasing the number of its owners from a few members of a privileged class to the whole body of producers.

SNAP SHOTS BY THE WAYSIDE.

Much indignation has been expressed over the conduct of some tugboat cap-tains and crews at the Hoboken disaser. The refusal of some of these to escue drowning people who could no pay for their services is denounced as brutal, cruel, barbarous, etc. The de nouncers forget that this is a profitmaking world, where men will not do 'business' unless they can make it pay. Is there such a vast difference between the captains of the New York tugboats. who are relatively poor men, and th capitalists who by virtue of the private wnership of the means of production shut down their factories and plants thus dooming those who depend upon access to them to sustain life, to possi ble death by starvation? Not so very much. The tugboat men realized that they lived in a capitalist society, and their actions simply harmonized with their surroundings.

The cable dispatches inform us that in spite of the war in South Africa, the terrible menace in China, and the dark and gloomy outlook for England that existing conditions present, British "so clety" takes great interest in athletic sports and games which are being conducted there. That in spite of the rors said to prevail in Pekin the said 'sticlety" has leisure enough to make the doings of our ex-American citizen W. W. Astor, an object of their distinguished consideration. All this may look strange to the unthinking. British "society," however, is but the expression of capitalism, and exists only through the exploitation and extension of the markets of the world, an operation which constantly gives them mor means and leisure to enjoy themselves as some others are astonished at the of the immaterial have chosen as their fact that a man is hungry when he has nothing to est.

> The Democrats in their "anti-expansion" plank invoke the "time-honored principles of democracy" as a reason against expansion. "time-honored" principles during the early fiftles, when the Democracy winked at the raids of Filibuste Walker against the Central American republics?

In like manner the Republicans in ceke the same "time-honored princi ples" of their party, in approval of the expansion policy, notwithstanding the fact that the party in its earlier days opposed any extension, of American territory. But after all, the materia interests of the dominant element in each party gave expression to its policy then, just as it does now.

So far as the "trust", planks in the platforms of both parties are concerned. in themselves they are equally reac-tionary. They both threaten to abolish imit, or regulate, the trusts, but they don't mean one word of it. That this is true is distinctly shown by the fact that both of them favor the competi tive system of which the trusts are a necessary and logical result.

Kansas City in enjoining the street car be morrate lits quasi endorsement of the principle workers while another Democratic lits quasi endorsement of the principle lits quasi endorsement was read by that modern excrescence of outhern chivalry, Een Tillman, whose services in disfranchising the colored workmen of the South, didn't prevent him from endorsing the principle of th referendum, without perceiving the abplute hostility of the two ideas.

> Another humorous and significant in Edent in this Kansas City hodge-podge was the admission of the Clark delegation from Montana. Clark was right there with the price-well, you can't keep a good man down. It is reported that he pledged two million dollars to the campaign fund. At first, as the press account says, this aspiring politician offered one million, which the Daly faction met with a bid of one million and a half. The undaunted Clark promptly raised them half a million better, and the "common peo ple," the "plain people" at once took the unseated senator to their bosom,

The conditions under which Clark broke into the convention should do much to convince the aforesaid "common people" that the senator from Montana is a much-abused man, a vic im of political hostility, a martyr who stands spotless before the world, and trance into the convent

green as to what they would do if they trust in countries to make the a months. It will also help to "bust the within the reach of everyone who make the material which their exploiters use to create by their labor their exploiters use to create by their labor their exploiters use to had the chance is to suggest that you, which the scratter houself is a chief. Be sure and take advantage of the slammed in the faces of the American maintain wage slavery and their even can'th the trust beast and put a license, beneficiary. The Democratic leaders "Book Offer."

tion that the "comp mon" idiots, and perhaps they are not far wrong either.

Hearst's Chicago American is not course the "workingman's" paper, and its appearance has created a rivalry amongst the established organs regarding the publication of labor news and nent. The Record and Daily News vie with each other morning and evenstinacy of the contractors in not co ing to a settlement with their lockedout workmen. For this "change of heart" the appearance of the Chicago American is largely responsible. leader who will take the trouble to look over files of both of the above papers dated two or three months back can easily note the change that has taken place in the nature of the editorial matter on the lockout. The proprietors are not going to be left by Hearst when taffy is to dealt out.

But the Chicago American, like every other mouth-piece of capitalist interests, is careful not to say too much Like all of its stripe it will "deplore" and "denounce" ad libitum. In one edi-150 contractors possess the power of bringing misery and want to 0,000 workingmen and their families, and strives to point out the path of duty to the 250 by telling them that hey "ought," they really "ought" to ome to some amicable arrangement with their men. But it is careful not to oint out to the 39,900 workmen that they have 30,000 votes, which if cast for ocialism, for the Co-operative Comnonwealth, in unison with those of other wageworkers, would forever renove from the 150 contractors power of inflicting distress upon them

The nomination of Bryan and Steven son, is however, a source of utmost gratification to the Chicago American, which in connection therewith furnishes the 30,000 workmen aforesaid with the leasant announcement that Perry Belnont has also expressed his delight and satisfaction over the Kansas City nominations and feels certain that the tick et will win. Belmont met his family at the Auditorium Hotel, says the Chicago American, and expressed his intention of spending the "season" at Newport.

Amongst the 20,000 locked out work nen in Chicago there are no doubt cany thousands who are also "satisfied with the ticket," but they will not spend the "season" at Newport or any other resort. They will spend it in vondering when the lockout against hem will be declared off, and hoping that it may pass away without destroy ing their organizations. And on elecion day they will vote for the perpetu ttion of the very system which parayzes the effectiveness of those organiations, which they consider their only tope. Verity, of all the wenderful projucts of American capitalism, the American fool workingman is most wonderful of all.

The 30,000 have still further cause for ejoicing in the selection of Sjevensor as vice-president. This fellow, of coal mines at Stevensonville, McLean ounty, Illinois, absolutely forbade his miners to form any labor organization whatever, and enforced his commands For this reason in accordance with the law of the eternal political folly of unon men, they should exuit over the sciection of Adlai Stevenson.

Stevenson has still further claims on heir "most noble voices" next Novemper, claims which are equally convinc ng as those of Roosevelt, patentee of he steel toothed policeman's club, who now, fresh from the rout of the Italan laborers at Croton dam, apostrophizes the "patriotic" element from the rear platform of a Pullman car on his political stumping tour. When Stevenson was running mate with Grover, he

The First District Congressional convention will be held at 2 o'clock. Sunday, July 15, at Eigenman's Hall, 9277 S. Chicage Avenue. Branches in the fist. Sird. 34th and 4th wards are requested to send 5 delegates each.

By order of Organization Committee.

The joint convention for the purpose of nominating candidates for the following offices were held Sunday, July at 4 p. m., and the following are the outbases.

ominees: ongressman(6th district)—Julius Bark. tember of the Board of Equalization (6th district)—J. A. Linder (shoe-

(6th district)—J.

State Representative (2d district)—E.

Jordy (machinist).

State Representative (23rd district)—
Jno. Vagt (cook).

Convention adjourned after piedging their candidates if elected to enforce the platform adopted at the state convention.

The Message of Socialism

(WRITTEN FOR THE WORKERS CALL)

From the desperate need of the hosts of toll, Hath arisen a mighty call—
And its heraids have echoed the wondrous sound,
And its fones have encircled the wide world cound: Bringing hope to the tellers in serfdom bound;-The wage slave and the thrall.

And this call hath been sped over land and sea . And millions hearken the word-And in mine and workshop and factory hell; In the hovels and huts where the tollers dwell. In the market where slaves their labor sell;— Its mighty tones are heard.

And this is its message, "Ye workers all On whose toil your masters thrive-Know ye not that if freedom ye would gain, " With your fellows in bondage ye must strain; Together to break the accursed chain;-In union ye must strive.

Know ye not that your jabor of hand and brain, Your plunderers have and hold-That the fields ye have sown your masters reap. That the houses ye builded your masters keep; That the wares ye made are ne'er so cheap;-As the labor power ye sold?

As the leaves of the ferest your numbers be. And your spoilers few be they-Ye have fettered yourselves with iron bands. Ye have placed the scourge in your masters' hands; Ye have striven to grant their full demands; -· By toll of night and day.

And what is your portion? A pittance bare, A pauper's shameful dole-The coarsest fare, the hardest bed; The meanest garb, the lowliest shed; The scorn of those ye have clothed and fed;-And a stunted mind and soul.

Yet the power ye have given your rulers proud, .Is yours to take again-And this is the task that ye cannot flee; The lesson of lessons that learned must be: For know ye that they who would be free, Themselves must break the chain?

Then how long will ye live the lives of slaves, And be mocked by the name of "free?"-Bearing the burden and heat of the day: Toiling in sorrow your lives away; The dupe of the cunning, the spoiler's prey-Whom they blind, that ye may not see.

How long will ye cringe and fawn and lie, For a beggar's paltry gains?-For your destined task ye have ample might, Ho! workingmen of all lands .Unite!-A world to win is the prize in sight-Ye have naught to lose but chains.'

And wherever this note rings loud and clear, The hearts of men are stirred-And they wake as with sound of a trumpet blast; Turning their eyes from the dull dead past: Straining the fetters which bind them fast-At the sound of that magic word.

And ever they struggle in Freedom's nar For the cause of Truth and Right-To stay the despotler's greedy hand; To gain for the toiler supreme command; Ever they send throughout the land-The Socialist call-Unite !

THE "OPEN DOOR" TREATY, leaders" occupy their present position

Bishop Thoburn Underestimates the Economic Knowledge of Our Capitalist Rulers.

A missionary bishop of the Methodist Episcopal church, named Thoburn, who talists quite as much as he does those traveled extensively through China, gives his opinion of the "open While the bishop, we will admit is perfeetly correct as to its value, he is simply fooling himself if he thinks that they the "leaders" mentioned are not quite capita as well informed as he is on the matter; serving

"At the present time," says Thoburn, "At the present time," says Thoburn, "our leaders are trusting altogether too much in Secretary Hay's much-vaunted agreement with European powers to maintain an open door in China. That agreement is worth nothing whatever.

But they also in addition to this agreement is worth nothing whatever. action of the latter in sending the regular treeps to Chicago in 1894 during the A. R. U. strike. Truly the workingmen should express their delight with the tickets of both old parties on the principle of ficking the boots of those that kick them.

CORRESPONDENCE.

The First District Congressional convention will be held at 2 o'clock. Sunday, July 15, at Eigenman's Hall, 3775 S. Chicage Avenue. Branches in the flat, 3271 34th and 4th wards are requested to send 5 delegates each.

If the hishop really thinks that "our leaders" are selying merely upon the intrinsic value of the treaty to make its ffects binding, he might disillusionize imself by perusing the naval program which is at present under construction in this country, and the preparations that are being made for further armanents in the future. He might learn from them that "our leaders" are not quite so insocently trustful as he supses, and that they are well aware of the worth of the treaty unless power adequate to enforce it, is at their com

By the bye, is it not curious to be sental basis of the religion of which he is a professed exponent runs directof leadership.

The bishop also is a trifle off in his

facts when he declares that such action would "create a profound impres-sion in Europe." He underrates the class instincts of the European capiof "our leaders," by putting forwaard any such supposition. There is not a so ignorant as to be surprised at this action. Being capitalists themselves know the necessity under which capitalism labors, of finding and pre serving new markets. Knowink well the value of a treaty unsupported by force, they do not credit the American

They know that lying, duplicity, and hypocrisy is an essential part of the system of present society, and that the apparent trustfulness of "our leaders" is merely a sort of bluff, not to deceive their rivals in the world's markets, fo that they well know is impossible, but in order that the gulls and foels upor whose votes their power is based, be not needlessly alarmed by a too abrupt departure from ideas and tradition which while suitable in the past, are no longer needed, but are rather an obstacle at present.

Bishop Thoburn need have no anxthe door open, by a simple trust in th wording of a treaty and an implicit faith in the frankness of their Christian competitors. The "sword is mightier than the pen in this case" and armored ships with twalve-inch cannon and rapid firing guns will not fall to put in an appearance if there is the least sign that the markets may be closed against them by Russia or any other power.

For the basis upon which capitalist sciety stands today is the market. That taken away, it's destruction is imminent. The goods which the milmust find an outlet. If not stagnation poverty-and revolution as an ultimate op may assure himself that "our leaders" recognize this, and will leave noth-ing undone to prevent it, while all that is necessary to risk is the skin of the wage slaves who stand ready not only to fight their masters' battles, but also

A STRIKING PARALLEL.

Socialist Movement in England Meets a Similar Problem as in the United

The following description of one phase of the socialist movement in England, from the pen of Comrade Quelch, present editor of Justice, will prove interesting reading for American ocialists, who cannot fall to see in the present disposition of socialist forces in his country a most remakable parallel for the existing situation in England. "A combination of socialist organiza-

tions is an entirely different matter to this of a combination between such organizations and other bodies which are ; not essentially socialist, and there should be no difficulty about effecting such an amalgamation. Two or three years ago," says Com. Quelch, "there appeared every prospect of an amalgamation of the S. D. F. and the I. L. P. being brought about. You in, America appear to be passing through pretty much the same experience as we have already had. When the I. L. P. was started, there was really no need for any other socialist drganization than the S. D. F., and the formation of the new party has really only had the effect of weakening rather than strengthening the movement. But those who formed it thought that the S. D. F. was too narrow, too doctrinaire, and too secturian, all of which charges I seem to have seen made at some time or another against the S. L. P. of America. Anyhow, they thought that a more latitudinarian party would achieve a greater success. a time the.I. L. P. was not a definitely socialist organization, but gradually it was forced into the definite socialist position much as your S. D. P. appears to have been. From time to time we of the S. D. F. were treated to overtures for an amalgamation, but as the I. I. P. was not the first rival organization which had been started to do the work much better than we could, and as these others had all gone under we were in no hurry to ally auracives with an organization which might have no greater vitality than they. tually, however, as the position of the I. L. P. became pronouncedly socialist, and as there was no reason for the existence of two organizations who were identical in objects, principles, methods and everything but name, we agreed to amalgamate. A vote of the whole of the members of the two bodies was taken, and the great majority of those voting declared in favor of amalgamation. Immediately thereupon. however, the National Council of the I. L. P. declined to carry out the explicit mandate of its members, and at the annual conference of the body a makeshift resolution in Tavor of "federation," which was just an empty phrase, was adopted. The whole business seems to me, from what I have read, not very different from what has taken place with the S. L. P. and the S. D. P. in America. Had the proposed amalgamation taken place there is no doubt that it would have immensely strengthened the socialist movement in this country, and thereby given whole working-class movement an impetus, for although the socialist party cannot legitimately lay claim to be the working-class movement, there is practically no movement of the class outside the socialist party. That devoutedly to be wished amalgamation of all the sucialist forces in this country is, however, indefinitely postponed, and we have instead a hybrid combination of the different sections of what is euphemistically called the "labor movement," which is certainly not likely to loor" treaty in the following extract. diplomat or financier in Europe who is do any harm, but which will almost as certainly not do any good."

THE OLD "DITCH DIGGER."

An Object of Capitalist "Sympathy" Who Will Yet Dig His Own Way Towards Freedom.

Rev. Ian Maclaren the novelist, much concerned about the fate of his aged brother craftsmen in the ministry. and asks in despair, "Shall we shoot the old minister?" The new "friend of labor," Hearst's Chicago American points out that the same question applies to the old "ditch digger," the laborer, who is no longer useful to the There's more of him," says capitalist. Hearst's paper, "and infinitely worse off even than the minister."

After some characteristic capitalist twaddle, the humane instincts of the Thicago American predominate, and it expresses a pious hope that "somebody will do something for the old clergyman who needs help.

Then the Maclarens and "others will vote some thought to the case of the old digger" Inst so.

Better hurry up that "somebody," Mr. Maclaren, and get the old clergyman's case attended to at once or y con't have time to do anything for the "old digger." It is an awful fact that the latter is even now "devoting some thought to his own case." . He is digging a ditch already and when he gets through he'll dig up capitalism by the roots and bury it in the ditch. That's the way he proposes to attend to his own case. If you want a reputation for philanthropy in this matter Mr. Maclaren, you'll have to get a hustle on

Recollect that whichever "Bill" you may send in next November, capitalism will do the collecting just the same Better repudiate them both by voting with the socialists.

The progress of the cities struggle means the disappearance of that cur-ious specimen who professes to be a "socialist to a certain extent."

The Chinese have evidently been trying to convert Fekin into a rival of

Hardly had the noise of the squibs,

cannon erackers and other explosives. by means of which the enlightened inhabitants of this city celebrate the day they calned their independence," died away, when, with the smell of the powder still in the atmosphere, a most significant comment upon the nature of the said "independence" was being given in the gigantic steel, mills of

However, it is sold there at prices high the latter organization as the official special guards, armed and employed enough to precipile the working class by the company, who warned the "sov- to get it to consume, ereign voters" that any attempt to re- So the workingment with builets.

of the imprisoned men to sue the company in the law courts for damages for

Leaving out of account the socialist workman who may live in the vicinity, it is probable that out of the crowd of ged and bestegers who partici pated in this incident, not one could perceive the glaring contradiction bethe following day.

or Roosevelt, Bryan or Stevenson. even any of the lesser lights of the old capitalist parities, were to present themselves in the locality for the purpose of booming their respective tickets, the idiots whose indignation against the 'outrages' of the company could only be prevented from be ings transformed into physical force by threats of shooting, would be found eagarly and enthusiastically listeniar to, and cheering for, the knaves whos only object is to perpetuate the sys-tem by which industrial slavery is made to appear the highest ideal of

Part the fact alone that socialists are even now to be found not only in the vicinity of the 'company's works, but actually in its employ, is itself a warrant that this condition of blindness and folly cannot remain permanent That an ever increasing number men will see at last the thorough absurdity of yearly voting that the same ditions shall continue. That the private ownership of those gigantic their class, by individuals is the source of the power by which they are enabled to outrage, humiliate, and even murder those whose applied labor how-er alone gives them their value, and that as the private ownership depends totally upon man-made laws, so by totally upon man-made has, so by have also made by men, they can be repealed, and expolanted by a system of collective owneyship, under which the word "independence," at present a sham and a morkery, shall become a flying reality, by sughing man the master of the things he has created instead of being enslaved by them. The working men in the steel mills have morely received again one of the

ssons which capitalism continually thunders in their ears. Until they lis ten, understand and act, the lesson will be repeated again and again with-out intermission. There is but one method by which freedom can be obtained-socialism. There is but one slavery to be removed-vanitalism.

WHAT IT SIGNIFIES,

South Chicago. In that industriaal Washington, in an interview recently closes as follows hell men were toiling and sweating be- gave it out as favorable to his country fore the huge furnaces wearing out that American goods could be bought must disappear. It is aiready couthelf life force in piling up dividends in a good many instances cheaper than by the fearful temperature and the catalogue of the work, had all of these learned personages have dropped dead almost in their tracks, while others, prostrated from the same cause, were being carried into the company in this regard, but each and all of these learned personages have dropped dead almost in their tracks, while others, prostrated from the same cause, were being carried into the company in this regard, but each and all of these learned personages have dropped dead almost in their tracks, while others, prostrated from the same cause, were being carried into the company in this regard, but each and all of these learned personages have dispute the signat of assault, the day when your deputies shall engage in the final battle, we have the assurance that the formidable movement which last year succeeded in blocking the progress of reaction will reappear more resistless than ever to break the las, resistance of the suffer-charged the highest prices for the fearly of frand, and to open they are the support of the suffer-charged the highest prices of the party of frand, and to open wild the superior wisdom of the classes of all lands have the choicest company had determined to without all of these learned personages have signat of assault, the day when your deputies shall engage in the final battle, we have the assurance that the isgnat of assault, the day when your deputies shall engage in the final battle, we have the assurance that the formidable movement which last year another of the workingman's friend." LOCAL NEWS AND NOTES.

Enthusiastic meetings are held by the 19th ward branch at the corner of 14th street and Oakley avenue, on Wednes-day evenings.

Comrade Stangland addressed a good audience last Sunday at North and Cal-Hortha avenues. Comrade Kienke speaks at the same place next Sunday.

All socialists fiving in Brighton Park and vicinity should attend the meet-ings held on Sundays at 3 o'clock at Archer and Western avenues. Comrade Loewenthal' is speaker for the next meeting.

streets, Sunday evenings, continues to that you have the effrontery to appeal grow in interest. A large crowd is always present. Questions are usually asked by the listeners and discussions of the different aspects of socialism fol-

A meeting will be held on Saturday, July 4th at 8 p. m., at Lexington Hall, 258 South Western avenue, for the pur-pose of organizing a socialist branch in the 12th ward. Good speakers will address the meeting and all working-men in the ward are invited to be pres-

Enthusastic out-coor meetings are reported from all directions. The party now holds eighteen street corner meetings each week, and the number is being increased. The cause is greatly in need of more speakers. Our speakers are mainly men who work at long hours are mainly men who work at long hours.

ili may have a chance. No monopoly on ruth and fresh air!

The comrades of the 33rd ward have renewed their open-air agitation in South Chicago. Last summer this branch held public socialist meetings at the corner of Commercial avenue and 23rd street every Saturday evenings, from the close of May till the middle of September. The same place and time have been chosen this year, and open air useelings will be continued till the cold evenings of the fall drive the listonial evenings of the fall drive the listonial special address at this corner, and last Saturday night Comrade Loewenthed gave an earnest address on the difference between the objects of the Socialist particularly and those of the Capitalist parties. At the close of the address, the audience and lor more than an hour asked questions performed Saunders will give the principal address, the audience and lor more than an hour asked questions performed Saunders will give the principal address, and all comrades are in vited to be present.

Shut-Down---Shut-Out.

Now it is the cotton mills that are butting down. The steel mills decided ast week that, 100,000 men and their Telephone Main 3701. families should cease to produce or to enjoy the fruits of production, and now the Massachusetts cotton mills have decided that they will give their 20,000 operatives a chance to take a rest. It is noted that this spring these same mills were working their employes, men, women and children, night and day because of the great 'prosperity." These laborers have been receiving from \$5.00 to \$8.50 a week on which to keep their families and tay up money for such enforced vacations:

What adds to the discomfigure of the operatives in the last few days is a ruling of Justice Rell of the superior court that defeats the efforts of the labor unions to compel the milis to employ women and children, only fifty-eight hours a week. He ruled that there is nothing in law to prevent milis from employing such women and children as many hours as desired.

Socialist Night on the Corner of State and Ouincy Streets.

MAGNIFICENT MASS MEETING.

Audience of 10,000 Proves "There Are Others" Besides Democrats and Republicans.

There are many self-opinionated political wiseacres whose wisdom will not permit them to see any "issues" in the political and economic life of this country which the Republican and Democratic parties are not competent to settle, and who dismiss as being outside "range of practical politics" the idea that there is room for a new political combatant in the arena, who instead of fusing, compromising or coquetting with the existing ones, is,able to maintain and spread its principles and organization, while occupying an attitude of determined hostility to everything for which they stand.

If any such doubting Thomas had happened to venture into the vicinity of State and Quincy streets on last Sunday evening any time between 3 and 11 p. m., he would have both seen and heard that which might possibly induce him to reconsider his opinion.

For at the intersection of the abovenamed streets a vast crowd were congregated listening attentively to a succession of speakers, workingmen in speech and appearance, who using a dry-goods box as a rostrum, spoke upon different aspects of the same subject, the material interests of the working class, and the inability of cap-Italist political parties of all stripes and brands to deal with the only subtect which concerns the workers, namely the restoration for their own use and enjoyment of the product of their labor, stolen from them by the system of capitalist production.

He would have heard the various "issues" under cover of which the Republican and Democratic parties hope to ride into office, discussed in their every form, their worthlessness and fraudulent nature exposed, and their utter lack of connection in any sense with things calculated to change or even improve the economic conditions of the working class, and if dissatisfied with the opinions expressed he had ventured to measure his intellectual powers in debate with the speakers, he would have speedily found out, that the commonplaces of capitalist politics were but a poor substitute where economic knowledge was required.

For it was socialist night on the corner of State and Quincy streets, and fully ten thousand persons heard the message which socialism bears for the working class, and their efforts to get within hearing of the speakers; and the attentive demeanor with which they listened, testified conclusively to the fact that there are other political factors to be reckoned with outside of the Republican and Democratic parties.

About 8 p. m. the chairman introduced to the audience the speaker of the evening, Job Harriman, the vicepresidential candidate of the Socialist party, who mounted the improvised pulpit, and for over an hour held the audience spellbound by his masterly lenso, has now gone into residence at gust nineteenth to sell tickets and oth-analysis of the profit system. The Hampton Court Palace, and Mrs. Dick the speaker as he traced the actual be remembered, picked off by a stray workings of that system by illustra- bullet during the slege of Ladysmith, tions from sources familiar to his hear-Taking the shoe industry as his man whose labor was only adequate to the production of one pair of shoes per day, he gradually introduced killed at the batttle of Colenso, has the machine or machines with which ing, pegging, soling, etc., were introduced in consecutive order,, and the effect of their introduction, both upon owner and operator explained in detail, and misery of the working class is directly due to the private ownwhich ownership the possessing class are enabled to appropriate to themnon-possessors, the modern working class. A powerful and eloquent appeal orkers to unite politically, make themselves masters of those means of production, for their econom concluded the address, and the speaker ceased amidst a hurricane

They wanted still more, and speaker followed speaker, a continuous meeting being held till nearly midnight, with ter the meeting had been adjourned little knots and groups of men were spread over the street discussing and debating the subjects whose exposition and it was exceedingly satisfactory to the socialist looker-on who stayed to contemplate the effect produced to hear some unknown workingman unconnected with the Socialist party.

would have been accounted wisdom by those outside the movement a year or

That there are other things being considered by workingmen outside of the dummy "issues" dished up by Republican and Democratic politicians will be demonstrated next November, not perhaps to the satisfaction of the latter, but sufficiently so to make them drop their periodical sham battle and stand squarely on the only real issue for them, the continuation of capitalist class rule. As to the final result of the struggle the socialist has no doubt. The growing intelligence of the working class which can be guaged by the success of socialist agitation meetings such as we have described, gives abundant promise of victory in the near

GO OUT OF BUSINESS.

The Genuine "Prohibition" Which Will Close the Doors of 2,000 Small Saloons.

According to the local press it would seem that in Chicago at least, the work of the Prohibitionists has been largely anticipated. There are other factors carrying on the "war against the sa-loon evil" which inside of a few months can accomplish more towards the closing of saloons than the Prohibitionists could effect in a hundred years. This is how it is done according to a daily

Nearly two thousand saloons, if this report is true, are about to go out of as a premium for a little work in ges-business, and it will be noticed that ting subscribers they are mostly in working class districts too. The increased price of beer in connection with an existence wage sentimental enemies of the liquor traf-fic have seen unable to effect after ploring. The "prosperity" which will freight yards and packing houses as a result of this deprivation will be much of the same nature as that which capitallsm always brings to their class Their economic masters will see to it that they keep sober by placing the temptation out of their reach financially. Capitalist "morality" so far as the working class is concerned, is summer up in the command: "Thou shalt not

"Thoughtfully Provided."

"The queen is very thoughtfully makwidows of officers who have fallen in the war. Oh yes, they are making provision .- Work-

Watch Out for Him.

Comrade Job Harriman will soon be making a tour of Illinois, and every subscriber to the Call should at one preparations can be made for a meet ing in his town. Then write to this ffice in time for full arrangements to

The Socialist party of Illinois stand for the unity of the working class at all unity of socialists of all parties; unity

RIPE FOR HARVEST IS FULLY QUALIFIED feeble attempt to hold-up our comrade to ridicule on account of his occupation,

This State.

The Best Efforts of All Comrades Needed Explanation Due the Tribune and Its As the Task Devolves Upon Themseives Alone.

Never before were there so many calls

county tickets must be gathered. This sues to the publication of this fact and is going to be a heavy task, especially as description of one of its candidates, as regards the county ticket. About who was nominated by the sarty for ten thousand names must be secured in the position of governor of this state. the next two months, and unless every comrade at once gets to work and state, that much which appears re-works continuously we will have no garding the candidate for governor on ticket on the ballot this fall.

Second. Money is needed for campaign purposes. Let every comrade decide what things he can possibly do paper:

The smaller saloons of the city are preparing to close their doors. The city officials estimate that one-third of the present total of 5,700 saloons will be closed between now and October 1. This will mean a loss in revenue to the city of over \$1,000,000.

The saloonkeepers assert that the rise in the price was raised to \$5 a harrel, and the small retailers can no longer figure sufficient profit on the beverage that is the principal part of their trade. They assert a loss of from 40 cents to 50 cents a barrel. These small saloons are in the factory districts of the city, the stock and freight yards, and the packing-house district. They sell principally by the measure, and their customers demand the same amount of beer that they have been accustomed to receive. If not satisfied they change their supply place: or, as one saloon, keeper explained, "go back to water or coffee."

Nearly two thousand saloons, if this without during the next few months

sell them. Better still, the Call affords you a chance to get them for nothing

Fourth. Right in this connection one of the most essential and most effective will bring about the results which the subscriptions to the party press. In the sentimental enemies of the liquor traf- state of Illinois the Workers' Call should be pushed on every hand. There years of hysterical denouncing and de- is not a subscriber that could not get several clubs of ten for three months at accrue to the workers in the factories, ten cents each between now and elec-

held in your locality are a success. If you live in Chicago be sure to be at the outdoor meeting of your branch and help to distribute literature and enourage the speaker. If you live outside Chicago write in at once and arrange for a meeting later in the year, when a speaker will be sent out. Com-rade Harriman will soon be in Illinois and a regular organizer will be sent throughout the state. Let us know at once if you want a speaker, as the ooner all places are known the easier

it will be to arrange a route.

Sixth. If you live in the city of Chicago do your best from now until August nineteenth to sell tickets and others' Call pionic to be held on that day If you live outside, try and come into the city to the picnic and meet the Chi-

cago comrades and have a good time. Finally, whatever you see to do, do it emember you are working for yourself and your class, and that no one else to make sacrifices of all kinds. ready to answer when called upon and never stop till the finish. There never was such an opportunity. It is for the workers to decide whether they will take advantage of it.

SAY! LOOK HERE!

And Don't Say You Have Not Seen This

There will be a special meeting of the Central Committee of Section Chicare at the headquarters, 65 N. Clark street, next Tuesday evening, for the purpose of acting upon the election of a National Campaign Committee, and arranging for the local campaign. This is a very important meeting and every delegate should be present.

Laborers need not worry about the ontributions they will make to the Democratic and Republican parties The bosses will do the collecting and agers, but it will be the laborers who will have created the wealth. The can do is to give as liberally as he can from what his boss allows him to retain, to get rid of the system that robe

Outlook for Socialist Agitation in Why Socialists Chose a Garbage Collector for Governor.

POINTERS ON HOW TO WORK IT THE PROPER MAN FOR THE JOB.

Readers for This Apparently Strange Action.

Socialism, generally speaking, is not for workers in the socialist field in the usually indebted to the capitalist press state of Illinois as at the present time. for correct information regarding the The work of the most successful con- ideas it represents and the individuals vention ever held has been followed up connected with it, but it appears that and preparations have been made to now and then exceptions to this rule carry on the work of agitation and or- may be noted. The Chicago Tribune ganization at every point. Here are a has just discovered that there is a So few of the most urgent calls for help: cialist movement in this city and ha cialist movement in this city and has First. The signatures to the state and devoted space in three consecutive is-

While it is almost unnecessary to the Socialist ticket is due to what the Tribune's news gatherer would doubt-the procession passed, for no more foul less consider his own keen sense of the and evil smelling freight could conhumorous, one central fact stands out celvably be loaded into the body of a interests. distinctly which all socialists will be ready to acknowledge the truth of, namely, the fact that the candidate for governor on the Socialist ticket is at present engaged in driving a garbage

For this additional and unsought testimony to the working class character of the socialist movement we are deep ly indebted to the Chicago Tribune, and didate for "gubernatorial honors," venture to hope that they will continue to publish this information. For such valuable services no socialist will grudge the ornamental details with which the cheap young man whose duty it is to supply the public with appetizing news, has seen fit to garnis his account of the occupation of our

Moreover let it be distinctly under stood that towards the aforesald scribe the Socialist party harbors no animos ity whatever, even though he has de parted widely from the truth in fur-nishing the accessories to a plain statement of fact. Every socialist recognizes that ability to lie is indispensable to the young man who wishes to suc ceed in capitalist journalism. That is what they pay for. He is not, paid much it is true, but then competition is keen, and when a cheaper and more presence of the new arrival gives the imployed one an incentive to put forth his best efforts, such as, we have often been informed, socialism could never supply.

The prototype of this species has ex isted for ages past, and has increased at a wonderful rate numerically during the last hundred years. If we are to believe Macaulay (a most respectable writer by the way), the breed existed and flourished exceedingly in ancient Rome. It is to this species he undoubtedly alludes in the well-known

But in this prosaic age the supply of "variets" considerably exceeds the de-mand, and the opportunity to "pimp to be desired situation, much more dignified and honorable of course than Between a hired jester and a hired

garbage collector, if there is anything in favor of the latter, although "puble opinion" doesn't yet judge that way However that may be, they both hold their positions by grace of a "boss," cheaper jester or driver can be found to do their work for hire, their fate is

The Socialist candidate for governor knows this, although the jester doesn' yet comprehend it. If he did, and was manly enough to say so, his present occupation would be gone and he migh be driving a garbage wagon himself-

This particular garbage collector is neither proud nor ashamed of his occuhe realizes that society is so constituted forced to do the disagreeable work of the world, while a few parasites who live by the robbery of his class, hire wage slaves somewhat meaner than the rest, to make cheap jokes at his ex-

He might, if any question arose as to his usefulness in society, make the point that he is engaged in work diegtly connected with the preservation cially useful or productive labor performed. But he is willing to whatever advantage this comparison But he is willing to waive

with his usual shortsightedness fails to see the sense of the appropriate which induced the socialists to nominate the driver of a garbage wagon for the posttion of governor. He even draws a ludicrous picture of the Socialist governor "shocking" Springfield "society" by driving his loaded garbage wagon from the purlieus of the state capitol. He does not suspect for a moment that papers the selection of the candidate in ques tion was determined by his ability t operate this celebrated vehicle, for if there is one spot on earth in need of a political scavenger it is Springfield, Ill For years an accumulation of capitalist garbage has been dumped in this spot, to no small extent by the efforts of the very journal which now derides the candidate whose first duty if successful would consist in its immediate removal. Springfield "society" would no doubt feel "shocked" to see a miscellaneous collection of boodlers, bribers, buyers of gas, water and electric light fran- them clear out of the game, chises, office hunters, spoilsmen and la bor skinners of all descriptions loaded on the socialist garbage wagon for conveyance to the dumping ground prepared for the wreckage and rubbish of

Springfield "society" would after a short period experience a grateful relief, though it may be admitted that it might be forced to hold its nose while evil smelling freight could con- ecnomic enemy and against your own garbage wagon.

The socialists have some knowledge of the eternal fitness of things, and pay pew rent and then wonder why the much which now puzzies their critics workingmen are drifting away from would become plain had the latter den the church. veloped the same faculty.

Having given as we think, a full and

true account of the reasons which induced the socialists to select this cannothing more remains except perhaps to express a hope that the Tribune will continue to advertise his candidacy as heretofore, and assure them that as re gards the wagen he "can use it in his

The Irrepressible Conflict.

John D. Rockefeller is at war with a labor union at Tarrytown. The Standard Oil king is having a \$190,900 stone stable built for his son, John D. Jr., on his estate at Pocantico Hills. Mr. Rockefeller insists upon the masons working ten hours a day for \$3. Contractors in Tarrytown have to pay their masons \$3.50 a day for eight hours' work. Mr. Rockefeller's income this year will exceed \$18,000,000, or \$1.500,000 a month. But he considers the demand of the Tarrytown labor union that he pay his masons \$3.50 for eight hours' work as grossly excessive.

"John D. is at war with labor" we are told. When was John D., or the have not furnish class to which he belongs, at peace with clailst literature. abor? He thinks that \$3.50 per day is "grossly excessive." So it is, from the standpoint of John D. There is no eason why he should not buy labor power as cheaply as possible, so long as its possessors allow a system to exist in which they must sell it. He wants ten hours work instead of eight. Well, why not? He as buyer has a "right" to dictate terms while he can enforce them. He is dealing with "free-men,"

There are many comparatively poo men petty capitalists who are loud in "Such variets pimp and jest for tre part of a great financial whale like among the lying Greeks,"

Rockefeller. Most of them are also sotheir denunciation of such acts on the divided into two parties that are excialist haters, and like Rockefeller, actly alike, is no reason why the so-would be millionaires if they could, cialist world should be, But they never take into consideration the fact that to make a millioniare possible, labor must be robbed. They borer, but give them the flaying knife and they would cut to the bone.

Which Is Worse?

Nashville, Ill., July 12.—Twenty-nine cars of bananas were dumped by the Lousiville and Nashville railroad into the muddy creek of Ashley today. The bananas were from the southern states and billed for Chicago. The freight amounted to \$190 a car. The entire bill being \$2,900, is paid by the shippers, who ordered the bananas dumped, it is said, so they might raise the price of the product in Chicago and other northern cities.—Chicago Tribune.

Here is an action which will no doubt draw indignant comment from tem, the existence of which is the di-rect cause of this destruction of the product of labor. The idea of "straining at a gnat and swallowing a camel is well emphasized in those who con demn such an action as this and vet justify the far-greater villatny which denies the workman the right to pro a profit accrues from his labor. The above incident is merely illustrative of anarchistic method of production based on private ownership of the things with which men produce.

NEW SCHEME TO SETTLE LOCKOUT.

The lockout in the Chicago building trades still drags on. During the las weeks almost every development been of a nature to increase the strength of the men. It now looks as if it would be but a short time until the strength of the entire Federation of Labor would be exercised in behalf of the locked out men. At the meeting of the national body in Denver a committee was appointed to visit Chi care and endeavor to secure a settle ment of the trouble. Should the contractors insist upon their present attitude there is no doubt but what the entire strength of the Federation will used to assist the locked out men. At the last meeting of the Chicago Fed. eration of Labor it was voted to give the men in the building trades who were locked out \$500.

In the mean time another set of mer have arrived with a patent solution of the whole trouble-an organization with the elaborate title of "Labor Contract and Guarantee Association of Chicago." So far as their plans have been given to the public they are about

In a general way the Labor Contract and Guarantee association proposes to insure the observance of agreements labor organizations. As a first step toward securing this end it is proposed to incorporate the organizations of both sides, the Labor Contract and Guaran ty association furnishing a bond to in demnify either party to an agreement should the other refuse to abide by its provisions. A system of arbitration is icluded, in the scheme, the workings of which are intended to obviate the essity for legal action on the bond.

It is hoped that the laborers of Chicago will not be caught in any such trap as this. The proposition to incor porate the unions is one that canno even be considered. So long as the capitalist class makes the laws the un dare not place itself in a position hich it would be, as a body, amen able to those laws. The very first time that it decided to quit work the employer would have no difficulty in se curing an injunction of dissolution of the union accompanied by confiscation of its assets as "damages to his busipart of a scheme to legalize the wagecontract and perpetuate the wage slavery of which it is a part, on a wholesale scale.

SLIPPERY "ISSUES."

It is rather rough on the Democrats the way their "issues" slip away from them. First the trust issue had to be was found to be too dead to bring out in public, so they fell back on the expansion plank. The Republicans at once declared that this was just the thing to talk about and so they agreed to disagree on this very important question. But here is where the Republicans played a very dirty trick or them. They never told their Demo cratic friends that the China matter was coming up. But here it is and must be settled. There is something about it that spoils the whole Demo cratic plan.

This is the trouble. It is so important a question to the whole-capitalist party that it will not do to have any division. It may be necessary to raise a large army in order that the exploiters of this country may be sure to get their share of the spoils. So all the forces must be put in line to work up patriotism. The result is that the Democratic as well as the Republican papers are howling about "revenge on China." howling about "revenge on China." They who would be free, themselves Both of them are demanding that "our must strike the blow," and now is the interests" be protected. This puts our time to strike

Democratic friends in hard lines. It is SNAP SHOTS BY THE WAYSIDE. THE WORKERS' CALL. China and still declare that going into the Philippines was a mistake. That is the trouble with the Democratic party. The Republicans had first pick of the ssues and even then they did not play

> To put the thing squarely, this is simply another proof of the fact that both old parties are simply creatures of the capitalist class and must respond when actually called upon by that class to take any action. The Socialist party is the only party that dares to take a continuous and consistent stand in favor of the workers and against capital. ism.

THE SHAM FIGHT

The Haverhill Social Democrat in its last ssue points out a fact which should appear most significant to every ties as "friends of labor" has been slightly joited by the increasing activity of socialist propaganda throughout the country. It seems that a socity which fulfills the function of a local "Tammany Hall," has just sent letsupport to Bryan and Stevenson on their nomination at Kansas City. This in declaring their adherence to the "time-honored principles of Democracy" when on their native heath. Not only have they left them in abeyance, so far as Haverhill is concerned, but have actually joined with their alleged enemies, the Republican party. The rea son for this movement can be easily een. There is a new "Richmond in the field" in the shape of a strong aggressive and determined socialist party and its presence has caused this alliance between these ancient enemies Wherever the political expression of socialism gains sufficient strength to become a menace to the chances of light the truths which its, principles to be perceived that the capitalist ponunciate, clearer and stronger by far than any verbal explanation could accomplish. The fact of this alliance proves up to the hilt the existence of that "class struggle" which socialists to assist the working class in their onstantly postulate, and the logical deduction therefrom that there are in reality but two political parties in existence, capitalist and proletarian.

WHERE SOCIALISTS STAND.

Resolution Passed at Joint Convention of Socialist Party on July 4th, 1900.

Whereas, The building trades of hicago are at present locked out by the contractors, who are endeavoring in this way to destroy the possibility of united action on the part of the workers; therefore, be it

Don't Watch Out.

It looks as if the "horror" reported lee for a few days during this warm eather if it is to be preserved for future use. Our fake newspapers which have been giving to a gullible public ictures of the alleged catastrophe (drawn by "our special artist on the spot"), have been perhaps a trifle prenature in their anxiety to procure scoops" on this matter, but nevertheess they will not lack for manufactured sensations until after November when the fool workingmen have been windled into casting their votes for McKinley or Bryan. Craft will always be able to levy tribute on folly.

But whether this premature "thrill of horror" be justified or not, the "operations" of the "civilized nations" must continue. Outside of the apparently political reasons for this, others which are purely economic are beginning to dribble through on the European cables. The operations against China are in reality a struggle for markets in which to dispose of the surplus products created by the laborers of "civilized" nations. From England and Germany already come reports of facories and mills closing down owing to the stoppage of orders from China. Thrill' or no thrill the markets must e forced-or capitalism perishes.

One of the most difficult things to get the masses to understand and even the actions of all the people in the past subject. tend to make history. Even the role of the reactionary plays as important a part in this sense as the most active propagandist of progressive ideas. The capitalist class, for instance, see an endless exploitation of the world market for which they struggle, utterly detations and the inevitable collapse of They proceed with the conflict hoping to attain this limitless commercial par-adise in spite of the fact that even the momentary stoppage of exploitation brings the inevitable end into full view The attempts which they make for the preservation of their class rule are in the ultimate as much a factor in the development of socialism as the efforts of its advocates.

The lessons of the lockout in the Chicago building trades will not be lost, the sacrifices that have been already made being too great not to leave a profitable experience behind them. One fact is now slowly but surely penetrating the brains of the men who have done and suffered so much in the cause of economic solidarity. It is beginning litical beeler in labor's ranks must go There is no excuse for retaining them in their position. They have been weighed in the balance and found wanting, particularly in their ability conomic struggles. Not only so, but they have been found to be the one source of weakness which destroys the possibility of union amongst the workout!

The cigarmakers' lockout in New York still continues, and the International union and A. F. of L. are coming nobly to the front, the former with \$30,000, the latter with \$15,000 for the relief of the men who are now on the starvation line. Although these sums are pitiably insufficient to secure certain victory, yet the spirit which prompts their appropriation is a most hopeful sign and should not be discouraged by any claiming to be a sorialist. The mainstay of these struggles is the solidarity of labor, and just to the degree that it is developed, to that degree are the workers enabled to continue the conflict. Men learn by experience, and every demonstration of circulation of party papers. Next to the insufficiency of the purely economic into bolder relief.

It is announced that the Board of School Trustees for Chicago have determined to cut down the wages of the teachers. The salaries of the alder men however have increased consider ably during the last year or so. In the columns of the Workers' Call this possibility was frequently brought to the attention of our readers, notably in an article making a strong distinction be tween productive and non-productive laborers, and also in our Educations number, issued a few weeks ago. Perhaps as a result of this there may be less energy displayed on the part of the eachers in preparing their pupils to ompete in the prize essay on "Patriotism." for which a gold medal is year ly given by the scab Daily News. It may also start them seriously thinking as to what class they really belong to in present society.

William Jennings Bryan has, through the columns of the Chicago American announced himself as opposed to imwhich he defines as "gov ernment without the consent of the Just at present a political ampaign is being carried on in North Carolina, and thousands of armed men in red shirts are traveling over tha state declaring that the negro shall not vote. In the Philippines also, thousands of armed men in blue shirts are traveling over the land declaring that the natives shall have no voice in the government. Let's have your opinion on this, William J. Please tell us why you condemn the one, and by your silence approve the other. Is it a difference in the color of shirts or of ographical location? Do these red

shirts, like charity, "cover a multitude the Democratic ticket?

In the same organ of the 22nd inst. William J. also writes in favor of electing U. S. senators by "popular vote." And yet in North Carolina, as aforesaid, the "popular vote" of a large percentage of the inhabitants is to be suppressed by the shotgun. Bryan has spoken also on the Chinese question and declares that while Americans must be protected we must deal justly with the Chinese, but he is silent on the question of either protection or justice or millions of American citizens whos skins happen to be black and who al most to a man are a portion of the "common people," whose particular champion William Jennings Bryan professes to be.

The business of electing senators by popular vote is a rather delicate subject for Bryan to manipulate just now specially coming so soon after the re cent exposure of bribery and corruption in the case of Senator Clark of Mon-The connection of this highminded statesman with the Bryan campaign is rather too recent to be for gotten by the reading public. Was not the delegation bearing Clark's brand seated at the Kansas convention which nominated Bryan? And was there not charges which have not yet been refuted that Clark's bribery barrrel was also called into requisition to seat the "delegation?" Ask that other clique of jobbers, known as the "Daly gang. to make some thinkers realize is that all for information as to that part of the

Wasn't it also Clark's "delegation" that rushed from the Kansas City convention to Lincoln, Nebraska, to carry the news of his nomination to William J.? The latter should drop this question of electing senators at once. It is nying the socialist analysis of its limi- positively indelicate and smacks too much of the discourtesy of "looking a capitalism in consequence thereof, gift horse in the mouth," while the Clark episode is of such recent date Most of the questions which Bryan has taken up as "issues" of some import ance, have suddenly become too hot to hold in face of the facts that are now appearing. He should go back to th old formula of "smashing the trust." It is a harmless pastime and will gul quite as many voters as any other old "issue."

> Even on that subject the revelations made by the exposure of the Tammany Ice Trust might still lead to unplease ant questioning. What's the matter with throwing all these things overboard and going to the voter with the straight query of the local office-holding politician, "Are ye wid us?" That question as an "issue" would be almost invincible and would besides contain in itself the compulsory virtue of honesty.

The Cigarmakers' Strike.

The action of the executive council of the American Federation of Labor in placing an assessment on its mem-bers to aid the locked out rigarmakers in New York calls attention to a struggle that involves 6,000 cigarmakers, and ers. They must go. Turn the rascals the tactics adopted by the cigar trust to win the battle.

February last the employes of Kerbs Werthelm & Schiffer, all non-union men, went on strike. The cigarmakers employed by nine other manufacturers nostly non-union men, came to their assistance by contributing large sums of money. Kerbs, Wertheim & Schiffer objected to this, and the nine members of the trust in order to shut off th contributions put the men on only-half The contributions continued, however, and after a further appear from the firm whose employes were on strike the other nine members of the

trust closed their doors April 14. The fight has been a warm one, and during the three months the lockout has been in force the Cigarmakers' International Union has expended \$70, 000 in relief. While only a small centage of the locked out men were nembers of the union the organization took up their cause and placed all of them on the relief list.-Inter Ocean.

All socialists are especially interested in this strike, and should wheneve called upon give with special liberality to the assistance of the locked out men because this is the strike where the men were given such a dastardly blov in the back by the DeLeonite scal

Speakers for Labor Day. There are several speakers in Chi

ago who can be secured for Labor Day addresses on condition that their ex penses are paid. Some of them are aleady engaged for different towns throughout the state, and engagements for the others should be made at once This is an opportunity that should no be allowed to slip. You can be sur that the Democratic and Republican ampaign managers will see to it that their stool pigeons are on hand to stee the laborers into continuous slavery. Why do not the socialists see to it that the cause of labor is presented on la bor's holiday? And while you are mak ing your other arrangements, do no torget that the Workers' Call will have special Labor Day issue that should be in the hands of every laborer in this country, and every socialist should arrange to have several hundred copie to sell and distribute wherever there

Are you the only socialist in you town? It is your own fault if there are not more soon. Write us and we tell you how to do it.

about a beer bottler's spree, a waiter's firtation, etc., three columns; several standing columns, including some manular property owner's yawp about the extentionate charges of the Asphair Paving Co. (has been in several weeks), some reasons why amion labor is more column than some other kinds-two or three columns that seem to stick in the form: Funny bits, short stories, etc., copied from the daily press, all the way rom six to ten columns, according to lack of other copy; and the rest of the paper-well the rest is a mixture into when he will look more closely.

The paper will look more closely.

"There is not much difference to the worker whether he is crucified on a cross of gold or burned at a stake of the paper also printed several arricles from the socialist press, without however giving credit, and in short sow worked upon the feelings of some one that Welch, who was the business manager was GIVEN A PLACE ON THE REPUBLICAN STATE COMMITTEE; And this week, under date of June 28th, the ciliorial end of the paper, as given and the proper and the prope Clark!—AGAINST company stores in Montana, and in FAVOR of the man who runs company stores in Arizona, (as the writer knows). Further, a three-column display ad. of what the A. F. of L. has to offer in the way of votes, though anyone with a grain of sense knows that in the present ignorance of the A. F. of L. members, the vast bulk of them will just divide their vote against themselves, and in no ways help even the matters the A. F. of L. "favora," none of which would even temporarily give the working class any relief. And the rest of that page was taken up with photographs of the leading local lights of the Democratic party. Head chief amonk them all, the largest photo of the lot, F. P. Walsh. And who is Walsh? An attorney for the Metropolitan Street railway, which has just finished the job of wiping up the ground with the remnants of the Street Railway union; a man who it is not unlikely had much to do with the strike going off half cocked, with about 300 men out of 1,400 going out. This is the friend of labor the Midland Mechanic trumpets on its first page! And in passing, it might be remarked that Frank Walsh has for its first page! And in passing, it might be remarked that Frank Walsh has for a parther one Rozelle, who was former-ly labor commissioner in this state, and iy iabor commissioner in this state, and who gained not a little notoriety by showing how the Metropolitan was evading payment of license and taxes. This is a fine piece of consistency for a paper which has been complaining of the neglect (?) of the downlant Dem-

of the neglect (?) of the dominant Dem-ocratic party in this state, to flaunt the good intentions of the Democratic party in Montana, several thousand miles away. Its opinion of the Demo-pop party of Idaho might be very interest-

of in Montana, several thousand miles away. Its opinion of the Demo-porporparty of Idaho might be very interesting.

Its opinion of the Demo-porporparty of Idaho might be very interesting.

Another incident of the week which is closely connected with this turn of the Midland Mechanic was the reception accorded the princely brigand, Clark of Montana himself, by a pair of local "leaders," who went to the station for him with a carriage, and rode up to the city with him with the band he brought trudging on ahead over the dirty streets. A fine sight! Illustrating very forcibly the unity of interests of "Captial" and "Labor," though the latter needs a qualification. And the question is, "What did Flaherty and Duncan make out of their bold hid for the lavish favor of the Mountain Prince? Were they rewarded only when he said, "Everybody come and drink with Senator Clark?"

-Kansas City, Mo., July 7.

Iowa for Unity.

Lowa for Unity.

Ever since the "split" of more than a year ago in the S. L. P., a division of opinion was known to exist among the socialists of Iowa, as to the proper course for us to pursue and as to which organization we should affiliate with. Some favored supporting the old National Executive committee, while others were for endorsing the new N. E. C. A compromise was effected by mutually agreeing to pay "tribute" to the old committee until further developments should give us clearer vision. With the convening of the State Convention at Davenport, on June 20th, 1909, the supporters of the "New Movement" thought that the opportune time had arrived for definite action, and with that in view, presented to the convention a "resolution," asking that a referendum vote be taken as to whether we would continue with the "old" movement or endorse the "new."

The resolution was lost by a very small majority vote. The supporters of the new movement expressed their fillinois this election disapproval of the action of the condition of t

process of an elaborate general vote, the clearly expressed will of the national conventions at Rochester and Indianapolis has been realized, the work of the Unity Conference of New York has been ratified, the old Social ist Labor party and the old Social Democratic party have merged into a new, a united, a strong and courage ous Social Democratic party, ready to do unceasing battle for the freedom of

On Friday, July 13, the National Executive Committee of the S. L. P. having been notified of the affirmative re sult of the vote on the unity proposi-tions taken by both parties, held its final session and formally surrendered its powers to the newly elected N. E. C. of the united party. In doing so the retiring body sent out the following:

ADDRESS.

"To the Members of the Socialist Labor Party:

"Compades:-Your National Executive Committee entered into and held its office amidst internal dissension and strife in the Socialist movement of this country, and you have made it the chief duty of your Committee to aid every effort directed towards putting an end to this condition. Derision and curses were heard on every side; doubt and even despair were prevalent in your midst; but you turned neither to the left nor to the right, having before you one object only-unity of the socialist forces. To this suprem object you have subordinated all partizan interests and all personal sentiments. Now your will is shaped into

"Obedient to the mandates of the general vote, the National Executive Committee of the Socialist Labor party surrenders its office to the Provisional National Executive Committee of the Social Democratic party. The Socialist Labor party thereby merges its existence in that of the united party. It is done. This act puts a period to all discussion of the question.

"The united Social Democratic party now represents all that the Socialist Labor party has represented hereto-fore—the principles of revolutionary, class-conscious socialism and th cause of the proletariat. To the united party we must give our undivided sup-Let every socialist do his duty. National Executive Committee, S. L. P. Henry Slobodin, National Secretary."

The result of the general vote in the S. D. P. was reported by Comrade Butscher, as follows:

Question I-Yes, 1,094; no, 13. Question II-Yes, 1,074; no, 4. Question III-Yes, 485; no, 540. Question IV—Yes, 941; no. 78. Question V—Yes, 949; no. 25. Question VIII-S. D. P., 949; U. S., 81. Question VIII-Yes, 986; no, 36. Question VIII-Yes, 1012; no, 25. Question X-Yes, 840; no, 195. Question XI-Yes, 1,002; no, 39. Question XII-Yes, 987; no. 43. Question XIII-Yes, 1,076; no. 7. Question XIV-Yes, 916; no. 124. Question XV-Yes, 877; no. 149. Question XVI-Yes, 1032; no, 9, Question XVII-Yes, 971; no. 72. Question XVIII-Yes, 1,025; no. 14. Question XIX-Yes, 977; no, 36.

Question IX (candidates for Provis ional N. E. C.)-Chase, 920; Jones, 697 Butscher, 914; Guyer, 35; Lonergan, 814; Haile, 136; McCartney, 176; Gordon, 330; Phillips, 601; Sweetland, 126.

The result of the S. L. P. was an-nounced as given in the People last

NEW COMMITTEE ORGANIZED. tive Committee of the United Social Democratic party held its first meeting at Springfield, Mass., in the headquarters of the local branch, on Saturday evening and Sunday, July 14 and 15.

Comrade Butscher called the meeting to order. Chase was chosen temporary chairman, Slobodin, secretary, and Jones Treasurer. The full report of the general vote was then read, showing all propositions of the Unity Conference carried by concurrent vote except proposition III, which was ac cepted by the S. L. P., but defeated by S. D. P. The following are de clared elected as members of the Provisional N. E. C.: Wm. P. Lonergan, Wm. E. White, John C. Chase, S. M. Jones, Charles Fenner, Morris Kaplan, Morris Hillquit, Henry Slobodin, Wm. her, and I. Phillips. All members had been duly notified and eight were present; absent were Kaplan, excused, and Lonergan, without excuse.

An order of business was adopted for the first meeting and -Comrades Slobodin, Hillquit; and Butscher were chosen to draft standing rules and or

Next in order was election national secretary. White nominated Jones of Massachusetts, and Fenner nominated Slobodin, but both declined. The salary was fixed at \$20 a week, the secre tary's whole time to be devoted to his ets as vigorously as possible.

DIPLOMACY AND PROFIT.

The Rush for Markets in China Is Now Disguised Under Cover of a Call for Revenge.

The capitalist game of "diplomacy" s temporarily suspended-in China. The hyena-like policy of lying and smiling pleasantly in order to take advantage of the unsuspecting and ignorant, has there reached its limit for the

time being. And now the capitalist press takes up the running; that press which cham-pions the interests of the worthy Christian dividend-drawers and profit mongers, opens its throat with barbaric cries for blood and revenge

By insisting that war shall be declared at once it scents profit not only for the class whose interests it cham pions, but the hope of selling "extras" small part in this howl for slaughter.

China has for years been a back num ber, but rich in all natural resource and of unbounded fertility, she has for years been looked upon as the natural prey of the capitalist vultures, who have continually humiliated, tormented and robbed her, for the most part, un der cover of hypocritical "diplomacy" -and at last they have succeeded in goading the great sleepy nation into open revolt-and now that "diplomacy" as accomplished its purpose, it is rele gated to the background, while the robbers, delighted at the pretext furnished them, prepare to finish by physical force, the partition of the vast provinces of China. Now that "diplomacy has been laid aside they plainly say: The only interests we have in China re commercial ones'

The "Boxers," an army of "patriotic" Chinese, have attacked the legations where the foreign diplomats spun their deceitful webs, and the missionary stations, those skirmish outposts of the forces of capitalism, and have exterm inated the inmates by fire and sword

And Kaiser Wilhelm, the alty of God. eads the chorus, "I will take revenge, China must suffer." This ruler by divine right, mindful of the coup which was enabled to make a few years ago when in revenge for the slaughter of two "traveling salesmen of faith" he was enabled to appropriate many hun areds of square miles of prolific coal caring deposits hitherto unworked, again anticipating a further seizure, cheers on the yelping pack of hungry hounds, who re-echo in the name civilization, law and order, the cry for that extension of markets without which capitalist rule disappears from the fact of the earth.

New markets! New markets! They must be forthcoming even if it is necessary to drench the world blood and cover its surface with human carcases. New markets to temporarily stifle the cries of the exploited million of wage workers of "civilization" whose conomic conditions become every day more intolerable. "New markets in which to sell the two thousand million dollars worth of wealth which slaves have created and cannot consume," cry the lying mouthpleces of American capitalism, and the press is set to work. Rumors, lies, exaggerated stories, falsehoods manufactured out of the whole cloth, are sown broadcast over the country. Literary prostitutes hired quill drivers, back writers and ly ing fable mongers of all brands drive a flourishing trade, and even the church is pressed into service, and from the pulpits of the country, the followers of the Prince of Peace reiterate, "although it may cost 100,000 lives and rivers of blood may flow, China must be Christianized.'

This is a commercial age. The only things to be desired are rent, interest and profit. Nothing else is worthy of consideration, The preparations for rapine, slaughter and bloodshed will than the receipts, and President Powell bring handsome profit to many worthy citizens, and when the cannons, ma chine guns and Krag-Jorgensens begin to crack and roar, prosperity will be in The Socialist Annual Picnic. full swing. There will be much profit

FOREIGN NEWS.

Glimpses of the World-wide Struggle of the Proletarian Army for Its Liberty.

AUSTRIA

Advanced journalism is beset with many difficulties in Austria, At Vienna the "Arbeiter Zeitung" generally manages to say all it wants to say, but in the provinces the censor is very severe. The "Freiheit" of Teplitz, in Bo hemia, now regularly has passages suppressed and the word confiscated serted where the article ought to be It gives a strange appearance to the paper, but in spite of all this, socialism in Bohemia is growing rapidly.

BELGIUM.

The campaign in favor of universal suffrage has been opened by an en-thusiastic and well-attended public meeting in Brussels.

DENMARK

-In Denmark with less than two and one-half million inhabitants, there are now fourteen socialist daily papers, all of them owned and published by the socialist organizations. The most important of these papers is the Copenhagen "Social-Demokraten," with a cir-culation larger than that of any other Scandinavian paper, 41,000 at present.

GERMANY.

"Vorwaerts" publishes statistics relating to the socialist press in Germany. There are 48 daily papers, ten which appear three times a week, seven which appear twice a week, nine which appear weekly, three which appear monthly There are also two comic papers appearing every fornight, and one review the New Time (Neue Zeit), which ap pears weekly.

LOCAL NEWS AND NOTES.

Meetings were began Monday evening by the 26th ward branch, at Belmont and Lincoin avenues. Comrate Knox, the speaker of the evening, made a stirring address. Meetings will be held at this corner each Monday evening during the campaign.

At a second meeting of the 21st ward branch three new members were admitted. All persons living in the 21st ward, who are interested in socialism, are invited to attend the meeting of the 21st ward club at 302 Blackhawk street. Readers of the Workers' Call please take navies. clease take notice.

Courage Thes. J. Morgan will speak on Wednesday, August 1st, at 8 p. m., on the corner of Oakley avenue and 24th street. He is open to discuss-from the standpoint of a socialist, any question of political or economic importants in relation to the working class, which may be brought forward by any political opponent. Everybody invited.

And Majesty, they recognized only a tannic Majesty the tannic Majesty they recognized only a tannic Majesty they recognized only a tannic Majesty the tannic Majesty the tannic Majesty the

A CHARGE EXAMINED.

An Essay on the Omnivotence of Govern ment From the Standpoint of a Socialist.

A man who advocates unpopular doc rines soon finds out that the favorite nethod of attack upon him is by misrepresentation. He must get accustomed to this and not let it worry him. The socialist is charged with believing in the omnipotence of government, that is, the power of government to cure all Let us examine this. Although charge is untrue, yet along with the er-ror there is a grain of truth in it. The socialist certainly does claim

that man's power over nature has now reached such a point and that socialized industry has reached such a stage of organization and productive capacity that they are easily able to supply very individual with the physical omforts of life. Have you ever found capitalist who disputed this, and who laimed that the various productive inlustries of the United States even if kept running steadily all the time at their full capacity would be unable to manufacture food and clothing enough for all? Well, the socialist therefore ays that poverty and want and the fear of want in the future are not necessary evils; that it is possible to abolish them; that they exist now because the owners of the social tools of production rather than give up their private ownership. Therefore the socialist says the government can and must convert the private ownership of social tools into public ownership. If this is belief in the omnipotence of government then we believe in it. But how can this be called govern

ment omnipotence? Because men cal that omnipotent which controls their physical existence, which has power over life and death. Men now reverence only one ged-private property they fear only one devil-poverty. The rights of property are more importanthan human life. Remove the cause of this reverence and of this fear by nationalizing the social tools of produc tion and you have performed an act of the capitalist thinks would be for others a heaven on earth, a condition where a man could get three squar meals every day in the year, and i would not be in the power of anyon to "starve him out." For the capitalist progress would stop; the maximum be sical existence, nothing beyond that day.

earth. To abolish the god of property and the devil of poverty would not be an act of omnipotence, any more that it was to abolish many other gods and devils that existed in times past. For d'Alene miners and reviewed the story the socialist, property has no rights at all as against human life. His god is not property, but humanity. For him physical existence is not the maximum but the minimum. It is the least that point; only after that point is reached loes human life become worth living Progress does not stop here. It is only from this point on that real human progress, intellectual and spiritual pro gress, becomes possible

The capitalist never hesitates to use the unlimited powers of organized so-ciety down to the blood of the last man for the protection of property. There is nothing omnipotent about that; it is matter of course, perfectly natural and regular. But for the government to use property for the protection, maintenance and improvement of human life, that is encroaching on the domains of the Almighty; it is unpatural and artificial; it is rainbowchasing; it is to suppose that the gov-ernment is omnipotent. In short, it is socialistic.

REMEMBER THE BULL PEN, and remember that the "permit system" is still in force in Idaho by virtue of a Democratic governor who declares that he is still proud of his work.

The Socialist party has no sympathy shorter the time you contribute to the capitalist campaign fund forcibly. with those who are trying to wreck un-

LOVE FOR IRELAND.

Spailpin "Discusses Irish Patriotism in the Columns of the Dublin "Work-ers" Republic."

Last week we witnessed in Dublin the first political parade of the coming gen-

eration. Between twenty-five and thirty thou-

And that in the person of her Brit-

The Seventh Congressional convention and the Senatorial and Representative conventions were held on Saturday, July 21, at 8 p. m. The following nominees were made:

For Congress, Seventh Congressional District—J. W. Barteis.

For Member of, Board of Equalization —F. T. Overberg.

For State Senator, Sixth District—Chas. Sunbiom.

For Representative, Sixth District—Oscar Presto.

For Representative, Eleventh District—L. Gisen.

The Campaign Committee—P. Christainsen, M. Hitch, L. Schur, A. W. Lindgren, C. A. Moguer.

tem which declares that the child has no right to the country, but must pay for permission to live on it as it is the property of private individuals.

You shout for liberty, and you surrender your children to the mercles of capitalism which will seize them as don as they leave school, and will devote their little bones, muscles and undeveloped brains to the task of grinding out profits for a boss.

Are you doing your duty? Love Ire-

land! Yes, if by "Ireland" you mean not only the earth and the waters but vils and bring about heaven on earth. men and women, the boys and girlsthe people of Ireland, in fact.

Ireland without her people is nothing to me, and the man who is bubbling over with love and enthusiasm for "Ire land," and can yet pass unmoved though our streets and witness all the wrong and the suffering, the shame and the degradation wrought upon the people of Ireland, aye, wrought by Irishmen upon Irishmen and women, without burning to end it, is, in my opinion, a fraud and a liar in his heart no matter how he loves that combination of chemical elements which he is pleased to call "Ireland."

If you are proud of the children who responded to the call of their country. and passed unheeded the seductions of the tyrant, then bestir yourselves to win for them a right to live in that country, a right to enjoy its beauties, and revel in its abundance, irrespective of the wishes of any employer or land-

When socialism is realized every child n our Irish soil will by the mere fact of its existence be an heir to, and partner in, all the country produces; will have the same right to an assured ex-istence as the citizen has today to his citizenship, the right to live in the country, and the right to enjoy those fruits of labor the country will yield to its

children That is the reward you should render the children for their love of country: win the country for them and leave it behind you as theirs to enjoy free and unfettered-neither under the heel of foreign tyrant, nor vielding disguised

You cannot be doing, you are not do-ing, your duty to the children while. you leave them to grow up amidst such surroundings as are to be found in the enement houses of our city.

You are neglecting your duty as long as you allow your city hall to be in the ower of men who as landlords derive their living from the rents they extort they are slowly murdering the children of the working class-those very children you professed to admire or

But for the socialist this condition as you elect to Parliament the members would be very far from a heaven on of a political party which, like the Home Rule party, is officered, managed and financed by that same class-the landlords of our city slums.

Ab, be true to your class, to your duty, to our children, and you cannot fail but be worthy of your country, and when the next non-Socialist politicians, or the municipal wirepuller solicits sup-

SWEET SIMPLICITY.

League of Railroad Laborers Who Hold Theory of "Identical Interests" of Employer and Employe.

of the best examples of blindness of wage workers, as regards their the Chicago Record will show:

the Chicago Record will show:

Early in September delegated members of the Railway and Telegraph Employes' Political League of Hilinois will meet in this dity to make plans for the organization's work in the state legislatice campaign. It is expected that the recommendations will be heartily supported by the 80,000 railroad and telegraph employes in this state.

The foremost object of the league is to support as best it can everything that would be beneficial to railroad and telegraph employes. At the September meeting the delegated members will appoint a special committee to ascertain the positions of candidates for the legislature relative to railroads and railroad legislation. This committee will be directed to interview every candidate in the race. After having secured the desired expressions it will report to the league the result of its labors. The officials and executive committee of the league will pass upon the candidates' views and recommend that the support of railroad and telegraph employes be given to those candidates who would not stand in the way of legislation that would be beneficial to the carrying companies.

Of the railroad and telegraph men in

would be beneficial to the carrying companies.

Of the railroad and telegraph men an Illinois, almost 75,000 are connected with the transportation interests. The league officials believe that the vast majority of the two classes of workingmen this year will cast their ballots for the candidates who are not unfriendly to the railroads. The league men hold that whatever is beneficial to their employers sooner or laber will be of benefit to them. They hope to have the membership increased by voting time to include nearly all the railroad men working on Illinois lines.

The league's executive committee, which probably will name the special committee of interviewers, is composed as follows:

Then follows a long list of name.

Then follows a long list of names most of them either station agents or station help, just plain wage workers, and about the meanest treated among railway help.

Note how it states that the foremost object of the league is to further the interests of the railroad and telegraph employes, and then the contradiction in the third paragraph: "The league men hold that whatever is beneficial to their employers sooner or later will be of

If the league was really formed to further the interests of the employers then they would know that what benefits their employers is only at their expense and that it can in no wise benefit

The interests of these wage workers is to have the absolute right to work, the interests of their masters (employ ers?), to make profits, i. e., skin these employes. If their masters cannot make a profit then instantly the right to work ceases for these operatives. When profits cease it at once becomes of benefit to the employers to lay off or discharge these workers. How under the sun can this be of benefit to the lat-

If they were really anxious to further the interests of the employes, instead of the employers, they would start to find out why it was necessary that any one. of them should be compelled to hustle around at recurring periods to sell himself to a new master, the period when it becomes of benefit to the employers to lay them off. Or why any one of them should have to sell himself for wages, and none of them have the ab-

The committees need not trouble themselves, the socialists can tell them beforehand that either of the old par ties will protect the interests of the railroads and see that they get just the kind of legislation they want. That is what they are there for, but he can also tell them that neither one of these parties will legislate in any way to benefit

waste, would throw untold numbers of above. employes out of a job, and put them into the market to compete with those who remain to fill the remaining positions, of what benefit would it be to the work-

Have the majority of the committee forgotten the benefits accruing to the ing the grain rush many of them were compelled to work like engines without was to be compelled to drudge night after night till late without any reense further than regular, salary, Benefit to the employers: increased profits; benefit to the employes, dis-charge as soon as work slacked up.

the largest engines and the largest possible cars, thereby increasing the haul and decreasing the amount of laborpower formerly required: Benefit to the railroads, increased profits on account for decreased operating expenses; benefit to the workers, freedom to tramp around the country and have two or three men looking for the job one man

Let the committee look at the thing fair and square. The railroad owners did not grade, construct and equip rail-roads, neither do they run them, they do not in any way participate in their operation further than to draw the profits arising from operation. The entire thing was done and is now being carried on by the working class. As the capitalists simply own the roads to make profits, and do not own them for use, and as they are absolutely essential to

THE INTERNATIONAL SOCIALIST REVIEW.

CLEAR SOCIALISM. Editorially the Raview will be strictly in accord with the princi-ples of the International Socialist FREE DISCUSSION.

The pages of the REVIEW will be open to any writer of ability, friendly or hostile, who wishes to discuss in a scientific apirit the theory and applications of Socialism.

SOME OF THE WRITERS.

Editor, A. M. Sisons.

France — Paul Lafargue, Jean
Jaures, Jean Longou.

Belgium — Emile Vanderveide,
Heuri Lafontaine, Emile Vince,
Mme, Lalla Kufferath.

non property and used for the benefit of all and not to make profits.

As to the railroad man, it is absolutely essential that he should have the absolute right to work and with it, all he produces. He can only get these rights by working and voting to bring socialism about, for only under collective ownership of the means of production and distribution can be get these rights. As long as the rallroads are privately owned and run simply and purely for profit his tenure of office will depend on the profits coming th, and when the profits cease his right to work ceases.

If the committee will conscientiously study the things that are of benefit to the employers (the possessing useless class), they will find that all these benefits are had simply at the expense of their class (the working operating class), and again if they go further and try to determine which party really stands for the best interests of the railroads (not the corporations who own them), and with it the operatives, then they will report to their constituencies: vote for the Socialist ticket for it will guarantee you, through the inauguration of socialism, the absolute right to work whenever you see fit, and with it the full value of all that you have done

of social benefit to society.

The Campaign Fund. We would speak particularly to all

readers of this paper who agree with the principles and objects of the socialist movement, on a matter which is of the utmost importance to the growth

active campaign for the propagation of socialism and a thorough organization

To do this, However, a campaign fund is a vital necessity, if the principles of socialism are to be brought to the attention of those enormous masses of workingmen who are still the dupes of increase in help or pay? How nice it the capitalist politicians of both parties, through ignorance of their class inter-

We therefore urge upon you as an imperative duty which you have accepted by an avowal of your accord with the object and aims of socialism, that you perform your past by contributing to the best of your ability to

"Workingmen of all countries unite! You have nothing to lose but your chains; you have a world to gain."

SECOND YEAR.-WHOLE NO. 74.

CHICAGO, ILL., AUGUST 4, 1900.

PRICE TWO CENTS

A WORLD'S PANTRY

Food Producing Capacity of the Chicago Stockyards.

CAN FEED 32,000,000 DAILY.

While Those Who Prepare This Food Constantly Live on the Verge of Starvation.

The following editorial taken from the Chicago Tribune of July 21, will in masters of workingmen in other lands all probability, be relished by the thousands of workingmen of the stock yards graded in the Twenty-ninth ward.

overtime, to turn out soup, pass beet, pork, and mutton enough to keep 75,000,000 men in fighting trim.

The power wielded by the packing houses of Chicago is not easily understood or appreciated. Not only is chicago ready at a few hours notice to supply any demand for provisions, but it is the only city in the world which is so prepared. If the Chicago house should refuse to sell supplies to any of the great powers, the army of that power would be as seriously crippled as if its guns were spiked and all its powder magazines blown up. Czars, kings and emperors may declare war, but only the Twenty-ninh ward of Chicago is able to furnish the necessary supplies, without which the largest army in the world would be as power which produces emough, meat profuses it supply its own people and armies. When war takes thousands of men away from the farms and the factories the scarcity becomes a famine. Without the assistance of Chicago the armies of the world would be forced to organize commissary departments on the old style and live on what they could forage from the enemies' country. In China this would prove a difficult undertaking.

But Chicago backed by the great ranches and stock farms of the West, is equal to any emergency. Notice is hereby given that any orders from forcing potentates and princèss will be promptly filled, providing only that they are accompanied by satisfactory business references.

Wonder if the workingmen at the stockwards know what they are doing.

Wonder if the workingmen at the stockyards know what they are doing. by working overtime to turn out enough of the various products to keep 75,000,-000 men in fighting trim.

The manager simply gives an order like this? a subordinate and it is executed You don't, you say? with dispatch. The workingmen do the overtime act. And if the regular force can't do the job by working overtime, there are always plenty of idle hands (who exist in close proximity to the yards to accommodate the packers), sho can be called in at any time, and can be turned out at any time, acwhy Chicago is ready at a few hours' notice to supply any demand for pro-

As the packing and provision industry to run at present at the stock vards it is necessary to have willing slaves ready to hand whenever called upon to WARD THE CAMPAIGN FUND OF labor, and to exist as best they can THE SOCIALIST PARTY THAT REPwhen their labor power is not needed. odating the packers by not leaving the district, even if the huge pantry is

Chicago is able to do such wonders as es of the fact that the workingen whose labor power accomplishes these wonders are compelled to exist and barely enough to keep them in working order. When the "World's ogs, etc., are coming in in large numbers to replenish it, the workers are supplied with enough to eat, but after the replenishing has been accomplished and the reason for the large influx of shipped away to supply the soldiers entates, while they and their families exist on the verge of starva-

power of crippling the army of any great power? And if it has this power, what a valuable weapon would it not be if owned by the workingmen, to use against the carrying on of war against the working classes of other countries? But the Twenty-ninth ward shows against whom this power is directed at home, and present events show against whom it is directed in other lands-the working class.

Yes, workingmen of the stock yards, reflect when going home from your toil as you behold little children begging you and your companions for any bread which might be left in your pail, that you are producing enough to feed 32,000,000 of people, and are making it possible for your masters to assist the to degrade them, just as you are de-

"It is a notorious fact that Mark Hanna is aiding and encouraging Ento step down in favor of Bryan." Thi clusion is arrived at by joining together two statements which appeared in the Chicago American. The combination is fully as correct as the twi

THE LOCAL CONFLICT BETWEEN TWO FIRES

Building Trades Lockout Draws How Capitalism Crushes Its Own Near the Crisis.

MEN ARE STILL STANDING FIRM POLITICAL LYING IS USELESS.

Withdrawals From the Building Trades Council Have Not Impaired Its Strength.

The situation in the lockout of the Chicago building trades appears to be the future of the United States is now to "destroy individual liberty and the reaching a crisis. To be sure the capital being dragged into the political arena right and opportunity to compete." talist press have been saying this same to do duty as a bogieman in the sacred might be answered by saying that it is thing for some time while the Call had cause of reaction and the interests of impossible to destroy what is already When the old Mother Hubbard of the world lets slip her dogs of war she is forced to come to the Chicago cupboard in the manage of the big firms at the stock yards asking when it could ship five carloads of barreled beef and porfs, the manager of the Chicago firm simply issued an order to Chicago firm simply issued an order to his subordinates and then dictated a reply to the inquity of Nicholas II.

When the old Mother Hubbard of the When when it can be the dogs of war she is might just as well be conferring it on change. But the last week his shown that there we no change. But the last week his shown that there we no change. But the last week his shown that there we no change. But the last week his shown that there we no change. But the last week his shown that there we no change. But the last week his shown that there we no change. But the last week his shown that there we no change. But the last week his shown that there we no change. But the last week his shown that there we no change. But the last week his shown that there we no change. But the last week his shown that there we no change. But the last week his shown that there we no change. But the same purpose before whenever the periodical salvation of the "country" periodical salvation of the same purpose before whenever the shown that there we not so, there would be no necessity for the pitlable periodical salvation of the "country" periodical salvation of the same purpose before whenever the shown that there we no change the same purpose before whenever the shown that there we no change the same purpose onferring on a few men, when you continuously pointed out that there was the small exploiter. It has often served destroyed. If this were not so, the his subordinates and then dictated a reply to the inquiry of Nicholas II.

"Five cars barreled beef and pork," he said "are now on way." It would have been the same if 500 carloads had been asked for. The seventy-five big packing-houses at the stock yards under ordinary and average conditions turn out dally provisions sufficient to keep an army of 32,000,000 soldiers in comfor, not to say in luxury. If Mother Hubbard is in earnest about the matter and really intends to change the map of China it will be no particular trouble for the Chicago packers, by working overtime, to turn out soup, roast beef, pork, and mutton enough to keep 75,pork, and mutton decoration and really intends to change the distance of the contractors in regard to the attitude of the contractors in regard to the attitude of the contractors in regard to the attitude of the contractors in regard to the contractors in regard to the attitude of the contractors in regard to the attitude of the contractors in regard to the contractors in regard to the entity dependency. The following fall the contracto Under these conditions it is possible that the contractors desire for present branding reproach of communism profits will be sufficient to force them to against the more advanced opposition unix constantly gravitate towards so give up the impossible task of crushing parties as well as against its reactionthe labor organizations.

There are a number of things which contractors and no help to the men have been no signs of any further dissensions from the ranks and the ma sons have been forced to see that the olidarity of labor is a fact that came s gotten rid of by a mere vote. The have found out that "there are others" engaged in building and they cannot work without those others are also em ployed.

The National Plumbers' union is-com ing to the assistance of their locked-out fellow workers in Chicago and are now talking of inaugurating a national boycott against the manufacturers plumbing material in Chicago. They propose to throw their strength for the independent plumbing house of N. O. Nelson of St. Louis and thus force the Chicago material dealers to terms. At the same time the local unions all over the country are sending in funds and the Los Angeles union has instructed its delegates to the National Convention, which meets at Newark, N. J., Aug. 6th, to at once send \$5,000 to the

Mandel Brothers have just begun the erection of their new building with all pretending great surprise that there and knowingly attempting to destroy is not a howling mob of union men committing all sorts of crimes sur- ing that they aim at the abolition of ing. rounding the spot. Incidentally it might the system of private property in the . The speaker of the evening, after a philanthropic individuals who are talk- tion of the Democratic party accurate- ject of the socialist movement, and an Hann's will cheerfully furnish the ing about the Consumers' League to the fact that the two stores that head their list as being particularly "white" to their employes were the very ones ing "scab" labor during the present trouble. Marshall Field and Mandel Brothers should certainly receive th patronage of all these "dear friends of labor," and every laboring man and especially union man should see to it that any frau'l connected with any such or ganization as the Consumers' Lengu is shown the door at any labor organization they attempt to enter On the other hand some of the school

which are in course of construction ave been forced to employ union labo independently of the contractors and thus to some extent break the lockout. Found of Education were employing scab labor in violation of the city ordnance which would seem to be anoth evidence of Mayor Harrison's friendship for union labor.

Send Them Along.

Comrades:-It seems as if you do no send in notices of the congressional conventions held. It is important that w hould know the full details of them. Send them in to the Workers' Call ofpressing; do not delay. WE MUST have full authentic records.

Hastily, Campaign Committee.

SNAP SHOTS BY THE WAYSIDE.

Would-be Senator Clark from Moc fana, being interviewed on the subject of his million dollar "donation" to the Bryan campaign fund, refused to either deny or affirm the truth of the report. The unsatisfactory nature of this inerview will doubtless serve to keep a number of Democratic "Labor Leaders" in distressing suspense.

But the would-be senator did deny the statement that he was not an e ployer of labor. "The fact is," said he, I give employment to between 2,500 and 4,000 men." That is where Clark's income of \$9,000 per day comes from. How would it become possible for him to get it if he did not "generously give employment?"

Labor creates all wealth, and the capitalist, (in this case Clark), takes all the surplus over and above a mere existence wage. This appropriation he calls "generosity."

We do not hear of McKinley ordering warships or troops to New Orleans to protect American citizens from the Boxers" of that city. The reason why is easily explained; there are no capitalist interests involved.

And William Jennings Bryan, will be know that William J. is overflowing with "sympathy" for the Boers and Filipinos who are thousands of miles away. Surely he will set his own house in order first by "denouncing" and "deploring" the occurrences in New Or-

Well, he won't do anything of the sort. The negro in New Orleans is an American citizen who has been robbed of his cilizenship by the Democrata with the connivance of the Republicans. He is no fit subject for "sympathy" and or position held by the victim and noth- it is good capitalist politics to ignore him completely just now.

The writers in the capitalist press are are worrying considerably over the exthe evils that result therefrom. They to decide what methods are to be purwill shortly discover that they have them of this fact. The truth is, th be obtained through any news dealer, ment will unite them as it has already done locally in Haverhill and elsewhere newstands in their neighborhood keep a ests will appeal to "patriotism," and en the Republicans, Democrats, Popu lists and even the "cold water brigade," will rally round the "flag," against the men. Then the very appearance of the "third party" will be gone forever.

> During the warm weather there is every prospect that the fron and steel workers will have a vacation without pay. The owners of the plants, who also own the fellows who operate the plants, it is said have so decided.

> The workingmen may not like this decision, but they will have to grin and

hear it so long as they stupidly vote Republicans and Democrats into power. The workingman who cannot yet see that both of these parties are really one in maintaining the system which empowers the "owners" of "property" to lend its executive powers to fostering enforce decisions of this sort, may per- this most formidable vehicle of prophaps be considered blind, but he will get his eyes opened if he attempts to stand in the way of his master's interests, in any other manner than at the ballot box.

UNITED WE STAND.

Address From the United Executive Committee of the Social Demo-

cratic Party. To the Members of the Social Demo

cratic Party: Comrades:-On July 14, 1900, the unlersigned met at Springfield, Mass. and in obedience to your mandate con stituted themselves into the Provision al National Executive Committee of the Social Democratic party. The hope so fondly cherished by you, the object for which you have sacrificed so much -unity of the Socialist movement-is thus consummated.

We repeat, Unity is consummated: though we are fully alive to the fact that there are a few well-meaning but misguided or fanatical individuals who continue to clamor against unity. Not all can think or act with the same not raise his voice in behalf of the rapidity. The pace of intellectual which was forcing the capitalist government people" of New Orleans? We progress, set by you during the past year, was too fast for minds only half enlightened. They lag behind, de- empire. Now and then Republican polinouncing the enthusiasm that impelled you to rush to a common meeting.

forbearing. As sure as fate will the the stupidity of the wage earning class honest and the best among them come up with you and lend their cheerful assistance to the united party.

The Socialist movement has had a bitter lesson and has paid dearly for the arrogance of some of its exponents. We shall profit by the lesson of the tice, which we here reprint, as being past,-speak our minds freely, listen patiently to the other side, and bear no malice if we differ.

ated socialists or socialist organiza- Paul Globe, on June 17th, and is in ittion of the Socialists is raised in prothe borders of this land. The latter questions of policy or tactics must be occurring in China:

will finally learn that men like Hearst have no interests in common with them. When they get tired of being used as the resolutions adopted by your gena shuttle cock, batted backwards and eral vote. Where national action is required organized labor will command time. If we are to manufacture from our undivided assistance in its economic struggle against capital, and we shall leave the locals a free hand to determine their relations toward local Trade Unions.

The work of agitation and propaganda of socialism will not be neglected. But it is the opinion of your Committee that a wider scope than has heretofore been afforded must be given to the state organizations where such exist. Conditions, customs and traditions vary materially as we cross the continent; and the State Committees are sued in the work of propaganda and State Committees shall be given the widest latitude and your Committee will limit itself to assisting financially and morally the State Committees in their work. Your Committee, however will take the initiative and direct its efforts to organize all such states as. though favoring a proletarian socialist mayement, still remain unorganized.

The present campaign, as well as the work of organization, will entail con siderable expenditures, and your Com mittee has no money except such as b as the success of the work of your Com mittee depends mainly upon your owi readiness to make sacrifices to th cause. From past experience we ar confident that you will provide the fi mittee is to carry out your mandates. Your Committee has no official organ But we are confident that it po something better and more efficient-We are sure that the party organs will

treat your Committee with the consideration due to the representative executive body of the party and will give publicity to its proceedings. Your Com mittee will treat with impartiality and aganda, our party press

We close with a call to you, com rades, to turn your back on the unpleasant incidents of the past and devote your energies to the propagands of class-conscious, proletarian social-

EXPANSION EXPLAINED.

St. Paul "Globe" Gives Correct Reaso Battering At the Gates of Pekin.

We have repeatedly in the columns of this paper, discussed the events which are now happening in China, and have insisted upon the economic necessity ernments of the world to participate in the "partition," or "pacification" of that ticians, and notably Chauncey Depew. But, comrades, let us be calm and this necessity, assuming no doubt that would debar them from perceiving the distinctly capitalistic interest involved in their assertions. However, the capitalist press generally has not been so imprudent, editorially at least, but one exception has been brought to our nowell worth the attention of those wh deny or ignore the analysis given by the socialists on this question. Your Committee will treat unaffili. following editorial appeared in the St. significance and meaning of events now

value to the United States now is the time. If we are to manufacture from and steel, and flour, and cotton goods for the people of China now is the time for the guns of Cavite to point towards Shanghai, and for the government at Washington to assure Russia and Germany and Japan and China herself that the arsenals of all North America will send forth millions of accourrements to defend the great Assist it empire from European rabblement. European colonies in China mean the continued shipments for fifty years of American cotton to Europe. The liberty of the empire means cotton to Europe. The liberty of the empire means cotton to Europe. The liberty of the empire means cotton and vast shipments of kno and steel goods from our Pacific ports. What American will stand up and cry "Hands off?" The strong hand, the strong soldier, the powerful battleship, the best gunners and guns, playing in front of our diplomacy, are our future makers. NOTHING ELSE CAN SAVE US FROM HUNDREDS OF DISCON. TENTED MOBS AT HOME and contempt and destruction abroad.

The Kearsarge and her sister ships are on their way to Mediterranean waters to collect a small Turkish claim.

Let them so boidly past the Dards-time from the county petition alone, and from waters to collect a small Turkish claim.

Let them so boidly past the Dards-time from the congressional petitions. Also from 450 to 500 on each legal.

The Kearsarge and her saket sain, are on their way to Mediterraneas waters to collect a small Turkish claim Let them so boldly past the Darda nelles to the gates of the Black sea and if necessary join in another Se hastopol at Odessa. China should no be rabbled for European gain.

When the capitalist press, even for a noment, throw off the mask of hypocisy and humbug which is habitual to them in dealing with a subject like this, the truth of the socialist interpretation of world movements, leaps at once into limbt.

"Spare nobody," says the Kaiser, re ferring to the Chinese Boxers, When ocialism arrives, the Kaiser himself will be "nobody," and will be spared in

Socialism can thrive on dinfes and ickels, while millions of dollars are cessary to keep capitalism-alive.

probable that a whole profession are thus muzzled and are at the same time though in a few cases it stands out distincily with disastrous results to those in the highest degree probable that, like the vast majority of men who look upon present society as permanent, for the wason that their material conditions are still tolerable, the bulk of the clergy, like other men, unconsciously accept the economic system of the present. That their ideas in this respect are in that not only does labor create accord with those of their most wealthy and influential members of their congregations is a circumstance which

total abolition is a necessity they never i tere to day for a moment suspect.

the case of the clergyman who set this inquiry on foot, these observations seem to be borne out by his summing up the matter which is as follows:

one of the great periodical struggles in which those who see the inevitability of the wage earner, which are left unaided by the church, the difficulty often is that the postulates of the workingman are so wide of the truth that the church cannot champion them. It is a favorite fallacy that labor is the only source of wealth. The thoughtful, Christian man knows this is false, for labor instead of being the only source of wealth is one of the smaller factors. To prick this hubble is to receive the name of the foe truth that men are in a prison house and the church does not consider the wage earner, which are left unaided by the church does not consider the wage earner the flotsam of life. The church may be depended upon to lead in securing justice and truth. It must warn the workingmen that his allienation largely results from tendencies within himself rather than within the church.

There is good reason for supposing

There is good reason for supposing that this view of the matter expresses the oninions of a majority of the cler symen of the modern church, although it sense can be considered as a remedy for the complaint. The church has for years been "warning" the workingthat the "tendencies within him self" to stay away from so-called "Dio" should be overcome and the result has been that the warning aforesaid have been merely wasted breath. The workingman still stays away heedless of "warnings" that never reach him, and the question as to the of his absence is still left as a topic for the ordinary clergyman to

ON "THIRD PARTIES," A Criticism of An Essay on Political "Duty" by An Apologist for Capitalism.

The whole political duty of the male inhabitants of this country consists in voting for either McKinley or Bryan at least, so says one Creelman, v ho in an article in the Chicago American has nobly come forward to direct the sovereign voters in the way they should

Third parties are evidently an abom ination to Creelman, and upon them he pours out the vials of his impotent wrath. Anti-Imperialists, Prohibitionjects of his detestation and abhorrence

Mr. Creelman brings many charge against the individuals who compos and engineer these political organiza tions and although he doesn't attempt to demonstrate them, it may be worth while perhaps to take 'them seriating and see what truth they contain. He starts out by asserting that third partles are "pregnant with civic damna and contents himself with the assertion. Neither does he give his readers any definition of the phras "civic damnation." If there is any meaning whatever in the words they might be taken to stand for dishonesty, hypocrisy, lying, bribery, and othe similar "deplorable" characteristics of present society.

We would like to ask if the existence of third parties was responsible for the notorious political scoundrelism of the last few years? If there had been no political parties in existence except the Republican and Democratic, would we scandals, senatorial bribery cases, instruction of life and property incident thereto? Was the murder of Goebel in party? Or the slaughter of negroes in Or their disenfranchisement in the southern states, which prevents them from fulfilling their duty by voting for Bryan or McKinley? Have third parties been directly concerned to any extent, in the thousands of unsavory exposures of political rottenness and scoundrelism which almost daily occur in our great cities and municipalidamnation" it would seem as if the Republican and Democratic parties were prolific in bringing them forth without the aid or consent of any third party whatever.

We are then informed that third parties are principally instrumental in "promoting political cowardice," and farther on we are told that they "make cowards and hypocrites of the leaders of the two leading parties." For this testimonial to the characters of Bryan. McKinley and their henchmen, members of third parties should feel grateful to Creelman.

Accordingly therefore, when we read of the honesty, courage, sincerity and

"Every sane American citizen," says that the next president of the United States will be either McKinley or Bryan"-therefore it is civic treason to shirk the duty of deciding which of the two is better or worse, as the case may

Is it? Well, why? Is it treason because Creelman says so? The saying, "Of two evils choose the least," carries no compulsion when there is an alternative and the voter doesn't have to choose either. What moral principle is violated in voting for what the voter wants and rejecting what he doesn't

"Any man who believes in the estab-That some details of the present syswill be quite as ready to champion the tem need "reform" is also apparent to truth and justice of the new order as trust system is a coward and traitor if them for the same reason. But that its | they now are to support that which ex- | he does not vote for McKinley," says Creelman. And the man who believes Until that time, however, the working in what Bryan stands for is also a coward and a traitor if he does not vote for William J. And the man who does not believe in the principles which one of the great periodical struggles in either of them stand for is a coward

With the socialists, however, the cas is different. No such charge can be laid at their door. The Republican or Democratic leader will not be called upon to exhibit either of these capitalist virtues, so far as the socialist is con cerned. The latter knows and declared that in everything for which they stand or pretend to stand, he is their enemy politically and will remain so until the capitalist system, of which they are the expression, is overthrown, Socialism, will make these "leaders honest and courageous, to the extent -the system of private property in

ocrisy in attempting to corral the vote of the socialist; they can afford to be onest when they learn that it is an mpossible task

As for political cowardice amongst the voters, we might ask whether it is nore cowardly to permit a political 'machine" to name the "issues," and bediently cast your vote in accordance with their dictation, or judge for yourself on the issues that concern you most, and vote for them?

Neither the Republican nor Democratic machine, nor even the brilliant Creelman himself, are authorized to declare what are the "principal issues" and what are "minor considerations." That is for the voter to decide. The assumption that they shall dictate in this natter is merely a piece of audacious impudence and impertinence, which is only successful when the bulk of the oters are not sufficiently intelligent to resent it.

The 'Socialists harass' the Demorats," says Creelman. They don't They fight against capitalism, which both Democrats and Republicans rep- will be held in the Saile Wagram. This esent. The Democrats being the reare harassed by the economic develop- leries will hold from 1,000 to 1,200 perment which will finally destroy them sons. Several rooms will also be availthey are gone the battle will go on near the Arc de Triomphe and the Exgainst capitalism as before.

And if they were "harassed" by 'the Socialists, what about it? Is there any thing particularly sacred about them which should prevent epposition to the deas they represent? Don't they in turn "barass" the Republicans, and the Socialists also? Why then should they

"A vote for any third party is half a vote for McKinley or half a vote for Bryan," says Creelman; that is to say, a vote is only half a vote-the whole is pot greater than the half-but equal to it. Creelman's mathematics seem to be on a par with his logic.

"If he (the voter) thinks they (Mc-Kinley or Bryan), are both bad, it is his duty to decide which is the worse.' With this pointing out the pathway of "duty" our self-appointed monitor concludes his foolish diatribe in the same manner in which he began it. It is not likely that this bumptious production will have much effect upon the existnish sufficient evidence to the Socialists. at least, that the upholders of capitalism begin to see a menace to their rule columns of the press. The Socialist in intellectual bankruptcy of a class who are compelled to rest the burden of their defence upon such a feeble advo- Murai has arrived in London, but is recate as, Mr. James Creelman.

ceptible extent.

DO YOU KNOW?

You Can Answer Yes, to Trese Ques-tions Only By Voting for Socialism.

Do you know that labor creates all wealth, including the means of production and distribution, by which it creates new wealth?

Do you know that having created these means, it has blindly let them go

Do you know that although labor has perfected all these means, has created next year to make it a daily. The cel- its labor power, which in order to live,

Do you know that the wealth created by labor, including the means of prowere particularly brutal in the recent duction and distribution, are owned tostrike in Galicia have just been re- day by capitalists who did not create them?

Do you know that capital does not own these means to use them, but simply to make a profit out of them, at the expense of labor, which is the majority of our population?

Do you know that Labor has created all the fine palaces, all the finest materials for making clothes, the finest wines, the best of food and all the luxuries of civilization?

Do you know that Capital enjoys these things while Labor must put up with the coarsest fare, the cheapest shoddy clothes and hovels for homes? Do you that the majority of our so called criminals, tramps and prosti-tutes, come from the ranks of Labor?

Do you know that the reason they do bution, to provide for their wants, and

Do you know that as morality is largely a question of the stomach, and means to fill their stomachs, being

Do you know also that morality is a stance, Capital rebs Labor of 83 per cent of its product and is applauded therefore. This is Capitalist morality, but if Labor, through appropriation, without permission from Capital, takes back a little more of that which it has

Do you know that the present prosperity is a genuine one for Capital, and that through it Capital enjoys more luxuries and increased comforts; also don't forget the increased profits?

Do you know that the present prosperity means increased and incessant toll for Labor, with the prospect be-fore Labor that the harder it toils the sooner will come overproduction and stagnation, and with it starvation for Labor?

Do you know that during so-called over-production, Capital does not starve does not actually starve?

Do you know that overproduction can

Do you know that under capitalism overproduction really means underconsumption. Labor through receiving only a fraction of the wealth it produces cannot perform the miracle of goods pile up, stagnation sets in and people starve, go naked and without

Do you know that Labor stands for the working class, and do you know jority and can change conditions when-

Do you know that they are the only

Do you know that Capital stands for And most important of all, re- the capitalist class, an absolutely useless and parasitical class in our society. They own the means of producthem. They simply have them capitalized, which means they hold them to exploit Labor and make profits?

Do you know that when the working class wakes up, they, through capturing the political power, will take back their own creation, knock Capital out. and use the means of production and distribution for the benefit of all. by giving the freest possible access to them to every individual who is will-

Do you know when that takes place the capitalists as a class will disappear and they will become useful members of society, by being compelled to work for what they consume?

Do you know that when Labor has consciously accomplish this, all class distinction must of a necessity disappear, as all will belong to the working class and all capable of working will be compelled to do so in order to

Don't you think this would be a good thing? If so vote for it and work for it, by endorsing the Socialist party

Last Sunday a Chicago paper devoted whole page to a series of pictures It is not expected that the Republi-ans will send another Ben Butler to citizens' would look in shirtwalsts. The not be too highly estimated.

"If you close with the enemy, remember this: Spare nobody. Make no prisoners. Use your weapons so that for a thousand years hence no Chinaman will dare look askance at any German. Open the way for civilization once for all."

Having delivered himself of this Christian command, which harmonizes admirably with the "Golden Rule," this disciple of the "meek and lowly" proceeds as follows:

"The blessings of the Lord be with you. The prayers of the whole people will accompany you in all your ways. My best wishes for yourselves and for the success of your arms will ever fol-

the success of your arms and low you.

"Give proofs of your courage, no mater where. May the blessing of General rest on your banners, and may youchsafe to you to find a path it Christianity in that far-off country."

What sort of a "god" is this to whom the Emperor appeals? It is evidently a similar delty to the one whose "bless ings" were invoked by the "Boxers, before commencing operations. "god" who blesses those who "spare nobody." seems to be a common ideal both for Emperor and Chinaman. Be tween the "mailed fist" of the "Kalser and the "righteous fist" of the "Boxer" there doesn't appear to be such a vast difference after all.

ly echoed the sentiments of the other "civilized powers" on this matter. He has been imprudent only in giving public expression in his usual dramatic manner, to what the others advocate but are too hypocritical to avowedly

Puzzle---Find the Thieves.

The Chicago Record of the 28th ult ounces a discovery in the following headlines, and opens the article by propounding a query:

FIND BIG COAL STEAL.

DRAINAGE TRUSTEES STARTLED.

Change in Control at the Bridgeport Pumping Works Shows Decrease of 1,000 Tons per Month-Sensation in Contract Prices.

Who stole the coal at the Bridgeport pumping station?

The Record might get the desired information from Mr. James Creelman, who writes for Hearst's new paper. This gentleman holds that "third parties" are pregnant with "civic damnation" and it is more than likely that the stolen coal may be found in possession of some member of a "third party." The suspicion that Republicans or Demo crats might be concerned in this steal, is of course preposterous. Those who fight against "civic damnatilon" certainly would not steal coal. No! Perish, the base insinuation!

Unity in Michigan.

Michigan Socialists met in convention on the 24th ult. at Central Labor Union hall, in the city of Saginaw. Delegates from Battle Creek, Hillsdale and Saginaw were present. The convention de clared for unity of all Socialist forces, and endorsed the candidacy of Eugen V. Debs and Job Harriman for president and vice-president respectively. This, according to the press report, was the first Socialist convention ever held in the state of Michigan, and amply made up in enthusiasm and determination what it lacked in numbers. The state ticket nominated is as follows:

For Governor-Henry Ramsey, Battle For Lieutenant Governor-Clayton J.

Lamb, Dryden, Lapeer county. For Secretary of State-Joseph Dyck,

Detroit. For State Treasurer-Albert Eynon,

For Auditor GeneralDavid C. Hendricks, Saginaw.

For Commissioner of State Land Office -John D. Hunt, Jonesville, Hillsdale county.

For Auditor General-George A. Eastman, Detroit.

For Superintendent of Public Instruction-Miss Rose McBrearty, Detroit. For Member State Board of Education -Joseph Carr Sadinaw.

"Let There Be Light."

The Tribune says that the "Chicago Socialists are not able to shed any light on the identity of the conspirators who dur the 200-foot tunnel near the Pittsburg penitentlary" for the alleged purpose of liberating Anarchist Bergman, who shot at Frick in 182. But the Chicago Socialists can shed some light on the identity of the conspirators who for political effect, coupled the Socialist movement with this prison breaking scheme. These sensation mongers are constantly employed by both capitalist political parties for similar purposes. No story is too ridiculous to impose upon a "public" foolish enough to abserb the information given in the capitalist press. The originators of such fairy tales know perfectly well that the Socialist movement has not the slightest connection with incidents like the eat connection with incidents like the above but it is "food poffices" just now above but it is "food poffices" just now and encouraging Mr. Debs. The foot is that the enly party that the Recot at the the Republicans shave ever openly assisted in recent years was the Democratic party, and this was done at Haverhill. SECOND ANNUAL PICNIC

Given for the Benefit of The Workers' Call by Section Chicago, Socialist Party, and the Socialist Sangerbund at

Calumet Grove, Blue Island, The Kaiser in this instance has mere. SUNDAY, AUGUST, 19, 1900

> PRIZES will be given for Bowling and Other Contests, and also to the Two Persons Selling the Greatest Number of Tickets. Directions to Grove printed on each ticket.

All Socialists Should Attend.

TICKETS-in advance, 15c; at the gates, 25c.

The Socialist Annual Picnic.

As the date of the annual Socialist picnic draws near we would again impress upon comrades and sympathizers the necessity of redoubling their ef forts in order to make it the largest and most successful ever held in this city. To the two persons who sell the greatest number of tickets we have determined to offer valuable prizes, consisting of socialist books. For the first prize we have selected the following four standard works: Lissagaray's "Commune," "Socialism," by Professor Sombart, Deville's "People's Marx," and "Socialism; Its Growth and Out-

come," by Belfort Bax and William Morris. The second prize will consist of two companion works, the "Ethics of Socialism" and "Religion of Socialism," by E. Belfort Bax. Tickets can be procured at the office of this paper, 36 N. Clark street, and we hope every comrade will redouble his efforts in this direction as it is of vital importance to the party press and organization that this picnic be more largely attended than ever before. In this year of a national campaign, funds for the carrying on of socialist propaganda are urgently needed, and as we have none to rely upon but ourselves in this matter it becomes the duty of every socialist to use his best endeavors to further the cause which expresses the interests of

to this end is to push the sale of tickets as vigorously as possible.

his class, by doing all in his power to

make this picule an unqualified suc-

cess, and the best way of contributing

Want Some More of It. The Chicago Tribune announces that the South Chicago steel workers are orgardizing a campaign club for McKinley and claims that there were over 200 nembers present at the first meeting. All of which would seem to show that there were some men there who were in love with the company hospital and wished to continue to be mangled and maimed by the murderous machinery at which they work, with an occasional torood to work for thirty-six hours are stretch without food in order that their masters' profits may be greater. However we can assure the Tribune that there are quite a number of the South for either Bryan or McKinley. There are a goodly number of them who are in the two strong sections of the Socialist party there and who will cast their votes for Debs and Harriman this fall.

The Chicago American gives James 'reelman an opportunity to repeat the stale and contemptible lie that the Republican National Committee is assisting and encouraging Mr. Debs." The fact is that the only party that the Re-

SOCIALIST CARTOONS AND COMMENTS

BY FRED. D. WARREN.

Workers' Call, Chicago: "This is a series of clever criticisms of present society, illustrated by cartoons which are decidedly bright in their point of view."

Freedom, Equality, Washington: "The cartoons are comical, but forcibly illustrates the benefits of the co-operative system as compared with the competitive."

The New Light, Port Angeles, Wash-ington: "Should be in the hands of every laboring man in the United States."

A CALL TO ACTION

National Committee S. D. P. Issues an Address.

UNITY NOW AN ACCEPTED FACT

Clear Field for Socialist Activity Requires the Best Efforts of All Comrades.

Socialists of America:-The campaign for the national election of 1900 is upon us, and now that the question of unity is settled the Socialists of the country should turn their attention to the important work of agitation and propagarda-a work that has unfortunately en more or less neglected for some

It is clear to all that the present campaign is the most important yet participated in by the Socialists of the United States. The industrial, social, and political conditions are such that the people are peculiarly receptive to our views new issues arising daily are causing discussion and research imprecedented in history.

The working people are awakening to a new sense of their importance in the political as well as in the industrial field and it is our duty to see that they are not led astray by the delusive phrses of the capitalist politicians of the old parties. It has been demonstrated that it only requires that our principles be properly placed before the workers and thinkers of the land to cause our movement to make rapid and permanent progress everywhere.

The united Socialists represented in Social Democratic party have within their ranks a corps of writers speakers and debaters, agitators and organizers, whose equal cannot be found in any other political organization in the country. Our daily and weekly press is growing steadily in both numbers and influence, and wherever our pamphlets penetrate they are read with interest and are productive of great good to the cause. Our speakers are greeted with large audiences, and the enthusiasm resulting shows that the

All this is inspiring and encouraging. But, comrades, we need funds immedfately to push the great work before us. Pamphlets cannot be printed for nothing. Our Socialist papers cannot be circulated without expense. Our speakers must have their expenses paid at least or they can never reach the people. Everything is possible-had we but the money. Comrades, the success or fail- its record in the tears and blood of the ure of this campaign and all succeeding campaigns rests with you. This year we enter the field with tickets in more states than ever before. This year we lay the ground work for all future campaigns. This year the Socialists of the land must be heard and felt as never before, so that when the election is over we shall not only have increased our vote, but also increased the army of those working for labor's emancipation. Comrades, everyone of you can do something, however little, to help along the cause. If every member of the Sociai Democratic party contributes to our national campaign fund as much as his circumstances will permit we will poll tallsm and the inauguration of the Coa vote for Debs and Harriman in November that will give prestige to our cause and command the attention of the

The Social Democratic party must devote all its energies to the propagation of Socialism. That is what it is organized for, and all other questions are subordinate to the ment important one of advancing Socialism. Conditions are propitious, opportunities are ample. Let us take advantage of both and make the coming triumph of the Co-operative Commonwealth.

All contributions will be acknowl edged in the Socialist press of the coun-

ACCEPTS THE NOMINATION. Comrade Eugene V. Debs Will Representhe United Forces of Socialism in the Coming Campaign.

Terre Haute, Ind., July 31st, 1900. Wm. Butscher, Esq., National Secre tary, Social Democratic Party, Springfield, Mass.

My Dear Comrade:-

Your communication of the 18th inst. has been received and I note that by the action of the Unity Committee elected at the Rochester and Indianapolis conventions, approved by referendum vote, my nomination has been ratified as candidate of the Social Democratic party for the office of president of the United States

Permit me to return my thanks to the Committee and the comrades they rep resent for the ratification of my nomination, which I esteem a signal honor. Having responded to the call of my comrades in accepting the nomination

their confidence and partiality bestowed upon me, f am deeply sensible of the responsibilities which rest upon me as a Socialist candidate for the office of president of the United States.

Fully imbued with the philosophy of socialism, I seek no personal preferment, and I claim consideration only as a representative of the principles of international, class-conscious socialism,

In that capacity, and that alone, I appeal to the working class and my coun trymen for support, The confidence implied by the unani-

mous action of my comrades moves me to regret my limitations and to wish myself a worthier representative of the principles so sacred to them, because fraught with such grave import to the countless victims struggling in the grasp of economic bondage.

But all the strength and ability I have are at their service. Long since I consecrated myself to the cause and all I have is laid with joy on the altar of So-

As we look abroad we behold the steady and stately march of transformation: Capitalism, which has written human race, is staggering to its doom while Socialism,herald of light and free dom, quickened by the spirit of the new revolution, is sweeping over all the world.

Here in the United States of America we are on the eve of our first great battle. Let us gird on our armor and press orward to meet the enemies of freedom the oppressors of the people, the ex pioiters of the working class and the foes of all humanity.

Let us dismiss all minor considerations and unite in every state and territory, from end to end of the land in one operative Commonwealth.

Thanking you again, and through you your comrades for the honor conferred upon me, I remain,

Yours fraternally, ' Eugene V. Debs.

Tickets for the Socialist picnic are still procurable at the office of this paper. Children under 12 years of age accompanied by parents or guardians will be admitted to the grounds free o

royal that Alderman Thos. Carey is recting a seventy room flat building tasies over this new stand of Carey's it would be well to see what has been his past history regarding union labo and laborers in general. He is generally emembered by railroad men as "the an who ited the cars" in the great strike of 1894. When the refrigerator ars were tied up and could not secure heir ice from any other direction, this ed the cars with ice under police pro-tection and helped in no small degree the efforts of Gen. Miles to "break the

back-bone of the strike." years he was notorious as the owner of Carey's flats," a row of the very worst enements in the city of Chicago, lo cated along Wood street, near West 43d. These buildings in which Carey housed his political and economic slaves, had no sewer connections and it was no uncommon thing for the liquid filth to be two and three feet deep underneath the floor. At the present time these same houses are the property of the ice trust in which Carey is a principal stockholder and from whose dividends he is contributing to Bryan's campaign fund to "bust the trusts."

AGITATION IN ILLINOIS.

Socialist Speakers and Organizers to B gin Their Work Immediately.

With this week Comrade A. A. Somer ille begins his work as an 'organizer and agitator in the city of Chicago. It has always been one of the dreams of the comrades that we should be able to engage a permanent örganizer who could give all his time to the work. In shape of the Socialist vote. Comrade Somerville we have a thor oughly competent worker who will be able to give a great impetus to the movement here. But his work in any ward will be in exact ratio to the efforts ade by those now living there.

Preparations are also being made to end Comrade Klenkle, the candidate for governor, through the state and to keep him at work there until elections. It is expected that he will start in a ouple of days, and all comrades through the state who are able to arrange meetings or in any way utilize some question with which to obscure the services of an organizer should at the fact that the office is the paramount once communicate with Comrade Jas. S. issue Smith, 36 N. Clark street.

On the 9th inst. Comrade Robert R. LaMonte will start at Quincy, Ill., for along the Mississippi river up to near out?

THE SOCIALIST POSITION.

The one thing which will never do to forget in any Socialist agitation is the fact of the class struggle. The funsociety has advanced through a continuous series of struggles of economic classes with divergent interests. At litically, socially and every other way Each ruling class continues in its pocord with social progress. While this is true any attempt to thwart their other class is practically hopeless Whatever changes or reforms may be ade must be made in the interest of es that the interest of that ruling

Today that ruling class is the capifalist class. The Socialist declares that likely that the fetish of the sacredness production has reached such a point of capitalist private property will prove where it is retarded by the interests of the capitalist class. We says that the Chinese as the worship of the bones next class to come into power is the present laboring class, the workers with talist class in destroying the Chinese hand and with brain. He says that until this class does come into power, all efforts to better its condition which do tion the forces which will obliterate not agree with the interests of the cap- them as a class from the social life of italist class will be hopeless. Hence he has no faith in so-called reforms and panaceas within existing society.

This is the Socialist position in a nutshell. It is the central point in the philosophy around which the almost countless multitudes that follow th flag of international socialism are gathering. It is the only essential portion of the Socialist doctrine. We may know and say that the future society will be a more beautiful one than the present, but that does not make us Socialists. We may cry out about the abuses and sufferings in our present society but that has no relation to socialism. We may seek to make all kinds of minor changes and reforms but this is not

not be caught advocating "state capitalism" and calling it "state socialism." He will not be bamboozled by a little a local paper, and everyone should bend and water have been transferred from a capitalist individual to a capitalist municipality. He will not join in any idiotic hue and cry about the beauties of "direct legislation" for a lot of people that are using their present legislative power to continually approve of their own slavery. In view of these facts-is it any wonder that one who is at all familiar with the Socialist philosophy looks somewhat askance at those would-be reformers of socialism who sneer at the fundamental princiteach, or still sillier, deny it the right to bear the name of science at all?

BARRIERS BROKEN DOWN

which international capitalism finds itself confronted in China is bringing out many suggestions as to the best and most efficient methods for dealing with the question in the interests of the ruling classes. The latest of these propose to clear the ground for capitalism, by destroying as far as possible, the outward forms which embody the traditions and superstitions of the intended victims of modern commercial expleitation. It is said that the allies are seriously considering the expediency of ment.

razing the city of Pekin to the ground. SNAP SHOTS BY THE WAYSIDE, Manchu dynasty of kings to the wind. Nothing more clearly brings out the truth of the description of the process of capitalist expansion given by Marx lutionizing the instruments of production, and thereby the relations of production, and with them the whole relations of society. All fixed, fast-frozen

relations, with their train of ancient and venerable prejudices and opinions solid melts into air, all that is holy is insted. profaned and man is at last compelled to face with soher senses his real condihave bound the Chinese people for thousands of years, it is proposed to put in proposition, if carried out, may perhaps furnish a more suitable field for the inauguration of modern capitalist meththat country face to face, as Marx when the great mass of the Chinese people are made "free" in the capitalist ditions and superstitions that had heretofore tied them, had no real foundation n fact, when they find that their former with the great world-wide army of wage workers who have already discerned that the sham superstitions created by capitalism are the only barriers which of the product of their labor. It is not of their ancestors has done. The capiwall of superstition and veneration for the past, are merely bringing into acthe future.

WHERE SOCIALISTS STAND.

Resolution Passed at Joint Convention of Socialist Party on July 4th, 1900.

Whereas, The building trades of Chicago are at present locked out by the contractors, who are endeavoring in this way to destroy the possibility of united action on the part of the workers: therefore he it

While this franchisement business. They will be it is going to stop with the colored man.

It must certainly be satisfactory to American workingmen to read the latresult in bringing the inhabitants of est "evidence of prosperity" which is now going to rounds of the press. The British government it seems has advertized its need of a loan and instantly fifty million dollars worth of its bonds whom they venerated are destroyed, have been secured by "us" Aniericans. "We" could have lent John Bull a somewhat larger sum if that eighteer dollars and forty cents had not been sent out of the country a few weeks ago to aid the cause of the Boars

. . . Mandel Brothers, owners of the great State street department store, have started the new addition to their im mense establishment, and undeterred by the threats of unorganized labor have given the work to members of the Conand the future holds for them no hope, thractors' Council. They don't seem to they will gradually become militant be afraid of losing the trade of the workingmen who are being starved into submission, or the custom of the "prominent citizens" who for political reason are now constituting themselves the champions of organized labor.

> From this example the workingmen of the organized building trades may learn that while their strikes and boy cotts may have a certain efficiency in killing financially the little business nan and petty capitalist, yet the owners of large capital feel practically secure, and therefore naturally enough defy both strike and boycott. This condition will endure just so long as workingmen onfine their efforts to the economic field alone, where their weapons are comparatively speaking bows and arrows against modern disappearing guns

We say "disappearing" because thos who can and do strike the heaviest blows against labor are generally careful to conceal their identity, by-setting the law in motion to conserve their own interests at the expense of those of the workers.

The "yellow" journals by the bye are now employing their "kept" men in disovering "Anarchist plots," which they exploit in great flaring red, letter headlines, with the object of bringing on an Anarchist "scare." Such papers do nore to bring about Anarchistic demon strations than the efforts of all the alleged Anarchists of Europe combined. The Socialist Annual Picnic. The Anarchist himself is not so contemptible that he cannot be used to bring profit to journalistic demagogues.

Harriman would work wonders in this

of the working class to still continue their exploitation under the guise of gether different when the workers pratice unionism at the ballot box. In that event the capitalist press would un-doubtedly begin to sing the praises of strikes and boycotts, in an attempt to persuade the workers to give up the iew weapon and resume the ones they heretofore used.

The following item from the summary of the Tribune of the 4th inst. furnished anti-trust Republicans and Democrats omething to chew upon

Many small railroads absorbed by large systems; 147,000 miles of road now controlled by twenty-eight corpora-tions; three over 10,000 miles each.

The economy which this process of fects will dispense with a large number of men and women engaged in office work. It may not actually increase the number occupied in railroading, and nay on the contrary even increase them wing to the cheapening of labor power which always accompanies a process of this nature. The office employe may still have an opportunity to exercise his labor power in the capacity of section change, and his intelligence may then he awakefied sufficiently to cast about for a remedy-

AN INVITATION.

Kansas Editor Tells Aguinaldo What Good Things H. Misses by Keep-ing Away From Us.

Agul, you do not know what a good thing you are missing by not wanting to become a citizen of this GRAND

thing you are missing by not wanting to become a citizen of this GRAND COUNTRY OF OURS. There is nothing else like it under the sun. You ought to send a delegation over here to see us—this land of the FREE, this land of the want of the millionaires and paupers, theo logians and thieves, libertines and ilars. Christians and chain gangs, politicians and poverty, schools and prisons, scalard want, where we make bologna of dogs, and canned beef of sick cows and old mules and horses, and corpses of people who cat it; where we put men in jail for not having means of support, and on a rock pile if he has no job; where we have a congress of 400 men to make laws, and a supreme court of nine men to set them aside; where good whisky makes bad men, and bad men make good whisky; where newspapers are paid for suppressing the truth, and made rich for telling a lie; where good whisky makes bad men, and bad men make good whisky; where newspapers are paid for suppressing the truth, and made rich for telling a lie; where good whisky makes bad men, and bad men make good whisky; where newspapers are paid for suppressing the truth, and made rich for telling a lie; where preachers are paid for suppressing the truth, and made rich for telling a lie; where professors draw their convictions and salaries from the same source; where preachers are paid for suppressing the truth, and made rich for telling a lie; where professors draw their convictions and salaries from the same source; where preachers are paid for suppressing the truth, and made rich for telling a lie; where professors draw their convictions and salaries from the same source; where preachers are paid for suppressing the truth, and made rich for telling a lie; where professors draw their convictions and salaries from the same source; where preachers are paid for suppressions the truth, and made rich for telling a lie; where professors draw their convictions and salaries from the call of the formalize.

Where business, consists in getting property in any way that will not lan carrried out we may expect to hear that to make laws, and a supreme court of doomed to disappointment if they think fessors draw their convictions and sal-

hold you up and poverty holds you down; where men vote for what they to not want for fear they will get what they wants by voting for it; where women wear false hair and men dock their horses' tails; where men vote for a thing one day and swear about it the other 364 days in the year; where we have prayers on the floor of the national capital and whisky in the basement; where we spend \$5,000 to bury a congressman and \$10 to put a man away when he is poor; where the gov-

shipped and God is used as a waste basket for our better thoughts and good resolutions; where we pay \$15 for a dog and 15 cents a dozen to a poor woman for making shirts; where we teach the Michigan. untutored Indian the way to eternal life, and kill him with bad booze; where we put a man in prison for stealing : loaf of bread, and in congress for stealing a bank or a railroad; where check books and sins walk in broad daylight, justice is asleep, crime runs amuck, corruption permeates our social fabric and Satan laughs at every corner.

Come to us Agui! We have the grandest aggregation of good things. soft things and hard things of all sizes, varieties and colors ever exhibited under one big tent. Send your delegation and we will prove all these asser tions for truths .- Pochahontas Sun

The Hunt for Cheap Labor.

An effort is now being made by the Chicago Typographical union to unionize the notorious scab shop of W. B. Conkey. This is the firm that moved its Adjourned. dant to Hammond a few years ago so as to be able to employ child labor. It ha depended to so great a degree upon this form of labor that it has come to be known as the "Kindergarten." Just at present the Democratic campaign managers are very much disturbed because this firm is printing a work by W. J.

iffeir concealed antagonists who often actually pose as "friends of labor," becomes at once apparent. One million votes in the coming campaign cast for Socialism under the names of Debs and Harriman would work wonders in this direction.

A vote for either McKinley or Bryan will on the contrary enable the enemies of the working class to still continue would furnish, and is thus cartzendarier. The branch adopted the may see effected by the efforts of Comrade Maycumber. The branch adopted the name of the Chas. B. Backman Social Democratic club of the Fourth Confound that by moving his ciothing shops to St. Joseph. Mich., and employing farmer girls who live at home he could get continue when the service of the working class to still continue. sweatshops would furnish, and is thus enabled to contribute a few more dollars to the Y. M. C. A.

Schedule of Harriman's Tour.

Comrade Job Harriman, vice-presidential candidate of the Socialist party in his tour through the state of Illinois will speak at the following places Belleville, 21st inst; Pana, 22nd; Springfield, 23rd; Quincy, 24th; Chicago, 25th 26th and 27th, at the West Side, North Side and Pullman respectively.

The exclusive right to sell papers and Socialist literature on the picnic grounds will be reserved for the benefit of the Workers' Call, who will have a stand filled with all forms of Socialist

There will be prizes for bowling and other contests, games of all kinds on hand and every possible inducement to ensure a good time.

Astor is not worrying because he is a 'man without a country." So long as profit, rent and interest endure, he will find life tolerable enough.

See that'every union man in your le cality has a copy of the Labor Day is-

Send in a club of ten this week.

away when he is poor; where the government pays the army officer's widow \$5,000 and the poor private who faced the shell \$144, with insinuations that he is a government pauper and a burden because he lives.

Where, to be virtuous is to be lonesome, and to be honest is to be a crank; where we sit on the safety valve of conscience and throw wide open the throttle of energy; where gold is worshipped and God is used as a waste shince of the safety in the states of Delaware, Maryland and Virshipped and God is used as a waste shince of the safety in the safety i

ginia.
On motion it was ordered that Com-rade Robert Rives LaMonte be author-ized to act as party organizer for the states of Illinois, Indiana, Ohio and

states of Illinois, Indiana, Unio and Michigan.

On motion, the secretary was instructed to write to locals Greater New York, Boston, Lawrence and others offering them the services of an Italian coinrade as speaker.

On motion, the secretary was instructed to write Comrade Alex, Jonas in reference to an agitation tour in German through the New England states. Secretary was instructed to write to the locals instructing them to send in contributions at once for the organization and propaganda fund.

On motion, Comrade Slobodin was instructed to draft an order printed general instruction "How to Organize Locals."

Bill for printing, of the Unity Con-crence of \$22,25 was presented and or-

Secretary reported that Comrade Lonergan had not answered his com-munications in reference to his election as a member of the N. E. C. Charter granted to Local Manchester, N. H.

On motion it was ordered that next meeting of N. E. C. be held on Satur-day, August 25th at 8:30 p. m. Income to date, \$62.25. Expenses to date \$26.77.

Henry Slobodin, Recording Secretary.

New Branch in Baltimore.

Dear Comrades:—I wish to report the organization of a new branch of the Social Democratic party in this city. Dear Comrades:—I wish to the organization of a new branch of the Social Democratic party in this city. Same was organized July 24th, 1900, at Louis Hall, 2115 Calverton road, and

Chas. Forney; sergeant-at-arms, C. M. Cartzendafner.

All Socialists residing in the Fourth Congressional District are earnestly invited to attend the meetings of the club and enroll as members, as the club desires to do effective work during the coming fall campaign and be instrumental in rolling up a large Social Demeratic vote next November. Yours for progress. progress.

Fraternally, Forward. -Baltimore, Md., July 30th, 1900.

Stirs Un Genoa and DeKalb.

Stirs Up Genoa and DeKalb.

Editor Workers' Call:—

We have just held two successful meetings, one at DeKalb and the other at Genoa. At the former there was an audience of about 300 to listen to Comrade Berlyn of Chicago, who held the close attention of the crowd by his clear and vigorous exposition of the principles of Socialism. Therextwo interruptions during the speech. The speaker was told that if he didn't like the laws of the country, he had better get out. The answer to this caused the gentleman who made the suggestion to leave the crowd at once. A Bryan worshiper then commenced to expand upon the wonderful speech made by his idol, at the Chicago convention, especially that well-known senjence referring to "labor being crucified upon a crosa of gold." He asked if the speaker had ever read it. The answer came. "Yes, but Mr. Bryan omitted something in that speech." The idolater asked what it was. The speaker registed that Bryan had forgotten to say that labor was nailed to the cross with spikes of silver. The addience caught the point of the remark at once, and Mr. Bryan's faith-

ful henchman concluded not to further intrude the worship of his political deity at a Socialist meeting. From De Kaib Comrade Berlyn proceeded to Ge-Kaib Comrade Berlyn proceeded to Genoa, where a most orderly and well-attended meeting was held, there being between 75 and 100 persons present. Everybody stemed intensely interested, and I have since heard many flattering comments on our comrade's speech, many people saying it was the best they ever heard. Many subscriptions for the Workers' Call were gathered, and a fair quantity of Socialist literature was sold. Good seed has been sown which will shortly bear fruit in a mighty increase of Socialist votes.

Yours for Socialism.

J. Franssen.

-Genoa, Ill., July 30th, 1900.

Harriman in Davenport,

Editor Workers' Call: On Friday evening of last week Com-rade Harriman unexpectedly appeared in our midst; a surprise, but certainly an agreeable one.

He met with the Davenport English

section that evening, filling its membera with renewed energies and hope for the cause of Socialism. Saturday evening he spoke to a large audience at the cor-ner of Brady and Second-streets, where ner of Brady and Second-streets, where we have reason to believe he did a great good. At this meeting a "United Christian Party Man" undertook to "wind him up," but Harriman refused to "wind," answering all their arguments to the entire satisfaction of the crowd. On Sunday Harriman spoke at Washington Garden, being the guest of the "Vorwarts Singing Society." Crossing the river on Monday he organized two locals, one at Rock Island, Monday evening, holding an open air meeting at each place. Mr. Harriman has gone from among us, but the influence of his power and strength remains. He is now power and strength remains. He is now working among the other branches of the state, and the united wish of his Davenport comrades is that success may crown his every effort.

A. K. Gifford,

-Davenport, Ia., Aug. 2nd, 1900.

The Second District Congressional The Second District Congressional Convention was held July 27, 1900, at 116 West 24th street. D. H. Daly chairman; J. B. Price, secretary. Delegates attending—Aug. Hangrund, J. Catrell, B. Olson, J. B. Price, Michael Clements, P. Horsley, A. Rasmussen, Henry Glaser, D. H. Daly, L. Cole, A. B. Foster. The following nominations were made: Congressman—Nicholas Krump. Board of Equalization—Alexander, Akerholm. State Senator—Fred Schumacher, State Representative—L. Cole. State Representative, 4th Sematorial District—Henry Glaser. State Senator, 4th senasentiative—L. Cole. State Representative. 4th Senatorial District— Henry Glaser. State Senator, 4th senatorial district—P. Horslev. The following committee was elected to look after collection of signatures for petitions, etc., for 2nd and 4th Congressional District. tricts: 30th (Scandinavian) ward, A. Rasmussen (chairman): 10th ward, J. Catrell: 29th ward, Michael Clements;

J. B. Price, Secretary.

The following nominations were made at the convention held at Maxwell and Jefferson streets, July 30th: Represen-tative Fourth Congressional District— A. M. Simons. Board of Review—K. Kostursky. Assembly, 13th District—L. Hanock. Senator, 15th District—Dr. W. Kamin.

The National Campaign Committee of the Social Democratic party met at 75 Dearborn stret, Chicago, Monday evening, August 6. Comrades Daly, Roswell H. Johnson, Kerr, Morgan, M. L. Morris, and Pederson were present. The committee organized by the election of Thomas J. Morgan as secretary and M. L. Morris as treasurer. It was furthermore voted that regular meetings be held at 1 p. m., Saturday of each week, and that comrades be requested to addres all communications for the committee to the office of Comrade Morgan at 79 Dearborn street. The National Campaign Committee of at 79 Dearborn street.

Thoughts by Your Uncle.

hedge in the matter of the coming those who earn their own living? panie, which can not much longer be delayed, and which will be flercer and of longer duration than any which have in forcing their employes to quit smek-preceded it, owing to the unusual in-ing cigarettes on pain of instant distwo or three years. In the Seattle P. I. their minor tyrannies. of July 8, appeared a long editorial in which it was admitted that a financial and industrial crisis could be exany money left to spend. "In this way." advance agent og disaster." Wouldn't slow in being starved to death. that cork you? It is hard to imagine any newspaper man outside of an insane asylum writing such drivel unless commanded to do so by his capitalist masters, who hope to so confuse the public mind that blame will not be in the hands of those who are opposed put where it belongs-upon the capi-"prosperity" a country has depends amount of wages taid and the freedon with which these wages are spent. Let labor take that advice to save-let every worker next Saturday night put away \$5 of his parnings-be "thrifty." as the highpald preachers and editorial prostitutes are so fond of advising us to do-and there will be a panic that will discount unything of the kind that ever occurred. No, Mr. P. E. under our present wazy system of rent, interest and profit, the only true patriot is the spendthrift.

been given a vacation of four weeks try to draw the line between the big by their kind masters. Wonder how long it will take the workers to find out is no line. Their material interests are that their employment, and thereby the same whether one owns a sugar their chance to live on God's earth, hangs upon the ability of their masters to wring a profit from their sweat and toll? How awful it would be, wouldn't it, if we would establish a system that would guarantee employment to everybody when they wanted it, and as long as they wanted it? Just try it and surprise yourself by having a little sense

Say, John. I mean you fellow there with a prosperity badge on the seat of your pants and a Republican ballot in your hand. How do you expect to be benefitted by voting the Republican ticket, or the Democratic, for that matter? Now think real hard; never mind if it does hurt a little. The wage workers- the wealth-makers-get a small part of the wealth which they have produced. The capitalists- the wealth-takers-appropriate the rest. Now, John, don't you see how plain it the party is liable to be sidetracked in is that you, as a wageworker, can only gain by the capitalist losing, and also if he gains, you of necessity lose Therefore, this being the fact, how under the sun do you expect that the capitalist is going to do any thing, by law or otherwise, that will benefit YOU? He isn't going to shrink his profits and forego "blowing" himself in Yurrup just to please you. Oh, no. the capitalist isn't built that way. If want to have changes made in our industrial conditions that will benefit you as a worker, you must put in offic someone whose interests are the same as your own. And the only man whose interests are and can be the same as yours is another wageworker.

The two groups of modern highway men are now busy explaining to the people what inestimable advantage there is to be gained by granting to either the helm of exploitation.

The spectacle of starving workers enlisting to fight for foreign markets wherein their capitalist masters may dispose of their surplus products is one of the entrancing visions of private

This, and they were embarked that he was not the employment of China's teeming going to carry passengers. The doors millions with improved machinery under the direction of modern capitalists, to the wharf were either boarded up or will force upon the workers of Europe and America the necessity of adopting purposes the laborers were chattel socialism far quicker than if China

Some of the western papers have been printing an item in regard to the Winchester Arms Co. of Connecticut, nning their factory day and night as further proof of the prosperity with their friends, which McKinley has flooded the country. They fall to state, however, that the company was rushing to supply St. Louis deputies with guns with hich to shoot the daylights out of the street car men who are trying to get a little prosperity.

The hot weather of the past few days as been causing the deaths in New York city alone of an average of 50 little children a day. As "everybody is how? working and prosperous," it is strange

If some of the big railroads succeed flation and wild speculation of the past missal, we can forgive them some of

From the way the organs of the capitalist class are talking about the parpected at any time. The editorial goes tition of the celestial empire leads one on to regret the disposition of the to fear that the celestial kingdom of American workingman to spend as he which the plutocraffe ministers talk so goes, and especially mourns that many much, and to which they of course refuse to go to work while they have claim Jay Gould, the Vanderbilta, et al, have already been translated, will says this editor of wondrous intelli- hardly pan out a hillside lot in a back gence, "presperity really becomes the county to us poor devils who are so

One of the funniest arguments pre sented by our friends among the sentimental socialists is that of getting socialism by putting direct legislation to socialism. We may want electric talist system. Whatever business or lights, but we will never get them by putting the preposition in the hands entirely and alone upon the total of those who only want candles and who know how to make nothing else.

> Primer class in socialism stand up. What is capital?

That part of wealth which is used to produce more wealth-as popularly unterstood and generally meant, all the means of production and distribution including, of course, the land,

What is a capitalist? One who owns-capital.

Does it make any difference how much capital one owns?

Of course not, except in degree. Som Some 20,000 textile employes have just of our uncertain, sentimental socialists exploiter and the little fellow, but there trust and the other only an axe with which he cuts cordwood to sell on the market at a profit. Some well-meaning socialists get confused in their at tempt to split hairs and so confuse oth-That is why so many fail to see that the little fellow struggling in a small shop of his own belongs to the capitalist class, so far as his material interests are concerned, and it is the material interests that draw the line between the two classes. No. don't confound the sentiments of the small capitalist with his material interests. His material interests are liable at any moment to turn him from the sentiment. He can't feed neither himself nor his family on the latter. For that reason a Socialist party, to remain true to its principles, must be more than largely controlled by those who work for wages. Otherwise, at any moment a chase after will o' the wisp "reforms that might bolster up for an instant the material, capitalistic interests of the little fellow who WILL NOT be crushed into the ranks of the wage lave without a struggle, even though the movement for the emancipation of the entire working class is held back thereby. Be sure you know where to draw the line, and then all is well.

Capitalist Budget of Lies.

Among the lies about Socialists that have appeared in the Chicago press in the last two weeks are the following: stating that Debs proposed to withdraw in favor of Bryan, that Hanna was supporting the Socialists that a Socialist meeting broke up in a riot, that the Socialists and the Anarchists were celebrating the death of King Humbert, or were associated in any other way. There were a number of others but these are is that they must be humbugged, and Chicago want to know the truth about their own class and their own interests they will have to read a Socialist paper to find it.

Shipment of Live Stock.

Forty Portugese laborers have been taken from the mines of Pennsylvania and shipped like cattle to the sugar plantations of Hawaii. No one was alsailed, declared twenty minutes befor closely guarded and to all intents and slaves. But of course that could not be were left to continue her slumber of in this age of McKinley, prosperity and

SIXTEEN TO ONE.

Reasons Given Why Workingmen Should Vote Against Capitalism and for Socialism.

"The American people want to b humbugged."

The foregoing phrase was no doubt in the minds of the managers of the Democratic party when they decided once more to trot out the Boy Orator of the Platte, the undaunted champion long distance talker, platform maker and in fact the very life of the Demo cratic party, or what is left of it.

From now on until the election in November the organs, as well as the spell-binders of the Democratic wing of the vulture, capitalist party will sing the praises of the great Bryan, and tell us of the wonderful things which he will perform, if the voters will only elect him president of the United States.

The managers of the Bryan campaign are well aware of the fact that there b lots of discontent among, the voters throughout the land, that many are cut of employment, despite the howi which is made each day in the capitalist newspapers, that the country is prosperous and that workingmen are so well off, that they are about to lay off in many industries for severa months, go to the seashere or to Eu rope and spend some of their great surplus, but many skeptical workers say it isn't so; it is cruel to destroy such a beautiful tale of prosperity in the minds of some people

They will tell us of that great green-eyed monster, the trust, and what harm will do the working class, what a deep interest the Bryanites take in the working class (before election), but you know the working elass has lots of votes, and as Barnum aptly said, "they want to be humbugged." why the poliicians will try to repeat the trick. The question for the workingmen is "Will you allow yourself to be humbugged? Just remember the ice trust, of Van Wyke fame, the automobile trust wherein Croker, the New York and London boss, holds such large shares of stock; also remember Jones, th chairman of the Democratic national committee, who had something to say in the formation of the trust smashing platform; is himself a shareholder in a good many trusts; last but not least don't forget that the New York Journa and its annexes, the San Francisco Examiner and the Chicago American, which is doing lots of trust smashing, on paper, while telling its readers how if smashed the ice trust, was busy at the formation of a great newspape trust, and at one time previous made a combination, with some of the New York papers, which it at times attacks most fiercely, to raise the price of its papers to the poor newsboys and there by cut the profits of these little breadwinners; remember these things or election day, and refuse to be hum-

his famous 16 to 1 plank must again govinto the platform, and as this part finds serious objection in certain corners of the country, Chairman Jone suggests to his staff of spellbinders (in an interview in the N. Y. World) that wherever there is such objection the speaker shall not touch this an noying subject, but give his listeners some other taffy, sympathy for Boers, or Filipinos, or some cheap talk on anti-imperialism; anything to-pleas them, you know; make them feel good give them something about patriotism of our great heroes, anything to ge them to shout hurrah. They may ther forget that the Demo-Pop. Governor Steunenberg sent the workers to the bull pen in Idaho, and that McKinley sent troops to help him out. Chairman Jones says they, the spell binders, shall choose their own subjects, whateve they think the crowd will most easily it is immaterial in what manner it is

The following is my idea of the 16 to question: As it has no doubt aiready dawned upon the minds of a grea many of my fellow workers that Me Kinley as well as Bryan are representa tives of the capitalist class and that no matter which one is elected, private ownership in the means of production and distribution will continue and as I, as a socialist, don't want to see such the following sixteen reasons why you should not vote for capitalism, be it labeled Democratic or Republican, and its decoy ducks Bryan or McKinley.

1st. Because the present wage sys tem will continue and the workers will still be receiving less than one-fourth of the product of their labor.

2nd. Machinery of production re maining in the hands of individuals will keep on displacing able-bodied workers, and the capitalist owners will keep on putting children and women

3rd. Because the system will keep or grinding out profits for the trusts, or How many signatures have you se- either for the small capitalist or business man, and the profits will keep or coming out of the labor power of the workers, us before.

4th. Because rent and interest will still prevail, and continue to help to make the lives of many of our fellow creatures miserable.

5th. Democratic or Republican gov ernors, mayors or sheriffs, will at the beck and call of the capitalists, continue as in the past to call out the police or militia, to shoet down defenseless men women and children who dare strike

6th. Because you will still have to course.

work long hours at short pay, and be glad to get a job at that.

7th. Because supreme court judges will continue to grant injunctions to capitalist employers, who try to break up organizations of the working class.

Because the capitalist will con tinue, in his search for more murkets where he may dispose of his goods, and the workers will continue to be sent out to shoot down workers of other coun tries in order to secure such markets for the capitalist class, and embalmed beef he will continue to get to eat, while the capitalists will get the mar-

9th. Because the capitalist will still suggest, (remember Guggenheimer). that the crumbs which he does not want to eat, may be collected and given to the poor.

19th. Because the greedy railroad and gress. There were als other monopoles will still refuse to comply with the laws and equip their ars or workshops with the required safety appliances for the protection of the workers, and the latter will conmue to be malmed, mutilated or killed

lith. That the wages of the workingnen, owing to competition and rivalry between the capitalists will still keep on declining.

12th. Because we will continue, owto see lots of tramps and a great many involuntary ones, toaming about the

ceiving barely enough to live like a human being.

as the Republicans have again nominated a lot of lawyers, saloon keepers, capitalists or business men for all available offices in sight. Look this up; see have nominated.

ginia who seconded the nomination of in the United States senate applauded Cleveland for sending the troops to Chicago, to help the capitalists subjugate organized workingmen.

These are sixteen most worthy reaons, and do not by any means com plate the list There are many more why workingmen should not vote for

As we have stated sixteen against we will now come to the one reason why you should vote for Bryan or Me Kinley, and that reason is simply this. ou want it discontinued vote against Harriman for president and vice-presilent, and vote the ticket straight.

The fact that Debs and Harriman eason for you to cast your vote for capitalism, as no honest workingman an truthfully say that he wants a ontinuation of this infamous system out remember every vote given for the ocialist candidates is a mighty proest against capitalism, and will be ooked upon as such by the capitalists, he quicker the time will come for the two old parties to unite, and the issue for their own class interests.

They have sent representatives of the they not support the men who struggle orking class into the parliaments to get political powers for them in orand legislative halls of the various der that it may be used in favor of the ountries and these men battle for the rights of the workers, and their number is constantly on the increase. hould the working class of the United States not follow their example? Here we have not one representative to voice the congress or senate; we find lawyers, capitalists, business men, and not one ing class are in the majority; let it follow in the wake of its brethren in Euope, and begin at once to send its own Notes From Trades Union Journals and representatives into the legislative hambers of the country.

Let us go to work and from now on entil the electtion in November, agitate, organize, and educate the worktainly an object worth striving for. Let everyone do his duty; there is plenty of work for all. Let us roll up such a tremendous vote for Debs and Harri- S. D. P. man that will inspire us with new hopes and courage, and we can then pull together for socialism in our time. Speed the day of our deliverance from

The Tobacco Workers' International mion will hold its annual convention in Wheeling, W. Va., in September.

W. E. Bush, ex-secretary of state of Kansas, has declared himself a Socialist, and is doing valiant service for the

California Socialists have been making ineffectual attempts to drag the Democrats into debate. They will now challenge Republicans,

It is reported that three Yale college professors, whose names are not given for good and sufficient reasons, have de-

Factory glaziers have organized a union at \$37 S. Halsted street. There are 200 hundred glaziers in the city, and fifty of them have joined the union.

In New York state 910 persons were tilled and nearly 40,000 crippled in shop-

factories and industrial pursuits in the year 1899. In the war with Spain 280 Americans were killed and 1,557 wounded.-Southern Economist.

Western Federation of Miners voted \$60 a month to the family of Paul Corcoran, who was railroaded to the pen-The Chamber of Deputies has been itentiary for 17 years for his connection electing its officers, and Defnet-a So- with the Coeur d'Alene trouble. Sum will be paid while Corcoran is in prison.

The Dayton Cash Register company, long known for its "philanthropic" interest in its employes sought to dictate the organization of the unions of its wage slaves. Then men objected and one hundred woodworkers are now out on strike.

And now some of the girls employed in the large hotels can get ready to walk the plank. A machine that washes and dries 8,000 dishes an hour has been invented, and it is guaranteed plates, cups saucers and other dishes come out of the wash without a scratch.

The Cigarmakers' International union has enrolled 5,000 new members in the past six months. The 3,000 members of this union in Chicago have been conthe stevedores refused to settle the mat-tributing 50 cents a week to the locked ter peacefully. About 12,000 men struck out cigarmakers of New York city. out cigarmakers of New York city. A vote is now being taken on the question of giving half of this assessment to the Buffding Trades Council of Chicago.

A week from next Monday the printers will meet in Milwaukee and learn that they increased 1,459 during the past year, bringing the total membership up to 32,105. The financial showing is better than last year. President Donnelly has actually discovered that "the injunction is merely a form of intimidation," but he offers no remedy, though strikes in several places were lost. Donelly wants conventions abolished, saying they cost the craft \$28,500 a year.

The twelfth annual report of the Bureau of Labor Statistics of North Carolina, says the Typographical Journal, states that the average daily wages for skilled labor amounts to the magnificent sum of \$1.37 for men and 64 receives: men 64 cents, women 37 cents, and children 26 cents. In the woolen women 28 cents per day. Other industries compensate the persons employed

Dayton locked out laundry workers have already raised three-fourths of their \$10,000 for a co-operative laundry: the locked out cigarmakers raised \$2,000 for the non-unionists who stand out with them; the woodworkers and molders are still locked out, and the chances are very good for trouble in several more trades. The Social Democrats were also locked out of a park temporarily, where they proposed to hold a plenic and organize a big German local. which will take place later, however, and now they are working like beavers to lock out the capitalistic politicians from office in November, and thus get even all around.-Cleveland Citizen.

LOCAL NEWS AND NOTES.

A national convention of glasswork-ers not yet affiliated with a national or-ganization, will meet in Chicago on Au-gust 28th, at the North Side Trade Un-ion hall, 55 N. Clark street.

Jewish comrades are working hard to start a weekly Socialist paper for the coming campaign. The paper will be printed in Yiddish, and every Socialist and sympathizer with Socialism is re-quested to assist them in every possible manner in their enterprize. Those in-terested will please communicate with Morris Seskind, 451 Sangamon street.

GOT AN "ISSUE" AT LAST.

less Secretary Hay Uses a Folice-man to Scare Crows—Therefore Vote for Bryan.

Secretary Hay cannot sleep at night pwing to the fact that the crows in the vicinity of his residence in Washington keep up an incessant cawing. Accordingly a policeman has been assigned to scare away these birds so as to allow the secretary to slumber in peace. This incident has been exploited by a local Democratic paper, as a sufficient reason why workingmen should vote for Bryan. Taking it all in all it is about as good as any other reason given for Hay is no doubt a clear violation of the "time-honored principles of Democra cy," but we think on the whole that any might perhaps in a year or so be very ready to accept a job as scarecrow for much less than a policeman's salary.

In Pennsylvania.

The Philadelphia County convention of the Socialist party, held in the Labor Lyceum, Sixth and Brown streets, last Sunday, nominated the following ticket For County Treasurer-Howard H. Caldwell, electrical worker.

For Register of Wills-Marcellus Walte. leather worker.

For Judge of Court of Common Pleas No. 3-Meyer Gilles, cigarmaker. Porty-three delegates were present when the meeting was called to order at 19:30 a. m. Edward Kuppinger, up-

holsterer, was elected temporary chair man, and Joseph C. Frost, book agent, temporary secretary. Marcellus Waite and J.W. Quick, barber, were elected as permanent officers.

Committees were then nominated as

follows: Nomination, M. Gilles, A. Schubert, tailor, and William Feinhals. elgarmaker; resolution, E. Kuppinger, J. C. Frost and Charles Drees, cigarmaker; ways and means, J. Mahlon Barnes, cigarmaker; Joseph Gamp, chemist; John Salinsky, tailor; Julius Weber, printer; and Frederick W. Skorsets, barber; campaign, M. Gilles, J. M. Barnes, and Harry J. Parker

At 12:15 p. m. the convention adjourned to give the committees a chance work. Shortly before 2 p. m. the dele gates were reconvened. Resolutions were adopted as follows;

Denouncing "so-called Socialists," who antagonize trade unions, and sympathetically inviting trade unionists to fight for industrial freedom on both the economic and political fields; calling the attention of the working classes to the occurrences at Homestead, Latimer, Virden, Wardner, Cleveland, Crotor Dam, and St. Louis, to prove that capi talism recognizes no party politics, and inviting workpeople to class-conscious concerted political action at the ballo box, arging all Socialist bodies throughout the state to hold conventions and nominate candidates for the legislature, as well as local offices; advocating more liberal Sunday laws for the purpose of opening libraries, museums, etc., on that day.

He Will Survive It.

William Waldorf Astor having falled in his attempts to obtain recognition "society," and having given up his American citizenship for that purpose is now referred to in the press as a man "without a country." This is no doubt a fearful deprivation but William Waldorf can find some consolation in the fact that multitudes of American fool-workingmen who believe they have a country, will still continue to toll and drudge their whole lives so that he may live in luxury and idleness. If William has no "country" he gets the product of the labor of those who have, and is no doubt satisfied with the arrangement. The pretended conof August is the one great effort of the year to put the paper beyond all further temptuous pity expressed for him in the capitalist press, would become a reality difficulty for the ensuing year. Every if applied to those who allow him and possible effort should be made to see his class to rob them. -

What a pity that Americans who care tickets and urging his friends to be ry chips on their shoulders should ex- present. Up to the present time many ist outside the rank and file of our more tickets have been disposed of than army! What a shame that men who were at the same length of time before are cruzy for Europe, Asia and Africa the great gathering of last summer. All to get their physical eyes open to our that is needed now is a long pull and a national birness, should keep their pull together for these last few days, own eyes tightly closed to all concepas of MORAL greatness, justice, ethfics! In view of the number of Imperial Republicans, who claim to be "civil-pay for it some one else did. The numized," one ceases to wonder at the growing popularity of the prize ring with our "cultured classes." One who has long been accustomed to contemplate a Democrat as a common chump your resswal.

carried on by a half-civilized people

against another physically weaker race.

against the exist of a just god, the

presence of the imperialist (hypocriti-

cally expansionist) among us would be ample proof. And a Rationalist is "al-

most persuaded" of the existence of a

roaring Devil, who has, among pro-

fessed Christians, a vast majority of their "respectable" following.

Do You Like Champagne?

The Chronicle estimates that more

than 750,000 bottles of champagne are

annually required to supply "Chicago's demand." How much of this quantity

is consumed by the workingmen of this city? It is the labor of their class that

produces champagne as well as every

other so-called "luxury." It does not

require much intelligence to recognize

that they are not reckoned as part of

"Chicago's demand" when champagn

is discussed. That "luxury" is not for

those who built Chicago, who operate

the industries of Chicago, who feed-

clothe, warm and house the population

of Chicago. Not at all. Champagns

and other enjoyments are for those

alone whose function consists in ap-

propriating as their private property

the whole surplus product of the labor-

THE MIGHTY DEAD

Wilhelm Liebknecht, the Man, His Life and Work.

FOUGHT WITH HAND AND BRAIN

An Uncompromising Champion of the Proletariat Passes Away on August 7th.

The life of the great German Socialist, Wilhelm Liebknecht, has the utmost significance for any student of scientific socialism, for it was passed in the midst had been exceedingly active in late cal one, chiefly because they prosper of the European conflict during the years of tremendous importance-the years of early development.

being rector of the university of that place, but they were all more or less was, and full of life for many years crimes of capitalism. conservative, and Liebknecht was yet. brought up among safe opinions and the love of books. At some one of the three universities which he attended-Glessen. Marburg, and Berlin-he came across the writings of St. Simon. They filled him with enthusiasm for an ideal state of society and he soon felt the restrictions of the society in which he lived, and set out for America-the country where democratic ideals were ber of meetings and the large crowds to select from the innumerable evidenbeing realized. This was in 1847, and on that attend them cause the mouth- ces around him, but perhaps the capihis way to Hamburg he met a Swiss pieces of capitalist interests, called talist press itself in its record of the teacher who rather upbraided him for leaving home just before a political crists, which he predicted would come in a few months. The young man was fired with the idea of revolution and turned at once to Switzerland as a vantage point for the careful observation of the growth of events soon to take place. He studied law, attended meetings of workingmen, and when he at last heard of the communist struggle in Paris, he started out at once to carry a gun if need be. But he was too late, for the fight, and after he had learned what he could from the commune in power he left for Germany to help in an uprising under Herwege, the impractical poet agitator. This was put down and he fled to Switzerland, only to leave in a short time to help Struve in Baden. There he was captured and was on parole nine months, which time he improved by courting his wife and making friends who found him "not when his trial came on.

Later he worked with Brentano of the provisional government of Baden, and his enthusiasm incurred another arrest.

After that he had to leave for Geneva where, in 1850, his educational work among societies of workingmen was prevented by a further ban of of exile pronounced by Austria and Prussia He went to England and lived there thirteen years with his wife and child, in the most severe poverty. Lasalle was shocked to find Liebknecht writing, as correspondent for the "Augsburger Allgemeine Zeitung," for money. But that was, for a time, his only means of support, and he refused financial aid from Marx or Engels, both of whom wished

In 1861 an amnesty allowed him to re turn to Berlin, but he was constantly under the surveillance of the police. He held an editorial position on the "Norddeutsch Allgemine Zeitung" and was in comfortable circumstances when he found that the paper had been sold out sached him and asked him to accept a brilliant position in connection with the on of his activities and he refused and again spent several years in poverty and personal danger.

worked for international socialism with more vigor than ever. Together they drew up a platform in 1866; and in 187 they both entered the first parliament of the new German empire.

In 1872 Liebknecht spoke against th navy appropriation bill, was arrested for treason and sent to prison, wher he spent two years in study of the problems before his party. At the end of that time he again took his seat in the Reichstag, to which he had been reelected while in prison, and he kept his

His first wife had died, overcome by the distress of mind and body in which she was kept by poverty and German officials; and Liebknecht after some time married again a woman who has survived the hardships of the life she up with him, and today she it is who feels most keenly the personal loss to the country and to the world, for she has had his interests as her own and has been his companion in thought and

After the new platform at Goths After the new platform at Gotha Liebknecht was put in charge of the organ of the party, the "Vorwaerts," and except when he has been imprisoned he has always written the leading editorials for that paper. In the Reichstag he constantly protested against Bismark's policy, and he won the hatred and fear of the German aulocrat to an extent which threatened

his life on many occasions. In 1878 "all combinations" were suppressed and the Socialists had to resort to picnics and balls in order to come together. In 1896 they had "to sham dead" and sent their leaders leave Berlin for safety. But votes and deputies increased amazingly. and in 1891 when it was again safe to call a national congress of Socialists Liebknecht was the most prominent man to address it.

From that time up to his death Liebknecht spoke and wrote constantly. Never did he compromise his principles, never did he become an opportunist or retract words once uttered. As late as 1898 he spent four months in prison for tack of deference to His Majesty, the

A SOCIALIST'S BURIAL.

Procession Seven Miles Long Follow the Remains of Liebknecht to the Grave.

Who shall say that socialism has not become one of the great world-powers when at the burlal of one of its members there is a greater demonstration than at that of any king or potentate. The following is from the Associated Press dispatch which may be depended upon to have minimized as much as possible all things connected with socialism:

Berlin, Aug. 12.—Rerkin has never seen a funeral like the one that took place today. A whole army of workingmen, many of them earrying red carnations in their buttonholes, followed the simple bler which carried the remains of the late Socialistic leader and deputy, Wilhelm Liebknecht, to the last resting place. It took the enormous procession over five hours to pass a given point. The line of march was over seven miles long, including Tanentzein, Kleist, Bulow, York, Gneisenaw, Baerwalde, Prinzen, Scalitzer and Warschauer streets and Frankfurter Alles. Solid walls of hur annity lined the whole route, all windows, balconies, roofs and trees being black with people, who waited quietly for hours until the cortege arrived.

waited quietly for hours until the cortege by for it get arrived.

The hearse was followed by several coaches filled with flowers, among them several wfeaths given by American Socialistic organizations. Behind these tributes of love and affection came a coach with the widow, accompanied by August Bebel. The procession contained five bands of music. No disturbance of any kind took place. A number of men wearing red badges had been appointed to keep order and were willingly obeyed. The police confined themselves to regulating the traffic, and several atreets and bridges were temporarily closed.

daily happenings of actual life might be used to illustrate. In almost every issue such proof may be found, and we here reprint one picked up at random in glancing through the daily papers, and will guarantee by the evidence of thousands of men similarly situated that it is not a dream, but a reality, and we leave it to the good taste of our readers to say whether it is beautiful or not:

Old William Actop Acker walked yesselected in the wage system and political issues we shall have to meet. Though

On and around the cemetery an enormous mass of people had assembled. Bebel made a short speech and blessed "Father' Liebknecht's remains. No ministers were present. Deputy Singer made a speech at the grave and the Workingmens' Glee Club sang several selections. When the coffin was lowered many people called out: "Farewell, Father Liebknecht." By order of the wreaths. A memorial celebration for Liebknecht, which was to have been been dead at Weimer, was prohibited by the police.—Times-Herald.

William Acton Acker was taken to Crow hill.

To a New York World reporter Acker said:

"There's no use for an old man in this world. Business men want young mea, high steppers—fellows who dress well and look chipper. Fifty years is the dead line of life. I've crossed over without making my mark, and people, won't let me try any more. One day I walked up Broadway from the Eartery to 4d offices. 'Give me work,' I said: 'my kind. I'm strong and healthy. I don't drink and I have no bad habits. I'm just a healthy old man looking for a just a healthy old man looking posed. The desire of the capitalist for bers of the Socialist party and the were divided into rival factions as to who should have the spending of it. manner in which it is expended. It was With the Co-operative Commonwealth not through ignorance but through dethe idea that Bryan was the only salwould begin to think for themselves and then good bye to the function of the American as a stool pigeon

When the capitalist informs us that socialism will discourage inventors, he loubtless' refers to those journalistic geniuses who are now so busy inventing lies about socialism.

The "reds," whom the "civilized world" are preparing to exterminate, must not be confounded with the redshirted patriots who terrorized the negroes of South Carolina out of their right to vote. 24

They will be sold bility some equally ludicrous details for sixty cents a hundred or in lots of 500 or more, \$5.00 a thousand.

Surrender Means Treason.

The claim that the Building Trades another turn. Now it is the carpenters Marx, Engels and Liebknecht respect that are going to withdraw, according ively. to the capitalist press; The matter has seen submitted to a referendum vote of the membership, and the press conrolled in the interest of the contractors is using every effort to have that your east in favor of withdrawing from the be enough to tell the men how to vote. No matter what the character of the tion. individuals may be who compose that ouncil, the existence of the council itself is of paramount importance to the continuance of the trade unions them-

Nothing can be gained at this time by withdrawing from the council. It is simply trenson to suggest such a thing. It is, to be plain, nothing but wholecale scabbing. Will the carpenters vote to do this, or will they vote to stand by their fellow workers?

DON'T FORGET THE PICNIC TO-

interesting to note that the employers SNAP SHOTS BY THE WAYSIDE,

That "matchless, peerless," etc., lender, William Jennings Bryan, has accepted the nomination for president and has allowed his own "paramount" to be shoved aside, and the other fellows "paramount" substituted therefore.

It is sometimes disagreeable to tax the memories of people, but Socialists are compelled to do it once in a while so we would ask our readers to look through their school histories to verify portion of the product of labor for one the facts to which we call their atten-

> Before the Kansas City convention Bryan insisted, nay more, made it condifficual upon his acceptance of the nomination, that the "ratio" of 16 to 1 be specifically mentioned in the plat-

> But in his speech of aceptance he dwelt entirely upon imperialism and expansion and while the platform pledges itself to the "time-honored" princoln and Clay, which were delivered in opposition to the Mexican war, which was supported by the Democratic party of that day. He talks about govern and speaks of beneficent expansion with the "consent of the governed," when in the steal from our sister re public the people residing in the annexed portion neither consented nor was their consent asked for. In fact, the people of the territory of New Mexico have not even yet been "assimilat ed" and will not be until they are overwhelmed with immigration.

The Chicago Tribune in the course of a politico-economic article speaks of the difference of cost between a monarchy and a republic, and points out that the latter is more expensive. It says that five million dollars, which will have to borne by the two opposing capitalist factions. Although we don't consider this is an argument in favor of monar chy, yet there is little doubt that the expenditure mentioned is much under-

For instance, Bryan's acceptance of brought immense crowds to Indianapo lis. It is claimed that about ten thousand went from this city. The railroad patriots was arranged at \$5.75 per head. not including the expenditure for whiswill show that this performance, so far as Chicago is concerned, cost fully \$100, 000, and the circus is not over yet.

It has been estimated that every vote east for the capitalist parties costs be tween ten and fifteen dollars: The expenses for the Socialist campaign on the other hand will show that for every vote east, the sum of fifteen cents is laid out. We might, with propriety, recomished in the interests of economy, if for no other reason.

The decennial wrangie over the cen dus returns is on hand again. Every of population that its real estate boomers pretended it had, expresses its indignation in its daily papers, just because the people are not there. Just think! A quarter of a million more tramps or criminals would add to the value of real estate in Chicago, which increase would go into the pockets of the owners.

Then again the advantage of a flood ed labor market is also a thing to be desired by our manufacturing capitalists, and in this dissatisfaction at the census out building trades unions worying has a population of one million and and Harriman, socialism and their own three-quarters or two million, and igtheir fellow workers, upon which their existence actually depends. It is to be allow themselves to be fooled over the census question are not Socialists.

With Wilhelm Liebknecht passe away the last of the great trio which Germany furnished the proletariat of all lands. The brain, heart, and hand Council is about to dissolve has taken of modern socialism was exemplified in The first-named developed the brain be showing the historic and economic basis for the working clasmovement. The second gave the workers an understanding of their own hearts by the elimination of Utopian sentiment, while Liebknecht above al others was the man who translated and expressed their thought in political ac-The life-work of these three mer taid the foundation of the greatest economic revolution which the world has yet seen and which is now fast drawing to its crowning end.

The civilizing influence of the allied powers in China promises to leave an impression on the inhabitants of that country that they will not easily forget When we read in a press dispatch that the Cossacks after a battle slaughtered several hundred women and children, I srings to mind the fact that they are there as the representatives of that Prince of Peace, the Czar Nicholas, is an invitation to call again.

originator of the Hague conference, the ance of the century.

However, the news from China has been of such a baseless, lying character, that charges such as these may perhaps be more reasonably taken as a My Dear Sir:sign that the pioneers of civilization are preparing to quarrel with each other, with which they upbraided each other great deal of my time to the support of may be merely intended to excite "pub- democracy-was formerly editor of the lic opinion" in their respective countries Anna Democrat. All the time, at cerso as to furnish a "moral" pretext for tain same moments. I have realized that hostilities when the inevitable rupture the game of politics between the two old

It is already admitted in the capitalist press, that while wages are being paign along old party lines is nothing gradually reduced in the metal industries, there are orders on hand sufficient to keep most of the plants running till the end of the year. This really means until after election, and then-then-the platform building of the old parties well, then the fool workingmen will is not the question of how much goo have voted.

derbilt's residence on Long Island is a bility of this measure and how swframing pool, which will cost one mil- will be alienated by the absurdities." Hon dollars. When have applied myself with a good will contemptuously refer to the mass of the I was skeptical as to its practicability are uttering a truth which seems to fit perfectly when taken in connection with incidents like the above.

This man Vanderbilt is now in Lonbuilt by the same "great unwashed"), support in the present campaign, and having arrived in England a few days from now on until the battle is won. ago. He is evidently contented with the political situation, and has no fear that the wage slaves who are building his bath or the political tools who are looking out for his interests in Wash- is plenty of material to work on. The ington, will prove untrustworthy. The following interview with a news porter in London will bear out this

"How are you?" Mr. Vanderbilt said to an Express representative, who was known to him before. "What are you

"Looking for a millionaire." "Well, I suppose I am one of them," replied Mr. Vanderbilt.

replied Mr. Vanderbilt.
"I wanted one interested in American politics, and I do not think that is one of your strong points."
"No, I am afraid not. I leave all that to better men. McKinley will be re-elected, I suppose, for a moral certain-

trected, I suppose, for a moral certain-ty," replied the millionaire.
"Does that portend continued pros-perity in America?"
Mr. Vanderbilt smiled, and the inter-viewer tried finance, but the subject

Vanderbilt "smiled." His "moral certainty" was based upon the stupidity

supplys him with luxuries while they can hardly secure necessaries for themselves. When asked about "prosperity" he merely smiled. He knew who it was

The letters of acceptance of our pres ilential candidates, Eugene V. Debs and Job Harriman, furnish a startling contrast by their conciseness and definiteness when compared with the incoherent rot put forward by the capitalist candidates. The former are subjective to the principles of socialism in every line, while the latter are deliberately contrived to dazzle and confuse the workingmen, for whose vote these snares are laid. Debs and Harriman are the true representatives of the principles which when realized will make men free. Let every workingman do his duty and swell the vote for socialism on election day.

The issue of the Call for August 31st enough, many of them actually do. It right! We may expect to hear next is curious to see members of the locked that the aldermen have no right to sell public franchises to capitalists. What over the question of whether Chicago does the acting mayor think, that aldermen have laid out thousands of dollars to secure a seat on the council for? interests. It should be circulated by the northy the question of solidarity with "his curfatting of the "legitimate" profits of "business" is becoming intolers ble. Is a citizen to invest his capital line every Labor Day parade in this remembered, however, that those who in a political job and get no return for his outlay? Somebody will call Acting Mayor Walker a "socialist" if he destroys incentive in this manner.

As the political campaign proceeds, the oratorical efforts of capitalist can didates and politicians will be judged mostly by the length of their speeches The Socialist speakers have no need to cater to such judgments. It is merely cessary for them to bring home to the workers in the plainest and mest de rided language an understanding of their distinct material interests as a class. Although the capitalist speaker who often merely talk against time can have their efforts supplemented by the distribution of free beer and scal cigars, the Socialist is not handicapped in the least by this method of persua sion. His arguments are based upo cold facts and reason and will in the end prove more potent than those of his enemies, whose political rubbish and rot must necessarily be reinforced by the bribe of free drinks and tobacc to make it at all palatable.

HE STUDIED SOCIALISM.

And Announces the Result in the Letter Which Appears Below.

Herrin, Illinois.

Secretary State Socialist Committee Chicago, Ill.

I have been a Democrat all my life and the charges of murder and torture worker in that party. I have devoted a parties is nothing more than a matter of auction. The whole business of making a platform and conducting a cammore than a form of speculation, in which the promotors, stockholders and gates for each branch of the S. P. and managers are professional trained poll. S. D. P. managers are professional trained pollticians. The real standard of fitness in will accrue to the public from any pro posed measure, but rather, "How many One of the features of Win. K. Van- votes will be attracted by the plausi

While in Chicago last summer a fev capies of the Workers' Call fell into my and they alone make it possible for hands. I read them and attended sevthe class to which Vanderbilt belongs to the study of socialism. For a while workers as "the great unwashed," they and regarded it as a beautiful theory only. I am now convinced that it is altogether praticable and that it is the only solution of the world's industrial problem. I want to become a membe at large of your organization, and I ion, his luxurious private yachft, (also pledge you my earnest and active

I am willing to help the cause of socialism in every way that I can. There are two avowed Socialists with me at this place, both recent converts. There whole city is intensely union. There are three locals U. M. W. and one A. F. L. I shall do all I can to place Socialist literature in the hands of the better

'Imperialism" of No Interest Whatever to the Working Class.

Of all the fool schemes ever devised by the capitalist class to attract the attention of the workers and divide their strength while their pockets are being of the American working class, who picked, the "imperialism issue" is a little bit the "foolest." Free silver at least possessed some attraction for the man who owed a few dollars and who hoped to be able to pay them with cheaper dollars, although as far as the workers were concerned they generally were too poor to have ever been able to contract any debts and so were never interested in the "divine ratio of 16 to 1." But imperialism," this demand that men who are creating the wealth of the world and delivering it up to their masters, shall get mad at one another and quarrel about a lot of fingling, meaningless phrases concerning government that is indeed the height of idlocy. Of what interest is it to the worker whether the government under which he is plundered is ruled by king, emperor, president or czar? Is not his exploitation and slavery the same under all?

How is the laborer interested in the question as to whether his master shall Acting Mayor Walker states that the sell the products of his (the laborer's) appropriation of city funds for the en- toil under the stars and stripes in tertainment of the G. A. R. is illegal. China, or whether they join with the returns the workingmen are asked to That the aldermen have no right to use exploiters of Europe in the policy of the interest themselves, and strangely the city revenues for such purpose. No "open door?" What care the miners olling in the depths of the earth in Pennsylvania as to whether their masters sell that coal in Cuba, China or Europe? Will it put more food in the nouths of the sweaters of Chicago to confine exploitation to American soil?

Besides the whole thing becomes a raudeville farce when the Chinese question enters. Not a politician on eithe side but what is howling for war with China. Now if the war with China for expansion is all right what is the mat ter with the Philippines? The one is imply a bigger steal than the other. Imperialism is simply a wart on the ace of capitalism, but the whole creature is such a hideous object that removing the wart will not improve the appearance.

If Hearst's Chicago American stands for Democracy and Democracy stands for publicity of the trusts, why, by the eternal shades of Jefferson, don't he give the public some publicity now?

Publicity would not be in order just low, for the mere mention of the word 'Ice" sends a shiver down the spinal column of every good Democrat.

If this experiment of living on 15 cents per day is successful, those two cillions worth of products which "we cannot consume," will increase consid erably and make the necessity harqmering at the gates of Pekin, still more urgent.

We haven't heard that the working lass are exhibiting much sorrow over the death of Collis P. Huntington. And yet he had more money and gave more

CORRESPONDENCE.

For a Local Convention.

To the members of the S. P. and S. D. P. Greeting:—By the result of the referendum vote of the membership of the S. L. P. and S. D. P. the question of a national union has been definitely decided in the affirmative. It now only refiains to carry that decision into practical effect locally by merging the locals of the former organizations into practical effect locally by merging the locals of the former organizations into one united body (with a suitable constitution). For this purpose it has been thought desirable to call a delegate meeting of all the membership in this city for the purpose of adopting such a constitution and perfecting an organization of all Socialists who endorse the nomination of Debs and Harriman. mination of Debs and Harriman

You are therefore invited to send delegates to a local convention which will take place at 70 N. Clark street, on Sunday, August 26th at 10 o'clock a.m.

By order of Local Chicago, A. W. Lindgren, Sec'y.

A Good Example.

Editor Workers' Calk:—
On last Saturday evening an open air meeting was heid in the 22rd ward, on the corner of 22d and Commercial avenue. Miss Ashby, the English Socialist who is now investigating the conditions of the working class in this country, and Comrade John Collins were the speakers. The meeting was opened by Comrade Collins, who spoke for about ten minutes to a very large audience, when a Democrat who could not stand the fire which was being poured into his party, began to interrupt persistently, with the evident intention of braking up the meeting. Miss Ashby, however, stepped on the speakers' stand and in a few moments shut the disturber up as tight as a clam. I wish we had and in a few moments shut the disturber up as tight as a clam. I wish we had a few more lady Socialists in Chicago possessed of the same courage as Miss Ashby exhibited that evening. We have the talent amongt our lady Socialists, if they would only take courage and follow the example of Miss Ashby. Comrade Collins then took the platform and the meeting ended with loud applause from the audience. There was but one drawback to our complete success, no Workers' Calls were on hand for sale, and it is to hoped that all branches will not neglect to provide themselves with our party organ at their meetings. their meetings.

A Suggestion for Unity.

Ilterature in the hands of the better educated unionists between this and olection.

Please remember I stand ready to serve the party to the end of my ability. If you can give me any pointers to help me along in the work it will be a service to the party.

Yours fraternally,
Peyton Boswell.

A Suggestion for Unity.

Editor Workers' Call:—
On Sunday, the 10th inst., a' well-attended meeting took place in Lauterbach's hall, 55 N. Clark street, which was called together with the object of promoting unity of all Socialist forces in the coming election. There were present, representing the Brewers' and Malsters' union, two delegates: Metal Workers' union No. 2, two delegates; Metal Workers' union No. 2, two delegates; Turn Verein Editor Workers' Call:—

There were present, representing the Brewers' and Malsters' union, two delegates; Turn Verein Editor Workers' Call:—
On Sunday, the 10th inst., a' well-at-tended meeting town in Lauterbach's hall, 55 N. Clark street, which was called together w No. 9, two delegates, Turn Verein Eiche, two delegates; Arbeiter Sick and Death Benefit Association, 3 branches with five delegates; four officers of the N. E. B. of the S. D. P., two of the organization-committee S. D. P., and the Central Committee (Bohemian) of the S. D. party with three delegates. The representatives of the union suggested that the officers present invite both Campaign Committees to meet and arrange a joint campaign for Debs and Harriman, then invite the unions to assist in and support the campaign morally and financially. A resolution was adopted protesting against the high-handed and illegal action of the police in prohibiting the meeting called at the Twelfth Street Turner Hall, thereby violating the constitutional rights of the people. A motion was passed sending a message of condolence to the comrades in Germany on the death of the veteran champion of the working class, Wilhelm Liebknecht. Jacob Minnen acted-as chairman of the meeting, and A. S. Edwards, Jos. Svoboda and P. Knickrehm as secretaries in English, Bohemian and German, respectively.

Peter Knickrehm.

The greatest Socialist event of the Blue Island, August 19th. Every Socialist in Chicago will be there with all their friends.

The privilege of selling literature at the Liebknecht memorial meeting has been leased to the Workers' Call board

The Coast Seamen's Journal is comwar. They are asking that McKinley be memorialized by the different trade unions of the country in order to stop the practice. Some day they will find that the only kind of a memorial that has any effect upon our present organization of society is a Socialist vote.

Drummers and the Trusts.

The National Democratic Committee of Commercial Travelers has just put out a tale of woe that would break a heart of stone. They complain that practically every kind of food product is in the control of a trust and a list of twenty-two such terrible creatures is given which are said to have dispensed with 10,370 commercial travellers. Just what these poor fellows expect that the Democratic party will do for them it is hard to say. Do they imagine that Bryan will pass a law instructing their former employers to pay them their former wages while they sit in the office, for there will never be any more need for them to go out on the road and his about each others' goods? Society has found that this loes not warm or house or clothe or feed anybody and that there is less profit in fighting than in producing, and so they will produce. If the drummers really want to do anything for themselves they had better get in line with the Socialists.

See that every union man in your lo-callty has a copy of the Lador Day is-

Bryan's acceptance speech is an ex-elient illustration of the "mountain in abor which brought torth a mouse.

The Political Situation.

threshed out. But here we are again in front of a "paramount-ER" issue.

anyone or about anything. We are not home markets, now for foreign matskilled in the use of diatribes. As a kets. Capitalism is rising to its climax member of this big family of American It must and will practically cover the brothers, however, we have some good- world. And "militarism," "expansion, natured remarks to make.

Two great parties, the Republican over the "paramount-ER" issue, and are contending for the vote of the p-o- EIGHT ple, for the offices in the gift of the of home workshops. people, and for the consequent administration of the affairs of the people There are other smaller parties as protests against some form of social and of Chauncev M. Depew at the Republiof some needed reform.

THE REPUBLICANS.

The Republican party, originally or ganized on the basis of the Declaration of Independence, and as the party of freedom and social justice, on behalf of the slave, is today the party of power and money, of conservatism and capitalism. Its convention was composed largely of the representatives of "business" interests, "financial" interests, "trust" interests, "corporation" interests,—in short of the representatives and supporters of CAPITALISM, The moving spirit, and high-priest of the convention was a millionaire, Mr. Mark Hanna, a man of such wealth and financiai power as to be the very incarnation of capitalism. The only possible names before the convention were those of William Mckinley and Theodore Roose-

Under McKinley's administration capitalistic prosperity has almost come to a climax, and under his tender care, and tehder policy the "Trust" octopus has become in reality a huge and uncontrollable brute, the ruler of the State, the controller of the press, and the hypnotizer of the pulpit.

A low type of militarism is the natural accompaniment of capitalism in order to extend markets, to protect property, to suppress labor riots, and to be the necessary plea for a cheap and sickly patriotism. So the Republican nominee for vice-president stands for the present spirit of war and militarism that is sweeping the country. He is the chief of the "rough riders." Republican editors have suggested that the campaign slogan of the Republican party be the yell of the "Rough Rider" chief at the battle of El Caney, "Give 'em hell, boys!"

Capitalism, and its necessary inglorious militarism, have joined hands a the head of the Republican party in the person of William McKinley and Theodore Roosevelt.

Personally, I have no doubt of the personal sincerity and, integrity and average political probity of these two men: but, I cannot look upon the Re publican party except as the very synonym of Capitalism. It should change its name to "The Capitalist Party:" the party of trusts and monopoly, of privilege and plutocracy.

THE DEMOCRATS.

The other great party is the Demo-eratic party. We need not mention its two leaders. It has but one, Wm. Jennings Bryan. Mr. Bryan is the man who discovered the "paramount" issue on which the people divided four years ago: 16 to 1. And he is likewise the man who discovered the "paramount-ER" issue of the present campaign: III. Bryan is an honorable man-a very honorable man. He is rather the most honorable man before the American public in the old parties.

Now the Democratic party has had a peculiar history. Its priests quote efferson's immortal phrase, "Equal rights for all and special privileges for but at present it is strangely silent about its attitude fifty years ago when the Republican party was organized for the freedom of the slave As the Republican party has forgotten Lincoln the Democratic party had then forgotten Jefferson; and it was the party of the slave power, the mos ghastly and horrible privilege which up to that time had cursed men. The Democratic party, during whole long struggle for human liberty has a record that had better female in the dead past. Since that time I fail to see one iota of good for which they have stood. A Democratic editor, with keen sarcasm, speaks of some of the words in the Republican platform as easel words," that is, words like eggs from which weasels have sucked the meat; hence meaningless, though pre-If I might good-naturedly return the satire I would say that the Democratic party is the present "weaevery reform egg which the people bring forth. Witness how they have "weaseled" the Populists and now they are creeping on the Socialist ranks. We can only say, "Beware!" Of late years they have been discovering "the other While refusing to stand heavely for the real issues before the people. it has forced upon us comparatively uscless or partial issues

THE REAL ISSUE.

GAIN our great country is anti-capitalist. They are anti-imperialist. Dut imperialism is the side-issue of political excitement. We have capitalism. Imperialism is to capitalscarcely recovered our breath ism what Teddy Roosevelt is to Wm. the "paramount" issue was McKinley-Imperialism is the VICE of capitalism (pardon the pun).

We live in a great industrial, com-The "paramount" issue of four years petitive capitalistic age. For a century ago sleeps in the cemetery-devitalized. the workshops of the various countries We have no editorial ink to throw at have been competing: formerly for "imperialism" are the necessary accompaniments of the Industrial nations and the Democratic, have locked horns of the world in the extension of foreign markets for the vast unused production

DEPEW QUOTED.

On this point let the ringing speech political wrong, or as standard bearers can convention bear witness. This was the speech that stirred the convention to the very soul:

"What is the tendency of the future? Why this war in South Africa? Why this mamering at the gates of Pekaa Why this marching of troops from Asia to Africa? Why these parades of people from other empires and other tands? IT IS ESCAUSE THE SURPL. S. PRODUCTIONS OF CIVILIZED COUNTRIES OF MODERN TIMES ARE GREATER THAN CIVILIZATION CAN CONSUME. IT IS SECAUSE THIS OVER-PRODUCTION GOES BACK TO STAGNATION AND TO POVERTY.

The American-people produce \$2.000,0000 worth more than we can consume, and we have met the emergency, and, by the providence of God, by the statesmanship of William McKlinky and by the valor of Roomyelt and his associates (applause), we have our market in Porto Rico, we have our market in Hawali, we have our market in the prices, and we stam in the presence of \$500.000.000 of people with the Pacific as

waii, we have our market in the Fining-pines, and we stand in the presence of 500,000,000 of people with the Pacific as an American take and the Acceptant artisan producing better and cheaper goods than any country in the world, and, my friends, we go to American la-bor and to the American farm and say that with William McKialey for arthat with William McKialey for ar-other four years there is no congestion for America. Let invention proceed, let production go on, let the mountains bring forth their treasures, let the fac-tories do their best, let labor be en-ployed at the highest wares, because the world is ours and we have con-quered it by republican principles and by republican persistency in the princi-ples of American industry and of Amer-ica for Americans." (Applause.)

Putting Chauncey's eloquence in s word it runs thus:

"Why this militarism, expansion, im perialism? The only answer in-Capitalism! The capitalists, by the providence of God and by the statesmanship of William McKinley, controlling the natural resources by which the workers of America live, have annually two billion dellars worth of goods left (after the workers are paid ? -? ?) more than we can consume. Foreign markets must be opened; therefore, expansion, militarism, imperialism."

Chauncey showed the whole hand of the capitalist party in that stirring republican speech. That is what I said Imperialism is to Capitalism what Roosevelt is to McKinley-the VICE thereof and necessary accompaniment,

But the Democrats fail to see this Four years ago they failed in a similar manner. What Imperialism is to Capitalism now, the gold standard was to Capitalism then. They then fought the tail-end issue. They could not see the head of the animal for his bushy tail. They shot at the tail and lost ammunition-not their cause. They had no cause to lose. A cause never dies. Debs and Job Harriman have done more for the laboring people than all the poll-

alism. And William Jennings It is the same again today, The Demograts have discovered the enimal the United States. in his lair-TAIL out. And they seize upon the tail and mistake it for his head. It is barely possible that they may pull his tail out, and therewith adorn Tammany braves, but the real devil that is destroying the people, and menacing the republic, will still live.

CAPITALISM VS. SOCIALISM.

Capitalism is the only issue before the American people, and before every other people of western civilization. It can be met by one principle only-SO-CIALISM.

Either capitalists and capital will own the people or the people will own the social capital.

The trusts will own the masses or the s will own the trusts. The former is Capitalism: the latter

On a thousand details we may differ and many such details will have to b threshed out but on the fundamental principle those who care for men befor ney must and will unite.

WHAT THE PEOPLE SOCIALLY NEED THE PEOPLE MUST SOCIAL LY OWN. That is, SOCIAL ownership in the original resources, and PRIVATE ownership in the products of one's toil

The editor of this magazine, while re fusing to be partisan in any sense of the word, and while refusing to enslave himself by partisan politics, shall cast his vote this fall for SOCIALISM, and for the Socialist candidate, Epgene V

As Mr. McKinley is the natural nomneer of Capitalism, and Mr. Eryan the natural nominee of those who are no capitalists but would like to be, so M: Dehs is the natural pomiace of the WORKERS of America, and one solid million of us about go to the polis and

vote for Socialism, to show, at least our sense of justice and our common sense analysis of the present political

None of us can prophesy what will happen three months hence. I would vish to see Mr. McKinley properly installed to carry Capitalism to its proper limax. But the flourishing of the ani mal's tail-Imperialism-may so annoy many peaceable citizens that they may rally to pull the tail out, and elect Mr Bryan, Panic untold would immediate ly follow. Capital, wounded; would lie sick. And the Democrats HAVE NOT ONE SINGLE PROPOSITION AS TO WHAT SHALL BE DONE, except to withdraw the thousands of our troops from the islands and add that many more men to the "army of the unem ployed" at home. But I would risk the prophesy that McKinley will be elected For ourselves, now is the supreme mo

ment in which to educate the workers in the principles of social and political righteousness. We will use the excited hour as a fit one in which to call the people to the principles of justice and rightcousness which must be put in our social, industrial, and political life When the smoke of the political battle is cleared away you will find us still at work as before and during the campaign preaching righteousness, justice and brotherhood, and teaching thos forms of socialism and of renewed political machinery in which this Brotherhood shall find expression.

J. Stitt Wilson, in Social Crusader.

LABOR ITEMS.

Notes From Trades Union Journals and Exchanges, Throughout the United States.

Sweeping injunction has been issued against the striking cigarmakers of Dayton, O.

Trouble on the Canadian Pacific railway. The company is attempting to disrupt the unions.

Canadian miners have taken up the study of socialism, and meetings are being held under auspices of unions Now the marble cutters are catching

it. A recent invention enables the workman to strike 6,000 blows per minute, as against 30 by the hand process. The kicking S. D. P. branch of Phila-

delphia fell in line with the united party. Eight trades unions also sent delegates to the combined party convention.

The electrophone is a London innovation. Now the aristocrats may sit at home and hear the opera as presented in leading theatres. Bellamy was a dreamer, was he?

W. C. Bowman, the famous California Populist orator, refuses to take the stump for the reformers, and states in a letter that if he does any speaking this year it will be for Debs and Harri-

Striking fishermen of Vancouver, B. C. 1.500 in number, lost their fight. The capitalists combined and now the fishermen are seriously considering the advisability of taking political action along the lines of socialism.

The metal workers have organized a national union with 27 locals. They appear to be conscious of the fact that there is a class struggle on, for they declare the capitalists and laborers do not have interests in common, and for that reason they call upon the laborers everywhere to organize.

The Miners' Magazine, national organ of the Western Federation of Miners, after studying the old party platforms says: "We fail to distinguish any difference between the Republican and Democratic parties, and Eugene V. Debs and Job Harriman have done more ticians in the two old parties, and deserve the vote of every workingman in

DeLeonism in the state of Massachusetts has received a body blow in the courts, where its adherents miserably failed to prove their title to recognition as a political party. The decision informed them that they had no legal standing, thereby upsetting their claim to represent socialism in that state. This is not a favorable year for oneman movements anyhow, as the worshipers of the "brofessor" will find out to their cost.

A funny thing happened in New York. One of DeLeon's S. T. and L. A. strike breakers named Gellerich, with his wife, was given a job in Mondy & Lederer's, a non-union cigar factory. As soon as the other employes saw the Gellerichs they called a shop meeting and demanded that they be discharged or a strike would follow. The employes said they vere had enough in being unorganized but they were no braitorous strike breakers. The Gellerichs were discharged.-Cleveland Citizen.

LOCAL NEWS AND NOTES.

At a convention held by the 4th ward branch on Monday, August 13, at the 4th ward club rooms, Comrade Louis Dalgaard, 3445 LaSaile atreet, was nominated as sinte representative from the 5th senatorial district.

Members of the 14th ward branch are requested to attend a meeting of the 14th ward Skandinaylan branch at Brewster Hell, 789 W. North avenue, on Wednesday 27nd inst., for the purpose of amalgamating the two branches. Full attendance requested.

A meeting was held at 175 Dayton street to form a 20th ward branch. On account of some business some members were unable to be present, so the meeting was postponed until Friday night, August 13th, when a branch will be formed and open air meetings arranged for.

At the convention held at Oskaloosa, In., the Socialists declared unequivo-

At the convention near a Caranosa, Ia, the Socialists declared unequivo-cally for unity of all Socialist parties, and declared their intention to support organic union. They will however, withhold their support until that unity is perfected. The candidacy of Eugene V. Debs and Job Harriman as president and vice-president proceedingly. and vice-president, respectively, was unanimously indersed.

The members of the lith ward held a business meeting at Shoenheron's hall, Ashland and Milwaukses, and elected a committee of two to meet the Skandinavian branch, (Fourteenth ward), to amalgamate the two branches. The meeting was enthusiastically in favor of union and has made a call upon its members to attend in a body, the Skandinavian branch meeting Wednesday, August 22, for the purpose of joining the branches. The branch subscribed \$5.59 for the campalga fund. Keep up the good work, comrades,

A mass meeting held by enthusiastic workers for socialism at Dyas Hall, Kimball and Cullom avenues, formed a new branch of the 27th word, known as No. 2. Tweive, members joined the branch and repudiated Democracy and Republicanism. Officers and delegates were elected to Central Committee. Their fusiness sneetings will take place 1st and 2rd Saturdays; open air meetings Sunday nights, corner Irving Park boulevard and Elston avenue. Unattabled Socialists and all workingmen in the vicinity should join the branch and help the cause of socialism. A mass meeting held by enthusiastic

In Working Order.

-Springfield, Massi, Aug. 4th, 1900. To the Comrades of the Social Democratic Party:-

I desire to inform you that due stamps are ready and are being forwarded to the various state committees just as fast as it is possible to do so.

Due cards, applications for charters, applications for membership, constitutions and platforms have been or will he sent shortly to all state committees, to whom locals should apply at once for a full quota.

In states where there is no state committee locals can apply to the National Secretary: In states where such committee exists, locals must apply to them for the necessary supplies.

The following prices will be charged: Due stamps, 19 cents each; for due cards, 40 cents per hundred; constitutions and platforms, 50 cents per hundred copies; application cards will be furnished free by the state committees on demand.

Secretaries of locals should at once instruct the members to choose the party organ they desire, and send to the National Secretary a list of names and addresses of subscribers, together with the 10 cents from each for quarterly plain statements which we now make to subscription. No papers will be sent on you. If it is "political taffy" to tell the credit.

In order that a correct record may be as regards their class interests is reand of all members in good standing in sponsible for the evils they suffer from, the Social Democratic party, I would you will surely see that it is quite a request that secretaries of all locals different sort of sweetmeat from that furnish me as soon as possible a list of dished out to them by Republican and nembers enrolled.

Yours fraternally, Wm. Butscher, Nat'l. Sec'y.

Literature at Meetings.

out-door meeting with neither papers, of hearing, or merely making a mistake It is such work as this that discourages speakers, and workers and doubles the task of those comrades who really have enough energy in them to work. If a branch asks for a speaker they should be prepared to do all they can to make should at their next meeting elect a liter try agent, who should be a member of the campaign committee. should be his duty to see to it that there s a bundle of Workers' Calls at every neeting, also a good supply of Socialist or distribution. Another comrade should be appointed to see that petition; and subscription blanks for the cam saign fund are circulated at the close of he meeting. These things are of equal f not greater importance than the work

New Socialist Arrives.

On Sunday, 5th inst., a son was born to cur comrade John Gillespie of 1812 Washington boulevard. Mother and child both doing weil. Comrade Gilles pie came into our office the other day and appeared so well satisfied with him self that we suspected that something out of the usual had occurred, and upon nquiry elicited the information above given. The happy father informed us also that the new arrival would mos ertainly become a Socialist, a piece of information which we considered on the whole as being superfluous. Twenty ost probably be classed as a freak and from what we know of Comrade ermany will convince the Kaiser that Gillespie there is no reason to suspec-him of being responsible for the pro-duction of anything that could possibly

ECHOES OF SOCIALISM.

Comrades in Genoa, Ill., Reply to the Misstatements of the Local Capi-talist Editor.

It seems that the visit of our Comrade Berlyn to Genos. Ill. has caused a ripple of excitement in the calm and peaceful bosom of the capitalist society in that locality, which was not yet subsidthing over \$300.00, the balance being ed. The local journal, true to the methods pursued by its metropolitan brethren, came out as follows, a few days after the meeting in question:

tween the hours of 8 a. m. and 6:20 p. m. and let me know exactly what you are As announced last week, Mr. Berlyn, as announced list week, ar. Lerbyn, a representative of the Socialist party, delivered an address to a small audience in the grove in the rear of the school house last Sunday.

His theme was directed principally against the capitalists and the trusts, the theorems of his converts by stated. able to do in the mater.

In the course of his remarks he stated that six years ago his party polled one vote in DeKaib county, four years ago two, votes, and two years ago railled a total of twelve in the county, and he expects to see a large increase at the next electrons.

Our townsman, J. Franssen was or man should be forced into such a post-Our townsman, J. Franssen was on man should be forced into such a positive to some of the crowd. This was the first campaign speech in Genoa and from new on we will hear of them often. Campaign taffy will be tweet and thick degrade the poor; why the rich though degrade the poor; why the rich, though but after election it soon sours.

producing nothing, and living in lux-The Socialist comrades in Genoa were ury, often in riot and debauchery, are by no means content to allow this misgrowing rich more rapidly than at any leading account to pass unnoticed, and period of the world's history, and why our workingmen, (the producers of all have sent the following open letter in reply, requesting its publication in the wealth), are steadily and surely growcolumns of the Workers' Call;

tively as to be almost imperceptible, and yet are you aware that 266 out of our 330 congressmen are lawyers, while they are, in proportion to their numsaid at first, that Socialists are well- over? Did you know that these 266 accustomed to address much smaller agents of the capitalists are assisted by meetings than the one held in the nine bankers, whom the votes of the laschoolhouse park, but that year by year borers of the country have sent into the their audiences have grown continually halls of congress? And do you know larger. In fact they are growing so the great study of these nine capitalists large that Republicans and Democrats and their 256 attorneys or agents is to are now giving evidence of their displeasure by attempting to interfere, dis- to absorb the greatest possible amount rupt or prohibit them upon every possiof the fruit of the laborers' toll, and ble occasion. You as editor of the Geexcite the smallest amount of suspicions noa Journal may perhaps not be aware while so doing? Are you aware that the of this, owing to the fact that your producers, whose numbers would entiisolated situation combined with your tle them to 248 congressmen, send not a ignorance of the growth and nature of single one of their own number to repthe movement, preclude such knowledge esent their own class interests, when upon your part, but it is not fair that common sense should teach them, they your readers should suffer through your have it in their power to make laws lack of knowledge, although like every that will forever put an end to the other American citizen you have the intrust, the great monopolies and the alienable right to make a fool of yourwealthy generally, from riding upon self if you feel disposed, and the Sotheir backs and absorbing the product cialists would be the last to deny you of their labor? Are you aware that the that privilege. If you like to consider great daily press is owned by the capithis "campaign taffy," it is your priviltalist class; being run exclusively in their interests? That it is in fact their ege to do so, but if you had listened and understood the remarks of the speaker nouthpiece, and run to fool and deyou criticized, you would have discovceive the producer; to pull the wool over ered a remarkable resemblance to the his eyes, so to speak, and induce him to vote for the very system by which he is exploited and degraded? These are working class that lack of intelligence all solemn facts which should be theroughly studied by everyone. And now, ast of all, permit me to ask: Do the capitalist class use your vote to help perpetuate a system so unutterably damnable?

Respectfully, J. E. Nash.

Socialism in Quincy.

Quincy, Ill., Sunday, Aug. 12, 1900. Comrade Robert Rives LaMonte ter the fact that your statement is de- day and stirred things vio. The evening void of truth. Socialists do not now and meeting was specially successful. The never did "speak against" either. They audience showed deep interest, and a ould not if they would and would not if gust of wind which burst with great suddenness and seemed to be the beginning of a violent storm was powernize in the trust the highest, most de- less to disperse them. The audience veloped, and best organized form of lingered a long time asking questions. apitalist production, and they would and listening to the speaker's answers,

The local comrades are much encouraged and expect to organize a strong and active local during Comra Klenke's visit this week. Besides the old guard of faithful workers who have always supported Section Quincy, Comrade Wilbur Costello of 223 N. Fifth street, who has not hitherto been identified with the organized movement, did much to contribute to the success of Comrade LaMonte's meetings. ist it is no mystery. He knows that in Quiney will be heard from in November.

"Free Speech" Again.

We have received a copy of the Cleveland World containing an account of but unlike capitalism, it must depend editor of the Cleveland Citizen, for outdoor speaking. The pretext for the arrest was the stereotyped one of "dis-How many copies of the Labor Day orderly conduct," the police alleging that Comrade Hayes called the mayor of the city a "foul name." From our The exclusive right to sell papers and wn experience in Chicago we know ex-Socialist literature on the picule activ the amount of truth which such grounds will be reserved for the benefit charges usually contain of the Workers' Call, who will have a Hayes, however, intends to fight the stand filled with all forms of Socialist case to a finish, and it is most likely that the powers that be will find their efforts at suppression replied to by an increased Socialist vote. Comrade August Klenke will speak at

Democracy is the Dead Sea fruit of colities; all is fair to the eye but inside

Youth and Old Age

(Continued from page 1.)

There is nothing particularly unique about this. Nothing which would justify the raising of a calamity howl over the woes of this aged individual. It is merely an ordinary, everyday experlence of thousands similarly situated. The details of course may not be exactly alike. Some men in like circum stances rid the earth of their unwelcome presence by hanging, drowning. shooting or poisoning themselves, or by some other method of suicide. Some become wanderers, beggars and tramps and others again find their way into the penitentlaries, having first tried what this unfortunate old man attempted to avoid, that is, theft. Others, again, and these last perhaps the majority, are still engaged in the hopeless quest for work, with the prospect before them of ending up with the jail, the aims house or suicide.

We can well believe that this old man didn't drink. He could not very well indulge the appetite. But it is not so certain that he had no had habits. Isn't the habit of growing old to be considered a bad habit when it brings results like the above? And unfortunately we are all without exception addicted to that habit. What a beautiful world we might have if people didn't insist upon growing old !

This old man didn't want to become a thief. He doubtless thought thieving was a "bad habit," but he managed to secure a six months' tall sentence without giving way to the temptation." What is a thief anyhow? A thief is a fellow who takes what doesn't belong to him without giving an equivalent for it. There are two sorts of thieves. One species steals under cover of the law

and the other steals outside of it. It is generally the latter sort that get sent to jail. The former make the laws and can operate safely under their protection. Old man Acker couldn't get in amongst the first set. There was too competition. Besides he most likely didn't recognize them as thieves because they are generally called som other name, such as financiers, capitalists, smart business men, etc. And they didn't want anything to do with him because he was too old-had already been robbed-there was no swag. no profit, no surplus product to be

When he was younger he most prob ably helped by his vote to put this class in a position to make or continue making the laws by which they were enabled to rob him and his class. He was a good Republican or Democrat also a patriotic American citizen, but unfortunately for himself, he contracted the evil habit of growing old, and paid the penalty for his wickedness by going to jail for six months.

gained by employing him.

This isn't a "beautiful dream" by any means. Neither is the system which makes such things possible. Every individual wage carner is, growing old and has a similar prospect before him. With the suggestion that the study of Socialist literature might show how to avoid it, we take leave of this subject.

They Dare Not.

with the rot about Republicans contributing to the Socialist campaign fund it might be well to say that up to the present time the only party that has dared to publish the complete list of all contributions to its campaign fund is the Socialist party. Will the Chicago American do the same for the Demo-cratic party? We fancy it would read something like this: New York Ice Trust, \$500,000; Copper Trust Clark of Montana, \$500,000; Perry Belmont, \$200, 600; Standard Oil and Idaho Mine Owners, (for services performed in the Coeur d'Alene), \$1,000,000, ego.

Men Versus Horses.

scious commentary upon the value of human life may be found by those who can read between the lines news furnished in the capitalist press. In giving a list of deaths which occurred recently, due to the intens heat which prevailed during the last ten days or so, the Chicago Tribune of the 12th inst. also furnishes a list of the number of horses which succumbed to the hot weather. It makes a careful calculation of their value in dollars and bewalls the loss incurred by their owners, but not one word is said about the value of the human victims who in many cases were teamsters actually en gaged in driving these horses. The laorer and his children and those otherwise dependent upon him are about the cheapest product of the century. The loss of a horse can be replaced with difficulty, but the human being of the wage working class, not being the prop-erty of any particular capitalist, is therefore never missed, thousands be-ing always ready to take his place.

Are you still hustling for subscribers? | Send in a club of ten this w

SECOND and bookkeepers. At last a younger man took my place. Then came the was great. That's another reason why women; salaries were cut and signin I was out of work. I haven't tasted illiquor in fifteen years. "Since I've been tooking for a job i've seen things lying about. I began to argue that I might take them—might pawn them for food. I wondered why some people had so much and I so little. My hands began to itch. The temptation I'm here—to prevent myself from becoming a thief." Acker comes of an old New York family. He has documents to prove

Calumet Grove, Blue Island, family. He has documents to prove that his grandfather was a drummer boy in the continental army. His grandfather lived on Great Jones street and was the first clerk in Washington market.

HONOR HIS MEMORY

Liebknecht Mass Meeting at Garfield Turner Hall.

HIS LIFE WORK AND EXAMPLE.

Workingmen Gather to Commemorate the Death of the Champion of Their Class.

A mass meeting of Socialists, number ing some 1,500, assembled at Garfield Turner Hall, Garfield and Larrabec streets, to honor the memory of our late comrade, Wilhelm Liebknecht, who died in Charlottenburg, Germany, August 7th. In spite of the excessively warm weather the meeting was an unprecedented success and evinces the interest taken in socialism by the toilers as the economic stress presses harder.

The chairmen were Mr. Hunter in English and C. Fritz in German, Mr. Hunter introduced Comrade B. Berlyn, who presented a glowing tribute to the late comrade, and particularly, dwelt upon the fact that Liebknecht wrote the book entitled "No Compromise" and lived "No Compromise." He scathingly arraigned Millerand of France for accepting a position as minister of commerce, and said such a man-is an opportunist and a compromiser. The speaker stated the basis of socialism was the class struggle, that our strength lay in our antagonism to can-Italism, and that the gulf between eapital and labor could never be bridged by palliatives and reforms, but only by socialism.

The German Singing Societies were then introduced and rendered some excellent singing of Socialist songs. The next speaker was Jules Valteich, in German, who was a member of the German Reichstag at the same time with Liebknecht, and he gave an outline of the life and struggles of Liebknecht, his exile to London, and stated that while the late comrade was editor of the "Nordeutsche Allgemeine Zeitung" Bismark had the stock of the paper bought up and offered bribes to lebknecht to run the paper as a Bis-arkian organ, which attempt was repulsed, and forced him again into poverty. The speaker repudiated the action of Bernstein and classed him as a stool pigeon of capitalism, and also arraigned the newspapers of Chicago for which we must attribute to their ignorance of economics or deliberate lies The speaker finished with a fervent appeal to all Socialists to stand for what Liebknecht fought and suffered for.

The next speaker was Comrade Simons, who spoke of the struggles of Liebknecht to educate the proletariat, of his exile, his sufferings, and urged every Socialist to be a Liebknecht himself, and that the cause will grow stronger as every toiler endeavors to emulate the character of the dead com-The Singing societies again assembled on the stage and rendered another Socialist song which was greeted with rounds of applause. The speaker, Comrade Morgan, was introduced, and in a tribute to Liebknecht compared Bismark and the late comrade, one as a man of "blood and iron," Lieb, love, and knecht as service. He contrasted the life of the late comrade with the lives of Astor, Vanderbilts, Carnegies, Pullmans, and stated they were all the product of capitalism, the capitalists the worst product, and the Liebknechts the best.

He sold Liebknecht was not dead be still lived in the hearts of the tolling ing for socialism, and that long after the memory of this meeting and the Liebknecht would still live on, and that we naid no tribute to the dead clay but to the thoughts and acts of the mighty The resolutions were then intro duced and read. They were endorsed by a standing unanimous vote, and orcomrade. The resolutions were as fol-

The meeting then adjourned with enthusiastic applause. It was held under the auspices of the Socialist Singing so cieties and the Socialist party.

ANTI-MILITARISM.

How the Belgian Socialists Meet the Capitalist Proposals for "Opening" -New Markets.

As an answer to the appeal issued by the mayors of four of the largest Bel gian cities for the purpose of organiz ing an expedition to go to China, the Federation of Brussels Socialists have posted the following placard upon the walls of Brussels and the suburbs:

BELGIAN SOCIALIST PARTY.

The Belgians in China

For the purpose of caring for the 80, 000 consumptives that we have in Belgium, of which 18,000 die annually, a committee of devoted men were only able to raise a few thousand francs during several years, the state and public powers in general showing no interest in the matter.

To send Belgian volunteers to slay in China, a committee of business men and militarists secured more than three million francs in one week, and the mayors and the ministers of state were at the head of the movement.

Belgians, Be On Your Guard,

An effort is again being made to arouse the military spirit whose deadly facts we have learned to know so well since 1830.

Mothers of Families! You Will Soon Weep For Your Sons.

They Must Die: Why?

Because they go to China as the Eng lish went to the Transvaal, to defend the interests of a few great stockholders, who lack the courage to go themselves.

Citizens, reflect upon these facts of capitalist politics!"

Besides this they are carrying on an active agitation among the soldiers to keep them from accepting service in China. If the Socialists of other countries were as well organized and equipped as those of Belgium the capitallsts might have some difficulty-in organizing these little plundering ex-

Steps have been taken to form an international organization of the young voting age. They will hold a con gress at Paris on the 23rd and 24th, and Such organizations are already existing in France, Denmark, Sweden, Norway,

The Campaign Fund.

In the midst of the present political campaign on one side there is wailing and gnashing of teeth, and on the other nothing but smiles and hopeful

Why? Because they tell us that one crowd has "money to burn" as a campaign fund, and the other crowd has none That's what makes one crowd jubi-

Can we jubilate?

WE CAN ?-but it depends on YOU. Don't you know that a big campaign fund is needed to carry on the meetings-to keep an organization in the field in the city-to keep a man going through the state ?

Don't you know that for every dollar we of the Socialist party spend, it costs and overcome, and they CANNOT OVERCOME its effects.

"ALWAYS WITH YOU" GOOD TO THE NEGRO

Bishop Potter of New York on the Republicans Tell How Much Their "Rich and Poor,"

AN ADVOCATE OF CAPITALISM. OFFICE HOLDING AS A BRIBE.

Present System Under a Re-

Private capital in the means of the ease fastened on the human body is giving evidence of the effects which it produces in the body politic, and, as in the case of the man afflicted with disease, who tries to persuade himself that he is not seriously sick, and who takes every means but the right one in dealing with his disorder, the ruling class is trying to persuade itself and to get the people to believe, that the symptoms which indicate chronic disorder in our international society, can be dealt with in regular capitalistic fashion to the destruction of the evil and the ultimate benefit of all.

Bishop Potter, of New York, had an article in last Sunday's Chicago American, set up in large type with many headings of larger type over the various paragraphs, and his picture set between two artistic candelabras in the center of the printed matter, the whole designed to catch the eye, and through the the voters in the southern states of were enabled for a short time to foreye the mind of the reader who can e awed by the display of ecclesiastical forehead, neck, dress and signature, to the exclusion of logic, consistency and force in the subject under discussion. He writes of "The Teachings of Jesus Concerning the Rich," and "the power of wealth," "the peril of riches" and "the dangers of the rich man from which the poor man is happily free. He seems to write from an idea in his mind that there is an antagonism to wealth existing in society, and then he uses the word wealth as being synony mous with a capitalist. He doesn't care to contemplate what would happen should half a dozen rich men disinherit themselves, tomorrow morning giving fifty millions of dollars to the That is, the Republicans have taken poor, and concludes, (after refusing to a certain set of stool pigeons out of the contemplate), that the "possession of negro ranks and given them governriches is not inconsistent with 'our' Christianity nor alien to it." He notes the power of the possession of wealth right. This is incidentally a pretty fair Holland, Germany, Belgium, Italy and extinguish those finer traits which parties "help" any class of the workers. make life sweet and sunny, to make The Republicans are careful not to tell heaven and the life that is to come unlonged for, and after expatiating on they could at once stop the work of the dismal prospect of the rich man Tillman and his crowd of Democrats standing at the gates of heaven and looking back on the houses and lands. United States constitution providing bonds and bank stock, etc., he turns for reducing the representation of any other nothing out said peace reigns and off to fit the quotations, "The poor ye state that disfranchises any of its citihave always with you." and "Charge zens. But the Republicans have no de-them that are rich in this world's sire to do this and the reason for it is goods," against such as, "sell all thou given in the following item that aphast and give to the poor," with the pears in another page of the very same result of "recognizing that one's views paper; of the inequalities of life must include that of wealth along with those of station, beauty, etc., etc." His idea throughout the whole article seems to be to cover up the rottenness which exists, while upholding the private possession of great wealth, which if owned collectively would cause said rottenness to disappear. He filts all around the subject and lights here and there to of the inequalities of life must include use this or that beak of scripture to exthe other parties hundreds TO TRY tract whatever comfort he can from "the conformity of 'our Christianity with the possession of wealth." to ease

Party Has Done for Him.

How Capitalism Uses Race Prejudice to Assist in the Exploitation of the Workers.

One of the Chicago Republican organs dilates at great length on a document recently issued by the Republican campaign committee for circulation among the negroes. This leaflet is made of bloodthirsty statements by "Pitchfork" Tillman and others, of which the following is a sample:

"I am only standing here to advertise the fact that the State of South Caro-lina has disfranchised all the colored race it could under the thirteenth, four teenth and fifteenth amendments. We have done our level best. We have cratched our heads to find out how we

Taken all in all these documents party of freedom of the ballot in the have secured—in spite of all this it was Philippines and Porto Rico were doing a great success. There were at least America.

But when it comes to presenting the and have a good time. only reason offered to show that the spacious and picturesque, and the com negro than their Democratic friends:

ing to have so much interest in the welmanufactories demands a grade of intelligence on the part of the operatives tation negro. So it is that Booker T. Washington is giving them that necesthe same time showing that he fully understands what his capitalist masters employ him for in that he urges al "keep out of politics" and to confine their education strictly to a "technical the whole matter. The whole history of the last generation has shown that certain as that day follows night Booker T. Washington type the negro will learn something more than a tech-

ism without learning somethings side. When he does begin to see that while he has laid down the plantation hoe for the improved machine and thus produces a hundred fold more wealth while his own share remains the same he is on the highroad to socialism and at once becomes "dangerous" to his capitalist masters. Hence they have every reason to wish him disfranchised before he knows enough to protest ineverything that will lead to antagonism between the white and the black workers, and look with favor upon "negro riots" whether they be in New Orleans or New York, because their whole motto in relation to the workers is "divide and plunder." And if the laborers will consent to be divided into Republicans and Democrats, natives and foreigners, white and black, there is no doubt but what they will be plundered

THE ANNUAL PICNIC,

Good Weather, Large Attendance, Make the Day Most Enjoyable and Successful.

the history of Chicago socialism. was the day of the annual Workers' Call picnic. In spite of most abominacould eliminate the last one of them, and we would have done it if we could. We took the government. We stuffed ballot boxes. We shot them. We are Battery line did not even understand its not ashamed of it." business from a capitalist point of view in attempting to work so small a steal prove what everybody knew-that the that it lost a much larger sum it might their best to disfranchise a majority of two thousand persons present and they division of the spoils is so different? get the trials and troubles of capitalism

Republican side of the question the And they succeeded in having it. The whole matter falls flat. Here is the weather was just about right, the park ing. Republicans are doing more for the pany, as Socialists always are, genial, agreeable and orderly. It is said that According to the figures there are 13.267 colored persons on the pay rolls of the federal govenment, divided as follows: In the District of Columbia. 2.517, outside of Washington. 7.500; in the army and navy. 8,250. These colored officials include commissioned army officers, collectors of internal revule, registers of land, ministers to for elgn countries, consular attaches, customs collectors and others, and they all draw \$5,538,612 a year from the government in salarics.

one police officer was present to see that order was preserved, and there is no doubt that the guardian of the peace considered that he had struck about the army and navy. 8,250. These colored officials include commissioned day. The large pavilion was filled with young people who kept the musicians provided for the occasion, busily engaged in supplying dance music, while the German singing societies at intervals favored the audience with those species of liberty with which their comone police officer was present to see that songs of liberty with which their com rades in the fatherland ever press on ward to victory.

There was speaking by Comrades Wanhope, Simons, Berlyn and Collins, and great enthusiasm was aroused for socialism. Better than all a good round sum was secured for the support of the Workers' Call.

The grounds were thrown open at It a. m., and from that hour till 9p. m. a constant stream of pleasure seekers passed into the park. An hour later the assembly began to break up and expressions of satisfaction might have been heard on all hands as the satisfied excursionists passed out of the gates on the way to their homes. Many

visitors were also present who were unconnected with the Socialist movement, and many of these commented favora bly and with some surprise on the good

BRYAN OR MCKINLEY-OR NEITHER.

It is being given out now by some of the prominent men in the trades unfor movement that the election of McKinley means the "death of organized labor."

In connection with this it is well to remember that eight years ago the same story was told about Harrison, and the fool workingmen went about streets yelling, "Four, four, four years more for Grover!" And Grover got there, and during his four years the unions became weaker in members. funds and influence.

We challenge the Bryan shouters to deny these facts.

At that time the Homestead affair was exploited in favor of Cleveland. and when he was elected, we got good Democratic action in 1894-in the A. R.

McKinley approved of Cleveland in this matter. McKinley is a "patriot." When capitalism is in danger all "patriots" unite.

William Jennings Bryan at that time held the only public position he ever attained. Did he oppose the policy of Cleveland towards the working class? No. But like a true "patriot" he in congress, united with McKinley out of congress, and gave hearty support to Cleveland's action in sending General Miles to Chicago to "break the backbone of the strike."

Again we challenge the Bryan howlers to point to one word spoken by their idol at that time which would have the starving workers in Pullman, or one word of praise for the noble self-sacrificing spirit which prompted the A R. U. men who quit work with a view of helping their unfortunate brothren who were being ground into the dust by the iron heel of the Pullman com-No! The only opposition shown by Bryan has always been in the interest of the small fry capitalists one. It could not be otherwise. for either McKinley or Bryan is casting a scab vote and is a traitor to his class." Intelligent union men will vote capitalism out of existence by voting for socialism, represented by Debs and Harriman.

A HARMLESS PASTIME.

A literary bomshell has been dropped in the midst of Newport society by a "reformer" named Thomas Nelson Page, and its effects are being exaggerated in the capitalist press, which is always keen enough to boom a "sensation" that expends itself in harmless abuse, and leaves those against whom to to directed untquebad. So for none of the "400" have answered the "de nunciation" of the "reformer" and save for a few words of defence from one of their clerical mouthpleces, they appear office not later than Thursday, 30th inclined to treat the whole matter with

In this they are correct. No amount of sensational condemnation of their actions and characteristics affect then in the least. They can afford to ignore all such outbursts of indignation upon the part of those whom assume to expose their moral shortcomings. Workers Call picule tickets to sell will While the system of private ownership please turn in the tickets or money for in the means of production goes un- same to those from whom they received challenged they are in invulnerable to all such attacks. The reformer may denounce and condemn, the moralist may point out in elegant language their

failure to conform to the accepted standard of conduct prescribed for al "right thinking" people, the alarmist and calamity monger may prophesy th most direful results to civilization resulting from the moral rottenness of this class, and the result will be merely so many words and so much wasted. Probably these people are all that has been described by the writer their weaknesses, but then what of it Has there been a ruling class in the history of the world, whose useful fund tions in society had disappeared (the ruling even being performed by hired enhetitutes) who have not become what the natural tendency of any group class, organism or part of an organism which is no longer needed, to either de cay or putrify, or both, before disap pearing? The stench which assails the postrils of Mr. Page and his ilk in this case merely emanates from a decaying useless body, from a thing which has no useful function to perform and which therefore becomes offensive in its decay. The mere fact of ownership in the means of production by which all men must live is proving that in it self it is insufficient to secure to the individual owner any just title to fur ther existence and the how! now raised against the moral obliquity of these 'society" people, is an unconscious ac knewledgement of the truth of this fact But the latter have nothing to feat from these diatribes so long as a le galized system exists which leaves their power, expressed in their ownership of private property of the means of production intact. Socialism which would establish collective in the place of individual ownership in these means of production and would therefore abolish the nuisance complained of is some thing which these moral censors will have none of, and as a result the objects of their denunciation feel perfect ly secure. And they will so remain, to serve chiefly as a dummy upon which the reformer can give vent to his outraged feelings until socialism sweeps away the abomination for ever by changing the economic basis of society

ISN'T ENOUGH OF US.

The count of the population of Chi cago will fill the members of the "Two Million Club" with disappointment. As these gentlemen are possessed of much property, mostly real estate, and are keen enough to see that their material interests can be assisted by making people believe exaggerated estimates of Chicago's population, it is not at all wonderful that they should strive to create the impression that the count of the federal census is incorrect. "All by the Democrats for the presidency, Chicago at heart will also share their disappointment," at least that is what the capitalist press would have us be lieve. But how about the "good citizen" who is out in the early morning looking for a job and finds a hundred other "good citizens" have got in before him on the same errand? Surely he will consider the population of Chicago quite big enough. He may even be unpatriotic enough to declare it too big under such circumstances.

But then the fellow who looks for a longs to the people who "give employment," not to those who chase after it If Chicago contained three million in stead of two, not only would their real estate appreciate in value but they would have the pick of one hundred and fifty applicants for one job, instead of a hundred, and in consequence more competition between them, which in turn results in cheaper labor power for capitalist exploitation.

No better proof of the fact that labor is a commodity, and to regarded as such by the propertied classes, can be given than is recorded by the disappointment expressed in the capitalist press over the result of the federal census in Chicaro.

Notice.

SNAP SHOTS BY THE WAYSIDE

This is the time to remember the les son inculcated by our late comrade Wilhelm Liebknecht.

"We may not do as other parties because we are not as the others. We are, and this cannot be too often reeated, separate from all other parties by an insurmountable barrier, a bar-rier that every INDIVIDUAL may surnount, but once on the other side he is no longer a Social Democrat."

To make this plain; we Socialists car not carry on a campaign on the lines of the capitalist parties. We must not try to fool by false statements those whom we wish to convince. The distinguishing mark of the Socialist is that he is other than the others.

The question is often asked how much more building would have been done in Chicago if there had been no lockout. When it is considered that in New York where there is no lockout, the building operations for July have fallen 47 per ent, while for the same month in Chiago building, the decrease was only 18 per cent, it is very doubtful if the ockout here has reduced the total of building operations in Chicago to any very great extent.

The Chicago Federation of Labor it is stated has disavowed anarchy. Well and good. Let them now disavow the labor leaders who dicker with capitalist parties and it will become a real power. Until It does so, the mass of the workers will look upon it with con-

It is reported from Paris that Count Castellane's house is to be sold to satisfy his creditors and that his wife, who was Anna Gould before marriage, is weeping bitterly over the terrible misfortune. But the chivalrous American workingmen will come to the rescue. They will sweat and toll and labor so that the loss can be remedied, even if they have to deprive themselves.

Bryan has repeated the peroration of his Indianapolis speech accepting the nomination, into a number of phonographs, from whence it will be ground out to the crowds who are so intensely interested in W. J. B. that they forget their own interests completely.

A Chicago paper of last Sunday reports the discovery of tablets 7,000 years old which are alleged to prove the truth of the Bible history. Now according to the Book itself the earth is barely 6,000 years in existence, but the paper in question sees no inconsistency in this. It supports Bryan politically and therefore knows its readers.

It may be that a belief in the adage that "history repears itself" is urging Roosevelt to play for a future nomination for the presidency from the Democratic party.

In his speech at Minneapolis Roosevelt is credited with saying that all horsethieves were Democrats, which is no doubt copied from Horace Greeley's assertion that all criminals were Democrats. Greely was afterward nominated

The Socialist movement is to no small extent indebted for a valuable service rendered to its propaganda to the Baltimore and Ohio railroad, or more correctly, the capitalists who own that road. These tatter in issuing a circular to their employes containing a warning" against socialism, have in reality provided the latter with the weapons needed for the destruction of the system by which they are plund-Their imprudent denunciation of socialism will arouse the curiosity of their employes as to what it is and

There are no longer any Republicans or Democrats in Haverhill, Mass. The inhabitants of that progressive city are now either Socialists or anti-Socialists When the working class unite, their plunderers are imme der the necessity of following their example. From the present outlook it appears likely that Haverhill will not ng remain the only city enjoying this distinction.

A small-bore politician named Ingalls recently died in New Mexico. He will be chiefly remembered as being the author of several remarkably silly newspaper articles alleged to be directed lous literary production however, was a description of the Corbett-Fitzsimmons prize fight, at which aesthetic performance he was an interested spectator.

IN KANSAS CITY.

rade Job Harriman Opens the Cam saign and His Remarks Receive Close Attention.

Kansas City, Mo., August 14 .- Union s an acomplished fact in Jackson unty; the new local of the Socia Democratic party is on a firm basis with organizations in all but two wards of Kansas City, and a branch at Inde pendence: the local constitution wa adopted and officers elected July 28th and the work of getting up the new records and making application for a charter from the Springfield N. E. C. will be completed this week.

August 11th the county convention was held, and a full ticket nominated. and on the 13th Comrade Job Harriman opened our campaign with a meetin at Shrine Hall. The crowd was some what disappointing, owing to the se vere hot weather, but the enthusias was immense, and as the "Journal" says, "Harriman was listened to as few speakers have been listened to in Kan sas City." The "Journal" was the only paper that mentioned the Shrine Hall meeting; though all four took notice of the county convention. The "Times" and "Star" were both represented Monday night, but what the reporters heard was too much for them.

Comrade Harriman's description of the present industrial system was so forcible that the "Journal" had to make an attempt at it, though of course no remedy was mentioned This is what Harriman said:

"In many states of this union, and I suppose also in the state of Missouri, it is customary to let the convicts out to contractors, to be used in clothing or shoe or other kinds of factories. The contractor pays to the state an amount sufficient to cover the cost of feeding and caring for the prisoners, and he sets them to work with machinery and raw material, with cloth or leather as sells for enough to cover the cost of maintaining the prisoners, the and tear of the machinery, and the cost of the cloth or leather, and some-thing else besides—his profit—which comes from the labor of the prisoners over and above what is paid for their keep. Now he can take his profit, and he can get more machinery,or he can put more guards around his factory. or bribe state officials into giving better contracts, in short he can use this profit to increase his hold and control on those prisoners, and get an everincreasing profit out of them.

"Now, we will take down the gates of the prison, we will remove the armed guards; we will paint out the word "Penitentiary" and write "Factory over that gate; and what have we? Where is the difference? "

For a moment there was absolute silence; the point had been made so quickly that the audience almost expected the speaker was going on. the rounds of applause proclaimed that the picture was recognized. Further on Harriman summed up the

materialist conception of history thus "The history of the world is a struggle for power; mankind has made many advances, has become "more moral" as the ordinary historian puts it, but this struggle goes on today, and will never cease until society is so intelligent that it will not allow the few cunning to live at the expense of the millions who toil, to absorb the wealth created by society and leave the many stripped, shelterless and hungry. When in the ages past one tribe warred on another, and conquered them, they ate the captives, and this was their way of getting power out of them, just as we get power out of a beef steak today by eating it. But circumstances changed: men had through necessity or other wise, discovered that he could bette secure his living by raising animals when the latter discover that, they will and tending them, and planting grain reciprocate by sending a warning to and fruits. This required work, and job is not a "good citizen." That title be- their masters through the ballot box. what more natural than the captives should be allowed to live and to do this work? And so chattel slavery arose not because men wished to be more moral, but because they had found they could get more power from the found they could get more power from the following to live to agree as to which is the legal National Executive committee; therefore be it

And finally in our own country we the liberation of the black slaves, the abolition of chattel slavery. Why did England liberate the slaves in the In-Why did the capitalists of the North acquiesce so readily at the taking of millions of "property" from the slave owners of the South? It was for because the progress of industry under capitalism had developed so that more intelligent workers were needed, and let the "free men" compete with each other for a chance to work, looking after themselves as best they can, that to take care of the chattel slaves Cheaper men means cheaper materials So today we have wage slavery, from which the working class must free itself by taking possession of govern ment and abolishing the privilege of ent to each of you a state petition list private property in all the means of production and distribution, and re taining them thenceforth in the control

> Better food, clothing and shelter more rest, recreation and less hard Such is the argument of the "professor of economics, but you will notice that the capitalist, better fed, clothed and sused, is credited with the ambition. Queer argument, is it not?

Send in a club of ten this week.

From the National Campaign Committée.

To the several state and local campaign committees, and to the organizer, secretaries and members of the Social Democratic Party.

Greeting:-By the action of the Rochester and Indianapolis conventions and Unity Committee elected by the said conventions, approved by the refrendum vote uniting the organized Socialists of the United States under the name Social Democratic party, it was required that a National Campaign Committee should be elected with headquarters in Chicago, for the purpose of conducting the campaign of 1900.

It was further provided that this ommittee should act in conjunction with our national candidates. Eugene V. Debs and Job Harriman; it was further provided that the funds of said committee should be furnished by the National Executive committee and be raised by subscription.

You are hereby notified that this National Campaign committee has been elected, and has established headquartera. The extent and success of the committee's work depends first upon the financial resources provided by the voluntary contributions of all who are interested in the Socialist movement; these are to be sent to the National Executive committee of the Social Democratic party, Wm. Butscher, secretary. Theater, Building, Court House square, Springfield, Mass.

Second. Upon the hearty co-operation of the state and local committees and the organized and unorganized Socialists in all the states and territories. It is the duty of this National Campaign committee, in co-operation with Comrades Debs and Harriman, to arrange for all their engagements during the campaign. To re-inforce the resident speakers of the several states and localities with speakers of national repthe case may be. And the result of utation, and to provide campaign liter-their work he takes to the market and ature so that every locality and every Socialist may be aided in campaign work by the united efforts of the whole Socialist force of the United States.

Then up and be doing comrades! First send in your nickels, dimes and dollars as your means permit, to the National Executive committee, Social Democratic party, Springfield, Mass., Wm. Butscher, secretary, and then arrange with this National Campaign committee for speakers, organizers and

NOTICE! Secretaries, speakers, and organizers of all states, and smaller political divisions, are requested to send their names and adresses to this committee, and to keep their addresses correct at all times.

Suggestions as to dampaign literature, charts, cartoons, etc., will be welcome and receive the prompt attention of the committee.

D. H. Daly. Oscar Gritchke, R. H. Johnson, Charles H. Kerr, J. C. Pederson.

M. L. Morris, treasurer. Thos. J. Morgan, secretary National Campaign Committee Social Democratic Party, headquarters, 79

Thomas J. Morgan, Secretary

CORRESPONDENCE.

The Town Convention.

The Iswa Convention.

At the state convention of the Social Democratic party the following resolution was unanimously passed:

The committee on resolutions met pursuant to call at 2:20. Frank L. Rice, of Avery, was elected chairman; Dr. Wirth, of Van Horne, was made secretary. The following report was made:

Resolved. That the following resolution be referred to referendum vote of the Social Democrats of Iowa:

Whereas, There are two National Executive committees claiming to be the legal head of the Social Democratic party, and

party, and Whereas. There are some members

to anyone that two national heards

to anyone that two national boards cannot continue in existence and promote harmony. Your convention therefore deemed it wise to follow the plan of Texas and Michigan, withdraw from both boards, pay all dues to the state board, until a national convention can be held and one executive board established. It is earnestly hoped, comerdes, that you will unanimously endorse the action of our convention.

Provision was also made for a State committee to consist of one member from each branch from each branch of one number from each branch from each organizer a quorun, for the transaction of business. You will therefore select a member from your branch to act as such a committeeman.

Until such time as this committee should be appointed a provisional executive committee was selected for the transaction of business. Th's committee is as follows: A. W. Ricker, organizer: A. K. Gifford, secretary, Chas. L. Breckon, T. J. Graut and C. A. Lloyd. A meeting of this committee was held in Oskaloosa, after the adjournment of the convention, at which it was decided to fix state dues, during the months of August, September and October at 25 cents per month. This amount may seem large to some, but you will notice that it is a temporary charge and for the campaign only.

seem large to some, but you will notice that it is a temporary charge and for the campaign only.

The state organizer was instructed to commence active work immediately, and within a few days will devote his entire time to active work in the field.

The committee also decided to issue blanks for contributions to the campaign fund. These blanks are for the purpose of affording unattached Socialists an opportunity to assist in the campaign, and also those who can afford to pay more than the state dues. It is urged that you call a meeting of your branch immediately upon the receipt of this communication, and take action at once upon its provisions. The assessment of state dues for the month of August is called for and you are urged to collect your share and send at once to the secretary of the state committee, A. K. Gifford, Devenport, Is. A. W. Ricker, Organizer, A. K. Gifford, Secretary, Chas. W. Lidyd, Thos. J. Grant,

Thos. J. Grant. Chas. L. Breekon.

For President—Eugene V. Dbbs. For Vice-President—Job Harriman. For Electors at Large—John M. Work, Polk county; Chas. A. Lloyd, Musca-

tine county.
For Congressional Electors-John N. For Congressional Electors—John N. Stanley, First District; Wm. Spurrier, Second District; Riley Haynes, Third District; Ellis L. Fox, Fourth District; Ellis L. Fox, Fourth District; James Baxter, Sixth District; J. J. Jacobson, Seventh District; S. D. Mercer, Eighth District; A. J. Bennett, Ninth District; A. J. Bennett, Ninth District; A. G. Ensign, Eleventh District; A. G. Ensign, Eleventh District

Secretary of State-C. Wirth, Ben-

ton county. For Auditor-W. T. Beals, Dubuque county. For Treasurer-Madison Warder, Wa-

pello county.

For Attorney General—B. W. Wilson, Scott county.

For Judge-J. M. Winn, Wapello county

Railroad Commissioner-M. D. For Railroad Commissioner—M. D. Earnest, Lee county.

For Congress—Second District, C. L. Breckdon: Third District, Richard N. Howe, Delaware county; Fifth District, Geo. Slade. Linn county; Sixth District, Frank L. Rice, Monroe county; Seventh District, Owen Bromley, Polk county.

—Davenport, Ia., August 13, 1900.

An Error Corrected.

An Error Corrected.

To all Comrades, Secretaries, and Secretaries of State Committees:—

My attention has been called to an error made by the printer in getting up the due cards, which I desire to call the attention of the comrades to, so that all cards may be immediately corrected.

On the back of the due card is given a list of party organs. The People, and "Vorwaerts" have alongside, the words, "official organ of the Socialist Labor party."

These words are superfluous, and should have been left cut as instructed.

As it will take at least three weeks to have another lot printed correctly, and in order to save time und expense, so that all organizations can get into proper working order as soon as possible, I request all comrades holding such cards to draw an ink line through the words "official organof the S. L. P."

I would further request the secretaries of locals and secreturies of state committees to rectify this error before issuing any more cards.

Wm. Butscher,
National Secretary.

State Organizer in Pekin, Ill.

Editor Workers' Call:—
Will address a few words to you regarding the speaker sent out recently,
(Comrade August Klenke). He arrived present time for the members in this at state to agree as to which is the legal National Executive committee; therefore, be it results of the state of Jowa do hereby withdraw from and pay no more dues to either of said boards, until such difference has been settled and one board established; but further.

Resolved. That we do now declare of Jowa, and that we proceed to effect a permanent state organization; be it further.

Resolved. That the state organization be empowered to issue charters to the may be hereafter organized in the branches which are now, or which may be hereafter organized in this state, until such time as some national organization shall have been recognized; be it further.

Resolved. That the members of each branch be urged to distribute their subscriptions among the following pais pers; S. D. Herald, N. Y. People, The Appeal to Reason, The Advance, The Public Ownership, Haverhill Social Democrat, The Workers' Call, Farmers't. Review, to the end that we the Social-less of this state may be better qualities of this state may be better qualities of this state may be better qualities of this states may be affected.

Resolved, That we the Social Democrats of the United States be held at Chicago on Jan. 1, 1901, at which convention permanent organic union of all Socialists may be affected.

Resolved, That we the Social Democrats of Jowa demand a national convention of the Social Democrat of the United States be held at Chicago on Jan. 1, 1901, at which convention permanent organic union of all Socialists may be affected.

Resolved, That we the Social Democrats of the United States be held at Chicago on Jan. 1, 1901, at which convention permanent organic union of all Socialists may be affected.

Resolved, That we the Social Democreate of Jowa demand a national convention of the Social Democreate of Jowa demand a national convention of the Social Democreate of Jowa demands and the Indianapolis convention, and that and we piedes to Deba and Harriman, our national standard bearers, our hearty and the in our town Tuesday, Aug. 14th, and spoke at Court House Square that eve ning as per program. The New Economy.

Every person denying socialism to be our minds as quickly as possible the practical, bases his calculation upon idea that labor-with brains and mus-

the world yet live in poverty.

the ballot box.

In conversation recently with a genpressed, yet is classed with the capitalists, expressed himself about as folcountry are so largely in the majority that they could elect anybody they all laws they might desire; and what could their opponents (the capitalists) be the law breakers; but they never have had sense enough to do it, and this city; I would naturally suppose that they would stand together politically at any and all times; but I dare say that if you should nominate one of your own men for office he would sell out before election time!"

He then cited Powderly's alleged selling out a few years ago, and upon being pressed for an answer to his inquiry as to whether or not the unionists of this city are standing together politically, I, with shame, was forced to admit that they were not. And when I tried, by my own argument and by my literature I had at hand, to convince him that the workers are waking up to the saddle, have full charge of the legtheir real interests and are beginning as never before to organize both industrially (trade unions) and politically (Socialist branches and sections), him to be sufficiently imbued with the and that in my opinion the election this altruistic spirit to invertee detains. fall would show a much larger socialis- tally to his money making schemes. tic vote in this country than ever before, he would not believe it, saying that he had no confidence in our integrity in such matters, and cited instances of his own personal knowledge here in Des Meines.

Now this is not the first time I have talked with this gentieman, also others of his class, and they admit that there is no hope or relief whatever for the great mass of working people in the old parties and by old party methods, and under the present economic and industrial system of private ownership of the tools and means of production and distribution; and these men. among the best business men of the city, and although their financial, and consequently political interests are wholly with private capitalism and, therefore, with the old parties, wonder why it is that the workers submit to the shameful treatment they are continually receiving at the hands of private capitalism and then continue year, after year to keep themselves in bondage by voting into office the capitalistic nominees of the old parties.

Now, if this is what capitalism thinks of us, for God's sake, but especially for our own and our country's sake, what ought we ourselves be thinking and doing? There are but few capitalists who will express themselves openly as however, this gentleman expresses the sentiments of the whole plutocratic crowd and their political henchmen-the old party (Republican and Democrat), politicians. They look cising the great privilege of an American citizen-that by our vote we are governing the country! Yes, by our ballots we send men to the various seats of government; but how far beyoud the ballot box does our influence for the good of the working people ex You fellows, working for \$1.25 to \$2.00 a day when you are fortunate enough to have a job, who elected the present members of congress for this district, don't 'you feel exceedingly proud of him? How much do you think he is doing there to better your conditions? How often do you suppose he has thought of you since he was here shaking hands and "so glad to see you, just before his last election? Why, you dear simple soul his business just now. as chairman of the committee on military affairs, is the establishing of a military post right here in your midst so that any time you may become hungry and feel thereby disposed to strike you may be quickly subdued: And not only this, but it custs money to build and maintain military posts, and who you say, "the pays the bills? "Why, rich folks, of course! those who pay They do, ch? Where do they get the money? Do such people ever do any good and useful work? Do they ever raise any corn, wheat, oats, oge, cattle ..etc., dig coal, build any ee railroads, telephones, telegraphs, etc.? 2Yes, but it takes money to do all these things, and we haven got it; the capitalists have to furnish it," you say. If money is all we need, why work to produce the above things et is, the above things, and all other ductions of labor, are first produc ncy to the amount of abou

the fact that Christianity is impossible cle-is dependent upon capital-money.

If labor should stop producing the under the present competitive system. necessaries and luxuries of life, of what Wake up there, you tired and listless use would the capitalist's money be to worker, you who produce the wealth of him? Why, if there was but one sack of flour in the world, the capitalists Why, even the capitalists are calling would quickly give a million deliars or us apes and asses because being so di- more if he had it, for it! O, my good vided polifically, and because we have fellow, you who imagine that your daily en't sense enough to lay aside any life depends upon the mercies of the slight differences there might be among capitalist, are sadly mistaken; if you says Harriman's work is "the only fair us and come together as one party at did but know it, the capitalists are, or and logical presentation of the situation would be, entirely at the mercy of labor, should labor, throughout the capitleman of this city, a gentleman who talistic and commercial world act ir is 'road-minded and liberal, and whose concert and bring on a universal strike concert and bring on a universal striksympathies are always with the op- in all lines of industry; but a strike of even that magnitude is not the way to settle the difficulty; for as soon as the "The working people of this various industries again started, with the various tools and means of production and distribution still in private might choose, and then pass any and hands, the same old fight would again soon be on. The proper way and place at which to begin to settle this, recondo but submit? Otherwise they would ingly eternal and, certainly, infernal O., on that day. It was the intention strife, is at the ballot box; but even to inject some merit into the Chicago then not by electing to office such capi- hippodrome show where Bryan and I don't believe they ever will. . . You talistic tools as Hulls, the Shaws, the Roosevelt are to speak from the same say you have 2,000 trade unionists in McKinleys the Bryans, etc., on plat. forms not one plank of which they ever It will now be in order for the capitalexpect to carry cut. These capitalistic list press to charge that he was afraid platforms are somewhat like the old- to meet the sliver orator and the rough fime fish traps we used to put in the rider, but the real reason is that he did streams-made to catch suckers; and not want to disturb the love feast of unfortunately for themselves and the the two capitalists who will take turns whole country, many a sucker is in-in fooling the people on Labor's Day veigled therein. veigled therein.

Mr. Hanna's late convention at Philadelphia inserted a plank "favoring" a too glad to discuss economics with control of the trusts; now if the Re- them .- Public Ownership. publican party wants to control the irusts, why, in the name of truth and justice, don't they do it? What are they waiting for? They are fully in the saddle, have full charge of the ignislative mills. Fact is, they don't want to, couldn't if they did. Mr. Hanna is the Republican party; do you suppose him to be sufficiently imbued with the altruistic spirit to interfere detrimentally to his money making schemes? "Not much, Hannah!"

"Not much, Hannah!"

"Up in Winnipeg, Man., the working her hard farmers are holding mer tinas for the discussion of subjects of outural interest. The workers of the queen's land are to be congratulated on being able to join hands with the tillers of the soil. It is too often true that the soil. It is too often true that the soil. It is too often true that the soil it is too often true that the soil. It is too often true that the soil. It is too often true that the soil it is too often true that the soil. It is too often true that the soil and are to be congra trusts, why, in the name of truth and "Not much, Hannah!"

Instead of electing to office year after year such capitalistic tolls as the above why not unite politically as well as industrially, and show to the plutocratic crowd that we have sense, integ rity and brains sufficient to nominate and elect to office from president down, able and conscientious men from our own ranks.

Shall we do this, or shall we con tinue to be the dupes of capitalismnot alone in the factories, mines, on the railroads, etc., but also at the bal-

Yes, Mr. Wage Worker, just as long as you imagine that your only hope and salvation is in individuals or corporations, who have money, and conduct yourselves accordingly by voting into office capitalistic candidates, just so long will you continue to be the slave of such corporations and individuals.

"Money," as used in our present false and vicious system of economy, produces nothing but interest, rent and profits; and these three things, how much of them go to the actual producers of wealth? They go from the worker, not to him! The chattel slave holders of the South had what was termed a "catof-nine-tails;" it consisted of a short, heavy wood handle with nine leather thongs fastened to one end of it; this was used without mercy by the owner or the driver on the bare backs of the negroes to force them to work when

they did not do so willingly. worting cattle." And so we are. We go, with great pride, to the polls at each election and imagine we are exercising the great privilege of an Americal process of the great privilege of an Americal privilege of an Americal privilege of an Americal privilege of an Americal privilege of an American process of the great privilege of the great privilege of the great privilege of the great pr Now, money-the intrinsic dollar-is the backs of the workers, and from the pla which there is no escape, nor can there be while private capitalism-wage slavery-continues any more than was there escape for the negro while chattel slavery continued. The wage worker cannot touch his hand to a sin gle thing in the shape of work for wages without being "touched" by capitaliam for one or more of these three things; it catches him every time or the latter-profit; and the great majority, on the other two; it either di rectly or indirectly catches him on all three, for labor produces all wealth from which all bills are paid.

Now, the above may sound like a jest; however, it is no joke; it is a true comparison; and present conditions are but when are the workers going to wake up to the real situation?-Geo. F. Usry,

Ostrich Tactics.

Our state organizer reports that he held a meeting on August 14th at Pekin Ill., the audience numbering fully five tained not the slightest hint that such a meeting had ever been held, although its size and importance together with the spirited discussion which took place on the occasion, precluded the possibility of the local journals pleading ignorance of the occurrence. Capitalian may either misrepresent or ignore socialism, but the latter will get there

THE SPECTRE OF SOCIALISM.

Typographical Union Scared by Their Have You Observed These Recent Events
Own Resolutions, Draw Back and Understood Their Significance?

The following are the resolutions enwankee on Aboust 7th:

property in the natural sources of pro- the outraged labor vote? duction and in the instruments of labor is the obvious cause of all economic servitude and political dependence, good a job as he now holds. which condition aggravates the evertherefore, be it

"Resolved. That we, delegates of the I. T. U., in convention assembled, pro- industrial world, that Labor is the one claim to the workers of the United that runs the actual risk, falling into States of America, and all tollers of the pots of molten metal, losing arms and universe, that the time has come to legs, being choked by mine gas, etc.? recognize the necessity of carrying on simultaneously on the political and in- of production and distribution to make the Socialist party, the only po-litical organization that unflinchingly teeted and let Labor run the risks than stands for the abolition of the wage spend money to protect life and limb? system, under which labor is robbed of the product of its toll.

constitution of the 1. T. U."

traitorous old party politicians who yet net as the stool pigeons of capitalism within the union.

pographical union, however, will discover that they can neather ignore or bune let the cat out of the bag when it repudiate socialism permanently. This said: "The Saale was floating down vention, and ultimately they will be (although human beings by the score compelled to pass it, and even more, were perishing on her), but all energies to work for the principles then en-

ON PRESENT CONDITIONS.

Physical and Mental Welfare of the Human Race Depend Upon an Economic Bacis. What are the conditions of the pres-

ent? Are they as we should want them

conditions of the problem: how

should live? Let us see whether they them? do. First, we are all supposed to be orn goval. But some are born strong and healthy, their parents being in the proper physical condition; while others are born weak and diseased, their parents not being in the proper physical condition at the time of marriage. And why have we got some that are in physsical condition to raise strong children. while others are not? Is it the law of macure that it should be so? It is the outcome of our present conditions, under which some must toll and slave their whole lifetime, for others to live in case and in comfort. It is because your sons and daughters, your sisters and brothers must go to work in factories, mills and department stores, be fere they are physically and mentally developed. It is also the result of the homes in which they live, the clothes which they wear, and lastly but not least, the food which they eat. Yes, this is the reason why "all are not born equal." . It would naturally follow from the aforesaid cause that when the children reach womanhood or manhood their physical conditions will depend on he way in which they were brought up. Take the statistics and you'll find that life is longer among the wealthier classes, they being able to lead a regulated life. You may ask "why do the than we," then I must tell you that they are your bosses while you are their slaves. To sum up, we come to the Labor's toil has created. The guaranset at 10 a. m., thence to proceed to posed to those of the workers. The place of picnic via Madison to West capitalist seeks to secure as large a porant of your class interests and class powers. You to whom the capitalist looks for support on election day, can you not see that you can become masters? That if you only unite at the ballot box you can secure whatever you desire. Therefore it follows that if you want to receive the full social value of your labor, with which will come a ordition of things, under which ALL will have equal opportunities to enjoy the gift, instead of the present plague called life, you must unite at the ballot box and get it. It also follows that if you want to establish the aforesaid conditions you must abolish the present system of profits and wage slavery. Don't be blinded by reformers or "deml gods," as Mr. Jones or Mr. Bryan are trying to show themselves. They are all trying to blind you and you'll be cooled into their ranks unless you beone class-conscious and vote for your own emancipation. Read the papers and study the principles of socialism Light the torch of knowledge and tread the path which will lead you to join the Socialist party, the only party that stands for the interests of the working

> ulted, much-abused humanity. It is numan nature waking in her might rom the slumber of ages, shaking from erself the dust of antiquated institutions, girding herself for the combat and going forth conquering and to condynasty, wee unto the party and wounto the policy on which shall fall the cathe of her blighting indignation

Socialism is the cry of aggrieved, in

ON THE LOOK-OUT.

> You will observe that after election the Democrat Steunenberg will get as

Did you observe that with all the talk increasing discontent of the wage of the risk of capital that in the four working class, because of the impossi- railroad wrecks that took place July bility to access to opportunities to 24th, that it was Labor that offered up apply its labor power in the production its life and was maimed and wounded. of things necessary to sustain life; and that Capital (railroad directors), did not even receive a scratch?

Did you observe that throughout the

Did you observe that the reason this the war against capitalistic oppression is so is because Capital owns the means dustrial field, and we therefore call a profit out of them, and this can only upon our membership to ally itself with be done by cheapness, and it is far Did you observe that Labor as a class

runs all the risks by leaving the means Resolved. That this petition be sub- of production and distribution in Capimitted to the referendum, and, when tal's hands; for as long as these means approved of, be made a part of the are run for profits it means starvation to Labor through unemployment, un-These resolutions were repudiated less Capital (the useless) can make a next day after a bitter fight with the profit out of Labor's toil?

Did you observe in reading the account of the Hoboken fire that the main incentive to action was to save private The members of the International Ty- property and to never mind human life?

Did you observe that the Sunday Triquestion will meet them at every con- streamand no attention was paid to her. were bent on saving the great ship Kaiser Wilhelm der Grosse, for she a big passenger ship and worth millions of marks?

Did you observe in this that it costs money to get this property, but that Labor, which again ran the risks, is cheap and can be got in unlimited quantities, and hence no efforts were made to save these laborers, who composed the to be? That is, do they satisfy all the great majority of those lost, until it was too late and no help could save them?

Did you observe how the Democrats at Kansas City harped on the Declaration of Independence, a document which declares that the just powers of government are derived from the consent of those who are being governed, and also how they sympathized with the Filipinos? but

But did you observe how these same Democrats, through their rough rider, Tillman, and his kind, have succeeded South?

Did you observe how rapidly the temperature of the convention hall at Kanas City dropped to pretty near the freezing point when Croker and Van Wyck of Ice trust fame dropped in at this anti-trust convention, and again how rapidly the coppers got into circulation when Clark of Montana of copper trust fame and his delegation arrived?

Did you observe that the Republican platform merely favors certain labor legislation, and that there is no promise of any kind to Labor? The simple reason is that these gentlemen, standing for the interests that live from Labor's toll, cannot promise anything for, nor legislate for Labor's interests.

Did you observe that there is one party in the field whose platform stands for Labor's rights and interests? That platform stands fairly and squarely for on that it is the capitalists that teeing to each individual the freest possible access to the means and the right to the full product of his toll?

If you can observe that this platform overs your interests then you need not be urged but you will consciously vote for your interests by voting a Socialist W. F. E.

Activity in Iowa.

Editor Workers' Call:-Comrade Robert R. In Monte has

een in our city and left his mark behind: He spoke at two outdoor meetings, one Saturday evening the 18th, and one Sunday evening. He received the most courteous treatment and we have every reason to believe that great good was accomplished. Comrade La Monte's dates for Moline and Rock Island are August 20, 21, 22, 23. Those not in touch with the Socialist movement can have no proper conception as to its recent growth. Iowa is one of the states that will spring a surprise on the people in November.

Following is a list of candidates for

For Secretary of State-Dr. C. Wirth of Benton county.
For Auditor-W. T. Beaules of Du-

buque county. For Attorney General-B. W. Wilson

For Supreme Judge-J. M. Winn of Wappalo county. For Railroad Commissioner-M. D.

Ernst of Lee county. Treasurer-Madison Warder of Wappalo county. A. K. Gifford.

Davenport, Ia., Aug. 20,1900.

How much have you given to the

"Always With You"

(Continued from page 1.)

be distributed to the poor, while updding the system under which thes fifty millions were gathered together! Millions of people, children, women and men were compelled to toil, starve and die so that these dozen men might become millionaires, and the Bishop and his colleagues not only contemplated the process but witnessed it. They saw "the idleness, the licentiousness, the fierce hatreds, etc., engendered" under the process of a few dozen men accumulating millions, and as Christian men they acted not to make the condition of the miserable masses better, but worse. They acted according to the interests of the class which is benefited by the degradation of the masses composing the opposite class, even encouraging them (the working class) to use less and less of what they succeed in getting of their product, so that the class of millionaires might benefit.

When the Bishop's writings appear before those who understand the hypoerisy or ignorance or the motive which led him to unburden himself of this load of rubbish, they become disgusted to contemplate how many will take his advice to despise those who point out the injustice of this system which makes it possible for society to hoist such a parasite on a pedestal, where he may influence the ignorant to blind their eyes and stop their ears to shut out the truth.

He is supposed to represent the au thor of "Sell all thou hast and give to the poor," and he sanctions selling the poor the bare necessities of life and taking therefor their life's blood through excessive toll and anxiety for the morrow; "The poor ye have always with you," and he upholds the system which changes it to "the starving:" "Charge them that are rich in this world's goods," and instead of this way. "charging" them he is simply taking what they will give him to act as their tinuing their own slavery.

Yes, Mr. Bishop, we know "that shine" is ours to enjoy, and that is why you hear, not wild but scientific, denunciations of its private possession as capital by the few to exploit the many. That is why we are calling on those who recognize this injustice and those who are the victims of it, to unite. to cast off the scales from their eyes that they may see that it is their's to enjoy, when they lose the chains which their ignorance binds, and which your class seeks to weld more firmly. When they refuse your services and unite with their class at the ballot box to strike for the possession of what is their's to enjoy they will get it. Then will be realized a quotation which your class has conveniently overlooked, "Bear ye one another's burdens," and the burdens will be light indeed, especially for those who now drag the chains of wage slavery.

Work and vote with the Socialists to bring such a condition about.

VANDERBILT'S COSTLY DESSERT. allows a Pearl in a Jewelers' Shop and the News Is Flashed to the United States at Once.

The telegraph and cable wires are being kept hot nowadays by the transmission of palatable news to take the place of dessert in the digestive apparatus of the workingmen, who delight in the beauties of our present capitalistic system and are willing to go half fed and clothed, so long as we can send such fine specimens of American manhood to the old world, as our own Wm. K. Here is a precious morsel which has

day dinner:

me in time to be taken after Sun-

This bit will no doubt last aforesaid | tend. workingmen all week, or at least until after the news has been received whether or not the "search" has been successful. Should the pearl stand the test of Mr. Vanderbilt's stomach as well as the test of his teeth, we may hope to learn of the recovery of the avenue every Thursday night, and the atoms of the peatl might find their way to his heart and adhere thereto, causing a pearl coating; all of which could be paid for by a slight reduction in the are being turned out to starve or find ortion of their product received by the slave of the Vanderbilt system in

But how nice it would be to be slaving for a master with a "pearl heart," point to a story which has just leaked even if wages were cut a trifle; besides, out, of a woman prominent in Washingare not the trusts lowering the prices on the species of life? Hurrah for our day, leaned froward from her box and capitalist masters'

We think, or rather we know that you wish to see a Socialist ticket on the official ballot, so that you as a Socialist and believer in the prinples of Sócialism may have an opportunity to vote the ticket.

Now remember this: You cannot do Addres with P. O. Money order or one less than to get at least one of the cent stamps, 36 N. Clark St., Chicago blanks filled.

Have you filled the blank we sent you?

How near filled is it?

Let us hear from you.

Now, comrades and friends, we'need all the assistance you can give us in Workers' Call, Chicago: "This is a

Of course you must remember you are only a Socialist and a sympathizer in tool in deceiving the workers into con-proportion to the amount of signatures YOU GET. You must remember that you only give proof of your hope for wealth, like space and air and sun- success in accordance to the work you do for THE CAUSE.

Hoping to hear from you soon. Yours fraternally,

The Campaign Committee.

From North Dakota.

Towner, N. Dak., 'Aug. 13, 1900 North Dakota has placed the Social Democratic ticket in the field for the first time. The same has been filed with the secretary of state:

For Governor-Geo. W. Poague. For Lieutenant-Covernor-Royal F

For Secretary of State-A. Bassett. For Auditor of State-R. C. Massey. For State Treasurer-L. F. Dow. For Superintendent of Public Instruc

tion-Geo. W. Atteberry.

W. Simkins. For Railroad Commissioners-William

Lamb, F. J. F. Tucker, James Nelson For Commissioner of Agriculture and Labor-S. E. Haight.

For Presidential Electors-Daniel F. Siegfried, F. S. Parker, E. O. Sjaastad.

For Congressman-J. C. R. Charest. Daniel F. Siegfried, who heads the electoral ticket, headed the Fusion electoral ticket four years ago.

Yours for Socialism, Geo. W. Paogue.

A Good Investment.

If every member of the Socialist party in Chicago were to do all he could for socialism for one day this week, what a change he could make. It would mean the addition of hundreds of dollars to the campaign fund, and every dollar of Paris, Aug. 4.—Unlike the beauty of antiquity who dissolved pearls and quaffed them from her bejeweled cup. William K. Vanderbilt takes his pearls raw and pays for them on the spot.

Mr. Vanderbilt was examining seme unmounted precious stones put before him by a Dutch jeweler's agent, who expected a large order, and placed a pearl between his teeth to test its hardness. Mr. Vanderbilt opened his mouth too suddenly after the test, and the pearl flew down his throat.

Mr. Vanderbilt was the first to recover, and he revived the other by his words: "How much?" The price was mentioned, and Mr. Vanderbilt with one hand over the center of his waistcoat and the other engaged in counting bills, closed the incident as far as the jeweler was concerned.

Mr. Vanderbilt was seen later at the that fund is used in the most econom-

was concerned. '
Mr. Vanderbilt was seen later at the Hotel Ritz, seemingly no worse off for his suddenly acquired riches. He was asked for further details, but declined to give them.

"Workingmen of all countries unite! You have nothing to lose but your chains; you have a world to gain."

SECOND YEAR .- WHOLE NO. 78.

CHICAGO, ILL., SEPTEMBER 1, 1900.

PRICE TWO CENTS

Socialists of Illinois Lay Aside All Dissension and Will Stand Shoulder to Shoulder in the Common Fight Against Capitalism.

The most significant meeting of Socialists ever held within the boundaries of the State of Illinois was held at 70 N. Clark street last Sunday. In response to the call of the Joint Committee of the Socialist party and the Social Democratic, one hundred and fifty-six delegates, representing about fifty different bodies, met to discuss means of Socialist unity. There were in addition to the delegates of the two parties, representatives from several unions, Socialist winging societies, the European Countries of the Present Point Out and arrange for the Socialist forces of this state, said meeting to be held in Chicago and at a date belief to be held in Chicago and at a date belief to be held in Chicago and at a date belief to be held in Chicago and at a date belief to be held in Chicago and at a date belief to be held in Chicago and at a date belief to be held in Chicago and at a date belief to be held in Chicago and at a date belief to be held in Chicago and at a date belief to be held in Chicago and at a date belief to be held in Chicago and at a date belief to be held in Chicago and at a date belief to be held in Chicago and at a date belief to be held in Chicago and at a date belief to be held in Chicago and at a date belief to be held in Chicago and at a date belief to be held in Chicago and at a date belief to be held in Chicago and at a date belief to be held in Chicago and at a date belief to be held in Chicago and at a date the Elements Which Must Be.

The Tendencies of the The Tendencies of the total date and a date to the Elements Which Must Be.

The Tendencies of the Institution known as the Elements Social Crusade, the Federation of Social Justice, and other organizations

Social Justice was elected permanent some additional ideas: chairman and Comrade Wise of the Social Crusade as permanent secretary. A committee of nine was appointed to form a plan of union and brought in both a majority and minority report. A long discussion followed in which all the circumstances of the negociations for unity were gone over and at times the discussion reached a point where many felt that union would be imposs-

the thunderstorm that clears the air, committee having charge of the matand at last out of the struggle of con- ters published in the Social Democratic tending opinions was forged a firm and Herald and the Workers' Call, apperlasting agreement as shown by the fol-lowing resolutions which were adopted the existing state committees be inunanimously. (The resolutions are structed to turn over all books and pagiven to accord with the amendment pers to the Joint Committee. Another which appears at the close):

THE "CHICAGO ANANIAS."

Again Exercises Its Peculiar Talent in Disposing of the Socialist Vots.

The Chicago American has recently published an alleged interview with bothers the Campaign Committee. Clarence Darrow of Chicago, who is Money is what is needed. WHO DO reported to have said, "It seems to me almost a certainty that the Socialist this money? Labor vote will be cast for Bryan and Hanna? Clark? Republican and Stevenson," and in commenting on this Democratic capitalists? You say NO. the American says, "prominent local the American says, "prominent local with the Solication of the American says, "prominent local with the Solication of the American says, "prominent local with the Solication of the American says, "prominent local with the Solication of the American says, "prominent local with the Solication of the American says, "prominent local with the Solication of the American says, "prominent local with the Solication of the American says, "prominent local with the Solication of the American says, "prominent local with the Solication of the Solication of the Supporter, Governor Steunenburg of his supporter, Governor Steunenburg of his supporter, Governor Steunenburg of lidabo, who more than any other man they wants your blooming when they wants your blooming the Solication of the Supporter, Governor Steunenburg of his supporter, Governor Steunenburg of lidabo, who more than any other man they wants your blooming when they wants your blooming the Solication of the Supporter, Governor Steunenburg of lidabo, who more than any other man they wants your blooming they wants your blooming the supporter of the Supporter, Governor Steunenburg of lidabo, who more than any other man they wants your blooming the supporter of the workers, the supporter of the supporter of the supporter of the workers, the supporter of the and Stevenson." The tremendous and but workingmen shall get this fund, or colossal lying that the American is do-Ing about the Socialist movement is a tribute to the scare it has given the Bryanites. It is worth a moment's time bring together the various and contradictory lies that the American has circulated about the Socialists within the past few weeks. First Debs was going to resign in favor of Bryan, then Hanna was paying for the Socialist campaign, and now all the Socialists are going to vote for Bryan. So the natural conclusion is that Hanna is paying for Bryan's campaign, a statement by the way that may be much nearer the truth that might be imagined when we remember that in Haverhill, Mass., the Bryan Democracy sent in money and speakers to try to elect a Republican mayor who was opposing Mayor Chase the Socialist.

cause of this habitual and colossal lying on the part of the American it sible to say whether Mr. Dar was quoted correctly, but if he was, he knows perfectly well that not talist vote will go for Bryan this fall. More than that, we will agree to forfeit fifty dollars if for every name that he can give of a voter who voted the Socialist ticket four years ago who not give the names of ONE HUNDRED who voted for Bryan four years ago and will cast their vote for Debs this year. And it is because of this fact that the Democratic leaders in Chicago are lying awake nights trying to find forme way of stopping the flood. So it is that Willis J. Abbott is complaining in a later issue of this same publication of the "apathy" of the voters who re fuse to be stirred to a fury of enth

In the original report another name pledged to the principles of socialism had been used and so the following and the election of Debs and Harriman, resolution was adopted making the Comrade Smiley of the Federation of changes as given, above and adding

Resolved. That the name of the parly in the majority report be stricken out and the name Social Democratic Party be substituted; and further, that the political union here affected is independent politically of the national committees of Springfield. Mass., and 126 Washington street, Chicago, Ill., and constitutes a union of all the Socialist forces in this state.

Resolutions were then passed providing that the state committees provided However this was found to be but for above should constitute a press resolution provided that the two na-

which appears at the close);

That this state committee be and is hereby vested with full power to act in the name of each and all the organizations represented in this convention in all matters connected with and pertaining to the filing of Socialist tickets on the official builots, in filing vacancies on said tickets and in everything else pertaining to the Socialist campaign in this state in the year 1900.

That this convention hereby elects a County Campaign committee of 21 members, seven from the Socialist Labor party, and seven from the foling power to act in the name of each and all of the organizations represented in this convention, in all matters connected with and pertaining to the filing of the Socialist ticket on the official ballot, in filling vacan-fes on said ticket, and in all other matters pertaining to the Socialist ticket on the socialist.

That the State and County Campaign committees elected by this convention.

THE SCHIPTION ANAMIAS ?

WHOSE FUND IS IT? Upon Whose Shoulders Should the Bur-den of the Working Class Move-ment Be Borne?

The money question is the thing that YOU SUPPOSE SHOULD FURNISH

Well, all right, who else should put

rather furnish the mor Do you think that it is harsh to talk

Well. I tell you, let us face plair

Poetry is one thing; facts, conditions such as exist, are realities and cannot be turned away from.

Now then, comrades, friends and sympathizers, we ask you to answer the roll call with money. Money is what talks.

This means that we want to see you name opposite a sum of money such as you can spare, either one time or weekly.

The Campaign Committee

Here is a sample of Democratic argument: "Individual enterprize made this country what it is. Individual en terprise is being crushed out by the trusts, which are themselves the creatures of individual enterprise. trusts must be crushed so that individual enterprise may have an opportunity -to create more trusts. Therefore therefore-well-'rah for Bryan any-

The "friends of labor" on Labor Day vill tell the worker how dear he is to them. And that's no lie either. He is dear. Too dear. Always too dear. fact he can never be cheap enough to suit them.

If we can for a moment assume that same publication
if we can for a moment assume that
the voters who rethe capitalist press of both parties, tells
the truth, it is evident that every Reunt' issues of the
publican will vote for Bryan and every
Democrat for McKinley,

LOOKING FORWARD LABOR DAY ORATORS

the Future.

SOME WHO WILL NOT BE THERE WORKMEN! HEAR! REMEMBER!

that event takes place, except perhaps that it is destined to undergo remarksble changes in many respects during the years which bring socialism nearer. It may not be out of place to lay be disclaim any attempt at prophecy, basof the tendencies which may be observed at present, of the drift towards oclalism

We should say then that the Labor Day of the near future will be minu one of the elements which go to swell he ranks of the marchers at present. We refer to that credulous workman who believes in turning out "to show the capitalists our strength" as he erms it, while at the same time he. with stupid persistence, year after year votes into power those very capitalists shom he fondly supposes can be intimidated by viewing the miles marching wage slaves in a Labor Day

And the prominent union man whose rominence consists in his intimacy with a shoal of petty capitalist politicians, the fellow who has a "pull" with the cheap "statesmen" of the city hall, and who is expected to use his "infloo ence" with the members of his union when capitalist office seekers require votes, this party will also be conspicu-ous by his absence in the Labor Day ceremonies of the future, and he can well be spared.

The professional "friend of labor," whose friendliness finds expression only in oft-repeated assertions of "sympa thy" with the working class, will like wise be missing.

We shall also be spared the humiliatng farce of listening to the meaningess flattery of men of the Roosevelt and Bryan type, men who have no in erest whatever in the working class except in maintaining the system by which it is plundered and robbed of the things which its labor has created.

The journalistic humbug who prates of "honest toll." "bone and sinew of the nation." "horny-handed sons of labor." and other cant phrases with which capitalism fools and flatters its dupes, will likewise disappear.

And the worshiper of "smart men." the ignoramus who, parrot-like, repeats the opinions of the knaves who plunder his class, in order to avoid the if there is any manhood left in you. And a 'orny trouble of thinking for himself, the dulard who asserts that no change has will have vanished as factors in the Labor Day of the future.

And in their place we shall have men self-reliant, assertive, and class lous, men who depend upon the solidarity and knowledge of the common interests of the class to which they be ong, men who hold in contempt the dea of dependence upon so-called 'friends of labor," men who under pression of their class, and who resolve by the united strength and efforts of hat class to remove it, men who wil choose from their own ranks the speak ers who shall address them, and who try to divert their attention from their real interests by attempting to intro duce bogus "issues" with which they

are not concerned. In place of the mass of confusion folly and blindness of the present, we shall have a solid, coherent, clear-sighted body of men who constantly keep in mind the necessity impos upon their class, of getting control of he tools and means of production which makes their labor fruitful, know ing that their possession will forever make strikes unnecessary and lock-

This then, in our opinion, is an outline of the elements composing the La-bor Day celebrations of the future, and our hopes that the picture is not incorrect-are founded upon what we know to be a fact—that even now thousands of earnest, determined workingmen are aying the foundations for its realiza-

If you know all about socialism you might as well give this copy to some-body who doesn's

A Forecast of the Labor Day of What Theodore Roosevelt and W.

J. Bryan Represent.

The Tendencies of the Present Point Out They Stand for the Present System of Production, Which Means Your Industrial Blavery.

On Labor Day the workers of Chicago Labor Day is to remain when capital- will be addressed among others by ism has become a thing of the past Theodore Roosevelt and William Jennings Bryan. There are a few things about both of those men that it is well is more certain that it will exist until for the workers who are listening to them to bear in mind.

As Theodore Roosevelt shouts for the "strenuous life" and calls upon the la-boring men of Chicago to cast their votes for him so that he and his master fore our readers the probable nature may be able to sell the products of those of some of these changes, although we laborers' toll to the Chinese, Filipinos and Porto Ricans, let them call to mind to the Chicago unions on Labor Day? ing our reasoning upon a continuation that he was the man, who when he was The answer is easy to see. mayor of New York, proposed the adoption of a policeman's club with steel ernor Steunenberg, a Bryan Democrat, teeth to split open the heads of laborard Bryan received the voice of the ers who dared to go out on strike. Let Steunenberg delegation at the Kansas those same laborers remember that it City convention. He will receive their was this identical Mr. Roosevelt to vote solid at the coming presidential whom they are listening, who, while he election. He needs those votes to carwas governor of New York, called out ry Idaho. He needs the money of those the troops when the Italian laborers on the Croton Dam struck to secure some thing less than the laws of the state which Roosevelt had sworn to enforce guaranteed to them. Incidentally it might be well not to entirely forget in this connection that it was Hearst's Democratic Journal however that was velling the loudest for those troops to be sent. Remember that he will be talking for the election of the administration that sent the negro troops to the Coeur d'Alenes and enforced the 'permit system" there, at the request of the Bryan Democrat Steunenburg Remember that he believes with Chaun cey M. Depew that the laborers of this ountry are producing millions mor than they know what to do with, and that consequently some of those laborers should be armed and sent away to the sheres of Asia to shoot and be shot in order that those surplus products may be disposed of.

Then when W. J. Bryan comes on to the platform do not let your memory leave you. Just call to mind that while he is appealing to high heaven in behalf of the Filipino to govern himself he is lending his sanction to the disenfranchisement of the negroes in the South. Remember that his opposition to militarism did not keep him from saying in his speech of acceptance that he was in favor of a "well-equipped and well-disciplined state militia" and just stop and think which it is that does the shooting in case of "labor troubles."

When he raises his voice in denuncia
The same energy displayed in election time.

When he raises his voice in denuncia
The same energy displayed in elections as in parades would bring re-When he raises his voice in denuncia tion of the trusts, try and remember for future reference, just what he says about HOW he is going to "bust" them. Then when he talks about the tyranny of capitalism in high-sounding words. you will recall that he has never yo said a word in condemnation of the acts and that inquisition of the American workingman, the "Permit System."

Finally remember that both of thes men and all the men whom your mas ters have-selected to speak from what was supposed to be YOUR platform are in favor of the continuation of private property in the tools and machine with which you work, and that so long as this ownership remains all the evils at which they rail must remain, and then try and decide just how big a fool a worker would have to be to vote for

UNION MAN! READ THIS.

Infamies of Wardner Not Ancient His-tory-Record of Union Smashing Last Week,

To those who imagine that Wardner is a closed chapter we would call their attention to the following clipping from the Idaho State Tribune, describing an

week:

The union was holding its regular weekly meeting in the hall. There were about ten members present. There had been three candidates for initiation and the business and these initiations had been completed and the meeting was about to adjourn when there came a knock at the door. Upon the door being opened the big deputy shoved himself into the room. With a big gun in his hand he approached the secretary's deek where Mr. Balch was seated, and, a la James Brothers, demanded the books and money of the union. Mr. Balch quietly remonstrated, whereupon the deputy struck him repeatedly or the head with his gun, saying: "I am going to have these books and the money or by God I'll kill you." Mr. Balch was knacked insensible and his head was cut quite severely with the butt of the heavy gun. The deputy then grabhed up the hashcial secretary's book and a ledger,

but did not get the money of the union, which doubtless he was the most desirous of securing. He immediately left the hall and took the books, it is alleged to the office of the Helena-Frisco mine, where it is said they were turned over to Manager Joe MacDonald. It is well-known that a score of MacDonald's militia men armsed with rifles were surrounding the hall at the time the crime of the deputy was committed. They were there to shoot them down tike rats in a trap should any opposition be offered to the outrage of the deputy. Here is the story of an "imperialism"

that has never been reached in but few of the monarchies of Europe. Here is an outrage upon the right of "free assemblage" without a parallel in the history of this country save for other the other. incidents in this same fight earlier in the contest. Here is an exhibition of "militarism" in its worst form upon this country just try to break into a American citizens, and union laborers. not in some far away island of the Pacific, but within the boundaries of the native land of those attacked, and individuals, but the movement as a on territory not acquired by conquest, but rendered valuable through the exertions of the very men upon whom the outrage was committed. Bryan say nothing about this in his speech of acceptance Why will be never breathe a word of it in his speech troops are under the command of Gov mine owners to carry on his campaign are waiting to exploit the Cninese. fund. But do the union laborers of America need a man who is seeking those votes? Do the laborers of Chicago care to listen to a man who upholds such actions? Are they curs in that hand for the next four years?

BRITISH WORKMAN'S BALLAD. walked in a precesshin with a banne

and a band.

And they said I was a noosance in Igh Olborn and the Strand:

I spouted at a meeting which was in Trafalsar Square,

But they sent the cops to charge me and to clear me out of there.

and "Damn the lazy jout."

But it's "Bless the British workman,"
with the ballot box about.

The ballot box about, my lads, the ballot box about.

Oh, it's "Bless the British workman,"
with the ballot box about.

I struck for better wages, and they said

I was a fool.

And the crafty hagitator merely used me as a tool:

And when the kids were starving and we hado't sup nor bite.

They only shrusged their shoulders, and they said, it served me right.

For it's "Ruin to the country," and its

hupper classes 'ates.

oh, it's "British bone and sinew," when they want your blooming vote.

Geo. R. Sims.

More Are Needed.

Comrades:-Your county petitions DO NOT come in AS THEY SHOULD. Now look here, DO you know that 19,500 signatures ARE NEEDED to get in establishing a republic over there? on the BALLOT ?

If so hustle: put in your best work; fet's have your lists filled. Now this is a serious matter and should be care fully attended to. You are warned hat not near enough needed are in. We ask you to do your best and get

to work, and DO YOUR LEVEL BEST to get signatures THE TICKET DEPENDS ON YOU. I MEAN THE COUNTY TICKET.

Fraternally, The Campaign Committee.

National Socialist Ticket. For President EUGENE V. DEBS. For Vice-President JOB HARRIMAN.

UNITY ASSURED.

As will be seen in another column the last steps have been taken towards completing union of the Socialist forces in the state of Illinois. Although there has been since July 4th a ticket in the field, a ticket nominated at a joint convention, yet there were quite a number of comrades who refused to recognize the action of that convention as representing the united parties and hence there were two tickets in the field, each with the names of Debs and Harriman at the head. Besides this there were many comrades who largely because of the internal troubles and conflict had refused to work with either organiation. There were several unions and Socialist singing societies who made socialism a test of membership, but who were unrepresented in the previous conventions. All these were eager to forward the cause of socialism but either could not agree which side to support, or felt their enthusiasm weakened by the fact that their agitation must be continually interspersed with ridiculous explanations of internal dissensions.

Now this is all past. There is but one ticket, one movement, one object, one common effort of all forces. There will be no conflicting collections for different campaign committees, to be largely wasted in duplicate work. There will be no conflicting of routes and work of agitators and organizers There will be renewed strength and enthusiasm on every hand. There will be a rallying of new workers and an arousing of old ones.

The only question is as to which on will be the first to come and the first to get to work. Let every comrade riman and socialism in Illinois that will big club to the Workers' Call this week Roupe up your organization. Tell them the good news of Socialist unity. Ask that every man to decide just how much he can give each week from now until election for the campaign fund. Resolution Passed at Joint Convention of er that profit is taken in one lump or of the actions of the two old parties If you have not already arranged for regular agitation, do not put it off a day longer. If you are a member of a Chicago branch get out to every meetthe you have and see that it is a success. If you are outside write in at once if you wish a speaker sent to your locality. There is no longer any excuse remaining, why everyone who desirés the success of socialism and the victory of the laboring class should not at once get to work.

WHY WE STAND FIRM.

It is generally admitted by those of all shades of political faith that when the smoke of battle is cleared away be found to have increased considerably and as the business of the cardtalist politician consists mainly in "capturing" votes for his particular business have an abiding faith, (justifled, we admit, by their experience in the past), that the possibility of such capture always remains as a prize for those who best understand "politics" In the capitalist sense of the word it is not strange that the disposition of the clalist vote becomes a matter of ulaton amongst those veterans in ditical trickery who have had a lifeng experience in separating from heir votes, those who had really no listings conception of what to do with But in dealing with the Social-

methods of devouring third parties furnish to those who observe and understand their actions, a never-falling source of contemptuous amusement The average Democratic politician, whose economic ignorance is almost beyond belief, sees in the Socialis novement merely an expression o general discontent, and assumes at once, (by the way these sages are great on assumptions), that the Socialists are "agin the government," that is, of course the present Republican party in power. Having postulated this to his wn satisfaction he proceeds to reason that there is nothing to prevent the Socialist vote being "thrown" to Bryan who is also "agin the government." It is mostly from this understanding and partially from the desire to entrap those who are unclear and confused as to the nature of socialism, that the articles appearing in the Democratic press announcing the "capture" of the Socialist movement for the party of the little capitalist, find their inspiration The Republican politician on the other hand, who has, as a rule, a more correct understanding of the situation sees in the Socialist an opponent who under no circumstances could be induced by the cry of "patriotism" to unite politically with the party of great capitalism, an opponent with whose growing power he must in the near future wage a struggle to the death, and in consequence the net of the Republican fowler is not generally spread to entrap Socialist votes, its worthlessness for that purpose being clearly demonstrated. The ignoran Democratic politician sees' this, and realizes the deadly antagonism which exists between the Socialists and the Republican party, but cannot conceive that the former should also entertain the same attitude to the Democratic party. His defective reasoning upon this point arises not only from his igporance of the nature of socialism but from his ignorance of the nature of the Democratic party, the last obstacle ing direct legislation he did not think which serves to confuse and render indistinct the fact of the class struggle in the minds of the workers, and he knows that it must be abolished before the great conflict with the highest de- out in the southern states disfranchisveloped capitalism, as represented by the Republican party, can begin. But be brought about by voting the Republican ticket but by the continued accretion of Socialist votes rendering "Democracy" in the capitalist sense, impossible. In Germany and Belgium the so-called Progressive parties are already practically non-existent and even in England the signs of the disintegration of the Liberal party, which to a large extent corresponds with who sees this, begin at this moment to the Democratic party in this country, are already plainly evident. When all reactionary and compromising political startle the country. Send in a good rubbish is removed for good the arena will then be clear for the last great struggle-capitalism versus socialism

All capitalists are "prohibitionists" so far as the right of the worker to consume the product of his labor is concerned.

Are you still hustling for subscribers?

SNAP SHOTS BY THE WAYSIDE.

The recent pugilistic events in New fork are responsible for the publication in the capitalist press of the folowing list of "earnings" by "prominent

"Fitzsimmons in six minutes earns \$12,500.

"President McKinley in one year arns \$50,000

Bishop W. E. M'Laren in one year "General Nelson A. Miles in one year

arns \$11,000. "Admiral George Dewey in one year

arns \$13,500. "Senator Shelby M. Cullom in one

year earns \$6,000. "Chief Justice Melville W. Fuller in ne year earns \$7,000,"

the following list: Coat miners, average, \$300 per appum Tailors (sweat shop), average \$250 per

Farm hands, average, \$250 per an-

Iron workers, average, \$450 per an-

Building trades workers (lockouts excluded), average \$500 per annum. Textile workers, average, \$300 per an-

Furniture workers, average, \$400 per

School teachers, average, \$350 per annum.

It will be noticed that the second list ontains only those who do work actally essential to the well-being of the community, and in the first, there is not one who can fairly be considered as coming under that head. The services of all in the first list are not as valuable to society as those of any onon the second.

The sums of money brinted over against the names on the second list may be truly called "earnings." We leave it to our readers to invent or otherwise supply a name for the larger sums on the first.

Information continues to be imparted to Bryan that he has been nominated for the presidency. The Pops have re cently made him acquainted with that fact and now the silver Republicans have imparted similar intelligence to him, and Mr. Bryan informed them he was glad to hear it. But he said that the money question really did not amount to much this year; the trust question he treated rather coolly, some from his ignorance of the nature of awkward reminiscences of "Ice" doubt-capitalism also. The Socialist sees in there was any very great difference between Democrats and Populists on that question, except in local application. No doubt he had in his mind the legislation at present being carried ing the negroes.

> The boasts of our manufacturers to elay about the future of Chicago, is in startling contrast with the evidence given by these identical individuals before the Industrial Commission recently held. Chalmers, Crane and others at that time saw no hope for Chicago on account of the rebellious attitude of the workers, but now everything is O. K. and Chleago is to be the commer cial and manufacturing center of the universe.

The annual report of the Republic Steel company shows a profit for the first fourteen months of \$5,684,100. We would call the attention of the trust smashers, that the proven advantages of the concentration of industry will not be surrendered to any party or faction based on the principle of private ownership. The masses of the people from whom the surplus value WHERE SOCIALISTS STAND, represented by the above figures was audience for about twenty minutes. extracted, are not interested in whethsplit up among one hundred or more competitors. What they will rebel against will be the exploitation of their platforms, and in the utterances of the hicago are at present locked out, by labor power involved in those figures.

> And their rebellion will take the form of the abolition of the system which makes this exploitation possible.

> The papers are now full of a state ment that the Democrats will make a bid for the negro vote. It is said they will endeavor to carry the Afro-Ameri can convention.

The reasons for this will be that the Republicans in power have failed to protect the negro in his rights against the legislation of the Democrats in the southern states, therefore the resent ment of the negro against the Repub licans is to be expressed in favor of the Democrats, which is a good sample of Democratic reasoning.

The Democrats have experienced omething of this sort with the work ing class, who in '92, dissatisfied with the Republicans, placed the Democrats c field are the tools of capital- in power, and in '96, finding the Demi no better than the Reps, turned them out, and now in 1900 they are again called upon to "turn the rascals out." and the negro., like the working class in general, is expected to allow himself to be put to the same use. Changno relief! How about getting together and putting both sets of rascals out by yoting for socialism, thereby putting an end to the rascals by abo the conditions by and through which rescality thrives?

Hard times are evidently in pros

pect for the workers in the Stock Yards. The daily papers report that P. D. Armour has returned from Europe after an absence of nearly a This is what he is reported to now ready to buckle down to hard work.

Hard work! Does that mean that of production himself? Not at all. Mr. Armour will generously allow them to continue doing the "hard work." His particular "hard work" will consist in appropriating to himself the re- the basis of society today. sults of their "hard work." His "just. reward" for this exertion will consist of all they have produced and are not permitted to consume. To which we append as a contrast

> The Chicago American last Saturday in an editorial practically thows up the stance in the possession of those from sponge for the workers in the Building whom it was extracted, the movement Trades Council by advising them to for the reclamation of this power was select one or two of the contractors already in progress and found its exwho have shown the most hostility, and bend all their energies to bring about their commercial ruin as an example to the others.

Is there a workingman who will admit that the contractors have as yet beaten the men? To attempt to fellow the advice given would be a clear admission that the unions are now beaten.

Is there a workingman in the buildng trades so ignorant as not to know that nothing can be gained by a conspiracy to destroy the business of any individual "boss?" Is it not plain that the obliteration of one "bos-" merely transfers his power to his remaining ompetitors?

The lesson learned in the lockout is but that the "boss" system, which en-ables a few hundred to deprive pernecessaries of life, is "bad" and must be destroyed. Those who have not yet repeated again and again for their ben efit until they recognize its truth and act accordingly.

And those who see that the system voting for McKinley or Bryan will not effect that purpose, but on the contrary will only tend to maintain the system. That they cannot get even with a Re oublican contractor by voting the Democratic ticket or vice versa. That the only method of abolishing it lies in voting for socialism as represented in the ticket headed by Debs and Har-

THE HARRIMAN MEETINGS.

Vice-Presidential Candidate Makes Vigorous Propaganda for Socialism in Chicago.

The arrival, after his tour through the Central states, of our Comrade Job Harriman, vice-presidential candidate on the Socialist ticket, in this city was paign committee who arranged three public meetings for Comrade Harriman which were liberally advertised. and carried out most successfully. large nudiences gathering upon each occasion to hear the speaker.

The first meeting was held on Satur. day, the 25th ult., at Hull House, where an audience numbering considerably over eight hundred literally packed the hall to its utmost capacity.

Comrade Morris Kaplan of Bosto acted as chairman on the occasion and after a few well-chosen preliminary remarks introduced as the first speaker Comrade A. M. Simons, editor of the Socialist Review, who addressed the dwelling chiefly upon the significance dictions and absurdities involved in the representatives of each. The feeble and ridiculous logic of the party of small capital naturally enough drew many caustic comments from the speaker and caused a Bryan worshipper in the audience to protest against the relentess scoring which his party was receiving. His protest took the form of asking that the Republicans receive an equal "roasting," and his reques was granted in so far that the speaker again defined the attitude of the Solalists to their most formidable my, the highly developed capitalism represented by the Republican party. chairman then introduced speaker of the evening. Comrade Harriman was received with enthusiastic cheering which continued for severa minutes. After silence had been restored the speaker commenced, and for over an hour the audience listened to one of the clearest expositions of the basis of human progress from the historical materialistic point of view, that has ever been delivered in this city.

The speaker postulated as a fact which holds good in society for all historical periods, that human progress has always proceeded upon the basis individuals appropriated power from others and by such appropriation constituted themselves the rul-He traced the progress through the first stage of cannibalism. showing that the flesh of prisoners taken in war was used by the victors for the purpose of transfering power from the material substance of which their prisoners were composed, into their own bodies. The next stage was shown as an improvement upon this

crude method, where the labor power of the victim was discovered to be productive of more rower (subsistence than could be derived from the direct consumption of his body as food, dishave said in an interview: "I feel bet- placing the custom of cannibalism and ter than I did in my whole life. I am substituting that of slavery in its

In like manner he traced the progress of society through its different economic stages down to the present, and Mr. Armour is about to discharge his showed conclusively that while the wage slaves and carry on the work method of transferring power from one portion of society to the other had changed from age to age, yet the fact of the transference remained essentially the same and was still prevalent as

He showed that the modern capitalist system of production was by far the most efficacious method of extracting this power from the masses for the benefit of the capitalist ruling class. That as all power was in the first in pression in modern socialism,

Comrade Harriman during the cours of his address illustrated portions of his remarks by apt stories and anecdotes, the point and application of which were quickly grasped by his audience as the applause which greeted his closing sentences amply testified.

Some lively discussion took place after the speaker had concluded and the audience then departed satisfied that they had heard a most instructive and thoughtful discourse.

On the following evening Comrade Harriman addressed a large and mos enthusiastic audience in the hall at 70 N. Clark street, where the convention on unity had just completed its work About eight hundred people listened attentively to a speech dissecting and exposing the feeble attempts of the Democratic party to pose as the friends not that some particular "boss" is bad, of the working class, an editorial which appeared in Hearst's Chicago Ameri can furnishing the text of the speaker's haps a hundred thousand people of the baddress. After the conclusion of the address, the audience who had been worked up to a state of enthusiasm learned it will have a similar lesson by the successful finish of the unity proceedings, formed themselves into an impromptu parade and marched down town in celebration of the event, to the astonishment of the passers by, to whom the jubliant paraders insisted must be abolished will also learn that upon communicating the news that there was ONE SOCIALIST PARTY

> as represented by Debs and Harriman The comrades in Pullman and Kensington also had an opportunity to near the vice-presidential candidate and on Monday evening the Kensing ton Turner Hall was comfortably filled by an audience who availed themselves of the invitation offered through the handbills announcing the event.

in the field, and cheering for socialism

The profit system was minutely ex imined and its workings and results exposed in a powerful address which occupied about an hour and a half, and the frequent applause with which the remarks of the speaker were greeted, showed that some telling points had been made. The certain destruction of the system itself, and the irresistible used to good advantage by the cam- advance of the new economic era expressed in the Socialist movement, concluded the address which was attentively listened to throughout.

By the time that this Issue reache the hands of our readers Comrade Harriman will have left this city to go to Haverhill, Mass., where he has been invited to address the assembled trades unions upon Labor Day.

CORRESPONDENCE.

Good Work in Galesburg.

on the labor question he had e heard. One old colored man, an slave, at the close of the meeting is repeating "He sure struck the note."

This afternoon we organized a local, including in its membership some of the leading representatives of organized labor in Galesburg. We mean to do active work here and are particularly anxious to have Comrade Harrithe Republican party. Now while all man speak here.

300K REVIEWS.

A PARADOX EXPLAINED. By George A. Eastman. In stiff paper cover. 10 cents. To be obtained from all newsdealers,or the author, at 138 Orchand St., Detroit; Mich.

This work deals with a question which is often a source of confusion to those whose acquaintance with the principles of socialism is limited. The middle class advocacy of "municipal ownership," so-called, has been so persistently asserted to be a "step towards socialism" that it has to no small extent retarded the growth of the genuine movement in the minds of those to whom the "step at a time" seems practical. To draw a clear distinction between the "public ownership" which leaves capitalism still dominant, and that which looks directly to its overthrow, is the purpose of this work, and it must be admitted that the writer has achieved his task in a thoroughly satisfactory manner. The subject chosen gives him an opportunity to present to the reader what is to all intents and purposes an elementary treatise on socialism, in which the propositions enumerated and the positions taken, themselves annihilate, without directly attacking, the middle class conception of municipal ownership. Ignorance of the structure of society as being divided into distinct classes, in other words, the non-recognition of the class struggle, he points out as being the primary cause of confusion in the minds of those unable to distinguish between capitalism masquerading under the form of socialism, and the reality which pre-supposes the political and conomic supremacy of the working class, the producers of all wealth. On the whole the work in question is a clear and concise statement of the Socialist position and principles, given in plain and simple language, easily understood by the average reader, and we would recommend Socialist comrades throughout the country to give Comrade Eastman's book the widest possible circulation amongst those who are most Culation amongst those who are most likely to be deceived by the spurious yesterday will show you, Comrade La Monte had a good meeting here Friday might, and had another good one last night, and had another good one last night. Last night's meeting was interfered with by a band concert, but nevertheless Comrade LaMonte interested and held a large audience. Ex-Mayor Cook, a layyer, told one of our comrades that it was the best speech on the labor question, he had ever

Both Equally Guilty. An attempt was made at the last

meeting of the Federation of Labor to lay all the blame for that outrage on the Republican party. Now while all that was said about the actions of that party were true and might be pictured even worse than they were, yet this is but half the tale. Those troops were Editor Workers' Call:—

This has been rather an active week in Socialist circles, take it all around.

Job Harriman followed up his meeting at Shrine Hall Monday with a street specting at Eleventh and Grand hvenue. Tuesday. The street was filled, but the police having had notice had with more or less ill-nature tried to keep a free passage for vehicles or one side. that supported him were delegates to with more or less ill-nature tried to keep a free passage for vehicles on one side. Harriman told the story of the Wardner Bull Pen as he knew it, and the close attention that he received showed that it was understood and appreciated. He spoke for somewhat over an hour, and followed by G. C. Clemmens at Topeka, who happened to be in the city. Mr. Clemmens is candidate for governor of Kansas en an independent Socialist ticke. which gives a complete history of this whole affair and which has been endorsed by Jas. Boyce, the president of Miners' union, as the only accurate account of the whole matter.

sometimes broken up, yet, despite it all, Warrington and his few helpers stuck determinedly to their posts.

For years Warrington had been in the Socialist movement, giving his time and strictly adhering to the orthodox econoheart the despair of vanishing hopes.

This night a friendly policeman had times thinks of the past. warned him that there might be trouparliament for a credit vote of eleven millions for warlike purposes on acghan frontier. The nation was rampantly jingo and "We don't want to

Warrington denounced all wars and pointed out that war, after all was only to the advantage of the wealthy and great-the financiers who controlled the money markets; the patriotic contractors who supplied the army with rotten beef, tin swords and lead bayonets. The interruptions had been coming fast and furious and a climax was reached when he declared that Britain had never engaged in a just war during the century; that all her wars had been wars of profit, even the one so lately finishedthe Egyptian war-had been undertaken solely to safeguard the wealth of a few cosmopolitan swindlers, one of whom was a member of government-Goschen.

Here the din became terrible, succeeded by hustling, the throwing of missiles of various kinds, and when Warrington recovered consciousness it was in the accident ward of the hospital, a half brick having made an ugly gash in his forehead.

Lying in the hospital, he had ample o for reflection on the past, and the future as well, for his employers had plainly intimated that on no account would they re-employ him.

On stepping out of the hospital into the world again he smiled grimly as he summed up the situation.

"Here ends the first act. I have come out of my world of dreams at last. The people! If they will wallow in their own filth-well, let them. Now I shall extended description of the ratificat What a concentration of conveys. The people! To hell with

Extract from the Coalburn Gazette, Saturday, August 19, 1899;

a meeting which had been held for the purpose of furthering the candidature of Mr. J. P. Warrington, the Liberal candidate for Coalburn. The Assembly hall was crowded long before the advertised time, as the people were anxnative of the town, and left it poor and again. friendless to return rich and honored.

Lord Scareby occupied the chair and in introducing the candidate said it was a great pleasure for him to have the privilege of addressing such a representative working class audience. He fact that the workingman who can had been associated with Mr. Warring- swallow all the rot that Hearst tries to ton in various enterprises and he could fore, speak with authority. The proves the rule. At least we hope so. candidature of Mr. Warrington had been indersed by the leaders of the at Liberal party. He had sprung from their own ranks, a native of their the economic field. It is pitiful to se splendid characteristics of pluck, energy and self-reliance which had made the town of Coalburn known all over the civilized world. (Cheers.) He was worthy of his rative town, his native town was worthy of him, and no where in the United Kingdom could be find a candidate and constituency so well fitted to each other as Mr. Warrington ton's first public appearance in Coalburn; he was sure it would not be his last. However, he would now call upor Mr Warrington to speak for himseif, (Cheers.) Mr. Warrington, on rising, was received with loud and prolonged

Both these individuals are the same and I am the man And now before I finish; I know your groveling worship of wealth; you will let me speak; although you threw bricks at the poor Socialist-I merely wish to express my cogtempt for you I might desire to represent a constitu uency of men; but of curs-never,

"Now you have my reason for withdrawing my candidature. Hypocrites and lickspittles all of you! There is no manhood in you, nor respect for women nor love for children, or the system which robs and crushes you would not last a day. Had you manhood you would not fawn upon me, upon me who have done my share of robbing you. When I was honest and sincere I was bounded out of town; now that I am a scoundirel and robber you are only too anxious to do me honor. Dogs will not caress the stick that beats them; but you-men. Bah!"

And gathering up his papers, the speaker left the platform. There was no noise, neither applause, nor the reverse, but a long sigh escaped the audience, as they rose to their feet and slowly filed out of the hall .- John Blair in Reynold's Newspaper, London.

Unity Ratified.

We go to press to late to give any work for myself and myself alone, meeting that was held in the Hull House auditorium Tuesday night, Suftenorance and superstition that word fice to say that a more enthusiastic meeting was never held in county. Comrades Harriman, Steadman, Edwards, Morgan and Simons poke of the brilliant prospects before the united party. Comrade Smiley pre sided and kept the ball rolling and Comrade Strickland was everywhere filled with enthusiasm song and good cheer. The whole meeting was a firm estimonial to the fact that the Social ists of Chicago were together for keeps fous to see Mr. Warrington, who is a and that nothing could ever divide them

> The Chicago American prints an editorial attempting to prove that the vorkingman is not all stomach. While this may be true, it is none the less a shove into him is the exception that live in luxury undreamed of by the

The laborers of Chicago are making a magnificent fight for their rights on them selling their political rights for a mess of taffy on Labor Day and then delivering the goods on election day to the very men they have been fighting the rest of the year.

It may be all very well to let the cantalists see your strength on Labor Day by parading, but it is better to let then feel it on election day by voting the ticket of your class.

The "boss" is quite content that you hould vote the same way as he does -for him-and he knows it if you

A BIRD'S EYE VIEW.

Factory System - The Trades Union - The Trust - The Law Making Power-Socialism.

When the factory system was first introduced into society, after the invention of the great labor-saving machines, the men who owned those machines went into the market to buy labor-power with which to operate them. The men who had been producing on owned tools, found that they could no longer compete in the market with the products of the new machines. Let us make this plain. People some times say that a man does not have to work for another unless he wishes. But what will he do if he does not wish to work for another? He must produce with the best tools, that is the great labor-say. ing machines, or else he cannot com pete in the market and keep alive. But railroad, telegraphs, slaughter-houses etc., belong to a small class of men who will not let anyone who wishes use looking for labor-power with which to OWNER. run their machines. The great mass of cept by selling their labor-power. buyers of labor-power pay no more than must decide whether his masters shall. Several thousand vest makers in the they are compelled to. The sellers of give him his board and lodging tickets. New York sweatshops are on strike for

fixed by the ones who can live the these questions, which after all will be cheapest. The women and children who decided by economic development or the have the least power of resistance and pense set the pace for all the others. This was the wey it was at the begin-ning of the factory system and is still ness, that he wants neither large nor cause weakened, which was all that a system and see how absurd, unworkathe condition in the sweated trades where the weakest and cheapest member is forced to constitute the measure by which all must exist.

The trade union was simply an effort to compel the employer to make his himself while his master goes to work-transportation, and in Canada the purchase of all his labor-power at once Hence the Socialist asks that he quit trades unionists are "going into poliand thus the resistance power of the fighting his masters' battles, settling ties" on their own hook-with the Soworkers was measured by the strength his masters' questions, heaping his of all united instead of by the strength of the weakest member. Steadily the strength and size of the unions has increased. They have constituted the great bulwark that portion off the laboring class that are within their ranks. So long as the present organization of dependence of the workers in their daily struggle against the employer.

But of late tremendous changes have taken place in the organization of industry. Combinations of capital have been formed on every hand. The individual employer has given place to the corporation and the corporation has been merged in the trust. Employers no longer compete, but combine, that they may prevent the laborers from se curing a larger share of his product.

So it has come about that while the strong as it is today it has tasks before it many fold more difficult than those with which it has ever been previous; confronted. In the face of the complete trust it is well-nigh helpless. If it calls a strike, the employer can wait, seren in the conviction that no competitor can undersell him, and certain that when production begins again he will still control supply and demand. If the strike is only at one plant he can close down where attacked, and transfer his work to another plant and carry on his business unaffected by the efforts of his laborers. These tactics have already wiped out all unions in the packing in dustry, the Standard Oil lines of production and in most branches of the steel trade. It is time the union men sought new methods of fighting before they are deprived of all weapons.

see what it is that gives the employer his present commanding position. W shall find that it is simply his ownership of things which the laborers must use if they will live. Because he owns these things he is able to keep the wages of all practically at the point where they will sustain life while those laborers have been using continually improving tools until they produce today ten times as much as suffices to pay them their wages and keep them alive. All the remainder of this tre mendous increase in what the laborer produces is kept by the man who own the tools and buys the labor-power. The result is that while the wage slaves of today receive just about what the slaves of all ages have received. funless by the appearance of some of the slums of our great cities they are receiving even less), their product is so great that their masters are able to slave owners of earlier days. This class of owners have thus become the ruling class. They conscol the press, the platform, the law-making power, the courts and the administration of justice. They administer all these things in their own interest. They bend every energy to se administer them for the one main purpose that their ownership of the things that the laborers must use in order to live, shall not be disturbed. For nothing else do they really care, for they know that so long as that ownership remains, they have the master hand and can retain the lion's share of what

But this ownership is a LEGAI in the interest of this ruling class. Bu the strange thing is that the lab

The capitalists know this if the laborers do not, and they take good care to see that the workers are kept from thinking of such things. They know that if the laborers should once conclude to act together at the polls as part of them are now acting together in the unions, it would be all day with idle luxury.

This is what the Socialist is always trying to tell the union man. He points out that in his union he is only trying to get a part of what he produces so ong as the things upon which he depends for a living are in the hands of his enemies. In trying to get a half election coming.-Goodhue County loaf he is losing all. If he would be a News. free man he must unite with his whole class at the polls and wipe out the CAUSE of his troubles. He must own works and which he today uses collectively. The Second Grand Pienic of the Bohemian branches of the Social Democratic party of Chicago will be held at Laznovsky's Grove, Irving Park, Sunday, September 2nd. This is given for the benefit of the Bohemian weekly "Sprayedinost, which has been doing good work among the Bohemian laborers for the past year. The park is hear the Bohemian National cemetery and is reached by the Elston avenue cars. Admission ten cents.

On the 23rd inst. at Clark and Noble

held with Comrade Simons as speaker. He gave a most interesting sketch of the historical changes in society which had occurred in the past and showed that in every case, the laborer's product, over and above what was necessary to his subsistence, was appropriated by the ruling class of each successive period. His remarks were most attentively listened to by the audience, who displayed a keen interest in following the comprehensive sketch given, which logically led up to collective ownership of the means of production as the only solution of the social problem of the age.

An enthusiastic meeting took place at Oakley and Twenty-fourth streets Thursday night, and every reference of the speaker to socialism was greeted with applause, especially when it was stated that the lying literary prostitute of journalism, Hearst's American, was trying to fool the people by stating the Socialists were going to vote for Bryan, in white of the fact that last week it said we had sold out'to Hanna. People are commencing to understand the Hearst method of publicity and are lining up every day for socialism. All the meetings are attended by large and attentive audiences and it does not need boosters like Democracy and Republicans have; as the people are beginning to see that socialism is their only hope. Hurrah for socialism! Keep up the good Hurrah for socialism! Keep up the good

NOT MADE TO ORDER.

Neither Capitalism nor Socialism Can Be Comprehended as Fre-aranged "Sys-tems" of Society.

After an hour's talk with a capitalist friend on socialism with little result. the following thoughts occurred to me:

The reason why the educated men of today cannot understand socialism, apart from the question of class interest, is because they do not understand capitalism. Socialism cannot be understood as a system, but only as an evólution. Capitalism also cannot be understood as a system, but only as an ble and impossible it appears. Think you would ever explain capitalism to a man from outside, from the moon for instance, and make it appear practicable? Yet it exists. But it cannot be explained as a System made to order.

How easily any intelligent man could, if he had the opportunity, make history over again, reconstruct the history of the human race and correct all the mis-At the coremaking and snap molding takes there are in it. What a grand system a man could make out of his hand to correct the mistakes that have been made in it and save the race from through and is now going through in South Africa, China and elsewhere, all because men are so unreasonable and cannot 'understand each other's "systems" unless explained by Gatting guns and the like.

The capitalist therefore cannot understand the "system" of socialism. Neither can the reformer. The reformers are looking for a political Messiah, a new Washington, Jefferson or Lincoln, They are looking for a better "system" to replace the present "system." They say, show us a sign, show us your platform, your system, that we may either apthem. Socialism will never come as a system fully embodied in a platform in an unwelcome garb; the reformers are looking for some new "system" and stand it more readily.

Some of our good Christian friends say that we are all striving for the same end, but differ as to methods. The fact is that socialism itself is not an end. but a process, a method if you please, and that the end and the method cannot be separated but are one and the same thing.

Capitalism is not a system which anybody could think out and apply and set The County Campaign committee of in motion. It is a historical process the Social Democratic party meets at which has now run its course and has 65 N. Clark street every Wednesday at left in its trail the leaven of a new 8 n.m. process, socialism. This leaven will work all right, whether the so-called educated man of today understands its workings or not.

With hands still dripping with the Committee.

We ask all comrades who can possibly do so, to supply themselves with bundles of this issue for sale or distribution, as we have ordered a very large number of extra copies. Call at our office or send in your orders by mail, and they will be promptly attended to. blood of the union workers of the

the scab-built stand of the G. A. R. on Labor Day, and the scab ticket (Republican and Democratic) on election day.

Will there be any man at the Labor Day picule in Chicago with manhood enough in him to protest against the insult to his class which compels him to listen to the representatives of his enemies and to demand of Bryan that he explain the Idaho Bull Pen and of Roosevelt that he tell why he sent troops to the Croton Dam?

The Republican version of the Decthe black. By and bye they will get together and fix it up so as to shut out the white man, more especially the sort that works for wages

merits, but who still somehow do not ownership of the tools with which you this time, and if it doesn't turn outright, and distribution? the Socialist worker, for they indicate the citizens of a country who were much reading of good literature, placed king, or suffer the calamities of in their hands by the comrades inter- destructive war thusested in their conversion.

Why do you vote at all? To further ous." your interests as a workingman, or to Fellow workers, this is your position. testify to your appreciation of a party pears to the men who are shouting for working class,

his product, with the shortest possible aditure of labor. To do this the most labor-saving tools. The trusts as Debs and Harriman, now organized form the best means of production and in the hands of the workers can be improved as desired. At present these tools, (the trusts), are owned by the capitalist class, and instead of being operated to produce the needs of the workers and lighten their labor, as improved owners, for which the workers receive Philippines and loudly do they proenough to live on, and have very little claim as a self-evident truth, that govthe benefits of the trusts, telling how hodge podge called a party has lost the labor, but they fail to say anything about this labor being a menace to the operated in order that we may live so all kinds of issues to blind the workers.

Expansion, which means more markets which will keep more of us at work at longer hours grinding out profits for the owners of the machines. When the Socialists say to the workers, "Our platmachines collectively and manage their stantly to know his choice between giv- Declaration of Independence do? ing another power ever him through ownership of the means by which he the workers as a class that they have CHARLES M. KERR & COMPANY must live, and keeping that power for free access to the means of production himself by uniting with his class in and distribution and also the right to common ownership. Republican party. But the Democratic Whereas. The capitalist class who own party says to the worker, "You need not these means, but do not use them, holdown your own freedom to work and eat ing them only to make a profit from laand clothe yourself by owning the tools bors' toil, thereby causing want and which makes this freedom possible for misery untold among the working class you; all you have to do is to elect us by denying them, free access to these into power and we will smash the trusts means, they (the capitalists), not being and instead of having a few masters able to use them and in fact having no such as own the trusts now, we will fix lidea of using them, have long ago out it so that the means of your life will be lived their usefulness and are now simin many hands and then you will have a ply a class of parasites; and chance to compete with each other for there will be more jobs, for don't you see the trusts do away with a great deal in our society; and of labor, which would be employed again if we go back to where we were before the trusts came." But, workingmen, isn't it more of your product and less labor that you want? Why vote for a party that seeks to put you backward simply to get in power? If Bryan is so ignorant as to advocate going backwards he is not fit for the power he seeks, and if he is not ignorant of the better way of collective ownership of the means of life but conceals it to class, he is not fit to be trusted by the working class, whom he thus betrays. two evils, and that he will do better for the workers than McKinley. Then read one with the big capitalists and usually reports them correctly. This is taken from his letter to the Chicago Record of Saturday, August 18:

fortable. They are convined that Mc-Kinley will be re-elected, and even if Bryan should beat him, no harm could result, because the Beauty Bryan should beat him, no harm could result, because the Republicans will certainly have both housed of congress, so that the tariff law and the gold standard act cannot be repealed. For this reason Mr. Bliss' little safe is hig enough, not only for what he has, but for what he hopes to get in the way of campaign funds.

working class are expected to be, harmed and the capitalists stand ready to buy talist party government the skinning is performed.
